After obtaining the above approvals, bring 8 pictures to the Building Inspection Department with this form to obtain permit. Pictures shall be of structure to be torn down from 8 different angles.

1. Sewer line must be permanently capped with concrete.
2. Sewer line termination inspection required by City of Rock Springs Building Department. For inspection call 307-352-1541.
3. Water line termination inspection required by City of Rock Springs Water Department. Call 307-352-1405.
4. Foundation walls must be taken down below grade in crawl space or basement and must be backfilled to grade. If the site is to be used for building construction, the foundation, floor and utilities must be removed and compacted fill placed.

Note: Demolition must be completed within 45 days of permit being issued.

This application is intended for information purposes only. If more information is needed refer to adopted City Codes and Ordinances.
