Below is a checklist of items that are typically required for a residential remodel project. This checklist should be used as a guide to ensure that you provide a complete permit submittal, not all items may be applicable to your project, additional items may be requested as needed based on the project scope. Providing a complete submittal is critical to receiving a thorough plan review and expediting the permitting process.

### Planning Division Permits:

If your project is located in a Design District, and your project includes exterior alterations to the residence, a Planning Division permit may be required prior to providing a submittal for building permit plan review. To find out if your project is located in a Design District, please contact the Planning Division at (209) 937-8266.
