In April, both Oswego County and the United States of America will be celebrating the 54th Anniversary of the Fair Housing Act of 1968. The Fair Housing Act makes sure that you and your family has the chance to choose where you live based on what your family can afford and your ability to be a good neighbor. When looking for a place to call home, you should not be treated differently because of your race, the color of your skin, because you are a boy or a girl, whether your family has children under the age of 18 (also known as familial status), religion, what country you are from (national origin), or disability. In New York State, additional protections include age, sexual orientation, marital status and military status.
