Future site of the Soldotna Field House

The Soldotna Field House is the culmination of a decades-long effort to bring a year-round, indoor recreation and community facility to the central Kenai Peninsula. The Field House was designed with input from a variety of stakeholders, and is intended to maximize flexibility and enhance the existing capabilities of the Soldotna Regional Sports Complex. Construction began in early 2024, and the facility will be complete by Fall 2025.
