Road Repairs for Brookside Rd & Shadowbrook Dr Beginning October 28, 2023

STOCKTON, Calif. – The City of Stockton will be completing road repairs on Brookside Road and Shadowbrook Drive. This phase of the project is scheduled to begin October 28, 2023, and is estimated to take approximately two weeks to complete. This project, funded by Measure K, will address high traffic streets with poor pavement conditions, including micro-surfacing, on:

- Brookside Road between March Lane to Driftwood Place, and
- Shadowbrook Drive between Brookside Road to Brookview Drive.

As construction progresses, signs will be placed to notify drivers of changing construction conditions in the area. Speed limits will be reduced to 30 mph during construction. During the day, only one lane or turn lane will remain open on the side of the street where construction is occurring. Access to all adjacent businesses and residences will remain open during construction.

Travel tips to help during construction:

- Watch for signs and vehicles when entering and exiting the area.
- Allow extra time for travel and anticipate some traffic delays.
- Please slow for the cone zone.
