Looking Glass Walking Tour Community Development Specialist Shawn Oliverson introduced Don Kostelec and Chris Danley of Vitruvian Planning. In connection with the 4-CASI Alliance, Don and Chris came to Preston to do a "Looking Glass Walking Tour", to find ways to improve pedestrian safety and walkability throughout the city.

Chris Danley and Don Kostelec gave a presentation to the necessity of safe walking ability in Preston. They encouraged curb extensions and pedestrian refuge islands, enhanced or protected crosswalks, and comfort features. They will provide a detailed walkability improvement plan for Preston.

Mountain West Water Works Gregg Roderick and Matt Foster of Mountain West Waterworks proposed that the City of Preston contract with them for wastewater management. Their services would include a Level 4 treatment plant operator, bi-monthly on-site direction and training, and on-call relief.

Air BnB John Kezele came before council to address concerns he has for the neighbors operating a short-term rental out of their house and accessory building. He has had issues of people who are renting from the neighbors coming onto his property as well as coming into his home. He feels there is a safety issue, as well as a disruption to the serenity of the neighborhood, and would like city council to attend to these issues.

Decision S.U.P. Justin Carter City Engineer Tyrell Simpson explained that per Preston City Code, in order to get a building permit for an accessory building, the lot needs to be occupied with a primary building. Justin Carter is requesting to build a machine shed on an empty lot. The machine shed is classified as an accessory building, so he was required to apply for a Special Use Permit.

The Planning and Zoning Commission held a public hearing on August 23, 2023. They are recommending that City Council approve the Special Use Permit for an accessory machine shed at 1600 North 800 West for Justin Carter.

It was moved by Councilmember Todd Thomas and seconded by Councilmember Brent Dodge to uphold the recommendation of the Planning and Zoning Commission, and approve the Special Use Permit for Justin Carter at 1600 North 8th West, to construct a machine shed on a parcel of property, where there is no existing primary building in which the building can be accessory to. This received unanimous approval.

Business License Groll Chris and Janine Groll have applied for a business license to operate a short-term rental on their property. They have three separate rental spaces. They have a loft on the second floor of their home, a basement apartment, and an accessory building with living quarters known as, "The Man Cave". The Grolls live on the main level of the home. They have operated the short-term rental for a few years, but only recently learned they need a business license to do so.

Community Development Specialist Shawn Oliverson stated that there are three different spaces for rent. There's the loft upstairs, the

CITY COUNCIL MEETING

basement and the accessory building. The basement is in compliance. There are three rooms, and they advertise the occupancy as 6. The question with the loft, is that it is one big room, and code states 3 persons per room. It is advertised as 6 maximum occupancy. And the accessory building is not classified as an Accessory Dwelling Unit (ADU).

Attorney Lyle Fuller advised that the council will need to make a determination as to whether or not the basement will be considered an accessory dwelling unit, and if it's the intent of the council that every time someone remodels their basement for living space, it becomes an accessory dwelling unit.

After discussion, It was moved by Councilmember Chris Larsen and seconded by Councilmember Todd Thomas to table a decision on the business license and have the Groll's work with city staff to get everything into compliance and then come back before the council. This received unanimous approval.
