Below is a checklist of items that are typically required for a residential grading and site improvements project. This checklist is intended for grading and site improvement permit submittals that are submitted ahead of the overall development package. This checklist should be used as a guide to ensure that you provide a complete permit submittal, not all items may be applicable to your project, additional items may be requested as needed based on the project scope. Providing a complete submittal is critical to receiving a thorough plan review and expediting the permitting process.

Engineering Division Permits:

If your grading project is part of a larger subdivision development, approval from the Engineering Division is required prior to providing a submittal for building permit plan review. To coordinate your grading submittal with the Engineering Division please call (209) 937-8366.
