

PLAN REVIEW SUBMITTAL CHECKLIST – COMMERCIAL PHOTOVOLTAIC PROJECTS

COMMUNITY DEVELOPMENT DEPARTMENT • 345 N EL DORADO STREET • STOCKTON, CA 95202 • (209) 937-8561
www.stocktonca.gov/buildinginspection

Below is a checklist of items that are typically required for a commercial photovoltaic installation project. This checklist should be used as a guide to ensure that you provide a complete permit submittal, not all items may be applicable to your project, additional items may be requested as needed based on the project scope. Providing a complete submittal is critical to receiving a thorough plan review and expediting the permitting process.

Planning Division Permits:

Prior to providing a submittal for building permit plan review, new carport or ground-mount photovoltaic projects require separate permit(s) from the Planning Division. New solar installations on existing commercial building rooftops typically do not require prior Planning approval. For more information, please contact the Planning Division at (209) 937-8266. Please indicate the status of your Planning Division permits:

- Completed In-Progress N/A
