# 2021 HIGHLIGHTS

## Purpose

The Clean City Initiative was launched in 2021 to advance new and existing programs to reduce trash accumulation and illegal dumping across the City. Programs include the following focused events:

- Drive-Thru Recycling
- Community Cleanups
- Neighborhood Services Cleanups
- Homeless Encampment Cleanups

The initiative is a collaborative effort between the City Manager's Office, Public Works Department, Stockton Police Department, Republic Services, Waste Management and community volunteers.

## Summary of Events

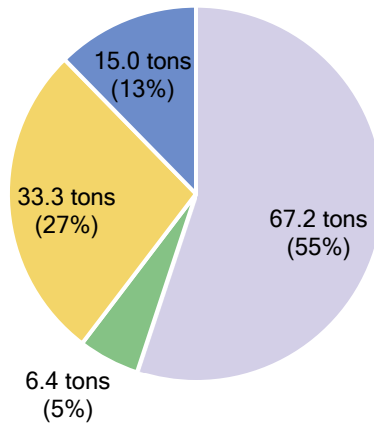

There were many early successes with hosting the various Clean City Initiative events. The general feedback from the public was that the events were appreciated and were well organized, especially the Drive-Thru Recycling events.

**Drive-Thru Recycling Events** - The City of Stockton together with Waste Management and Republic Services hosted seven events located at various locations citywide. These events were popular among residents with 2,627 total vehicles served. The following images show the annual collected totals:

A favorite giveaway for participants at these events is bags of compost. There were 3,600 compost bags provided.

**Community Cleanup Events** - The City of Stockton together with numerous volunteer groups completed 21 community cleanup events in 2021. Events earlier in the year were heavily focused on litter abatement along streets. Below are the annual totals:

### Volunteer Efforts

#### *Community Cleanup Events*

575

Based on interest from community groups, cleanup events adapted into minor beautification projects to accompany litter abatement. For beautification efforts, most cleanups focused on painting of walls, benches, and picnic tables and/or heavy pruning of shrubs. The July cleanup at Pixie Woods was the exception, with volunteers from multiple skilled labor union groups who performed structural repairs to buildings, including a roof replacement.

**Code Enforcement Sweeps and Neighborhood Betterment Team Cleanup Events** - The Stockton Police Department's Neighborhood Services Section (NSS) worked with various communities to take proactive steps to improve quality of life by enforcing the removal of garbage and blight, working to reduce crime, and increasing the sense of safety. The Neighborhood Betterment Team (NBT) is a two per year, 90-day program that includes a large-scale neighborhood cleanup day. Similarly, Code Enforcement Sweeps focus on blight, have a shorter duration, and provide a neighborhood cleanup day. The Police Department, together with Waste Management and Republic Services hosted five Neighborhood Cleanup events at various locations citywide with 593 vehicles served. The following page shows the annual collected totals:
