

Oswego County, NY
Agricultural District #11

SANDY CREEK QUADRANGLE
NYS DOT Planimetric Quad Code = K30

PLANIMETRIC MAPS These black and white 7.5 minute quadrangles include a wide range of information. Transportation data include all roads and most major trails, railroads, airfields and ferry lines. Roads are symbolized as divided or undivided and all ramps and other interchange details are shown. Boundary lines are shown for all cities, villages, towns and counties in the state as well as for miscellaneous state lands, Indian reservations and federal lands. Small buildings are shown with a standard symbol, larger ones are drawn to scale. Many landmark buildings such as schools and houses of worship have unique symbols. A gray tint is used to identify heavily developed areas. Within the first areas only landmark buildings are shown. Virtually all water features in the state, from small streams to the Great Lakes are also shown. (Contour differs slightly on pre-1972 maps) TOPOGRAPHIC MAPS The 7.5 minute Topographic Maps combine the Planimetric Map image with elevation contours from the corresponding U.S. Geological Survey Map. The contours appear in light brown, and the Planimetric Map image is black. Although the Planimetric Map has been extensively revised, in most cases the contours are reproduced exactly as they appear on the U.S. Geological Survey Map. This means that in cases of major new construction, the contours in the immediate area of construction will be incorrect. BOUNDARIES National State County Town or City Incorporated Village State Park, state land, reservation or federal lands Municipal park ROADS AND RELATED FEATURES Divided highways and streets: Wide mail (50 - 100 feet) Narrow mail or barrier Undivided highways and streets: 4 or more lanes Less than 4 lanes Vehicle track or trail Attery Underpass, overpass Drawbridge Tunnel Wingwalls, bridges over 300 feet Footbridge	Touring route markers: U.S. State County NYS Seaway Trail Bicycle State highway section number and limit County road Interchange number BUILDINGS AND RELATED FEATURES Small building (less than 100 feet wide) School, house of worship Large building (more than 100 feet wide) Build-up area line (only landmark buildings shown) Roadtrack: unpaved, paved Airport Landing strip Well (other than water) Tank, small, large Gaging station Landmark object Monument Cemetery: small, large RAILROADS AND RELATED FEATURES Standard gauge single track Standard gauge multi track Old railroad grade (labeled) Abandoned Rail yard TRANSMISSION LINES AND PIPELINES Power transmission line, tower Telephone line (labeled) Pipeline (labeled) MINES AND CAVES Quarry or open pit mine Gravel or sand pit Mine tunnel or cave entrance	COASTAL FEATURES Rock, reef Rock bare or awash Group of rocks bare or awash Exposed wreck Depth sounding Breakwater, pier, jetty or wharf Manmade shoreline, seawall RIVERS, LAKES AND CANALS Intermittent stream Perennial stream (less than 40 feet wide) Disappearing stream Perennial river (more than 40 feet wide) Small falls, small rapids Large falls, large rapids Dam Canal, lock Spring or seep Channel Lake or pond Marsh or swamp CONTOURS Intermediate Index Depression Elevation or contour value Cut, fill CONTROL DATA Horizontal control point Vertical control point Intersection elevations Boundary monument NOTE: These symbols are also used on the 1:5000 (1" = 800 feet) mapping series.
