

Public Works Committee Minutes

Monday, Nov. 1, 2021, 12:00 pm

Committee – R. Ruse, R. Densic, Allyson Murray, J. Staczek, T. Kolb, T. Audet

Guests – Kelly O’Boyle; Amy Zimmermann from DGL Consulting Engineers

Called to order:

1. 2022 Street Projects/ Jennings Rd –

- a. Survey / ROW data is in and Tetra Tech reviewing
- b. Based on NWWSD’s schedule, Jennings will most likely be a 2023 project (not ’22)
- c. Hillcrest and Riverside (near Vet’s Park) are next on NW’s schedule so they are being planned for 2022. Motion by Bob, 2nd by Jerry to approve these two projects for 2022 (funding from the bond package)
- d. Any future street resurfacing and maintenance will be determined once the final allocation of dollars is known from the ’22 budget. Windsor storm sewer is certainly needed, but others may be considered.

2. Hawthorne

- a. Final punch list and street lights to be completed
- b. City considering a pilot project with Edison that would make these two lights solar

3. Crossroads Round About at Sportsman’s Lane –

- a. DGL noted that the round about is ready for bid
- b. They will double check aesthetics including paving bricks and landscaping to ensure the plan matches existing city round abouts
- c. No details as to when a round about at Amazon might happen
- d. Motion by Bob, 2nd by Jerry to recommend the project go to bid.

4. New Items

- a. **Colony Road north of SR 65 is failing**
 - i. Investigation has revealed the pavement subsidence is a combination of a partial storm sewer collapse/blockage as well as improper backfill during the sanitary sewer project from several years ago. City and NW will share costs in repairs.
- b. **Storm Sewer on Hannum at Riverside**
 - i. Potential blockage near the park/marina. Getting contractors to help has been the challenge. This will be added to the list, along with repairs on Schreier Rd and behind the Rec Center/Methodist Church
- c. Public works Staffing Levels –
 - i. Motion by Jerry, 2nd by Bob to do whatever we can to add staff to public works as there continues to be more and more sewers, roads, sidewalks, etc. to maintain.
