RULES TO ENSURE YOUR TRASH, BULK, AND YARD WASTE ARE PICKED UP EVERY WEEK

Trash can be put out the night before your trash day after 7:00 PM, or before 7:00 AM the morning of your trash day. Trash not put out on time could result in a non-collection event, and the resident will have to wait until the following week for their trash to be serviced.

All household trash must be placed in your trash cart. Trash cannot be on the ground in plastic bags or in totes. Do not lean anything against the cart or place anything on top of the cart lid.

Please put your trash in a plastic bag, and then it can be placed in your cart. Placing loose trash directly in your trash cart often results in a mess on the street or in your yard.

Place your cart at the curb facing the correct way. The lid handle must be away from the road.

Overloaded or overflowing carts could result in a non-collection event.

Your trash cart cannot be next to anything such as a car, plastic bags, plastic totes, another trash cart, a mailbox, or a pole. If you have multiple trash carts, do not put them too close together, allow 4'-0" minimum between carts.

Carts containing any debris other than household trash will not be picked up.

YARD WASTE RULES

Yard waste in cans, bundled branches, and leaf bags will be picked up every week on your trash day.

Mixing household trash with yard waste will result in a non-pick-up event.

Yard waste, leaves, small branches, and grass can be placed in paper leaf bags.

Yard waste can also be placed in the resident's personal 33-gallon garbage can, as long as the can is labeled "YARD WASTE".

Small tree branches/limbs should be bundled and tied in less than 4 feet. The driver WILL NOT pick up logs larger than 6" in diameter.

The last day Priority will collect leaf bags is the last week of November. No yard waste will be picked up during December, January, February, and March.

BULK WASTE

Priority will pick up no more than two bulk items every week on your regular trash pick-up day.

Carpet and pad must be bundled, tied, and cut into less than 4'-0" long lengths.

Mattresses must be wrapped in plastic or placed in a bag. Bags are available at City Hall in the DPW Department.

Christmas trees will be picked up on your regular trash pick-up day the week of Christmas, and for the following four weeks.
