APPLICATION

An application must be filed with the Community Development Department (CDD) to initiate the request for approval of a site plan. An application will not be accepted until complete, as determined by the CDD. A complete application must include:

1. Application Form (on reverse).
2. Environmental Checklist (when required).

Provide **one (1) digital set of plans** (if greater than 20MB, you may submit digital plans on a thumb drive, or contact pwcd-admin@pullman-wa.gov to arrange a different transmittal method) **OR seven (7) hardcopy sets of plans** for Item Nos. 3 through 7 below:

3. Site Plan. The site plan must be drawn to a scale of not less than 1 inch = 40 feet on a sheet(s) with minimum dimensions of 8½ inches by 11 inches and maximum dimensions of 24 inches by 36 inches. This drawing must include:

- dimensions and orientation of the property;
- location and dimensions of buildings and structures, both existing and proposed;
- location and layout of off-street parking and loading facilities and pedestrian access separate from vehicular driveways;
- location of points of entry and exit for motor vehicles and the internal circulation pattern;
- location of walls and fences with an indication of their height and construction;
- placement of exterior lighting and the height and type thereof;
- location, size, and height of all exterior signs;
- a grading plan adequate to show all new cuts and fills and changes in drainage prepared as required by the provisions of the City of Pullman Design Standards. Grading plans shall include provisions for drainage and erosion control during construction;
- the heights of both existing and proposed buildings and structures;
- location of refuse facilities and refuse container screening devices;
- the proposed use of buildings shown on the site;
- the location of required buffer areas, yards, and open spaces;
- the location of all existing and proposed easements;
- the location of all existing and proposed utility structures and lines including connections to the public water and sewer lines;
- the location and capacity of all stormwater drainage systems including stormwater detention systems when necessary;
- the location of existing and proposed fire hydrants within 250 feet of the proposed buildings or structures; and
- a signature block with space for signatures for the approval of the Director of Community Development (Director) or Board of Adjustment, whichever is appropriate.

4. Architectural Drawings. These must be drawn to scale, showing all exterior elevations with exterior surfaces and colors specified.
5. Topographic Map. This must delineate contours, existing and proposed, at intervals of 5 feet or less and show existing streams, marshes, and other natural features.
6. Landscape Plan. This must be drawn to a scale of not less than 1" = 40' (may be combined with the site plan) and show the location and description of landscaped areas.
7. Vicinity Map. This must show the existing zone district of the proposed development site and other zone districts adjacent to the site.

PROCESSING TIME

A site plan will be reviewed by the City's Site Plan Review Committee within ten working days after the application is accepted as complete. The Director then has five working days within which to approve or deny the application.

FEES

Site Plan Application Fee.....\$250.00

PROJECT DESCRIPTION: (attach additional sheets as necessary)

Describe scope of project; include nature and size in gross floor area of each use, total square footage to be covered by impervious surfaces, and zoning district for the project site and adjacent areas.

PROJECT DESCRIPTION: (continued)

All information provided in this application is said to be true under penalty of perjury by the laws of the State of Washington.
