This Planned Residential Development Application is being submitted with my consent.

Property Owner's Signature Date

**INFORMATION REQUIRED WHEN APPLYING FOR APPROVAL OF A
PLANNED RESIDENTIAL DEVELOPMENT (PUD)**

PRE-APPLICATION REVIEW

Prior to filing the formal application described below, the applicant must submit plans of the proposal to the Director of Community Development for review and comment. Such potential problems as drainage, topography, circulation, site design, and neighborhood impact will be identified and addressed during the course of this pre-application review.

APPLICATION

Once a complete application is filed with the Department of Public Works, the City is allowed 60 days to hold a public hearing before the Planning Commission on the matter. An application will not be accepted until complete, as determined by the Planning Division. A complete application must include:

1. Application Form (Attached).
2. Environmental Checklist. The Checklist will be reviewed by the City’s designated “responsible official,” who will determine if there appears to be a probable significant adverse environmental impact; if so, an Environmental Impact Statement (EIS) will be required.
3. Legal Description. The applicant must submit a complete legal description that adequately describes the property for which the planned residential development is requested. This legal description will be checked and verified by the Engineering Division. Inadequate legal descriptions will be returned for corrections.
4. Preliminary Plan Drawing. A reproducible preliminary plan drawn to a scale of 1” = 40’ is required. This drawing must include:
 - Proposed name of the development;
 - Location by section, township, range, and/or by other legal description;
 - Names, addresses and phone numbers of the developer(s), property owner(s), and registered land surveyor preparing the plan;
 - Scale of plan, date, and north point;
 - Existing topography of the land indicated by contours at 5-foot intervals or less, except where a slope exceeds 50%, then the interval may be 10 feet. All elevations shall be based on City of Pullman datum;
 - Land use zoning classification and the floodplain zone classification;
 - The land or lot divisions of adjoining properties within 100 feet of the boundary of the property;
 - Location of proposed structures, common areas and facilities, minimum required yards, and circulation elements, including walkways, bike paths, and parking in sufficient detail to show relationships between these elements;
 - Location, widths, and names of existing or prior platted and proposed streets, railroad or utility right-of-way or easements, parks or other public spaces, pedestrian walkways and existing permanent structures to be retained within and adjacent to the property;
 - Existing and proposed water and sewer lines, utilities on, under, or over the land showing approximate size, grades, and locations;
 - Location of all ditches, culverts, catch basins, and other parts of the design for the control of surface water drainage;
 - Typical roadway section right-of-way to right-of-way and approximate grade for all proposed streets.

5. Architectural Drawings. The applicant must submit plans, drawn to scale, of all exterior elevations, with exterior surfaces and colors specified.
6. Vicinity Map. A map of the surrounding area showing existing uses within 300 feet of all project boundaries is required.
7. Explanatory Material. A written description of the characteristics of the proposal and the planned construction schedule is required.
8. Landscape Plan. The applicant must submit a landscape plan, drawn to scale, showing all existing and proposed vegetation including vegetation to be removed, fences, walls, walks, and other landscaping improvements. The landscape plan may be combined with the preliminary plan drawing.
9. (OPTIONAL) Plat. An applicant who intends to subdivide land for transfer as part of a planned residential development project shall obtain approval of the short or long subdivision in accordance with the appropriate city code provisions before any building permit or authorization to begin construction is issued, and before any portion of the property is transferred. The preferred method is for the applicant to process the subdivision application concurrently with the planned residential development proposal.

FEES

1. Planned Residential Development Filing Fee.....\$ 1,000.00
2. Environmental Checklist Review Fee:.....\$ 300.00
3. Hearing Examiner Appeal Fee:.....\$ 500.00
