**RESOLUTION SETTING A PUBLIC HEARING TO ESTABLISH AN
UNDERGROUND UTILITY DISTRICT ALONG LOWER
SACRAMENTO ROAD**

Recommended Action:

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Set a public hearing for August 20, 2024, to determine whether public necessity, health, safety, or welfare requires the formation of an underground utility district along Lower Sacramento Road pursuant to Stockton Municipal Code section 13.36.020.
2. Authorize the City Clerk to notify all affected property owners by mail of the public hearing pursuant to Stockton Municipal Code section 13.36.020.
3. Authorize the City Clerk to publish notice of this public hearing in a newspaper of local circulation, at least ten (10) days prior to said hearing.
4. Approve the proposed area to be included in the Lower Sacramento Road Underground Utility District.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

Department: Public Works

15.5 [24-0564](#) **AUTHORIZE THE ISSUANCE AND SALE OF STOCKTON PUBLIC FINANCING AUTHORITY WASTEWATER REVENUE REFUNDING BONDS (WASTEWATER REFUNDING PROJECT), SERIES 2024 (THE "2024 BONDS") TO ACHIEVE SAVINGS BY REFUNDING THE OUTSTANDING WASTEWATER REVENUE REFUNDING BONDS, SERIES 2014**

Recommended Action: RECOMMENDATION

Staff recommends the City of Stockton and the Stockton Public Financing Authority authorize the issuance and sale of the 2024 Bonds, in a principal amount not-to-exceed \$32,000,000, to refund the remaining Wastewater Revenue Refunding Bonds, Series 2014 (the "2014 Bonds"), of which \$34,710,000 is currently outstanding and \$29,620,000 will be outstanding after September 1, 2024.

Resolution of the City of Stockton: This Resolution authorizes the form of and the execution and delivery of an Installment Purchase Contract, Bond Purchase Contract, Continuing Disclosure Certificate and Official Statement all relating to the issuance of the 2024 Bonds and approving certain actions in connection therewith.

Resolution of the Stockton Public Financing Authority: This Resolution authorizes the issuance and sale of the 2024 Bonds in an aggregate principal amount not to exceed \$32,000,000; approves the form of and authorizes the execution and delivery of an Indenture, an Installment Purchase Contract, a Bond Purchase Contract, and an Official Statement all relating to the issuance of the 2024 Bonds and approving certain actions in connection therewith.

The Resolutions also approve the execution of all documents and other actions related to the issuance of the 2024 bonds and that the Chair of the Authority (Mayor), Executive Director of the Authority (City Manager), Treasurer of the Authority (Chief Financial Officer) or their designee be authorized to take appropriate and necessary actions to carry out the purpose and intent of the Resolutions (Exhibits 1-5 to both resolutions).

PLACED ON THE SAN JOAQUIN COUNTY TREASURER-TAX**

COLLECTOR'S TAX ROLL

Recommended Action:

RECOMMENDATION

Conduct a public hearing to consider all objections or protests to the proposed Delinquent Utility Service Charges, 2024 Assessment Report ("2024 Assessment Report") for delinquent water, wastewater, stormwater, and solid waste collection service charges ("utility service charges") incurred by property owners.

After the public hearing, if a majority protest does not exist, it is recommended that the City Council approve a resolution to:

1. Overrule all public protests;
2. Confirm the unpaid utility service charges set forth in the 2024 Assessment Report;
3. Adopt the 2024 Assessment Report;
4. Direct the assessments to be placed on the San Joaquin County Treasurer-Tax Collector's Tax Roll; and
5. Authorize the City Manager to take any necessary and appropriate actions to carry out the purpose and intent of the resolution.

CERTIFICATE OF POSTING

I declare, under penalty of perjury, that I am employed by the City of Stockton and that I caused this agenda to be posted in the City Hall notice case on July 5, 2024 in compliance with the Brown Act.

**Katherine Roland, CMC, CPMC
Interim City Clerk**

By: _____

Deputy

PUBLIC COMMENTS

**Citizens may comment on any subject within the jurisdiction of the City Council/Successor Agency to the Redevelopment Agency/Public Finance Authority/Parking Authority, including items on the Agenda. Each speaker is limited to two minutes. Speakers must submit "Request to Speak" cards to the City Clerk, and be prepared to speak when called. No speaker cards will be received after the close of the Citizen's Comments portion of the meeting.*

***Speakers should hold comments on items listed as a Hearing until the Hearing is opened.*

The City of Stockton invites public comments in multiple forms. You provide your comments by using one of these methods:

- 1. Email - you may email your comments to city.clerk@stocktonca.gov*
- 2. Voicemail - you can leave a voice message by dialing (209) 937-8459.*
- 3. In-Person Comments - a) Speakers must submit "request to speak cards" to the Clerk prior to the Public Comment portion of the agenda. No speaker cards will be accepted after the close of Public Comment. Please redirect any inquiries to City.Clerk@stocktonca.gov. b) Address only issues over which the meeting body has jurisdiction. c) Each speaker will be limited to one 2-minute comment opportunity. Donating time is not authorized. d) Your time will be displayed on the speaker podium for convenience.*

**All written and voicemail public comments received by the Clerk's Office 90 minutes prior to the meeting start time will be forwarded to the meeting body members as correspondence and attached the minutes. All comments received after that time will be forwarded as correspondence the following business day.*

****Additions to the Agenda - Government Code Section 54954.2(b)(2), allows members of the City Council present at the meeting to take immediate action, with either a two-thirds or unanimous vote, to place an item on the agenda that action must be taken and that the item came to the attention of the City subsequent to the agenda being posted.*

All proceedings before this meeting body are conducted in English. The City of Stockton does not furnish language interpreters and, if one is needed, it shall be the responsibility of the person needing one.

In accordance with the Americans With Disabilities Act and California Law, it is the policy of the City of Stockton to offer its public programs, services and meetings in a manner that is readily accessible to everyone, including those with disabilities. If you are a person with a disability and require a copy of a public hearing notice, or an agenda and/or agenda packet in an appropriate alternative format; or if you require other accommodation, please contact the Office of the City Clerk located at 425 North El Dorado Street, Stockton, California 95202 during normal business hours or by calling (209) 937-8458, at least 5 days in advance of the hearing/meeting. Advance notification within this guideline will enable the City/Agency to make reasonable arrangements to ensure accessibility.

Materials related to an item on this agenda submitted to City Council after distribution of the agenda packet are available for public inspection in the City Clerk's Office at 425 North El Dorado Street, Stockton, California 95202, during normal business hours. Such documents are also available on the City's website at www.stocktongov.com subject to staff's ability to post the documents before the meeting.

CHALLENGING CITY DECISIONS: The time limit within which to commence any lawsuit or legal challenge to any quasi-judicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-judicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will

be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Stockton, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

APPOINTMENT TO COMMUNITY DEVELOPMENT COMMITTEE RECOMMENDATION

It is recommended that the City Council adopt a resolution authorizing the appointment of Fernando Duarte to the Community Development Committee for a term commencing immediately and expiring June 30, 2027.

Summary

Due to the resignation of Rajan Nathaniel, there is currently a vacancy for the District 1 appointment on the Community Development Committee. Councilmember Padilla was provided with applications for her review and is nominating Fernando Duarte to complete the remaining term as the District 1 appointment.

DISCUSSION

Background

The Community Development Committee is a committee that provides the Council with recommendations on the planning and use of funds that the City receives from the U.S. Department of Housing and Urban Development, including Community Development Block Grant, HOME Investment Partnerships Program, and Emergency Solutions Grant funds. As provided for in the Council-adopted Citizen's Participation Plan, appointments to the Community Development Committee are made by each of the six Councilmembers and the Mayor. Appointments are for four years, except when an appointee is filling the remaining term of a vacated position. The only requirement to serve on the Committee is that the applicant must be a resident of the City of Stockton.

Present Situation

Councilmember Padilla reviewed applications and made the following nomination for appointment:

Fernando Duarte

FINANCIAL SUMMARY

Members of the CDC do not receive remuneration.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING AN APPOINTMENT TO THE COMMUNITY DEVELOPMENT COMMITTEE

Appointments to the Community Development Committee are made by each of the six Councilmembers and the Mayor; and

Due to the resignation of the District 1 appointee, Rajan Nathanael, there is currently a vacancy on the Community Development Committee; and

Councilmember Padilla has reviewed applications and is recommending the appointment of Fernando Duarte to the Community Development Committee to complete the remaining term; now, therefore,

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The following applicant is found to meet the criteria for appointment and is authorized to serve as a member of the Community Development Committee Group for a term to commence on appointment and ending June 30, 2027:

Fernando Duarte - Appointment by Councilmember Padilla

2. The City Manager is authorized to take such other actions as are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

Attachment C - Summary of Zones

Proposed Resolution

Approved Resolution 2024-06-04-1606

PPT -16.6 2024-25 Consolidated Landscape Maint Dist

Approve Resolution 2024-06-04-1606:

1. Overruling any and all protests or objections (including all written protests not withdrawn in writing before the conclusion of the public hearing) to the proposed levy of assessments in the Consolidated Landscape District in each zone.
2. Approving and adopting the Consolidated Landscape District's Annual Engineer's Report for the FY 2024-25 containing the budget for each zone and confirm and levy the assessments for each zone as set forth in the Annual Engineer's Report.
3. Certifying that the special assessment(s), fee(s), or charge(s) to be placed on the FY 2024-25 Secured Property Tax bill by the City of Stockton are certified to meet the requirements of Proposition 218 that added Articles XIIC and XIID to the California State Constitution.
4. Confirming that the assessments of the annual amount of costs and expenses for the maintenance and operation of the improvements upon the assessable lands in the Consolidated Landscape District, as contained in the Annual Engineer's Report, shall be levied and collected for FY 2024-25. The assessments are in compliance with all laws pertaining to the levy of the annual assessment (State of California Streets and Highways Code Section 22500). The assessments are levied without regard to property valuation. The purpose of the assessments is to pay the costs and expenses for maintenance and operation of public parks and landscape improvements in public rights-of-way and public open spaces.
5. Authorizing the City Manager or designee, on behalf of the City Clerk, to file the assessments or a copy thereof certified by the City Clerk with the San Joaquin County Auditor and cause the assessments to be entered on the FY 2024-25 tax roll for the parcels in the Consolidated Landscape District and each zone within the Consolidated Landscape District as set forth in the Annual Engineer's Report on file with the City Clerk.

Authorizing the City Manager to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

Moved by: Susan Lenz, seconded by Michael Blower.

Vote: Motion carried 6-0

Yes: Michael Blower, Brando Villapudua, Michele Padilla, Susan Lenz, Kevin J Lincoln II, and Kimberly Warmsley.

Absent: Daniel Wright.

ADOPT A RESOLUTION TO AWARD A CONTRACT FOR CONSULTANT SERVICES FOR DEVELOPMENT OF THE NEW COMPREHENSIVE CLIMATE ACTION & ADAPTATION PLAN IN THE AMOUNT OF \$1,000,000

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Approve findings pursuant to Stockton Municipal Code section 3.68.070 in support of an exception to the competitive bidding process;
2. Authorize the City Manager to execute a contract for specialized services from AECOM in the amount of \$1,000,000;

It is also recommended that the City Council authorize the City Manager to take appropriate and necessary actions to carry out the purpose and intent of the resolution.

Summary

Staff seeks City Council approval to award a contract for specialized services to AECOM ("Consultant"). The consultant will lead the City of Stockton in the development of a new Comprehensive Climate Action & Adaptation Plan (CCAAP) while implementing the grant requirements of the Adaptation Planning Grant Program (APGP) Round 1, administered by the California Governor's Office of Planning and Research (OPR), and the Climate Pollution Reduction Grant Planning (CPRGP) through the U.S EPA Region 9.

The APGP and CPRGP grants are funding the City's efforts to build climate adaptation strategies and resiliency through planning, research and capacity building, restoration, and sustainable infrastructure to develop or update existing regional climate mitigation plans to address greenhouse gas and reduction measures throughout the Stockton Metropolitan Statistical Area (MSA) area. Specific activities will include updating plans to reduce climate pollution, completing a greenhouse gas inventory, quantifying greenhouse gas reduction measures, conducting a low income and disadvantaged communities benefit analysis, and stakeholder engagement.

DISCUSSION

Background

On December 12, 2023, City Council adopted Resolution No. 2023-12-12-1202, accepting the State of California APGP Grant Round 1 in the amount of \$650,000. Subsequently, on May 14, 2024, City

Council adopted Resolution No. 2024-5-14-1502 accepting the Federal CPRGP Grant in the amount of \$1,000,000. Within these 2 grant awards, there is a total of \$1,000,000 allocated for consulting services for climate action plan development.

The APGP grant and CPRGP grant will be used in combination to develop a new Comprehensive Climate Action & Adaptation (CCAAP) plan for the City which combines the requirements of both programs. These grants require key deliverables: a Climate Vulnerability and Risk Assessment, a Priority Climate Action Plan, a Comprehensive Climate Action Plan (due two years from the date of award), and a status report due at the close of the grant period.

On March 20, 2024 City staff posted a Request for Proposals (RFP) PUR 24-030 to identify a consultant to lead the development of this new Comprehensive Climate Action & Adaptation Plan (CCAAP). On May 2, 2024 City staff received 5 proposals in response to RFP PUR24-030.

Present Situation

After reviewing the 5 proposals received, City staff conducted interviews with all 5 consultant companies. A review panel consisting of staff from the Environmental & Sustainability Division, Public Works, Municipal Utilities, and Community Development Departments conducted the interviews. The review panel agreed that the company that would provide the best value and experience to develop the CCAAP is AECOM.

Findings

Pursuant to Stockton Municipal Code (SMC) section 3.68.070, the Council may approve findings which support and justify an exception to the competitive bidding process.

The following findings support such an exception:

1. Use of the RFP process is appropriate for this agreement because it relies on the evaluation of professional qualifications and performance as the basis for the selection of a vendor, which is a typical practice for this type of work.
2. The City negotiated the contract following the solicitation of competitive proposals in accordance with SMC section 3.68.070.A.3.

Staff recommends the City Council approve the findings and adopt a resolution authorizing the City Manager to execute a contract in the amount not to exceed \$1,000,000.00 with AECOM to develop a Comprehensive Climate Action & Adaptation Plan (CCAAP) for the City of Stockton.

FINANCIAL SUMMARY

The base proposal amount is \$979,340 with an additional \$20,660 allocated as contingency amount, for a total contract amount of \$1,000,000. The contract amount for specialized services will be exclusively funded by the previously approved and appropriated grant awards; \$310,000 from the Adaptation Planning Grant Program (APGP) Round 1, and \$690,000 from the Climate Pollution Reduction Grant Planning (CPRGP). To establish the contract for specialized services, an

appropriation of revenue and expenditures of \$1,000,000 is necessary in the City Manager's Special Grants Fund - Reimbursement, General Administration Division.

There will be no impact to the General Fund.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION TO AWARD A CONTRACT FOR CONSULTANT SERVICES FOR DEVELOPMENT OF THE NEW COMPREHENSIVE CLIMATE ACTION & ADAPTATION PLAN IN THE AMOUNT OF \$1,000,000

The City Manager authorized staff to execute a contract for specialized services from AECOM in the amount of \$1,000,000; and

On December 12, 2023, City Council adopted Resolution No. 2023-12-12-1202, accepting the State of California APGP Grant Round 1 in the amount of \$650,000. Subsequently, on May 14, 2024, City Council adopted Resolution No. 2024-5-14-1502 accepting the Federal CPRGP Grant in the amount of \$1,000,000. Within these 2 grant awards, there is a total of \$1,000,000 allocated for consulting services for climate action plan development; and

The APGP grant and CPRGP grant will be used in combination to develop a new Comprehensive Climate Action & Adaptation Plan (CCAAP) for the City; and

On March 20, 2024, City staff posted a Request for Proposals (RFP) to identify a consultant to lead the development of this new CCAAP. On May 2, 2024, City staff received 5 proposals in response to RFP PUR24-030; and

A review panel consisting of staff from the Environmental & Sustainability Division, Public Works, Municipal Utilities, and Community Development Departments conducted the interviews. Based on procurement assisted review of the 5 consultant proposals and required scorecards, the review panel agreed that the company that would provide the best value and experience to develop the CCAAP is AECOM; and

The new CCAAP will require the development, updating and evaluation of plans to reduce climate pollution, developing a greenhouse gas inventory, quantifying greenhouse gas reduction measures, conducting a low income and disadvantaged communities benefit analysis, review of authority to implement and stakeholder engagement; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. Approve findings pursuant to Stockton Municipal Code section 3.68.070 in support of an exception to the competitive bidding process:

- a. Use of RFP process is appropriate for this agreement because it relies on the evaluation of professional qualifications and performance as the basis for the selection of a vendor, which is typical for this type of work
 - b. The City negotiated the contract following the solicitation of competitive proposals in accordance with SMC section 3.68.070.A.3.
2. Authorize the City Manager to execute a contract for specialized services from AECOM in the amount of \$1,000,000, attached hereto as Exhibit 1.
3. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

CITY OF STOCKTON
STANDARD AGREEMENT

EXHIBIT B INSURANCE

Exhibit B: Insurance Requirements for Consultant Services

Consultant shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, or employees.

SCOPE AND LIMIT OF INSURANCE

Coverage shall be:

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits of **\$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Consultant has no owned autos, Code 8 (hired) and 9 (non-owned), with limit of **\$1,000,000** per accident for bodily injury and property damage.

3. **Workers’ Compensation** insurance as required by the State of California, with Statutory Limits, and Employer’s Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease.

(Not required if consultant provides written verification it has no employees)

4. **Professional Liability/Errors and Omissions** Insurance appropriate to the Consultant’s profession, with limit of **\$1,000,000** per occurrence or claim, **\$1,000,000** aggregate.

If the Consultant maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and designated volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability

coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and designated volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and designated volunteers for all locations work is done under this contract.

Primary Coverage

For any claims related to this contract, the **Contractor's insurance coverage that allows for additional insured status shall be primary and non-contributory** and at least as broad as ISO CG 20 01 04 13 as respects the City of Stockton, its officers, officials, and employees, and designated volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or designated volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Umbrella or Excess Policy

The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Contractor's primary and excess liability policies are exhausted.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Except for Professional Liability, Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this

provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Self-Insured Retentions

The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton. Any and all deductibles and SIRs shall be the sole responsibility of Contractor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. City of Stockton may deduct from any amounts otherwise due Contractor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies

If any of the required policies provide claims-made coverage:

1. The Retroactive Date must be shown, and must be before the date of the contract or the beginning of contract work.
2. Insurance must be maintained, and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***
3. If coverage is canceled or non-renewed, and not replaced ***with another claims-made policy form with a Retroactive Date prior to*** the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of work.

Verification of Coverage

Contractor shall furnish the City of Stockton with certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause **and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements**. All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the City of Stockton before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to inspect redacted copies of all required insurance policies, including endorsements required by these specifications, in the event of a claim.

Subcontractors

Consultant shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that City of Stockton is an additional insured on insurance required from subcontractors.

Duration of Coverage

CGL & Excess liability policies **for any construction related work, including, but not limited to, maintenance, service, or repair work**, shall continue coverage for a minimum of 5 years for Completed Operations liability coverage. Such Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***

Certificate Holder Address

The address for mailing certificates, endorsements and notices shall be:

City of Stockton
 Its Officers, Officials, Employees, and Designated Volunteers
 400 E Main Street, 3rd Floor – HR
 Stockton, CA 95202

EXHIBIT C
GENERAL TERMS AND CONDITIONS

Where there is a conflict between these General Terms and Conditions and the PARTNER AGREEMENT, the PARTNER AGREEMENT controls.

1. Goods, Equipment and Services. Subject to the terms and conditions set forth in this Agreement, Consultant shall provide to City the services described in Exhibit A of the Agreement. Consultant shall provide said services at the time, place and in the manner specified in Exhibit A of the Agreement.

2. City Assistance, Facilities, Equipment and Clerical Support. Except as set forth in Exhibit A, Consultant shall, at its sole cost and expense, furnish and maintain all facilities and equipment that may be required for furnishing services pursuant to this Agreement. If applicable, City shall furnish to Consultant only the facilities and equipment listed in Exhibit A to the Agreement.

3. Compensation. City shall pay Consultant for services rendered pursuant to this Agreement as described more particularly in Exhibit A and Exhibit E to the Agreement.

3.1 Invoices submitted by Consultant to City must contain a brief description of work performed, time spent and City reference number. Within thirty (30) days of receipt of Consultant's invoice, City will review invoice, and if acceptable make payment on approved invoice.

3.2 Upon completion of work and acceptance by City, Consultant shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by City upon receiving a written request thirty (30) days in advance of said time limitation. The City shall have no obligation or liability to pay any invoice for work performed which the Consultant fails or neglects to submit within sixty (60) days, or any extension thereof granted by the City, after the work is accepted by the City.

4. Sufficiency of Consultant's Work. All Consultant services, work, and deliverables shall be performed in a good and workmanlike manner with due diligence in accordance with the degree of skill normally exercised by similar Consultants supplying services and work of a similar nature, and in conformance with applicable laws, codes and professional standards..

5. Ownership of Work. All reports, work product, all other documents completed or partially completed by Consultant or its approved subConsultants, in performance of this Agreement, and if applicable, drawings, designs, and plan review comments shall become the property of the City upon proper payment for services. Any and all

copyrightable subject matter in all materials is hereby assigned to the City and the Consultant and its approved subConsultants agree to execute any additional documents that may be necessary to evidence such assignment. All materials shall be delivered to the City upon completion or termination of the work under this Agreement. If any materials are lost, damaged or destroyed before final delivery to the City, the Consultant shall replace them at its own expense. Consultant and its approved subConsultants shall keep materials confidential. Materials shall not be used for purposes other than performance of services under this Agreement and shall not be disclosed to anyone not connected with these services, unless the City provides prior written consent.

6. **Timeliness.** Time is of importance in this Agreement.

7. **Changes.** Both parties to this Agreement understand that it may become desirable or necessary during the term of this Agreement for City to modify the scope of services provided for under this Agreement. Any material extension or change in the scope of work shall be discussed with City and the change and cost shall be memorialized in a written amendment to the original contract prior to the performance of the additional work. Until the amendment is so executed, City will not be responsible to pay any charges Consultant may incur in performing such additional services, and Consultant shall not be required to perform any such additional services.

8. **Amendment.** No variation of the terms of this Agreement shall be valid unless an amendment is made in writing and signed by both parties.

9. **Consultant's Status.**

9.1 In performing the obligations set forth in this Agreement, Consultant shall have the status of an independent Consultant and Consultant shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of Consultant are its agents and employees and are not agents or employees of City. Consultant by virtue of this Agreement, has no authority to bind or incur any obligation on behalf of City. Except as expressly provided in Exhibit A, Consultant has no authority or responsibility to exercise any rights or power vested in the City. No agent, officer or employee of the City is to be considered an employee of the Consultant. It is understood by both Consultant and City that this Agreement shall not be construed or considered under any circumstances to create an employer-employee relationship or a joint venture.

9.2 Consultant shall determine the method, details and means of performing the work and services to be provided by Consultant under this Agreement. Consultant shall be responsible to City only for the requirements and results specified in this Agreement and, except as expressly provided in this Agreement, shall not be subjected to City's control with respect to the physical action or activities of Consultant in fulfillment

of this Agreement. Consultant has control over the manner and means of performing the services under this Agreement. If necessary, Consultant has the responsibility for employing other persons or firms to assist Consultant in fulfilling the terms and obligations under this Agreement.

9.3 If in the performance of this Agreement any third persons are employed by Consultant, such persons shall be entirely and exclusively under the direction, supervision and control of Consultant. All terms of employment including hours, wages, working conditions, discipline, hiring and discharging or any other term of employment or requirements of law shall be determined by the Consultant.

9.4 It is further understood and agreed that Consultant must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Consultant's assigned personnel under the terms and conditions of this Agreement.

10. SubConsultant.

10.1 SubConsultants shall not be recognized as having any direct or contractual relationship with City. Consultant shall be responsible for the work of subConsultants, which shall be subject to the provisions of this Agreement. SubConsultants will be provided with a copy of the Agreement and be bound by its terms. Consultant is responsible to City for the acts and omissions of its subConsultants and persons directly or indirectly employed by them.

10.2 If in the performance of this Agreement any third persons are employed by Consultant, such persons shall be entirely and exclusively under the direction, supervision and control of Consultant. All terms of employment including hours, wages working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by Consultant.

10.3 It is further understood and agreed that Consultant must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Consultant's personnel.

11. Termination.

11.1 Termination for Convenience of City. The City may terminate this Agreement at any time by mailing a notice in writing to Consultant. The Agreement shall then be deemed terminated, and no further work shall be performed by Consultant. If the Agreement is so terminated, the Consultant shall be paid for the work actually completed at the time the notice of termination is received.

11.2 Should either party default in the performance of this Agreement or materially breach any of its provisions, the other party, at that party's option, may terminate this Agreement by giving written notification to the other party.

11.3 Funding- Non-Appropriation. It is mutually understood between the Parties that payment to the Consultant for performance shall be dependent upon the availability of appropriations by the City Council for the purposes of this Agreement. No legal liability on the part of the City for any payment may arise under this Agreement until funds are made available and until the Consultant has received funding availability, which will be confirmed in writing. If funding for any fiscal year is reduced or deleted, or if the City loses funding for any reason, the City, in its sole discretion, shall have the option to either (a) cause this Agreement to be canceled or terminated pursuant to applicable provisions of the Agreement; or (b) offer to amend the Agreement to reflect the reduced funding for this Agreement.

12. Non-Assignability. The Consultant shall not assign, sublet, or transfer this Agreement or any interest or obligation in the Agreement without the prior written consent of the City, and then only upon such terms and conditions as City may set forth in writing. Consultant shall be solely responsible for reimbursing subConsultants.

13. Indemnity and Hold Harmless. To the fullest extent permitted by law, Consultant shall hold harmless, defend at its own expense, and indemnify the City of Stockton, its officers, employees agents, and volunteers against any and all liability, claims, losses, damages, or expenses, including reasonable attorney's fees, acts or omissions or contractor or its officers, agents or employees in rendering services under this contract; excluding, however, such liability, claims, losses, damages, or expenses arising from the City of Stockton's negligence or willful acts. The duty to defend and the duty to indemnify are separate and distinct obligations. The indemnification obligations of this section shall survive the termination of this agreement.

14. Insurance. During the term of this Agreement, Consultant shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached Exhibit B to this Agreement and shall otherwise comply with the other provisions of Exhibit B to this Agreement.

15. Notices. All notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed in Exhibit A to this Agreement.

16. Conformance to Applicable Laws. Consultant shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances. Consultant shall not discriminate in the employment of persons or in the provision of services under this Agreement on the basis of any legally protected classification, including race, color, national origin, ancestry, sex or religion of such person.

17. Licenses, Certifications and Permits. Prior to the City's execution of this Agreement and prior to the Consultant's engaging in any operation or activity set forth in this Agreement, Consultant shall obtain a City of Stockton business license, which must be kept in effect during the term of this Agreement. Consultant covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Agreement. Such licenses, certificates and permits shall be maintained in full force and effect during the term of this Agreement.

18. Records and Audits. Consultant shall maintain all records regarding this Agreement and the services performed for a period of three (3) years from the date that final payment is made. At any time during normal business hours, the records shall be made available to the City to inspect and audit. To the extent Consultant renders services on a time and materials basis, Consultant shall maintain complete and accurate accounting records, in a form prescribed by City or, if not prescribed by City, in accordance with generally accepted accounting principles, such records to include, but not be limited to, payroll records, attendance cards, time sheets, and job summaries.

19. Confidentiality. Consultant shall exercise reasonable precautions to prevent the unauthorized disclosure and use of City reports, information or conclusions.

20. Conflicts of Interest. Consultant covenants that other than this Agreement, Consultant has no financial interest with any official, employee or other representative of the City. Consultant and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner of degree by the performance of Consultant's services under this Agreement. If such an interest arises, Consultant shall immediately notify the City.

21. Waiver. In the event either City or Consultant at any time waive any breach of this Agreement by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Agreement, whether of the same or of any other covenant, condition or obligation. No payment, partial payment, acceptance, or partial acceptance by City shall operate as a waiver on the part of City of any of its rights under this Agreement.

22. Governing Law. California law shall govern any legal action pursuant to this Agreement with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the Federal District Court of California, Eastern District, Sacramento Division.

23. No Personal Liability. No official or employee of City shall be personally liable to Consultant in the event of any default or breach by the City or for any amount due Consultant.

24. Severability. If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction or if it is found in contravention of any federal, state or city statute, ordinance or regulation the remaining provisions of this Agreement or the application thereof shall not be invalidated thereby and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

25. Non-Discrimination. During the performance of this Agreement, Consultant and its officers, employees, agents, representatives or subConsultants shall not unlawfully discriminate in violation of any federal, state, or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental disability, medical condition (including genetic characteristics), marital status, age, political affiliation, sex or sexual orientation, family and medical care leave, pregnancy leave, or disability leave. Consultant and its officers, employees, agents, representative or subConsultants shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the City's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12990 (et seq.); California Labor Code sections 1101, 1102 and 1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulation or Code of Federal Regulations. Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d). <http://www.dol.gov/oasam/regs/statutes/titlevi.htm>. The City requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

26. Force Majeure. Neither party shall be responsible for delays or failures in performance resulting from acts of God, acts of civil or military authority, terrorism, fire, flood, strikes, war, epidemics, pandemics, shortage of power or other acts or causes reasonably beyond the control of that party. The party experiencing the force majeure event agrees to give the other party notice promptly following the occurrence of a force majeure event, and to use diligent efforts to re-commence performance as promptly as commercially practicable.

27. Taxes and Charges. Consultant shall be responsible for payment of all taxes, fees, contributions or charges applicable to the conduct of the Consultant's business.

28. Cumulative Rights. Any specific right or remedy provided in this Agreement will not be exclusive but will be cumulative of all other rights and remedies to which may be legally entitled.

29. Advice of Attorney. Each party warrants and represents that in executing this Agreement, it has received independent legal advice from its attorneys or the opportunity to seek such advice.

30. Heading Not Controlling. Headings used in this Agreement are for reference purposes only and shall not be considered in construing this Agreement.

31. Entire Agreement, Integration, and Modification.

31.1 This Agreement represents the entire integrated agreement between Consultant and the City; supersedes all prior negotiations, representations, or agreements, either written or oral between the parties and may be amended only by a written Amendment signed by the Consultant and City Manager.

31.2 All Exhibits to this Agreement and this Agreement are intended to be construed as a single document.

32. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

33. Authority. The individual(s) executing this Agreement represent and warrant that they have the legal capacity and authority to do so on behalf of their respective legal entities.

EXHIBIT C – PART 2 EPA FEDERAL REQUIREMENTS

Section II. Federal Requirements.

A. Federal Award Identification.

1. Subrecipient name--which must match registered name in the System for Award Management (SAM). If the subrecipient is not yet registered in SAM, then information about registration procedures may be found at the SAM Internet site (currently at <http://www.sam.gov>).
2. The subrecipient's "unique entity identifier" in SAM. This identifier is required for registering in SAM and by 2 CFR Part 25 and 2 CFR 200.332(a)(1).

Note: Additional information on registering in SAM is available at the SAM Internet site: <https://www.sam.gov/SAM/> and in the "**General Term and Conditions**" (T&Cs), under the "**System for Award Management and Universal Identifier Requirements**" T&C, of the pass-through entity's agreement with EPA.

3. Federal Award Identification Number (FAIN) The FAIN corresponds with the "Assistance ID No." on the EPA Notice of Award.
4. EPA Award Date. This is the date the EPA Award Official signs the assistance agreement with the pass-through entity and may be found on page 1 of the EPA Notice of Award.
5. Subaward Period of Performance Start and End Date;
6. Amount of EPA Funds Obligated under the initial subaward. Subsequent funding actions may be documented by amendments to the subaward.
7. Total or cumulative amount of EPA Funds Obligated to the subrecipient under the initial subaward plus any subsequent funded amendments. These amounts may be documented in sequential amendments to the subaward.
8. Total Amount of the EPA funds committed to the subrecipient by the pass-through entity. This is typically the "ceiling" amount for the subaward that may not be exceeded in funded amendments.
9. Federal award project description, as required to be responsive to the Federal Funding Accountability and Transparency Act (FFATA). This information may be found in the "Project Title and Description" box on page 1 of the EPA Notice of Award.

10. Information identifying EPA as the Federal awarding agency, your organization as the pass-through entity, and contact information for your awarding official for the subaward.
 11. Assistance Listing Number and Name for each EPA award used to support the subaward. Assistance Listing information for the pass-through entities' EPA award may be found on page 2 of EPA's Notice of Award form in the second chart under "EPA Award Information". (Note the Uniform Grant Guidance requires at [2 CFR 200.332\(a\)\(1\)\(xii\)](#) that the Pass-through entities identify the dollar amount under each Federal award and the CFDA number at the time of disbursement of Federal funds to the subrecipient so it is important for pass-through entities to maintain accounting records to meet this requirement.
 12. Indirect cost rate for the pass-through entity's Federal award. This rate may be found on page 3 of the pass-through entity's EPA Award in Table A, Object Class Category and may be the 10% de-minimis indirect cost rate described at [2 CFR 200.414\(f\)](#).
- B.** All "flow down" requirements imposed on the subrecipient by the pass-through entity to ensure that the EPA award is used in accordance with Federal statutes, regulations and the terms of the EPA award. The subrecipient is accountable to the pass-through entity for compliance with Federal requirements. In turn, the pass-through entity is responsible to EPA for ensuring that subrecipients comply with Federal requirements.

These requirements include, among others:

1. Title VI of the Civil Rights Act and other Federal statutes and regulations prohibiting discrimination in Federal financial assistance programs, as applicable.
2. Reporting Subawards and Executive Compensation under Federal Funding Accountability and Transparency Act (FFATA) set forth in General Condition of the pass-through entity's agreement with EPA entitled "**Reporting Subawards and Executive Compensation.**"
3. Limitations on individual consultant fees as set forth in General Condition [2 CFR 1500.10](#) and the General Condition of the pass-through entity's agreement with EPA entitled "**Consultant Fee Cap.**"
4. EPA's prohibition on paying management fees as set forth in General Condition of the pass-through entity's agreement with EPA entitled "**Management Fees.**"
5. The Procurement Standards in [2 CFR Part 200](#) including those requiring competition when the subrecipient acquires goods and services from contractors (including consultants) and Domestic preferences for procurements at [2 CFR 200.322](#).

6. For states and other public recipients, a provision ensuring that subawards are not conditioned in a manner that would disadvantage applicants for subawards based on their religious character.

Other statutes, regulations and Executive Orders that may apply to subawards are described at [Information on Requirements that Pass-Through Entities must “Flow Down” to Subrecipients](#). Many Federal requirements are agreement or program specific and EPA encourages pass-through entities to review the terms of their assistance agreement carefully and consult with their EPA Project Officer for advice, if necessary.

- C. Any additional requirements such as financial and performance reports the pass-through entity imposes on the subrecipient to ensure that the pass-through entity meets its own responsibilities to the Federal awarding agency.
- D. Subrecipient’s Indirect Cost Rate. The indirect cost rate may be a rate negotiated and approved by the subrecipient’s cognizant Federal agency. If the subrecipient does not have a Federal indirect cost rate, the pass-through entity may negotiate an indirect cost rate with the subrecipient that complies with [2 CFR Part 200, Subpart E](#) or use the 10% de-minimis indirect cost rate described at [2 CFR 200.414\(f\)](#).
- E. Requirements for the subrecipient to provide access to subaward records so that the pass-through entity and Federal auditors may verify compliance with 2 CFR 200.332 as well as [2 CFR Part 200, Subpart D, Post Federal Award Requirements](#) for Financial and Program Management, and [2 CFR Part 200, Subpart F, Audit Requirements](#). Examples of records include:
 1. Subrecipient financial statements and reports;
 2. Programmatic reports including information on environmental results
 3. Audit findings
- F. Additional Requirements imposed by the pass-through entity under 2 CFR 200.208 that reflect the passthrough entity’s assessment of the subrecipient’s risk of noncompliance with Federal statutes, regulations and the terms and conditions of the subaward based on the factors described at 2 CFR 200.332(b).
 1. Risk factors may include:
 - (a) Prior experience with same or similar subawards;
 - (b) Results of previous audits;
 - (c) Whether new or substantially changed personnel or systems, and;
 - (d) Extent and results of Federal awarding agency or the pass-through entity’s monitoring.

2. Examples of additional requirements authorized by [2 CFR 200.208](#) include:

- (a) Requiring payments as reimbursements rather than advance payments;
- (b) Withholding authority to proceed to the next phase until receipt of evidence of acceptable performance within a given period of performance;
- (c) Requiring additional, more detailed financial reports;
- (d) Requiring additional project monitoring;
- (e) Requiring the non-Federal entity to obtain technical or management assistance, and;
- (f) Establishing additional prior approvals.

G. Terms and conditions concerning the close out of the subaward.

EXHIBIT D
PROFESSIONAL SERVICES SPECIAL TERMS AND CONDITIONS

1. Definitions. The following words and phrases have the following meanings for purposes of this Agreement:

1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.

1.2 "Deliverable" means quantifiable goods or services that will be provided upon completion of a project. A deliverable is any tangible material, work or thing delivered by one party to the other, including associated technical documentation. A deliverable can be tangible or intangible parts of the development process, and often are specified functions or characteristics of the project.

2. General. The following terms and conditions are applicable for the Professional Services only. The special conditions shall be read in conjunction with the Standard Agreement, General Terms and Conditions ("GTC") Exhibit C, and all other Exhibits identified in the Standard Agreement.

2.1 Where any portion of the GTC is in conflict to or at variance with any provisions of the Special Conditions of the Agreement, then unless a different intention stated, the provision(s) of the Special Conditions of the Agreement shall be deemed to override the provision(s) of GTC only to the extent that such conflict or variations in the Special Conditions of the Agreement are not possible of being reconciled with the provisions of the GTC.

2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.

3. Time for Performance.

3.1 Consultant shall perform the services according to the schedule contained in Exhibit F.

3.2 Timeliness of Performance i) Consultant shall provide the Services, and Deliverables within the term and within the time limits required under this Agreement, pursuant to the provisions of Exhibit A and Exhibit F. ii) Neither Consultant nor Consultant's agents, employees nor subConsultants are entitled to any damages from the City, nor is any party entitled to be reimbursed by the City, for damages, charges or

other losses or expenses incurred by Consultant by reason of delays or hindrances in the performance of the Services, whether or not caused by the City.

4. Standard of Performance

In addition to Exhibit C, Section 4 and 17, Consultant agrees as follows:

4.1 Consultant's Services shall be performed in accordance with generally accepted professional practices and principles and in a manner consistent with the level of care and skill ordinarily exercised by members of Consultant's profession currently practicing under similar conditions. Consultant shall comply with the profession's standard of performance, applicable laws, regulations, and industry standards. By delivery of completed work, Consultant certifies that the work conforms to the requirements of this Agreement and all applicable federal, state and local laws. If Consultant is retained to perform services requiring a license, certification, registration or other similar requirement under California law, Consultant shall maintain that license, certification, registration or other similar requirement throughout the term of this Agreement.

4.2 Consultant acknowledges that it is entrusted with or has access to valuable and confidential information and records of the City and with respect to that information, Consultant agrees treat such information with at least the same degree of care as Contractor employs in handling its own proprietary or confidential information but in no event with less than reasonable care. Consultant shall assure that all services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Consultant must provide copies of any such licenses. Consultant remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Consultant or its subConsultants or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.

4.3 If Consultant fails to comply with the foregoing standards, Consultant must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Consultant of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Consultant either under this Agreement, at law or in equity.

5. Compensation

5.1 In addition to Section 3 Compensation in Exhibit C – GTC, the Consultant shall be compensated for the services provided under this Agreement as follows:

5.1.1 Consultant shall be compensated for services rendered and accepted under this Agreement and shall be paid consistent with the reimbursement process established hereto, in arrears on a not to exceed basis, based upon the budget set forth in Exhibit E attached hereto and made a part of this Agreement.

6. Personnel

6.1 None of the work or services covered by this Agreement shall be subcontracted without the prior written approval of the City. Any work or services subcontracted hereunder shall be specified by written agreement and shall be subject to each provision of this Agreement. Consultant shall provide subConsultant a copy of this fully executed Agreement.

6.2 Consultant agrees to assign only competent personnel according to the reasonable and customary standards of training and experience in the relevant field to perform services under this Agreement. Failure to assign such competent personnel shall constitute grounds for termination of this Agreement. The payment made to Consultant pursuant to this Agreement shall be the full and complete compensation to which Consultant and Consultant's officers, employees, agents, and subConsultants are entitled for performance of any work under this Agreement. Neither Consultant nor Consultant's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. The City will not make any federal or state tax withholdings on behalf of Consultant. The City shall not be required to pay any workers' compensation insurance on behalf of Consultant. Consultant shall pay, when and as due, any and all taxes incurred as a result of Consultant's compensation hereunder, including estimated taxes, and shall provide City with proof of such payments upon request.

6.3 Key Personnel: Because of the special skills required to satisfy the requirements of this Agreement, Consultant shall not reassign or replace key personnel without the written consent of the City, which consent the City will not unreasonably withhold. "key personnel" means those job titles and the persons assigned to those positions in accordance with the provisions of this Agreement. The City may at any time in writing notify Consultant that the City will no longer accept performance of Services under this Agreement by one or more Key Personnel listed. Upon that notice Consultant shall immediately suspend the services of the key person or persons and must replace him or them in accordance with the terms of this Agreement. A list of key personnel is found in Exhibit A, Scope of Services.

7. Reports and Information

Consultant shall at such times and in such forms as the City may require furnish the City such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Agreement, the costs and obligations incurred or to be incurred in connection therewith, and any other matters are covered by this Agreement as specified in Exhibit A and Exhibit E.

8. Findings Confidential

All of the reports, information, data, et cetera, prepared or assembled by the Consultant under this Agreement are confidential and the Consultant agrees that they shall not be made available to any individual or organization without the prior written approval of the City. Consultant shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is required by applicable law or by proper legal or governmental authority, is already rightfully in the Consultant's possession without obligation of confidentiality, is independently developed by Consultant outside the scope of this Agreement or is rightfully obtained from third parties. Consultant shall give City prompt notice of any such legal or governmental demand and reasonably cooperate with City in any effort to seek a protective order or otherwise to contest such required disclosure.

9. Copyright

No materials, including but not limited to reports, maps, or documents produced as a result of this Agreement, in whole or in part, shall be available to Consultant for copyright purposes. Any such materials produced as a result of this Agreement that might be subject to copyright shall be the property of the City and all such rights shall belong to the City, and the City shall be sole and exclusive entity who may exercise such rights.

10. Deliverables

Consultant shall prepare or provide to the City various Deliverables. "Deliverables" include work product, such as written reviews, recommendations, reports and analyses, produced by Consultant for the City. The City may reject Deliverables that do not include relevant information or data, or do not include all documents or other materials specified in this Agreement or reasonably necessary for the purpose for which the City made this Agreement or for which the City intends to use the Deliverables. If the City determines that Consultant has failed to comply with the foregoing standards, it has 30 days from the discovery to notify Consultant of its failure. If Consultant does not correct the failure, or if it is possible to do so, within 30 days after receipt of notice from the City specifying the failure, then the City, by written notice, may treat the failure as a default of this Agreement under Exhibit C - GTC, Paragraph 29. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City. Such Deliverables will not be considered as satisfying the requirements of this Agreement and partial or incomplete Deliverables in no way relieve Consultant of its commitments under this Agreement.

EXHIBIT E
COMPENSATION SCHEDULE

The Consultant shall be compensated for the services identified in Exhibit A, Exhibit C, and Exhibit D to this Agreement as follows:

1. Project Price

1.1 The maximum the Consultant shall be paid on this Agreement is **\$1,000,000** (hereafter the “not to exceed” amount). The “not to exceed” amount includes all payments to be made pursuant to this Agreement, including City approved reimbursable expenses, if any. Nothing in this Agreement requires the City to pay for work that does not meet the Standard of Performance identified in Exhibit D section 4 or other requirements of this Agreement.

1.2 Standard Reimbursable Items: Only the reimbursable items identified Exhibit A, C and D shall be compensated to the Consultant. Reimbursable expenses will be reimbursed without markup. Fees plus reimbursable expenses shall not exceed the amount set forth in section 1.1 of this Exhibit and a copy of the original invoice for the items listed in i, ii or iii. Additionally, items such as telephone, fax, postage or freight are already included in the billable hourly rate. Consultant shall be reimbursed the direct expenses, which are the actual cost of the following items that are reasonable, necessary and actually incurred, by the Contractor in connection with the services. Section 2 of this exhibit lists the total funding allocated to the Consultant for each project they are involved in.

- i. Expenses, fees or charges for printing, reproduction or binding of documents at actual costs with no markup added to the actual cost.
- ii. Travel expenses shall be reimbursed in accordance with the City’s travel policy, which is incorporated herein by reference. Reimbursement shall be made at actual costs with no markup added to the actual cost.

1.3 The Consultant shall be entitled to receive payments for its work performed pursuant to the Agreement. The City will pay Consultant based on invoices for acceptable work performed and approved until the “not to exceed” amount is reached. Thereafter, Consultant must complete services based on the Agreement without additional compensation unless there is a material change to the Statement of Work and Scope by a written Amendment.

1.4 If work is completed before the “not to exceed” amount is reached, the Consultant’s compensation will be based on the Consultant’s invoices previously submitted for acceptable work performed and approved.

1.5 The Contingency will be used for expenses occurred for any additional requested services by the City and agreed upon between the City and the Consultant.

1.6 The Optional task described in Section 2 is not included in the base scope of work. As requested at a time determined by the City, and mutually agreed upon between the parties, the Optional task may be incorporated into the project scope by a written amendment to this Agreement, which will increase the contract per the amount stated in this Exhibit.

2. **Task Price.** Below is the price for the services and reimbursable expenses as described in Exhibit A of this Agreement.

Task	Description	Task Price
1	Project Administration & Collaboration	\$130,395
2	Baseline Assessment	\$18,096
3	Community & Stakeholder Engagement	\$192,032
4	Climate Vulnerability & Risk Assessment	\$88,575
5	GHG Inventory, Projections & Measures	\$132,402
6	Benefit and Impacts Analysis	\$122,350
7	Develop Draft Plan	\$65,772
8	Action Prioritization	\$68,370
9	Implementation Plan Development	\$52,358
10	Final Plan Development	\$69,284
11	Status Report	\$39,706
	Subtotal	\$979,340
	Contingency	\$20,660
Optional (at City's request)	Add Alternate #1 Building Energy Assessments, Energy Audits, and Building	\$125,904
Fees	Total (Excluding Optional Tasks listed in red)	\$1,000,000

3. **Hourly Rates.** The following is a list of hourly billable rates that Consultant shall apply for additional services requested of the Consultant. Consultant shall be compensated based on the hourly rates set forth below, on a time and material basis for those services that are within the general scope of services of this Agreements, but beyond the description of services required under Exhibit A, and all services are reasonably necessary to complete the standards of performance required by this Agreement. Rates listed below are valid through September 2024

and will be escalated in October of each calendar year by 4 percent. Any changes and related fees shall be mutually agreed upon between the parties by a written amendment to this Agreement.

Title	Hourly Billable Rates
Project Director	\$278
Project Manager	\$230
GHG & Benefits Lead	\$180
GHG Analyst	\$149
Co-Pollutants Analyst	\$173
LIDAC Analyst	\$139
Adaptation Task Lead	\$275
Tech Analyst	\$210
Adaptation Planning	\$155
Funding and Financing Lead	\$249
Engagement Lead	\$230
Equity Analyst	\$229
Engagement Analyst	\$161
Website Lead	\$208
Cost Analyst	\$204
Funding Analyst	\$146
Graphics	\$138
Workforce Development Analyst	\$201
Building Assessment Tech Lead	\$302
Facility Assessment	\$191
Sr. Facility Assessment	\$222
Project Controls	\$165

4. **Invoice to Address.** Consultant shall submit an invoice to the City's staff consistent with the process provided in Exhibit A. Invoices shall be submitted to the below address and remitted electronically:

City of Stockton
City Manager's Office
Attention: Office of Environment & Sustainability
425 N. El Dorado Street
Stockton, CA 95202

Email: Shalilah.bess@stocktonca.gov; grant.kirkpatrick@stocktonca.gov

EXHIBIT F

TIMELINE

Consultant shall complete the requested services identified in Exhibit A as follows:

See attached Exhibit F – AECOM Project Schedule

Attachment A

Project Approach – Order of Tasks

Our proposed scope of work will achieve each task detailed in the RFP. However, we are recommending an alternative ordering of tasks and subtasks to improve the efficiency and effectiveness of stakeholder engagement, which is critical for informing our recommendations. Table 1 shows the crosswalk from our proposed scope of work tasks to those included in the RFP, while Figure 1 illustrates conceptually how the project's technical work aligns with our proposed Project Collaborator meetings and community and stakeholder engagement events.

Table 1 - Scope of work task comparison

AECOM Scope Tasks	City of Stockton RFP Task Elements
Task 1. Project Administration & Collaboration	Task 2.1 Project Start-up Meeting Task 2.2 Project Collaboration Meetings
Task 2. Baseline Assessment	Task 2.3 Baseline Assessment & Goal Setting
Task 3. Stakeholder & Community Engagement	Task 2.4 Stakeholder & Community Engagement Plan Task 2.5 Community Workshops
Task 4. Climate Vulnerability & Risk Assessment	Task 2.6 Climate Vulnerability Assessment & Risk Assessment
Task 5. GHG Inventory, Emissions Projections, & Measures	Task 2.7 GHG Inventory, Emissions Projections & Measure
Task 6. Benefits & Impact Analysis	Task 2.8 Benefits Analysis Task 2.9 Low Income/Disadvantage Communities Benefits Analysis Task 2.10 Workforce Planning Analysis
Task 7. Draft Plan (PCAP) Development	Task 2.12 Draft Plan Development (Priority Climate Action Plan)
Task 8. Action Prioritization	Task 2.11 Action Identification & Prioritization
Task 9. Implementation Plan Development	Task 2.13 Implementation Plan Development
Task 10. Final Plan Development	Task 2.14 Final Plan Development
Task 11. Status Report	Task 2.15 Status Report
Optional Task 1: Building Energy Assessments, Energy Audits, & Building Upgrades	Add Alternate #1. Building Energy Assessment, Energy Audits, & Building Upgrades

Figure 1 - Workflow between technical work and stakeholder and community outreach

Task 1. Project Administration & Collaboration

Task 1.1 Project Start-up Meeting

Our Sacramento-based project management team – project director Josh Lathan and project manager Shelley Jiang – will organize an in-person kickoff meeting with the City to discuss project goals and timeline, request initial data, and review communication protocols. Following the kickoff meeting, we will provide the City with a detailed project schedule, including anticipated deliverable dates and review periods.

DELIVERABLES

- Organize and facilitate one (1) one-hour in-person project team kickoff meeting, including meeting agenda and minutes (i.e., bulleted email summary of decisions and next steps) (Final; PDF)
- Project schedule, including milestones and deliverable review periods (Final; Excel and PDF).

ASSUMPTIONS

- We have planned for an in-person kickoff meeting but can adjust based on City preferences.
- Up to four (4) AECOM staff will participate in the kickoff meeting.

Task 1.2 Goal Setting

Following the project start-up meeting, we will develop a draft project vision, goals, and objectives, which can be shared with the public and other stakeholders when engagement activities begin. This will be a living set of goals and objectives that can be revisited and revised as technical analysis is completed, such as the GHG inventory and climate vulnerability assessment. These draft statements will help guide early phases of the project, such as the action identification process, and will be finalized as part of the PCAP development phase.

DELIVERABLES

- Project vision, goals, and objectives (Draft and Final; PDF).

Task 1.3 Project Administration

Our project management team will host regular project check-in meetings with the City team for the duration of the project. We propose virtual bi-weekly check-in meetings that include the AECOM and City project management teams, with participation from task leads or other subject matter experts, as needed. These meetings will be an opportunity to review and coordinate progress on deliverables, discuss technical questions, debrief on community and stakeholder outreach,

and discuss next steps. Throughout the duration of the project, the AECOM team will be available for calls and emails to promptly discuss project items as they occur.

DELIVERABLES

- Host virtual bi-weekly project check-in meetings, including meeting agendas and minutes; up to 56 meetings for the project duration.

ASSUMPTIONS

- Project check-in meetings are 30-minute virtual meetings that include AECOM Project Manager, with other staff included on an as-needed basis.

Task 1.4 Quarterly Collaboration Meetings

In addition to regular project administration meetings that will help keep the overall project on track (see Task 1.3), we anticipate the need for periodic meetings with the City project team and other partners throughout the duration of the project.

These meetings can be useful for:

- reviewing interim deliverables,
- sharing updates on overall project progress and upcoming activities, and
- soliciting input when choosing from multiple options for the technical approach.

Participants in these meetings are likely to include the Climate Action Plan Advisory Committee, inter-agency department staff, and municipal partners within the MSA region and are referred to as Project Collaborators in this scope of work. We reference specific instances of review and input from these groups throughout the project tasks where collaboration opportunities are already known, including review and discussion of:

- initial climate action ideas,
- draft GHG targets and quantified action results,
- climate vulnerability assessment results,
- action prioritization,
- review of PCAP and Final Plan reports, and
- Status Report approach and results.

To establish a cohesive working relationship, we propose quarterly in-person sessions for the two-year PCAP and CCAAP development timeframe, with meetings to include the groups listed above and the AECOM and City project teams, with participation from Little Manila Rising to be determined by the City. We will develop meeting agendas and provide review materials in advance of these sessions, along with meeting minutes summarizing decisions.

DELIVERABLES

- Project collaboration meeting agendas, discussion review materials, and meeting minutes (Final; Word, PDF, and/or Excel).

ASSUMPTIONS

- Up to two (2) AECOM staff will attend eight (8) in-person collaboration meetings.
- The City will secure a meeting location for quarterly in-person project collaboration meetings.

Task 2. Baseline Assessment

AECOM will review and evaluate the City's existing plans, policies, and resources to understand the history and context of climate action in Stockton and inform CCAAP action development. We will summarize results within a simple matrix that includes columns for each climate hazard to be evaluated in the climate vulnerability assessment and GHG emissions type to be included in the City's inventory. This structure will allow us to identify climate areas that have previously or are currently being addressed, policy and program gaps, new opportunities, and existing actions that can be enhanced.

The baseline review will include a variety of sources, such as:

- Primary City plans and studies related to climate action, including:
 - City of Stockton 2014 CAP,
 - General Plan,
 - 2008 Settlement Agreement,
 - cultural resources studies, and
 - other relevant City documents
- Primary plans developed by regional agencies that can influence Stockton's climate planning approach:
 - San Joaquin Council of Governments (SJCOG) 2022 Regional Transportation Plan and Sustainable Communities Strategy.
- City staff input to qualitatively evaluate prior City actions related to GHG reductions, including:
 - garbage truck operations,
 - organic waste processing,
 - wastewater treatment and upgrades at the regional wastewater control facility,
 - solar light installations,
 - economic development

As part of a resilience project for Dumbarton Bridge, AECOM worked with local CBOs to hold a multi-week capacity-building and training workshop for residents in East Palo Alto.

AECOM will confirm a list of resources to be reviewed with the City team prior to developing the baseline assessment. Building from our experience in developing other PCAPs, we will also develop a brief Project Intake Form (PIF) to identify implementation-ready climate actions in the region for which program funding is the primary remaining barrier. We will distribute the PIF via the project collaboration meetings in Task 1 and to local CBOs via Little Manila Rising. Feedback on the PIF will partially inform the list of CCAAP actions.

DELIVERABLES

- Policy and program review matrix (Draft and Final; Excel).
- Project intake form (Final; Word).

ASSUMPTIONS

- City and Little Manila Rising teams will follow-up with PIF recipients to collect completed forms.

Task 3. Stakeholder & Community Engagement

Community and stakeholder engagement are critical to the successful development and implementation of the CCAAP, as effective GHG reduction measures require collective action across multiple sectors and communities, while resilience must be addressed on a community-wide basis. The City of Stockton has demonstrated its commitment to equity by partnering with Little Manila Rising to develop a thoughtful, community-led outreach process. AECOM is excited to work side by side with Little Manila Rising to understand community feedback on priorities, needs, and vulnerabilities to inform the CCAAP process.

The City is home to two of the most disadvantaged communities in California, making it vital that they are part of an inclusive, accessible outreach effort. AECOM will work closely with the City and Little Manila Rising to develop equity-centered outreach efforts to foster broad community involvement and reduce barriers to participation for communities that have historically been excluded from decision-making and planning processes.

To address these challenges, we propose employing a range of methods tailored to community members' preferences. AECOM will work collaboratively with the project team to understand agency and community priorities, build broad-based support for climate action (both mitigation and adaptation), and integrate key feedback to improve outcomes for communities. Throughout the process, we will coordinate with the City, Little Manila Rising, and other Project Collaborators to guide outreach efforts. Based on our recent community engagement experience in the region and our

current work with SMAQMD, we recognize this is a unique opportunity to:

- Build public awareness of climate change, existing regional initiatives and leadership, and the CCAAP process;
- Enhance collaborative partnerships among the City, regional governments and agencies, residents, local organizations, and businesses; and
- Listen to, learn from, and integrate valuable community input and feedback.

Task 3.1 Community Engagement Plan

AECOM will work closely with Little Manila Rising and the City of Stockton to develop and implement a Community Engagement Plan (CEP) tailored to the conditions and characteristics of Stockton and the broader MSA region. As part of the plan development, AECOM will hold three (3) virtual meetings with the City and Little Manila Rising to devise a tailored approach to community and stakeholder outreach during the CCAAP development process. The CEP will identify key stakeholders to be engaged; goals and purpose of outreach; types of activities; a timeline; and tactics to increase participation, especially of vulnerable and disadvantaged communities. Based on recommended best practices to go to the community, where possible, the CEP will also identify existing community events, meetings, festivals, and other activities at which the project team can conduct pop-ups or provide engaging presentations, such as the:

- Ripon Almond Blossom Festival,
- Stockton's Chinese and Cambodian New Year Celebrations,
- San Joaquin Asparagus Festival,
- Stockton Cinco de Mayo Family Festival,
- Lodi Street Faire,
- Linden Cherry Festival,
- San Joaquin County Fair,
- Stockton's Concerts in the Park series,
- Stockton Black Family Day Culture Fest, and
- Manteca Pumpkin Fair.

By going to the community, we aim to engage a more diverse range of participants than those who typically attend public workshops and open houses. We will revisit the CEP twice during the course of the project and revise based on engagement event outcomes and experiences, community feedback, and feedback from the City and Little Manila Rising. Anticipated points of revision could be 1) in fall 2024, after initial round of outreach to support PCAP development; and 2) in summer 2025 to support CCAAP outreach.

In collaboration with project partners, AECOM will also develop communication materials and marketing tactics to increase meeting attendance, public participation, and

Pop-up stand for the City of Long Beach Climate Action and Adaptation Plan (CAAP).

robust community engagement toward the City's community participation goals, as noted in the RFP. Materials will focus on increasing participation from under-served and disadvantaged communities as well as the general public, and media engagement, such as press releases.

DELIVERABLES

- Community Engagement Plan (Draft Word).
- Three press releases at key project milestones, specifically 1) project inception; 2) PCAP release; and 3) CCAAP release (Draft and Final; Word and PDF).
- Engagement and marketing materials (e.g., social media messages and graphics, flyers, and posters) for up to two (2) community workshops, and ten (10) events and meetings.

ASSUMPTIONS

- Three planning meetings for the Community Engagement Plan will be held virtually.
- City and Little Manila Rising will have three rounds of review for the CEP (one for initial creation and one for each update), and all comments will be consolidated in a single document with conflicting comments resolved.
- The City or Little Manila Rising will arrange for translation of communication materials.

Task 3.2 Community Workshops

Traditional in-person workshops remain important for those that wish to participate more deeply and will be used to complement other engagement approaches. Community workshops should:

- help stakeholders feel heard,
- let stakeholders feel like owners of their own plan,
- collect meaningful data, and
- use this data to create compelling data-driven communications.

We propose two community workshops during the PCAP and CCAAP development timeline, with community climate surveys acting as online extensions of each workshop (see Task 3.3). We will schedule the workshops to align with points in plan development where community input is most valuable, which could include:

- **PCAP Workshop:** Sharing results of the GHG inventory and projection analysis and climate vulnerability assessment, and soliciting input on climate action ideas and preferences, and action evaluation criteria to inform the benefits analysis and action prioritization later in the project.
- **CCAAP Workshop:** Discussing benefits analysis results from the PCAP, prioritizing climate action implementation phasing, and identifying implementation opportunities and challenges to inform implementation plan development.

Community outreach for the City of Long Beach CAAP.

AECOM will develop draft workshop agendas and materials for review with the City team, including workshop objectives, format, breakout station boards, and facilitator guides. We will provide workshop summary notes following each event. Up to four AECOM team members will attend each workshop.

DELIVERABLES

- Meeting materials for two (2) workshops, including agendas, objectives, presentations, breakout station boards, facilitator guides, and summary notes (Draft and Final; PDF, PPT).
- Staffing by up to four (4) members of the AECOM team at two (2) in-person workshops, as described above.

ASSUMPTIONS

- City and/or Little Manila Rising staff will co-facilitate workshops
- City team will secure meeting venue, provide refreshments, and manage public workshop noticing

Task 3.3 Community Climate Action Surveys

AECOM will develop two (2) community climate surveys that replicate the engagement aspects of the two in-person community workshops (see Task 3.2):

- Survey One will focus on GHG reduction and adaptation action preferences and prioritization criteria, and
- Survey Two will focus on climate action priorities and implementation approaches.

We used this workshop / survey pairing successfully during PCAP development for the El Paso MSA where surveys were offered in English and Spanish. Surveys will aim to be succinct and accessible, while seeking key feedback from community members. They will be translated into up to four (4) languages to be determined with the City and Little Manila Rising.

AECOM will partner with Little Manila Rising to reach a broad, inclusive audience for the surveys, including distribution

both online, via a social media campaign, and on paper at community workshops, events, and meetings. The survey outcomes will inform the project team's understanding of climate strategies that are likely to be supported by community members, as well as key resident priorities and concerns.

DELIVERABLES

- Development and analysis of two (2) community climate surveys (Draft and Final).

ASSUMPTIONS

- City will provide one round of review per survey and a single set of consolidated and adjudicated comments.
- City team and/or Little Manila Rising will arrange for survey translation.

Task 3.4 Community Meetings and Events

Based on outreach best practices and our extensive project experience, AECOM proposes to enhance engagement opportunities from the community workshops and climate surveys by going to the community and attending existing events and meetings, where possible. We believe this can reach a wider number of community members, who may have too many demands on their time and resources to attend a dedicated meeting.

Informed by the CEP and Little Manila Rising, AECOM will select a diverse range of existing events and meetings to present or table at, bringing the project to an array of Stockton area communities. These can include farmers markets, community festivals (e.g., regional agricultural festivals, community cultural events, Stockton Concerts in the Park series, San Joaquin County Fair), neighborhood association meetings, and other convenings within the MSA, encompassing communities in urban, agricultural, and rural areas. Where possible, AECOM will aim to attend events and meetings hosted by CBOs serving disadvantaged communities.

We expect community meetings and events in this task to primarily align with the PCAP and CCAAP development phases, and engagement materials will be developed to solicit feedback accordingly. At these events, we propose to collect feedback on preferred GHG reduction and adaptation strategies, co-benefits, and impacts on low-income and disadvantaged communities through the climate surveys where timing aligns (see Task 3.3) or interactive activities and games to draw out input on community preferences and priorities. We will develop two (2) mini-presentations (one PCAP focused, one CCAAP focused) that can be delivered at standing meetings for CBOs or other groups. We will also develop a more generalized set of engagement materials that can be used for broader information sharing at community events and meetings that do not align directly with community input collection periods for project deliverables.

AECOM also proposes up to two (2) community meetings held in conjunction with Stockton CBOs, such as Little Manila Rising, El Concilio, Stockton Mobility Collective, the Catholic Diocese of Stockton, Black Urban Farmers Association, and the Reinvent South Stockton Coalition. These meetings are distinct from the community workshops described in Task 3.2 and will aim to be integrated with an existing meeting or event held by these organizations to increase value for community members. Following best practices, events will provide translation/interpretation and refreshments and be hosted in locations familiar to and accessible by community members. Additionally, to support continued participation and engagement with local CBOs, we propose that the City directly compensates organizations for their valuable time and insights. Based on our research, the average stipend for CBO participation in northern California is approximately \$125/hr.

DELIVERABLES

- Engagement materials in up to four (4) languages, including two presentations and two project informational flyers (Draft and Final; PPT and PDF).
- Attendance at up to eight (8) pop-up events and meetings throughout the Stockton MSA.
- Attendance at up to two (2) community meetings hosted with Stockton CBOs.
- Outreach activity summary (Draft and Final; Word and PDF).

ASSUMPTIONS

- Staffing by up to two (2) AECOM staff at up to ten (10) in-person events and meetings.
- City team and/or Little Manila Rising will arrange for translation of engagement materials.
- City will provide one round of review for engagement materials and the outreach activity summary; and will provide a single set of consolidated and adjudicated comments.

Stakeholders participating in an interactive cascading consequences exercise as part of a climate preparedness training.

Task 3.5 Stakeholder Interviews

AECOM will hold a series of interviews and focus groups with residents and other stakeholders to inform the PCAP, CCAAP, and climate vulnerability assessment. The interviews will focus on specific topics to inform plan development and allow our team to dig deeper with local input. The interviews can build upon the community workshops, surveys, and meetings and events described in prior tasks by filling gaps in terms of topics covered and voices heard. These interviews will allow stakeholders to share their lived experiences, perspectives on opportunities and challenges of reducing GHG emissions and adapting to climate change, and recommendations to increase co-benefits for LIDAC communities, including economic and workforce development.

AECOM is experienced with holding CBO focus groups to understand community needs and priorities specifically around CPRG strategies and climate vulnerabilities for the Southern California Association of Governments and understands the importance of translating technical information in a way that is accessible to the broader public.

We will work with Little Manila Rising and the City to identify a list of stakeholders for interviews, including:

- **Resident and community-focused groups**

- residents
- youth
- schools
- environmental and social justice groups
- urban farmers
- food co-ops
- public health groups
- other key community groups

- **Key City departments**

- Public Works
- Municipal Utilities
- Community Development

- **Key agency partners**

- Escalon
- Lathrop
- Lodi
- Manteca
- Ripon
- Tracy
- Unincorporated San Joaquin County

- **Regional agencies**

- San Joaquin Council of Governments
- San Joaquin Valley Air Pollution Control District
- San Joaquin Area Flood Control Agency

- **Other key stakeholders**

- FEMA
- the Regional Climate Collaborative
- business groups

Interviews will be scheduled individually or in a focus group format, depending on the audience. For example, residents and homeowners may feel most comfortable discussing their perspectives in a focus group setting. Focus groups will be organized by topic area (e.g., flooding; green workforce development; home decarbonization).

DELIVERABLES

- Interview guides (Draft and Final; PDF).
- Summaries of key takeaways for up to twenty (20) interviews and focus groups (Draft and Final; Word and PDF).

ASSUMPTIONS

- All interviews and focus groups will be conducted virtually by up to two (2) AECOM staff.
- City will provide one round of review for interview guides and summaries of key takeaways, and will provide a single set of consolidated and adjudicated comments.

Task 3.6 Website Development

AECOM will build a CCAAP project website that keeps the public informed and engaged during plan development. The website will provide a portal where the public can find project information, respond to the community climate action surveys, view event announcements, read public drafts, and provide comments. Based on a recent example working with St. Louis County on its 2050 Equitable and Sustainable Comprehensive Plan, we propose developing a website through the City's ArcGIS Online account.

Our team will propose a website structure and collect design guidelines (including color palettes) and photos from the City to prepare draft website layout examples for review with the City team. In preparation for website design, we will meet with the City's communications and/or IT team to discuss branding concepts (e.g., preferred fonts, color palette, city photos, language/grammar style, etc.) and technical considerations. Following the meeting, we will develop a draft website outline for the City's review. Following confirmation of the website outline, we will develop a draft website for the City team's review and will incorporate one consolidated set of comments to produce the full website. Throughout the project timeline, we will confirm with the City team what new materials or information AECOM should publish through website updates, such as notices for upcoming engagement events, project schedule and milestone revisions, and/or new document uploads for public review.

News and Updates

Stay tuned for the most recent news and updates about STLCO 2050.

[Website](#) for the St. Louis County 2050 Comprehensive Plan.

DELIVERABLES

- One (1) design and communications review meeting (virtual) with City Communications and/or IT team
- Draft website outline.
- Draft and final website.
- Updates to website, as needed.

ASSUMPTIONS

- City will provide branding guidelines (e.g., fonts, color palette, images, logos, language/grammar style, etc.).
- City will host CCAAP website on its existing website/webpage and infrastructure.
- AECOM will build CCAAP website using City's existing ArcGIS Online (Esri) account.
- City of Stockton will be responsible for ArcGIS Online costs.
- City will maintain or close CCAAP website following project completion.
- City will provide one consolidated set of comments on the draft website outline and draft website.

Task 4. Climate Vulnerability & Risk Assessment

Through this task, AECOM will evaluate projected climate change and its resulting impacts on the Stockton region, with a focus on the City's communities, buildings, infrastructure, natural areas, and operations.

Task 4.1 Review of Local Climate Projections

AECOM will identify climate hazards most relevant to the Stockton region based on a desktop literature review, community engagement, stakeholder feedback, and input from City staff. This list will likely include extreme heat, extreme precipitation, inland flooding, wildfire and associated air quality impacts, and drought.

AECOM will develop summaries for each climate hazard, describing current conditions and projected changes by mid-century (2050) and end-of-century (2100) for the high emissions scenarios (RCP 8.5). Climate projections will come from Cal-Adapt (California's Fourth Climate Change Assessment data) or, if available at the time this task is initiated, California's Fifth Climate Change Assessment.

Climate hazard summaries will be provided at a regional level for the MSA; however, the vulnerability assessment will focus on the City of Stockton. Given the coarse spatial resolution of downscaled General Circulation Model outputs available through Cal-Adapt, it is unlikely the data will show substantial variability across the City for projected changes to temperature or precipitation patterns. More specifically, while temperatures are not expected to vary across the city, exposure to extreme heat will vary based on the urban heat island (UHI) effect, due to local variations in urban tree canopy cover and land uses (e.g., the amount of paved surfaces). Similarly, exposure to flooding will vary throughout the City. Stockton has experienced flooding in the past that could be intensified by more extreme storms and historic underinvestment in flood protection infrastructure. Thus, AECOM recognizes that it will be critical to account for local factors such as the UHI effect, topography, and social vulnerability, through the use of CalEPA's Urban Heat Island Index as an overlay of extreme heat projections and FEMA flood hazard maps. AECOM will develop exposure results and summaries for key future climate hazards for use in the vulnerability assessment (Task 4.2).

DELIVERABLES

- Memorandum summarizing local projections for each climate hazard for mid-century and end-of-century timeframes and one scenario (RCP 8.5) (Draft and Final, Word and PDF).

ASSUMPTIONS

- The AECOM team will rely on the validity of readily available resources such as published literature and data and projections available from Cal-Adapt.
- The City will provide one round of review for the memo, and will provide a single set of consolidated and adjudicated comments.

Task 4.2 Vulnerability Assessment

AECOM will conduct a vulnerability assessment to identify elements of the City's infrastructure, communities, and natural areas most vulnerable to the climate hazards identified in Task 4.1. These results will guide and inform strategy development.

Vulnerability to a given climate hazard is a function of **exposure** (whether the asset is located in an area that will be impacted) and **sensitivity** (degree to which an asset may be affected if exposed). **Adaptive capacity** (the ability of an asset to make changes to mitigate potential damage) will be used to adjust sensitivity ratings.

$$\text{Vulnerability} = \text{Exposure} \times \text{Sensitivity}$$

Assets

The team will request data from the City to identify key assets included in the vulnerability assessment. Example asset types for the City of Stockton fall into three general categories: physical assets and infrastructure, natural systems, and communities, shown in the table below.

Category	Asset Type	
Physical Assets	Transportation	Local roads and highways, public transit, bike routes, and pedestrian paths
	Critical Buildings	Community facilities (schools, senior centers), hospitals, clinics, emergency response services
	Critical Infrastructure	Electric utilities, pump stations, stormwater infrastructure
Natural Systems	Wetlands, parks, urban forest	
Communities	Disadvantaged communities and vulnerable populations	

The City and stakeholders will provide feedback to confirm that relevant asset types are included, and to identify any critical assets where failure or damage would lead to severe consequences for the City and its communities.

Vulnerable and Disadvantaged Communities

AECOM will conduct an in-depth analysis to identify the benefits and tradeoffs of various social vulnerability indices commonly used to identify disadvantaged communities, including CalEnviroScreen 4.0 (CES); California Healthy Places Index (HPI); Climate Change & Health Vulnerability Indicators for California (CCHVI); Access and Functional Needs (AFN) Web Map; and the Social Vulnerability Scores from the Federal Emergency Management Agency's (FEMA) National Risk Index. AECOM will select up to three of these tools to identify

Asset Type	Hazard							
	SLR + Storm Surge	Riverine Flooding	Extreme Heat	Wildfire	Landslides/Mudslides	Drought	Seismic	Electrical Outages
Track	Medium	Medium	Medium	Low	High	Low	Medium	None
Bridges	Low to High	Low to High	Low	Medium to High	High	Low	Low to High	None
Tunnels	n/a	Medium	None	Low	Medium	Low	High	Medium
Culverts	Low to Medium	Low to Medium	None	Low	High	Low	Medium	None
Signals	Medium	Medium	Low	High	Medium	Low	Medium	Medium
Communications	Low	Medium	Low	Medium to High	High	Low	Medium	Medium
Stations	Medium	Medium	Low to High	Medium	High	Low	Low to Medium	Low
Facilities	n/a	High	Low to High	Low to Medium	High	Low	Low to High	Low to High

Metrolink Climate Vulnerability Assessment and Sensitivity Matrix.

vulnerable communities based on those that most closely align with the goals and objectives of the City of Stockton and the CCAAP.

Sensitivity and Adaptive Capacity

To assess the sensitivity of physical assets and natural systems, a matrix will be developed for each asset or system type documenting its sensitivity to each climate hazard. Qualitative sensitivity ratings (high, moderate, or low) will be developed.

Sensitivity for human populations varies depending on socio-economic characteristics, which will be captured in the social vulnerability indices. Sensitivity to each climate-related disruptor varies based on certain attributes of vulnerable populations (i.e. people with respiratory diseases are more sensitive to wildfire smoke). To facilitate relevant and actionable analysis, sensitivity data will be evaluated at the block group scale for the entire Stockton MSA.

AECOM will draw on knowledge from previous projects and desktop research to identify socioeconomic characteristics that can heighten the sensitivity of populations to a given hazard. To the extent possible, AECOM will use data from the social vulnerability indices previously identified. For instance, a census tract with a high percentage of low-income

households will be more sensitive to extreme heat due to reduced access to adequate air conditioning.

Adaptive capacity for each asset type will be reviewed with the City and used to adjust sensitivity ratings. For example, a senior center that can be upgraded with air-conditioning and cool roofs will have higher adaptive capacity, and thus lower sensitivity, to extreme heat than an outdoor bike and pedestrian path; communities without vehicle access will have lower adaptive capacities, and thus higher sensitivities, to climate hazards.

Vulnerability Assessment Results

As the final step in the vulnerability assessment, sensitivity scores and climate exposures (as assessed in Task 4.1) will be combined to arrive at vulnerability scores for Stockton's physical assets and communities. Key vulnerabilities will be summarized, and the most vulnerable assets and communities will be prioritized for strategy development.

DELIVERABLES

- Brief memorandum summarizing the benefits and tradeoffs of various social vulnerability indices (Draft and Final; Word and PDF).
- Memorandum summarizing asset sensitivities, adaptive capacities, and vulnerability assessment results, including the most vulnerable assets and communities (Draft and Final, Word and PDF).

ASSUMPTIONS

- The City will provide geospatial data for assets selected for inclusion in the vulnerability assessment.
- AECOM will leverage publicly available datasets as the basis to assess climate exposures and social vulnerability.
- AECOM will rely on the accuracy of City-provided and publicly available datasets.
- The City will provide one round of deliverable review, and will provide a single set of consolidated and adjudicated comments.

Task 4.3 Risk Assessment

AECOM will evaluate previous hazard occurrences and the results of the vulnerability assessment to assess the likely impacts of each hazard on critical infrastructure, communities, housing, mobile homes, and other assets identified as important by community members. To assess risk, the likelihood of a major hazard (e.g., a severe flood or extended heat wave) will be combined with impact (consequence) to identify the highest risk hazards. The outcomes of the risk assessment will inform and guide strategy development.

DELIVERABLES

- Summary of hazard impacts on critical infrastructure, communities, housing, and mobile homes (Draft and Final; Word and PDF).
- Risk matrix for severe hazards (Draft and Final; Excel).

ASSUMPTIONS

- The City will provide one round of deliverables review, and will provide a single set of consolidated and adjudicated comments.

Task 4.4 Adaptation Strategy Development

AECOM will draw upon best practices, industry standards, and research to develop adaptation measures for the most vulnerable assets and communities. The strategies will be informed by community and stakeholder feedback described in Task 3, vulnerability assessment findings, City input, and our prior experience developing climate adaptation strategies. AECOM will develop a total of 20 high-level preliminary adaptation strategies, which will be evaluated for prioritization in Task 8. The prioritized strategies will be further refined through the development of implementation actions.

DELIVERABLES

- 20 preliminary adaptation strategies (Draft; Excel).

Task 5. GHG Inventory, Emissions Projections & Measures

AECOM will develop GHG inventories for the City of Stockton and broader MSA-region, from which we will develop near- and long-term GHG emissions projections and reduction targets. We understand the CPRG guidance allowed lead agencies to develop a high-level inventory for PCAP purposes, which would then be updated as an economy-wide inventory during the CCAP phase. To maximize project resources, we propose developing the required economy-wide GHG inventory during the PCAP phase of this project. Leveraging our GHG emissions modeling experience, we will provide the City with a nuanced understanding of potential emissions reduction scenarios, allowing for informed decision-making when identifying priority GHG reduction measures.

Task 5.1 GHG Inventory Development

AECOM will develop a community-wide GHG inventory for the City of Stockton and an MSA-wide inventory that covers unincorporated San Joaquin County and the cities of Escalon, Lodi, Lathrop, Manteca, Ripon, and Tracy. We recommend following an inventory protocol tailored to community emissions inventory development, such as the US Community Protocol or the Global Protocol for Community-

VMT ANALYSIS METHODS

Fehr & Peers will coordinate with the City team to discuss travel demand model options for estimating city-wide and MSA region-wide VMT as an input to the project's GHG inventories and projections. VMT for the CCAAP scenario years will be forecast by interpolating or extrapolating between the model's base year and future year. VMT estimates will be based on the Origin-Destination (O-D) method, and two types of VMT will be calculated:

1. **Full accounting of all VMT generated by the jurisdictions.** This VMT is a network-based estimation or forecast that includes total VMT that has at least one end of the origin or destination (OD) within the study area accounting for the entire length of travel. In other words, this VMT includes trips that are internal to the study area (II), originate in the study area and end outside the study area (IX), and trips that originate outside the study area and end within the study area (XI). The reported VMT will be disaggregated into the following specific metrics:
 - a. II, IX, and XI VMT and by vehicle types as identified by the model
 - b. Total VMT by Speed Bin and by vehicle types as identified by the model
2. **Proportional accounting of VMT generated by study area.** This method proportions the VMT generated by the study area according to the location of the trip start and end locations. In other words, II trips (those that start and end in the City) are assigned as 100% to the City while the IX and XI trips are assigned as 50% responsibility. The reported VMT is disaggregated into the following specific metrics:

- a. II, IX, and XI VMT and by vehicle types as identified by the model
- b. Total VMT by Speed Bin and by vehicle types as identified by the model

Fehr & Peers will also develop VMT efficiency metrics (home-based VMT per capita and home-based work VMT per worker) using the methodologies described in the City of Stockton Transportation Impact Analysis Guidelines. VMT efficiency metrics will be used to help quantify VMT reductions strategies that may only apply to specific types of VMT.

Finally, Fehr & Peers will use the VMT+ tool¹ to review the VMT per capita results from the model.

Replica Validation: Fehr & Peers will use Replica Data to review the travel pattern of the City of Stockton and the Stockton MSA. Replica is a nationwide activity-based travel demand model with detail down to the census block group and local street level. Replica combines multiple datasets to represent activities and travel behavior for baseline conditions.² Replica can help answer other transportation-related questions such as O-D travel patterns, specific roadway usage, II, IX, and XI travel, and VMT.

This data will be used to review the model outputs for consistency. If needed, this data will be used to perform up to two iterations of base year model calibration and validation. This will help improve model performance and remove model bias.

¹ VMT+ is an open-source tool developed by Fehr & Peers that provides a combination of resources to review VMT per capita data at the Census Block Group (CBG) level throughout California. This tool uses StreetLight data to estimate VMT. <https://storymaps.arcgis.com/stories/e9fb17d33a2c4d60a6747071be3d5b4a>

² <https://www.replicahq.com/>

Scale Greenhouse Gas Emission Inventories (GPC) and will discuss options with the City team at the start of this task. Based on these protocols and consistent with the CPRG program requirements, the inventory will be organized into sectors including:

- Building energy (e.g., electricity, natural gas)
- On-road transportation
- Off-road transportation
- Water energy
- Wastewater
- Solid waste
- Industrial sources
- Forest & trees

We will develop a data collection tracker that identifies data needed and the potential and final data sources, which can serve as a guidance document for future inventory development. To the extent possible, we will collect publicly available data to streamline the inventory development process consistent with the expected timeline in the RFP and to facilitate aspects of the Status Report process per Task 11. In instances where we propose data be collected from external agencies (e.g., utility companies, SJCOG), AECOM will develop data request emails for the City team to send and will refer technical questions back to AECOM. As part of the data collection process, our teaming partner Fehr & Peers will coordinate with the City to review options for different travel demand models for estimating vehicle miles traveled (VMT). VMT estimates and forecasts will

include the vehicle travel associated with residents, workers, students, visitors, etc. engaged in activities that begin and end in the City of Stockton or the Stockton MSA. See call-out box **VMT Analysis Methods** for further details on Fehr & Peers' travel modeling approach. Results of this analysis will be documented in an Excel spreadsheet and brief memo describing the VMT analysis methodology.

We anticipate the inventories will be developed for calendar year 2022, pending data availability. We will develop the inventories in a custom Excel workbook that the City can update or expand upon for future inventories. The GHG workbook will be expanded to include the emissions projections results described in sub-task 5.2. Our team is also experienced in using ICLEI's ClearPath calculator to develop community GHG inventories (and projections) if the City has an ICLEI membership and would prefer that delivery method.

Task 5.2 GHG Emissions Projections

Based on the community-wide and MSA-wide GHG inventories, AECOM will develop GHG emissions projections for the near- and long-term (e.g., 2030 and 2050), aligning with Stockton's preferred GHG target years and consistent with the emissions projection approach in the City's 2014 CAP. Emissions will be projected under two scenarios – a "business-as-usual" scenario will show how emissions could change if no additional action is taken to curtail their growth, and an "adjusted business-as-usual" scenario will consider the potential impacts of primary regulations and programs. Projections will be made by sector, such as transportation and buildings.

To understand the future impact of the current regulatory environment on GHG emissions, we will collect information on primary state and/or federal regulations, such as California's Renewables Portfolio Standard or the federal Corporate Average Fuel Economy standards. We will limit regulatory considerations to those expected to be successfully implemented with a high degree of certainty (e.g., based on prior progress, existing implementation frameworks, etc.) to keep the forecasting scenario reasonably conservative for emissions analysis purposes.

In developing the GHG forecasts, we will collect growth indicators that are related to emissions activity in the GHG inventory, such as city and regional population and employment growth. We will also collect emissions forecasting inputs and assumptions from key regional partners, such as SJCOG. Forecasts for future VMT will be estimated using the same methodology as described in the VMT Analysis Methods call-out box and combined with vehicle emissions factors collected from the California Air Resources Board EMFAC emissions model. We will develop an emissions forecasting data needs list that identifies the growth indicators needed and assigns responsibility for

collection. Upon collecting the growth indicators, AECOM will develop emissions forecasts within the GHG inventory workbook to be used later in the GHG reduction scenario analysis.

Task 5.3 GHG Reduction Targets

Through this sub-task we will facilitate discussions with the City project team as part of the project's bi-weekly check-in meetings to establish economy-wide GHG reduction targets for the near- and long-term timeframes. Target setting discussions are often iterative and informed by the action development process, which will happen in parallel, to understand the City's and region's GHG reduction potential in each target year. We understand the targets must fit within the context of – and contribute to the achievement of – the state's GHG reduction goals. In addition to economy-wide targets, we will work with the City to develop goals for priority sectors such as building energy and mobile sources. These goals will be 'softer' targets based on the City's GHG reduction pathway described in Task 5.4 and can be used to support future policy and program development. We will develop a draft GHG targets memo based on City team and community input, and will review with the City in a virtual meeting.

As the project progresses and the set of action priorities comes into sharper focus, we will revisit the target context to adjust, as needed, and finalize the CCAAP targets. We will document the target discussions in a simple memorandum, including a draft near- and long-term target statement for review and confirmation with the project team, as well as recommendations for sector-specific GHG goals. We will share draft targets with the Project Collaborators and document discussion comments and recommended revisions within a final memo, parts of which can be included in the CCAAP.

Task 5.4 GHG Reduction Pathway and Initial Action Identification

Using our GHG reduction scenario model, our team will define a high-level pathway to achieve the City's draft GHG targets based on a set of strategies aligned with GHG emissions sources included in the inventory. Examples of strategies include:

- Improve non-residential building energy efficiency
- Electrify existing residential building appliances and equipment
- Reduce total vehicle miles traveled from passenger vehicles

Each strategy can be quantified to estimate its total GHG reduction potential based on implementation assumptions; a cumulative package of strategies represents a GHG reduction pathway for comparison against different GHG

targets. Implementation factors will influence the reduction pathway's feasibility (e.g., will existing building decarbonization be achieved through a local mandate or with a voluntary/incentive-based approach?).

We will facilitate a virtual one-hour meeting with the City team to review the draft reduction pathway results and underlying assumptions and to discuss high-level action gaps, barriers, and solutions to inform the action development phase. During the meeting, we will also discuss results of the Task 2 Baseline Assessment with the City team and identify the primary departments that are likely to be responsible for new action implementation. We will incorporate the outcomes of this meeting to revise the GHG strategies, from which the CCAAP's draft actions will be defined.

AECOM will then develop an initial draft list of GHG reduction actions (up to 40) that contribute to the GHG reduction strategies. The initial list will be informed from the Task 2 Baseline Assessment matrix and can include actions that other cities have implemented or proposed, novel action ideas, and/or ideas from the City team and stakeholder and community outreach process. AECOM will organize the draft list of actions by the City departments that will lead action implementation. As part of this process, our partners Fehr & Peers will review the current Transit Plan that was developed for the 2014 CAP. This review will assess the goals and strategies of the Plan to determine their alignment with established best practices and identify the areas for improvement. Recommendations will be made to update the plan as it relates to VMT- and transit-related best management practices for consideration in the

draft action list.

AECOM will facilitate up to two virtual two-hour City department meetings to review and finalize a working draft list of actions prior to community input, action quantification, and/or further analysis. During these meetings, we will review the draft actions with the City departments responsible for action implementation to develop a refined list of feasible draft actions. City departments will identify the actions they have already implemented or are planning to implement, actions that are infeasible due to barriers (legislative, authoritative, political, etc.), and actions they can and would want to implement. During these meetings, department participants will also help to identify mechanisms for action implementation (e.g., permit streamlining, zoning code amendments, development bonuses, permitting requirements, etc.).

Following these meetings, the working draft list of actions will be shared for community feedback through the engagement approaches outlined in Task 3, including a community workshop, a climate survey, community events, and stakeholder interviews. The action list will include a mix of long-term, higher-level GHG reduction actions needed to achieve the CCAAP's GHG reduction targets and a set of near-term, implementation-ready opportunities identified from the PIFs distributed in Task 2. Based on City staff and community input, an updated list of approximately 40 PCAP actions will be advanced for the additional analysis required in the CPRG program guidelines.

GHG Reduction Pathway for the City of Miami Climate Action Plan.

Task 5.5 Quantified GHG Reduction Measures

The AECOM team will identify the appropriate tools to quantify GHG reduction potential of the PCAP action list. There are a wide range of publicly available resources and tools that can quantify GHG emission reductions, with some supporting a high-level, holistic evaluation of GHG reduction potential across sectors (e.g., EPA's Avoided Emissions and Generation Tool [AVERT], GLIMPSE), and others focusing on sector-specific calculations (e.g., EPA's Travel Efficiency Assessment Method [TEAM], Energy Savings and Impacts Scenario Tool [ESIST]). Other resources, such as CalEEMod and the CAPCOA Handbook for Assessing GHG Emission Reductions, Climate Vulnerabilities, and Health and Equity (December 2021) will also be incorporated into the analysis. In evaluating impacts from transportation actions, our partners Fehr & Peers will estimate a range of percentage VMT reductions using the TDM+ tool, to the extent feasible. This tool is based on the CAPCOA handbook, which identifies numerous travel demand management (TDM) strategies and quantifies their potential VMT reduction capability. Given the geographic area of this effort, we anticipate that some strategies will be selected and evaluated only for the City of Stockton, while others may be regional in nature. If appropriate, Fehr & Peers will also perform up to two model runs for applicable mitigation measures such as land use reallocation or major roadway capacity changes to quantify VMT reduction for those strategies.

We understand it is unlikely that any single tool can quantify the full range of climate actions considered in the CCAAP, and our team will select and use appropriate tools based on the measures to be evaluated, including the Climate Action for Urban Sustainability (CURB) Tool that AECOM developed for the World Bank.

We recognize that the level of detail will vary among the selected actions, which will inform what information is needed to estimate GHG reductions. In some instances, we may be able to leverage GHG reduction estimates from prior climate plans in the region. Most quantification tools will require assumptions about efficacy of the proposed actions (e.g., equipment installed, action uptake) and applicable emission factors. Once we identify the appropriate tools, our approach will define a list of inputs, closely coordinate with the City to develop underlying assumptions for the identified measures, and review quantification results with the City and Project Collaborators. We will document the process of quantifying GHG reduction measures in a brief memo.

As part of this task, we will develop a GHG action summary matrix and populate it with the GHG reduction estimates expressed as metric tons of carbon dioxide equivalent per year (MTCO₂e/yr). This summary table will be expanded with outcomes from the other technical analyses described in Task 6.

DELIVERABLES

- GHG data collection matrix (Final, Excel).
- GHG data request emails for City to distribute (Final, Word or email).
- Emissions growth indicators data needs list (Final, Excel).
- VMT analysis results in Excel spreadsheet with brief memo documenting VMT methodology (Draft and Final; Excel, Word and PDF).
- GHG inventory and forecasts workbook (Draft and Final, Excel).
- GHG targets memo (Draft and Final; Word and PDF).
- List of up to 40 GHG reduction measures (Draft and Final; Word).
- GHG action summary matrix with PCAP actions and corresponding emission reductions (Draft and Final; Excel).
- Technical memo on GHG reduction quantification methodology (Draft and Final; Word and PDF).

ASSUMPTIONS

- GHG reduction pathway purpose is to provide directional guidance that informs CAP action development and is based on order-of-magnitude quantification estimates.
- AECOM will utilize existing tools and will not develop any for this effort.
- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Action TR.7. Strengthen regional transit

Lead City Department	Key Partners	Time Frame Planning: 0-4 years	Time Frame Implementation: 18 years	Staff Support Required	Municipal Capital Cost	GHG Reduction	Climate Hazards Addressed	Co-Benefits
PWET CMO: Sustainability	Unitrans YCTD SacRT Amtrak							

GHG Reduction Potential: 2030: 1,800 MT CO₂e/yr 2040: 1,700 MT CO₂e/yr

Coordinate with regional transit agencies and cities to promote cohesive transit interconnections, including express buses to Woodland, West Sacramento, Sacramento, etc.

Example GHG Reduction Measure that includes an estimate of the quantified GHG reduction potential.

Task 6. Benefit and Impacts Analysis

This task includes three mandatory CPRG program elements that will be evaluated for the plan's GHG reduction measures, including benefit analysis, LIDAC benefit analysis, and workforce planning analysis. Our team has developed several multi-criteria evaluation frameworks to support climate action prioritization discussions and will leverage this experience in approaching the action benefit analyses in this task to set up a multi-criteria prioritization process in Task 8.

Per CPRG guidance, we generally anticipate evaluating the LIDAC benefits as part of the PCAP deliverable and then incorporating the community benefits analysis and workforce planning analysis in the CCAAP phase. We also propose including a broader assessment of action benefits in the PCAP phase to support community engagement discussions described in Task 3.

Task 6.1 Benefits Analysis

In conducting the EPA-required benefits analysis, we will leverage existing tools to efficiently quantify reductions of key co-pollutants (e.g., PM2.5, NOx, SO2, VOCs) and establish a framework for qualitatively evaluating other climate action impacts, including costs and savings.

We will use the EPA's National Emissions Inventory (NEI) to develop the CPRG-required co-pollutant emissions base year inventory. We propose using a combination of the NEI, the City of Stockton and/or SJCOG travel demand models, and other resources, such as regional growth assumptions, to develop the co-pollutant business-as-usual projection against which the CCAAP estimated reductions can be compared. We will then use a combination of action impact analysis tools, as discussed in Task 5.5, to develop a replicable and transparent framework for quantifying co-pollutant reductions from the GHG reduction measures. For example, co-pollutant analysis for some measures can be quantified directly in the AVERT tool, while others could be calculated through a two-step process using the ESIST tool and then AVERT and/or Co-Benefits Risk Assessment Health Impacts Screening and Mapping tool (COBRA) for co-pollutant and public health impacts analysis, respectively.

We will supplement the co-pollutant reduction analysis with a qualitative evaluation of other climate action benefits. These can relate to topic areas such as: changes in public health outcomes (e.g., potential for reduced respiratory diseases and/or decreases in morbidity and/or mortality rates through air quality improvements or active transportation opportunities), level of stakeholder engagement, increased resilience (e.g., avoided physical damages), job and workforce development, and spending considerations, such as upfront costs and

lifecycle savings, among others to be reviewed with the City. To evaluate impacts related to household spending, we will leverage our recent work with the City of Davis analyzing the cost-effectiveness of various GHG mitigation measures, as well as our work with The Climate Center and City of San José, which consider lifecycle costs and savings. If there are significant benefits or disbenefits that may extend beyond the region, these will also be documented qualitatively.

We will solicit input from the City, Project Collaborators, and community members on priority action benefits that should be used to evaluate action impacts. Community input will be solicited at the first community workshop and climate survey (see Task 3). We will define a list of up to ten community benefits to be qualitatively evaluated and will combine it with the draft GHG actions and emissions reductions developed in Task 5. For each draft GHG action, we will provide a brief qualitative statement about the benefits that action provides relative to the selected benefits. This information will be used later in the action prioritization process (see Task 8).

DELIVERABLES

- Co-pollutant base year inventory and forecast (Draft and Final; Excel).
- Benefit analysis matrix with co-pollutant reduction estimates for each GHG reduction and other climate action benefits (Draft and Final; Excel).
- Technical memo outlining methodology and assumptions for co-pollutant reduction estimates and benefit analysis (Draft and Final; Word and PDF).

ASSUMPTIONS

- Up to ten (10) benefit criteria will be selected.
- The benefits analysis will use publicly available data and reports.
- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Task 6.2 Low Income / Disadvantaged Communities Benefits Analysis

As a region that is home to many underserved and disadvantaged communities, understanding the impacts of different emissions reduction strategies on these communities is especially important in the Stockton MSA. In accordance with CPRG guidelines, AECOM will use tools such as the Climate and Economic Justice Screening Tool (CEJST) and the Environmental Justice Screening and Mapping Tool (EJScreen), CDC's Social Vulnerability Index (SVI), and American Community Survey (ACS) data on poverty and other demographic variables to identify LIDACs. AECOM is conscious that these data sources do not provide a complete picture of community needs and may not accurately reflect specific populations such as undocumented immigrants.

To make the analysis as comprehensive and relevant as possible for disadvantaged communities, the AECOM team will supplement the quantitative analysis with input from stakeholders and ongoing feedback from the public and stakeholder engagement strategies in Task 3.

Like Task 6.1 and in accordance with the CPRG guidelines, the AECOM team will assess how GHG reduction measures benefit LIDACs across the full MSA. To the extent that specific location data are available, we will map GHG reduction measures to determine which fall within identified LIDACs and quantitatively assess likely GHG emissions and co-pollutant reductions. For measures without location data, we will qualitatively assess the expected direct and indirect benefits associated with the GHG reduction measures. We will also assess the proportion of benefits expected to accrue in the identified LIDACs compared to the total benefits resulting from the GHG reduction measures.

We will solicit input from the City, Project Collaborators, and community members on priority action benefits that should be used to evaluate action impacts in LIDACs. Evaluation criteria could include GHG reduction benefits as well as benefits to human welfare across various sectors, such as the economy (including jobs), buildings, energy use, transportation and land use, waste generation, water consumption, wastewater treatment, urban forestry, high global warming potential GHGs, and off-road vehicles. Community input will be solicited at the first community workshop and climate survey (see Task 3). We will define a list of up to ten (10) LIDAC benefits to be qualitatively evaluated, which could include the same criteria selected in Task 6.1. For each draft GHG action, we will provide a brief qualitative statement about the direct and/or indirect benefits that action provides to LIDACs. This information will be used later in the action prioritization process (see Task 8).

Stakeholder and community engagement will be critical for ground truthing this analysis, which will in turn support the action prioritization process in Task 8. As part of Final Plan Development (Task 10), AECOM will update the LIDAC benefits analysis to reflect new data or considerations.

DELIVERABLES

- Table listing LIDACs identified in Stockton MSA (Draft and Final; Word).
- LIDAC benefit analysis matrix with GHG and co-pollutant reduction estimates, as available (Draft and Final; Excel).
- Technical memo summarizing the analyses, including identification of LIDACs in the MSA, qualitative matrix evaluating benefits to LIDACs (including maps, if relevant), summary of outreach and engagement in LIDACs (Draft and Final; Word and PDF).

ASSUMPTIONS

- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Task 6.3 Workforce Planning Analysis

AECOM has led several studies related to labor vulnerability and workforce development planning as it relates to preparing for a decarbonized future. Based on the measures identified in the CCAAP, AECOM will identify industries and occupations that will be in high demand to implement GHG reduction actions. We will evaluate current and projected occupational growth to identify where growth is expected, where decline is expected, where there may be gaps in labor supply, the quality of the jobs created, and the specific skillsets that will be needed.

Building off previous studies to be confirmed by AECOM and City team, AECOM will conduct targeted research and analysis to identify workforce needs, opportunities, and challenges, particularly as they relate to the “green transition.” We will also conduct a landscape analysis of existing workforce development agencies, trade associations, unions, and local educational institutions that provide training and upskilling programs, with a particular focus on those that support jobs that are expected to be impacted by the “green transition.” We will conduct up to five (5) one-hour virtual interviews with these programs to understand challenges and opportunities related to capacity, curriculum development, and partnerships.

DELIVERABLES

- Workforce development assessment memo (Draft and Final; Word and PDF).
- Interview guide (Draft and Final; PDF).

ASSUMPTIONS

- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Task 6.4 Analysis of Intersection with Other Funding Availability

Based on the CPRG's CCAP requirements, AECOM will investigate sources of funding from federal and state agencies that can potentially support the proposed GHG reduction measures, especially grants and loans made available through the Bipartisan Infrastructure Law (BIL) and Inflation Reduction Act (IRA). The Department of Energy, Department of Transportation, and EPA offer many promising grant programs aligned with sustainable transit-oriented development, decarbonization of buildings and the electric

grid, electric vehicle adoption, and renewable energy. The team will also examine how recurring sources of federal funding available to the City and partner jurisdictions, such as the Community Development Block Grant (CDBG), the Community Services Block Grant (CSBG), and multiple transportation formula funds, may be able to support GHG reduction measures. Emissions reductions measures with multiple potential funding sources will be noted.

DELIVERABLES

- Technical memo describing applicable funding sources for the CCAAP's proposed GHG reduction measures (Draft and Final; Word and PDF).

ASSUMPTIONS

- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Task 6.5 Review Authority to Implement Actions

Successful implementation of the CCAAP actions will require coordination across regional, sub-regional, and local levels of government and identification of statutory and regulatory barriers across the region. To efficiently analyze authority to implement across jurisdictions, AECOM will first classify actions by type (e.g., building code updates, education and outreach initiatives, planning/zoning requirements, renewable energy investments, etc.). AECOM will then develop a matrix of intervention categories and any statutory or regulatory gaps at the state and local government level. To populate the matrix, we will incorporate information from other published PCAPs, review previous plans and studies that identify barriers, and incorporate input from the City team. Results from the authority analysis will be incorporated into the draft action summary matrix (Task 8.1) and the review process and results will be summarized in the CCAAP document.

DELIVERABLES

- Matrix for each action identifying its action type, intervention category, statutory or regulatory gap, and implementation authority evaluation (Draft and Final; Excel)

Task 7. Draft Plan Development (Priority Climate Action Plan)

The AECOM team will develop the PCAP using non-technical and approachable language accessible for residents with varying levels of knowledge around climate action. The PCAP will summarize the community engagement process and

technical planning work completed to date related to GHG emissions and climate vulnerability, with technical memos developed for prior tasks included as appendices.

We anticipate the PCAP will serve as the initial draft of the CCAAP and will include all content to be presented in the Final CCAAP, excluding the Action Implementation Plans, which will be developed after the PCAP's initial nine-month timeframe. The PCAP will describe the:

- Planning process overview and alignment with other City of Stockton plans;
- Community engagement process and outcomes;
- Greenhouse gas inventory, projections, and targets;
- Climate vulnerability assessment outcomes;
- Action development process and draft climate actions; and
- Action impacts, including GHG reductions, and results from the community and LIDAC benefits analyses, workforce planning analysis, and review of authority to implement.

AECOM will develop an annotated PCAP outline for the City project team review and comment prior to developing the full PCAP document. We will provide an internal PCAP draft to the City project team for review, discussion, and refinement prior to releasing a public-ready PCAP deliverable. We envision the PCAP as an interim deliverable on the path toward the final CCAAP. As such, it will be developed in a simple Word layout and shared publicly on the CCAAP website to support community engagement discussions during the CCAAP development phase, though we do not anticipate this to be a formal 30-day public review period.

We anticipate the City team may want consultant support in presenting the PCAP or Public Review Draft CCAAP to City Council for initial comments prior to the Final CCAAP adoption hearing. AECOM will attend one City Council meeting, and will be prepared to support the City project team in presenting the PCAP or draft version of the CCAAP, as needed. This could include developing a PowerPoint slide deck, delivering a short project presentation, and/or answering Council's technical questions.

DELIVERABLES

- PCAP annotated outline (Draft and Final; Word).
- PCAP written in user-friendly, non-technical language, with technical appendices (Draft and Final; Word and PDF).
- City Council meeting project slide deck (Draft and Final; PPT).

Action Selection and Prioritization (ASAP) tool illustrating co-benefits performance.

ASSUMPTIONS

- The PCAP will be laid out in MS Word with light graphic formatting to facilitate easier review and editing before the CCAAP is finalized in Task 10.
- Action Implementation Roadmaps will be developed in Task 9, following PCAP development, and will be included as a technical appendix in the Final CCAAP.
- The PCAP will be shared on the CCAAP website but would not include a formal 30-day comment period; the Public Review Draft CCAAP would include a formal comment period to be defined with the City team.
- Up to two (2) AECOM team members will join an in-person City Council meeting.
- City staff will prepare the City Council meeting packets.
- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Our team has developed several multi-criteria evaluation frameworks to support climate action prioritization, including the [Action Selection and Prioritization \(ASAP\) tool](#) developed for C40 Cities, a recent project with the Tennessee Department of Transportation to support its federally mandated Carbon Reduction Strategy, and adaptation projects including the City of Davis CAAP. We will leverage these examples in developing a customized action prioritization approach for Stockton.

Task 8.1 Develop Consolidated Set of Climate Actions

AECOM will incorporate outcomes of the preceding action identification and impact analyses from Tasks 4-6 into an action summary matrix. GHG reduction and adaptation actions will be listed separately, with actions shown as rows and pertinent information provided in columns, such as emissions sector or climate hazard addressed, GHG and co-pollutant reductions, benefits, LIDAC benefits, workforce impacts, authority to implement (see Task 6.5), and other action evaluation criteria selected (see Task 8.2).

Task 8. Action Prioritization

This task consolidates technical analysis from previous tasks into a set of draft climate actions and their corresponding benefit and impact analyses. Two prioritization processes will then occur on this set of draft climate actions:

- Community Action Implementation Priorities:** a prioritization process will be conducted to develop a community-defined implementation phasing approach that provides guidance to the City on which actions should be pursued immediately and which can follow along later.
- Implementation Plan Priorities:** a prioritization process will be conducted with City staff and other regional partners to select a sub-set of climate actions for which implementation plans will be developed.

Task 8.2 Community Action Prioritization

AECOM will facilitate a multi-criteria evaluation process to support the City and community in balancing different considerations when selecting priorities for climate action implementation. We will work with the City and community members through the stakeholder engagement activities described in Task 3 to define a list of prioritization criteria against which the list of climate actions will be evaluated.

These criteria could include measure benefit and implementation aspects, such as GHG reductions, climate risk reduction, benefits to LIDACs (informed by Task 6.2), cost-effectiveness, and funding availability. Criteria can also be selected to reflect other community priorities

identified through the first climate survey and workshop and other engagement activities. Evaluation criteria may differ between GHG reduction and adaptation actions; adaptation evaluation criteria could include asset vulnerability, presence of disadvantaged or low-income communities, or potential to achieve other co-benefits (e.g., access to recreation, public health, etc.).

We will incorporate the selected evaluation criteria into the action summary matrix developed in Task 8.1 and will qualitatively evaluate the draft list of actions against the selected criteria. We will review initial outcomes with the City project team before sharing publicly at the second community workshop (see Task 3) to collect input on how residents want to see actions prioritized for implementation phasing into immediate, medium-, and longer-term opportunities. The results of these community discussions will be incorporated into the final CCAAP document.

Task 8.3 Implementation Plan Prioritization

AECOM will facilitate a meeting with City staff and other relevant regional partners to select 20 actions [e.g., 14 mitigation and six (6) adaptation] for implementation plan development described in Task 9. The actions selected will not necessarily align with the community action prioritization list in Task 8.2; implementation plans are best suited for more challenging actions where City staff need additional support in defining an implementation process.

DELIVERABLES

- CCAAP action summary matrix (Draft and Final; Excel).
- Community climate action implementation priorities (Final; Word).
- Implementation plan prioritization list with 20 actions (Final; Word).

ASSUMPTIONS

- Action prioritization matrix will include up to ten (10) evaluation criteria.
- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Task 9. Implementation Plan Development

Climate action and adaptation plans can sometimes be critiqued for failing to provide enough detail on proposed actions to enable implementation. We are a team that is driven by a collective goal to see climate action planning efforts become a reality.

AECOM will collaborate with the City project team to develop

a common implementation roadmap template that we will populate for the 20 actions [e.g., 14 mitigation and six (6) adaptation] identified in Task 8.3. Based on our recent experience, the template would likely include project attributes such as:

- implementation time frame,
- lead implementor and supporting partners,
- implementation steps,
- operational considerations,
- regulatory requirements,
- high level cost estimate ranges,
- intersection with funding opportunities, and
- metrics to track progress.

AECOM will facilitate up to six (6) one-hour working meetings with City department staff, regional partners, and others as needed, to complete the draft roadmaps. We will provide the full set of roadmaps to the City team and Project Collaborators for review and will incorporate one consolidated and adjudicated set of comments into the final roadmaps that can be included as an appendix to the Final CCAAP.

DELIVERABLES

- Implementation roadmap template for 20 prioritized actions (Draft and Final; Word).
- 20 completed implementation roadmaps (Draft and Final; Word and PDF).

ASSUMPTIONS

- City staff input will be needed to complete the implementation roadmaps; AECOM will facilitate discussions with City department staff and other stakeholders through up to six (6) one-hour virtual meetings.
- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Task 10. Final Plan Development

Task 10.1 Public Review Draft CCAAP

Based on the City project team review of the PCAP, AECOM will incorporate one consolidated and adjudicated set of City comments to develop the Public Review Draft CCAAP. We will provide a web-ready PDF of the Public Review Draft to publish on the CCAAP website and anticipate a 30-day public review period. We will provide a simple CCAAP review comment form for the City to provide with the Public Review Draft to facilitate and standardize the commenting process. We anticipate the City project team will review and adjudicate public comments received into a consolidated set of revisions for AECOM to incorporate into the Draft Final CCAAP. Our team will facilitate

a virtual meeting with the City project team to resolve public comments that might require further internal discussion and will summarize outcomes in a brief memo.

During the public comment period, AECOM will facilitate a two-hour virtual meeting with the Project Collaborators to hear and discuss their comments on the draft plan. Following the meeting, we will submit a short summary of the plan revisions we heard from Project Collaborators to the City project team for its review and confirmation.

Task 10.2 Draft Final CCAAP

AECOM will incorporate public review comments into a Draft Final CCAAP for City project team review prior to moving the document into graphic layout. We will meet with the City team and the Project Collaborators to discuss each group's final consolidated set of revisions to the plan.

Task 10.3 Final CCAAP

AECOM will incorporate Draft Final plan comments into the Final CCAAP and move the document into InDesign for graphic layout; alternatively, we can make graphic improvements to the plan in a Word file format. The Final plan will be well-organized for easy navigation and graphically rich, incorporating use of photographs, infographics, and well-designed charts and figures to tell Stockton's climate action planning story.

AECOM will attend the City Council adoption hearing for the Final CCAAP and will be prepared to support the City project team in presenting the final plan, as needed. This could include developing a PowerPoint slide deck, delivering a short project presentation, and/or answering Council's technical questions.

Task 10.4 Final CCAAP Launch Event

Following City Council adoption of the Final CCAAP, AECOM will participate in a public CCAAP launch event organized by the City and its non-profit partners. The event will be a public celebration to informally review the Final CCAAP and kickoff plan implementation. We anticipate the CCAAP will have ample opportunity for community-led action to advance the City's ambitious climate actions, and this event can be useful to begin defining a framework for City-community collaboration moving forward. AECOM will join two (2) virtual event brainstorming meetings with the City project team and non-profit partners to define the overall event structure and discuss ways to solicit input from participants on future implementation collaboration opportunities.

DELIVERABLES

- Public Review Draft CCAAP as web-ready PDF document (Final; Word and PDF).
- CCAAP review comment form (Draft and Final; Word).
- Summary of Climate Action Plan Advisory Committee Public Review Draft comments (Final; Word).
- Draft Final CCAAP (Final; Word and PDF).
- Final CCAAP (Final; INDD or Word and PDF).
- City Council adoption hearing project slide deck (Draft and Final; PPT).

ASSUMPTIONS

- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.
- Public Review Draft CCAAP and CCAAP review comment form will be posted on CCAAP website for 30-day review period.
- City will review and adjudicate public comments into one consolidated set of revisions for the Draft Final CCAAP.
- City team will provide a photo library or zip file with images from Stockton to be incorporated throughout the Final CCAAP document.
- City will perform CEQA review for CCAAP.
- AECOM will participate in up to two (2) virtual CCAAP launch event brainstorming discussions with City and non-profit partner teams with up to two (2) team members.
- Up to two (2) AECOM team members will attend the City Council adoption hearing and will attend the in-person CCAAP launch event.
- City staff will prepare the City Council meeting packets.

An example of a report designed by AECOM.

Task 11. Status Report

AECOM will develop a draft Status Report template for review and revision with the City project team. The Status Report template can be used to provide regular and consistent updates to community members, City Council, and other partners on how Stockton is progressing on its climate actions. Based on the agreed upon template, we will develop up to two (2) Status Reports during the project performance period with timing to be confirmed with the City project team.

We anticipate the Status Report will be organized to provide updates on CCAAP action implementation, and will provide analysis and updates of the following topics:

- Qualitative implementation status description of GHG reduction and climate adaptation measures,
- Changes in GHG inventory activity data, as available (e.g., electricity and natural gas use, community vehicle miles traveled, solid waste disposed),
- High-level outline of next steps and future budget and staffing needs to continue action implementation.

In developing the Status Reports for this project, AECOM will host virtual interviews with City and agency staff responsible for action implementation and collect the newest available activity data related to GHG inventory emissions sources.

DELIVERABLES

- Status Report template (Draft and Final; Word).
- Status Report #1 (Draft and Final; Word and web-ready PDF).
- City Council meeting slide deck summarizing Status Report #1 (Draft and Final; PPT).
- Status Report #2 (Draft and Final; Word and web-ready PDF).
- City Council meeting slide deck summarizing Status Report #2 (Draft and Final; PPT).

ASSUMPTIONS

- City staff will prepare the City Council meeting packets.
- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

results. Based on the RFP published March 20, 2024, task language, we propose ASHRAE Level 2 audits for the Tier 1 and Tier 2 facilities identified. Our team has recently delivered ASHRAE Level 2 audits for the County of Santa Clara, Los Angeles Community College District, and San Diego Gas and Electric.

We will develop ASHRAE Level 2 energy audits to identify energy saving opportunities from energy efficiency, electrification, and grid interactivity retrofits, which can result in energy performance and operational savings from assets including HVAC systems and equipment, lighting and control systems, and building envelopes.

Based on our recent experience, including with the Western Riverside Council of Governments, we recommend that the City also consider evaluating energy resilience opportunities to support sustainment of critical operations and would be happy to discuss the benefits and approach to this additional analysis as part of finalizing the scope of work for this task.

AECOM team members will perform on-site energy audits of each facility and will summarize audit results in a memo that outlines the potential energy savings opportunities from energy efficiency improvements. The memo will include technical and financial information to help City staff evaluate opportunities identified.

DELIVERABLES

- Written report following standard ASHRAE Level 2 energy audit guidelines (Draft and Final; PDF).

ASSUMPTIONS

- AECOM will follow ASHRAE Standard 211 for Commercial Energy Audits
- Maximum of one-day (1) site visit for every two (2) buildings to be audited, with a total of 27 individual buildings to be included; we assume audits for the Arnold Rue and Van Buskirk community centers will include the Arnold Rue and Van Buskirk micro-libraries included within the respective community centers.
- Cost estimates will be Rough Order of Magnitude and based on AACE level 5.
- Energy savings will be estimated using Microsoft Excel-based calculators.
- AECOM will rely on accuracy of data provided by the City.
- Fee is based on assumption of 450,000 total square feet of facility space to be audited; fee will be finalized following confirmation of total square footage of facilities to be audited.
- The City will provide one round of review on draft deliverables, and will provide a single set of consolidated and adjudicated comments.

Optional Task 1: Building Energy Assessments, Energy Audits, & Building Upgrades

AECOM's High Performance Buildings + Communities team is experienced in performing building energy audits and making energy efficiency improvement recommendations from audit

File #: 24-0693, Version: 1

ADOPT A RESOLUTION AUTHORIZING A REIMBURSEMENT AGREEMENT WITH H. D. ARNAIZ CORPORATION FOR DESIGN, CONSTRUCTION, CONSTRUCTION MANAGEMENT, AND PROJECT MANAGEMENT SERVICES FOR THE NORTHEAST STOCKTON WATER TRANSMISSION MAIN

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Authorize a reimbursement agreement with H. D. Arnaiz Corporation, Inc. in the estimated amount of \$15,817,379.38 for design, construction, construction management, and project management services for the Northeast Stockton Water Transmission Main (Exhibit 1 to the Resolution).
2. Authorize the reappropriation of \$7,299,000 from the capital project West, East and South Bear Creek Oversizing Reimbursements (UH21001) to the Cannery Park Water Transmission Reimbursement Project (UH24003).

It is further recommended that the City Manager be authorized to take all necessary and appropriate actions to carry out the purpose and intent of this resolution.

Summary

The City of Stockton North Water System planned expansion will accommodate the development of industrial, commercial, and residential property, and the need for increased fire suppression water supplies in northeast Stockton. A reimbursement agreement with H. D. Arnaiz Corporation will provide the most expeditious method to complete the design, construction, and installation of improvements to the North Water System (Improvements).

The amount for design services shall not exceed \$650,000 and will be reimbursed in accordance with the Public Facilities Fee Program. The total reimbursement amount, including design services, is estimated to be \$15,817,379.38.

Once the Plans and Specifications are approved and a selected contractor has been identified through a competitive bidding process, the developer may proceed with the construction and installation of the Improvements.

DISCUSSION

Background

The City of Stockton Water Master Plan Update was adopted by the City Council on February 23, 2021. The Water Master Plan Update identified, in part, large water transmission pipelines necessary to support the growth of industrial, commercial, and residential development in northeast Stockton.

The current project mostly consists of the construction of a 24-inch water transmission main along West Lane between Bear Creek and Eight Mile Road; a 24-inch water transmission main along Eight Mile Road between West Lane and the State Route 99 West Frontage Road; and a 24-inch water transmission main along the State Route 99 West Frontage Road between Eight Mile Road and PFC Jesse Mizener Street (see Attachment A). The construction of the Improvements will provide the necessary potable and fire suppression water supplies for future industrial, commercial, and residential development projects in northeast Stockton.

The H. D. Arnaiz Corporation (the “Developer”) is requesting reimbursement in accordance with the Public Facilities Fee Program. The City Council adopted Resolution No. 2019-10-08-1104 entitled Public Facilities Fee Program Administrative Guidelines (“Guidelines”) specify when a developer is eligible for a credit or reimbursement of public facilities fees. The City has identified the installation of the Improvements as included in the Public Facilities Fee Program, and thus the cost of the design, construction, and installation of the improvements are eligible for reimbursement pursuant to the Public Facilities Fee Program guidelines.

Present Situation

To expedite the expansion of the City of Stockton North Water System, the Improvements are proposed to be constructed in a design-bid-build arrangement through a reimbursement agreement with the Developer. The Developer has the knowledge and experience necessary to prepare plans and specifications for the design, construction, and installation of the waterline.

Once the City Council approves the reimbursement agreement, the Developer will provide for the design of the Improvements. The amount for design services shall not exceed \$650,000.

Following the Director of Municipal Utilities (“Director”) approval of the Plans and Specifications, the Developer shall solicit a minimum of three competitive proposals (the “Proposals”) from construction companies experienced with pipeline and well construction, for the construction and installation of the Improvements. The Developer will provide copies of the Proposals to the Director.

After a comprehensive review of the Proposals by the Developer and consultation with the Director, the Developer shall select a construction company (the “Selected Contractor”) to negotiate final costs and contractual terms and conditions.

Once the Plans and Specifications are approved by the Director, and the Selected Contractor has been identified, the Director is authorized to direct the Developer to proceed with the construction and installation of the Improvements.

After the Notice to Proceed has been issued by the Director, the Developer shall contract with the Selected Contractor for the construction and installation of the Improvements. The Selected Contractor shall furnish the City with original certificates for Commercial General Liability, Commercial Business Automobile Policy, Worker's Compensation Insurance, and Builder's Risk Insurance in the amounts specified and approved by City. The Selected Contractor shall include City and Developer as additional insured under the insurance policies referenced above.

The Developer requests reimbursement of actual costs incurred for services including design, construction, construction management, and project management. The City has identified the project costs as eligible for reimbursement pursuant to the Public Facilities Fee Program guidelines.

The Total Estimated Reimbursement amount can be summarized as follows:

Site Preparation	\$348,375.00
Water System	\$8,931,550.00
Street Work	\$1,227,700.00
Miscellaneous	\$620,000.00
Contingency (20%)	\$2,225,525.00
Plan Check Fee (4%)	\$445,105.00
Inspection Fee (4.5%)	\$500,743.13
Construction Management (3%)	\$333,828.75
Construction Staking	\$62,000.00
Project Bond (2% Premium)	\$222,552.50
Permitting/Observation	\$100,000.00
Permitting/CEQA	\$150,000.00
Total Construction Cost	\$15,167,379.38
Design Cost	\$650,000.00
Total Estimated Reimbursement	\$15,817,379.38

The Northeast Stockton Water Transmission Main Project is anticipated to be completed in the spring of 2026.

Local Employment Ordinance

The contract amount is over \$100,000 and subject to the City's Local Employment Ordinance (Stockton Municipal Code Section 3.68.095), which requires that "all City contracts for public works or improvements of the estimated value or City subsidy of \$100,000 or more shall contain provisions pursuant to which the contractor promises to make a good faith effort, with the assistance of local

labor union hiring halls or community organizations designated by the City to employ qualified individuals who are, and have been for one year prior to the effective date of the contract, residents of Stockton in sufficient numbers so that no less than 50 percent of the contractor's total construction workforce, including any subcontractor workforce, measured in labor work hours, is comprised of Stockton residents."

On July 26, 2016, the City Council adopted a Community Workforce and Training Agreement (CWTA). The CWTA became effective August 25, 2016, and applies to all Public Works projects over \$1 million that are bid after that date. The CWTA specifies several conditions that must be met by contractors and employers awarded public works or improvement contracts with the City of Stockton valued at \$1 million or more. CWTA requirements include, among other conditions, preconstruction conferences for coordination, recognition of union(s) as the sole bargaining representative, requirements for contractors and employers to use union referral systems, and apprentice programs to develop adequate numbers of competent workers, including that 50 percent of apprentices employed on the project are from Stockton or San Joaquin County. The CWTA will apply to this project because the estimated repair services cost is more than \$1 million.

Environmental Clearance

The proposed Reimbursement Agreement does not require additional environmental review from the California Environmental Quality Act (CEQA) pursuant to Section 15061(b)(3), (General Rule/Common Sense Exemption) and pursuant to Section 15162 (Subsequent EIRs and Negative Declarations). Per Section 15061, the proposed monetary agreement involves defining the financial payments for construction work (waterlines) associated with the previously approved Tra Vigne Subdivision Project (SCH# 2016022061) and Cannery Park Mixed Use Project (SCH #2003042022) and will not result in a new project and/or physical change to the environment. Per Section 15162, construction work described in the financial agreement will not result in new construction or a change to the certified Environmental Impact Reports (EIR) associated with those projects. Therefore, no further environmental review is required pursuant to CEQA Sections Section 15061(b)(3), (General Rule/Common Sense Exemption) and pursuant to Section 15162 (Subsequent EIRs and Negative Declarations).

FINANCIAL SUMMARY

Funds will be reappropriated in the current fiscal year from the previously approved capital project West, East and South Bear Creek Oversizing Reimbursements (UH21001) to the Cannery Park Water Transmission Reimbursement Project (UH24003). The remaining funds will be budgeted in the upcoming FY 2024 - 2029 CIP.

PROJECT	Amount
UH24003 - Northeast Stockton Water Transmission Main	\$2,600,000.00
UH21001 - West, East and South Bear Creek Oversizing Reimbursements	\$7,299,000.00
Delta Water Supply Project Connection Fee Fund	\$5,918,379.38
TOTAL	\$15,817,379.38

Work described in project UH21001 will be completed as part of the Northeast Stockton Water Transmission Main, project UH24003. Staff recommends that the City Council approve the transfer of \$7,299,000 from project UH21001 to project UH24003, closing out project UH21001.

This action has no impact on the General Fund or any other unrestricted funds.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION TO AUTHORIZE A REIMBURSEMENT AGREEMENT WITH H. D. ARNAIZ CORPORATION FOR DESIGN, CONSTRUCTION, CONSTRUCTION MANAGEMENT, AND PROJECT MANAGEMENT SERVICES FOR THE NORTHEAST STOCKTON WATER TRANSMISSION MAIN PROJECT

To provide potable water for the planned development of industrial, commercial, and residential property, and the need for increased fire suppression water supply in northeast Stockton, the City North Water System needs to be expanded through the installation of the Northeast Stockton Water Transmission Main Project (the "Improvements"); and

To expedite the expansion of the North Water System, the Improvements are proposed to be constructed in a design-bid-build arrangement through a reimbursement agreement with H. D. Arnaiz Corporation in accordance with the Public Facilities Fee Program guidelines; and

H. D. Arnaiz Corporation is requesting reimbursement of actual costs incurred for design, construction, construction management, and project management services for the installation of the improvements; and

Upon approval of the plans and specifications for the construction and installation of the Improvements by the Director of Municipal Utilities, the H. D. Arnaiz Corporation will solicit a minimum of three proposals from construction companies experienced with the construction of large water transmission mains and well construction; and

After a comprehensive review of the Proposals by Developer and consultation with the Director, the Developer shall select a construction company (the "Selected Contractor") to negotiate final costs and contractual terms and conditions; and

Once the Selected Contractor has been identified, the Director is authorized to direct the Developer to proceed with the construction and installation of the Improvements; and

The City adopted Resolution 2019-10-08-1104, entitled Public Facilities Fee Program Administrative Guidelines (Guidelines) and all amendments thereto to date specify when a developer is eligible for a credit or reimbursement of public facilities fees; and

The City has identified the preparation of plans and specifications, and the construction and installation of the Improvements as included in the Public Facilities Fee

Program, thus the cost of preparing plans and specifications, and the construction of the Improvements are eligible for reimbursement pursuant to the Guidelines; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. City Council hereby authorizes a reimbursement agreement with H. D. Arnaiz Corporation, Inc. in the estimated amount of \$15,817,379.38 for design, construction, construction management, and project management services for the Northeast Stockton Water Transmission Main.

2. The City Manager is hereby authorized and directed to execute the Northeast Stockton Water Transmission Main Reimbursement Agreement, attached hereto as Exhibit 1.

3. The City Manager or designee is hereby authorized to reappropriate \$7,299,000.00 from the capital project West, East and South Bear Creek Oversizing Reimbursements (UH21001) to the Cannery Park Water Transmission Reimbursement Project (UH24003).

4. The City Manager is authorized to take all necessary and appropriate steps to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

NORTHEAST STOCKTON WATER TRANSMISSION MAIN REIMBURSEMENT AGREEMENT

This Northeast Stockton Water Transmission Main Reimbursement Agreement (“Reimbursement Agreement”) is made and entered into on _____, 2024 by and between the City of Stockton, a municipal corporation, referred to as “CITY,” and H.D. Arnaiz Corporation, Inc., referred to as “DEVELOPER.”

RECITALS

The “Water Master Plan”, adopted by the City Council on February 23, 2021, contained certain recommended water system capital improvements; and

One of the capital improvements recommended in the Water Master Plan to improve water pressure and fire flow to northeast Stockton is the construction of approximately 17,600 lineal feet of new 24 inch diameter water transmission mains along West Lane between Bear Creek and Eight Mile Road, along Eight Mile Road between West Lane and the State Route 99 West Frontage Road, and along the State Route 99 West Frontage Road between Eight Mile Road and PFC Jesse Mizener Street as more fully set forth in Exhibit A; and

CITY desires to provide for the design and construction of the water transmission mains along West Lane between Bear Creek and Eight Mile Road, along Eight Mile Road between West Lane and the State Route 99 West Frontage Road, and along the State Route 99 West Frontage Road between Eight Mile Road and PFC Jesse Mizener Street (collectively the “Improvements”); and

CITY acknowledges that DEVELOPER has the knowledge and experience necessary to cause the preparation of plans and specifications for the design, construction, and installation of the Improvements consistent with review and approval by the Director of Municipal Utilities of CITY (the “Director”); and

CITY acknowledges that DEVELOPER has the expertise to perform construction management services for the construction and installation of the Improvements; and

DEVELOPER has agreed to design, construct and install, or cause the design, construction and installation of the Improvements consistent with Plans and Specifications to be approved by the Director of Municipal Utilities of CITY; and

DEVELOPER has engaged VVH Consulting Engineers as the Design Engineer (the “Engineer”) to conduct an alignment study, plans and specifications for the design of the Improvements at a cost “not to exceed” \$650,000 (the “Design Cost”); and

DEVELOPER has engaged the Engineer to prepare a cost estimate for the construction of the Improvements (the "Estimated Improvement Cost") as more fully set forth in Exhibit "B" where the Estimated Improvement Cost is \$11,127,625.00; and

CITY has agreed to reimburse DEVELOPER for costs incurred by DEVELOPER for the Design Cost, the Estimated Improvement Cost, plan check fees, inspection fees, construction management, construction staking, warranty bond, undercrossing permitting, and a reasonable amount for contingencies (collectively the "Total Estimated Reimbursement") as provided herein as \$15,817,379.38; and

CITY acknowledges that right-of-way may need to be acquired in the form of Fee Simple Title or Easement Deed; and

DEVELOPER has agreed, upon completion of the construction, installation of the Improvements, and reimbursement to DEVELOPER for costs incurred, to release and dedicate to CITY all right, title and interest of DEVELOPER in the Improvements; and

CITY has within its current approved budget the Water Capital Fund 6518-000-800007-600-605-00-65-000-000, which is intended to fund the costs of the design, construction, and installation of the Improvements; and

This Agreement is entered into pursuant to the provisions of the Subdivision Map Act of the State of California and the Stockton Municipal Code Chapter 16.72.210C to provide for the reimbursement to DEVELOPER for the costs of the design, construction and installation of the Improvements.

TERMS AND CONDITIONS

In consideration of these premises and the mutual promises contained herein, the parties hereto agree as follows:

1. **RECITALS:** Each of the parties hereto represents and warrants each to the other, that the above recitals are true and correct.

2. **PREPARATION AND APPROVAL OF PLANS AND SPECIFICATIONS AND COST ESTIMATE:** DEVELOPER shall cause to be prepared, through the Design Engineer, an alignment study, cost estimates, plans and specifications for the design, construction and installation of the Improvements (the "Plans and Specifications"). The Plans and Specifications will be prepared in accordance with the Standard Plans and Specifications of CITY and will be a biddable set of documents prepared in the same manner as those prepared for CITY construction projects. DEVELOPER shall obtain approval by all appropriate government

agencies and City Departments of the Plans and Specifications, including the approval of the Director.

Following the Director's approval of the Plans and Specifications, DEVELOPER shall solicit a minimum of three competitive proposals (the "Proposals"), from construction companies experienced with pipeline and well construction, for the construction and installation of the Improvements. DEVELOPER will provide copies of the Proposals to the Director.

After a comprehensive review of the Proposals by DEVELOPER and consultation with the Director, DEVELOPER shall select a construction company (the "Selected Contractor") to negotiate final costs and contractual terms and conditions.

Once the Plans and Specifications are approved by the Director, and the Selected Contractor has been identified, the Director is authorized to direct the DEVELOPER to proceed with the construction and installation of the Improvements.

After the Notice to Proceed has been issued by the Director, DEVELOPER shall contract with the Selected Contractor for the construction and installation of the Improvements. The Selected Contractor shall furnish the CITY with original certificates for Commercial General Liability, Commercial Business Automobile Policy, Worker's Compensation Insurance, and Builder's Risk Insurance in the amounts specified and approved by CITY. The Selected Contractor shall include CITY and DEVELOPER as additional insured under the insurance policies referred to above.

3. CONSTRUCTION AND INSTALLATION OF IMPROVEMENTS: After receiving Notice to Proceed from the Director, DEVELOPER shall acquire all necessary permits and shall cause the construction and installation of the Improvements in compliance with the approved Plans and Specifications.

Construction of the Improvements shall be subject, at all reasonable times prior to their acceptance, to inspection by the Director and the City Engineer, which shall be accomplished in a timely manner.

4. ACCEPTANCE OF IMPROVEMENTS:

4.1 Record Drawings. DEVELOPER shall provide record drawings or other similar plans and specifications of the Improvements in a form reasonably acceptable to the Director, along with evidence satisfactory to the Director that all costs of the Improvements have been fully paid to the party or parties entitled to be paid for such costs and that all, if any, liens have been cleared or released. All warranties, guarantees or other evidence of contingent obligations of third persons

with respect to the Improvements shall be delivered to the Director prior to acceptance of the Improvements.

In the event that the Improvements or any portion of them do not substantially conform to the Plans and Specifications, or if any defects are not corrected within a reasonable time as requested by CITY, CITY shall have the authority to order the necessary work done and to recover the costs of such work as well as any costs of enforcing such obligation, including attorney fees, from DEVELOPER.

4.2 Acceptance. To be accepted by CITY under this Reimbursement Agreement, (1) the Improvements must be completed substantially in accordance with the Plans and Specifications, (2) the as-built plans submitted, all applicable Operations and Maintenance Manuals submitted, equipment testing completed, and all training shall be complete, (3) the Improvements must be in such condition that they are ready for use by CITY or by the public as reasonably determined by the Director. In addition, prior to CITY's acceptance of the Improvements, DEVELOPER shall provide to the Director a Final Invoice of all costs for reimbursement under this Reimbursement Agreement.

5. REIMBURSEMENT:

5.1 Obligation. Subject to the limitations set forth in Sections 6 and 9 below, CITY agrees to reimburse DEVELOPER for all direct costs incurred in the preparation and approval of the alignment study, cost estimates, Plans and Specifications, plan check fees, inspection fees, construction staking cost, and the construction and installation of the Improvements. CITY further agrees that DEVELOPER shall also be reimbursed for the costs of any additional work and/or improvements not included in the cost estimates and/or not included in the contract with the Selected Contractor, provided said work and/or improvements, as approved by CITY in advance, are reasonably necessary for the design, installation and construction of the Improvements, including any cost incurred as a result of any changed conditions affecting the Improvements, force majeure, or any other unforeseen or extraordinary circumstance beyond DEVELOPER's reasonable control. However, eligible reimbursement costs shall not exceed the Total Estimated Reimbursement amount without prior approval of the City Manager or City Council.

5.2 Documentation. DEVELOPER shall provide any documentation substantiating the direct costs of the Improvements reasonably requested by the Director or CITY. There shall be a presumption of reasonableness as to costs incurred pursuant to, and in accordance with, both the construction contract with Selected Contractor and the Proposal submitted by such Selected Contractor.

5.3 Changes. In the event that the Director orders any change in the approved Plans and Specifications, the cost of such change shall, notwithstanding the fact that the addition of such cost will cause the total cost of construction to exceed the approved contractual amount, be added to the amount approved for reimbursement, so long as such total reimbursement amount remains less than the Total Estimated Reimbursement amount approved by City Council. If the addition of such costs would cause the direct costs to exceed the approved Total Estimated Reimbursement, the Director shall obtain the approval of the City Manager or City Council as appropriate, prior to giving DEVELOPER an order to proceed with the change. If any change in the approved Plans and Specifications results in a reduction in costs, the approved reimbursement amount shall be correspondingly reduced.

6. REIMBURSEMENT PROCEDURES: Subject to the limitations set forth in Sections 5 and 9, DEVELOPER shall be reimbursed on a monthly basis for costs incurred. DEVELOPER shall submit a voucher to CITY by the fifteenth (15th) of each month for costs and fees paid by DEVELOPER through end of the previous calendar month. All vouchers shall be supported by invoices and lien releases (if appropriate). If DEVELOPER is unable to obtain necessary lien waivers from any contractor(s) and/or subcontractor's, CITY will reimburse DEVELOPER so long as DEVELOPER provides for a retention, bond or other security in the amount of the reimbursement for which lien waivers are not provided and are necessary. CITY shall review the submitted material and if there are no disputed items, shall have until the fifteenth (15th) day of the following month to pay DEVELOPER the amounts not in dispute. If disputed items exist, CITY shall have an additional thirty (30) days to review the resubmitted material from DEVELOPER (as well as additional material reasonably requested by CITY to substantiate requested reimbursement amounts) and pay DEVELOPER the amounts CITY determines are warranted. The final payment for the Improvements shall be paid to DEVELOPER upon acceptance of the Improvements by CITY.

7. WARRANTY: CITY shall be provided cash, surety bond or certificate of deposit of at least ten percent (10%) of the cost of the Improvements to warranty the work for one (1) year following the date of CITY acceptance of the Improvements. The surety on the bond shall be a corporate surety company authorized to transact business in the State of California, and the form thereof shall be reasonably satisfactory to the City Attorney and the Administrative Services Officer of CITY. The security warranting that the completed work remains satisfactory during the required 1-year period shall be released at the end of the warranty period after correction of any defects in the work existing at the end of the warranty period, if any. The cost of such security will be reimbursed by the CITY.

8. INDEMNIFICATION & HOLD HARMLESS: To the fullest extent permitted by law, Contractor shall hold harmless, defend and indemnify City of Stockton and

its officers, officials, employees and volunteers from and against any and all liability, loss, damage, expense, costs (including without limitation costs and fees of litigation) of every nature arising out of or in connection with Contractor's performance of work hereunder or its failure to comply with any of its obligations contained in this agreement, except such loss or damage which was caused by the sole negligence or willful misconduct of the City of Stockton and its officers, officials, employees and volunteers. This obligation is independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this agreement. These obligations shall survive the completion or termination of this agreement.

9. SOURCE OF REIMBURSEMENT FUNDING: Notwithstanding any other provision of this Reimbursement Agreement or any condition of project approval, CITY shall not be obligated to reimburse DEVELOPER from CITY General Fund, without express City Council approval. The Improvements are currently the subject of a CITY CIP, Water Capital Fund 6518-000-800007-600-605-00-65-000-000 account (the "Account"), and CITY warrants that the Account contains funds sufficient to satisfy the CITY's reimbursement obligation as provided herein. Should there arise from unforeseen circumstances any increase in the costs associated with the construction and installation of the Improvements that would cause the overall cost of the project to exceed the Total Estimated Reimbursement, the parties shall negotiate in good faith regarding their relative obligations arising there from and to the extent an increase in the Total Estimated Reimbursement is required, the approval will be considered and decided by the City Manager or City Council, as appropriate.

10. CITY COUNCIL APPROVAL: This Agreement is subject to the approval of the City Council of the City of Stockton and shall not be effective unless and until such approval has been obtained.

11. AUDIT: CITY or its designee shall have the right, during normal business hours and upon reasonable notice to DEVELOPER, to inspect and copy all books, records, accounts and other material of DEVELOPER pertaining to costs and expenses incurred by DEVELOPER for the design, engineering, installation and construction of the Improvements. DEVELOPER further agrees to maintain such records for a period of three (3) years after final payment under this Reimbursement Agreement.

12. ATTORNEY FEES & COSTS: In the event of the bringing of an action or suit by either party against the other arising out of this Agreement the prevailing party shall be entitled to recover from the other part its reasonable attorneys' fees (including in-house attorneys) and costs of suit.

13. NOTICES: All notices required shall be in writing and delivered in person or sent by United States mail, postage prepaid.

Notices to CITY shall be addressed as follows:

Director of Municipal Utilities
 City of Stockton
 2500 Navy Drive
 Stockton CA, 95206

Notices to DEVELOPER shall be addressed as follows:

H.D. ARNAIZ CORPORATION, Inc.
 Attn: Matt Arnaiz
 3400 East Eight Mile Road, Suite A
 Stockton, CA 95212

Provided that any party may change such address by notice in writing to the other party and, thereafter, notices shall be addressed and transmitted to the new address.

14. NOT PUBLIC WORKS: The parties hereto agree that this Reimbursement Agreement is for the acquisition of certain improvements by CITY, and is not, nor is it intended to be, a public works contract. In performing this Reimbursement Agreement, DEVELOPER is an independent contractor and not the agent of CITY. CITY shall not have the responsibility for payment to any contractor or supplier of DEVELOPER or for the payment of wages to any laborer who may work on the improvements being constructed and installed by DEVELOPER pursuant hereto.

15. PREVAILING WAGES: DEVELOPER shall pay, or cause to be paid, prevailing wages for all construction work required under this Reimbursement Agreement. For the purposes of this Reimbursement Agreement, "prevailing wages" means not less than the general prevailing rate of per diem wages, as defined in Section 1773 of the California Labor Code and Subchapter 3 of Chapter 8, Division 1, Title 8 of the California Code of Regulation (Section 1600 et seq.), and as established by the Director of the California Department of Industrial Relations ("DIR) for the respective craft classification. In any case, the prevailing wage rate of per diem wages shall be adjusted annually in accordance with the established rate in effect as of such date.

DEVELOPER shall require the construction contractors and subcontractors working on the Improvements to complete and submit all prevailing wage compliance documentation to the CITY. Following commencement of construction, DEVELOPER shall further require the contractors and subcontractors to submit completed certified payroll records with each monthly pay request. The contractors and subcontractors working on the Improvements shall be required to: (1) grant the CITY access to the project site at reasonable times for the purposes of enforcing the provisions of this Section, (2) provide the CITY with documentation relating to compliance with this Section, and (3) indemnify and hold the CITY harmless from any costs, claims, or damages arising from the contractor's or any subcontractor's failure to pay prevailing wages, including but not limited to, costs in investigation or conducting audits.

16. LOCAL EMPLOYMENT ORDINANCE: For contracts valued at \$100,000 and above, pursuant to Stockton Municipal Code Section 3.68.095 the CONTRACTOR and all subcontractors shall make a good faith effort to employ at least 50 percent of the workforce on this project from local residents, as measured by total labor work hours. Failure of any CONTRACTOR or subcontractor to comply with these requirements shall be deemed a material breach of the contract or subcontract. CONTRACTORS and subcontractors shall maintain records necessary for monitoring their compliance with Section 3.68.095.

17. COMMUNITY WORKFORCE TRAINING AGREEMENT: For contracts valued at 1,000,000 and above, pursuant to the implementation of the Community Workforce Training Agreement (CWTA) adopted by the City Council on July 26, 2016, the successful bidder shall be required to comply with the provisions of the CWTA. For any project subject to this Agreement, the Local Hire, Priority Apprentice and Workforce Development Program requirements shall apply in lieu of the requirements of Stockton Municipal Code Section 3.68.095 and no separate compliance with Section 3.68.095 will be required of the Contractors/Employers working on the project.

18. LOCAL PREFERENCE: Pursuant to Stockton Municipal Code Section 3.68.090 preference shall be given to the purchase of supplies, materials, equipment, and contractual services from local merchants, quality and price being equal. Local merchants who have a physical business location within the boundaries of San Joaquin County, and who have applied for and paid a business license tax and registration fee pursuant to Stockton Municipal Code Title 5, Chapter 5.08, License Taxes, shall be granted two (2) percent bid preference. Local merchants who have a physical business location within the boundaries of the City of Stockton Municipal Code Title 5, Chapter 5.08, License Taxes, shall be granted five (5) percent bid preference. This section is intended to provide preference in the award of certain City contracts in order to encourage businesses to move into and expand within the City.

19. SEVERABILITY: If any part of this Reimbursement Agreement is held to be illegal or unenforceable by a court of competent jurisdiction, the remainder of this Reimbursement Agreement shall be given effect to the fullest extent reasonably possible.

20. APPLICABLE LAW: The provisions of this Reimbursement Agreement and any and all disputes arising there from shall be governed by the laws of the State of California.

21. SUCCESSORS & ASSIGNS: This Reimbursement Agreement shall bind and inure to the benefit of the parties and their respective successors, heirs, executors, administrators and assigns.

22. INTEGRATION CLAUSE: This Reimbursement Agreement represents the entire and integrated agreement between the parties regarding the matters set forth herein and supersedes all prior negotiations, representations, or agreements, either written or oral. This agreement may be amended only by written instrument signed by the parties.

23. REQUIRED SIGNATURES: The undersigned represent and warrant that the individuals signing on their behalf are duly authorized to execute this Reimbursement Agreement and to bind the parties.

IN WITNESS HEREOF, the parties have caused this Reimbursement Agreement to be executed by their duly authorized representatives as of the date set forth above.

ADOPT A RESOLUTION APPOINTING MEMBERS OF THE STRONG COMMUNITIES ADVISORY COMMITTEE

RECOMMENDATION

It is recommended that the City Council adopt a resolution appointing Erin Martin and Julie Dunning to the Strong Communities Advisory Committee to fill a partial term commencing immediately appointment and ending January 31, 2025

DISCUSSION

Background

On June 7, 2016, the Stockton City Council adopted Resolution 2016-06-07-1212 to adopt an Ordinance imposing a ¼ cent sales tax and authorizing the formation of a Citizens' Advisory Committee through Ordinance 2016-06-07-1212 contingent upon voter consideration and approval at the November 8, 2016 general municipal election (Measure M).

Section 17 of the adopted Ordinance provides for the creation of a seven-member Citizens' Advisory Committee. Members of the Committee shall be appointed by the City Council to serve two-year terms. As stated in the Ordinance, the Advisory Committee shall meet annually to review the expenditure of revenues generated by the tax and make recommendations to the City Council regarding those expenditures.

At the City Council meeting of July 25, 2017, the City Council discussed Committee appointment options. From these discussions, there was consensus that each member of the City Council, including the Mayor, shall nominate one member to the Committee. For Councilmember appointments, nominees need not be from their respective districts. The City Council shall then approve by majority vote all the nominations to the Committee.

Present Situation

There are currently a vacancies for the members representing Council District 2 and Mayor. After reviewing applications, Councilmember Wright has submitted Erin Martin and Mayor Lincoln has submitted Julie Dunning for appointment.

The terms of service for this appointment will begin upon ratification and expire on January 31, 2025

FINANCIAL SUMMARY

There is no financial impact to the General Fund from the appointment to this committee. Committee members do not receive remuneration.

Interests & Experiences

Please tell us about yourself and why you want to serve.

I have worked with individuals with disabilities for over 20 years as an advocate and partner in my community. I recently graduated from Leadership Stockton Class of 2024 and through both my work and that experience I feel it is my duty to serve my community in ways that can make a difference for youth, teens, and adults. My commitment to the city of Stockton as well as my appreciation has grown exponentially since Leadership Stockton and I want to do more for our city.

Please state the reason you would like to be a member of this board/commission.

Our project in Leadership Stockton was to renovate one of the cottages of the Children's Home of Stockton, through that work and connections made with non-profits and city officials I saw need for ensuring our children and teens have safe places to go for both recreation and learning. I think a huge part of that is ensuring our libraries and community centers serving children and teens remain open and programming is provided that can enhance our under served communities. I think my background in social work would be an asset to this commission.

Have you served on an advisory group before?

☒ Yes ☐ No

If yes, please explain.

I've served on advisory groups within Valley Mountain Regional Center for professional purposes, such as our Consumer Services committee, and CAPTAIN cadre. Both inform the state on how monies should be allocated for specific services and learning. CAPTAIN is funded by grants and the work we do is to expand the knowledge of evidenced based practices for individuals with Autism.

How did you hear about the position?

Dan Wright

City Council Policy 100-2 states that Commissioners are required to attend meetings on a regular basis. If appointed, will you be able to attend meetings regularly and devote the time necessary to fulfill your duties as a member?

Interests & Experiences

Please tell us about yourself and why you want to serve.

I am retired from the State of California after a 35+ year career where the majority of my time was spent as the District 10 Director of Administration, acting District Director, and later at the HQ level as Chief of Strategic Planning and Performance Management. While performing my duties as Director of Admin, I became proficient in budgetary oversight. I have a keen sense for fiscal responsibility, and a passion for governmental transparency and accountability. I truly enjoyed my time as a civil servant and like to stay active/informed by attending various Council and committee meetings. I am very interested in City of Stockton's governance and would like to serve my community at the local level.

Please state the reason you would like to be a member of this board/commission.

I want to be part of the process that ensures the special tax collected is being dispersed and applied as the voters intended. I want to help facilitate transparency and accountability in the programs and resources being established for the youth of Stockton through this tax and that the money is being used in the best way possible.

Have you served on an advisory group before?

☒ Yes ☐ No

If yes, please explain.

During my years of employment with the state I served on various internal and external advisory committees. Some were for process improvements; others were for providing recommendations on implementation of new policies/procedures.

How did you hear about the position?

Through the Mayor's office.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPOINTING A MEMBER TO THE CITY OF STOCKTON STRONG COMMUNITIES ADVISORY COMMITTEE

On June 7, 2016, the Stockton City Council adopted Resolution 2016-06-07-1212 calling for a measure to be placed on the ballot establishing the one-quarter cent special sales and use tax, and authorizing the formation of a Citizens' Advisory Committee through Ordinance 2016-06-07-1212 contingent upon voter consideration and approval at the November 8, 2016, election; and

On November 8, 2016, the citizens of Stockton voted to approve Ordinance 2016-06-07-1212, thus authorizing the formation of the Citizens' Advisory Committee. Each member of the City Council, including the Mayor, shall nominate one member to the Committee. The members nominated are not required to be from specific Council Districts; and

On July 25, 2017, City Council directed staff to more closely align the terms of the Advisory Committee to coincide with each appointing Councilmember; now; therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. In accordance with the provisions of Ordinance 2016-06-07-1212, the following nominees for the Advisory Committee have been submitted for consideration and appointed to the City of Stockton Strong Communities Advisory Committee for a term to commence on appointment, and ending January 31, 2025:

Erin Martin – District 2
Julie Dunning - Mayoral

2. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ADOPT A RESOLUTION TO ACCEPT \$1.7M CALIFORNIANSFORALL YOUTH JOBS CORPS ROUND 2 GRANT

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Ratify a grant agreement with California Volunteers in the amount of \$1,773,664.00; and
2. Authorize the City Manager to appropriate grant funds for the CaliforniansForAll Youth Jobs Corps in the amount of \$1,773,664.00.

It is also recommended that the City Manager be authorized to take any appropriate and necessary actions to carry out the purpose and intent of the resolution.

Summary

The CaliforniansForAll Youth Jobs Corps is administered by California Volunteers. In partnership with local governments and community-based organizations across the state, the CaliforniansForAll Youth Jobs Corps employs young people to help tackle critical issues in priority areas: COVID-19 recovery, food insecurity, and climate action. Youth are supported with at least minimum wage and essential wrap-around services like case management, résumé preparation, special job training, and other benefits to help ensure both their short- and long-term success. The Youth Jobs Corps has three core goals: increase employment for underserved youth across California, develop meaningful public service career pathways, and enhance local government capacity to address challenges in key focus areas.

Staff are seeking City Council's authorization to accept the grant funding in the amount of \$1,773,664 for the CaliforniansForAll Youth Jobs Corps Program.

DISCUSSION

Background

The California Volunteers' CaliforniansForAll Youth Workforce Development Program is a Governor's initiative that is partnering with California cities to bolster youth workforce engagement and interest in critical career pathways. California Volunteers' mission is to promote service and volunteerism to tackle state and local issues. The City was issued a \$4.3M Round 1 award in late 2021 to create, develop, and facilitate a robust workforce program to address the focus areas of climate, food insecurity, and local COVID-19 recovery. The City utilized Round 1 funding to create the Stockton Youth Employment Summer Success (YESS) program, as well as to fund four external entities to

expand their existing workforce programs. Overall, the City's Round 1 Youth Jobs Corps funding created over 440 paid opportunities for youth throughout the City of Stockton through 2023 and 2024 to date.

Present Situation

The State of California awarded the City of Stockton a \$1,773,664 Round 2 Youth Jobs Corps grant to continue its Stockton Youth Employment Summer Success program and support external programs. Round 2 funding is available through December 31, 2025, which will allow the City to host another year of Stockton YESS, offer some support to a local youth workforce partner, and continue to support its grant-funded Program Manager. External youth workforce partners will be identified through a competitive procurement process following past practice with round 1 funding and standard City processes.

On June 18, 2024, the City was notified that the State would impose a strict deadline of June 30, 2024 to receive executed documents from local agencies. As such, the City Manager proceeded with executing the agreement (Exhibit 1) to ensure the City did not inadvertently forfeit the State appropriated funding.

FINANCIAL SUMMARY

The City and its subcontractors will pay for project related expenses in full and then submit documentation for reimbursement through this grant. There will be no impact to the General Fund, all related costs will be supported by the grant funding. No matching funds are required for this grant. An appropriation of revenue and expenditures of \$1,773,664 is necessary in the City Manager's Special Grants Fund - Reimbursement, General Administration Division.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION TO ACCEPT \$1.7 MILLION FROM THE CALIFORNIANSFORALL YOUTH JOBS CORPS ROUND 2 GRANT PROGRAM

The City of Stockton ("City") is interested in promoting workforce development programs, particularly those that endeavor to empower youth; and

The State of California has made funding available for the CaliforniansForAll Youth Jobs Corps, which seeks to provide funding for local governments across the state to create programs that increase employment for underserved youth across California, develop meaningful public service career pathways, and enhance local government capacity to address challenges in key focus areas; and

The State of California awarded the City of Stockton a \$1,773,664 Round 2 Youth Jobs Corps grant to continue the City's youth workforce program, and support local external workforce partners; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. Authorize the ratification of a grant agreement with California Volunteers in the amount of \$1,773,664 (Exhibit 1).
2. Authorize the City Manager to appropriate grant funds for the CaliforniansForAll Youth Jobs Corps in the amount of \$1,773,664.
3. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

**RE: 2023-2024 CALIFORNIANSFORALL YOUTH SERVICE CORPS PROGRAM
APPLICATION**

To Whom It May Concern,

As requested, here is the name, title, email, and phone number for the best point of contact for the City of Stockton:

Dale Applewhite
Program Manager III
dale.applewhite@stocktonca.gov
(209) 937-8150

Section 1: Program Goal

The City of Stockton hopes to increase the number of young, qualified professionals in Stockton who are prepared for the future economy. In particular, the city is interested in linking at-risk and/or high-need youth to lucrative career pathways with significant growth potential. Additionally, the city is interested in promoting youth interest toward a career in public service. This program directly aligns with the City's One Page Strategic Plan, which includes a strategy for Growing Economy to meet City Council's goals. Specifically, this strategy calls for expanding jobs, reducing barriers to entry, increasing small business development, and fostering and supporting entrepreneurship. Funding from CaliforniansForAll Youth Service Corps will significantly bolster the City's ability to pursue this strategy.

Section 2: Program Design

Youth Employment Summer Success (Y.E.S.S) Program will support one hundred (100) local youths for a 4-week summer employment program. Job opportunities in nine (9) City departments will provide paid jobs for youth aged 16-19 who live in the City of Stockton. Youth participants will be introduced to a formal workplace setting, build their skills, and raise awareness of public sector career pathways. The City will also hire six (6) Youth Supervisors and give them an advanced opportunity to supervise the incoming youth workers.

The Y.E.S.S. program will also provide workshops, counseling, and mentoring that focus on personal development and mental wellness during the program. The wrap-around supportive services aim to enhance the overall experience for the participants and additionally help the participants overcome employment barriers normally experienced by marginalized, low-income youth trying to enter the workforce. The workshops will on two Fridays during the program.

Throughout nine (9) City departments, participants will fill staffing gaps and help complete outstanding projects. Participants will assist with administrative tasks such as answering phones and emails and assisting in converting hard copy paperwork to an electronic format. Participants will be trained to use Microsoft applications to create spreadsheets and prepare documents for storage. Participants working in the IT department will perform security wipes of old computers and prepare new computers for deployment for city departments. Participants working in the Public Works Department will provide labor for park beautification projects that include cleanup, painting, and tree planting. The Community Center participants will learn how to coordinate daily activities and provide supervision support for children and senior recreational programs.

The City of Stockton will also subgrant with community-based organizations (CBOs) to execute the program design illustrated in the application. The City of Stockton plans to release a Request for Proposals (RFP) that will ask respondents to offer programs that fall within the focus area(s). The criteria used to determine which programs are selected during the RFP process will reflect the Youth Workforce Development Program goals and requirements. Emphasis will be placed on programs that have an established track record of success, particularly with high need youth. Examples of current successful workforce programs supported by the City that align with this program's goals include Greater Valley Conservation Corps, Parents by Choice, and Rising Sun Center for Opportunity.

The process through which the City will select CBO partners includes a thorough review of responses, including detailed background research, interviews, and scored evaluations that will give additional points to those organizations with relevant prior experience. Through this process the City endeavors to find the most qualified organizations that can accept this significant one-time investment and produce substantial results within the timeframe allotted for funding.

Due to the City's reliance on the RFP to determine which CBOs will become sub-grantee(s), the City cannot provide the names of the partner organizations or a description of the youth worker job activities. However, there are specific workforce programs that the City is interested in funding within each Key Area. For 'Climate' the City is interested in arborist certification, solar installation training, and energy- and water-efficient appliance installation training. For 'Food Insecurity' the City would like to see programs that support the development of urban farms and the distribution of organic foods in local schools. In addition to these priority areas, the city will encourage respondents to the RFP to include pre-apprenticeship programs that use industry standard developed curriculum.

The City will require that all subgrantees commence programming no later than December 2024. Subgrantees may start once contracts are formally executed, and preference will be given to those sub-grantees that can begin programming earlier.

Section 3: Youth Recruitment/Development

The City of Stockton's Recruitment:

The City of Stockton's website will host a dedicated webpage for the Y.E.S.S. program that will describe the goals and design of the program and include a link to the application. The City will also work with Stockton Unified School district, community partners, and Workforce Agents to distribute marketing and promotion materials, attend school job fairs, as well as post recruiting information to social media outlets.

The program will target youth aged 16- 19 who live in the city limits of Stockton. Program participants employment applications will be vetted using a scoring system based on CaliforniaVolunteers youth eligibility requirements. One point will be given for each criterion met. Applicants with the highest scores will be chosen on a first come, first serve basis until all available openings are filled.

The program will provide participants with an opportunity for personal growth and foundational work-readiness skills through professional development workshops. Workshops will focus on financial literacy, resume writing, interviewing skills, and work-place etiquette.

The City of Stockton understands that first jobs can be emotionally challenging and will take steps to care for the emotional health of the participants by providing access to mental wellness support through 1:1 counseling, and 3-hours of facilitated group sessions that include topics such as, Self-Regulating Stress, Mental Health First Aid, and Developing Social Skills.

Participants in the Y.E.S.S. program will work in City Departments five (5) days per week Monday through Thursday, for 6.5 hours per day, and attend personal development and work readiness workshops on two Fridays. Participants will serve a total of 32.5 hours per week and receive \$24.00 per hour. The summer program runs for 4 weeks during the month of June. Youth Supervisors will work five (5) days per week for 8 hours per day over a 6-week period and receive \$28.00 per hour. The Youth Supervisors will begin working 2 weeks earlier than the program start date to assist with pre-program preparation tasks.

Subgrantee Recruitment:

The City will work with subgrantees to develop recruitment strategies with a focus on disadvantaged youth. The RFP will require the subgrantees to outline a recruitment/outreach plan for reaching and enrolling youth. Additionally, the City will provide the sub-grantees with its standards and expectations for flyers and social media post related to recruitment. The City will also create a page on its website that will describe the goals and design of the CaliforniansForAll Youth Workforce Development Program with links to applications.

The City will require in its RFP that subgrantees consider what wrap around services will be needed for youth seeking to participate. Such services could include low-cost daycare, transportation stipends, workshops for personal and professional development (ex. job readiness training, college readiness, how to manage personal finances, etc.), and bi-weekly mentor meetings. Preference will be given to those sub-grantees who demonstrate a full understanding of the wraparound services needed for Stockton's youth.

The City will ensure that subgrantees pay a wage above the state minimum per the Youth Workforce Development Program requirements. In the RFP, the City will encourage respondents to offer higher wages so that participants will be financially incentivized to complete the program. The City will require subgrantees workforce programs to run a minimum of 1 month and a maximum of 15 months. Subgrantee programs will be required to be completed by December 2025.

Section 4: Metrics/Outcomes

The City of Stockton will be able to provide the required metrics listed by CaliforniaVolunteers through the following methods of evaluation: 1) Pre and Post Surveys, 2) Program Evaluations, 3) A mid-program participant progress evaluations.

The required metrics will be provided to the City by sub-grantee(s) ultimately selected through the RFP process. In the event sub-grantees are unable to report any of the metrics listed, then the City will work with California Volunteers to try to find an alternative solution.

Section 5: Budget/Staffing/Communications

One and one-quarter (1.25) full-time employee (FTE) will oversee the implementation of the Y.E.S.S. Program. These positions will manage and oversee the program, including all invoicing and administrative requirements as outlined by California Volunteers. They will work closely with subgrantees and the City Departments and coordinate these efforts within the larger workforce ecosystem. The positions will also provide programming for all participants that will include presentations from local business and government leaders with the aim of inspiring and encouraging local youth to pursue careers in strategically critical fields. The City of Stockton commits to using CaliforniaVolunteers developed branding and will participate in CaliforniaVolunteers-organized training/curriculum. The City of Stockton will participate in a CaliforniaVolunteers program launch media event.

The City of Stockton proposes a budget of \$704,571.87 to serve one hundred and six (106) local youth through the Youth Employment Summer Success (Y.E.S.S) Program to strengthen the City's capacity to raise awareness of public sector opportunities in the community. The City also proposes a budget of \$1,069,092.13 to partner with local community-based organizations to execute the program design illustrated in the application to expand workforce opportunities for youth in the community. The City of Stockton is requesting total funding from Funding from CaliforniansForAll Youth Service Corps in the amount of \$1,773,664.00.

EXHIBIT C
Budget Payment Provisions

**California Volunteers,
Youth Service Corps
City of Stockton**

BUDGET PAYMENT PROVISIONS

1. Invoicing and Payment
 - a) For services satisfactorily rendered, and upon receipt and approval of the invoices, the State agrees to compensate the Contractor for actual expenditures incurred in accordance with the rates specified herein, which is attached hereto and made a part of this Agreement.
 - b) Invoices shall include the Agreement Number and shall be submitted via PDF to Robert.Nesman@californiavolunteers.ca.gov.
2. Budget Contingency Clause
 - a) It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. In this event, the State shall have no liability to pay any funds whatsoever to the Contractor or to furnish any other considerations under this Agreement and the Contractor shall not be obligated to perform any provisions of this Agreement.
 - b) If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the State shall have the option to either cancel this Agreement with no liability occurring to the State or offer an agreement amendment to Contractor to reflect the reduced amount.
3. Prompt Payment Clause

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

Exhibit D**California Volunteers - Reporting (Metrics, Deadlines and Process), Invoicing, Service Events and/or Member Convenings, Programmatic and Fiscal Document Retention****Youth Service Corps Program**

All Youth Service Corps Program grantees will be responsible for providing periodic and timely reports on outcomes and outputs associated with the funding received from this program.

Reporting Metrics

Grantees will be required to report the following metrics on a quarterly and annual basis to California Volunteers in a format and method to be specified by California Volunteers. These metrics are subject to change, depending on the California Department of Finance's review and approval:

Additionally, California Volunteers requires cities to report the following data, where feasible, on a quarterly and annual basis to California Volunteers in a format and method to be specified by California Volunteers.

- Number of youth participating in Youth Service Corps
- Number of Youth completing Youth Service Corps
- Number of youth employed in each focus area
- Number of youth participating in summer employment program (if applicable)
- Average wage and hours worked of participants across program
- Information/data/member stories as requested for annual report
- Participant information, including Personally Identifiable Information, as requested by California Volunteers, including, but not limited to: Name, Address, Phone Number, Email Address, Program Completion Status. Grantees agree to make member contact information available to California Volunteers to use in program communications on a schedule to be provided by California Volunteers
- Number of youth employed in program who were previously unemployed
- Number of participants who enroll in higher education or gain employment following program end
- Number of youth employed in program who remain in college or stable employment
- Number of youth employed after completion of program
- Number of youth who report job satisfaction after completion of program

Exhibit D

California Volunteers - Reporting (Metrics, Deadlines and Process), Invoicing, Service Events and/or Member Convenings, Programmatic and Fiscal Document Retention

- Number of youth who report an interest in a career in public service after one year of employment
- Number of youth employed in public service after completion of program
- Job training evaluations

Reporting Deadlines:

Report	Reporting Period	Partner Reports Due
1 (if applicable)	Award Date – June 30, 2024, 2024	July 15, 2024
2 (if applicable)	July 1 – September 30, 2024	October 15, 2024
3	October 1 – December 31, 2024	January 15, 2025
4	January 1 – March 31, 2025	April 15, 2025
5	April 1 – June 30, 2025	July 15, 2025
6	July 1 – September 30, 2025	October 15, 2025
7	October 1 – December 31, 2025	January 15, 2026

California Volunteers will update this reporting timeline with additional reporting periods, upon receipt of updated reporting timelines established by the California Department of Finance. Reporting metrics may be updated, depending on updated guidance from the California Department of Finance.

Reporting Process:

California Volunteers will be providing a comprehensive reporting template for grantees upon execution of a contract. Additionally, this reporting template and process may be updated during the period of the contract. At the time when the reporting process is updated, California Volunteers will roll out communication regarding this process and provide updates to grantees.

Invoicing:

This grant is a cost-reimbursement grant. As such, grantees will be required to submit periodic and timely invoices to California Volunteers for expenses already incurred for processing and payment. Grantees have the discretion to invoice monthly or quarterly.

Exhibit D**California Volunteers - Reporting (Metrics, Deadlines and Process), Invoicing, Service Events and/or Member Convenings, Programmatic and Fiscal Document Retention****Invoicing Deadlines:**

Grantees have the discretion to invoice monthly or quarterly. If monthly, invoices should be submitted by the 15th of the following month. If quarterly, invoices should be submitted no later than the due date identified in the reporting deadlines above.

Service Events and/or Member Convenings:

Grantee agrees to host at least two service events and/or member convenings per calendar year at the direction of California Volunteers.

Programmatic and Fiscal Document Retention

In line with State requirements regarding record retention, grantees are required to maintain all documentation, programmatic and fiscal, pertaining to this contract for a period of five years after the close out the contract and the payment of the final invoice. The grantee is required to maintain books, records, documents, and other evidence pertaining to the reimbursable costs and hold them available for audit and inspection by the State for the five years following the close out of the contract and payment of the final invoice. These retention requirements pertain to all contracts associated with this program, regardless of funding source.

City of Stockton

Legislation Text

File #: 24-0453, Version: 2

APPROVE CONTRACT WITH GROW AMERICA TO PREPARE THE CITY'S 2025-2029 CONSOLIDATED PLAN AND ASSOCIATED ACTIVITIES AS A STANDARD REQUIREMENT FOR RECEIVING FEDERAL FUNDING

RECOMMENDATION

It is recommended that the City Council authorize by motion:

1. A contract in the amount of \$140,000 from a combination of Community Development Block Grant (CDBG), Home Investment Partnership Program (HOME), and Low- and Moderate-Income Housing Asset Fund (LMIHF) funds to Grow America for consulting services to prepare the City's 2025-2029 Consolidated Plan and associated activities as a standard requirement from the Department of Housing and Urban Development to receive Federal funding; and
2. The execution of the Standard Agreement substantially similar in form to Attachment A.

It is also recommended that the City Council authorize the City Manager, or designee, to take necessary and appropriate actions to carry out the purpose and intent of the motion.

Summary

As a recipient of U.S. Department of Housing and Urban Development (HUD) funds, the City is required to prepare a five-year master plan, known as the Consolidated Plan. The Consolidated Plan identifies the priority needs within a community and establishes the goals and objectives that the grantee, the City, hopes to accomplish during the five-year period using HUD funds.

Along with the Consolidated Plan, HUD requires the City to undertake planning activities related to Affirmatively Furthering Fair Housing (AFFH). Federal statute requires the City of Stockton to proactively take meaningful actions to overcome patterns of segregation, promote fair housing choice, and eliminate disparities in opportunities, and foster inclusive communities free from discrimination. Additional activities that the City is required to undertake to continue receiving federal funding from HUD includes: the preparation of a Language Access Plan (LAP); developing a Section 3 Plan to provide training, employment, contracting, and other economic opportunities to low- and very low-income persons; and reviewing and updating the City's Citizen Participation Plan (CPP).

In March 2024, the City published a Request for Proposals (RFP) to identify and select a firm to assist in the preparation of the 2025-2029 Consolidated Plan, and associated planning activities, for submission to HUD. The City received four proposals and after thorough review of the proposals, staff selected Grow America. Staff recommends approval of a contract in the amount of \$140,000 with Grow America to prepare the 2025-2029 Consolidated Plan.

DISCUSSION

Background

The Consolidated Plan is designed to help local jurisdictions assess their affordable housing and community development needs, evaluate market conditions, and to make data-driven, place-based investment decisions. The consolidated planning process serves as the framework for a communitywide dialogue to identify housing and community development priorities that align and focus funding from HUD's formula block grant programs: Community Development Block Grant (CDBG) Program, HOME Investment Partnerships (HOME) Program, and Emergency Solutions Grants (ESG) Program.

The Consolidated Plan is carried out through Annual Action Plans, which provide a concise summary of the actions, activities, and the specific federal and non-federal resources that will be used each year to address the priority needs and specific goals identified by the Consolidated Plan. HUD requires grantees like the City to report on accomplishments and progress toward Consolidated Plan goals in the Consolidated Annual Performance and Evaluation Report (CAPER).

In March 2024, City staff prepared an RFP seeking a firm to assist in the preparation of the 2025-2029 Consolidated Plan and other federal mandated planning activities for submission to HUD. Four proponents responded to the RFP. The vendor was selected based on its experience in the preparation of similar documents, knowledge of HUD requirements and the local community, and ability to meet the deadlines set in the RFP. A staff selection committee evaluated and scored each proposal and Grow America was selected as the Consultant to prepare the Consolidated Plan and first-year Annual Action Plan, undertake planning activities related to AFFH requirements, develop a LAP, develop a Section 3 Plan, and advise on updates to the City's Citizen Participation Plan.

Present Situation

The City's current Consolidated Plan sunsets at the end of Fiscal Year 2025. In order to continue to receive federal funds from HUD, the City must complete a new Consolidated Plan covering the years 2025-2029. As part of the development of the new Consolidated Plan, the City will need to undertake additional planning activities that are required by HUD, and which complement and support the analysis of community needs. In addition to developing the 2025-2029 Consolidated Plan and first-year Annual Action Plan, Grow America will be tasked with undertaking activities as part of the Affirmatively Furthering Fair Housing (AFFH) requirements, which involves data gathering and analysis to identify fair housing priorities and goals. The consultant will also be required to conduct the HUD-required four-factor analysis to develop a Language Access Plan (LAP); conduct activities required for the development of a Section 3 Plan; and advise on updates to the City's existing Citizen Participation Plan.

Grow America was selected due to their extensive experience and knowledge of a broad range of HUD programs and planning activities. As part of the activities to be conducted by Grow America, there will be extensive stakeholder and community engagement throughout the process. This will include designing and deploying a citizen survey, virtual one-on-one consultations with local stakeholders, and virtual community meetings. In addition, City staff will conduct in-person meetings

to ensure the community is informed of the process and provided opportunities to solicit in-person feedback.

Staff recommends approval of a Standard Agreement, substantially similar in form to Attachment A, in the amount of \$140,000 with Grow America to prepare the 2025-2029 Consolidated Plan, first-year Annual Action Plan, and associated planning activities.

FINANCIAL SUMMARY

No General Fund dollars will be used for this project. Sufficient funds have been budgeted, and are available, in FY 2024-25, to support this work. The contract with Grow America will be paid with CDBG, HOME and LMIHF funds, as follows:

Funding Source	Amount	Account #
CDBG	\$ 50,000	6020-400-630006-230-231-10-60-000-000-
HOME	\$ 50,000	6020-400-630006-230-233-10-60-000-000-
LMIHF	\$ 40,000	6020-400-630006-290-293-10-60-000-000-

Attachment A - Standard Agreement

CITY OF STOCKTON
STANDARD AGREEMENTAgreement Number:

1. This Agreement is entered into between the City of Stockton ("City") and Grow America ("Contractor") to provide Consolidated Plan development services as set forth in Exhibit A to this Agreement.

2. The term of this Agreement is as follows, unless amended as described in Exhibit A and Exhibit C section 8:

Commences on: 7/10/2024

Terminates on: 9/30/2025

3. The maximum not to exceed amount to be paid to Contractor for the term of this Agreement, including if authorized, reimbursement of expenses, is: \$ 140,000

4. The complete Agreement consists of all the following Agreement documents which by reference are incorporated and made a part of this Agreement. The parties agree to comply with the terms and conditions of this Agreement.

(a) Exhibit A – Statement of Work

(b) Exhibit B – Insurance

EXHIBIT A
STATEMENT OF WORK

1. Project Objectives

- 1.1 On March 1, 2024, a Request for Proposals (RFP) was published to solicit proposals from qualified firms for the development of the City of Stockton's 2025-2029 Consolidated Plan, and associated planning activities, as required for the receipt of funding from the U.S. Department of Housing & Urban Development.
- 1.2 Grow America has been selected to perform the activities outlined in PUR 24-024, including the development of the 2025-2029 Consolidated Plan and first year Annual Action Plan; undertaking activities related to Affirmatively Furthering Fair Housing (AFFH); preparation of a Language Access Plan (LAP); developing a Section 3 Plan, and reviewing and advising on updates to the City's Citizen Participation Plan (CPP).
- 1.3 Completion of the abovementioned activities is required for the City of Stockton to continue to receive HUD funding, including Community Development Block Grant (CDBG), Emergency Solutions Grants Program (ESG), and HOME Investment Partnerships Program (HOME) funds.
- 1.4 The City is contracting with Grow America to complete all activities required by HUD.

2. Project Scope

- 2.1 Contractor shall provide the following services with a total contract amount of One Hundred Forty Thousand Dollars (\$140,000). In providing these services, Contractor shall undertake its "best efforts" in attaining the goals and results stated herein which have been mutually agreed upon by Contractor and City.
- 2.2 Contractor shall perform data gathering, needs assessment, market analysis, citizen participation activities, and consultation as required for the development of the 2025-2029 Consolidated Plan and first year Annual Action Plan.
- 2.3 Contractor shall research, collect feedback, and make recommendations on actions to further fair housing and analyze impediments to fair housing. Contractor shall review key data and

recommendations included in existing City planning documents and the previous Analysis of Impediments for the development of an updated Analysis of Impediments to Fair Housing.

- 2.4 Contractor shall conduct the four-factor analysis and develop a Language Access Plan (LAP) compliant with State and/or Federal requirements.
- 2.5 Contractor shall conduct all activities required for the development of a Section 3 Plan.
- 2.6 Contractor shall review the City's Citizen Participation Plan (CPP) and advise on any required updates to meet CPP requirements as specified in 24 CFR Part 91.105.
- 2.7 Contractor shall evaluate and incorporate policies related to housing preference within the Consolidated Plan.
- 2.8 Contractor shall work with City staff to align the goals of the Consolidated Plan with existing City documents, including but not limited to the Economic Development Strategic Action Plan, Housing Action Plan, Neighborhood Action Plans, and Council goals and priorities.

3. Specifications

- 3.1 Contractor shall perform the Project Scope activities outlined above and as enumerated in PUR 24-024, in accordance with HUD requirements.

4. Major Deliverables

- 4.1 Contractor shall deploy a SurveyMonkey-based survey and convene six Council District meetings and additional public participation events as part of the community engagement strategy.
- 4.2 Contractor shall submit draft versions of the draft Consolidated Plan goals and priorities forty-five (45) days before the delivery of the Draft Consolidated Plan and Annual Action Plan.
- 4.3 Contractor shall incorporate feedback from City staff and the public into final versions of the Consolidated Plan, Annual Action Plan, and Analysis of Impediments for submission to HUD.
- 4.4 Contractor shall enter the Consolidated Plan and Annual Action Plan into IDIS for submission by City staff.

- 4.5 Contractor shall provide drafts of the Language Access Plan (LAP) and Section 3 Plan for review and comments from City staff.
- 4.6 Contractor shall provide written guidance on any required updates to the City's Citizen Participation Plan.
- 4.7 Contractor shall make any necessary revisions to the Consolidated Plan, Annual Action Plan, Analysis of Impediments, LAP, Section 3 Plan, and CPP, as required by HUD

5. Tasks That Support the Deliverables

- 5.1 City staff shall identify key staff member who will serve as Contractor contract.
- 5.2 City staff shall provide IDIS access for key Grow America personnel.
- 5.3 City staff shall provide copies (or weblinks) to all plans, data, and other documents that the City desires for Contractor to review and incorporate into any of the deliverables.
- 5.4 City staff shall provide a list of primary contacts for relevant organizations and will assist with coordinating stakeholder meetings.

6. Criteria of Acceptance for Deliverables

- 6.1 Contractor shall provide a monthly report of activities performed under the term of this Agreement.
- 6.2 Contractor shall provide drafts of documents for review and comments by City staff.
- 6.3 Contractor shall make any necessary revisions to the Consolidated Plan, Annual Action Plan, Analysis of Impediments, LAP, Section 3 Plan, and CPP, as required by HUD upon submittal.

Carrie Wright, City of Stockton, Director of Economic Development

Jordan Peterson, City of Stockton, Deputy Director of Redevelopment

Juan Gonzalez, City of Stockton, Housing Manager

Angelina Abella, City of Stockton, Economic Development Analyst

Julisa Villalobos, City of Stockton, Grants Analyst

9. Option to Renew

The term of the Agreement may be extended by a written amendment executed by both parties.

Exhibit B:
Insurance Requirements for Professional Services

Contractor shall procure and maintain for the duration of the contract, *and for three (3) years thereafter*, insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder and the results of that work by the Contractor, his agents, representatives, employees or subcontractors.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **\$1,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

Additional Coverages:

Automobile Liability: ISO Form Number CA 00 01 covering any auto (Code 1), or if Contractor has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with limit no less than **\$1,000,000** per accident for bodily injury and property damage. ***(Automobile insurance is required if the Contractor's employees will be driving vehicles while in service to the City of Stockton)***

Workers' Compensation: as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease. ***(Not required if consultant provides written verification it has no employees)***

Property insurance covering the Development, in form appropriate for the nature of such property, covering all risks of loss, excluding earthquake, for one hundred percent (100%) of the replacement value, with deductible, if any, acceptable to the City, naming the City as separate a Loss Payees, as its interests may appear. Flood insurance shall be obtained if required by applicable federal regulations. **(For Loan Agreements related to any new building, major renovating, and/or major remodeling)**

Crime/Fidelity Bond - Insurance no less than **the dollar amount of the grant/loan**, covering all officers and employees, for loss of proceeds caused by dishonesty. ***(For grants/loans)***

Sexual Abuse or Molestation (SAM) Liability: *If* the work will include **contact with minors**, and the CGL policy referenced above is not endorsed to include affirmative coverage for sexual abuse or molestation, Contractor shall obtain and maintain a policy covering Sexual Abuse and Molestation with a limit no less than \$1,000,000 per occurrence or claim. **(For work including contact with minors)**

Additional Coverages for Consulting or Professional Services:

Professional Liability/Errors and Omissions Insurance appropriate to the Contractor's profession, with limit no less than **\$1,000,000** per occurrence or claim, **\$1,000,000** aggregate. **(For Consulting or Professional Services)**

Technology Professional Liability Errors and Omissions Insurance appropriate to the Vendor's profession and work hereunder, with limits not less than **\$1,000,000** per occurrence. Coverage shall be sufficiently broad to respond to the duties and obligations as is undertaken by the Vendor in this agreement and shall include, but not be limited to, claims involving security breach, system failure, data recovery, business interruption, cyber extortion, social engineering, infringement of intellectual property, including but not limited to infringement of copyright, trademark, trade dress, invasion of privacy violations, information theft, damage to or destruction of electronic information, release of private information, and alteration of electronic information. The policy shall provide coverage for breach response costs, regulatory fines and penalties as well as credit monitoring expenses. **(For Technology Consulting or Technology Professional Services)**

a. The Policy shall include, or be endorsed to include, **property damage liability coverage** for damage to, alteration of, loss of, or destruction of electronic data and/or information "property" of the Agency in the care, custody, or control of the Vendor. If not covered under the Vendor's liability policy, such "property" coverage of the Agency may be endorsed onto the Vendor's Cyber Liability Policy as covered property as follows:

If the Contractor maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions

REV 2022-05-17

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

For any claims related to this contract, the **Contractor's insurance coverage shall be primary and non-contributory** and at least as broad as ISO CG 20 01 04 13 as respects the City of Stockton, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Umbrella or Excess Policy

The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Contractor's primary and excess liability policies are exhausted.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

REV 2022-05-17

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Self-Insured Retentions

Self-insured retentions must be declared to and approved by the City of Stockton. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds \$25,000 unless approved in writing by City of Stockton. Any and all deductibles and SIRs shall be the sole responsibility of Contractor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. City of Stockton may deduct from any amounts otherwise due Contractor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. City of Stockton reserves the right to obtain a copy of any policies and endorsements for verification.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies (For Professional Liability Only)

If any of the required policies provide claims-made coverage:

1. The Retroactive Date must be shown, and must be before the date of the contract or the beginning of contract work.
2. Insurance must be maintained and evidence of insurance must be provided ***for at least three (3) years after completion of the contract of work.***
3. If coverage is canceled or non-renewed, and not replaced ***with another claims-made policy form with a Retroactive Date prior to*** the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***three (3)*** years after completion of work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause **and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements**. All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the City of Stockton before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time. City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Subcontractors

Consultant shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that City of Stockton is an additional insured on insurance required from subcontractors.

Duration of Coverage

CGL & Excess liability policies **for any construction related work, including, but not limited to, maintenance, service, or repair work**, shall continue coverage for a minimum of 3 years for Completed Operations liability coverage. Such Insurance must be maintained and evidence of insurance must be provided ***for at least three (3) years after completion of the contract of work.***

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

The address for mailing certificates, endorsements and notices shall be:

City of Stockton
Its Officers, Officials, Employees, and Volunteers
400 E Main St, 3rd Floor – HR
Stockton, CA 95202

EXHIBIT C
GENERAL TERMS AND CONDITIONS

1. **Goods, Equipment and Services.** Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to City the services described in Exhibit A of the Agreement. Contractor shall provide said services at the time, place and in the manner specified in Exhibit A of the Agreement.

2. **City Assistance, Facilities, Equipment and Clerical Support.** Except as set forth in Exhibit A, Contractor shall, at its sole cost and expense, furnish and maintain all facilities and equipment that may be required for furnishing services pursuant to this Agreement. If applicable, City shall furnish to Contractor only the facilities and equipment listed in Exhibit A to the Agreement.

3. **Compensation.** City shall pay Contractor for services rendered pursuant to this Agreement as described more particularly in Exhibit A and Exhibit E to the Agreement.

3.1 Invoices submitted by Contractor to City must contain a brief description of work performed, time spent and City reference number. Within thirty (30) days of receipt of Contractor's invoice, City will review invoice, and if acceptable make payment on approved invoice.

3.2 Upon completion of work and acceptance by City, Contractor shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by City upon receiving a written request thirty (30) days in advance of said time limitation. The City shall have no obligation or liability to pay any invoice for work performed which the Contractor fails or neglects to submit within sixty (60) days, or any extension thereof granted by the City, after the work is accepted by the City.

4. **Sufficiency of Contractor's Work.** All Contractor services, work, and deliverables shall be performed in a good and workmanlike manner with due diligence in accordance with the degree of skill normally exercised by similar contractors supplying services and work of a similar nature, and in conformance with applicable laws, codes and professional standards. Contractor's work shall be adequate and sufficient to meet the purposes of this Agreement.

5. **Ownership of Work.** All reports, work product, all other documents completed or partially completed by Contractor or its approved subcontractors, in performance of this Agreement, and if applicable, drawings, designs, and plan review comments shall become the property of the City. Any and all copyrightable subject matter in all materials is hereby assigned to the City and the Contractor and its approved subcontractors agree

to execute any additional documents that may be necessary to evidence such assignment. All materials shall be delivered to the City upon completion or termination of the work under this Agreement. If any materials are lost, damaged or destroyed before final delivery to the City, the Contractor shall replace them at its own expense. Contractor and its approved subcontractors shall keep materials confidential. Materials shall not be used for purposes other than performance of services under this Agreement and shall not be disclosed to anyone not connected with these services, unless the City provides prior written consent.

6. Timeliness. Time is of the essence in this Agreement. Further, Contractor acknowledges that the failure of Contractor to comply with the time limits described in Exhibit A and Exhibit F may result in economic or other losses to the City.

7. Changes. Both parties to this Agreement understand that it may become desirable or necessary during the term of this Agreement for City to modify the scope of services provided for under this Agreement. Any material extension or change in the scope of work shall be discussed with City and the change and cost shall be memorialized in a written amendment to the original contract prior to the performance of the additional work. Until the amendment is so executed, City will not be responsible to pay any charges Contractor may incur in performing such additional services, and Contractor shall not be required to perform any such additional services.

8. Amendment. No variation of the terms of this Agreement shall be valid unless an amendment is made in writing and signed by both parties.

9. Contractor's Status.

9. 1 In performing the obligations set forth in this Agreement, Contractor shall have the status of an independent contractor and Contractor shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of Contractor are its agents and employees and are not agents or employees of City. Contractor by virtue of this Agreement, has no authority to bind or incur any obligation on behalf of City. Except as expressly provided in Exhibit A, Contractor has no authority or responsibility to exercise any rights or power vested in the City. No agent, officer or employee of the City is to be considered an employee of the Contractor. It is understood by both Contractor and City that this Agreement shall not be construed or considered under any circumstances to create an employer-employee relationship or a joint venture.

9.2 Contractor shall determine the method, details and means of performing the work and services to be provided by Contractor under this Agreement. Contractor shall be responsible to City only for the requirements and results specified in this Agreement and, except as expressly provided in this Agreement, shall not be subjected to City's

control with respect to the physical action or activities of Contractor in fulfillment of this Agreement. Contractor has control over the manner and means of performing the services under this Agreement. If necessary, Contractor has the responsibility for employing other persons or firms to assist Contractor in fulfilling the terms and obligations under this Agreement.

9.3 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages, working conditions, discipline, hiring and discharging or any other term of employment or requirements of law shall be determined by the Contractor.

9.4 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's assigned personnel under the terms and conditions of this Agreement.

10. Subcontractor.

10.1 Subcontractors shall not be recognized as having any direct or contractual relationship with City. Contractor shall be responsible for the work of subcontractors, which shall be subject to the provisions of this Agreement. Subcontractors will be provided with a copy of the Agreement and be bound by its terms. Contractor is responsible to City for the acts and omissions of its subcontractors and persons directly or indirectly employed by them.

10.2 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by Contractor.

10.3 It is further understood and agreed that all Subcontractors must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Subcontractors personnel.

11. Termination.

11.1 Termination for Convenience of City. The City may terminate this Agreement at any time by mailing a notice in writing to Contractor. The Agreement shall then be deemed terminated, and no further work shall be performed by Contractor. If the Agreement is so terminated, the Contractor shall be paid for the work actually completed at the time the notice of termination is received.

11. 2 Should either party default in the performance of this Agreement or materially breach any of its provisions, the other party, at that party's option, may terminate this Agreement by giving written notification to the other party.

11.3 Funding- Non-Appropriation. It is mutually understood between the Parties that payment to the Contractor for performance shall be dependent upon the availability of appropriations by the City Council for the purposes of this Agreement. No legal liability on the part of the City for any payment may arise under this Agreement until funds are made available and until the Contractor has received funding availability, which will be confirmed in writing. If funding for any fiscal year is reduced or deleted, or if the City loses funding for any reason, the City, in its sole discretion, shall have the option to either (a) cause this Agreement to be canceled or terminated pursuant to applicable provisions of the Agreement; or (b) offer to amend the Agreement to reflect the reduced funding for this Agreement.

12. Non-Assignability. The Contractor shall not assign, sublet, or transfer this Agreement or any interest or obligation in the Agreement without the prior written consent of the City, and then only upon such terms and conditions as City may set forth in writing. Contractor shall be solely responsible for reimbursing subcontractors.

13. Indemnity and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, defend and indemnify City of Stockton and its officers, officials, employees and volunteers from and against any and all liability, loss, damage, expense, costs (including without limitation costs and fees of litigation) of every nature arising out of or in connection with Contractor's performance of work hereunder or its failure to comply with any of its obligations contained in this agreement, except such loss or damage which was caused by the sole negligence or willful misconduct of the City of Stockton. This obligation is independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this agreement. These obligations shall survive the completion or termination of this agreement.

14. Insurance. During the term of this Agreement, Contractor shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached Exhibit B to this Agreement and shall otherwise comply with the other provisions of Exhibit B to this Agreement.

15. Notices. All notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed in Exhibit A to this Agreement.

16. Conformance to Applicable Laws. Contractor shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances. Contractor shall not discriminate in the employment of persons or in the provision of services under this Agreement on the basis of any legally protected classification, including race, color, national origin, ancestry, sex or religion of such person.

17. Licenses, Certifications and Permits. Prior to the City's execution of this Agreement and prior to the Contractor's engaging in any operation or activity set forth in this Agreement, Contractor shall obtain a City of Stockton business license, which must be kept in effect during the term of this Agreement. Contractor covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Agreement. Such licenses, certificates and permits shall be maintained in full force and effect during the term of this Agreement.

18. Records and Audits. Contractor shall maintain all records regarding this Agreement and the services performed for a period of three (3) years from the date that final payment is made. At any time during normal business hours, the records shall be made available to the City to inspect and audit. To the extent Contractor renders services on a time and materials basis, Contractor shall maintain complete and accurate accounting records, in a form prescribed by City or, if not prescribed by City, in accordance with generally accepted accounting principles, such records to include, but not be limited to, payroll records, attendance cards, time sheets, and job summaries.

19. Confidentiality. Contractor shall exercise reasonable precautions to prevent the unauthorized disclosure and use of City reports, information or conclusions.

20. Conflicts of Interest. Contractor covenants that other than this Agreement, Contractor has no financial interest with any official, employee or other representative of the City. Contractor and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner of degree by the performance of Contractor's services under this Agreement. If such an interest arises, Contractor shall immediately notify the City.

21. Waiver. In the event either City or Contractor at any time waive any breach of this Agreement by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Agreement, whether of the same or of any other covenant, condition or obligation. No payment, partial payment, acceptance, or partial acceptance by City shall operate as a waiver on the part of City of any of its rights under this Agreement.

22. Governing Law. California law shall govern any legal action pursuant to this Agreement with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the Federal District Court of California, Eastern District, Sacramento Division.

23. No Personal Liability. No official or employee of City shall be personally liable to Contractor in the event of any default or breach by the City or for any amount due Contractor.

24. Severability. If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction or if it is found in contravention of any federal, state or city statute, ordinance or regulation the remaining provisions of this Agreement or the application thereof shall not be invalidated thereby and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

25. Non-Discrimination. During the performance of this Agreement, Contractor and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state, or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental disability, medical condition (including genetic characteristics), marital status, age, political affiliation, gender identity, gender expression, sex or sexual orientation, family and medical care leave, pregnancy leave, or disability leave. Contractor and its officers, employees, agents, representative or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the City's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12990 (et seq.); California Labor Code sections 1101, 1102 and 1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulation or Code of Federal Regulations. Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d). <http://www.dol.gov/oasam/regs/statutes/titlevi.htm>. The City requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

26. Force Majeure. Neither party shall be responsible for delays or failures in performance resulting from acts of God, acts of civil or military authority, terrorism, fire, flood, strikes, war, epidemics, pandemics, shortage of power or other acts or causes reasonably beyond the control of that party. The party experiencing the force majeure event agrees to give the other party notice promptly following the occurrence of a force majeure event, and to use diligent efforts to re-commence performance as promptly as commercially practicable.

27. Taxes and Charges. Contractor shall be responsible for payment of all taxes, fees, contributions or charges applicable to the conduct of the Contractor's business.

28. Cumulative Rights. Any specific right or remedy provided in this Agreement will not be exclusive but will be cumulative of all other rights and remedies to which may be legally entitled.

29. Advice of Attorney. Each party warrants and represents that in executing this Agreement, it has received independent legal advice from its attorneys or the opportunity to seek such advice.

30. Heading Not Controlling. Headings used in this Agreement are for reference purposes only and shall not be considered in construing this Agreement.

31. Entire Agreement, Integration, and Modification.

31.1 This Agreement represents the entire integrated agreement between Contractor and the City; supersedes all prior negotiations, representations, or agreements, either written or oral between the parties and may be amended only by a written Amendment signed by the Contractor and City Manager.

31.2 All Exhibits to this Agreement and this Agreement are intended to be construed as a single document.

32. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

33. Authority. The individual(s) executing this Agreement represent and warrant that they have the legal capacity and authority to do so on behalf of their respective legal entities.

EXHIBIT D**PROFESSIONAL SERVICES SPECIAL TERMS AND CONDITIONS**

1. Definitions. The following words and phrases have the following meanings for purposes of this Agreement:

1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.

1.2 "Deliverable" means quantifiable goods or services that will be provided upon completion of a project. A deliverable is any tangible material, work or thing delivered by one party to the other, including associated technical documentation. A deliverable can be tangible or intangible parts of the development process, and often are specified functions or characteristics of the project.

2. General. The following terms and conditions are applicable for the Professional Services only. The special conditions shall be read in conjunction with the Standard Agreement, General Terms and Conditions ("GTC") Exhibit C, and all other Exhibits identified in the Standard Agreement.

2.1 Where any portion of the GTC is in conflict to or at variance with any provisions of the Special Conditions of the Agreement, then unless a different intention stated, the provision(s) of the Special Conditions of the Agreement shall be deemed to override the provision(s) of GTC only to the extent that such conflict or variations in the Special Conditions of the Agreement are not possible of being reconciled with the provisions of the GTC.

2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.

3. Time for Performance.

3.1 Contractor shall perform the services according to the schedule contained in Exhibit F.

3.2 Timeliness of Performance i) Contractor shall provide the Services, and Deliverables within the term and within the time limits required under this Agreement, pursuant to the provisions of Exhibit A and Exhibit F. ii) Neither Contractor nor Contractor's agents, employees nor subcontractors are entitled to any damages from the City, nor is any party entitled to be reimbursed by the City, for damages, charges or other

losses or expenses incurred by Contractor by reason of delays or hindrances in the performance of the Services, whether or not caused by the City.

4. Standard of Performance

In addition to Exhibit C, Section 4 and 17, Contractor agrees as follows:

4.1 Contractor's Services shall be performed in accordance with generally accepted professional practices and principles and in a manner consistent with the level of care and skill ordinarily exercised by members of Contractor's profession currently practicing under similar conditions. Contractor shall comply with the profession's standard of performance, applicable laws, regulations, and industry standards. By delivery of completed work, Contractor certifies that the work conforms to the requirements of this Agreement and all applicable federal, state and local laws. If Contractor is retained to perform services requiring a license, certification, registration or other similar requirement under California law, Contractor shall maintain that license, certification, registration or other similar requirement throughout the term of this Agreement.

4.2 Contractor acknowledges that it is entrusted with or has access to valuable and confidential information and records of the City and with respect to that information, Contractor agrees to be held to the standard of care of a fiduciary. Contractor shall assure that all services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Contractor must provide copies of any such licenses. Contractor remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Contractor or its subcontractors or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.

4.3 If Contractor fails to comply with the foregoing standards, Contractor must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Contractor of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Contractor either under this Agreement, at law or in equity.

5. Compensation

5.1 In addition to Section 3 Compensation in Exhibit C – GTC, the Contractor shall be compensated for the services provided under this Agreement as follows:

5.1.1 Contractor shall be compensated for services rendered and accepted under this Agreement and shall be paid monthly, in arrears on a not to exceed

basis, based upon the rates set forth in Exhibit E attached hereto and made a part of this Agreement. Contractor may vary the compensation for each task in Exhibit E provided that the total project compensation listed in Exhibit E and the Standard Agreement is not exceeded.

6. Personnel

6.1 None of the work or services covered by this Agreement shall be subcontracted without the prior written approval of the City. Any work or services subcontracted hereunder shall be specified by written agreement and shall be subject to each provision of this Agreement. Contractor shall provide subcontractor a copy of this fully executed Agreement.

6.2 Contractor agrees to assign only competent personnel according to the reasonable and customary standards of training and experience in the relevant field to perform services under this Agreement. Failure to assign such competent personnel shall constitute grounds for termination of this Agreement. The payment made to Contractor pursuant to this Agreement shall be the full and complete compensation to which Contractor and Contractor's officers, employees, agents, and subcontractors are entitled for performance of any work under this Agreement. Neither Contractor nor Contractor's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. The City will not make any federal or state tax withholdings on behalf of Contractor. The City shall not be required to pay any workers' compensation insurance on behalf of Contractor. Contractor shall pay, when and as due, any and all taxes incurred as a result of Contractor's compensation hereunder, including estimated taxes, and shall provide City with proof of such payments upon request.

6.3 Key Personnel: Because of the special skills required to satisfy the requirements of this Agreement, Contractor shall not reassign or replace key personnel without the written consent of the City, which consent the City will not unreasonably withhold. "key personnel" means those job titles and the persons assigned to those positions in accordance with the provisions of this Agreement. The City may at any time in writing notify Contractor that the City will no longer accept performance of Services under this Agreement by one or more Key Personnel listed. Upon that notice Contractor shall immediately suspend the services of the key person or persons and must replace him or them in accordance with the terms of this Agreement. A list of key personnel is found in Exhibit A, Scope of Services.

7. Reports and Information

Contractor shall at such times and in such forms as the City may require furnish the City such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Agreement, the costs and obligations incurred or to be incurred in connection therewith, and any other matters are covered by this Agreement as specified in Exhibit A and Exhibit E.

8. Findings Confidential

All of the reports, information, data, et cetera, prepared or assembled by the Contractor under this Agreement are confidential and the Contractor agrees that they shall not be made available to any individual or organization without the prior written approval of the City. Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is required by applicable law or by proper legal or governmental authority, is already rightfully in the Contractor's possession without obligation of confidentiality, is independently developed by Contractor outside the scope of this Agreement or is rightfully obtained from third parties. Contractor shall give City prompt notice of any such legal or governmental demand and reasonably cooperate with City in any effort to seek a protective order or otherwise to contest such required disclosure.

9. Copyright

No materials, including but not limited to reports, maps, or documents produced as a result of this Agreement, in whole or in part, shall be available to Contractor for copyright purposes. Any such materials produced as a result of this Agreement that might be subject to copyright shall be the property of the City and all such rights shall belong to the City, and the City shall be sole and exclusive entity who may exercise such rights.

10. Deliverables

Contractor shall prepare or provide to the City various Deliverables. "Deliverables" include work product, such as written reviews, recommendations, reports and analyses, produced by Contractor for the City. The City may reject Deliverables that do not include relevant information or data, or do not include all documents or other materials specified in this Agreement or reasonably necessary for the purpose for which the City made this Agreement or for which the City intends to use the Deliverables. If the City determines that Contractor has failed to comply with the foregoing standards, it has 30 days from the discovery to notify Contractor of its failure. If Contractor does not correct the failure, or if it is possible to do so, within 30 days after receipt of notice from the City specifying the failure, then the City, by written notice, may treat the failure as a default of this Agreement. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City. Such Deliverables will not be considered as satisfying the requirements of this Agreement and partial or incomplete Deliverables in no way relieve Contractor of its commitments under this Agreement.

11. Applicable Laws

Deliverables must conform with all applicable federal, state, and local laws. Such conformity includes compliance with federal sanctions, and Contractor certifies that it has not and will not engage in prohibited transactions with sanctioned persons or entities.

EXHIBIT E

COMPENSATION SCHEDULE

The Contractor shall be compensated for the services identified in Exhibit A, Exhibit C, and Exhibit D to this Agreement as follows:

1. **Project Price**

1.1 The maximum the Contractor shall be paid on this Agreement is \$140,000 (hereafter the “not to exceed” amount). The “not to exceed” amount includes all payments to be made pursuant to this Agreement, including City approved reimbursable expenses, if any. Nothing in this Agreement requires the City to pay for work that does not meet the Standard of Performance identified in Exhibit D section 4 or other requirements of this Agreement.

1.2 The Project Price is composed of the following Tasks:

Task #	Description	Fee ¹
1.0	Conduct all activities required for the preparation and completion of the 2025-2029 Consolidated Plan and first year Annual Action Plan	\$75,000
2.0	Undertake planning activities related to Affirmatively Furthering Fair Housing (AFFH)	\$50,000
3.0	Conduct the four-factor analysis and develop a Language Access Plan (LAP) compliant with State and/or Federal requirements.	Activities incorporated throughout the project
4.0	Conduct all activities required for the development of a Section 3 Plan	\$10,000
5.0	Review the City's Citizen Participation Plan (CPP) and advise on any required updates to meet CPP requirements as specified in 24 CFR Part 91.105	\$5,000

1.3 **Standard Reimbursable Items**: Only the reimbursable items identified in Exhibit A, C, and E (Compensation), shall be compensated to the Contractor. Reimbursable expenses will be reimbursed without markup. Fees plus reimbursable expenses shall not exceed the amount set forth in section 1.1 of this Exhibit and a copy of the original invoice for the items listed in i, ii or iii below shall be attached to the invoice submitted to the City for reimbursement. Payments shall be based upon work documents submitted by the Contractor to the City and accepted by the City as being satisfactory to

¹ Fee outline is for illustrative purposes only. Milestone payments will conform with the completion of Work Schedule Payments outlined in Exhibit F (Timeline).

City's needs. The City shall not pay a markup on any of the items listed in i, ii or iii. Contractor shall be reimbursed the direct expenses, which are the actual cost of the following items that are reasonable, necessary and actually incurred, by the Contractor in connection with the services:

- i. Expenses, fees or charges for printing, reproduction or binding of documents at actual costs with no markup added to the actual cost.
- ii. Any filing fees, permit fees, or other fees paid or advanced by the Contractor at actual costs with no markup added to the actual cost.
- iii. Travel expenses shall be reimbursed in accordance with the City's travel policy, which is incorporated herein by reference. Reimbursement shall be made at actual costs with no markup added to the actual cost. Lodging and meals shall be reimbursed based on the Per Diem rate for the location of travel, as outlined by the U.S. General Services Administration.

1.3 The Contractor shall be entitled to receive payments for its work performed pursuant to the Agreement. The City will pay Contractor based on invoices for acceptable work performed and approved until the "not to exceed" amount is reached. Thereafter, Contractor must complete services based on the Agreement without additional compensation unless there is a material change to the Statement of Work and Scope by a written Amendment.

1.4 If work is completed before the "not to exceed" amount is reached, the Contractor's compensation will be based on the Contractor's invoices previously submitted for acceptable work performed and approved.

1.5 Subcontractor Costs: Compensation for subcontractors shall be limited to the same restrictions imposed on the Contractor. Due to the use of grant administrative funds for the contract, no markup shall be allowed.

2. [n/a]

3. [n/a]

4. **Invoice to Address.** Each invoice submitted shall identify the specific task(s) listed in Exhibit A and this Exhibit, and the completed work product/deliverable for the agreed upon price listed in this Exhibit and Exhibit F (Timeline).

Invoices shall be submitted to the below address:

City of Stockton Economic Development Department
 Attention: Economic Development Department
 400 E. Main Street, 4th Floor
 Stockton, CA 95202

EXHIBIT F**TIMELINE**

1. Contractor shall complete the requested services identified in Exhibit A as follows:

TIMELINE FOR COMPLETION OF WORK

Work Schedule Phases	Phase Cost	Description	Schedule
Phase I: Kick off & Planning	\$30,000	a) Facilitate in-person meeting to finalize deliverables & timeline (City approval 7/31) b) Obtain IDIS access for Grow America staff c) Obtain list of key stakeholders and resources d) Review existing and supplemental data e) Identify areas of alignment between Consolidated Plan, Analysis of Impediments, and current Consolidated Plan work. f) Design Survey	July 2024 – September 2024
Phase II: Community Survey, Community Meetings, Stakeholder Consultations, Focus Groups	\$60,000	a) Deploy the SurveyMonkey-based survey b) Facilitate citizen participation process c) Co-Develop (with the City) a marketing plan for community engagement d) Convene (six) Council District meetings and additional public participation events	September 2024 – October 2024

Work Schedule Phases	Phase Cost	Description	Schedule
Phase III: Draft Deliverables and Public Comments	\$30,000	a) Submit draft Consolidated Plan, Annual Action Plan, Analysis of Impediments, Section 3 Plan, and Language Access Plan to City b) Incorporate City feedback into draft to be published for public comment	October 2024 – December 2024
Phase IV: Final Deliverables and Submission to HUD	\$20,000	a) Grow America will review feedback received from staff and the public b) Feedback will be incorporated into final versions of the Consolidated Plan, Annual Action Plan, Analysis of Impediments, Section 3 Plan, and Language Access Plan for submission to HUD c) Grow America to enter Consolidated Plan and Annual Action Plan into IDIS d) City to verify IDIS entries and submit Consolidated Plan and Annual Action Plan via IDIS	January 2025 – March 2025

APPROVE A RESOLUTION SUPPORTING THE SAN JOAQUIN COUNCIL OF GOVERNMENTS' (SJCOG) PURSUIT OF THE SAN JOAQUIN REGIONAL HOUSING FUND AND CITY OF STOCKTON PARTICIPATION IN PLANNING AND IMPLEMENTATION ACTIVITIES

RECOMMENDATION

It is recommended that the City Council adopt a resolution:

1. Supporting the San Joaquin Council of Governments' (SJCOG) pursuit of the Housing Trust Fund ("San Joaquin Regional Housing Fund Inc.).
2. Approving the City of Stockton's participation in planning and implementation activities of the San Joaquin Regional Housing Fund Inc. to accelerate housing production and housing-related initiatives.

Summary

In October 2023, the San Joaquin Council of Governments' (SJCOG) Board of Directors approved the creation of a 501 (c)(3) non-profit corporation to implement a regional housing trust fund and to develop and submit required documents to the appropriate state and federal agencies. Now known as the San Joaquin Regional Housing Fund Inc., the creation of this regional entity is intended as a tool to accelerate housing production, boost current local housing activities, and leverage other state and federal funding opportunities.

In order to keep the trust fund project moving forward in the short term, the SJCOG Board requests that each member agency adopt a resolution committing to participate in the planning and implementation of the San Joaquin Regional Housing Fund ("Fund"). As the City of Stockton is one of SJCOG's member agencies, it is recommended that City Council adopt a resolution supporting the Fund and approving of the City's participation in planning and implementation activities of the Fund which accelerate housing production and housing-related activities.

DISCUSSION

Background

In 2021, SJCOG received a Regional Early Action Planning (REAP) 1.0 grant, which funded planning activities to lead to more housing construction in San Joaquin County. After discussions with local jurisdictions and stakeholders, SJCOG staff developed four priorities for the REAP 1.0 program. One of the priorities identified was the exploration of a regional housing fund.

REAP 2.0 builds on the success of 2019's REAP 1.0 program but expands the focus by integrating housing and climate goals and allowing for broader planning and implementation investments, including infrastructure that supports future housing development. REAP 2.0 activities must meet multiple state objectives by prioritizing infill development, providing housing for people of all incomes, placing housing in locations with good transportation options to reduce the need to drive, affirmatively furthering fair housing, and accelerating the implementation of existing regional and local plans to achieve these goals.

Following discussions with local jurisdictions and stakeholders, SJCOG staff developed four regional housing priorities for its REAP 2.0 program framework. SJCOG is required by California Department of Housing and Community Development (HCD) to develop regional housing priorities to qualify to receive REAP funds. One of these priorities is the establishment of a regional housing trust fund (RHTF). REAP 2.0 funds will be utilized to advance recommendations from SJCOG's RHTF Feasibility Study. Of the total, \$1 million will be used as "seed" money and/or administrative set-up for the RHTF, depending on the type and amount of philanthropic resources received.

Housing funds (HFs) are typically not the primary funding source for affordable housing. Instead, HFs often offer "gap financing" to fill the void between housing costs and available financing. Housing Trust Funds (HTFs) can offer a flexible form of financing that can be used in a wide range of investment approaches. HF financing investments include grants, low interest loans and credit guarantees. Affordable housing projects that are supported by these investments include new construction, preservation of existing housing, homeless shelters, and permanent supportive housing. Commitment of local resources can often result in making the region more attractive to other potential funders, thereby multiplying the effectiveness of the local dollars over and above the actual investment.

Present Situation

SJCOG is the leading entity in leveraging the ability to access Local Housing Trust Fund (LHTF) dollars, coordinating efforts necessary to obtain the additional match funding. On March 1, 2024, HCD awarded \$10,412,514.62 in grant funds to members through the SJCOG, making a significant milestone in our regional housing efforts. All necessary charitable documents have been developed and filed for the formation of the nonprofit public benefit corporation. Additional actions by SJCOG and the consultant team include:

- Conducting meetings with local affordable housing developers to establish a list of pipeline projects for which additional gap funding is needed.
- Hosting continued meetings with philanthropic organizations, stakeholders, and other potential funders to identify both short-term and potentially long-term funding opportunities and partnerships.
- Submitting a funding ask to the Stockton Housing Innovation Fund (SHIF) program through the San Joaquin Community Foundation (SJCF). Began establishing a non-profit partnership/joint grant application for the Community Economic Mobilization Grant Initiative (CEMI), also through SJCF.

- Developing the HCD LHTF grant application to be prepared for submittal upon release of the NOFO, which is anticipated in July 2024.
- Developing a strategic-long range funding plan to ensure future viability of the regional housing fund program.

Council-approved resolutions are needed at the time of submittal of the HCD LHTF grant application to meet the threshold requirements of the grant.

FINANCIAL SUMMARY

There is no financial impact to the General Fund with this resolution.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION SUPPORTING THE SAN JOAQUIN COUNCIL OF GOVERNMENTS' PURSUIT OF THE SAN JOAQUIN REGIONAL HOUSING FUND AND CITY OF STOCKTON PARTICIPATION IN PLANNING AND IMPLEMENTATION ACTIVITIES

On October 26, 2023, the San Joaquin Council of Governments ("SJCOG") authorized SJCOG staff to form a non-profit public benefit corporation as an eligible regional housing trust fund applicant for available funding and matching grants to expand sources of funding for housing as described in the Guidelines adopted by the California Department of Housing and Community Development in accordance with California Health and Safety Code sections 50842.1 et seq.; and

The San Joaquin Regional Housing Fund (the "Fund") was formed and established in March 2024; and

The Fund's board of directors will be the SJCOG Board of Directors, and will carry out the responsibility for the Fund's governance and administration of the funds allocated and establishing necessary procedures to fulfill the Fund's purpose; and

The specific purpose of the Fund shall be to provide planning, financing, and other services to increase housing opportunities for extremely low-, very low-, low and moderate-income households (including individuals experiencing homelessness) to obtain decent, safe, and sanitary affordable rental and ownership housing throughout San Joaquin County, California; and

The Fund intends to fulfill its purpose through collaboration with local municipal, county and other jurisdictions, as well as the private and philanthropic sectors (collectively referred to as "Collaborators"); and

Collaborators and the Fund will assist in the provision of such planning, services and financing, leveraging and participating in local, state, federal, and private financing programs that assist extremely low-, very low-, low- and moderate-income households (including individuals experiencing homelessness) in obtaining such affordable housing; and

The Fund intends to also engage in other charitable and educational activities associated with this goal as allowed by law; and

SJCOG and participating member agencies, will conduct planning and implementation activities that will accelerate housing production and housing-related initiatives; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY STOCKTON, AS FOLLOWS:

1. Agrees that any participation in any application made by the San Joaquin Regional Housing Fund for available funds will be in a manner consistent with the relevant funding source requirements, public or private, the most current Guidelines adopted by the California Department of Housing and Community Development, when applicable, and San Joaquin Regional Housing Fund requirements.

2. Commits to providing documentation for completed projects that were funded in cooperation with the San Joaquin Housing Fund and other deliverables in a manner consistent with the California Department of Housing and Community Development, or other applicable fund source, and San Joaquin Regional Housing Fund requirements.

3. Agrees that prior to participating in any funding or project in coordination with the San Joaquin Regional Housing Fund that the City Council shall consider for approval a cooperative agreement between the San Joaquin Regional Housing Fund and the City.

4. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, AND ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

AUTHORIZE THE CITY MANAGER TO APPROVE A THREE-YEAR AGREEMENT WITH CSG CONSULTANTS, INC. FOR FIRE PLAN REVIEW SERVICES

RECOMMENDATION

It is recommended that the City Council approve a motion to:

1. Authorize the City Manager to execute a three-year agreement with CSG Consultants, Inc. to provide fire plan review services for an amount not to exceed \$210,000;
2. Approve findings that support an exception to the competitive bidding process; and
3. Authorize the City Manager to take appropriate and necessary actions to carry out the purpose and intent of this motion.

Summary

The Stockton Fire Department (SFD) requires a third-party to provide fire plan review services. On April 11, 2024, the City advertised a Request for Proposal (RFP) for qualified firms to provide fire plan review services. A selection committee evaluated all proposals received and found CSG Consultants, Inc. (CSG) to be the most qualified proponent.

It is recommended that Council approve a motion authorizing the City Manager to execute a three-year agreement with CSG for fire plan review services for a total amount not to exceed \$210,000.

DISCUSSION

Background

SFD's Fire Prevention Division works to reduce fire risk through code enforcement, fire safety education, fire investigation, and special services such as performing fire plan reviews and issuing fire code operational permits. Due to capacity constraints, Fire Prevention outsources fire plan reviews to a qualified consultant.

Fire plan reviews involve the examination and evaluation of building plans to guarantee compliance with fire safety codes, regulations, and standards. These plan reviews are essential for ensuring buildings are designed and constructed with adequate fire safety measures, reducing the risk of fire-related incidents and emergencies, and addressing potential fire hazards or safety concerns early in the planning and construction process. Fire plan reviews play a crucial role in promoting legal compliance with fire codes and regulations and contribute to emergency preparedness by ensuring that buildings are equipped with appropriate fire suppression systems, evacuation routes, and other safety measures.

SFD currently outsources fire plan review services to CSG Consultants, Inc (CSG). The current agreement with CSG expires June 30, 2024. SFD has determined a need to continue to enlist the services of a qualified consultant to provide fire plan review services.

Present Situation

On April 11, 2024, the City advertised an RFP for fire plan review services. On May 2, 2024, three (3) proposals were received from the following firms:

- Shums Coda Consultants (Pleasanton, CA)
- CSG Consultants, Inc. (Sacramento, CA)
- West Coast Code Consultants, Inc. (Kingsburg, CA)

A Selection Committee comprised of Fire Prevention staff evaluated and ranked all proposals based on each firm's qualifications, professional experience, industry expertise, capacity, and proposed price. CSG was determined to be the most qualified proponent.

CSG has a highly experienced and qualified team with a proven track record in conducting thorough and accurate fire plan reviews. Their extensive expertise in local fire codes and regulations positions them as a reliable partner in ensuring compliance and safety. Additionally, CSG has a reputation for delivering high-quality service, consistently providing thorough, accurate, and timely reviews. Furthermore, their significant resources enable them to effectively manage the City's fire plan review needs. CSG can provide onsite staff who are fully immersed in the City's processes, ensuring seamless integration with our existing systems and procedures. CSG has provided plan review services for the SFD since 2012 and their knowledge and familiarity with the City's unique needs enables them to provide responsive and tailored support.

Staff recommend entering into a three-year agreement with CSG for as-needed fire plan review services for a total amount not to exceed \$210,000.

Findings

Pursuant to SMC section 3.68.070, Council may approve findings which support an exception to the competitive bidding process. The proposed findings include:

1. The Fire Prevention Division does not have enough qualified staff available to perform the quantity of fire plan reviews received;
2. Use of the RFP process is appropriate for this agreement because it relies on the evaluation of professional qualifications and performance as the basis for selection of a vendor. Use of these criteria helps ensure selection of a vendor that will provide professional, responsive, and timely service; and
3. CSG Consultants, Inc. received the highest ranking, based on the noted criteria, and was determined to be the most qualified firm for this project.

Staff recommend entering into a three-year agreement with CSG for as-needed fire plan review services for a total amount not to exceed \$210,000.

FINANCIAL SUMMARY

Staff recommend a three-year agreement for an amount not to exceed \$210,000. The Fire Department's annual budget includes an allocation of \$70,000 for plan review services in Fire Prevention Account 4050-000-630006-220-225-20-40-000-000. Costs for the subsequent years will be budgeted in the same account and subject to council approval during the annual budget development process.

Attachment A - Fire Plan Review Services Agreement

CITY OF STOCKTON
STANDARD AGREEMENTAgreement Number:

1. This Agreement is entered into between the City of Stockton ("City") and
CSG Consultants, Inc. ("Contractor") to provide fire plan review services
as set forth in Exhibit A to this Agreement.

2. The term of this Agreement is as follows, unless amended as described in Exhibit A and
Exhibit C section 8:
Commences on: Terminates on: June, 30 2027

3. The maximum not to exceed amount to be paid to Contractor for the term of this Agreement,
including if authorized, reimbursement of expenses, is: \$ 210,000

4. The complete Agreement consists of all the following Agreement documents which by
reference are incorporated and made a part of this Agreement. The parties agree to comply with
the terms and conditions of this Agreement.

- (a) Exhibit A – Statement of Work
- (b) Exhibit B – Insurance
- (c) Exhibit C – General Terms & Conditions
- (d) Exhibit D – Professional Services Special Terms & Conditions
- (e) Exhibit E – Compensation Schedule
- (f) Exhibit F – Timeline
- (g) Exhibit G - Special Funding Terms & Conditions

(If applicable check box) YES ☐

IN WITNESS WHEREOF, the authorized parties have executed this Agreement.

EXHIBIT A
STATEMENT OF WORK

1. Project Objectives

- 1.1 To provide on-site plan review services, on an as-needed basis, as requested by the City.

2. Project Scope

- 2.1 Contractor shall provide on-site plan review services on an as needed basis, as requested by City.
- 2.2 Contractor shall perform off-site digital plan reviews on an as needed basis, as requested by City.
- 2.3 Contractor plan reviews shall include, but are not limited to, fire and life safety, fire department access and water supply, wildland urban interface, fire protection systems, and special hazards for all structures including but not limited to industrial/commercial buildings and single-family and multi-family complexes.
- 2.4 Contractor shall work with City permit technician and City plan check staff to provide an online application for plan submittal, tracking and approval of digital plans.
- 2.5 Contractor shall work with City permit technician and City plan check staff to provide full scanning and archiving services for all plan reviews.
- 2.6 Contractor shall work closely with local developers and other public parties on an as needed basis, as directed by City.

3. On-Site Specifications

- 3.1 Contractor shall work with City permit technician and City plan check staff to enter all electronic plans, documents, and associated exhibits and attachments into the Fire Department record management database.
 - 3.1.1 Contractor shall furnish electronic versions of plan comments conforming to City's established correction list template.
 - 3.1.1.1 Contractor shall incorporate any additional forms utilized by City into the correction comments and returned with appropriate recommendations.
- 3.2 Contractor shall provide electronic plan comments for all digital plan reviews.
- 3.3 Contractor shall work with City permit technician and City plan check staff to deliver plan check comments by email.
 - 3.3.1 Contractor's electronic review process shall be 100% PDF-based with no additional software required to view redlines.
- 3.4 Contractor shall work with City permit technician and City plan check staff to incorporate all required documents generated as a result of a modified method of

construction into the correction comments and returned with any additional feedback.

- 3.5 Contractor shall work with City permit technician and City plan check staff to provide comprehensive up-to-date online status reports for all plan reviews.
- 3.6 Contractor shall enable digital submissions with no size limitations to a web based application to retrieve comments and marked-up digital plans including redlines.
- 3.7 Contractor shall work with City permit technician and City plan check staff to track the status of all submittals and resubmittals until the plans have been approved by City.
- 3.8 Contractor shall make its best effort to meet City requested plan review times for all on-site services.
- 3.9 Contractor turnaround times for off-site services shall be as follows:
 - First Submittal 10 business days
 - First Submittal - Minor Projects 7 business days
 - Second Submittal and Subsequent Submittals 5 business days
 - Accelerated Submittal and Subsequent Submittals 5 business days
- 3.10 Contractor turnaround time may vary with the complexity and magnitude of the project.
- 3.11 Contractor shall be available to meet in-person with City and project stakeholders upon City request.
 - 3.11.1 Contractor or City may choose to utilize video conferencing via Microsoft Teams, Zoom, or other mutually agreed upon platform.
- 3.12 Contractor shall work with City permit technician and City plan check staff to offer pre-design consultation with prospective applicants at no additional cost.

4. Off-Site Specifications

- 4.1 Contractor shall scan all paper plans for building and fire plan review immediately into digital files and store them on Contractor's servers for quick and easy access by both City and Contractor.
 - 4.1.1 Contractor shall furnish electronic versions of plan comments conforming to City's established correction list template.
 - 4.1.1.1 Contractor shall incorporate any additional forms utilized by City into the correction comments and returned with appropriate recommendations.
- 4.2 Contractor shall provide electronic plan comments for all digital plan reviews.
- 4.3 Contractor shall deliver plan check comments by email.

- 4.3.1 Contractor's electronic review process shall be 100% PDF-based with no additional software required to view redlines.
- 4.4 Contractor shall incorporate all required documents generated as a result of a modified method of construction into the correction comments and returned with any additional feedback.
- 4.5 Contractor shall provide comprehensive up-to-date online status reports for all plan reviews.
- 4.6 Contractor shall enable digital submissions with no size limitations to a web based application to retrieve comments and marked-up digital plans including redlines.
- 4.7 Contractor shall track the status of all submittals and resubmittals until the plans have been approved by City.
- 4.8 Contractor shall allow City to check plan review status and comments online to view project documents and plans and communicate with Contractor.
- 4.9 Upon City request, Contractor shall provide electronic versions of digitally scanned plans and all construction-related documents.
- 4.10 Contractor shall coordinate pickup and delivery of plans and other materials to/from City via Contractor personnel or a City approved alternative service at no additional cost to the City.
- 4.11 Contractor shall make its best effort to meet City requested plan review times for all on-site services.
- 4.12 Contractor turnaround times for off-site services shall be as follows
- First Submittal 10 business days
 - First Submittal - Minor Projects 7 business days
 - Second Submittal and Subsequent Submittals 5 business days
 - Accelerated Submittal and Subsequent Submittals 5 business days
- 4.13 Contractor turnaround time may vary with the complexity and magnitude of the project. If a review is anticipated to take longer than the maximum turnaround timing, Contractor shall notify City and negotiate additional time required to ensure an appropriate level of review.
- 4.14 For any required off-site services, the number of working days associated with the plan check turnaround time shall be based on time of project submittal. The first working day shall be the day the project is received by Contractor if submitted by 3:00 PM (PSD. For a project that is received by Contractor after 3:00 PM (PST), the first working day shall be the next business day.
- 4.15 Contractor shall be available for plan check Inquiries anytime during normal business hours via phone or email, Monday through Friday, 8:00 AM to 5:00 PM (PST).

- 4.15.1 Contractor shall make their best effort to respond to City questions or requests no later than the following business day.
- 4.16 Contractor shall be available to meet in-person with City and project stakeholders upon City request.
 - 4.16.1 Contractor or City may choose to utilize video conferencing via Microsoft Teams, Zoom, or other mutually agreed upon platform.
- 4.17 Contractor shall offer pre-design consultation with prospective applicants at no additional cost

5. Internal and External Standards and Guidelines

- 5.1 Contractor shall review all plans and documents for compliance with fire codes, building codes, standards, industry regulations, and all local ordinances, including but not limited to California Fire Code, California Building Code (Volumes 1 and 2), California Residential Code, California Electrical Code, California Plumbing Code, California Mechanical Code, State Historical Building Code, California Health and Safety Code, California Existing Building Code, California Code of Regulations - Title 19, National Fire Protection Association (NFPA) Standards as published and referenced by the California Fire Code, local adopted ordinances and amendments relative to building, fire, and municipal codes, including project Conditions of Approval from other agency departments, divisions, and regulating agencies.
- 5.2 Contractor shall maintain licensed and certified fire plan reviewers.
- 5.3 Contractor shall maintain adequate staffing levels to match or adjust to changes in plan review activity to ensure responsiveness.

6. Notices

Pursuant to Exhibit C – General Terms and Conditions, Paragraph 15 – Notices, the mailing address for all required notices is as follows:

Contractor: CSG Consultants, Inc.
 Attn: George Apple, Fire Serv. Mngr.
 1303 J Street, Suite 270
 Sacramento, CA 95814

City: City of Stockton
 Attn: City Manager
 425 N. El Dorado Street
 Stockton, CA 95202

7. Key Personnel

Cyrus Kianpour - President, CSG Consultants, Inc.
 George Apple - Fire Services Manager, CSG Consultants, Inc.
 Dan Najera - Fire Services Specialist, CSG Consultants, Inc.

8. Option to Renew.

The term of the Agreement may be extended up to two (2) years by a written amendment executed by both parties. However, the total term of the Agreement including the extended term shall not exceed five (5) years.

Exhibit B

Insurance Requirements for Professional Services

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, its agents, representatives, or employees.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **\$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.
2. **Automobile Liability**: Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **\$1,000,000** per accident for bodily injury and property damage.
3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease.
(Not required if Contractor provides written verification it has no employees)
4. **Professional Liability/Errors and Omissions** Insurance appropriate to the Contractor's profession, with limit no less than **\$2,000,000** per occurrence or claim, **\$2,000,000** aggregate.

If the Contractor maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or

operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

For any claims related to this contract, the **Contractor's insurance coverage shall be primary and non-contributory** and at least as broad as ISO CG 20 01 04 13 as respects the City of Stockton, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Umbrella or Excess Policy

The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Contractor's primary and excess liability policies are exhausted.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Self-Insured Retentions

Self-insured retentions must be declared to and approved by the City of Stockton. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds \$25,000 unless approved in writing by City of Stockton. Any and all deductibles and SIRs shall be the sole responsibility of Contractor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. City of Stockton may deduct from any amounts otherwise due Contractor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. City of Stockton reserves the right to obtain a copy of any policies and endorsements for verification.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies (Professional & Pollution only)

If any of the required policies provide claims-made coverage:

1. The Retroactive Date must be shown, and must be before the date of the contract or the beginning of contract work.
2. Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***
3. If coverage is canceled or non-renewed, and not replaced ***with another claims-made policy form with a Retroactive Date prior to*** the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause **and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements.** All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the City of Stockton before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies

of all required insurance policies, including endorsements required by these specifications, at any time. City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Subcontractors

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that City of Stockton is an additional insured on insurance required from subcontractors.

Duration of Coverage

CGL & Excess liability policies **for any construction related work, including, but not limited to, maintenance, service, or repair work**, shall continue coverage for a minimum of 5 years for Completed Operations liability coverage. Such Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

The address for mailing certificates, endorsements and notices shall be:

City of Stockton
 Its Officers, Officials, Employees, and Volunteers
 400 E Main Street, 3rd Floor – HR
 Stockton, CA 95202

EXHIBIT C**GENERAL TERMS AND CONDITIONS**

1. **Goods, Equipment and Services.** Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to City the services described in Exhibit A of the Agreement. Contractor shall provide said services at the time, place and in the manner specified in Exhibit A of the Agreement.

2. **City Assistance, Facilities, Equipment and Clerical Support.** Except as set forth in Exhibit A, Contractor shall, at its sole cost and expense, furnish and maintain all facilities and equipment that may be required for furnishing services pursuant to this Agreement. If applicable, City shall furnish to Contractor only the facilities and equipment listed in Exhibit A to the Agreement.

3. **Compensation.** City shall pay Contractor for services rendered pursuant to this Agreement as described more particularly in Exhibit A and Exhibit E to the Agreement.

3.1 Invoices submitted by Contractor to City must contain a brief description of work performed, time spent and City reference number. Within thirty (30) days of receipt of Contractor's invoice, City will review invoice, and if acceptable make payment on approved invoice.

3.2 Upon completion of work and acceptance by City, Contractor shall have sixty (60) days in which to submit final invoicing for payment. An extension may be granted by City upon receiving a written request thirty (30) days in advance of said time limitation. The City shall have no obligation or liability to pay any invoice for work performed which the Contractor fails or neglects to submit within sixty (60) days, or any extension thereof granted by the City, after the work is accepted by the City.

4. **Sufficiency of Contractor's Work.** All Contractor services, work, and deliverables shall be performed in a good and workmanlike manner with due diligence in accordance with the degree of skill normally exercised by similar contractors supplying services and work of a similar nature, and in conformance with applicable laws, codes and professional standards. Contractor's work shall be adequate and sufficient to meet the purposes of this Agreement.

5. **Ownership of Work.** All reports, work product, all other documents completed or partially completed by Contractor or its approved subcontractors, in performance of this Agreement, and if applicable, drawings, designs, and plan review comments shall become the property of the City. Any and all copyrightable subject matter in all materials is hereby assigned to the City and the Contractor and its approved subcontractors agree to execute any additional documents that may be necessary to evidence such assignment. All materials shall be delivered to the City upon completion or termination of the work under this Agreement. If any materials are lost, damaged or destroyed

before final delivery to the City, the Contractor shall replace them at its own expense. Contractor and its approved subcontractors shall keep materials confidential. Materials shall not be used for purposes other than performance of services under this Agreement and shall not be disclosed to anyone not connected with these services, unless the City provides prior written consent.

6. Timeliness. Time is of the essence in this Agreement. Further, Contractor acknowledges that the failure of Contractor to comply with the time limits described in Exhibit A and Exhibit F may result in economic or other losses to the City.

7. Changes. Both parties to this Agreement understand that it may become desirable or necessary during the term of this Agreement for City to modify the scope of services provided for under this Agreement. Any material extension or change in the scope of work shall be discussed with City and the change and cost shall be memorialized in a written amendment to the original contract prior to the performance of the additional work. Until the amendment is so executed, City will not be responsible to pay any charges Contractor may incur in performing such additional services, and Contractor shall not be required to perform any such additional services.

8. Amendment. No variation of the terms of this Agreement shall be valid unless an amendment is made in writing and signed by both parties.

9. Contractor's Status.

9.1 In performing the obligations set forth in this Agreement, Contractor shall have the status of an independent contractor and Contractor shall not be considered to be an employee of the City for any purpose. All persons working for or under the direction of Contractor are its agents and employees and are not agents or employees of City. Contractor by virtue of this Agreement, has no authority to bind or incur any obligation on behalf of City. Except as expressly provided in Exhibit A, Contractor has no authority or responsibility to exercise any rights or power vested in the City. No agent, officer or employee of the City is to be considered an employee of the Contractor. It is understood by both Contractor and City that this Agreement shall not be construed or considered under any circumstances to create an employer-employee relationship or a joint venture.

9.2 Contractor shall determine the method, details and means of performing the work and services to be provided by Contractor under this Agreement. Contractor shall be responsible to City only for the requirements and results specified in this Agreement and, except as expressly provided in this Agreement, shall not be subjected to City's control with respect to the physical action or activities of Contractor in fulfillment of this Agreement. Contractor has control over the manner and means of performing the services under this Agreement. If necessary, Contractor has the responsibility for employing other persons or firms to assist Contractor in fulfilling the terms and obligations under this Agreement.

9.3 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages, working conditions, discipline, hiring and discharging or any other term of employment or requirements of law shall be determined by the Contractor.

9.4 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's assigned personnel under the terms and conditions of this Agreement.

10. Subcontractor.

10.1 Subcontractors shall not be recognized as having any direct or contractual relationship with City. Contractor shall be responsible for the work of subcontractors, which shall be subject to the provisions of this Agreement. Subcontractors will be provided with a copy of the Agreement and be bound by its terms. Contractor is responsible to City for the acts and omissions of its subcontractors and persons directly or indirectly employed by them.

10.2 If in the performance of this Agreement any third persons are employed by Contractor, such persons shall be entirely and exclusively under the direction, supervision and control of Contractor. All terms of employment including hours, wages, working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by Contractor.

10.3 It is further understood and agreed that Contractor must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Contractor's personnel.

11. Termination.

11.1 Termination for Convenience of City. The City may terminate this Agreement at any time by mailing a notice in writing to Contractor. The Agreement shall then be deemed terminated, and no further work shall be performed by Contractor. If the Agreement is so terminated, the Contractor shall be paid for the work actually completed at the time the notice of termination is received.

11.2 Should either party default in the performance of this Agreement or materially breach any of its provisions, the other party, at that party's option, may terminate this Agreement by giving written notification to the other party.

11.3 Funding- Non-Appropriation. It is mutually understood between the Parties that payment to the Contractor for performance shall be dependent upon the availability of appropriations by the City Council for the purposes of this Agreement. No legal liability on the part of the City for any payment may arise under this Agreement until funds are made available and until the Contractor has received funding availability, which will be

confirmed in writing. If funding for any fiscal year is reduced or deleted, or if the City loses funding for any reason, the City, in its sole discretion, shall have the option to either (a) cause this Agreement to be canceled or terminated pursuant to applicable provisions of the Agreement; or (b) offer to amend the Agreement to reflect the reduced funding for this Agreement.

12. Non-Assignability. The Contractor shall not assign, sublet, or transfer this Agreement or any interest or obligation in the Agreement without the prior written consent of the City, and then only upon such terms and conditions as City may set forth in writing. Contractor shall be solely responsible for reimbursing subcontractors.

13. Indemnity and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, defend at its own expense, and indemnify the City of Stockton, its officers, employees, agents, and volunteers, against any and all liability, claims, losses, damages, or expenses, including reasonable attorney's fees, arising from all acts or omissions of contractor or its officers, agents, or employees in rendering services under this contract; excluding, however, such liability, claims, losses, damages, or expenses arising from the City of Stockton's sole negligence or willful acts. The duty to defend and the duty to indemnify are separate and distinct obligations. The indemnification obligations of this section shall survive the termination of this agreement.

14. Insurance. During the term of this Agreement, Contractor shall maintain in full force and effect at its own cost and expense the insurance coverage as set forth in the attached Exhibit B to this Agreement and shall otherwise comply with the other provisions of Exhibit B to this Agreement.

15. Notices. All notices herein required shall be in writing and shall be sent by certified or registered mail, postage prepaid, addressed in Exhibit A to this Agreement.

16. Conformance to Applicable Laws. Contractor shall comply with all applicable Federal, State, and Municipal laws, rules, and ordinances. Contractor shall not discriminate in the employment of persons or in the provision of services under this Agreement on the basis of any legally protected classification, including race, color, national origin, ancestry, sex or religion of such person.

17. Licenses, Certifications and Permits. Prior to the City's execution of this Agreement and prior to the Contractor's engaging in any operation or activity set forth in this Agreement, Contractor shall obtain a City of Stockton business license, which must be kept in effect during the term of this Agreement. Contractor covenants that it has obtained all certificates, licenses, permits and the like required to perform the services under this Agreement. Such licenses, certificates and permits shall be maintained in full force and effect during the term of this Agreement.

18. Records and Audits. Contractor shall maintain all records regarding this Agreement and the services performed for a period of three (3) years from the date that final payment is made. At any time during normal business hours, the records shall be

made available to the City to inspect and audit. To the extent Contractor renders services on a time and materials basis, Contractor shall maintain complete and accurate accounting records, in a form prescribed by City or, if not prescribed by City, in accordance with generally accepted accounting principles, such records to include, but not be limited to, payroll records, attendance cards, time sheets, and job summaries.

19. Confidentiality. Contractor shall exercise reasonable precautions to prevent the unauthorized disclosure and use of City reports, information or conclusions.

20. Conflicts of Interest. Contractor covenants that other than this Agreement, Contractor has no financial interest with any official, employee or other representative of the City. Contractor and its principals do not have any financial interest in real property, sources of income or investment that would be affected in any manner of degree by the performance of Contractor's services under this Agreement. If such an interest arises, Contractor shall immediately notify the City.

21. Waiver. In the event either City or Contractor at any time waive any breach of this Agreement by the other, such waiver shall not constitute a waiver of any other or succeeding breach of this Agreement, whether of the same or of any other covenant, condition or obligation. No payment, partial payment, acceptance, or partial acceptance by City shall operate as a waiver on the part of City of any of its rights under this Agreement.

22. Governing Law. California law shall govern any legal action pursuant to this Agreement with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the Federal District Court of California, Eastern District, Sacramento Division.

23. No Personal Liability. No official or employee of City shall be personally liable to Contractor in the event of any default or breach by the City or for any amount due Contractor.

24. Severability. If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction or if it is found in contravention of any federal, state or city statute, ordinance or regulation the remaining provisions of this Agreement or the application thereof shall not be invalidated thereby and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

25. Non-Discrimination. During the performance of this Agreement, Contractor and its officers, employees, agents, representatives or subcontractors shall not unlawfully discriminate in violation of any federal, state, or local law, rule or regulation against any employee, applicant for employment or person receiving services under this Agreement because of race, religion, color, national origin, ancestry, physical or mental disability, medical condition (including genetic characteristics), marital status, age, political affiliation, gender identity, gender expression, sex or sexual orientation, family and

medical care leave, pregnancy leave, or disability leave. Contractor and its officers, employees, agents, representative or subcontractors shall comply with all applicable Federal, State and local laws and regulations related to non-discrimination and equal opportunity, including without limitation the City's nondiscrimination policy; the Fair Employment and Housing Act (Government Code sections 12990 (et seq.); California Labor Code sections 1101, 1102 and 1102.1; the Federal Civil Rights Act of 1964 (P.L. 88-352), as amended; and all applicable regulations promulgated in the California Code of Regulation or Code of Federal Regulations. Title VI of the Civil Rights Act of 1964 requires that "no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42 USC Section 2000d). <http://www.dol.gov/oasam/regs/statutes/titlevi.htm>. The City requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

26. Force Majeure. Neither party shall be responsible for delays or failures in performance resulting from acts of God, acts of civil or military authority, terrorism, fire, flood, strikes, war, epidemics, pandemics, shortage of power or other acts or causes reasonably beyond the control of that party. The party experiencing the force majeure event agrees to give the other party notice promptly following the occurrence of a force majeure event, and to use diligent efforts to re-commence performance as promptly as commercially practicable.

27. Taxes and Charges. Contractor shall be responsible for payment of all taxes, fees, contributions or charges applicable to the conduct of the Contractor's business.

28. Cumulative Rights. Any specific right or remedy provided in this Agreement will not be exclusive but will be cumulative of all other rights and remedies to which may be legally entitled.

29. Advice of Attorney. Each party warrants and represents that in executing this Agreement, it has received independent legal advice from its attorneys or the opportunity to seek such advice.

30. Heading Not Controlling. Headings used in this Agreement are for reference purposes only and shall not be considered in construing this Agreement.

31. Entire Agreement, Integration, and Modification.

31.1 This Agreement represents the entire integrated agreement between Contractor and the City; supersedes all prior negotiations, representations, or agreements, either written or oral between the parties and may be amended only by a written Amendment signed by the Contractor and City Manager.

31.2 All Exhibits to this Agreement and this Agreement are intended to be construed as a single document.

32. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. All counterparts shall be construed together and shall constitute one agreement.

33. Authority. The individual(s) executing this Agreement represent and warrant that they have the legal capacity and authority to do so on behalf of their respective legal entities.

EXHIBIT D

PROFESSIONAL SERVICES SPECIAL TERMS AND CONDITIONS

1. Definitions. The following words and phrases have the following meanings for purposes of this Agreement:

1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.

1.2 "Deliverable" means quantifiable goods or services that will be provided upon completion of a project. A deliverable is any tangible material, work or thing delivered by one party to the other, including associated technical documentation. A deliverable can be tangible or intangible parts of the development process, and often are specified functions or characteristics of the project.

2. General. The following terms and conditions are applicable for the Professional Services only. The special conditions shall be read in conjunction with the Standard Agreement, General Terms and Conditions ("GTC") Exhibit C, and all other Exhibits identified in the Standard Agreement.

2.1 Where any portion of the GTC is in conflict to or at variance with any provisions of the Special Conditions of the Agreement, then unless a different intention stated, the provision(s) of the Special Conditions of the Agreement shall be deemed to override the provision(s) of GTC only to the extent that such conflict or variations in the Special Conditions of the Agreement are not possible of being reconciled with the provisions of the GTC.

2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.

3. Time for Performance.

3.1 Contractor shall perform the services according to the schedule contained in Exhibit F.

3.2 Timeliness of Performance i) Contractor shall provide the Services, and Deliverables within the term and within the time limits required under this Agreement, pursuant to the provisions of Exhibit A and Exhibit F. ii) Neither Contractor nor Contractor's agents, employees nor subcontractors are entitled to any damages from the City, nor is any party entitled to be reimbursed by the City, for damages, charges or other

losses or expenses incurred by Contractor by reason of delays or hindrances in the performance of the Services, whether or not caused by the City.

4. Standard of Performance

In addition to Exhibit C, Section 4 and 17, Contractor agrees as follows:

4.1 Contractor's Services shall be performed in accordance with generally accepted professional practices and principles and in a manner consistent with the level of care and skill ordinarily exercised by members of Contractor's profession currently practicing under similar conditions. Contractor shall comply with the profession's standard of performance, applicable laws, regulations, and industry standards. By delivery of completed work, Contractor certifies that the work conforms to the requirements of this Agreement and all applicable federal, state and local laws. If Contractor is retained to perform services requiring a license, certification, registration or other similar requirement under California law, Contractor shall maintain that license, certification, registration or other similar requirement throughout the term of this Agreement.

4.2 Contractor acknowledges that it is entrusted with or has access to valuable and confidential information and records of the City and with respect to that information, Contractor agrees to be held to the standard of care of a fiduciary. Contractor shall assure that all services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Contractor must provide copies of any such licenses. Contractor remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Contractor or its subcontractors or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.

4.3 If Contractor fails to comply with the foregoing standards, Contractor must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Contractor of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Contractor either under this Agreement, at law or in equity.

5. Compensation

5.1 In addition to Section 3 Compensation in Exhibit C – GTC, the Contractor shall be compensated for the services provided under this Agreement as follows:

5.1.1 Contractor shall be compensated for services rendered and accepted under this Agreement and shall be paid monthly, in arrears on a not to exceed

basis, based upon the rates set forth in Exhibit E attached hereto and made a part of this Agreement. Contractor may vary the compensation for each task in Exhibit E provided that the total project compensation listed in Exhibit E and the Standard Agreement is not exceeded.

6. Personnel

6.1 None of the work or services covered by this Agreement shall be subcontracted without the prior written approval of the City. Any work or services subcontracted hereunder shall be specified by written agreement and shall be subject to each provision of this Agreement. Contractor shall provide subcontractor a copy of this fully executed Agreement.

6.2 Contractor agrees to assign only competent personnel according to the reasonable and customary standards of training and experience in the relevant field to perform services under this Agreement. Failure to assign such competent personnel shall constitute grounds for termination of this Agreement. The payment made to Contractor pursuant to this Agreement shall be the full and complete compensation to which Contractor and Contractor's officers, employees, agents, and subcontractors are entitled for performance of any work under this Agreement. Neither Contractor nor Contractor's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. The City will not make any federal or state tax withholdings on behalf of Contractor. The City shall not be required to pay any workers' compensation insurance on behalf of Contractor. Contractor shall pay, when and as due, any and all taxes incurred as a result of Contractor's compensation hereunder, including estimated taxes, and shall provide City with proof of such payments upon request.

6.3 Key Personnel: Because of the special skills required to satisfy the requirements of this Agreement, Contractor shall not reassign or replace key personnel without the written consent of the City, which consent the City will not unreasonably withhold. "key personnel" means those job titles and the persons assigned to those positions in accordance with the provisions of this Agreement. The City may at any time in writing notify Contractor that the City will no longer accept performance of Services under this Agreement by one or more Key Personnel listed. Upon that notice Contractor shall immediately suspend the services of the key person or persons and must replace him or them in accordance with the terms of this Agreement. A list of key personnel is found in Exhibit A, Scope of Services.

7. Reports and Information

Contractor shall at such times and in such forms as the City may require furnish the City such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Agreement, the costs and obligations incurred or to be incurred in connection therewith, and any other matters are covered by this Agreement as specified in Exhibit A and Exhibit E.

8. Findings Confidential

All of the reports, information, data, et cetera, prepared or assembled by the Contractor under this Agreement are confidential and the Contractor agrees that they shall not be made available to any individual or organization without the prior written approval of the City. Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is required by applicable law or by proper legal or governmental authority, is already rightfully in the Contractor's possession without obligation of confidentiality, is independently developed by Contractor outside the scope of this Agreement or is rightfully obtained from third parties. Contractor shall give City prompt notice of any such legal or governmental demand and reasonably cooperate with City in any effort to seek a protective order or otherwise to contest such required disclosure.

9. Copyright

No materials, including but not limited to reports, maps, or documents produced as a result of this Agreement, in whole or in part, shall be available to Contractor for copyright purposes. Any such materials produced as a result of this Agreement that might be subject to copyright shall be the property of the City and all such rights shall belong to the City, and the City shall be sole and exclusive entity who may exercise such rights.

10. Deliverables

Contractor shall prepare or provide to the City various Deliverables. "Deliverables" include work product, such as written reviews, recommendations, reports and analyses, produced by Contractor for the City. The City may reject Deliverables that do not include relevant information or data, or do not include all documents or other materials specified in this Agreement or reasonably necessary for the purpose for which the City made this Agreement or for which the City intends to use the Deliverables. If the City determines that Contractor has failed to comply with the foregoing standards, it has 30 days from the discovery to notify Contractor of its failure. If Contractor does not correct the failure, or if it is possible to do so, within 30 days after receipt of notice from the City specifying the failure, then the City, by written notice, may treat the failure as a default of this Agreement. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City. Such Deliverables will not be considered as satisfying the requirements of this Agreement and partial or incomplete Deliverables in no way relieve Contractor of its commitments under this Agreement.

11. Applicable Laws

Deliverables must conform with all applicable federal, state, and local laws. Such conformity includes compliance with federal sanctions, and Contractor certifies that it has not and will not engage in prohibited transactions with sanctioned persons or entities.

EXHIBIT E

COMPENSATION SCHEDULE

The Contractor shall be compensated for the services identified in Exhibit A, Exhibit C, and Exhibit D to this Agreement as follows:

1. Project Price

1.1 The maximum the Contractor shall be paid on this Agreement is **\$210,000** (hereafter the “not to exceed” amount). The “not to exceed” amount includes all payments to be made pursuant to this Agreement, including City approved reimbursable expenses, if any. Nothing in this Agreement requires the City to pay for work that does not meet the Standard of Performance identified in Exhibit D section 4 or other requirements of this Agreement.

1.2 Standard Reimbursable Items: Only the reimbursable items identified in Exhibit A, C, and D (Compensation), shall be compensated to the Contractor. Reimbursable expenses will be reimbursed without markup. Fees plus reimbursable expenses shall not exceed the amount set forth in section 1.1 of this Exhibit and a copy of the original invoice for the items listed in i, ii or iii below shall be attached to the invoice submitted to the City for reimbursement. Payments shall be based upon work documents submitted by the Contractor to the City and accepted by the City as being satisfactory to City’s needs. The City shall not pay a markup on any of the items listed in i, ii or iii. Additionally, items such a telephone, fax, postage or freight are already included in the billable hourly rate. Contractor shall be reimbursed the direct expenses, which are the actual cost of the following items that are reasonable, necessary and actually incurred, by the Contractor in connection with the services:

- i. Expenses, fees or charges for printing, reproduction or binding of documents at actual costs with no markup added to the actual cost.
- ii. Any filing fees, permit fees, or other fees paid or advanced by the Contractor at actual costs with no markup added to the actual cost.
- iii. Travel expenses shall be reimbursed in accordance with the City’s travel policy, which is incorporated herein by reference. Reimbursement shall be made at actual costs with no markup added to the actual cost.

1.3 The Contractor shall be entitled to receive payments for its work performed pursuant to the Agreement. The City will pay Contractor based on invoices for acceptable work performed and approved until the “not to exceed” amount is reached.

1.4 If work is completed before the “not to exceed” amount is reached, the Contractor’s compensation will be based on the Contractor’s invoices previously submitted for acceptable work performed and approved.

2. **Hourly Rates.** The following is a list of hourly billable rates that Contractor shall apply for services requested of the Contractor as described in Exhibit A of this Agreement.

Task	Description	Hourly Rate
1	Fire Plan Review	\$145/hr
2	Fire Plan Review – Fire Protection Engineer	\$250/hr
3	Expedited Plan Review	\$217.50/hr
4	Expedited Plan Review – Fire Protection Engineer	\$375/hr
TOTAL Not-to-Exceed		\$210,000

3. **Annual Rate Adjustment.**

- 3.1 The Contractor's hourly rate shall be subject to an annual adjustment on July 1st of each year (the "Adjustment Date") following the contract start year.
- 3.2 The hourly rate adjustment shall be based on the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), West Region, as published by the U.S. Bureau of Labor Statistics (the "CPI Index").
- 3.3 The percentage change in the CPI Index shall be calculated by comparing the CPI Index for the month of May immediately preceding the Adjustment Date with the CPI Index for the month of May in the previous year.
- 3.4 The Contractor's hourly rate shall be increased by a percentage equal to the percentage change in the CPI Index, subject to a minimum increase of 0% and a maximum increase of 5%.
- 3.5 The Contractor shall provide written notice, via email, to the City of the adjusted hourly rate at least 30 days prior to the Adjustment Date.
 - 3.5.1 If the Contractor fails to provide the required written notice to the City at least 30 days prior to the Adjustment Date, the Contractor forfeits the right to increase the hourly rate for that year. The Contractor may only adjust the hourly rate on the following year's Adjustment Date, subject to the same notification requirements.
- 3.6 The adjusted hourly rate shall take effect on the Adjustment Date and shall remain in effect until the next Adjustment Date, unless otherwise modified by mutual agreement of the parties.

4. **Invoice to Address.** Each invoice submitted shall identify the task(s) listed in this Exhibit for the agreed upon price listed in this Exhibit. Invoices shall be submitted electronically through the City's Vendor Self-Service portal or by emailing a copy of the invoice to fdinvoices@stocktonca.gov.

APPROVE RESOLUTION TO APPROVE THE ADOPTION OF THE PUBLICLY AVAILABLE CITY-WIDE SALARY AND PAY SCHEDULE AS REQUIRED BY CALPERS FOR FISCAL YEAR 2024-2025

RECOMMENDATION

It is recommended that the City Council adopt a resolution approving a publicly available pay schedule effective July 1, 2024, to provide comprehensive information on salary compensation used to determine pension amounts in retirement for all City of Stockton job classifications and make the document available on the City's website.

Summary

As a contributing member of the California Public Employees' Retirement System (CalPERS), the City of Stockton is subject to statutory and regulatory requirements for Public Agencies. The Public Employees' Retirement Law (PERL), the Public Employees' Pension Reform Act of 2013 (PEPRA), and the California Code of Regulations (CCR) require that public agencies contracting with CalPERS adopt a publicly available pay schedule to provide the base information for determining pensionable compensation. The publicly available pay schedule is required to be duly approved and adopted by the governing body and made available to the public.

DISCUSSION

Background

CalPERS requires that only compensation earned as defined in Government Code Section 20636 and corresponding regulations be reported to CalPERS and considered in calculating retirement benefits. To determine the amount of "compensation earnable", a member's pay rate is limited to the amount identified on a publicly available pay schedule, 2 CCR 570.5 requires that a pay schedule must have the following:

- Be duly approved and adopted by the employer's governing body in accordance with requirement of applicable public meeting laws;
- Identifies the position title for every employee position;
- Shows the pay rate as a single amount or multiple amounts within a range for each identified position;
- Indicates the time base, including but not limited to whether the time base is hourly, daily, bi-weekly, monthly, bi-monthly or annually;

- Be posted at the office of the employer or be immediately accessible and available for public review from the employer during normal business hours or posted on the employer's website;
- Indicates an effective date and date of any revisions;
- Is retained by the employer and available for public inspection for not less than five years;
- Not reference another document in lieu of disclosing the pay rate.

Present Situation

Anytime new Memorandum of Understanding (MOU) agreements are negotiated or when wage rate/range adjustments or classification title changes are approved, staff will amend the pay schedule for City Council's consideration and approval if necessary.

FINANCIAL SUMMARY

There is no financial impact as a result of adopting this resolution.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING ADOPTION OF THE PUBLICLY AVAILABLE CITY-WIDE SALARY AND PAY SCHEDULE AS REQUIRED BY CALPERS FOR FISCAL YEAR 2024-2025

The City of Stockton ("City") contracts with the California Public Employees' Retirement System ("CalPERS") to provide retirement benefits for its employees; and

California Code of Regulations, Title 2, section 570.5 requires governing bodies of local agencies contracting with CalPERS to approve and adopt a publicly available pay schedule in accordance with public meeting laws; and

The pay schedule must identify each position by title, the individual pay rate amount or ranges for that position, and the time base upon which the amounts are based; and

The City Council of the City now desires to amend the pay schedule in accordance with the requirements of California Code of Regulations, Title 2, section 570.5 to reflect changes made to certain salaries which will become effective on July 1, 2024; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

SECTION 1. That the City-wide Salary and Pay Schedule contained in Exhibit 1 attached hereto and made a part hereof, is hereby adopted and amended in accordance with the requirements of California Code of Regulations, Title 2, section 570.5 effective upon the City Council's approval of Amendment to the Schedule of Salary for the Stockton City Employees' Association (SCEA), Mid-Management/Supervisory Level (B&C), Operations and Maintenance (O&M), Trades and Maintenance (T&M), Water Supervisory Unit, Stockton Fire Management Unit, Stockton Firefighters Local 456 (Fire), Stockton Police Management Association (SPMA), Stockton Police Officers' Association (SPOA), and Unrepresented Management/Confidential and Law Employees.

//
//
//
//
//
//
//

SECTION 2. That the City-wide Salary and Pay Schedule will be made available for public viewing via the City website for no less than five (5) years.

PASSED, APPROVED and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

2024

SALARY SCHEDULE

(Revised July 1, 2024)

III. Salary Provisions

The City Manager is authorized to make adjustments in classifications, including salary and benefit adjustments, to ensure comparability with similar classifications to maintain equity in the City's salary schedules as recommended by the Human Resources Department classification studies and reviews, and to incorporate changes into the Salary Schedule, as appropriate (City Council Resolution No. 2019-06-18-1502 dated June 18, 2019).

IV. Special Salary Provisions

The City Manager is authorized to fix the compensation of consultants rendering professional services, non-civil service grant funded positions, and part-time hourly employees rendering temporary service, when the City Manager deems necessary and in the best interest of the City of Stockton, provided that the compensation allowed does not, in the aggregate, exceed the total sum for professional and consultant fees in the annual budget of the City of Stockton, or funds granted to the City or by other political jurisdictions for projects upon which said professional or consultant is employed. Persons employed under these special provisions shall receive no fringe benefits except those mandated employer costs or as required by contract or grant specifications.

61G	Transportation Officer	\$35.45

V. Other Provisions

"Y" Rate - When an employee's job classification is changed to a lower paid job classification as the result of a classification study or other action, the employee may be placed on a "Y" rate. A "Y" rate means that the monthly base compensation for the employee shall remain in effect until such time as further changes in the salary range of the new classification exceeds the "Y" rate.

VI. Addendum

Effective July 1, 2024, the City of Stockton Salary Schedule reflects a base salary increase of three percent (3%) COLA and Market Adjustments for certain classifications in the Stockton City Employees' Association (SCEA) Unit, the Mid-Management/ Supervisory Level (B&C) Unit, and Unrepresented Management/Confidential and Law Employees' Compensation Plan, in accordance with City Council Resolution 2023-08-22-1210 adopted on August 22, 2023.

Effective July 1, 2024, the City of Stockton Salary Schedule reflects a base salary increase of two percent (2%) COLA and two percent (2%) Market Adjustment for classifications in the Firefighters' Local 456 Management Unit and the Fire Management Unit, in accordance with City Resolution 2022-07-12-1206 adopted on July 12, 2022, and amended by Resolution 2022-07-26-1222 on July 26, 2022.

Effective July 1, 2024, the City of Stockton Salary Schedule reflects a base salary increase of two percent (2%) COLA and two percent (2%) Market Adjustment for classifications in the Stockton Police Officers Association Unit and the Stockton Police Management Unit, in accordance with City Resolution 2022-07-12-1206 adopted on July 12, 2022, and amended by Resolution 2022-07-26-1222 on July 26, 2022.

Effective July 1, 2024, the City of Stockton Salary Schedule reflects a base salary increase of three percent (3%) COLA for classifications in the Water Supervisory Unit, in accordance with City Council Resolution 2023-09-12-1203, adopted on September 12, 2023.

City of Stockton

Legislation Text

File #: 24-0643, Version: 1

APPROVE MOTION TO EXECUTE A ONE-YEAR COOPERATIVE/PIGGYBACK PURCHASE AGREEMENT, WITH TWO (2) ADDITIONAL ONE (1) YEAR OPTIONS TO EXTEND WITH CITY OF FREMONT FOR PEREGRINE IN AN AMOUNT NOT TO EXCEED \$233,500

RECOMMENDATION

It is recommended that the City Council approve a motion to:

1. Authorize the City Manager to execute a one-year Cooperative/Piggyback Purchase Agreement with two (2) one (1) year options to extend between the City of Stockton and Peregrine for real time data visualization platform to integrate a broad range of current and evolving technologies not to exceed \$233,500;
2. Approve findings pursuant to Stockton Municipal Code section 3.68.070 in support of an exception to the competitive bidding process; and
3. It is further recommended that the City Manager is hereby authorized and directed to make any and all expenditures and appropriations on behalf of the City as appropriate and necessary to carry out the purpose and intent of this motion.

Summary

Staff recommend a cooperative/piggyback purchase agreement with Peregrine for a one-year Cooperative/Piggyback Purchase Agreement with two (2) one (1) year options to extend, not to exceed \$233,500, to create a comprehensive view for the Stockton Police Department (SPD). Peregrine provides a powerful solution to address the demand for increased transparency by enabling staff to more efficiently respond to Public Records Act requests, subpoenas, and the public demand for meaningful fact-based information related to policing (i.e., informal and formal public contacts, community engagement, deployment of resources, crime trends, policies and procedures, use of force, etc.). Funding for the Agreement was included in the award for AB 109 Funding of the Community Corrections Partnership Task Force (CCP Taskforce). SPD is seeking Council approval for a one-year cooperative/piggyback purchase agreement (Attachment A) with two (2) one (1) year options to extend with the City of Fremont for Peregrine in an amount not to exceed \$233,500.

DISCUSSION

Background

The SPD Partnership with San Joaquin County for CCP Task Force was approved by Council on May 21, 2024, by Motion 2024-05-21-1208. SPD was awarded the amount of \$3,537,691 in revenues and expenditures for the Police Grants and Special Programs CCP Task Force, allowing the SPD the

ability to purchase critical software programs. Peregrine provides a platform that integrates all data, from incoming 911 calls to nearby community cameras, which will provide greater awareness and intelligence to responding officers, improving situational awareness and safety. Peregrine is an advanced analytic platform that provides a single point of access to view and analyze large-scale, real-time data from multiple data sources. The software performs several critical functionalities, including data integration, search and information retrieval, advanced analytics, data management, collaboration, access control, and security.

Present Situation

The SPD currently uses multiple data systems for its daily operations. Many of these systems are not linked and require a significant amount of time, training, and effort to cross analyze case-related data and effectively investigate crime trends. None of these systems allow the department to both proactively understand and respond to public safety concerns in real time. Peregrine Technologies provides a one-stop solution to data integration through their proprietary software that allows all personnel to access multiple databases through one useful, actionable portal. Peregrine will integrate data from the Computer Aided Dispatch (CAD) data, Records Management Systems (RMS) data, body camera footage, automatic license plate reader information, and other evidence systems. This will create a comprehensive view to easily gain immediate, real-time access to virtually all of Stockton's Public Safety information.

Currently, the process of critically analyzing data and producing meaningful reports is primarily done manually. This is extremely inefficient and costly. Peregrine Technologies provides a powerful, unique solution that allows for intelligent analysis and reporting capabilities across all platforms and applications currently utilized by the Stockton Police Department. Peregrine does not create or bring any new data to the city; rather, it utilizes data from systems the city owns and makes it quickly functional. In addition to significant improvements to police operations, the system will also act as a workforce multiplier by creating operational efficiencies, particularly regarding crime stat reporting and real-time investigative tools. This is now a cumbersome manual process involving many individuals in various roles.

Peregrine provides a powerful solution to address the demand for increased transparency by enabling staff to more easily respond to Public Records Act requests, subpoenas, and the public demand for meaningful fact-based information related to policing (i.e., informal and formal public contacts, community engagement, deployment of resources, crime trends, policies and procedures, use of force, etc.).

The cost for Peregrine Technologies' hosted system with data integration services is \$233,500 for a one-year contract. The department also requests the option to renew for two additional one-year terms.

Findings

Stockton Municipal Code section 3.68.070 provides for an exception to the competitive bidding requirements in cases wherein the City Council has made findings that support and justify the purchase via a sole source vendor.

Findings to support the purchase are as follows:

1. Peregrine offers proven, pre-built connectors that allow for seamless integration with critical existing SPD systems such as Central Square CAD, Central Square RMS, Axon/evidence.com, as well as City automated license plate readers (ALPR) through Vigilant and Flock, eliminating the need to develop and maintain interfaces between Peregrine and SPD source systems.
2. Peregrine offers the only solution on the market that offers a fully integrated set of user-facing applications for search, map-based analysis, link analysis, reporting, and dashboarding that allow for seamless movement of data between those applications without the need to export and import data manually.
3. Peregrine meets and exceeds all standards and controls set forth in the most current Criminal Justice Information Security (CJIS) policies.

FINANCIAL SUMMARY

The total proposed cost not to exceed is \$233,500 one-year Cooperative/Piggyback Purchase Agreement with two (2) one (1) year options to extend with Peregrine. Funding is included in the FY 2024-25 AB109 Community Corrections Partnership Task Force Grant Project GL # 3518-316-650002-260-261-20-35-000-000-.

Attachment A - Peregrine Cooperative Piggyback Purchase Agreement

COOPERATIVE/PIGGYBACK PURCHASE AGREEMENT

AGREEMENT SUMMARY:

1. Cooperative/Piggyback Name:	City of Fremont
2. Contractor:	Peregrine Technologies, Inc. Carahsoft Technology Corp.
3. Cooperative Agency Agreement Name and Agreement Number:	Peregrine Technologies, Inc. Carahsoft Technology Corp. 21-0113
4. Cooperative Agency Initial Agreement Term:	Start Date: March 16, 2021 End Date: March 16, 2024
5. Cooperative Agency's Agreement-Options to extend:	Option to extend two additional years for a five-year contract not-to-exceed. Year six and beyond shall not exceed a 5% annual increase.
6. Cooperative Agency Amended Term:	Amendment 1 Two-year extension set to expire March 16, 2026
7. Cooperative Agency Remaining Options to Renew:	Year six and beyond shall not exceed a 5% annual increase.
8. City of Stockton Cooperative Purchase Agreement Term:	Start Date: August 1, 2024 End Date: August 1, 2025
9. City of Stockton Cooperative/ Piggyback Purchase Agreement Amount:	Not to Exceed \$700,500 for the term of the Agreement.

AGREEMENT

The City of Stockton, a California municipal corporation on behalf of itself and its associated entities ("City"), and the above-named Contractor ("Contractor"), do hereby agree that City shall be granted the pricing, terms, and conditions under the above referenced Peregrine Technologies, Inc. ("COOP") as such may be amended from time to time. The COOP and associated documents referenced in the agreement are incorporated herein as Exhibit A to this City Cooperative/Piggyback Purchase Agreement ("Agreement").

Contractor shall grant such pricing, terms, and conditions to City for all procurements of goods and services, whether taking place on a City purchase order, purchasing card (credit card), or other purchasing modality, whether via telephone, via the Contractor website, or via direct purchase at a Contractor retail location.

1. **Agreement Term:** The Term of this Agreement shall remain in effect from date of the signing of this Agreement through August 1, 2025 unless terminated earlier by the City. If the Cooperative/Piggyback Agency extends the COOP with Contractor by a written amendment, the City has the option to extend the term of this Agreement by written amendment not to go beyond the term stated in the COOP fully executed amendment.

2. **Insurance and Hold Harmless:** In addition to the pricing, terms and conditions stated in the COOP and the associated documents incorporated herein as Exhibit A, Contractor shall, at Contractor's sole cost and expense and for the full term of the Agreement or any extension thereof, obtain and maintain at least all the insurance requirements listed in attached Exhibit B.

To the fullest extent permitted by law, Contractor shall hold harmless, defend and indemnify City of Stockton and its officers, officials, employees and volunteers from and against any and all liability, loss, damage, expense, costs (including without limitation costs and fees of litigation) of every nature arising out of or in connection with Contractor's performance of work hereunder or its failure to comply with any of its obligations contained in the agreement, except such loss or damage which was caused by the sole negligence or willful misconduct of the City of Stockton. This obligation is independent of, and shall not in any way be limited by, the minimum Insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement.

3. **Compensation:** City and Contractor do hereby enter into this Agreement for *real time crime monitors* available in the above-named COOP and associated documents incorporated herein as Exhibit A and referenced in the attached quote Exhibit C. In no way, shall payment to the Contractor during the term of this Agreement exceed *not to exceed \$700,500 for the term of the Agreement* for the purchase of *real time crime monitors*. Any person signing this Agreement on behalf of City or Contractor does warrants that he or she has full authority to do so.

4. **Governing Law.** California law shall govern any legal action pursuant to this Agreement with venue for all claims in the Superior Court of the County of San Joaquin, Stockton Branch or, where applicable, in the Federal District Court of California, Eastern District, Sacramento Division.

5. **Applicable Law.** Deliverables must conform with all applicable federal, state, and local laws. Such conformity includes compliance with federal sanctions, and Contractor certifies that it has not and will not engage in prohibited transactions with sanctioned persons or entities.

6. **Special Funding.** If Special Funding is applicable, Exhibit D – Special Funding Terms & Conditions are incorporated herein.

This Agreement may be amended only by a written amendment, consistent with the COOP, signed by Contractor and City.

Description

The Fremont Police Department (FPD) is seeking Proposals from qualified vendors to provide a real time data visualization platform to serve as the key component in the Real Time Information Center (RTIC). Establishing an initial Standard Operating Procedure (SOP), procuring, integrating and implementing this platform is Phase 1 of a multi-phase approach for the FPD. Phase 2 will include day to day operations of utilizing the platform with existing staff, evaluation of the program, developing measures of effectiveness, and identifying future technology and personnel needs. Phase 3 will involve securing personnel position(s) as an operator in the RTIC. The final phase, Phase 4, if deemed necessary, will be to procure, install, and implement a video wall to complement the data visualization platform and its many displayed resources and data feeds. These subsequent phases will begin in Fall 2020 and likely take us into 2022 to complete the center. The focus of this RFP is implementation of the platform (Phase 1).

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

**REQUEST FOR PROPOSALS (“RFP”)
FOR A REAL TIME DATA VISUALIZATION PLATFORM**

- A.** The CITY OF FREMONT (hereinafter “City”) hereby requests Proposals for a comprehensive Real Time Data Visualization Platform for the Fremont Police Department. The City is also requesting software, data integration and professional services for implementation of the Real Time Data Visualization Platform (hereinafter “Project”). The City will receive Proposals at purchasing@fremont.gov **up to 2:00 p.m. on September 14, 2020. Maximum submittal size may not be larger than 35 megabytes otherwise we cannot guarantee delivery.**

Proposers who have experience with law enforcement agencies, specifically California implementations, data integration, CJIS compliance standards, and will meet the City’s requirements as outlined in the Functional Requirements section of this RFP are encouraged to submit proposals.

B. INTRODUCTION

1. General Description of Project

The Fremont Police Department (FPD) is seeking Proposals from qualified vendors to provide a real time data visualization platform to serve as the key component in the Real Time Information Center (RTIC). Establishing an initial Standard Operating Procedure (SOP), procuring, integrating and implementing this platform is Phase 1 of a multi-phase approach for the FPD. Phase 2 will include day to day operations of utilizing the platform with existing staff, evaluation of the program, developing measures of effectiveness, and identifying future technology and personnel needs. Phase 3 will involve securing personnel position(s) as an operator in the RTIC. The final phase, Phase 4, if deemed necessary, will be to procure, install, and implement a video wall to complement the data visualization platform and its many displayed resources and data feeds. These subsequent phases will begin in Fall 2020 and likely take us into 2022 to complete the center. The focus of this RFP is implementation of the platform (Phase 1).

2. Project Purpose

This Request for Proposals is being completed with the goal of awarding an agreement to a Vendor to provide the real-time data visualization platform. The platform should provide a complete operational picture, offering solutions with a variety of third-party applications. The purpose of this RFP is to solicit submissions from vendors who demonstrate a solution to serve as described in the Functional Requirements and meet the overall project purpose.

3. Background

The Fremont Police Department (FPD) practices an Intelligence-led Policing (ILP) model and philosophy. ILP’s primary objective is to reduce crime through identifying crime trends, deploying effective resources and making informed decisions based on data-

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM****RFP#21-008**

driven analysis, intelligence and technology tools. FPD greatly values our strong community partnerships and one such benefit has been the community support of the use of video surveillance technology throughout the City. FPD aims to establish a Real Time Information Center (RTIC), which is a hub of integrated information sources to include calls for service, crime trend information, technology, such as video surveillance and LPR, and personnel to facilitate real-time operational decision making. The goal is to improve situational awareness, increase operational effectiveness, quickly identify crime incidents and criminal suspects, and implement crime prevention strategies.

4. City's Current Environment

The City's network topology is based on Ethernet and consists of two core switches connected via a 10 Gbps WAN fiber link. Multiple VLANs are created to segment and secure the network utilizing a class A private network address space of 10.0.0.0/8.

Virtual servers run in a VMware vSphere/ESXi 6.7 environment. The virtual environment is based on Dell's VxRail hyper-converged infrastructure. Operating systems that are supported include Microsoft Windows Server 2012, 2016, and 2019. SQL Server 2012 and 2016 are the prevalent databases in use. The City's workstations and servers connect to edge switches at 1 Gbps. These edge switches have redundant fiber links that connect at 1 Gbps to each core switch. A Cisco next generation firewall is deployed to provide the latest technology to secure and protect the City's network. At the endpoints, workstations are protected against malware utilizing Cisco's advanced malware protection (AMP) and Umbrella DNS. Two internet service providers provide redundant routes to the internet for access to websites and cloud service providers including Microsoft Government Azure.

The workstations are primarily Dell desktops and laptops running the Microsoft Windows 7 and 10 operating systems. The City is currently migrating remaining Windows 7 workstations to Windows 10. Microsoft enterprise applications include Office 365, Exchange, Dynamics 365, Power BI, and Teams. ArcGIS enterprise 10.6.1 is used for our GIS environment. The Fremont Police Department is currently using Tiburon CAD 2.9 and RMS 7.10 solutions.

The City's disaster recovery plan consists of on-premise backups to a storage appliance in addition to sending backups to the cloud. Using a combination of Microsoft Azure and Amazon Web Services, virtual servers can be booted-up in the cloud as needed to ensure business continuity.

5. Proposed Application and Computing Environment

The City is open to both an on-premise or a Cloud Computing Type SaaS and/or PaaS solution (SaaS/PaaS solutions will require an acknowledgement, that if selected, the proposer will submit SOC1/SOC2 reports). If proposer offers both types of solutions (on-premise and cloud), present both. However, for proposals that are not SaaS or PaaS, the City will need to assess additional line items to the proposer's cost for maintenance, operations, storage, hardware, servers, networking components, respective licensing,

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

and other applicable components. The City expects the new system to operate in multiple environments: development, test, and production.

C. CONTENTS OF PROPOSAL

The Proposer shall include in its proposal, at a minimum, the information outlined in this Section C in a manner which demonstrates the Proposer's competence and qualifications for the satisfactory performance of services and delivery of software identified in this RFP. Responses will be evaluated and scored. At the City's discretion scoring may be inclusive of some or all evaluation areas for each round. Scoring may be weighted.

The Proposer shall attach five separate exhibits to a cover letter, including the following:

- Scope of Services, **Proposal Exhibit "A"**;
- Cost Proposal, **Proposal Exhibit "B"**;
- Statement of Qualifications, **Proposal Exhibit "C"**;
- Terms of Technology Service Agreement, **Proposal Exhibit "D"**; and
- Functional Requirements, **Proposal Exhibit "E"**.
- **Appendix A-1** of this RFP contains a *Proposer Checklist* to assist Proposer in complying with the RFP requirements and company background and references sheets for Proposer to include in its *Proposal Exhibit "C"*.
- **Appendix A-2** of this RFP contains the Cost Proposal pricing template (attached for Proposer to include in its *Proposal Exhibit "B"*.)
- **Appendix A-3** of this RFP contains the functional requirements section for Proposer to include in its *Proposal Exhibit "E"*.
- **Appendix A-4** contains a Conflict of Interest/Collusion statement to be signed and submitted with the proposal.

Proposer shall identify each section in its proposal by inserting a tab divider between each required Exhibit section.

1. **Cover Letter**

An authorized representative of the Proposer shall sign the proposal on a cover letter that contains the following information: (a) identifies this project by name and number; (b) identifies the full legal name of the Proposer, along with the name of the contact person, address, phone number, and e-mail address; and (c) indicates Proposer's willingness to comply with the procedures identified in this RFP, including an incorporation by reference of the five exhibits identified in this Section C.

2. **Scope of Services**

The Proposer shall prepare a complete description of the scope of services (to be labeled: Proposal - Exhibit "A") which the Proposer intends to perform in order to achieve the Project Purpose. The precise scope of services to be incorporated into the Technology Service Agreement will be based upon Proposal Exhibit "A" (described below) and may be the subject of negotiations between the City and the successful proposer.

- a. The Proposer's scope of services should include, at a minimum, general discussion of the Proposer's understanding of the overall project, a description of the major components of services (or phases of service), and the expected time of completion for each component proposed. Professional services shall include installation of software, project management, implementation,

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

- comprehensive data conversion (of vendor-recommended data), system acceptance testing, training, warranty, and documentation.
- b. The Proposer's scope of services shall include a description of the software products or modules, licensing options, any customization, operating system and database, or any third party software products included in the proposal that are necessary to achieve the City's stated Project Description and to meet the functional requirements. Proposer may include any software products, modules, third party software, or hardware in its proposal that are value-added or optional to be provided by Proposer to the City. Base proposal shall include a fully functioning and operational Real Time Data Visualization Platform.
 - c. Proposer shall provide a detailed description of the proposed approach and methodology for creating the interfaces/integrations.
 - d. The Proposer's scope of services should include information on the recommended delivery method for the proposed software solution (SaaS, PaaS, hosted, on-premise). The Proposer's scope of services shall also include: A description of the standard and ad-hoc reporting capabilities of the proposed system; Proposer's methodology and frequency for software upgrades and update releases; and Proposer's policy for source code (e.g., source code, database schema, data dictionary, and documentation for the software and any customized modifications are delivered to City upon software installation and upon each and every enhancement, -[ii] made available to City on demand, or [iii] placed in escrow for access by City).
 - e. The Proposer's scope of services must meet or exceed all applicable expectations toward compliance with Criminal Justice Information Systems (CJIS) Policy. This includes but is not limited to: storage of information in United States datacenters only, encryption of sensitive information at rest and in transit, fingerprint-based background investigations of personnel, meeting all security awareness training standards, and mandatory notification of cybersecurity events.
 - f. The Proposer's scope of services should describe the nature of any post-implementation and ongoing support for the Real Time Data Visualization Platform. The description shall include the levels of support available (e.g., gold, silver, bronze, etc.) and identify which level of support is being proposed for the City, telephone support including hours of operation and time zone, availability of 24/7 hotline, problem reporting and resolution procedures, escalation procedures, response time for various levels of severity, and other support that is available (e.g., additional on-site, remote, access to website portal, knowledge base, etc.).
 - g. Proposer shall specify all required components (software and/or hardware) to operate the proposed Software System in a highly available environment. The City reserves the right to purchase any components needed through a separate procurement process.

3. Cost Proposal

The Proposer shall provide a fixed price bid for all software licenses, implementation and professional services, training, and ongoing maintenance and support being proposed (to be labeled: Proposal Exhibit "B") which identifies:

- a. An itemized cost breakdown, including hourly rates and number of hours for each major component of service, with a cross-reference to each component of service, and for each software product or module including third party software products identified in Proposal Exhibit "A". The cost breakdown shall also include a description of any reimbursable charges such as travel expenses.

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

- b. A total proposed “Not to Exceed” cost for the performance of all services and provision of all software products or modules including third party software products described in the Scope of Services, Proposal Exhibit “A”, needed to achieve the Project Description and to deliver a fully functional and operational Real Time Data Visualization Platform.
- c. A proposed payment schedule for all services to be performed and products to be delivered.
- d. Proposer shall use Appendix A-2, the Cost Proposal Template.
- e. The Cost Proposal, Proposal Exhibit “B”, should be placed in a separate sealed envelope and labeled accordingly. Please provide data ‘unlocked’ on the Cost Proposal Template (see RFP attachment 2).
- f. The City reserves the right to purchase any third-party software products through a separate procurement process.

4. Statement of Qualifications

The Proposer shall prepare a Statement of Qualifications (to be labeled: Proposed Exhibit “C”) which provides the following information:

- a. Identification of the size, stability, and capacity of Proposer’s organization, including, at a minimum, an identification of Proposer’s:
 - i. Total number of years in operation and number of years that Proposer has been providing public safety software systems and services similar to the scope of services described in this RFP.
 - ii. Total number of current employees.
 - iii. Number of office locations (including the location of each office and identification of the office from which service will be provided to the City).
 - iv. Number of employees in the office location which is intended to provide the services described in Proposal Exhibit “A”.
 - v. The financial condition of Proposer’s organization and whether there is any outstanding litigation or threat of litigation.
 - vi. Disclosure of any past, ongoing, or potential conflicts of interest which Proposer may have as a result of performing the work for this Project.
 - vii. Appendix A-1, Form 2, contains the Proposer Background Information page for the Proposer to include in its Proposal Exhibit “C”.
- b. Identification of Proposer’s experience for providing a software system and performing services for projects of a similar size, scope, and complexity as the procurement required by this RFP, including an identification of proposed software version in a comparable computing environment within the last five years for at least three government clients within California of which at least one client shall be a municipality of comparable size and complexity to the City. The list of recent projects shall include the name, contact person, address, e-mail address and phone number for clients who have fully completed (live) installations, as well as a description of the software solution (specific modules installed, e.g., Appendix A-1, Form 3, contains the format for the references for the Proposer to include in its Statement of Qualifications, Proposal Exhibit “C”).
- c. A list of the Proposer’s principals, employees, agents, and sub-consultants that the Proposer intends to assign to this Project. The proposed Project staff shall include the account manager, project manager, lead trainer, technical architect, and all other key staff assigned to the Project. This list shall include a summary of the qualifications (including education, training, licenses, and experience) of each individual; the approximate number of hours each will

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

devote to the Project; and the type of work to be performed by each individual. The City will retain under its agreement with the successful Proposer the right of approval of all persons performing under the agreement.

5. Proposed Technology Service Agreement

The Proposer shall review the terms of the proposed Technology Service Agreement (“Agreement”) between the City and Proposer (Attachment 1 to this RFP) and identify any portions of the Agreement which the Proposer desires to amend either by addition, deletion, or modification (to be labeled: Proposal Exhibit “D”). Proposer shall also demonstrate its ability to comply with the City’s insurance requirements. A copy of an insurance certificate or a letter of intent to provide insurance from the issuing company (including a description of types of coverage and dollar amount limits) may be favorably considered.

Proposer shall submit, as part of Proposal Exhibit “D”, all documents including, but not limited to, agreements and/or licenses of every kind that the Proposer would incorporate into any agreement with the City arising out of this RFP. These documents may include copies of the sample software licensing agreement, a sample implementation services agreement, and a sample escrow agreement.

6. Functional Requirements

The functional requirements of the proposed Real Time Data Visualization Platform will be key criteria for evaluating the proposals submitted to the City. The Proposer shall indicate its compliance with the functional requirements contained in Appendix A-3, which Proposer shall include in its proposal (to be labeled: Proposal, Exhibit “E”).

D. INSTRUCTIONS TO PROPOSERS

1. **Time and Place of Delivery of Proposals** It is the Proposer's responsibility alone to ensure that the proposal is received by the City’s Authorized Representative at the time and place identified on page 1 of this Request for Proposals (“RFP”).

2. **RFP Schedule**

The schedule for the RFP is as follows:

- | | |
|---|--|
| a. Submission of Questions | September 1, 2020, 3:00 PM |
| b. Responses to Questions or
Addendum Issued, if necessary | September 3, 2020 |
| c. Proposals Due to City | September 14, 2020
not later than 2:00 PM |

3. **Requests for Clarification of the RFP**

The sole point of contact for information pertaining to this Project is www.bidsync.com. Communication with City staff about the scope of services or anything else related to this RFP is forbidden. Unless specifically authorized by the Purchasing Manager, no other City of Fremont official or employee is authorized to provide information related to this Project or RFP. Contact with other City officials or employees without the express permission of the Purchasing Manager could result in disqualification from further consideration in this RFP process.

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

If any proposer has any question regarding the meaning of any part of this RFP, or finds discrepancies in or omissions from this RFP, the proposer shall submit questions or requests for clarification to www.bidsync.com by 3:00 PM, on **September 1, 2020**.

4. Format and Quality of Proposals

All proposals shall be prepared in a clear and concise manner. Unnecessarily elaborate or glossy proposals are neither expected nor desired. The emphasis of the proposal should be on responding to the requirements set forth in this RFP.

5. Submittal of Proposals

The Proposer shall submit an electronic PDF file(s) of the proposal at purchasing@fremont.gov **up to 2:00 p.m. on the 14th day of September, 2020**. **Subject Line to read: RFP 21-008 POLICE DEPT REAL TIME DATA VISUALIZATION PLATFORM**

NOTE: Maximum submittal size may not be larger than 35 megabytes otherwise we cannot guarantee delivery.

6. Initial Review Process

After the proposals are received and opened by the City, the City shall review and evaluate all proposals in order to determine which proposal(s) best meets the City's needs for this Project. The City shall review the proposals based upon evaluation criteria including, but not limited to cost, ability to meet the City's requirements (software functionality, usability, performance, flexibility, integration, and technology), implementation methodology, training, customer support, warranty, ongoing maintenance, experience and qualifications, references, understanding of the work to be completed based on clarity of proposal, and responsiveness to the RFP. Information must be furnished complete in compliance with the terms, conditions, provisions and specifications of this RFP.

The proposal with the lowest cost will not necessarily be selected; however, cost is a component of the evaluation.

7. Further Evaluation and Review

Upon completion of the initial review, the City shall notify those Proposers who will be considered for further evaluation and review. The City will further investigate qualifications and references of these proposers. Based upon this analysis, the City will request an on-site "Proof of Concept" (POC) demonstration to show how the proposed system will meet the required functionality for the new Real Time Data Visualization Platform. If selected as a finalist, City representatives may also request a visit to a client(s) reference site to observe the application in an actual working environment.

8. Award of Agreement

The City shall notify the Proposer(s) whose proposal(s) best meets the needs of the City and whose proposal(s) is most advantageous to the City to begin negotiation of the Agreement. The City reserves the right to negotiate the terms of the Agreement for this Project with one or more proposers. Proposers so notified shall negotiate in good faith in accordance with direction from the City. Any delay caused by Proposer's failure to respond to direction from the City may lead to a rejection of the Proposal.

a. The City reserves the right to reject any or all proposals and to waive any

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

irregularities in any proposal or the proposal process. The award of the Agreement, if made by the City, will be based upon a total review and analysis of each proposal and projected costs.

- b. If the City determines, after further evaluation and negotiation, to award the Agreement, a Technology Service Agreement shall be sent to the successful Proposer for the Proposer's signature. No proposal or agreement for this Project shall be binding upon the City until after the Agreement is signed by duly authorized representatives of both Proposer and the City.

9. **Proposals Are Public Records**

Each proposer is hereby informed that, upon submittal of its proposal to the City in accordance with this RFP, the proposal is the property of the City.

- a. Unless otherwise compelled by a court order, the City will not disclose any proposal while the City conducts its deliberative process in accordance with the procedures identified in this RFP. However, after the City either awards an agreement to a successful proposer, or the City rejects all proposals, the City shall consider each proposal subject to the public disclosure requirements of the California Public Records Act (California Government Code Sections 6250, *et seq.*), unless there is a legal exception to public disclosure.
- b. If a proposer believes that any portion of its proposal is subject to a legal exception to public disclosure, the Proposer shall take the following actions: (i) clearly mark the relevant portions of its proposal "Confidential"; and (ii) upon request from the City, identify the legal basis for exception from disclosure under the Public Records Act; and (iii) the Proposer shall defend, indemnify, and hold harmless the City regarding any claim by any third party for the public disclosure of the "Confidential" portion of the Proposal.

10. **Costs Associated with Preparation of Proposal are Proposer's Responsibility**

All costs incurred by prospective proposers associated with the preparation of a response to this RFP and any subsequent demonstrations, analyses, studies, responses to inquiries, travel for purposes of competing for and/or negotiating an agreement with the City are the sole responsibility of the Proposer.

11. **Compliance with Laws, Ordinances and Regulations**

Proposer shall be familiar with and shall abide by all laws, ordinances, and regulations in conducting themselves during the term of their relationship with the City. The cost of this compliance will be included in the prices provided in the proposer's proposal to the City.

12. **Conflict of Interest**

Each proposer must disclose any existing or potential conflict of interest relative to the performance of the contractual services as a result of this RFP. Any such relationship that might be perceived as or represent a conflict should be disclosed. By submitting a proposal in response to this RFP, proposers affirm that they have not given, or intend to give at any time hereafter, any economic opportunity, future employment, gift, loan gratuity, special discount, trip, favor or service to a public servant or any employee or representative of same, in connection with this procurement. Any attempt to intentionally or unintentionally conceal or obfuscate a conflict of interest will automatically result in the disqualification of a proposer's proposal. An award will not be made where a conflict of interest exists. The City will determine if a conflict of interest exists and whether it may reflect negatively

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

on the City's selection of a vendor. The City reserves the right to disqualify any vendor on the grounds of actual or apparent conflict of interest.

13. **Errors and Omissions**

The Proposer bears full responsibility for exclusions or errors in its proposal submitted. Upon close of proposals, the City reserves the right to hold any proposer accountable and responsible for its submitted proposal. Failure to review or comprehend any portion of this Request for Proposals does not absolve the Proposer of the responsibilities articulated herein.

	Brief description of SLA for critical issue resolution.	
7	Version Releases	
	Current version and release date of the proposed solution	
	Anticipated date and version number for next release	
	Number of prior versions supported	
	Describe major and minor release schedules	
8	Software as a Service (SaaS)/Application Hosting Option	
	Brief description of SaaS/Application Hosting models available.	
	Describe policy towards data ownership and transferability from SaaS/Hosted solution to on-premises solution or to a 3 rd party.	
	Describe SaaS/Hosting storage costs	
	Location of SaaS/Hosting site, mirrored sites. If 3 rd party, identify the organization.	
	Describe backup strategy.	
	Describe disaster recovery strategy.	
	Single or multi-tenant.	
	Acknowledgement required: If selected, proposer will submit SOC1/SOC2 reports (including for all third-party entities affiliated with the consultant's solution).	
9	CJIS Compliance	
	Acknowledgement required: If selected, proposer will submit CJIS compliance verification

PROPOSER REFERENCES**I. References**

Complete the following information for a minimum of three local government agencies within California for which Proposer has provided comparable systems and professional services during the past five years. At least one reference shall be a municipality of comparable size and complexity to the City. References may or may not be reviewed or contacted at the discretion of the City. The City reserves the right to contact references other than, and/or in addition to, those provided by proposers. The City shall not provide information received from references to proposers. Make additional copies of these pages if necessary.

APPENDIX A-2

**PROPOSER RESPONSE PAGES
COST PROPOSAL**

The Cost Proposal must itemize the costs to the City for Proposer to perform the scope of services and provide the Real Time Data Visualization Platform for the Project as described in Proposal Exhibit “A” and in Appendix A-3, System Functional Requirements. A narrative may be attached to clarify any pricing data submitted.

City of Fremont Real Time Data Visualization Platform Pricing Estimates	
Pricing Estimates, On-Premises	
1. Software Licensing – On Premises – Include concurrent user / per user /per site pricing model details. Differentiate between modules that are included or separated into additional expense. NOTE: The City strongly prefers an Enterprise Pricing rather than user-based licensing.	
2. Third-Party Licensing (if applicable) – Discuss pricing for any recommended third-party solutions.	
3. Implementation – Training, travel expenses, installation, data conversion, integration, etc. Include any assumptions made in calculating implementation pricing.	
4. Annual Maintenance, 5 Years	
Year One	
Year Two	
Year Three	
Year Four	
Year Five

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

APPENDIX A-3**PROPOSER RESPONSE PAGES
SYSTEM FUNCTIONAL & TECHNICAL
REQUIREMENTS**

- I.** The City is seeking a comprehensive Real Time Data Visualization Platform. The capabilities and features of interest to Fremont Police Department, but not limited to, are included in the Functional and Technical Requirements list below:
- II.** The response template identifies selected key features, functions, and capabilities that the City is seeking from the new Real Time Data Visualization Platform. Proposer shall indicate compliance with each requirement to enable the City to evaluate the proposed solution as follows:
- “2” – Proposed software release **fully supports the requirement** with standard implementation configuration; there is no customization, work-around, or third-party software required.
 - “1” – Proposed software release **supports the requirement with customization, work-around, or third-party software.**
 - “0” – Proposed software release **does not support the requirement.**

Proposer must complete Column “B”, Proposer Response, for each requirement and must provide a detailed explanation for any “1” or “0” response in Column “C”, Detailed Explanation. Proposer may provide a detailed explanation for any requirement that the Proposer would like to highlight for consideration by the City during the review process. Proposer may attach a separate sheet(s), if necessary, for such explanation by restating the text of the requirement along with the item number and providing the additional response immediately following the requirement in the same sequence as this Appendix A-3.

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM
Functional and Technical Requirements**

RFP#21-008

Ref #	“A” Requirement	(R)quired (D)esirable	“B” Proposer Response	“C” Detailed Explanation
General Features				
G1	A complete operational picture of real-time data points and video feeds	R		
G2	Calculations of internet bandwidth requirements to support real-time data feeds into proposed system	R		
G3	If hosted in the cloud, list proposed cloud provider and speed of cloud connection, physical locations, redundant paths, configuration and data backup workflow	R		
G4	Provide a visual map of the City of Fremont	R		
G5	Provide a map of public safety resources offering solutions with a variety of third-party applications to include but not limited to: - Various Video Management Systems (VMS) to include Milestone, PIPS/Neology - Configurations with various network camera models - Automated Vehicle Locators (AVL) and GPS - Automated License Plate Reader (ALPR) data via Northern California Regional Intelligence Center (NCRIC) - Tiburon CAD/RMS	R		
G6	Ability to combine multiple data/video feeds into a view to display on video wall	R		
G7	Recommendation of video wall vendor and associated equipment to be compatible with proposed system	D		
G8	Ability to “drag and drop” data/views from maps, camera views, search results, tables, documents, etc.	D		
G9	Integration of structured and unstructured data	R		
G10	Customizable dashboard to include multiple visualizations, filtering, linking, and editing	R		
G11	Provide auto-refresh of CAD calls for service	R		
G12	Provide visual alert to operator when a priority 1 call arrives in queue	D		
G13	Real-time alert capabilities based on keywords, criteria	R		
G14	Capable of alerts when records are modified/updated	D		

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

Ref #	“A” Requirement	(R)equired (D)esirable	“B” Proposer Response	“C” Detailed Explanation
G15	Capable of alerts when other users search on same criteria (i.e., deconfliction)	D		
G16	Receive real-time alerts via SMS/MMS or email	D		
G17	Provide alert when CAD call falls within the viewshed of camera	D		
G18	Ability to pop-up/highlight a specific camera when a CAD call falls within the viewshed of that camera	D		
G19	Ability to automatically move a network PTZ camera to a predesignated location based on the geographic location of a CAD call	D		
G20	Ability to import, display and conduct analysis of tabular and relational data.	R		
G21	Ability to import and display location information based on latitude/longitude, URL or API	R		
G22	Ability to perform federated searches of internal data and third-party sources	R		
G23	Ability to delete/purge data once it has been removed from original data system	R		
G24	Supports both scheduled and ad hoc data refresh methods	R		
G25	Perform wildcard search, geo-search, soundex search	R		
G26	Ability to use multiple operators in search (and, or, contains	D		
G27	Use of data filters for multiple criteria	R		
G28	Ability to save searches for consistent use	D		
G29	Ability to save searches with multiple users/teams	D		
G30	Ability to share search queries and results with other users	D		
G31	Ability to develop and import additional data set layers from multiple file types	R		
G32	Ability to draw a geo-fence using a shape tool for easily configurable alerts	D		
G33	Ability to easily turn live layers off/on for different visualization schema.	D		
G34	Provide automated report tools to create standardized reports	R		
G35	Capable of historical “rewind” feature to reconstruct events for 15 days	D		
G36	Feature of “breadcrumbs” to provide operator the ability to document steps taken to reach conclusive action	D		
G37	Ability to use multiple operators in search (and, or, contains	R		
G38	Use of data filters for multiple criteria	R		
G39	Ability to develop and import additional data set layers from multiple file types	R		

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

Ref #	“A” Requirement	(R)equired (D)esirable	“B” Proposer Response	“C” Detailed Explanation
G40	Ability to draw a geo-fence using a shape tool for easily configurable alerts	R		
G41	Ability to easily turn live layers off/on for different visualization schema.	R		
G42	Provide concurrent access via multiple licenses to end-users	R		
G43	Ability to share and annotate visualizations, dashboards and reports	R		
G44	Allow a team of users to share customized dashboards, queries, reports	R		
G45	Allow a team of users to securely collaborate on projects and investigations	R		
G46	Ability to seamlessly display on various mobile devices including iOS and Android platforms.	R		
G47	Meet CJIS and CA DOJ security requirements	R		
G48	Meet security requirements outlined under Federal Information Processing Standards (140-2)	R		
G49	Use a minimum of 256-bit AES encryption to protect secure and sensitive information	R		
G50	Ability to support two-factor authentication and single sign-on capable of audit logs for creation and modification of records	R		
G51	Authenticate reason for users to query for information to include ALPR data	D		
G52	Supports Office 365, PowerBI and SSRS 2019	R		
G53	Runs on Microsoft SQL server 2019	R		
G54	Windows Server 2019 R2 operating system	R		
G55	Supports ODBC, API, flat file connections to data sources	R		
G56	Provides API for data access/extraction from outside applications	R		
G57	Provides search capability over data sources, visualizations, reports, dashboards	R		
G58	Consume existing City of Fremont ArcGIS services	R		
G59	Host operating system requirements	R		
G60	In-memory data storage	R		
G61	Ongoing Customer Support and Service Level Agreement	R		
G62	Vendor to provide, install and configure all necessary servers for a highly available architecture	R

G63	Evergreen software: Upgrades and updates continually available without additional costs. This shall also include regulatory updates mandated by State or Federal agencies.	R		
G64	Experience integrating with external applications. Describe typical interfaces/integration technologies and approach (flat file transfer, web service, APIs, etc.).	R		
G65	System database schema will be made available to ITS (if necessary, ITS can enter into an NDA).	R		

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

APPENDIX A-4**PROPOSER RESPONSE PAGES
CONFLICT OF INTEREST AND COLLUSION STATEMENT****(Signed copy must be submitted with Proposal)****Conflict of Interest**

Each vendor must disclose any existing or potential conflict of interest relative to the performance of the contractual services as a result of this RFP/RFQ/Bid. Any such relationship that might be perceived as or represent a conflict should be disclosed. By submitting proposal in response to this RFP/Bid, vendors affirm that they have not given, nor intend to give at any time hereafter, any economic opportunity, future employment, gift, loan gratuity, special discount, trip, favor or service to a public servant or any employee or representative of same, in connection with this procurement. Any attempt to intentionally or unintentionally conceal or obfuscate a conflict of interest will automatically result in the disqualification of a vendor's proposal. An award will not be made where a conflict of interest exists. The City will determine if a conflict of interest exists and whether it may reflect negatively on the City's selection of a vendor. The City reserves the right to disqualify any vendor on the grounds of actual or apparent conflict of interest.

Collusion

This is to certify that the undersigned proposer has neither directly nor indirectly entered into an agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with this proposal submitted this date to the City of Fremont.

All terms and conditions of this Request for Proposal have been thoroughly examined and are understood.

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

**TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

This Technology Service Agreement (hereinafter “Agreement”) is made and entered into by and between the CITY OF FREMONT, a municipal corporation (hereinafter “City”), and [***INSERT***name of business and description of legal entity, i.e. LLC, Partnership, Corporation, etc.]_____, (hereinafter “Consultant”). City and Consultant may be collectively referred to herein as the “parties.”

RECITALS

- A.** City requested a proposal from Consultant to perform the services generally including: [***INSERT***describe services]_____
- B.** In response to the City’s request, Consultant submitted a proposal, and, after negotiations, Consultant agreed to perform the services more particularly described on Exhibit “A,” in return for the compensation described in this Agreement and Exhibit “B.”

NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL COVENANTS AND CONDITIONS IDENTIFIED HEREIN, THE PARTIES HEREBY AGREE AS FOLLOWS:**1. Definitions**

“Documentation” means technical manuals, training manuals, user guides, and workbooks, as updated and amended from time to time, provided by Consultant to assist Customer with the use of Software.

“Initial Constructive Use” Initial constructive use the earliest point in time where all Software delivered under the terms of this agreement is installed on City systems and is sufficiently free of errors for the City to use it to conduct the ordinary business for which it is intended.

“Cloud-Hosted Service” means the solution is designed from the ground up for cloud and is a multi-tenant cloud environment. In addition, Consultant owns, provides and oversees infrastructure, software and administrative tasks and makes its [product name] system available to City over the Internet using a standard web browser. The Cloud-Hosted Service includes the software and network capacity as well as the equipment used to support operations including storage, hardware, servers and networking components. The infrastructure in the cloud-hosted environment is properly secured through multiple physical, procedural and technical safeguards to segregate and protect City’s data.

“Software” means all or any portion of the global version of the binary computer software programs and updates and enhancements thereto, (including corresponding source code, unless specifically excluded herein) and Documentation delivered by Consultant to Customer. Software includes the third-party software delivered by Consultant as specified in the Schedule, and

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

modifications made to the Software. Software does not include source code to third party software. Unless specifically stated otherwise, all Software is delivered to Customer only if and when generally commercially available.

2. SCOPE OF SERVICES. Consultant shall perform the services described in Exhibit “A,” attached hereto and incorporated herein by reference, in accordance with the terms and conditions contained in this Agreement.

3. TIME FOR PERFORMANCE. Time is of the essence in the performance of services under this Agreement and the timing requirements set forth herein shall be strictly adhered to unless otherwise modified in writing in accordance with this Agreement. Consultant shall commence performance, and shall complete all required services no later than the dates set forth in Exhibit “A.” Any services for which times for performance are not specified in this Agreement shall be commenced and completed by Consultant in a reasonably prompt and timely manner based upon the circumstances and direction communicated to the Consultant. Consultant shall submit all requests for extensions of time to the City in writing no later than ten (10) days after the start of the condition which purportedly caused the delay, and not later than the date on which performance is due.

4. CLOUD-HOSTED SERVICE.

4(A). Right to Use the Cloud-Hosted Service, Software and Documentation. In consideration of all obligations of City hereunder, including, without limitation, the payment by City of any applicable fees, Consultant hereby grants to City, during the term of this Agreement, a non-exclusive, non-transferable (except as otherwise provided for herein), right and license to access and use the Software and Hosted Service, and to make a reasonable number of copies of and use the Documentation in connection with such use of the Cloud-Hosted Service.

4(B). Use Restrictions. City shall not: (i) access and/or use the Software or Hosted Service in order to design, create or build a service or product that is competitive with the Software or Cloud-Hosted Service, or which uses ideas, features or functions that are similar to the Software or Cloud-Hosted Service; (ii) license, sublicense, sell, resell, transfer, assign, distribute or otherwise commercially exploit or make available to any third party the Software or Cloud-Hosted Service, except as expressly permitted herein; (iii) modify or make derivative works based upon the Software or Cloud-Hosted Service or any part thereof, or directly or indirectly disassemble, decompile, or otherwise reverse engineer the Software or Cloud-Hosted Service or any portion thereof.

4(C). Proprietary Rights. The Software and Cloud-Hosted Service, including all intellectual property rights therein and thereto, and any modification thereof, are and shall remain the exclusive property of Consultant and its licensors. City shall not take any action that jeopardizes the proprietary rights of Consultant or its licensors or acquire any right in the Software or Cloud-Hosted Service except the limited rights expressly granted in this Agreement.

4(D). Internet and Telecommunication Connections. City shall be responsible for obtaining any and all Internet and/or telecommunication connections used by City to access the Cloud-Hosted Service. Consultant shall have no responsibility or liability

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM****RFP#21-008**

for any interruption or delay in accessing or using the Cloud-Hosted Service arising out of such Internet or telecommunications connections.

4(E). Security of Cloud-Hosted Service.

- (i) Consultant shall provide the Cloud-Hosted Service on redundant servers on a dedicated server infrastructure in an electronically restricted facility, including protecting the infrastructure from the external environment via firewall systems, at two secure locations in separate counties.
- (ii) Consultant shall take commercially reasonable precautions to ensure that the Cloud-Hosting Service is secure. Consultant protects sensitive data such as passwords by using a minimum of 256-bit SSL encryption. As the Consultant hosting environment evolves with new technologies, Consultant will use reasonable commercial efforts to maintain an equivalent or better level of security of City Content.
- (iii) Consultant will notify City of any known breach of its security related to areas, locations, or computer systems that contain City Content in a timely manner following such breach and take any necessary remedial actions at its sole cost and expense.

4(F). City Content.

- (i) City shall provide City Content for inclusion in the Software. City is responsible for the quality of the City Content provided. Consultant is responsible for the quality of the display or use of the City Content provided for inclusion in the City database.
- (ii) Consultant acknowledges that all data created by City will remain the sole property of the City. Consultant agrees that it shall not at any time sell, assign, transfer, or otherwise make available to or allow use by Consultant, Consultant's agent, or a third party of City Content.
- (iii) City shall exclusively own the City Content collected by Consultant in connection with the Hosted Service; provided, however, that City hereby grants to Consultant a non-exclusive limited right and license, without the right to grant or authorize sublicenses, during the term of this Agreement to use and reproduce City Content, solely for the purpose of facilitating the performance of Consultant's obligations under this Agreement.
- (iv) Consultant acknowledges that City is entitled to copy, export, or otherwise duplicate any available City Content at any time
- (v) Consultant shall, at City's request, make available City Content within five (5) business days. The database instance must be in a condition and format that allows easy transfer to a similar system.
- (vi) In the event this Agreement expires or is terminated, Consultant shall provide City with all City Content within thirty (30) calendar days of such termination or expiration. City Content shall be in dedicated data files suitable for import into commercially available database software (e.g., Microsoft Access or Microsoft SQL). The dedicated data files will be comprised of City Content contained in Consultant's Hosted Service. The structure of the relational database will be specific to City Content and will not be representative of the proprietary Consultant's database.

5. PAYMENT.

5(A). Billing. In order to request payment, Consultant shall submit invoices

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

to the City identifying the services performed in the billing period, milestones achieved, and the charges therefor (including an identification of personnel who performed the services, hours worked, hourly rates, and reimbursable expenses), based upon the Consultant's billing rates (set forth on Exhibit "B," attached hereto and incorporated herein by reference). The City shall make monthly payments to Consultant for services which are performed in accordance with this Agreement, to the satisfaction of the City.

5(B). "Not to Exceed" Compensation. The compensation payable to Consultant for the services identified in Exhibit "A" shall not exceed \$[***INSERT***]_____. Consultant shall not perform any services beyond the services identified in Exhibit "A" without prior written authorization from the City's Authorized Representative. If the City's Authorized Representative provides authorization for additional services, the total compensation to the Consultant under this Agreement shall not exceed \$[***INSERT***]_____.

5(C). Consultant's Failure to Perform. In the event that Consultant performs services which do not comply with the requirements of this Agreement, Consultant shall, upon receipt of written notice from the City, re-perform the services (without additional compensation to the Consultant). If Consultant's failure to perform in accordance with this Agreement causes damages to the City, Consultant shall reimburse the City for the damages incurred (which may be charged as an offset to Consultant's payment).

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

6. AUTHORIZED REPRESENTATIVES.

5(A). Consultant's Authorized Representative. Consultant understands that, in entering into this Agreement, the City has relied upon Consultant's ability to perform in accordance with its representations regarding the qualifications of the Consultant (including the qualifications of its Authorized Representative, its personnel, and its sub-consultants, if any) identified in Exhibit "C," attached hereto and incorporated herein by reference. Therefore, Consultant shall not replace its Authorized Representative, or any of the personnel or sub-consultants identified in Exhibit "C," without the prior written consent of the City. All services under this Agreement shall be performed by, or under the direct supervision of, Consultant's Authorized Representative, as identified in Exhibit "C."

5(B). City's Authorized Representative. For the performance of services under this Agreement, the Consultant shall take direction from the City's Authorized Representative: [***INSERT***]_____, unless otherwise designated in writing by the City's Authorized Representative or the City Manager.

7. INFORMATION AND DOCUMENTATION.

7(A). Information from City. City has made an effort to provide Consultant with all information necessary for Consultant's performance of services under this Agreement. If Consultant believes additional information is required, Consultant shall promptly notify the City, and the City will provide to Consultant all relevant non-privileged information in City's possession.

7(B). Consultant's Accounting Records. Consultant shall maintain all accounting records related to this Agreement in accordance with generally accepted accounting principles and state law requirements, and in no event for less than four years. Consultant's accounting records shall include, at a minimum, all documents which support Consultant's costs and expenses related to this Agreement, including personnel, sub-consultant invoices and payments, and reimbursable expenses. Consultant's accounting records shall be made available to City within a reasonable time after City's request, during normal business hours.

8. RELATIONSHIP BETWEEN THE PARTIES. Consultant is, and at all times shall remain, an independent contractor solely responsible for all acts of its employees, agents, or sub-consultants, including any negligent acts or omissions. Consultant is not City's agent, and shall have no authority to act on behalf of the City, or to bind the City to any obligation whatsoever, unless the City provides prior written authorization to Consultant. Consultant is not an officer or employee of City, and Consultant shall not be entitled to any benefit, right, or compensation other than that provided in this Agreement.

9. CONFLICTS OF INTEREST PROHIBITED. Consultant (including its employees,

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

agents, and sub-consultants) shall not maintain or acquire any direct or indirect interest that conflicts with the performance of this Agreement.

- 10. NONDISCRIMINATION.** Consultant shall comply with all applicable federal, state, and local laws regarding nondiscriminatory employment practices, whether or not said laws are expressly stated in this Agreement. Consultant shall not discriminate against any employee or applicant because of race, color, religious creed, national origin, physical disability, mental disability, medical condition, marital status, sexual orientation, or gender.
- 11. COMPLIANCE WITH LAW AND STANDARD OF CARE.** Consultant shall comply with all applicable legal requirements including all federal, state, and local laws (including ordinances and resolutions), whether or not said laws are expressly stated in this Agreement. Consultant shall perform services under this Agreement using a standard of care equal to, or greater than, the degree of skill and diligence ordinarily used by reputable professionals, with a level of experience and training similar to Consultant, performing under circumstances similar to those required by this Agreement.
- 12. BUSINESS TAX.** The Consultant shall apply for and pay the business tax and registration tax for a business license, in accordance with Fremont Municipal Code Title 5, Chapter 5.05.
- 13. INSURANCE.** Consultant shall, throughout the duration of this Agreement, maintain insurance to cover Consultant (including its agents, representatives, sub-consultants, and employees) in connection with the performance of services under this Agreement of the types and in the coverage amounts set forth in Exhibit D entitled “Insurance Requirements”. This Agreement identifies the minimum insurance levels with which Consultant shall comply; however, the minimum insurance levels shall not relieve Consultant of any other performance responsibilities under this Agreement (including the indemnity requirements), and Consultant may carry, at its own expense, any additional insurance it deems necessary or prudent. Concurrently with the execution of this Agreement by the Consultant, and prior to the commencement of any services, the Consultant shall furnish written proof of insurance (certificates and endorsements), in a form acceptable to the City. Consultant shall provide substitute written proof of insurance no later than 30 days prior to the expiration date of any insurance policy required by this Agreement.
- 14. CONFIDENTIAL INFORMATION.**

14(A) The term “Confidential Information” shall mean any and all information which is disclosed by either party (“Owner”) to the other (“Recipient”) verbally, electronically, visually, or in a written or other tangible form which is either identified or should be reasonably understood to be confidential or proprietary. Confidential Information includes, but is not limited to, trade secrets, computer programs, software, documentation, formulas, data, inventions, techniques,

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

marketing plans, strategies, forecasts, customer lists, employee information, financial information, confidential information concerning Owner's business, as Owner has conducted it or as it may conduct itself in the future, confidential information concerning any of Owner's past, current, or possible future products or manufacturing or operational methods, including information about Owner's research, development, engineering, purchasing, manufacturing, accounting, marketing, selling or leasing, and any software (including third party software) provided by Owner. Owner's Confidential Information shall be treated as strictly confidential by Recipient and shall not be disclosed by Recipient except to those third parties with a need to know and that are operating under a confidentiality agreement with non-disclosure provisions no less restrictive than those set forth herein. This Agreement imposes no obligation upon the parties with respect to Confidential Information which either party can establish by legally sufficient evidence: (a) was in the possession of, or was rightfully known by the Recipient without an obligation to maintain its confidentiality prior to receipt from Owner; (b) is or becomes generally known to the public without violation of this Agreement; (c) is obtained by Recipient in good faith from a third party having the right to disclose it without an obligation on confidentiality; (d) is independently developed by Recipient without the participation of individuals who have had access to the Confidential Information or (e) is required to be disclosed by court order or applicable law, provided prior notice is given to the Owner. The Recipient shall not obtain, by virtue of this Agreement, any rights title or interest in any Confidential Information of the Owner. Within fifteen (15) days after termination of this Agreement, each party shall certify in writing to Owner that all copies of Owner's Confidential Information in any form, including partial copies, have been destroyed or returned to Owner.

Consultant acknowledges that the CITY is a governmental agency and may be required to release certain information under requests made according to provisions of the Public Records Act.

14(B) Recipient shall protect the deliverables resulting from Services with at least the same degree of care and confidentiality, but not less than a reasonable standard of care, which Recipient utilizes for Recipient's Confidential Information.

14(C) The terms of this Section 12 shall survive termination of this Agreement.

15. REPORTING DAMAGES. If any damage (including death, personal injury or property damage) occurs in connection with the performance of this Agreement, Consultant shall immediately notify the City Risk Manager's office by telephone at 510-284-4050, and Consultant shall promptly submit to the City's Risk Manager and the City's Authorized Representative, a written report (in a form acceptable to the City) with the following information: (a) name and address of the injured or deceased person(s), (b) name and address of witnesses, (c) name

CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM

RFP#21-008

and address of Consultant's insurance company, and (d) a detailed description of the damage and whether any City property was involved.

16. INDEMNIFICATION.

16(A) Consultant shall indemnify, hold harmless, and defend the City (including its elected officials, officers, agents and employees) from and against any and all claims (including all litigation, demands, damages, liabilities, costs, and expenses, and including court costs and attorney's fees) resulting or arising from performance, or failure to perform, under this Agreement.

16(B) Copyright and Patent Indemnification. Claims which trigger Consultant's responsibility under Section 14 shall include any claims that the software resulting from the provision of Services pursuant to the attached Exhibit A Scope of Services infringe any patent, copyright, or accidental or intentional violation of a trade secret or other intellectual property of a third party not included in this Agreement. Consultant shall, in its reasonable judgment and at its option and expense: (i) obtain for the City the right to continue using the Software; or (ii) replace or modify the Software so that it becomes non-infringing while giving equivalent performance. Consultant shall not have any liability for a claim alleging that any Software infringes a patent or copyright if the alleged infringement was developed based on information furnished by the City or if the alleged infringement is the result of a modification made by the City.

17. LIMITED WARRANTY.

17(A) Consultant warrants that it has title to the Software and/or the authority to grant licenses to use the Software.

17(B) Consultant warrants that the Software will perform substantially in accordance with the Documentation for a period of one year from the date of initial installation and that the Software media is free from material defects. Consultant does not warrant that the Software is error-free.

17(C) Consultant's sole obligation with respect to its limited warranty is limited to repair or replacement of the defective Software, provided Licensee notifies Consultant of the deficiency within the one-year period and provided Licensee has installed all Software updates provided pursuant to Consultant's Support Services.

Each Software application shall operate in accordance with the Documentation with respect to date calculations before, during, and after the Year 2000 in that it will correctly address and operate accurately: (1) the change of the century in a standard compliant manner, including both the Year 2000 and beyond; (2) the existence and absence of leap years; and (3) date related operations. Compliance means that the Software operates and correctly processes in a manner that: (i) calculations using dates execute utilizing a four digit year; (ii) the Software functionality, including but not limited to, entry, inquiry, maintenance and update (whether on-line, batch or otherwise) supports four digit year processing; (iii) successful transition to the Year 2000 using the correct system date occurs without human intervention;

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

(iv) after the transition to the Year 2000, processing with a four digit year shall occur without human intervention; (v) all leap years shall be calculated correctly; and (vi) correct results shall be produced in forward and backward date calculation spanning century boundaries (there are no years stored as two digits).

17(D) Consultant warrants that to the best of its knowledge, information, and belief, the Software does not contain any known viruses, back-doors or time bombs, (or similar malicious code), or undocumented security codes that could prevent Licensee's perpetual use of the Software.

17(E) CONSULTANT DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

18. TERM OF THE AGREEMENT. The term of this Agreement shall commence on the date last signed by the parties, below, and shall continue until completion of all services in accordance with the timing requirements set forth in Exhibit "A" and paragraph 2 of this Agreement. This Agreement may be terminated by the City without cause upon fifteen (15) days written notice to Consultant. If the City exercises its right to terminate this Agreement in accordance with this paragraph, the City shall pay Consultant for all services satisfactorily performed in accordance with this Agreement, through and including the date of termination, but not to exceed the payments according to the rates specified in Exhibit "B" or the maximum amount authorized under paragraph 3 of this Agreement.

19. DEFAULT. If either party ("demanding party") has a good faith belief that the other party ("defaulting party") is not complying with the terms of this Agreement, the demanding party shall give written notice of the default (with reasonable specificity) to the defaulting party, and demand the default to be cured within ten days of the notice. If: (a) the defaulting party fails to cure the default within ten days of the notice, or, (b) if more than ten days are reasonably required to cure the default and the defaulting party fails to give adequate written assurance of due performance within ten days of the notice, then (c) the demanding party may terminate this Agreement upon written notice to the defaulting party.

20. NOTICES. All notices required or contemplated by this Agreement shall be in writing and shall be delivered to the respective party as set forth in this section. Communications shall be deemed to be effective upon the first to occur of: (a) actual receipt by a party's Authorized Representative, or (b) actual receipt at the address designated below, or (c) three working days following deposit in the United States Mail of registered or certified mail sent to the address designated below. The Authorized Representative of either party may modify their respective contact information identified in this section by providing notice to the other party.

RFP#21-008

- 21. HEADINGS.** The heading titles for each paragraph of this Agreement are included only as a guide to the contents and are not to be considered as controlling, enlarging, or restricting the interpretation of the Agreement.
- 22. SEVERABILITY.** If any term of this Agreement (including any phrase, provision, covenant, or condition) is held by a court of competent jurisdiction to be invalid or unenforceable, the Agreement shall be construed as not containing that term, and the remainder of this Agreement shall remain in full force and effect; provided, however, this paragraph shall not be applied to the extent that it would result in a frustration of the parties' intent under this Agreement.
- 23. GOVERNING LAW, JURISDICTION, AND VENUE.** The interpretation, validity, and enforcement of this Agreement shall be governed by and interpreted in accordance with the laws of the State of California. Any suit, claim, or legal proceeding of any kind related to this Agreement shall be filed and heard in a court of competent jurisdiction in the County of Alameda.
- 24. ATTORNEY'S FEES.** In the event any legal action is commenced to enforce this Agreement, the prevailing party is entitled to reasonable attorney's fees, costs, and expenses incurred.
- 25. ASSIGNMENT AND DELEGATION.** This Agreement, and any portion thereof, shall not be assigned or transferred, nor shall any of the Consultant's duties be delegated, without the written consent of the City. Any attempt to assign or delegate this Agreement without the written consent of the City shall be void and of no force or effect. A consent by the City to one assignment shall not be deemed to be a consent to any subsequent assignment.
- 26. MODIFICATIONS.** This Agreement may not be modified orally or in any manner other than by an agreement in writing signed by both parties.
- 27. WAIVERS.** Waiver of a breach or default under this Agreement shall not constitute a continuing waiver or a waiver of a subsequent breach of the same or any other provision of this Agreement.
- 28. CONFLICTS.** If any conflicts arise between the terms and conditions of this Agreement and the terms and conditions of the attached exhibits or any documents expressly incorporated, the terms and conditions of this Agreement shall control.
- 29. ENTIRE AGREEMENT.** This Agreement, including all documents incorporated herein by reference, comprises the entire integrated understanding between the parties concerning the services described herein. This Agreement supersedes all prior negotiations, agreements, and understandings regarding this matter,

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

whether written or oral. The documents incorporated by reference into this Agreement are complementary; what is called for in one is binding as if called for in all.

30. SIGNATURES. The individuals executing this Agreement represent and warrant that they have the right, power, legal capacity, and authority to enter into and to execute this Agreement on behalf of the respective legal entities of the Consultant and the City. This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective successors and assigns.

IN WITNESS WHEREOF, the City and Consultant do hereby agree to the full performance of the terms set forth herein.

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM****RFP#21-008**

[PLEASE SELECT THE APPROPRIATE SIGNATURE BLOCK FROM THE FOLLOWING SAMPLES]

CORPORATIONS

XYZ Land Development Inc.,
a California corporation

By: _____

Its: _____

*[needs to be officer from the operations side:
President, CEO, Vice President]*

By: _____

Its: _____

[needs to be officer from the finance side: Treasurer, CFO, Secretary]

One corporate signature is acceptable if the person is an officer if the signature is notarized (although we would like you to ask for a corporate resolution showing that person is authorized to sign). A single signature where the person is not a corporate officer – e.g. general manager, etc. – must be supported by a corporate resolution indicating that person has been delegated authority to sign contracts on behalf of the corporation

GENERAL PARTNERSHIPS

XYZ Land Development,
a California general partnership

By: _____

Its: General Partner

LIMITED PARTNERSHIPS

XYZ Land Development, LLP,
A California limited partnership

By: _____

Its: General Partner

[need limited partnership agreement or certificate filed with state showing the person or

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**
entity is the general partner]

RFP#21-008

In many cases the general partner will be a corporation so the signature block would look like this:

XYZ Land Development, LP,
A California limited partnership

By: ABC Developers, Inc.,
a California corporation

Its: General Partner

By: _____

Its: President, CEO, VP

By: _____

Its: Secretary, Treasurer, CFO

LIMITED LIABILITY COMPANY

XYZ Land Development, LLC,
a California Limited Liability Company

By: _____

Its: Managing Member

[need to see the operating agreement or certificate filed with secretary of state showing the person or entity is the managing member]

If the Managing Member is not an individual but is a business entity, then you would indent the signature block for the appropriate persons to sign as in the example for the limited partnership above.

EXHIBIT D**INSURANCE REQUIREMENTS**
Professional

Consultant's performance of the services under this agreement shall not commence until Consultant shall have obtained all insurance required under this Exhibit and such insurance shall have been reviewed and approved by the Risk Manager. All requirements herein provided shall appear either in the body of the insurance policies or as endorsements and shall specifically bind the insurance carrier.

Consultant shall procure and maintain for the duration of the contract all necessary insurance against claims now and in the future for alleged injuries to persons or damages to property which may arise from or in connection with the performance of the services by the Consultant, the Consultant's agents, representatives, employees and subcontractors. Required professional liability insurance shall be maintained at the level specified herein for the duration of this agreement and any extension thereof and for twelve additional months following the agreement termination or expiration.

INSURANCE COVERAGE AND LIMITS RESTRICTIONS

1. It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured; whichever is greater.
2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Fremont before the City of Fremont's own insurance or self-insurance shall be called upon to protect it as a named insured.

A. MINIMUM SCOPE OF INSURANCE

Coverage shall be at least as broad as:

1. Insurance Services Office Commercial General Liability coverage:
 - a. Blanket contractual liability
 - b. Broad form property coverage
 - c. Personal injury
2. Insurance Services Office form covering Automobile Liability, code 1 (any auto).
3. Workers' Compensation insurance as required by the State of California and Employer's Liability insurance.
4. Professional Liability insurance

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

5. Cyber Liability insurance:
 - a. Third Party Liability coverage:
 - i. Privacy liability covering loss in the event of Consultant's failure to protect City's data.
 - ii. Network security liability in the event of any failure of network security including unauthorized access or unauthorized use of the City's data.
 - iii. Internet media liability covering infringement of copyright or trademark, invasion of privacy, libel, slander, plagiarism or negligence.
 - b. First Party Liability coverage:
 - i. Cyber extortion monies and associated expenses arising out of a criminal threat to release City's data.
 - ii. Digital asset loss for costs incurred to replace, restore or recollect data that has been corrupted or destroyed as a result of a network security failure.
 - iii. Business interruption to cover loss of income and extra expense arising out of an interruption of network service due to an attack on Consultant's network.
 - iv. Notification and crisis management covering expenses in the event of a data breach including a third party computer forensics team, notifying users whose personal information was breached, credit monitoring, and third party identity restoration services.
6. Such other insurance coverages and limits as may be required by the City of Fremont.

B. MINIMUM LIMITS OF INSURANCE

Consultant shall maintain limits no less than:

1. General Liability: \$1,000,000 per occurrence for bodily injury, personal injury and property damage and a \$2,000,000 aggregate. If Commercial General Liability insurance or other form with a general aggregate liability is used, either the general aggregate limit shall apply separately to this agreement or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability: \$1,000,000 per accident for bodily injury and property damage.
3. Employer's Liability: Bodily Injury by Accident - \$1,000,000 each accident.
 Bodily Injury by Disease - \$1,000,000 policy limit.
 Bodily Injury by Disease - \$1,000,000 each employee.
4. Professional Liability insurance: \$2,000,000.
5. Cyber Liability insurance: \$2,000,000.
6. Such other insurance coverages and limits as may be required by the City of Fremont.

C. DEDUCTIBLES AND SELF-INSURED RETENTIONS

1. Any deductibles or self-insured retentions must be declared to and

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM****RFP#21-008**

approved by the City of Fremont. At the option of the City of Fremont, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City of Fremont, its officers, officials, employees, and volunteers; or the Consultant shall procure a bond guaranteeing payment of losses and related investigations, claims administration and defense expenses.

2. Policies containing any self-insured retention (SIR) provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or the City of Fremont.
3. The City of Fremont reserves the right to obtain a full certified copy of any insurance policy and endorsement. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. ADDITIONAL INSURED REQUIREMENTS:

1. The required general liability and automobile policies are to contain, or be endorsed to contain the following provisions:
 - a. The City of Fremont, its officers, officials, employees, agents and volunteers are to be covered as additional insureds as respects alleged: liability arising out of activities performed by or on behalf of the Consultant; products and completed operations of the Consultant; premises owned, occupied or used by the Consultant; or automobiles owned, leased, hired or borrowed by the Consultant. The coverage shall contain no special limitations on the scope of protection afforded to the City of Fremont, its officers, officials, employees, agents or volunteers.
 - b. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City of Fremont, its officers, officials, employees, agents or volunteers.
 - c. The Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought except, with respect to the limits of the insurer's liability.
 - d. Consultant shall furnish properly executed Certificates of Insurance from insurance companies acceptable to the City of Fremont and signed copies of the specified endorsements for each policy prior to commencement of work under this agreement. Such documentation shall clearly evidence all coverages required above including specific evidence of separate endorsements naming the City of Fremont and shall provide that such insurance shall not be materially changed, terminated or allowed to expire except after 30 days prior written notice by certified mail, return receipt requested, has been filed with the City Clerk.
Such insurance shall be maintained from the time work first commences until completion of the work under this agreement.
Consultant shall replace such certificates for policies expiring prior to completion of work under this agreement.

E. ACCEPTABILITY OF INSURERS

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM****RFP#21-008**

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A: VII.

F. COMPLETED OPERATIONS

Consultant shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event the Consultant fails to obtain or maintain completed operations coverage as required by this agreement, the City of Fremont at its sole discretion may purchase the coverage required and the cost will be paid by the Consultant.

G. CROSS-LIABILITY

The Liability policy shall include a cross-liability or severability of interest endorsement.

H. FAILURE TO MAINTAIN INSURANCE COVERAGE

If Consultant, for any reason, fails to maintain insurance coverage, which is required pursuant to this agreement, the same shall be deemed a material breach of contract. The City of Fremont, at its sole option, may terminate this agreement and obtain damages from the Consultant resulting from said breach. Alternatively, the City of Fremont may purchase such required insurance coverage, and without further notice to Consultant, the City of Fremont may deduct from sums due to Consultant any premium costs advanced by the City of Fremont for such insurance.

I. PRIMARY AND NON-CONTRIBUTORY

For any claims related to this project, the Consultant's insurance coverage shall be primary insurance as respects the City of Fremont, its officers, officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the City of Fremont, its officers, officials, employees, agents or volunteers shall be excess of the Consultant's insurance and shall not contribute with it.

The additional insured coverage under the Consultant's policy shall be "primary and non-contributory" and will not seek contribution from the City of Fremont's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

J. SUBCONTRACTORS

Consultant shall require all sub-consultants to maintain the same levels of insurance and provide the same indemnity that the Consultant is required to provide under this Agreement. A sub-consultant is anyone who is under contract with the Consultant or any of its sub-consultants to perform work contemplated by this Agreement. The Consultant shall require all sub-consultants to provide evidence of valid insurance and the required endorsements prior to the commencement of any work.

K. SUBROGATION WAIVER

Consultant agrees to waive subrogation rights against City of Fremont

**CITY OF FREMONT – REQUEST FOR PROPOSALS
REAL TIME DATA VISUALIZATION PLATFORM**

RFP#21-008

regardless of the applicability of any insurance proceeds, and to require all Consultants, subcontractors or others involved in any way with the services to do likewise.

L. VERIFICATION OF COVERAGE

Consultant shall furnish the City of Fremont with original endorsements effecting coverage required by this clause. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received and approved by the City of Fremont before the services commence.

Question and Answers for Bid #RFP 21-008 - POLICE DEPARTMENT REAL TIME DATA VISUALIZATION PLATFORM

Overall Bid Questions

There are no questions associated with this bid.

Question Deadline: Sep 1, 2020 3:00:00 PM PDT

TECHNOLOGY SERVICE AGREEMENT REAL TIME DATA VISUALIZATION PLATFORM

This Technology Service Agreement (hereinafter "Agreement") is made and entered into by and between the CITY OF FREMONT, a municipal corporation (hereinafter "City"), and PEREGRINE TECHNOLOGIES, INC, (hereinafter "Consultant"). City and Consultant may be collectively referred to herein as the "parties."

RECITALS

- A.** City requested a proposal from Consultant to perform the services generally including: Deployment and support of a real time data visualization platform.
- B.** In response to the City's request, Consultant submitted a proposal, and, after negotiations, Consultant agreed to perform the services more particularly described on Exhibit "A," in return for the compensation described in this Agreement and Exhibit "B."
- C.** Definitions

"Documentation" means technical manuals, training manuals, user guides, and workbooks, as updated and amended from time to time, provided by Consultant to assist Customer with the use of Software.

"Initial Constructive Use" Initial constructive use the earliest point in time where all Software delivered under the terms of this agreement is installed on City systems and is sufficiently free of errors for the City to use it to conduct the ordinary business for which it is intended.

"Cloud-Hosted Service" means the solution is designed from the ground up for cloud and is a multi-tenant cloud environment. In addition, Consultant owns, provides and oversees infrastructure, software and administrative tasks and makes its service available to City over the Internet using a standard web browser. The Cloud- Hosted Service includes the software and Consultant's network capacity as well as the equipment used by Consultant to support operations including storage, hardware, servers and networking components. The infrastructure in the cloud-hosted environment is secured through multiple industry-standard physical, procedural and technical safeguards to segregate and protect City's data.

"Software" means all or any portion of the global version of the binary computer software programs and updates and enhancements thereto, (including corresponding source code, unless specifically excluded herein) and Documentation delivered by Consultant to Customer. Software includes the third-party software delivered by Consultant as specified in the Schedule, and modifications made to the Software. Software does not include source code to third party software. Unless specifically stated otherwise, all Software is delivered to Customer only if and when

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

generally commercially available.

**NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL COVENANTS AND
CONDITIONS IDENTIFIED HEREIN, THE PARTIES HEREBY AGREE AS FOLLOWS:**

- 1. SCOPE OF SERVICES.** Consultant shall perform the services described in Exhibit “A,” attached hereto and incorporated herein by reference, in accordance with the terms and conditions contained in this Agreement.
- 2. TIME FOR PERFORMANCE.** Time is of the essence in the performance of services under this Agreement and the timing requirements set forth herein shall be strictly adhered to unless otherwise modified in writing in accordance with this Agreement. Consultant shall commence performance and shall complete all required services no later than the dates set forth in Exhibit “A” (subject to any delays caused by the City or force majeure of events). Any services for which times for performance are not specified in this Agreement shall be commenced and completed by Consultant in a reasonably prompt and timely manner based upon the circumstances and direction communicated to and agreed to by the Consultant. Consultant shall submit all requests for extensions of time to the City in writing no later than ten (10) days after the start of the condition which purportedly caused the delay, and not later than the date on which performance is due.

3. CLOUD-HOSTED SERVICE.

3(A). Right to Use the Cloud-Hosted Service, Software and Documentation. In consideration of all obligations of City hereunder, including, without limitation, the payment by City of any applicable fees, Consultant hereby grants to City, during the term of this Agreement, a non-exclusive, non-transferable (except as otherwise provided for herein), right and license to access and use the Software and Hosted Service, and to make a reasonable number of copies of and use the Documentation in connection with such use of the Cloud-Hosted Service.

3(B). Use Restrictions. City shall not: (i) access and/or use the Software or Hosted Service in order to design, create or build a service or product that is competitive with the Software or Cloud-Hosted Service, or which uses ideas, features or functions that are similar to the Software or Cloud-Hosted Service; (ii) license, sublicense, sell, resell, transfer, assign, distribute or otherwise commercially exploit or make available to any third party the Software or Cloud-Hosted Service, except as expressly permitted herein; modify or make derivative works based upon the Software or Cloud-Hosted Service or any part thereof, or directly or indirectly disassemble, decompile, or otherwise reverse engineer the Software or Cloud-Hosted Service or any portion thereof.

3(C). Proprietary Rights. The Software and Cloud-Hosted Service, including all intellectual property rights therein and thereto, and any modification thereof, are and shall remain the exclusive property of Consultant and its licensors. City shall not take any action that jeopardizes the proprietary rights of Consultant or its

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

licensors or acquire any right in the Software or Cloud-Hosted Service except the limited rights expressly granted in this Agreement.

3(D). Internet and Telecommunication Connections. City shall be responsible for obtaining any and all Internet and/or telecommunication connections used by City to access the Cloud-Hosted Service. Consultant shall have no responsibility or liability for any interruption or delay in accessing or using the Cloud-Hosted Service arising out of such Internet or telecommunications connections.

3(E). Security of Cloud-Hosted Service.

- i. Consultant shall provide the Cloud-Hosted Service on redundant servers on a dedicated server infrastructure in an electronically restricted facility, including protecting the infrastructure from the external environment via firewall systems, at two secure locations in separate counties.
- ii. Consultant shall take commercially reasonable precautions to ensure that the Cloud-Hosting Service is secure. Consultant protects sensitive data such as passwords by using a minimum of 256-bit SSL encryption. As the Consultant hosting environment evolves with new technologies, Consultant will use reasonable commercial efforts to maintain an equivalent or better level of security of City Content.
- iii. Consultant will notify City of any known breach of its security related to areas, locations, or computer systems that results in or would be reasonably likely to result in unauthorized access to City Content in a timely manner following such breach and take any necessary remedial actions at its sole cost and expense.

3(F). City Content.

- i. City shall provide City Content for inclusion in the Software or the Cloud Hosted Service. City is responsible for the quality of the City Content provided. Consultant is responsible for the quality of the display or use of the City Content provided for inclusion in the City database.
- ii. Consultant acknowledges that all data created by City will remain the sole property of the City. Consultant agrees that it shall not at any time sell, assign, transfer, or otherwise make available to or allow use by Consultant, Consultant's agent, or a third party of City Content.
- iii. City shall exclusively own the City Content collected by Consultant in connection with the Hosted Service; provided, however, that City hereby grants to Consultant a non-exclusive limited right and license, without the right to grant or authorize sublicenses, during the term of this Agreement to use and reproduce City Content, solely for the purpose of facilitating the performance of Consultant's obligations under this Agreement, and the right to use data aggregated from the City Content (which data does not identify the city, or any individual or entity) during and after the term of the Agreement, and the right to use data aggregated from the City Content (which data does not identify the city, or any individual or entity) during and after the term of the Agreement, and the right to use data aggregated from the City Content (which data does not identify the city, or any individual or entity) during and after the term of

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

- the Agreement.
- iv. Consultant acknowledges that City is entitled to copy, export, or otherwise duplicate any available City Content at any time
 - v. Consultant shall, at City's request, make available City Content within five (5) business days. The database instance must be in a condition and format that allows easy transfer to a similar system.
 - vi. In the event this Agreement expires or is terminated, Consultant shall provide City with all City Content within thirty (30) calendar days of such termination or expiration. City Content shall be in dedicated data files suitable for import into commercially available database software (e.g., Microsoft Access or Microsoft SQL). The dedicated data files will be comprised of City Content contained in Consultant's Hosted Service. The structure of the relational database will be specific to City Content and will not be representative of the proprietary Consultant's database.

4. PAYMENT.

4(A). Billing. In order to request payment, Consultant shall submit invoices to the City identifying the services performed in the billing period, milestones achieved, and the charges therefor (including an identification of personnel who performed the services, hours worked, hourly rates, and reimbursable expenses), based upon the Consultant's billing rates (set forth on Exhibit "B," attached hereto and incorporated herein by reference) or as otherwise agreed by the parties. The City shall make monthly payments to Consultant for services which are performed in accordance with this Agreement, to the reasonable satisfaction of the City.

4(B). "Not to Exceed" Compensation. The compensation payable to Consultant for the services identified in Exhibit "A" shall not exceed \$448,500.00. Consultant shall not perform any services beyond the services identified in Exhibit "A" without prior written authorization from the City's Authorized Representative. If the City's Authorized Representative provides authorization for additional services, the total compensation to the Consultant under this Agreement shall not exceed \$747,500.00.

4(C). Consultant's Failure to Perform. In the event that Consultant performs services which do not comply with the requirements of this Agreement, Consultant shall, upon receipt of written notice from the City, re-perform the services (without additional compensation to the Consultant). If Consultant's failure to perform in accordance with this Agreement causes damages to the City, the City may bring an action against Consultant for the damages incurred.

5. AUTHORIZED REPRESENTATIVES.

5(A). Consultant's Authorized Representative. Consultant understands that, in entering into this Agreement, the City has relied upon Consultant's ability to perform in accordance with its representations regarding the qualifications of the

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

Consultant (including the qualifications of its Authorized Representative, its personnel, and its subconsultants, if any) identified in Exhibit “C,” attached hereto and incorporated herein by reference. Therefore, Consultant shall not replace its Authorized Representative, or any of the personnel or subconsultants identified in Exhibit “C,” without the prior written consent of the City, unless such individual ceases to be employed by Consultant. All services under this Agreement shall be performed by, or under the direct supervision of, Consultant’s Authorized Representative, as identified in Exhibit “C.”

5(B). City’s Authorized Representative. For the performance of services under this Agreement, the Consultant shall take direction from the City’s Authorized Representative: Johanna Canaday, unless otherwise designated in writing by the City’s Authorized Representative or the City Manager.

6. INFORMATION AND DOCUMENTATION.

6(A). Information from City. City has made an effort to provide Consultant with all information necessary for Consultant’s performance of services under this Agreement. If Consultant believes additional information is required, Consultant shall promptly notify the City, and the City will provide to Consultant all relevant non-privileged information in City’s possession.

6(B). Consultant’s Accounting Records. Consultant shall maintain all accounting records related to this Agreement in accordance with generally accepted accounting principles and state law requirements, and in no event for less than four years. Consultant’s accounting records shall include, at a minimum, all documents which support Consultant’s costs and expenses related to this Agreement, including personnel, subconsultant invoices and payments, and reimbursable expenses. Consultant’s accounting records shall be made available to City within a reasonable time after City’s request, during normal business hours.

7. RELATIONSHIP BETWEEN THE PARTIES. Consultant is, and at all times shall remain, an independent contractor solely responsible for all acts of its employees, agents, or subconsultants, including any negligent acts or omissions. Consultant is not City’s agent, and shall have no authority to act on behalf of the City, or to bind the City to any obligation whatsoever, unless the City provides prior written authorization to Consultant. Consultant is not an officer or employee of City, and Consultant shall not be entitled to any benefit, right, or compensation other than that provided in this Agreement.

8. CONFLICTS OF INTEREST PROHIBITED. Consultant (including its employees, agents, and subconsultants) shall not maintain or acquire any direct or indirect interest that conflicts with the performance of this Agreement.

9. NONDISCRIMINATION. Consultant shall comply with all applicable federal, state, and local laws regarding nondiscriminatory employment practices, whether or not

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

said laws are expressly stated in this Agreement. Consultant shall not discriminate against any employee or applicant because of race, color, religious creed, national origin, physical disability, mental disability, medical condition, marital status, sexual orientation, or gender.

10. COMPLIANCE WITH LAW AND STANDARD OF CARE. Consultant shall comply with all applicable legal requirements including all federal, state, and local laws (including ordinances and resolutions), whether or not said laws are expressly stated in this Agreement. Consultant shall perform services under this Agreement using a standard of care equal to, or greater than, the degree of skill and diligence ordinarily used by reputable professionals, with a level of experience and training similar to Consultant, performing under circumstances similar to those required by this Agreement.

11. BUSINESS TAX. The Consultant shall apply for and pay the business tax and registration tax for a business license, in accordance with Fremont Municipal Code Title 5, Chapter 5.05.

12. INSURANCE. Consultant shall, throughout the duration of this Agreement, maintain insurance to cover Consultant (including its agents, representatives, sub-consultants, and employees) in connection with the performance of services under this Agreement of the types and in the coverage amounts set forth in Exhibit D entitled “Insurance Requirements”. This Agreement identifies the minimum insurance levels with which Consultant shall comply; however, the minimum insurance levels shall not relieve Consultant of any other performance responsibilities under this Agreement (including the indemnity requirements), and Consultant may carry, at its own expense, any additional insurance it deems necessary or prudent. Concurrently with the execution of this Agreement by the Consultant, and prior to the commencement of any services, the Consultant shall furnish written proof of insurance (certificates and endorsements), in a form acceptable to the City. Consultant shall provide substitute written proof of insurance no later than 30 days prior to the expiration date of any insurance policy required by this Agreement.

13. SECURITY PROCEDURES.

Service Provider shall follow the special requirements listed below for the access to and use of the Fremont Police Department Facility and systems, located at 2000 Stevenson Boulevard, Fremont CA 94538 (“FPDF”).

1. Use of Property

- a. Vendor shall confine work operations at the FPDF to the areas of service coordinated with the City of Fremont authorized representative. Delivery may be accessed from the eastern vehicle gate (gate #3) of the FPDF.
- b. Service Provider shall not use facilities or equipment in the FPDF (i.e. non-public restrooms, telephones, computers, kitchen facilities, etc.)

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

2. Smoking is prohibited inside the gates of the FPDF

Vendor's Employees

- a. Prior to accessing or beginning work at the FPDF, Service Provider will be required to submit a list of employees working at the FPDF.
- b. All Service Provider employees entering the FPDF to conduct work pursuant to this Agreement are required to complete a background screening process administered by the Police personnel. The background process shall include submission to LiveScan fingerprinting for the purpose of conducting a criminal background check and a personal history statement. Results are generally received within 72 hours but may take longer if further investigation is required. Additional required information may include proof of identification and follow-up questioning.
- c. The Fremont Police Department will review all background checks and retains the authority to approve or disapprove potential employees from entering the FPDF. Examples of exclusionary findings include felony convictions and various misdemeanor convictions which may present a security risk. The Fremont Police Department will also retain the right to suspend or revoke previously issued approvals throughout the term of this Agreement.
- d. The City will incur the costs of the screening process, to include the LiveScan check for up to 10 employees of the Service Provider.
- e. Service Provider's employees shall enter the FPDF through the eastern gate (gate #3) only and park their vehicles at the rear curb inside the Police Facility for delivery of goods.
- f. No firearms, ammunition, opiates, non-prescription drugs, alcohol, controlled substances, or any other illicit contraband will be allowed on the FPDF. Any person determined to be under the influence of alcoholic beverages or any controlled substances or in possession of illicit contraband such as those listed above, shall be removed from the FPDF and future access revoked.
- g. Personal search is not normally required. However, the Fremont Police Facility reserves the right to search Service Provider's employees that enter the FPDF.
- h. Lunch boxes, toolboxes and any other containers brought into the FPDF may be inspected on a regular basis, as determined by the Fremont Police Personnel.

14. CONFIDENTIAL INFORMATION.

14(A) The term "Confidential Information" shall mean any and all information which is disclosed by either party ("Owner") to the other ("Recipient") verbally, electronically, visually, or in a written or other tangible form which is either identified or should be reasonably understood to be confidential or proprietary. Confidential Information includes, but is

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

not limited to, trade secrets, computer programs, software, documentation, formulas, data, inventions, techniques, marketing plans, strategies, forecasts, customer lists, employee information, financial information, confidential information concerning Owner's business, as Owner has conducted it or as it may conduct itself in the future, confidential information concerning any of Owner's past, current, or possible future products or manufacturing or operational methods, including information about Owner's research, development, engineering, purchasing, manufacturing, accounting, marketing, selling or leasing, and any software (including third party software) provided by Owner. Owner's Confidential Information shall be treated as strictly confidential by Recipient and shall not be disclosed by Recipient except to those third parties with a need to know and that are operating under a confidentiality agreement with non-disclosure provisions no less restrictive than those set forth herein. This Agreement imposes no obligation upon the parties with respect to Confidential Information which either party can establish by legally sufficient evidence: (a) was in the possession of, or was rightfully known by the Recipient without an obligation to maintain its confidentiality prior to receipt from Owner; (b) is or becomes generally known to the public without violation of this Agreement; (c) is obtained by Recipient in good faith from a third party having the right to disclose it without an obligation on confidentiality; (d) is independently developed by Recipient without the participation of individuals who have had access to the Confidential Information or (e) is required to be disclosed by court order or applicable law, provided prior notice is given to the Owner. The Recipient shall not obtain, by virtue of this Agreement, any rights title or interest in any Confidential Information of the Owner. Within fifteen (15) days after termination of this Agreement, each party shall certify in writing to Owner that all copies of Owner's Confidential Information in any form, including partial copies, have been destroyed or returned to Owner.

Consultant acknowledges that the CITY is a governmental agency and may be required to release certain information under requests made according to provisions of the Public Records Act.

14(B) Recipient shall protect the deliverables resulting from Services with at least the same degree of care and confidentiality, but not less than a reasonable standard of care, which Recipient utilizes for Recipient's Confidential Information.

14(C) The terms of this Section 12 shall survive termination of this Agreement.

15. REPORTING DAMAGES. If any damage (including death, personal injury or property damage) occurs in connection with the performance of this Agreement, Consultant shall immediately notify the City Risk Manager's office by telephone at

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

510-284-4050, and Consultant shall promptly submit to the City's Risk Manager and the City's Authorized Representative, a written report (in a form acceptable to the City) with the following information: (a) name and address of the injured or deceased person(s), (b) name and address of witnesses, (c) name and address of Consultant's insurance company, and (d) a detailed description of the damage and whether any City property was involved.

16. INDEMNIFICATION.

16(A) Consultant shall indemnify, hold harmless, and defend the City (including its elected officials, officers, agents and employees) from and against any and all claims by third parties (including all related litigation, demands, damages, liabilities, costs, and expenses, and including court costs and attorney's fees) resulting or arising from its failure to perform, under this Agreement.

16(B) Copyright and Patent Indemnification. Claims which trigger Consultant's responsibility under Section 15 shall include any claims that the software resulting from the provision of Services pursuant to the attached Exhibit A Scope of Services infringe any patent, copyright, or accidental or intentional violation of a trade secret or other intellectual property of a third party not included in this Agreement. Consultant shall, in its reasonable judgment and at its option and expense: (i) obtain for the City the right to continue using the Software; or (ii) replace or modify the Software so that it becomes non-infringing while giving equivalent performance. Consultant shall not have any liability for a claim alleging that any Software infringes a patent or copyright if the alleged infringement was developed based on information furnished by the City or if the alleged infringement is the result of a modification made by the City.

17. LIMITED WARRANTY.

17(A) Consultant warrants that it has title to the Software and/or the authority to grant licenses to use the Software.

17(B) Consultant warrants that the Software will perform substantially in accordance with the Documentation during the term of this Agreement and that the Software media is free from material defects. Consultant does not warrant that the Software is error-free.

17(C) Consultant's sole obligation with respect to its limited warranty is limited to repair or replacement of the defective Software, provided Licensee notifies Consultant of the deficiency within the one-year period and provided Licensee has installed all Software updates provided pursuant to Consultant's Support Services.

Each Software application shall operate in accordance with the Documentation with respect to date calculations before, during, and after the Year 2000 in that it will correctly address and operate accurately: (1) the change of the century in a

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

standard compliant manner, including both the Year 2000 and beyond; (2) the existence and absence of leap years; and (3) date related operations. Compliance means that the Software operates and correctly processes in a manner that: (i) calculations using dates execute utilizing a four digit year; (ii) the Software functionality, including but not limited to, entry, inquiry, maintenance and update (whether on-line, batch or otherwise) supports four digit year processing; (iii) successful transition to the Year 2000 using the correct system date occurs without human intervention; (iv) after the transition to the Year 2000, processing with a four digit year shall occur without human intervention; (v) all leap years shall be calculated correctly; and (vi) correct results shall be produced in forward and backward date calculation spanning century boundaries (there are no years stored as two digits).

17(D) Consultant warrants that to the best of its knowledge, information, and belief, the Software does not contain any known viruses, back-doors or time bombs, (or similar malicious code), or undocumented security codes that could prevent Licensee's perpetual use of the Software.

17(E) CONSULTANT DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL EITHER PARTY BE RESPONSIBLE FOR ANY CONSEQUENTIAL or similar DAMAGES ARISING FROM OR RELATED TO THIS AGREEMENT.

18. TERM OF THE AGREEMENT. The term of this Agreement shall commence on the date last signed by the parties, below, and shall continue until completion of all services in accordance with the timing requirements set forth in Exhibit "A" and paragraph 2 of this Agreement. This Agreement may be terminated by the City without cause upon fifteen (15) days written notice to Consultant. If the City exercises its right to terminate this Agreement in accordance with this paragraph, the City shall pay Consultant for all services satisfactorily performed in accordance with this Agreement, through and including the date of termination, but not to exceed the payments according to the rates specified in Exhibit "B" or the maximum amount authorized under paragraph 4 of this Agreement. For clarity, in the event of such termination by the City Consultant will not be required to refund any fees previously paid by the City.

19. DEFAULT. If either party ("demanding party") has a good faith belief that the other party ("defaulting party") is not complying with the terms of this Agreement, the demanding party shall give written notice of the default (with reasonable specificity) to the defaulting party, and demand the default to be cured within ten days of the notice. If: (a) the defaulting party fails to cure the default within ten days of the notice, or, (b) if more than ten days are reasonably required to cure the default and the defaulting party fails to give adequate written assurance of due performance within ten days of the notice, then (c) the demanding party may terminate this Agreement upon written notice to the defaulting party.

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

20. NOTICES. All notices required or contemplated by this Agreement shall be in writing and shall be delivered to the respective party as set forth in this section. Communications shall be deemed to be effective upon the first to occur of: (a) actual receipt by a party's Authorized Representative, or (b) actual receipt at the address designated below, or (c) three working days following deposit in the United States Mail of registered or certified mail sent to the address designated below. The Authorized Representative of either party may modify their respective contact information identified in this section by providing notice to the other party.

21. HEADINGS. The heading titles for each paragraph of this Agreement are included only as a guide to the contents and are not to be considered as controlling, enlarging, or restricting the interpretation of the Agreement.

22. SEVERABILITY. If any term of this Agreement (including any phrase, provision, covenant, or condition) is held by a court of competent jurisdiction to be invalid or unenforceable, the Agreement shall be construed as not containing that term, and the remainder of this Agreement shall remain in full force and effect; provided, however, this paragraph shall not be applied to the extent that it would result in a frustration of the parties' intent under this Agreement.

23. GOVERNING LAW, JURISDICTION, AND VENUE. The interpretation, validity, and enforcement of this Agreement shall be governed by and interpreted in accordance with the laws of the State of California. Any suit, claim, or legal proceeding of any kind related to this Agreement shall be filed and heard in a court of competent jurisdiction in the County of Alameda.

24. ASSIGNMENT AND DELEGATION. This Agreement, and any portion thereof, shall not be assigned or transferred, nor shall any of the Consultant's duties be delegated, without the written consent of the City. Any attempt to assign or delegate this Agreement without the written consent of the City shall be void and of no force or effect. A consent by the City to one assignment shall not be deemed to be a consent to any subsequent assignment.

25. MODIFICATIONS. This Agreement may not be modified orally or in any manner other than by an agreement in writing signed by both parties.

26. WAIVERS. Waiver of a breach or default under this Agreement shall not constitute a continuing waiver or a waiver of a subsequent breach of the same or any other provision of this Agreement.

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

27. CONFLICTS. If any conflicts arise between the terms and conditions of this Agreement and the terms and conditions of the attached exhibits or any documents expressly incorporated, the terms and conditions of this Agreement shall control.

28. ENTIRE AGREEMENT. This Agreement, including all documents incorporated herein by reference, comprises the entire integrated understanding between the parties concerning the services described herein. This Agreement supersedes all prior negotiations, agreements, and understandings regarding this matter, whether written or oral. The documents incorporated by reference into this Agreement are complementary; what is called for in one is binding as if called for in all.

28. COMPETITIVE PROCUREMENT SELECTION PROCESS. The competitive procurement selection process by which City of Fremont contracts with Consultant may be acknowledged and used by other California government entities to replace their respective competitive procurement selection process for RFP purposes such that other government entities may contract with Consultant for the same or substantially similar product(s) or service(s) without undergoing a separate competitive procurement selection process. Accordingly, the terms, and conditions of this contract executed between City of Fremont and Consultant may be used by other government entities to contract with Consultant for the same or substantially similar product(s) and service(s) under either the same or a separate contract; provided for clarity that the pricing applicable to other government entities may differ depending on the nature of Consultant's engagement with such government entity.

29. SIGNATURES. The individuals executing this Agreement represent and warrant that they have the right, power, legal capacity, and authority to enter into and to execute this Agreement on behalf of the respective legal entities of the Consultant and the City. This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective successors and assigns.

30. COUNTERPARTS. This Agreement may be signed in counterparts, each of which shall be deemed to be an original. The Parties agree that the digital signatures of the parties included in this Agreement are intended to authenticate this writing and to have the same force and effect as manual signatures. Any digital signature shall have the same legal validity and enforceability as a manually executed signature or use of a paper-based record keeping system to the fullest extent permitted by applicable law.

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

IN WITNESS WHEREOF, the City and Consultant do hereby agree to the full performance of the terms set forth herein.

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM****EXHIBIT A****SCOPE OF SERVICES**

This Scope of Services, Exhibit “A,” is hereby incorporated by reference into the Agreement, under Agreement Section 1.

Exhibit A is organized in five parts below:

1. Discussion of Overall Project Goals
2. Description of Software
3. Security
4. Implementation & Delivery Methodology
5. Support & SLAs

1. DISCUSSION OF OVERALL PROJECT GOALS. Peregrine is excited to partner with Fremont Police Department to deliver a real time data visualization platform to serve as a key component of the Real Time Information Center (RTIC). Our operating model is to work closely with our customers to implement the Peregrine platform, and we will work with Fremont Police Department to develop standard operating procedures to kick off Phase 1 and Phase 2 of the FPD project with ongoing partnership to deliver success over time.

The Peregrine platform is centered around integrating myriad data sources to provide a current and complete operational picture and maximize situational awareness. We understand the Intelligence-led Policing model and philosophy, and our objective is to help Fremont Police Department achieve their goals in reducing crime and making their city safer for the communities they serve.

2. DESCRIPTION OF SOFTWARE.

Peregrine is a web based CJIS compliant Platform-as-a-Service (PaaS) that provides a single point of access to view and analyze large-scale real-time data from various data sources. The software performs several critical functionalities, including data integration, search and information retrieval, advanced analytics, data management, reporting, collaboration, access control, and security.

Peregrine was developed to provide a common operations and intelligence picture to facilitate real-time operational decision-making, enhance investigatory capabilities, streamline criminal analysis, and generate intelligence products for Law Enforcement. The software creates an extremely efficient method for turning large amounts of raw data into useful decision-support and analysis products, quickly and with significant reduction in manual manpower processing needs. Peregrine will be made available to any and all law enforcement personnel within Fremont, through the Fremont Police

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT REAL TIME DATA VISUALIZATION PLATFORM

Department.

Peregrine was designed for complete system interoperability and supports existing record management systems (RMS), computer aided dispatch systems (CAD), video management systems (VMS), body worn camera (BWC) systems, automated license plate reader (ALPR) data, real-time sensor data, case management systems, evidence management systems, arrest records, search warrant data, subpoenaed data, gang intelligence data, suspicious activity reports, and unstructured data such as document, imagery, and video repositories. Peregrine delivers:

- Technology to integrate and secure data of any type or scale
- Intuitive methods for people to search and access all data from one place
- Applications that empower entire agencies to answer complex questions
- A platform for teams to securely collaborate on operations, investigations, and projects

Peregrine Platform

Understand

Explore, analyze, and operationalize data with powerful, natively interoperable apps

Unify & Enrich

Make data useful by transforming, categorizing, and delivering it for easy search and discovery

Collect

Unify real-time data from across the organization and store it in a central location

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT REAL TIME DATA VISUALIZATION PLATFORM

Data Integration	Search	Advanced Analytics	Secure Collaboration
- Integrate and secure data of any type or scale - Automatically tag unstructured data - Automatically detect and create links across data silos - Resolve duplicate data while maintaining sourcing and lineage of every record - Automate manual data transformation, including processing of raw data from search warrants - Enrich data with client specific logic	- Perform global search across all data from one place - Search both structured and unstructured data, including media - Query sensitive external systems without storing data - Perform advanced geospatial search and filtering - Search for links using integrated network analysis functions - Search partner agency data with granular permission controls	- Analyze data on maps, link charts, timelines, lists, and graphs within one system - Automate report creation and distribution - Set custom alerts on keywords, events, or records - View and analyze live streams of media data - Configure interactive dashboards with drill-downs to explore source data	- Leverage presentation tools to share analysis or narrate a criminal story - Securely share files, alerts, reports, search queries, maps, link charts, or intelligence products across teams and with partner agencies - Implement rule-based permission control models according to regulatory and agency needs

Access Control & Security

- Full audit logging including when records were created or modified and the source from which they were derived
- Granular security and access restrictions associated with specific data types and data sources
- CJIS and FIPS 140-2 compliant cloud-based infrastructure

3. SECURITY.

3(A). CJIS Compliance. Peregrine maintains policies and procedures for securely storing, handling, and transmitting data. By default, Peregrine encrypts all data both in transit and at rest in accordance with CJIS standards. The Peregrine system adheres to FIPS 140-2 cryptographic standards along with all the underlying cryptographic modules as mandated by the AWS government cloud platform.

Encryption key management uses FIPS 140-2 security modules with 256-bit strength and follows password policies outlined in the CJIS security policy.

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT REAL TIME DATA VISUALIZATION PLATFORM

The Peregrine system isolates boundaries using techniques such as security groups, policies, access controls, network firewalls, ACLs, intrusion systems, and IPSec within its virtual private cloud (VPC). Monitoring and controls are in place to ensure that any connections or data transmissions are through authorized mediums. Public and private networks are allocated to ensure that unauthorized access is restricted. The cloud infrastructure uses server-side encryption for both blob and block storage to provide an additional layer of protection.

3(B). Compliance Operations. Peregrine's infrastructure and operations are compliant with CJIS and follow industry best- practice attestations, alignments, and frameworks.

These standards include a robust logging framework, established at every level of the architecture. Peregrine coordinates comprehensive security reviews, as well as automatic alerting and triage frameworks for security events, application performance, and infrastructural integrity.

3(C). Secure software review procedures. A multi-tiered, rigorous software security approach provides an additional level of protection, including an internal and externally verified pre-release and post-release review framework.

Testing standards deployed by Peregrine meet industry frameworks such as Microsoft SLDC and are designed to remediate vulnerabilities and security risks.

Peregrine also employs state-of-the-art continuous deployment and patching capabilities, enabling security and support engineers to patch, remediate, and upgrade services with little to no downtime or systemwide effects.

3(D). Access management. Peregrine uses multiple mechanisms for maintaining access control including access control lists, resource restrictions, data encryption, and application level permissions. System access is restricted to authorized personnel using multifactor authentication.

Peregrine easily integrates with any existing single sign-on provider, providing users a familiar, secure sign-on experience, and administrators single-source control over access to multiple applications within your network. Peregrine is out-of-the-box compatible and easy to integrate with most identity providers, including ADFS, Okta, and PingFederate.

4. IMPLEMENTATION & DELIVERY METHODOLOGY. Peregrine is a web based CJIS compliant Platform-as-a-Service (PaaS) which is implemented with the customer

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT REAL TIME DATA VISUALIZATION PLATFORM

through our client-facing project team. A cloud-based solution achieves superior flexibility, reliability, delivery, and security while also drastically lowering the costs to the end- user.

Peregrine operates on modern web browsers. The following versions are supported: Google Chrome Version 69 and above, Mozilla Firefox Version 62 and above, or Microsoft Edge Version 17 and above. Major releases occur throughout the year and typically follow a monthly cadence. Minor releases, patches, bug fixes, performance improvements, and security updates are continuously released on a weekly basis.

Each Peregrine implementation project consists of four steps to maximize success and impact for the customer. These steps and our engineering execution accelerate speed to value; they enable full implementation and use within 90 days.

4(A). Implementation Timeline & Logistics.

1. Pre-work – Scoping and Kick Off Work – *first two weeks*
 - a. Determine order of priority for data source integration and user group onboarding within the Real Time Information Center
 - b. Get access to identified data sources and introduction to users
 - c. Set up project team and governance
2. Month 1 – Data Integration, Data Modeling, and User Discovery
 - a. Standup Peregrine
 - b. Setup proper permissions controls
 - c. Ingest, transform, and model data sources
 - d. Validate data quality with FPD team
 - e. Onboard first set of users
 - f. 30-day steering committee meeting
3. Month 2 – Real-time Workflows and Analytics
 - a. Train Real Time Information Center users to use the whole suite of Peregrine applications for real-time search, analytics, reporting, investigations, and other workflows
 - b. Implement operational workflows
 - c. 60-day steering committee meeting
4. Month 3 – Operationalization and Next Steps
 - a. Continue collecting feedback and improve user workflows
 - b. Validate work based on actionable results
 - c. Identify next steps

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM

d. 90-day steering committee meeting (to recur quarterly after end Phase 1)

4(B). Project Management & Team Members. Phase 1 delivery will be organized using the following project management structure:

1. **Steering Committee.** A joint Fremont Police Department / Peregrine Steering Committee comprised of executive leadership will: ensure and guide

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT

REAL TIME DATA VISUALIZATION PLATFORM

delivery of the solution, unblock resources, if necessary, to ensure project success, and will act as a point of escalation for the Team Lead.

2. **Peregrine Team Lead.** The Peregrine Team Lead will provide day-to-day project management of the overall Fremont Police Department/Peregrine effort. The Team Lead will: manage the Peregrine Implementation and Infrastructure teams, communicate and manage relationship with the Steering Committee, and ensure development and delivery of a value-adding real time data visualization platform.
3. **Peregrine Implementation Team.** The Peregrine Implementation team will be comprised of deployment strategists and forward deployed engineers. The implementation team will be responsible for data integration, workflow deployment, and user adoption. Each team member will have data engineering skills and experience, along with deep workflow design and user adoption knowledge.

The implementation team will initially be onsite for a period of two weeks to meet with Fremont Police Department and conduct the scoping and kick off, along with the initial data integration and modeling. After the initial two weeks, the team will use a blend of onsite and remote meetings to complete the implementation and ongoing support of Fremont Police Department.

A full description of implementation components is described in the table below:

IMPLEMENTATION DESCRIPTION
Enterprise Data Integrations
Tiburon records management system (RMS)
Tiburon computer aided dispatch (CAD) system
Milestone video management system (VMS)
WatchGuard cameras (body worn and vehicle)
Configuration with various network camera models
CRIMS (Alameda County criminal justice info) (when available)
PIPS/Neology automated license plate reader (ALPR) via NCRIC LPR data warehouse (when available)
NCRIC CAD/RMS/JMS data warehouse (when available)
Verizon Network Fleet – VIPS vehicle GPS / Automated vehicle locator (AVL)
Document storage database (optional)
City of Fremont ArcGIS layers
Fremont Police Department user credentials database

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM

Search warrant data import & processing:
Call data records for 4 major wireless communications service providers
Mobile phone GPS records
Physical phone extraction records
Generic tabular data import & processing
Additional warrant data imports subject to mutual written agreement of parties
Vigilant partner agency and commercial license plate reader database (optional and fee may apply)
API subscription to CLEAR (optional and fee may apply)
API subscription to TLO (optional and fee may apply)
Additional data integrations subject to mutual written agreement of parties
Platform
Unlimited users
Unlimited generic file storage (all file types accepted)
Unlimited exports and downloads of data
Unlimited search and saved searched queries
Investigations application layer – link, map and tabular analyses on integrated data
Reporting and Dashboarding application layer – massive scale data analysis and visualization on integrated real-time data
Unlimited alert configurations
Entity resolution
Upon data integration
Ad-hoc in the platform
Permission controls, including location-based, user groups, and cell-level ACLs
Within-agency permission controls
External organization permission controls
Unlimited sharing between users within organization
Unlimited sharing with external organizations
Unlimited interagency searches (with executed MOUs)
Automatic record deletion detection & expungement
Full Audit Capability
User Training & Support
Peregrine Academy platform introductory user training for new users
Peregrine Academy platform advanced user training for new users
Peregrine Academy mobile capability user training for new users
User-specific workflow design and support
24-hour troubleshooting
Software maintenance, support, and updates
Recurring Steering Committee meetings

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT REAL TIME DATA VISUALIZATION PLATFORM

5. SUPPORT & SLAs. Ongoing support is available, both during and after Phase 1, 24 hours a day, 7 days a week, 365 days a year and is included in the cost of the software license. Additionally, self-help user guides are available in the Peregrine Knowledge Base, designed to answer frequently asked questions and provide walk through guides of common workflows.

5(A). System availability. During any calendar month, the Peregrine system shall be available to users no less than 99.9% of the time on a 24x7 basis, excluding scheduled maintenance of the system, provided that Peregrine is not responsible for any downtime of the applications or software caused by third party data services (e.g. RMS databases). Peregrine shall provide prompt notification as soon as it becomes aware of any actual or potential unscheduled downtime of the system, as well as periodic updates during the unscheduled downtime regarding Peregrine’s progress in remedying the unavailability and the estimated time at which the system shall be available.

5(B). Issue Response and Resolution.

Severity Level	Level of Effort	Initial Response	Work Around	Targeted Time to Permanent Fix	Status Updates
1	Continuous best efforts, 24/7	Immediate, but in no event to exceed 30 minutes	8 hours	3 calendar days	Every 2 hours prior to work around and every calendar day until permanent correction
2	Commercially reasonable efforts, 24/7	1 hour	24 hours	5 calendar days	Every 6 hours prior to work around and every calendar day until permanent correction
3	Commercially reasonable efforts, during normal business hours	1 business day	10 business days	20 business days	Every 2 business days prior to work around and every calendar day until permanent correction

- “Severity level 1 error” means any system error that, for fifty percent (50%) or more of FPD’s users, renders the system or any material portion of the system inoperative, or materially impairs use of the system in a production environment.

CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM

- “Severity level 2 error” means any system error that, for fifty percent (50%) or more of FPD’s users, substantially impairs use of one or more features or functions of the system.
- “Severity level 3 error” means any system error that, for fifty percent (50%) or more of FPD’s users, has a minimal impact on the performance or operation of the system.

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

EXHIBIT B

COMPENSATION

This compensation schedule, Exhibit “B,” is hereby incorporated by reference into the Agreement, under Agreement Section 4. For all services identified in Exhibit “A”, Scope of Services, the City agrees to pay and Consultant agrees to accept as total compensation the following:

Consultant proposes a fixed software license fee of \$149,500 per year. The initial implementation fee will be waived with a multi-year commitment. This license includes all ongoing support, data integration maintenance, workflow development, and user training to support the scope of this work. Peregrine will not charge for travel or other miscellaneous expenses. The total for years one through three shall not exceed \$448,500.00, due to Peregrine in three annual payments of \$149,500.00 with an option to extend two additional years for a five-year contract not-to-exceed \$747,500.00. Year six and beyond shall not exceed a 5% annual increase.

The contract shall run for a period of three years with payments for the next year due annually upon the contract anniversary with an option to extend two additional years. The initial payment shall be due next 30 days from receipt of invoice.

REAL TIME DATA VISUALIZATION PLATFORM**

EXHIBIT C

QUALIFICATIONS

These Consultant Qualifications, Exhibit “C,” are incorporated by reference into the Agreement, under Agreement Section 5.

Peregrine was founded in 2017 to help law enforcement professionals by connecting real time information from their existing data sources to bring insights together into one real time data visualization platform. Our team initially embedded with the San Pablo Police Department for nearly a year to deeply understand the existing environment and build solutions to close the gaps between data sources. Since that time, Peregrine has contracted with several agencies, raised a Series A funding round, and grown to eleven team members, yet, we still deploy with the same curiosity, empathy, and drive as our initial work with San Pablo. Peregrine is head quartered in San Francisco, CA, but our work happens at police departments with our customers. Our team has decades of experience working with law enforcement agencies including police departments, sheriff offices, district attorneys, and regional intelligence centers. We have built and deployed software solutions that have driven meaningful impact in each of these areas and beyond. Peregrine has a strong financial position and no outstanding litigation or threats of litigation.

Our work includes deployments with San Pablo (CA) Police Department, Pittsburg (CA) Police Department, and Albuquerque (NM) Police Department. In addition to supporting real time information centers, we work with investigators, analysts, administrative personnel, and command staff. The work with Albuquerque Police Department (APD) is specifically focused on their real time crime center and crime analyst’s unit. The department has ~840 sworn officers and has objectives to reduce crime, specially shootings and auto burglary, by identifying crime trends, deploying effective resources, and making informed decisions based on data-driven analysis, intelligence, and technology tools. The APD real time crime center monitors and facilitates increased situational awareness and real time operational decision making by accessing calls for service in CAD (Tiburon), existing information from the RMS (Tiburon), video surveillance (Milestone / Genetec/ others), LPR (Vigilant), and more.

Each Peregrine deployment consists of four steps to maximize success and impact for the customer. Please see the “Scope of Service” for further details, but the implementation includes:

1) Pre-work – Scoping and Kick off Work, 2) Month 1 – Data Integration, Data Modeling, and User Discovery, 3) Month 2 – Real-time Workflows and Analytics, and 4) Month 3 – Operationalization and Next Steps. This process helps align Peregrine and our customers and drive towards full implementation and use within 90 days. This team will initially be onsite for a period of two weeks to meet with Fremont Police Department and conduct the scoping and kick off, along with the initial data integration and modeling.

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

EXHIBIT D

**INSURANCE REQUIREMENTS
Professional**

Consultant's performance of the services under this agreement shall not commence until Consultant shall have obtained all insurance required under this Exhibit and such insurance shall have been reviewed and approved by the Risk Manager. All requirements herein provided shall appear either in the body of the insurance policies or as endorsements and shall specifically bind the insurance carrier.

Consultant shall procure and maintain for the duration of the contract all necessary insurance against claims now and in the future for alleged injuries to persons or damages to property which may arise from or in connection with the performance of the services by the Consultant, the Consultant's agents, representatives, employees and subcontractors. Required professional liability insurance shall be maintained at the level specified herein for the duration of this agreement and any extension thereof and for twelve additional months following the agreement termination or expiration.

INSURANCE COVERAGE AND LIMITS RESTRICTIONS

1. It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured; whichever is greater.
2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Fremont before the City of Fremont's own insurance or self-insurance shall be called upon to protect it as a named insured.

A. MINIMUM SCOPE OF INSURANCE

Coverage shall be at least as broad as:

1. Insurance Services Office Commercial General Liability coverage:
 - a. Blanket contractual liability
 - b. Broad form property coverage
 - c. Personal injury
2. Insurance Services Office form covering Automobile Liability, code 1 (any auto).

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

3. Workers' Compensation insurance as required by the State of California and Employer's Liability insurance.
4. Professional Liability insurance
5. Cyber Liability insurance:
 - a. Third Party Liability coverage:
 - i. Privacy liability covering loss in the event of Consultant's failure to protect City's data.
 - ii. Network security liability in the event of any failure of network security including unauthorized access or unauthorized use of the City's data.
 - iii. Internet media liability covering infringement of copyright or trademark, invasion of privacy, libel, slander, plagiarism or negligence.
 - b. First Party Liability coverage:
 - i. Cyber extortion monies and associated expenses arising out of a criminal threat to release City's data.
 - ii. Digital asset loss for costs incurred to replace, restore or recollect data that has been corrupted or destroyed as a result of a network security failure.
 - iii. Business interruption to cover loss of income and extra expense arising out of an interruption of network service due to an attack on Consultant's network.
 - iv. Notification and crisis management covering expenses in the event of a data breach including a third party computer forensics team, notifying users whose personal information was breached, credit monitoring, and third party identity restoration services.
6. Such other insurance coverages and limits as may be required by the City of Fremont.

B. MINIMUM LIMITS OF INSURANCE

Consultant shall maintain limits no less than:

1. General Liability: \$1,000,000 per occurrence for bodily injury, personal injury and property damage and a \$2,000,000 aggregate. If Commercial General Liability insurance or other form with a general aggregate liability is used, either the general aggregate limit shall apply separately to this agreement or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability: \$1,000,000 per accident for bodily injury and property damage.
3. Employer's Liability: Bodily Injury by Accident - \$1,000,000 each accident.

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

Bodily Injury by Disease - \$1,000,000 policy limit.

Bodily Injury by Disease - \$1,000,000 each employee.

4. Professional Liability insurance: \$2,000,000
5. Cyber Liability insurance: \$2,000,000
6. Such other insurance coverages and limits as may be required by the City of Fremont.

C. DEDUCTIBLES AND SELF-INSURED RETENTIONS

1. Any deductibles or self-insured retentions must be declared to and approved by the City of Fremont. At the option of the City of Fremont, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City of Fremont, its officers, officials, employees, and volunteers; or the Consultant shall procure a bond guaranteeing payment of losses and related investigations, claims administration and defense expenses.
2. Policies containing any self-insured retention (SIR) provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or the City of Fremont.
3. The City of Fremont reserves the right to obtain a full certified copy of any insurance policy and endorsement. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. ADDITIONAL INSURED REQUIREMENTS:

1. The required general liability and automobile policies are to contain, or be endorsed to contain the following provisions:
 - a. The City of Fremont, its officers, officials, employees, agents and volunteers are to be covered as additional insureds as respects alleged: liability arising out of activities performed by or on behalf of the Consultant; products and completed operations of the Consultant; premises owned, occupied or used by the Consultant; or automobiles owned, leased, hired or borrowed by the Consultant. The coverage shall contain no special limitations on the scope of protection afforded to the City of Fremont, its officers, officials, employees, agents or volunteers.
 - b. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City of Fremont, its officers, officials, employees, agents or volunteers.
 - c. The Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought except, with respect to the limits of the insurer's liability.
 - d. Consultant shall furnish properly executed Certificates of Insurance from insurance companies acceptable to the City of Fremont and signed copies of the specified endorsements for each policy prior to commencement of work under this agreement. Such documentation shall clearly evidence all coverages required above including specific

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

evidence of separate endorsements naming the City of Fremont and shall provide that such insurance shall not be materially changed, terminated or allowed to expire except after 30 days prior written notice by certified mail, return receipt requested, has been filed with the City Clerk.

Such insurance shall be maintained from the time work first commences until completion of the work under this agreement. Consultant shall replace such certificates for policies expiring prior to completion of work under this agreement.

E. ACCEPTABILITY OF INSURERS

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A: VII.

F. COMPLETED OPERATIONS

Consultant shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event the Consultant fails to obtain or maintain completed operations coverage as required by this agreement, the City of Fremont at its sole discretion may purchase the coverage required and the cost will be paid by the Consultant.

G. CROSS-LIABILITY

The Liability policy shall include a cross-liability or severability of interest endorsement.

H. FAILURE TO MAINTAIN INSURANCE COVERAGE

If Consultant, for any reason, fails to maintain insurance coverage, which is required pursuant to this agreement, the same shall be deemed a material breach of contract. The City of Fremont, at its sole option, may terminate this agreement and obtain damages from the Consultant resulting from said breach. Alternatively, the City of Fremont may purchase such required insurance coverage, and without further notice to Consultant, the City of Fremont may deduct from sums due to Consultant any premium costs advanced by the City of Fremont for such insurance.

I. PRIMARY AND NON-CONTRIBUTORY

For any claims related to this project, the Consultant's insurance coverage shall be primary insurance as respects the City of Fremont, its officers, officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the City of Fremont, its officers, officials, employees, agents or volunteers shall be excess of the Consultant's insurance and shall not contribute with it.

The additional insured coverage under the Consultant's policy shall be "primary and non-contributory" and will not seek contribution from the City of Fremont's insurance or self-insurance and shall be at least as broad as CG

**CITY OF FREMONT – TECHNOLOGY SERVICE AGREEMENT
REAL TIME DATA VISUALIZATION PLATFORM**

20 01 04 13.

J. SUBCONTRACTORS

Consultant shall require all subconsultants to maintain the same levels of insurance and provide the same indemnity that the Consultant is required to provide under this Agreement. A subconsultant is anyone who is under contract with the Consultant or any of its subconsultants to perform work contemplated by this Agreement. The Consultant shall require all subconsultants to provide evidence of valid insurance and the required endorsements prior to the commencement of any work.

K. SUBROGATION WAIVER

Consultant agrees to waive subrogation rights against City of Fremont regardless of the applicability of any insurance proceeds, and to require all Consultants, subcontractors or others involved in any way with the services to do likewise.

L. VERIFICATION OF COVERAGE

Consultant shall furnish the City of Fremont with original endorsements effecting coverage required by this clause. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received and approved by the City of Fremont before the services commence.

RE: Contract # 21-0113 Peregrine Technologies, Inc. - Deployment and Support of a Real Time Data
Visualization Platform

Dear Nicholas:

On March 16, 2021, the City of Fremont ("City") and Peregrine Technologies, Inc. entered into contract # 21-0113 for the deployment and support of a real time data visualization platform ("Agreement"). The Agreement expires on March 16, 2024 and has an option to renew for an additional two years based on the City's option to extend.

The City would like to renew the Agreement for an additional two years through March 16, 2026 based on the terms and conditions stated in the Agreement.

If you have any questions regarding this process, please do not hesitate to contact me.

Sincerely,

DocuSigned by:

Enclosure: Executed Service Agreement # 21-0113

EXHIBIT B
INSURANCE REQUIREMENTS
(Insert City Insurance Requirements)

Exhibit B:
Insurance Requirements
(Information Technology)

Vendor/Consultant shall procure and maintain for the duration of the contract insurance against claims for security breaches, system failures, injuries to persons, damages to software, or damages to property (including computer equipment) which may arise from or in connection with the performance of the work hereunder by the Vendor, its agents, representatives, or employees. Vendor shall procure and maintain for the duration of the contract insurance claims arising out of their services and including, but not limited to loss, damage, theft or other misuse of data, infringement of intellectual property, invasion of privacy and breach of data.

Please consult the full text ahead of this exhibit in Chapter 4 for a more thorough analysis of the special terms and conditions related to cyber contacts.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

- 1. Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **\$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.
- 2. Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Consultant has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **\$1,000,000** per accident for bodily injury and property damage.
- 3. Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease.
(Not required if consultant provides written verification it has no employees)
- 4. Cyber Liability** Insurance, with limits not less than **\$2,000,000** per occurrence or claim, **\$2,000,000** aggregate. Coverage shall be sufficiently broad to respond to the duties and obligations as is undertaken by Vendor in this agreement and shall include, but not be limited to, claims involving security breach, system failure, data recovery, business interruption, cyber extortion, social engineering, infringement of intellectual property, including but not limited to infringement of copyright, trademark, trade dress, invasion of privacy violations, information theft, damage to or destruction

REV 2024-03-25

of electronic information, release of private information, and alteration of electronic information. The policy shall provide coverage for breach response costs, regulatory fines and penalties as well as credit monitoring expenses.

Technology Professional Liability Errors & Omissions

Technology Professional Liability Errors and Omissions Insurance appropriate to the Consultant's profession and work hereunder, with limits not less than **\$2,000,000** per occurrence. Coverage shall be sufficiently broad to respond to the duties and obligations as is undertaken by the Vendor in this agreement and shall include, but not be limited to, claims involving security breach, system failure, data recovery, business interruption, cyber extortion, social engineering, infringement of intellectual property, including but not limited to infringement of copyright, trademark, trade dress, invasion of privacy violations, information theft, damage to or destruction of electronic information, release of private information, and alteration of electronic information. The policy shall provide coverage for breach response costs, regulatory fines and penalties as well as credit monitoring expenses.

a. The Policy shall include, or be endorsed to include, ***property damage liability coverage*** for damage to, alteration of, loss of, or destruction of electronic data and/or information "property" of the Agency in the care, custody, or control of the Vendor.

If the Vendor maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Vendor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Consultant's insurance (at least as broad as ISO Form CG 20 10 11 85 or **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 forms if later revisions used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

REV 2024-03-25

Primary Coverage

For any claims related to this contract, the **Vendor's insurance coverage shall be primary and non-contributory**. Coverage for commercial liability shall be at least as broad as ISO CG 20 01 04 13 as respects the City of Stockton, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or volunteers shall be excess of the Vendor's insurance and shall not contribute with it. This requirement shall also apply to any Excess policies. The City of Stockton does not accept endorsements limiting the Vendor's insurance coverage to the sole negligence of the Named Insured.

Umbrella or Excess Policy

The Vendor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Vendor's primary and excess liability policies are exhausted.

Notice of Cancellation

Each insurance policy required above shall state that **coverage shall not be canceled, except with notice to the City of Stockton**.

Waiver of Subrogation

Requesting a waiver of subrogation on a Vendor's cyber liability policy is not typical, but it can be done in certain situations. An City of Stockton can request a waiver if the Vendor's actions or negligence could impact your City of Stockton's ability to operate, however, most cyber policies simply won't grant this coverage extension so expectations should be managed. If it is granted, we would recommend the following:

Vendor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Vendor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Vendor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Self-Insured Retentions

REV 2024-03-25

Self-insured retentions must be declared to and approved by the City of Stockton. The City of Stockton may require the Vendor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds \$25,000 unless approved in writing by City of Stockton. Any and all deductibles and SIRs shall be the sole responsibility of Vendor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. City of Stockton may deduct from any amounts otherwise due Vendor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named Insured. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. City of Stockton reserves the right to obtain a copy of any policies and endorsements for verification.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A-:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies (Professional & Pollution only)

If any of the required policies provide coverage on a claims-made basis:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
2. Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***
3. If coverage is canceled or non-renewed, and not ***replaced with another claims-made policy form with a Retroactive Date*** prior to the contract effective date, the Vendor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of contract work.

Verification of Coverage

Vendor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause **and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements.** All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the City of Stockton before work commences. However, failure to

REV 2024-03-25

obtain the required documents prior to the work beginning shall not waive the Vendor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time. City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Subcontractors

Vendor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Vendor shall ensure that City of Stockton is an additional insured on insurance required from subcontractors.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Certificate Holder Address

The address for mailing certificates, endorsements and notices shall be:

Legislation Text

File #: 24-0561, **Version:** 1

APPROVE MOTION TO ADOPT STANDARD AGREEMENT AMENDMENT NO. 1 BETWEEN FLOCK GROUP INC. AND THE CITY OF STOCKTON IN AN AMOUNT OF \$877,600 FOR THE INTEGRATION OF PREPARED 911 SOFTWARE

RECOMMENDATION

It is recommended that City Council approve a motion to:

1. Authorize the City Manager to approve Standard Agreement Amendment No. 1 between Flock Group Inc. and the City of Stockton (City), increasing the Compensation subsection by a maximum not to exceed amount of \$877,600 for the integration of Prepared 911 software; and
2. It is further recommended that the City Manager be authorized and directed to make any and all expenditures and appropriations on behalf of the City as appropriate and necessary to carry out the purpose and intent of this motion.

Summary

Prepared 911 fully integrates with the Stockton Police Department's (SPD) Flock cameras and assists in effective communication with the public in emergencies reported to the Dispatch Center. The software can perform text language translation, inbound non-emergency text, GPS location of the caller for Dispatch, artificial intelligence telecommunicator assistance & AI-Powered insights, audio transcription and translation in over 20 languages, and share caller-provided data (live video, photo, GPS location) directly with field personnel, among other capabilities. Funding for the Standard Agreement Amendment was included in the award for the FY 2024-25 AB 109 Funding of the Community Corrections Partnership Task Force (CCP Task Force) under Motion 2024-05-21-1208. SPD is seeking Council approval to expand the current Flock contract to integrate Prepared 911 in an amount not to exceed \$877,600.

DISCUSSION

Background

The SPD Partnership with San Joaquin County for CCP Task Force was approved by Council on May 21, 2024, by Motion 2024-05-21-1208. SPD was awarded the amount of \$3,537,691 in revenues and expenditures for the Police Grants and Special Programs CCP Task Force, allowing the SPD the ability to purchase fundamental services. Through our current Flock contract, Prepared 911 provides a platform that will provide dispatch with automatic caller location, audio for every call, call transcription and translation, livestream media, along with other services which will provide greater awareness and intelligence to responding officers, improving situational awareness and safety.

The SPD currently uses multiple data systems for its daily operations. Most of these systems are not linked and require a significant amount of time, training, and effort to cross analyze case-related data and effectively investigate crime trends. None of these systems allow the department to both proactively understand and respond to public safety concerns in real time. The existing Flock contract provides a robust License Plate Reader (LPR) Program with comprehensive monitoring, processing, and machine vision services that integrate with the Flock ALPR cameras placed at various City locations. Flock's camera system allows officers and detectives to investigate crimes in real time, making our streets safer through vehicle identification and the ability to share data between law enforcement agencies.

Present Situation

Prepared 911 is an advanced analytic platform, available in connection with SPD's existing Flock system, that provides a single point of access to communicate, view and analyze large-scale, real-time data from multiple data sources. Through Flocks Prepared 911 interface, this software performs several critical functionalities including data integration, search and information retrieval, advanced analytics, data management, collaboration, access control, and security. Additionally, the software can perform the following:

- Text Language Translation (140+ languages and dialects)
 - Better assist secondary/ non-English speakers in the community
- Inbound Non-Emergency Text
 - Allow for ease of text communication for non-emergencies from the public (140+ languages and dialects)
- Outbound Text (with canned messages)
 - Enabled outbound text messages from the agency to the public as needed (140+ languages and dialects)
- Live Video
 - Intake and process live video from caller's phone in real-time
- Recorded Video
 - Intake and process recorded video recordings from caller phones
- Photos
 - Intake and process live photos or saved photos from caller phones
- GPS location of the caller for Dispatch
 - Pin-point exact GPS coordinates of an emergency directly from a caller's phone
- Real-Time-Text
 - To better communicate with the hearing impaired and differently abled community
- Artificial Intelligence Telecommunicator Assistance & AI-Powered insights
 - Note-taking and real-time summary of the emergency from caller audio
 - Instant sentiment analysis
 - Person description analysis
- Media analysis for objects and texts of interest
 - Audio Transcription
 - Real-time line-by-line transcription of caller audio to reducing repeat

questions and faster relay of information out to the field

- Audio Translation in over 20 languages
 - Real-time translation of caller audio into a digestible line-by-line
- transcription
 - Custom Workflows for Automating Text Responses
 - Supervisory Dashboard
- Faster and more efficient “Real-time QA”/ mental health check for dispatchers based on call types
 - Share caller-provided data (live video, photo, GPS location) directly with field personnel

Staff is seeking Council approval to expand the current Flock contract to integrate Prepared 911 in an amount not to exceed \$877,600 to assist with daily operations to maximize effectiveness and efficiencies with every call for service taken by our Dispatch Center, ensuring quick and efficient police response to the entire community.

FINANCIAL SUMMARY

The proposed cost of this amendment is not to exceed the amount of \$877,600, with a total contract amount of \$975,000. Funding for year one of Prepared 911 is included in the FY 2024-25 AB109 Community Corrections Partnership Task Force Grant Police Other Special Revenue fund, Reimbursements sub fund, Investigations division, and Special Investigation program. Future year funding requests for Prepared 911 will be requested through AB109 Community Corrections Partnership Task Force Grants.

Attachment A - Flock Group Inc. Standard Agreement Amendment 1

CITY OF STOCKTON
STANDARD AGREEMENT AMENDMENT

Agreement Number:	Amendment Number:
423000702	1

This Amendment Number 1 to the above referenced Agreement is entered into on _____ between the City of Stockton ("City") and Flock Group Inc.

RECITALS

Exhibit A Term and Termination, Paragraph 7.1 Changes, states that both parties may modify the scope of services and any material extension or change in the scope shall be memorialized in a written amendment prior to the performance of additional work; and

Exhibit A Entire Agreement, Paragraph 11.4 Changes, states no variation of the terms of this Agreement shall be valid unless an Amendment is made in writing and signed by both parties; and

Exhibit A Special Terms, Paragraph 11.7 Changes, states specials terms which are indicated in the proposal and shall become part of this Amendment; and

The City needs to increase the Compensation, Not to Exceed amount in the Order Form of the Standard Agreement, by \$438,800 to pay the Contractor to cover Prepared 911 services.

Now therefore, the City and the Contractor mutually agree as follows:

1. The termination date in Paragraph 2 of the Standard Agreement is amended to:
 August 1, 2025

2. The maximum not to exceed amount to be paid to the Contractor, including if authorized, reimbursement of expenses, in Exhibit A Order Form, will now read as follows:

1.1 "The maximum the Contractor shall be paid on this Agreement is \$877,600 (hereafter the "not to exceed" amount) for 2 years. The "not to exceed" amount includes City approved reimbursable expenses, if any, and all payments to be made pursuant to this Agreement's sum for the initial term and extended term. Nothing in this Agreement requires the City to pay for work that does not meet the Standard of Performance identified in Exhibit A Section 2 or other requirements of this Agreement.

Initial Term the maximum not to exceed amount is \$97,400

Extended Term the maximum not to exceed amount is \$877,600

Total maximum compensation to be paid to the Contractor under this Agreement for the initial term and the extended term shall not exceed \$975,000

All other terms and conditions of the Agreement shall remain unchanged and remain in full force and effect unless modified by a written amendment signed by both parties.

3. The Contractor will provide the Prepared 911 platform, which will provide dispatch with automatic caller location, audio for every call, call transcription and translation, and livestream media, along with other services that will provide greater awareness and intelligence to responding officers, improving situational awareness and safety. In the maximum not to exceed amount of \$877,600 for 2 years.

IN WITNESS WHEREOF, the authorized parties have executed this Agreement.

flock safety

Company Overview

At Flock Safety, technology unites law enforcement and the communities they serve to eliminate crime and shape a safer future, together. We created the first public safety operating system to enable neighborhoods, schools, businesses, and law enforcement to work together to collect visual, audio, and situational evidence across an entire city to solve and prevent crime.

Our connected platform, comprised of License Plate Recognition (LPR), live video, audio detection, and a suite of integrations (AVL, CAD & more), alerts law enforcement when an incident occurs and turns unbiased data into objective answers that increase case clearance, maximize resources, and reduce crime -- all without compromising transparency or human privacy.

Join thousands of agencies reducing crime with Flock Safety's public safety operating system

2000+	120	1B+	<60%*
communities with private-public partnerships	incident alerts / minute	1B+ vehicles detected / month	<60% local crime reduction in Flock cities

*According to a 2019 study conducted by Cobb County Police Department

Introduction

Layer Intelligence to Solve More Crime

The pathway to a safer future looks different for every community. As such, this proposal presents a combination of products that specifically addresses your public safety needs, geographical layout, sworn officer count, and budget. These components make up your custom public safety operating system, a connected device network and software platform designed to transform real-time data into a panoramic view of your jurisdiction and help you zero in on the leads that solve more cases, prevent future crimes, and foster trust in the communities you serve.

Software Platform

Flock Safety's out-of-box software platform collects and makes sense of visual, audio, and situational evidence across your entire network of devices.

Out-of-Box Software Features	
Simplified Search	Get a complete view of all activity tied to one vehicle in your network of privately and publicly owned cameras. The user-friendly search experience allows officers to filter hours of footage in seconds based on time, location, and detailed vehicle criteria using patented Vehicle Fingerprint™ technology. Search filters include: • Vehicle make • Body type • Color • License plates ○ Partial tags ○ Missing tags ○ Temporary tags ○ State recognition • Decals • Bumper stickers • Back racks • Top racks
National and Local Sharing	Access 1B+ additional plate reads each month without purchasing more cameras. Solve cross-jurisdiction crimes by opting into Flock Safety's sharing networks, including one-to-one, national, and statewide search networks. Users can also receive alerts from several external LPR databases: <i>California SVS</i> <i>FDLE</i> <i>FL Expired Licenses</i> <i>FL Expired Tags</i> <i>FL Sanctioned Drivers</i> <i>FL Sex Offenders</i> <i>Georgia DOR</i> <i>IL SOS</i> <i>Illinois Leads</i> <i>NCIC</i> <i>NCMEC Amber Alert</i> <i>REJIS</i> <i>CCIC</i> <i>FBI</i>
Real-time Alerts	Receive SMS, email, and in-app notifications for custom Hot Lists, NCIC wanted lists, AMBER alerts, Silver alerts, Vehicle Fingerprint matches, and more.
Interactive ESRI Map	View your AVL, CAD, traffic, and LPR alerts alongside live on-scene video from a single interactive map for a birdseye view of activity in your jurisdiction.
Vehicle Location Analysis	Visualize sequential Hot List alerts and the direction of travel to guide officers to find suspect vehicles faster.

Out-of-Box Software Features (Continued)

Transparency Portal	Establish community trust with a public-facing dashboard that shares policies, usage, and public safety outcomes related to your policing technology.
Insights Dashboard	Access at-a-glance reporting to easily prove ROI, discover crime and traffic patterns and prioritize changes to your public safety strategy by using data to determine the most significant impact.
Native MDT Application	Download FlockOS to your MDTs to ensure officers never miss a Hot List alert while out on patrol.
Hot List Attachments	Attach relevant information to Custom Hot List alerts. Give simple, digestible context to Dispatchers and Patrol Officers responding to Hot List alerts so they can act confidently and drive better outcomes. When you create a custom Hot List Alert, add case notes, photos, reports, and other relevant case information.
Single Sign On (SSO)	Increase your login speed and information security with Okta or Azure Single Sign On (SSO). Quickly access critical information you need to do your job by eliminating the need for password resets and steps in the log-in process.

License Plate Recognition

The Flock Safety Falcon® LPR camera uses Vehicle Fingerprint™ technology to transform hours of footage into actionable evidence, even when a license plate isn't visible, and sends Hot List alerts to law enforcement users when a suspect vehicle is detected. The Falcon has fixed and location-flexible deployment options with 30% more accurate reads than leading LPR.*

*Results from the 2019 side-by-side comparison test conducted by LA County Sheriff's Department

Flock Safety Falcon® LPR Camera	Flock Safety Falcon® Flex	Flock Safety Falcon® LR
Fixed, infrastructure-free LPR camera designed for permanent placement.	Location-flexible LPR camera designed for fast, easy self-installation, which is ideal for your ever-changing investigative needs.	Long-range, high-speed LPR camera that captures license plates and Vehicle Fingerprint data for increasing investigative leads on high-volume roadways like highways and interstates.

Your Flock Safety Team

Flock Safety is more than a technology vendor; we are a partner in your mission to build a safer future. We work with thousands of law enforcement agencies across the US to build stronger, safer communities that celebrate the hard work of those who serve and protect. We don't disappear after contracts are signed; we pride ourselves on becoming an extension of your hard-working team as part of our subscription service.

Implementation	Meet with a Solutions Consultant (former LEO) to build a deployment plan based on your needs. Our Permitting Team and Installation Technicians will work to get your device network approved, installed, and activated.
User Training + Support	Your designated Customer Success Manager will help train your power users and ensure you maximize the platform, while our customer support team will assist with needs as they arise.
Maintenance	We proactively monitor the health of your device network. If we detect that a device is offline, a full-time technician will service your device for no extra charge. <i>Note: Ongoing maintenance does not apply to Falcon Flex devices.</i>
Public Relations	Government Affairs Get support educating your stakeholders, including city councils and other governing bodies. Media Relations Share crimes solved in the local media with the help of our Public Relations team.

Master Services Agreement

This Master Services Agreement (this “**Agreement**”) is entered into by and between Flock Group, Inc. with a place of business at 1170 Howell Mill Road NW Suite 210, Atlanta, GA 30318 (“**Flock**”) and the entity identified in the signature block (“**Customer**”) (each a “**Party**,” and together, the “**Parties**”) on this the 19 day of May 2023. This Agreement is effective on the date of mutual execution (“**Effective Date**”). Parties will sign an Order Form (“**Order Form**”) which will describe the Flock Services to be performed and the period for performance, attached hereto as **Exhibit A**. The Parties agree as follows:

RECITALS

WHEREAS, Flock offers a software and hardware situational awareness solution through Flock’s technology platform that upon detection is capable of capturing audio, video, image, and recording data and provide notifications to Customer (“**Notifications**”);

WHEREAS, Customer desires access to the Flock Services (defined below) on existing devices, provided by Customer, or Flock provided Flock Hardware (as defined below) in order to create, view, search and archive Footage and receive Notifications, via the Flock Services;

WHEREAS, Customer shall have access to the Footage in Flock Services. Pursuant to Flock’s standard Retention Period (defined below) Flock deletes all Footage on a rolling thirty (30) day basis, except as otherwise stated on the Order Form. Customer shall be responsible for extracting, downloading and archiving Footage from the Flock Services on its own storage devices; and

WHEREAS, Flock desires to provide Customer the Flock Services and any access thereto, subject to the terms and conditions of this Agreement, solely for the awareness,

prevention, and prosecution of crime, bona fide investigations and evidence gathering for law enforcement purposes, (*"Permitted Purpose"*).

AGREEMENT

NOW, THEREFORE, Flock and Customer agree that this Agreement, and any Order Form, purchase orders, statements of work, product addenda, or the like, attached hereto as exhibits and incorporated by reference, constitute the complete and exclusive statement of the Agreement of the Parties with respect to the subject matter of this Agreement, and replace and supersede all prior agreements, term sheets, purchase orders, correspondence, oral or written communications and negotiations by and between the Parties.

1. DEFINITIONS

Certain capitalized terms, not otherwise defined herein, have the meanings set forth or cross-referenced in this Section 1.

1.1 *"Anonymized Data"* means Customer Data permanently stripped of identifying details and any potential personally identifiable information, by commercially available standards which irreversibly alters data in such a way that a data subject (i.e., individual person or entity) can no longer be identified directly or indirectly.

1.2 *"Authorized End User(s)"* means any individual employees, agents, or contractors of Customer accessing or using the Services, under the rights granted to Customer pursuant to this Agreement.

1.3 *"Customer Data"* means the data, media and content provided by Customer through the Services. For the avoidance of doubt, the Customer Data will include the Footage.

1.4. *"Customer Hardware"* means the third-party camera owned or provided by Customer and any other physical elements that interact with the Embedded Software and the Web Interface to provide the Services.

1.5 *"Embedded Software"* means the Flock proprietary software and/or firmware integrated with or installed on the Flock Hardware or Customer Hardware.

1.6 “**Flock Hardware**” means the Flock device(s), which may include the pole, clamps, solar panel, installation components, and any other physical elements that interact with the Embedded Software and the Web Interface, to provide the Flock Services as specifically set forth in the applicable product addenda.

1.7 “**Flock IP**” means the Services, the Embedded Software, and any intellectual property or proprietary information therein or otherwise provided to Customer and/or its Authorized End Users. Flock IP does not include Footage (as defined below).

1.8 “**Flock Network End User(s)**” means any user of the Flock Services that Customer authorizes access to or receives data from, pursuant to the licenses granted herein.

1.9 “**Flock Services**” means the provision of Flock’s software and hardware situational awareness solution, via the Web Interface, for automatic license plate detection, alerts, audio detection, searching image records, video and sharing Footage.

1.10 “**Footage**” means still images, video, audio and other data captured by the Flock Hardware or Customer Hardware in the course of and provided via the Flock Services.

1.11 “**Hotlist(s)**” means a digital file containing alphanumeric license plate related information pertaining to vehicles of interest, which may include stolen vehicles, stolen vehicle license plates, vehicles owned or associated with wanted or missing person(s), vehicles suspected of being involved with criminal or terrorist activities, and other legitimate law enforcement purposes. Hotlist also includes, but is not limited to, national data (i.e., NCIC) for similar categories, license plates associated with AMBER Alerts or Missing Persons/Vulnerable Adult Alerts, and includes manually entered license plate information associated with crimes that have occurred in any local jurisdiction.

1.12 “**Installation Services**” means the services provided by Flock for installation of Flock Services.

1.13 “**Retention Period**” means the time period that the Customer Data is stored within the cloud storage, as specified in the product addenda.

1.14 “***Vehicle Fingerprint™***” means the unique vehicular attributes captured through Services such as: type, make, color, state registration, missing/covered plates, bumper stickers, decals, roof racks, and bike racks.

1.15 “***Web Interface***” means the website(s) or application(s) through which Customer and its Authorized End Users can access the Services.

2. SERVICES AND SUPPORT

2.1 Provision of Access. Flock hereby grants to Customer a non-exclusive, non-transferable right to access the features and functions of the Flock Services via the Web Interface during the Term, solely for the Authorized End Users. The Footage will be available for Authorized End Users to access and download via the Web Interface for the data retention time defined on the Order Form ("**Retention Period**"). Authorized End Users will be required to sign up for an account and select a password and username ("**User ID**"). Customer shall be responsible for all acts and omissions of Authorized End Users, and any act or omission by an Authorized End User which, including any acts or omissions of authorized End user which would constitute a breach of this agreement if undertaken by customer. Customer shall undertake reasonable efforts to make all Authorized End Users aware of all applicable provisions of this Agreement and shall cause Authorized End Users to comply with such provisions. Flock may use the services of one or more third parties to deliver any part of the Flock Services, (such as using a third party to host the Web Interface for cloud storage or a cell phone provider for wireless cellular coverage).

2.2 Embedded Software License. Flock grants Customer a limited, non-exclusive, non-transferable, non-sublicensable (except to the Authorized End Users), revocable right to use the Embedded Software as it pertains to Flock Services, solely as necessary for Customer to use the Flock Services.

2.3 Support Services. Flock shall monitor the Flock Services, and any applicable device health, in order to improve performance and functionality. Flock will use commercially reasonable efforts to respond to requests for support within seventy-two (72) hours. Flock will provide Customer with reasonable technical and on-site support and maintenance services in-person, via phone or by email at support@flocksafety.com (such services collectively referred to as "**Support Services**").

2.4 Upgrades to Platform. Flock may make any upgrades to system or platform that it deems necessary or useful to (i) maintain or enhance the quality or delivery of Flock's products or services to its agencies; the competitive strength of, or market for, Flock's products or services; such platform or system's cost efficiency or performance, or (ii) to comply with applicable law. Parties understand that such upgrades are necessary from time to time and will not

diminish the quality of the services or materially change any terms or conditions within this Agreement.

2.5 Service Interruption. Services may be interrupted in the event that: (a) Flock's provision of the Services to Customer or any Authorized End User is prohibited by applicable law; (b) any third-party services required for Services are interrupted; (c) if Flock reasonably believe Services are being used for malicious, unlawful, or otherwise unauthorized use; (d) there is a threat or attack on any of the Flock IP by a third party; or (e) scheduled or emergency maintenance ("**Service Interruption**"). Flock will make commercially reasonable efforts to provide written notice of any Service Interruption to Customer, to provide updates, and to resume providing access to Flock Services as soon as reasonably possible after the event giving rise to the Service Interruption is cured. Flock will have no liability for any damage, liabilities, losses (including any loss of data or profits), or any other consequences that Customer or any Authorized End User may incur as a result of a Service Interruption. To the extent that the Service Interruption is not caused by Customer's direct actions or by the actions of parties associated with the Customer, the time will be tolled by the duration of the Service Interruption (for any continuous suspension lasting at least one full day). For example, in the event of a Service Interruption lasting five (5) continuous days, Customer will receive a credit for five (5) free days at the end of the Term.

2.6 Service Suspension. Flock may temporarily suspend Customer's and any Authorized End User's access to any portion or all of the Flock IP or Flock Service if (a) there is a threat or attack on any of the Flock IP by Customer; (b) Customer's or any Authorized End User's use of the Flock IP disrupts or poses a security risk to the Flock IP or any other customer or vendor of Flock; (c) Customer or any Authorized End User is/are using the Flock IP for fraudulent or illegal activities; (d) Customer has violated any term of this provision, including, but not limited to, utilizing Flock Services for anything other than the Permitted Purpose; or (e) any unauthorized access to Flock Services through Customer's account ("**Service Suspension**"). Customer shall not be entitled to any remedy for the Service Suspension period, including any reimbursement, tolling, or credit. If the Service Suspension was not caused by Customer, the Term will be tolled by the duration of the Service Suspension.

2.7 Hazardous Conditions. Flock Services do not contemplate hazardous materials, or other hazardous conditions, including, without limit, asbestos, lead, toxic or flammable substances. In the event any such hazardous materials are discovered in the designated locations in which Flock is to perform services under this Agreement, Flock shall have the right to cease work immediately.

3. CUSTOMER OBLIGATIONS

3.1 Customer Obligations. Flock will assist Customer Authorized End Users in the creation of a User ID. Authorized End Users agree to provide Flock with accurate, complete, and updated registration information. Authorized End Users may not select as their User ID, a name that they do not have the right to use, or any other name with the intent of impersonation. Customer and Authorized End Users may not transfer their account to anyone else without prior written permission of Flock. Authorized End Users shall not share their account username or password information and must protect the security of the username and password. Unless otherwise stated and defined in this Agreement, Customer shall not designate Authorized End Users for persons who are not officers, employees, or agents of Customer. Authorized End Users shall only use Customer-issued email addresses for the creation of their User ID. Customer is responsible for any Authorized End User activity associated with its account. Customer shall ensure that Customer provides Flock with up to date contact information at all times during the Term of this agreement. Customer shall be responsible for obtaining and maintaining any equipment and ancillary services needed to connect to, access or otherwise use the Flock Services. Customer shall (at its own expense) provide Flock with reasonable access and use of Customer facilities and Customer personnel in order to enable Flock to perform Services (such obligations of Customer are collectively defined as “*Customer Obligations*”).

3.2 Customer Representations and Warranties. Customer represents, covenants, and warrants that Customer shall use Flock Services only in compliance with this Agreement and all applicable laws and regulations, including but not limited to any laws relating to the recording or sharing of data, video, photo, or audio content.

4. DATA USE AND LICENSING

4.1 Customer Data. As between Flock and Customer, all right, title and interest in the Customer Data, belong to and are retained solely by Customer. Customer hereby grants to Flock a limited, non-exclusive, royalty-free, irrevocable, worldwide license to use the Customer Data and perform all acts as may be necessary for Flock to provide the Flock Services to Customer. Flock does not own and shall not sell Customer Data.

4.2 Customer Generated Data. Flock may provide Customer with the opportunity to post, upload, display, publish, distribute, transmit, broadcast, or otherwise make available, messages, text, illustrations, files, images, graphics, photos, comments, sounds, music, videos, information, content, ratings, reviews, data, questions, suggestions, or other information or materials produced by Customer ("**Customer Generated Data**"). Customer shall retain whatever legally cognizable right, title, and interest in Customer Generated Data. Customer understands and acknowledges that Flock has no obligation to monitor or enforce Customer's intellectual property rights of Customer Generated Data. Customer grants Flock a non-exclusive, irrevocable, worldwide, royalty-free, license to use the Customer Generated Data for the purpose of providing Flock Services. Flock does not own and shall not sell Customer Generated Data.

4.3 Anonymized Data. Flock shall have the right to collect, analyze, and anonymize Customer Data and Customer Generated Data to the extent such anonymization renders the data non-identifiable to create Anonymized Data to use and perform the Services and related systems and technologies, including the training of machine learning algorithms. Customer hereby grants Flock a non-exclusive, worldwide, perpetual, royalty-free right to use and distribute such Anonymized Data to improve and enhance the Services and for other development, diagnostic and corrective purposes, and other Flock offerings. Parties understand that the aforementioned license is required for continuity of Services. Flock does not own and shall not sell Anonymized Data.

5. CONFIDENTIALITY; DISCLOSURES

5.1 Confidentiality. To the extent required by any applicable public records requests, each Party (the "**Receiving Party**") understands that the other Party (the "**Disclosing Party**") has disclosed or may disclose business, technical or financial information relating to the Disclosing Party's

business (hereinafter referred to as “*Proprietary Information*” of the Disclosing Party).

Proprietary Information of Flock includes non-public information regarding features, functionality and performance of the Services. Proprietary Information of Customer includes non-public data provided by Customer to Flock or collected by Flock via Flock Services, which includes but is not limited to geolocation information and environmental data collected by sensors. The Receiving Party agrees: (i) to take the same security precautions to protect against disclosure or unauthorized use of such Proprietary Information that the Party takes with its own proprietary information, but in no event less than commercially reasonable precautions, and (ii) not to use (except in performance of the Services or as otherwise permitted herein) or divulge to any third person any such Proprietary Information. The Disclosing Party agrees that the foregoing shall not apply with respect to any information that the Receiving Party can document (a) is or becomes generally available to the public; or (b) was in its possession or known by it prior to receipt from the Disclosing Party; or (c) was rightfully disclosed to it without restriction by a third party; or (d) was independently developed without use of any Proprietary Information of the Disclosing Party. Nothing in this Agreement will prevent the Receiving Party from disclosing the Proprietary Information pursuant to any judicial or governmental order, provided that the Receiving Party gives the Disclosing Party reasonable prior notice of such disclosure to contest such order. At the termination of this Agreement, all Proprietary Information will be returned to the Disclosing Party, destroyed or erased (if recorded on an erasable storage medium), together with any copies thereof, when no longer needed for the purposes above, or upon request from the Disclosing Party, and in any case upon termination of the Agreement. Notwithstanding any termination, all confidentiality obligations of Proprietary Information that is trade secret shall continue in perpetuity or until such information is no longer trade secret.

5.2 Usage Restrictions on Flock IP. Flock and its licensors retain all right, title and interest in and to the Flock IP and its components, and Customer acknowledges that it neither owns nor acquires any additional rights in and to the foregoing not expressly granted by this Agreement. Customer further acknowledges that Flock retains the right to use the foregoing for any purpose in Flock’s sole discretion. Customer and Authorized End Users shall not: (i) copy or duplicate any of

the Flock IP; (ii) decompile, disassemble, reverse engineer, or otherwise attempt to obtain or perceive the source code from which any software component of any of the Flock IP is compiled or interpreted, or apply any other process or procedure to derive the source code of any software included in the Flock IP; (iii) attempt to modify, alter, tamper with or repair any of the Flock IP, or attempt to create any derivative product from any of the foregoing; (iv) interfere or attempt to interfere in any manner with the functionality or proper working of any of the Flock IP; (v) remove, obscure, or alter any notice of any intellectual property or proprietary right appearing on or contained within the Flock Services or Flock IP; (vi) use the Flock Services for anything other than the Permitted Purpose; or (vii) assign, sublicense, sell, resell, lease, rent, or otherwise transfer, convey, pledge as security, or otherwise encumber, Customer's rights. There are no implied rights.

5.3 Disclosure of Footage. Subject to and during the Retention Period, Flock may access, use, preserve and/or disclose the Footage to law enforcement authorities, government officials, and/or third parties, if legally required to do so or if Flock has a good faith belief that such access, use, preservation or disclosure is reasonably necessary to comply with a legal process, enforce this Agreement, or detect, prevent or otherwise address security, privacy, fraud or technical issues, or emergency situations.

6. PAYMENT OF FEES

6.1 Billing and Payment of Fees. Customer shall pay the fees set forth in the applicable Order Form based on the billing structure and payment terms as indicated in the Order Form. If Customer believes that Flock has billed Customer incorrectly, Customer must contact Flock no later than thirty (30) days after the closing date on the first invoice in which the error or problem appeared to receive an adjustment or credit. Customer acknowledges and agrees that a failure to contact Flock within this period will serve as a waiver of any claim. If any undisputed fee is more than thirty (30) days overdue, Flock may, without limiting its other rights and remedies, suspend delivery of its service until such undisputed invoice is paid in full. Flock shall provide at least

thirty (30) days' prior written notice to Customer of the payment delinquency before exercising any suspension right.

6.2 Notice of Changes to Fees. Flock reserves the right to change the fees for subsequent Renewal Terms by providing sixty (60) days' notice (which may be sent by email) prior to the end of the Initial Term or Renewal Term (as applicable).

6.3 Late Fees. If payment is not issued to Flock by the due date of the invoice, an interest penalty of 1.0% of any unpaid amount may be added for each month or fraction thereafter, until final payment is made.

6.4 Taxes. Customer is responsible for all taxes, levies, or duties, excluding only taxes based on Flock's net income, imposed by taxing authorities associated with the order. If Flock has the legal obligation to pay or collect taxes, including amount subsequently assessed by a taxing authority, for which Customer is responsible, the appropriate amount shall be invoice to and paid by Customer unless Customer provides Flock a legally sufficient tax exemption certificate and Flock shall not charge customer any taxes from which it is exempt. If any deduction or withholding is required by law, Customer shall notify Flock and shall pay Flock any additional amounts necessary to ensure that the net amount that Flock receives, after any deduction and withholding, equals the amount Flock would have received if no deduction or withholding had been required.

7. TERM AND TERMINATION

7.1 Term. The initial term of this Agreement shall be for the period of time set forth on the Order Form (the "**Term**"). Following the Term, unless otherwise indicated on the Order Form, this Agreement will be for the greater of one year or the length set forth on the Order Form (each, a "**Renewal Term**") unless either Party gives the other Party notice of non-renewal at least thirty (30) days prior to the end of the then-current term.

7.2 Termination. Upon termination or expiration of this Agreement, Flock will remove any applicable Flock Hardware at a commercially reasonable time period. In the event of any material breach of this Agreement, the non-breaching Party may terminate this Agreement prior to the end of the Term by giving thirty (30) days prior written notice to the breaching Party; provided,

however, that this Agreement will not terminate if the breaching Party has cured the breach prior to the expiration of such thirty (30) day period ("Cure Period"). Either Party may terminate this Agreement (i) upon the institution by or against the other Party of insolvency, receivership or bankruptcy proceedings, (ii) upon the other Party's making an assignment for the benefit of creditors, or (iii) upon the other Party's dissolution or ceasing to do business. In the event of a material breach by Flock, and Flock is unable to cure within the Cure Period, Flock will refund Customer a pro-rata portion of the pre-paid fees for Services not received due to such termination.

7.3 Survival. The following Sections will survive termination: 1, 3, 5, 6, 7, 8.3, 8.4, 9, 10.1 and 10.6.

8. REMEDY FOR DEFECT; WARRANTY AND DISCLAIMER

8.1 Manufacturer Defect. Upon a malfunction or failure of Flock Hardware or Embedded Software (a “*Defect*”), Customer must notify Flock’s technical support team. In the event of a Defect, Flock shall make a commercially reasonable attempt to repair or replace the defective Flock Hardware at no additional cost to the Customer. Flock reserves the right, in its sole discretion, to repair or replace such Defect, provided that Flock shall conduct inspection or testing within a commercially reasonable time, but no longer than seven (7) business days after Customer gives notice to Flock.

8.2 Replacements. In the event that Flock Hardware is lost, stolen, or damaged, Customer may request a replacement of Flock Hardware at a fee according to the reinstall fee schedule (<https://www.flocksafety.com/reinstall-fee-schedule>). In the event that Customer chooses not to replace lost, damaged, or stolen Flock Hardware, Customer understands and agrees that (1) Flock Services will be materially affected, and (2) that Flock shall have no liability to Customer regarding such affected Flock Services, nor shall Customer receive a refund for the lost, damaged, or stolen Flock Hardware.

8.3 Warranty. Flock shall use reasonable efforts consistent with prevailing industry standards to maintain the Services in a manner which minimizes errors and interruptions in the Services and shall perform the Installation Services in a professional and workmanlike manner. Services may be temporarily unavailable for scheduled maintenance or for unscheduled emergency maintenance, either by Flock or by third-party providers, or because of other causes beyond Flock’s reasonable control, but Flock shall use reasonable efforts to provide advance notice in writing or by e-mail of any scheduled service disruption.

8.4 Disclaimer. THE REMEDY DESCRIBED IN SECTION 8.1 ABOVE IS CUSTOMER’S SOLE REMEDY, AND FLOCK’S SOLE LIABILITY, WITH RESPECT TO DEFECTS. FLOCK DOES NOT WARRANT THAT THE SERVICES WILL BE UNINTERRUPTED OR ERROR FREE; NOR DOES IT MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM USE OF THE SERVICES. EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION, THE SERVICES ARE PROVIDED “AS IS” AND FLOCK DISCLAIMS ALL

WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. THIS DISCLAIMER ONLY APPLIES TO THE EXTENT ALLOWED BY THE GOVERNING LAW OF THE STATE MENTIONED IN SECTION 10.6.

8.5 Insurance. Flock will maintain commercial general liability policies as stated in Exhibit B.

8.6 Force Majeure. Parties are not responsible or liable for any delays or failures in performance from any cause beyond their control, including, but not limited to acts of God, changes to law or regulations, embargoes, war, terrorist acts, pandemics (including the spread of variants), issues of national security, acts or omissions of third-party technology providers, riots, fires, earthquakes, floods, power blackouts, strikes, supply chain shortages of equipment or supplies, financial institution crisis, weather conditions or acts of hackers, internet service providers or any other third party acts or omissions.

9. LIMITATION OF LIABILITY; INDEMNITY

9.1 Limitation of Liability. NOTWITHSTANDING ANYTHING TO THE CONTRARY, FLOCK, ITS OFFICERS, AFFILIATES, REPRESENTATIVES, CONTRACTORS AND EMPLOYEES SHALL NOT BE RESPONSIBLE OR LIABLE WITH RESPECT TO ANY SUBJECT MATTER OF THIS AGREEMENT OR TERMS AND CONDITIONS RELATED THERETO UNDER ANY CONTRACT, NEGLIGENCE, STRICT LIABILITY, PRODUCT LIABILITY, OR OTHER THEORY: (A) FOR LOSS OF REVENUE, BUSINESS OR BUSINESS INTERRUPTION; (B) INCOMPLETE, CORRUPT, OR INACCURATE DATA; (C) COST OF PROCUREMENT OF SUBSTITUTE GOODS, SERVICES OR TECHNOLOGY; (D) FOR ANY INDIRECT, EXEMPLARY, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES; (E) FOR ANY MATTER BEYOND FLOCK'S ACTUAL KNOWLEDGE OR REASONABLE CONTROL INCLUDING REPEAT CRIMINAL ACTIVITY OR INABILITY TO CAPTURE FOOTAGE; OR (F) FOR ANY AMOUNTS THAT, TOGETHER WITH AMOUNTS ASSOCIATED WITH ALL OTHER CLAIMS, EXCEED THE FEES PAID AND/OR PAYABLE BY CUSTOMER TO FLOCK FOR THE SERVICES UNDER THIS

AGREEMENT IN THE TWELVE (12) MONTHS PRIOR TO THE ACT OR OMISSION THAT GAVE RISE TO THE LIABILITY, IN EACH CASE, WHETHER OR NOT FLOCK HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY OF SECTION ONLY APPLIES TO THE EXTENT ALLOWED BY THE GOVERNING LAW OF THE STATE REFERENCED IN SECTION 11.6. NOTWITHSTANDING ANYTHING TO THE CONTRARY, THE FOREGOING LIMITATIONS OF LIABILITY SHALL NOT APPLY (I) IN THE EVENT OF GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, OR (II) INDEMNIFICATION OBLIGATIONS.

9.2 Responsibility. Each Party to this Agreement shall assume the responsibility and liability for the acts and omissions of its own employees, officers, or agents, in connection with the performance of their official duties under this Agreement. Each Party to this Agreement shall be liable for the torts of its own officers, agents, or employees.

9.3 Flock Indemnity. To the fullest extent permitted by law, Flock shall indemnify and hold harmless Customer, its officers, officials, employees, agents, and volunteers from and against liability, loss, or damage of any kind, including claims, costs (including without limitation costs and fees of litigation) and expenses, on account of: (i) any copyrighted material, patented or unpatented invention, articles, device or appliance manufactured or used in the performance of this Agreement; or (ii) any damage or injury to property or person directly caused by Flock's installation of Flock Hardware, except for where such damage or injury was caused solely by the negligence of the Customer or its agents, officers or employees. Flock's performance of this indemnity obligation shall not exceed the fees paid and/or payable for the services rendered under this Agreement in the preceding twelve (12) months. This obligation is independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement.

10. INSTALLATION SERVICES AND OBLIGATIONS

10.1 Ownership of Hardware. Flock Hardware is owned and shall remain the exclusive property of Flock. Title to any Flock Hardware shall not pass to Customer upon execution of this Agreement, except as otherwise specifically set forth in this Agreement. Except as otherwise

expressly stated in this Agreement, Customer is not permitted to remove, reposition, re-install, tamper with, alter, adjust or otherwise take possession or control of Flock Hardware. Customer agrees and understands that in the event Customer is found to engage in any of the foregoing restricted actions, all warranties herein shall be null and void, and this Agreement shall be subject to immediate termination for material breach by Customer. Customer shall not perform any acts which would interfere with the retention of title of the Flock Hardware by Flock. Should Customer default on any payment of the Flock Services, Flock may remove Flock Hardware at Flock's discretion. Such removal, if made by Flock, shall not be deemed a waiver of Flock's rights to any damages Flock may sustain as a result of Customer's default and Flock shall have the right to enforce any other legal remedy or right.

10.2 Deployment Plan. Flock shall advise Customer on the location and positioning of the Flock Hardware for optimal product functionality, as conditions and locations allow. Flock will collaborate with Customer to design the strategic geographic mapping of the location(s) and implementation of Flock Hardware to create a deployment plan ("***Deployment Plan***"). In the event that Flock determines that Flock Hardware will not achieve optimal functionality at a designated location, Flock shall have final discretion to veto a specific location, and will provide alternative options to Customer.

10.3 Changes to Deployment Plan. After installation of Flock Hardware, any subsequent requested changes to the Deployment Plan, including, but not limited to, relocating, re-positioning, adjusting of the mounting, removing foliage, replacement, changes to heights of poles will incur a fee according to the reinstall fee schedule located at (<https://www.flocksafety.com/reinstall-fee-schedule>). Customer will receive prior notice and confirm approval of any such fees.

10.4 Customer Installation Obligations. Customer is responsible for any applicable supplementary cost as described in the Customer Implementation Guide, attached hereto as Exhibit C ("***Customer Obligations***"). Customer represents and warrants that it has, or shall lawfully obtain, all necessary right title and authority and hereby authorizes Flock to install the Flock Hardware at the designated locations and to make any necessary inspections or maintenance in connection with such installation.

10.5 Flock's Obligations. Installation of any Flock Hardware shall be installed in a professional manner within a commercially reasonable time from the Effective Date of this Agreement. Upon removal of Flock Hardware, Flock shall restore the location to its original condition, ordinary wear and tear excepted. Flock will continue to monitor the performance of Flock Hardware for the length of the Term. Flock may use a subcontractor or third party to perform certain obligations under this agreement, provided that Flock's use of such subcontractor or third party shall not release Flock from any duty or liability to fulfill Flock's obligations under this Agreement.

11. MISCELLANEOUS

11.1 Compliance With Laws. Parties shall comply with all applicable local, state and federal laws, regulations, policies and ordinances and their associated record retention schedules, including responding to any subpoena request(s).

11.1.1 Prevailing Wage. It shall be the responsibility of Flock to comply, when applicable, with the prevailing wage rates in accordance with the State of California Department of Industrial Relations. It shall further be the responsibility of Flock to monitor the prevailing wage rates as established by the California Department of Industrial Relations for any increase in rates during the term of this Agreement and adjust wage rates accordingly.

CONTRACTOR REGISTRATION REQUIREMENTS- Pursuant to Labor Code Section 1771.1(a): A Contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in this chapter, unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5. It is not a violation of this section for an unregistered Contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the Contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.

No contractor or subcontractor may be listed on a bid proposal for a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

No contractor or subcontractor may be awarded a contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. Department of Industrial Relations- Contractor Registration information and web link: <https://www.dir.ca.gov/public-works/publicworks.html>. In compliance with Senate Bill 854 and the California Labor Code, all Bidders shall include with their Bid proof of registration from the Department of Industrial Relations (DIR) that includes the contractor's Legal Name, Registration Number, License Type/Number, Registration Date and Expiration Date, for every contractor and subcontractor, regardless of tier.

This project may be subject to compliance monitoring and enforcement by the Department of Industrial Relations. Contractors must submit their certified payroll records directly to the Division of Labor Standards Enforcement Compliance Monitoring Unit, as well as the City of Stockton.

11.1.2 Applicable Laws Deliverables must conform with all applicable federal, state, and local laws. Such conformity includes compliance with federal sanctions, and Flock certifies that it has not and will not engage in prohibited transactions with sanctioned persons or entities.

11.2 Severability. If any provision of this Agreement is found to be unenforceable or invalid, that provision will be limited or eliminated to the minimum extent necessary so that this Agreement will otherwise remain in full force and effect.

11.3 Assignment. This Agreement is not assignable, transferable or sublicensable by either Party, without prior consent. Notwithstanding the foregoing, either Party may assign this Agreement, without the other Party's consent, (i) to any parent, subsidiary, or affiliate entity, or (ii) to any purchaser of all or substantially all of such Party's assets or to any successor by way of merger, consolidation or similar transaction.

11.4 Entire Agreement. This Agreement, together with the Order Form(s), the reinstall fee schedule (<https://www.flocksafety.com/reinstall-fee-schedule>), and any attached exhibits are the complete and exclusive statement of the mutual understanding of the Parties and supersedes and cancels all previous or contemporaneous negotiations, discussions or agreements, whether written and oral , communications and other understandings relating to the subject matter of this Agreement, and that all waivers and modifications must be in a writing signed by both Parties, except as otherwise provided herein. None of Customer's purchase orders, authorizations or similar documents will alter the terms of this Agreement, and any such conflicting terms are expressly rejected. Any mutually agreed upon purchase order is subject to these terms. In the event of any conflict of terms found in this Agreement or any other terms and conditions, the terms of this Agreement shall prevail. Customer agrees that Customer's purchase is neither contingent upon the delivery of any future functionality or features nor dependent upon any oral or written comments made by Flock with respect to future functionality or feature.

11.5 Relationship. No agency, partnership, joint venture, or employment is created as a result of this Agreement and Parties do not have any authority of any kind to bind each other in any respect whatsoever. Flock shall at all times be and act as an independent contractor to Customer.

11.6 Governing Law; Venue. This Agreement shall be governed by the laws of the state in which the Customer is located. The Parties hereto agree that venue would be proper in the chosen courts of the State of which the Customer is located. The Parties agree that the United Nations Convention for the International Sale of Goods is excluded in its entirety from this Agreement.

11.7 Special Terms. Flock may offer certain special terms which are indicated in the proposal and will become part of this Agreement, upon Customer's prior written consent and the mutual

execution by authorized representatives ("*Special Terms*"). To the extent that any terms of this Agreement are inconsistent or conflict with the Special Terms, the Special Terms shall control.

11.8 Publicity. Flock has the right to reference and use Customer's name and trademarks and disclose the nature of the Services in business and development and marketing efforts.

11.9 Feedback. If Agency or Authorized End User provides any suggestions, ideas, enhancement requests, feedback, recommendations or other information relating to the subject matter hereunder, Agency or Authorized End User hereby assigns to Flock all right, title and interest (including intellectual property rights) with respect to or resulting from any of the foregoing.

11.10 Export. Customer may not remove or export from the United States or allow the export or re-export of the Flock IP or anything related thereto, or any direct product thereof in violation of any restrictions, laws or regulations of the United States Department of Commerce, the United States Department of Treasury Office of Foreign Assets Control, or any other United States or foreign Customer or authority. As defined in Federal Acquisition Regulation ("FAR"), section 2.101, the Services, the Flock Hardware and Documentation are "commercial items" and according to the Department of Defense Federal Acquisition Regulation ("DFAR") section 252.2277014(a)(1) and are deemed to be "commercial computer software" and "commercial computer software documentation." Flock is compliant with FAR Section 889 and does not contract or do business with, use any equipment, system, or service that uses the enumerated banned Chinese telecommunication companies, equipment or services as a substantial or essential component of any system, or as critical technology as part of any Flock system. Consistent with DFAR section 227.7202 and FAR section 12.212, any use, modification, reproduction, release, performance, display, or disclosure of such commercial software or commercial software documentation by the U.S. Government will be governed solely by the terms of this Agreement and will be prohibited except to the extent expressly permitted by the terms of this Agreement.

11.11 Headings. The headings are merely for organization and should not be construed as adding meaning to the Agreement or interpreting the associated sections.

11.12 Authority. Each of the below signers of this Agreement represent that they understand this Agreement and have the authority to sign on behalf of and bind the Parties they are representing.

11.13 Conflict. In the event there is a conflict between this Agreement and any applicable statement of work, or Customer purchase order, this Agreement controls unless explicitly stated otherwise.

11.14 Public Disrepute. In the event Customer or its employees become the subject of an indictment, arrest, public disrepute, contempt, scandal or behaves in a manner that, in the reasonable judgment of Flock, reflects unfavorably upon Flock, and/or their officers or principals, licensees, such act(s) or omission(s) shall constitute a material breach of this Agreement and Flock shall, in addition to any other rights and remedies available to it hereunder, whether at law or in equity, have the right to elect to terminate this Agreement.

11.15 Notices. All notices under this Agreement will be in writing and will be deemed to have been duly given when received, if personally delivered; when receipt is electronically confirmed, if transmitted by email; the day after it is sent, if sent for next day delivery by recognized overnight delivery service; and upon receipt, if sent by certified or registered mail, return receipt requested.

EXHIBIT B
INSURANCE

Required Coverage. Flock shall procure and maintain for the duration of this Agreement insurance against claims for injuries to persons or damages to property that may arise from or in connection with the performance of the services under this Agreement and the results of that work by Flock or its agents, representatives, employees or subcontractors. Insurance shall be placed with insurers with a current A. M. Best rating of no less than "A" and "VII". Flock shall obtain and, during the term of this Agreement, shall maintain policies of professional liability (errors and omissions), automobile liability, and general liability insurance for insurable amounts of not less than the limits listed herein. The insurance policies shall provide that the policies shall remain in full force during the life of the Agreement.

Types and Amounts Required. Flock shall maintain, at minimum, the following insurance coverage for the duration of this Agreement:

- (i) **Commercial General Liability** insurance written on an occurrence basis with minimum limits of One Million Dollars (\$1,000,000) per occurrence and Two Million Dollars (\$2,000,000) in the aggregate for bodily injury, death, and property damage, including personal injury, contractual liability, independent contractors, broad-form property damage, and product and completed operations coverage;
- (ii) **Umbrella or Excess Liability** insurance written on an occurrence basis with minimum limits of Ten Million Dollars (\$10,000,000) per occurrence and Ten Million Dollars (\$10,000,000) in the aggregate;
- (iii) **Professional Liability/Errors and Omissions** insurance with minimum limits of Five Million Dollars (\$5,000,000) per occurrence and Five Million Dollars (\$5,000,000) in the aggregate;
- (iv) **Commercial Automobile Liability** insurance with a minimum combined single limit of One Million Dollars (\$1,000,000) per occurrence for bodily injury, death, and property coverage, including owned and non-owned and hired automobile coverage; and
- (v) **Cyber Liability** insurance written on an occurrence basis with minimum limits of Five Million Dollars (\$5,000,000).

City of Stockton

Legislation Text

File #: 24-0576, Version: 1

APPROVE RESOLUTION OVERRULING PROTESTS, CONFIRMING ASSESSMENT OF DELINQUENT CODE ENFORCEMENT CHARGES, AND DIRECTING THE ASSESSMENTS BE PLACED ON THE SAN JOAQUIN COUNTY TAX ASSESSOR'S ROLL

RECOMMENDATION

It is recommended that the City Council approve a Resolution overruling protests and confirming the assessment of the delinquent charges listed in the "2024 NSS Assessment List - Delinquent Accounts" stemming from code enforcement actions against the affected properties, and directing the assessments be placed on the San Joaquin County Tax Assessor's Roll.

It is further recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of the resolution.

Summary

The Police Department's Neighborhood Services Section (NSS) is tasked with enforcing health and safety codes on properties throughout the City. When municipal code violations are found, the responsible party (the property owner or sometimes the tenant) is given an opportunity to correct the violation through notices issued by the City. While some violations are minor, such as excessive garbage in the front yard, others are much more serious and present an immediate health and safety risk if left unaddressed, such as piles of garbage, junk, and debris; loose electrical wiring; or inoperable plumbing in an occupied structure.

In addition to enforcement of the municipal code, the NSS also administers programs such as hotel/motel permits, vacant property monitoring, and rental property inspections.

To recover City costs, in April of each year, the NSS begins a process to place all outstanding amounts over 30 days past due on the tax bill for the affected property. This process includes written notification mailed to the property owner of record, an opportunity to appeal placement of the charge on the tax bill before an Administrative Hearing Officer, and review by the City Council for confirmation of the proposed assessment amounts and request to forward the assessments to the San Joaquin County Assessors for direct placement on the property tax roll for 2024.

As of June 27, 2024, there are approximately \$1,439,734.85 in delinquent code enforcement charges that are unpaid and are therefore eligible to be placed on the tax roll. The opportunity to appeal charges to be placed on the property tax roll concluded on May 16, 2024.

DISCUSSION

Background

In 1996, amendments to the Stockton Municipal Code (SMC) became effective, providing for the issuance of administrative citations for municipal code violations and requiring property owners to reimburse the City for costs of code enforcement actions. An administrative hearing process was also established to provide due process to the affected property owners and to hear objections to the charges and confirm the costs of the applicable abatement actions taken by the City. In each enforcement matter, the NSS uses a progressive compliance model and a variety of tools to resolve the violations, including the imposition of fees and fines. In cases where the responsible property owners do not fix violations in a timely manner, the City may make the determination that it must move forward to abate the violations using a variety of mechanisms to protect the health, safety, and welfare of the public. In such instances, the City exercises its authority provided under the SMC and incurs the cost to abate the outstanding health and safety code violations and passes on those costs to the property owner (hereinafter “code enforcement charges”).

Although fees and fines are billed on a regular basis, many accounts fall delinquent. To recover City costs, in April of each year, the NSS begins a process to place all outstanding amounts over 30 days past due on the tax bill for the affected property. This process includes written notification mailed to the property owner of record and an opportunity to appeal placement of the charge on the tax bill at an Administrative Hearing. At the conclusion of the Administrative Hearing, if the Administrative Hearing Officer finds for the City, an order is issued directing the delinquent code enforcement charges be submitted to the San Joaquin County Tax Assessor for property tax assessment against the affected properties. The City Council is then asked for a confirmation of the proposed assessment amounts and agreement to forward the assessments to the San Joaquin County Assessor for direct placement on the property tax roll for the upcoming year.

Routine collection efforts, including code enforcement assessments against the affected properties, remain in place until all amounts owed to the City are paid. In instances where the property is refinanced or sold, the City will collect all monies due, including penalties and interest, through the sale or refinancing process. The code enforcement assessment carries the same priority as tax assessments and is paid on the property sale, foreclosure, or transfer of ownership. Actual amounts recommended for placement on the tax roll vary from year to year.

Present Situation

On April 18, 2024, 601 property owners owing delinquent code enforcement charges were notified via certified mail. The letter indicated that failure to pay by the date provided would result in all delinquent code enforcement charges being submitted to City Council for approval and forwarding to the San Joaquin County Assessor’s Office for placement on the property tax rolls. The letter also advised the property owner of the scheduled Administrative Hearing, which was held on May 15, 2024, and May 16, 2024, at which time the property owner was given the opportunity to appear before an Administrative Hearing Officer to contest the proposed charges and placement of the charges on the tax bill. Approximately 34 accounts were brought current between the initial notice of proposed assessment and the Administrative Hearing.

During this hearing, the Administrative Hearing Officer has the opportunity to review the City's code enforcement costs, including delinquent charges, hear any objections to the amount and appropriateness of the charges and the City's proposed action to place those amounts on the tax roll. This Administrative Hearing is not an opportunity for the property owner to contest the charges billed. That opportunity occurs during actual enforcement as specific actions are taken, and the SMC provides for an appeal process when the underlying violation is issued. A total of six property owners appeared at the Administrative Hearing. At the conclusion of the hearing, the Administrative Hearing Officer issued an Administrative Order confirming the placement of costs on the tax roll. Attachment A is a copy of that Administrative Order and includes the final number of properties confirmed for assessment to the tax roll by the Administrative Hearing Officer at 539.

As of June 27, 2024, there were approximately \$1,439,734.85 in delinquent code enforcement charges and interest penalties that were unpaid resulting from City code enforcement actions in Fiscal Year 2023-24. Ideally, the City will receive these funds from the County as property taxes are paid in Fiscal Year 2024-25; however, many property owners do not pay their property taxes timely, resulting in a delay of the City's receipt of these funds. On average, the City receives 40% of the assessed delinquencies in the first fiscal year following the placement of the assessment.

The Administrative Services Department will compile delinquent charges from the appropriate City Departments and send one file to the County for processing. Once the delinquent code enforcement charges are confirmed, the list will be forwarded to Administrative Services staff to complete the processing and meet the County deadline of August 12, 2024, for receipt of this information.

FINANCIAL SUMMARY

There are approximately \$1,439,734.85 in code enforcement charges and interest that are delinquent. Although the County places 100% of the amount of the assessments on the tax rolls, it is anticipated that only \$576,000 will be received during Fiscal Year 2024-2025. That amount has been budgeted in the adopted Fiscal Year 2024-25 General Fund Police Department Neighborhood Services Section Revenue Account No. 3517-000-450017. The remaining charges that are not paid on time will remain on the property tax bill until paid, generally, once the property changes hands or is refinanced.

Attachment A - Administrative Order for 2024 Assessments

HEARING DATE: May 15-16, 2024	HEARING TIME: 9:00 am	BLANKET ADMINISTRATIVE ORDER	Case/AR #: See Attached Roster
		AGENDA ITEM	
HEARING OFFICER: Edith M. Awuah		PROPERTY ADDRESS: See Attached Roster	
RESPONSIBLE PERSON/APPELLANT: See Attached Roster		CITY REPRESENTATIVE: Almarosa Vargas	
SUBJECT OF APPEAL: 2024 Tax Assessments			
DECISION: The appellant having appeared ☐ or by absence, having waived his/her right to appear ☒ or having been represented by _____ as he/she has authorized ☐ on the above referenced date to protest the action taken: ☐ The appeal is hereby granted based on the failure of the City to: _____ ☐ The appeal is hereby denied based on: _____ ☒ <u>The charges are confirmed for payment or assessment to the property taxes.</u> ☐ _____ must be abated/corrected by _____ ☐ _____ must be corrected by _____ ☐ Other _____ ☐ Hearing continued until _____			
Additional Comments/Orders:			
Customers on the attached roster were notified by certified mail of these hearings but failed to appeal and or attend said hearings. Accordingly, the City of Stockton is granted the ability to enforce its liens in respect of said properties by adding the amounts of said liens to the Property Tax Roll of the County of San Joaquin for collection, and is further granted the ability to seek a refund of all costs and expenses associated with the enforcement of same, unless an appellant arranges payments on the amount on or before June 27, 2024.			
HEARING OFFICER		DATE: May 20, 2024	

ALL DECISIONS SHALL BE FINAL

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION OVERRULING PROTESTS, CONFIRMING ASSESSMENTS OF DELINQUENT CODE ENFORCEMENT CHARGES, AND DIRECTING THE ASSESSMENTS BE PLACED ON THE SAN JOAQUIN COUNTY TAX ROLL

Chapter 1.24 of the Stockton Municipal Code (SMC) provides for the assessment of unpaid costs, fees, fines, and /or penalties that have become delinquent due to code enforcement activities, and that these assessments be placed on the secured property tax roll for each of the affected properties; and

A hearing was held on May 15, 2024, and May 16, 2024, at 9:00 a.m., in the City Council Chambers at City Hall, wherein all objections to property tax assessments for code enforcement charges were overruled by the Administrative Hearing Officer; and all rights of appeal afforded by the SMC have expired or have been exercised; and

The “2024 NSS Assessment List – Delinquent Accounts,” attached as Exhibit 1, incorporated by reference, represents assessments against the property owners, trustees, or administrators of the noted properties for reimbursement of code enforcement charges including costs, fees, fines, and/or penalties that have become delinquent; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. All protests and/or objections to the charges listed in the “2024 NSS Assessment List – Delinquent Accounts,” attached hereto as Exhibit 1 and by reference made a part hereof, are hereby overruled.

2. The “2024 NSS Assessment List – Delinquent Accounts” is hereby confirmed.

3. The City Clerk is hereby authorized and directed to forward a certified copy of this Resolution to the Director of Administrative Services of the City of Stockton, who is hereby authorized to and shall cause the amount of the assessments to be added to the next regular bill of taxes levied against said properties for municipal purposes, which said amounts shall be collected at the time and in the same manner as ordinary municipal taxes are collected, and shall be subject to the same penalties and procedures under foreclosure and sale in case of delinquency as provided for ordinary municipal taxes.

//
//
//

4. The City Manager is authorized to take such other actions as are appropriate to carry out the intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

ADOPT RESOLUTION TO AUTHORIZE THE SAFE ROUTES TO SCHOOL SAFETY AND CONNECTIVITY IMPROVEMENTS PROJECT

RECOMMENDATION

It is recommended that the City Council approve a resolution to:

1. Appropriate \$210,000 from the Traffic Signal Public Facilities Fee Fund Balance to the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).
2. Appropriate \$340,000 from the Street Improvements Public Facilities Fee Fund Balance to the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).
3. Appropriate \$1,040,353 from the Air Quality Public Facilities Fee Fund Balance to the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).
4. Transfer \$373,393 of Measure K funds from the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005, to the Measure K Fund Balance.
5. Approve the Notice of Exemption No. NOE78-21 under the California Environmental Quality Act for Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).
6. Approve the plans and specifications for the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).
7. Award a Construction Contract in the amount of \$5,521,230 to Dirt Dynasty, Inc. of Farmington, CA, for the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

Summary

The Safe Routes to School Safety and Connectivity Improvements project will construct bicycle lanes, missing sidewalk segments, install high visibility crosswalks, with rectangular rapid flashing beacons (RRFB), and upgrade existing curb ramps to Americans with Disabilities Act (ADA) standards near six elementary/middle and high schools (Attachment A - Vicinity Map).

The project was included in the 2017-22 Five-Year Capital Improvement Plan (CIP).

Design of the project was completed by Siegfried Engineering, Inc. of Stockton, CA, in February 2024. On May 1, 2024, the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPCML-5008(189), was advertised for bids. On June 6, 2024, three bids were received. Dirt Dynasty, Inc. submitted the lowest responsive bid in the amount of \$5,521,230. Staff recommends award of the Construction Contract to Dirt Dynasty, Inc. in the amount of \$5,521,230. Staff also recommends that Council adopt a resolution approving Notice of Exemption No. NOE78-21 under the California Environmental Quality Act (CEQA), approving the plans and specifications for the project, and taking all recommended financial actions. Construction of the project is anticipated to begin fall 2024.

The project is federally funded and subject to federal Disadvantaged Business Enterprise (DBE) requirements.

DISCUSSION

Background

The City secured federal and state funds for the construction of the Safe Routes to School Safety and Connectivity Improvements project under the Active Transportation Program (ATP), Affordable Housing and Sustainable Communities (AHSC), and Congestion Mitigation and Air Quality (CMAQ) Improvement grant.

The ATP is a State grant program created in 2013 by Senate Bill 99 and Assembly Bill 101. This program encourages increased use of active modes of transportation, such as bicycling and walking. The ATP program has both Statewide and Regional competitive levels of funding. Statewide competitive funds are administered by Caltrans, while San Joaquin Council of Governments (SJCOG) administers the Regional competitive funds. The project received \$2,331,000 in ATP funds for construction.

In September 2021, SJCOG announced a call for projects for agencies within San Joaquin County for the Measure K Bicycle, Pedestrian and Safe Routes to School Smart Growth Incentive Programs and Congestion Mitigation and Air Quality (CMAQ). Measure K is a half-cent sales tax within San Joaquin County that provides revenues for transportation projects. CMAQ funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and for former nonattainment areas that are now in compliance (maintenance areas). The project received \$1,495,393 in CMAQ funds for construction.

The project further received \$1,000,000 in AHSC funds for construction. The AHSC program is administered by the Strategic Growth Council and implemented by the Department of Housing and Community Development. ASHC assists project areas by providing grants and/or loans that will achieve greenhouse gas reductions and benefit disadvantaged communities through increasing accessibility of affordable housing, employment centers and key destinations via low-carbon transportation resulting in fewer vehicle miles traveled through shortened or reduced trip length or mode shift from single occupancy vehicle use to transit, bicycling, or walking.

Since the project is funded, in part, with federal transportation dollars, DBE program rules apply. DBE rules require that the prime contractor either meet a calculated project-specific DBE participation goal or undertake and document good faith efforts to do so. If the apparent low bidder does not meet the project goal, a Good Faith Efforts Evaluation must be made examining several specific factors. Failure to meet the goal or provide evidence of adequate good faith efforts are grounds for rejecting the bidder as non-responsive.

A DBE is a socially and economically disadvantaged small business owned by a woman or by a specific group that has been properly certified by Caltrans. The groups include:

- African American
- Asian Pacific American
- Native American
- Women
- Hispanic American
- Subcontinent Asian American

A DBE goal of 21 percent was established for this project. The goal was calculated by examining the breakdown of the types of work to be performed, and the availability of certified DBE companies in our market area to perform the work.

The federal funding restrictions prohibit the use of the Local Employment Ordinance (Stockton Municipal Code (SMC) section 3.68.095) and the Local Business Preference Ordinance (SMC 3.68.090).

Present Situation

On May 1, 2024, the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPCML-5008(189), was advertised for bids. On June 6, 2024, three bids were received with the following results:

<u>COMPANY NAME</u>	<u>BASE BID AMOUNT</u>	<u>BID ALTERNATE 1</u>	<u>BID ALTERNATE 2</u>	<u>BASE BID PLUS BID ALTERNATE 1 AND 2</u>
Dirt Dynasty, Inc.	\$4,524,000.00	\$387,380.00	\$609,850.00	\$5,521,230.00
United Pavement Maintenance, Inc.	\$4,789,660.50	\$359,900.00	\$620,310.00	\$5,420,010.50
Ray's Electric	\$4,701,283.00	\$429,919.00	\$830,850.00	\$8,962,052.00
Engineer's Estimate	\$6,120,714.00			

The contract award is based on the lowest responsive bid for the Base Bid. It is the City's sole discretion to add, or not add, the Alternative Bid(s) to the Base Bid contract. The base bid from Dirt

Dynasty, Inc. is the lowest responsive bid and regular in all respects. Dirt Dynasty, Inc. has the proper license to perform the work and has proposed a DBE participation of 35.85 percent DBE goal. Staff recommends Council approve the plans and specifications for the project and award a Construction Contract to Dirt Dynasty, Inc. of Farmington, CA, in the amount of \$5,521,230 for the base bid plus alternate 1 and 2.

The project is in conformance with the City's General Plan, pursuant to California Government Code, section 65402, and is categorically exempt from the requirements of CEQA as specified under Section 15301(c) of the CEQA guidelines. The activities related to this project constitute a discretionary project under the City's jurisdiction and qualifies as a project that does not have a significant effect on the environment. This resolution will approve the filing of Notice of Exemption No. NOE78-21 under CEQA. Construction is anticipated to be completed by winter 2025.

FINANCIAL SUMMARY

There are insufficient funds in the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189), to award a Construction Contract in the amount of \$5,521,230 to Dirt Dynasty, Inc.

With the appropriation of funds in the amounts of \$210,000 from the Traffic Signal Public Facilities Fee (PFF) Fund Balance, \$340,000 from the Street Improvements PFF Fund Balance, and \$1,040,353 from the Air Quality PFF Fund Balance, there will be sufficient funding to award a Construction Contract with Dirt Dynasty, Inc. of Farmington, CA, for the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).

Further, \$373,393 of Measure K Funds will be transferred from the School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189), to the Measure K Fund Balance.

There is no impact to the City's General Fund as a result of taking these recommended actions.

Attachment A - Vicinity Map

SAFE ROUTES TO SCHOOL SAFETY AND CONNECTIVITY IMPROVEMENTS (CITY PROJECT NO. WT19005)

CITY OF STOCKTON

DEPARTMENT OF PUBLIC WORKS

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING THE NOTICE OF EXEMPTION NO. NOE78-21, APPROVING THE PLANS AND SPECIFICATIONS, AND AWARDING A CONSTRUCTION CONTRACT FOR THE SAFE ROUTES TO SCHOOL SAFETY AND CONNECTIVITY IMPROVEMENTS, PROJECT NO. WT19005 / FEDERAL PROJECT NO. ATPCML-5008(189)

On June 6, 2024, the City Clerk of the City of Stockton opened, examined, and publicly declared the sealed bids offered for the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPCML-5008(189); and

The project will construct bicycle lanes, missing sidewalk segments, install high visibility crosswalks, with rectangular rapid flashing beacons (RRFB), and upgrade existing curb ramps to Americans with Disabilities Act (ADA) standards near six elementary/middle and high schools; and

Dirt Dynasty, Inc. is the lowest responsible bidder in the amount of \$5,521,230, and its bid is responsive and regular in all respects; and

The project is in conformance with the City's General Plan, pursuant to California Government Code, section 65402, and is categorically exempt from the requirements of CEQA as specified under section 15301(c) of the CEQA guidelines. The activities related to this project constitute a discretionary project under the City's jurisdiction and qualifies as a project that does not have a significant effect on the environment; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The City Council approves the appropriation of funds in the amount of \$210,000 from the Traffic Signal Public Facilities Fee Fund Balance to the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).

2. The City Council approves the appropriation of funds in the amount of \$340,000 from the Street Improvements Public Facilities Fee Fund Balance to the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPSCML-5008(189).

3. The City Council approves the appropriation of funds in the amount of \$1,040,353 from the Air Quality Public Facilities Fee Fund Balance to the Safe Routes to

School Safety and Connectivity Improvements, Project No WT19005/Federal Project No. ATPSCML-5008(189).

4. The City Council approves the transfer of funds in the amount of \$373,393 of Measure K funds from the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005, to the Measure K Fund Balance.

5. The City Council approves the filing of Notice of Exemption No. NOE78-21 under CEQA for the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPCML-5008(189), attached as Exhibit 1 and incorporated by this reference.

6. The City Council approves the plans and specifications for the Safe Routes to School Safety and Connectivity Improvements, Project No. WT19005/Federal Project No. ATPCML-5008(189).

7. The City Council awards a Construction Contract between the City of Stockton and Dirt Dynasty, Inc., in the amount of \$5,521,230, and the City Manager is authorized and directed to execute same, attached as Exhibit 2 and incorporated herein by this reference.

8. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

**CITY OF STOCKTON
NOTICE OF EXEMPTION**

TO: COUNTY CLERK
COUNTY OF SAN JOAQUIN
44 N. San Joaquin St., Ste. 260
Stockton, CA 95202

FROM: Lead Agency
City of Stockton
c/o Public Works Department
22 East Weber Avenue, Suite 301
Stockton, CA 95202

NOTICE OF EXEMPTION PURSUANT TO PUBLIC RESOURCES CODE SECTION 21152(B) AND CALIFORNIA CODE OF REGULATIONS TITLE 14, SECTION 15062

PROJECT DATA

Project Title: SAFE ROUTES TO SCHOOL SAFETY AND CONNECTIVITY IMPROVEMENTS – PROJECT NO. WT19005 / FEDERAL PROJECT NO. ATPSB1L-5008(189)

CEQA Exemption File No.: NOE78-21

Applicant: City of Stockton Public Works Department

Project Description/Location: The City of Stockton's Public Works Department will bring safety connectivity to school aged pedestrians and bicyclists for six (6) high priority elementary, middle and high schools. The Project will include installing sidewalks, curb and gutter, ADA compliant curb ramps, high visibility crosswalk striping, improved signage, bicycle lanes, and rectangular rapid flashing beacons. See attachment A for specific locations.

DETERMINATION/FINDING OF EXEMPTION

The above-described activity/project is exempt from the environmental assessment requirements of the California Environmental Quality Act (CEQA) pursuant to the following section(s) of the State CEQA Guidelines (California Code of Regulations, Title 14):

- ☐ The activity is not a "project" as defined in CEQA Guidelines Section 15378.
☐ The activity is exempt under the "general rule" at CEQA Guidelines Section 15061(B)(3).
☐ The project is "Statutorily Exempt" per CEQA Guidelines Section: _____
☒ The project is "Categorically Exempt" per CEQA Guidelines Section 15301(c).

BASIS FOR FINDING OF EXEMPTION

- ☐ The activity does not qualify as a project and/or clearly could not have a significant effect on the environment and, therefore, CEQA does not apply.
☒ The activity constitutes a discretionary project under the City's jurisdiction and qualifies as a project which has been determined not to have a significant effect on the environment and, therefore, is exempt from the provisions of CEQA under the above-noted statutory or categorical exemption(s).

JODI ALMASSY, DIRECTOR
PUBLIC WORKS DEPARTMENT

December 27, 2021
(DATE OF PREPARATION)

By 
Zulema Rodriguez, Assistant Engineer

(DATE OF FINAL APPROVAL)

AFFIDAVIT OF FILING AND POSTING

I declare that on the date stamped above, I received and posted this notice or included it on a list of such notices which was posted as required by California Public Resources Code Section 21152(B). Said notice or list of notices will remain posted for 35 days from the filing date.

CONSTRUCTION CONTRACT

This contract is made and entered into on _____, by and between **DIRT DYNASTY, INC.**, a **STATE OF CALIFORNIA CORPORATION**, with a business address at **P.O. BOX 67, FARMINGTON, CA 95230**, hereinafter called "CONTRACTOR," and **CITY OF STOCKTON**, a municipal corporation, hereinafter called "CITY."

WITNESSETH:

WHEREAS, plans and specifications for the construction of **SAFE ROUTES TO SCHOOL SAFETY AND CONNECTIVITY IMPROVEMENTS, PROJECT NO. WT19005/FEDERAL PROJECT NO. ATPCML-5008(189)**, hereinafter called "PROJECT," were regularly adopted by **Council Resolution No. _____**, on _____; and

WHEREAS, the contract for said work was regularly awarded to CONTRACTOR, by **Council Resolution No. _____**, on _____.

NOW, THEREFORE, in consideration of the promises and of the mutual covenants herein contained, the parties hereto expressly agree as follows:

CONTRACTOR agrees:

1. SCOPE OF SERVICES. To do the work and furnish all the labor, materials, tools, equipment, and insurance required for the construction of PROJECT in accordance with the plans and specifications adopted on _____, by **Council Resolution No. _____**. The "contract documents," which include the bid documents, project plans, specifications, all letters of clarification, and the City of Stockton Standard Specifications and Plans, are incorporated into and made a part of this contract by this reference to the same extent as if fully set forth.

2. COMPENSATION. To do and perform the work contemplated hereby in a good and workmanlike manner and to furnish all labor, materials, tools, and equipment necessary therefore at the prices specified in **Exhibit A**, attached hereto and by reference made a part hereof, under the direction of and to the complete satisfaction of the Director of Public Works of the City of Stockton. Total compensation for services and reimbursement for costs shall not exceed **\$5,521,230.00**, or as otherwise mutually agreed to in a Contract Change Order.

3. INSURANCE. CONTRACTOR shall not commence any work before obtaining, and shall maintain in force at all times during the duration and performance of this contract, the policies of insurance specified in **Exhibit B**, which is attached to this contract and incorporated by this reference, and as provided in the "contract documents" including Section 7-1.06 of the City of Stockton Standard Specifications and Plans as adopted on September 27, 2016, by Council Resolution No. 2016-09-27-1213, effective September 27, 2016. It shall be a requirement under this Agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured.

Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the City of Stockton's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

The limits of insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Stockton (if agreed to in a written contract or Agreement) before the City of Stockton's own insurance or self-insurance shall be called upon to protect it as a named insured.

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Payment Bond in the amount of the self-insured retention (SIR) may be required.

Policies containing any self-insured retention (SIR) provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named Insured or the City of Stockton.

The City of Stockton reserves the right to obtain a full certified copy of any Insurance policy and endorsements.

Failure to exercise this right shall not constitute a waiver of right to exercise later.

Contractor shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the City at its sole discretion may purchase the coverage required and the cost will be paid by contractor.

Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the City of Stockton in the same manner and to the same extent as Contractor is bound to the City of Stockton under the Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the City of Stockton Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor shall require all sub-contractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and contractor will provide proof of compliance to the City.

4. INDEMNITY AND HOLD HARMLESS. To the fullest extent permitted by law, Contractor shall hold harmless, defend, and indemnify City of Stockton and its officers, officials, employees, and volunteers from and against all claims, damages, losses, and expenses including attorney fees arising out of the performance of the work described herein, caused in whole or in part by any negligent act or omission of the Contractor, any subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, except where caused by the active negligence, sole negligence, or willful misconduct of the City of Stockton. This obligation is independent of, and shall not in any way be limited by, the minimum Insurance obligations contained in this agreement. These obligations shall survive the completion or termination of this agreement.

5. STANDARD PLANS AND SPECIFICATIONS. The performance of said work and the furnishing of said materials shall be executed in accordance with Section 8-1.04B of the City of Stockton Standard Specifications and Plans as adopted on September 27, 2016, by Council Resolution No. 2016-09-27-1213, effective September 27, 2016, and the provisions of the issued project specifications.

The Director of Public Works will furnish CONTRACTOR a weekly statement showing the number of days charged to the contract for the preceding week, the number of days specified for completion of the contract, and the number of days remaining to complete the contract. CONTRACTOR will be allowed one (1) week in which to file a written protest setting forth in what respects said weekly statement is incorrect, otherwise the statement shall be deemed to have been accepted by CONTRACTOR as correct.

6. WORKING DAYS. It is agreed by the parties to the contract that in case all the work called for under the contract in all parts and requirements, is not finished or completed within the number of days as set forth, damage will be sustained by CITY, and that it is and will be impracticable and extremely difficult to ascertain the actual damage which CITY will sustain in the event of and by reason of such delay; and it is therefore agreed that CONTRACTOR will pay to CITY the sum of **SIX THOUSAND EIGHT HUNDRED AND NO/100 DOLLARS (\$6,800.00)** per day for each and every calendar day's delay in finishing the work in excess of the number of days prescribed; and CONTRACTOR agrees to pay said liquidated damages as herein provided, and in case the same are not paid, agrees that CITY, may deduct the amount thereof from any monies due or that may become due CONTRACTOR under the contract.

It is further agreed that in case the work called for under the contract is not finished and completed in all parts and requirements within the number of days as specified, CITY shall have the right to increase the number of days or not, as may seem best to serve the interest of CITY, and if CITY decides to increase the said number of days, CITY shall further have the right to charge to CONTRACTOR, CONTRACTOR's heirs, assigns or sureties, and to deduct from the final payment for the work, all or any part, as may be deemed proper, the liquidated damages as specified or the actual cost of engineering, inspection, superintendence, and other overhead expenses which are directly chargeable to the contract, and which accrue during the period of such extension, whichever is greater, except the cost of final surveys and preparation of final estimate shall not be included in such charges.

A working day shall not include, nor shall CONTRACTOR be assessed with liquidated damages nor the additional cost of engineering and inspection during any delay beyond the time named for the completion of the work caused by acts of God or of the public enemy, acts of CITY, fire, floods, epidemics, quarantine restrictions, strikes, and freight embargoes and subject to approval by the Director, inability to get materials ordered by CONTRACTOR or Subcontractor due to such causes provided that CONTRACTOR shall notify the Director in writing of the causes of delay within five (5) working days from the beginning of any such delay, and the Director shall ascertain the facts and the extent of the delay, and Director's findings of the facts thereon shall be final and conclusive.

If CONTRACTOR is delayed by reason of alterations made in these specifications, or by any act of the Director or of CITY, not contemplated by the contract, the time of completion shall be extended proportionately, and CONTRACTOR shall be relieved during the period of such extension of any claim for liquidated damages, engineering or inspection charges or other penalties. CONTRACTOR shall have no claim for any other compensation for any such delay.

7. CONFORMANCE TO APPLICABLE LAWS

A. TITLE VI

Title VI of the Civil Rights Act of 1964 requires that “no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.” (42 USC Section 2000d) <http://www.dol.gov/oasam/regs/statutes/titlevi.htm>.

The City of Stockton requires compliance with the requirements of Title VI in all of its programs and activities regardless of funding source.

B. DISCRIMINATION AND HARASSMENT POLICY

The City of Stockton has a Discrimination and Harassment Policy (**Exhibit C**). The purpose of this policy is to reaffirm the CITY’s commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace, to define the types of behavior and conduct prohibited by this policy, and to set forth a procedure for reporting, investigating, and resolving complaints of discrimination and harassment in the workplace.

C. LABOR STANDARDS AND PROVISIONS/CALIFORNIA LABOR CODE

The bidder shall understand that conditions set forth in Chapter 1, Part 7, Division 2 of the California Labor Code shall be considered part of the contract agreement. https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=LAB&division=2.&title=&part=7.&chapter=1.&article=2.

D. PREVAILING WAGE

CONTRACTOR and any Subcontractor shall pay each employee engaged in the trade or occupation not less than the prevailing hourly wage rate. In accordance with the provisions of Section 1770 of the Labor Code, the Director of Department of Industrial Relations of the State of California has determined the general prevailing rates of wages and employer payments for health and welfare, pension, vacation, travel time, and subsistence pay as provided for in Section 1773.1, apprenticeship or other training programs authorized by Section 3093 and similar purposes applicable to the work to be done. CONTRACTOR performing the work under this contract shall obtain a copy of the wage rate determination and shall distribute copies to each Subcontractor (see **Exhibit D**). As the wage determination for each craft reflects an expiration date, it shall be the prime CONTRACTOR and each Subcontractor's responsibility to ensure that the prevailing wage rates of concern is current and paid to the employee.

- (i) The CONTRACTOR performing the work shall be responsible for obtaining a copy of the State wage rate determination. State wage rates may be obtained at <http://www.dir.ca.gov/OPRL/pwd/Determinations/Northern/Northern.pdf>. The CONTRACTOR shall be responsible for posting said wage rates at a prominent location at the work site and shall maintain same in a good readable condition for the duration of the work.
- (ii) Should the CONTRACTOR choose to work on a Saturday, Sunday or on a holiday recognized by the Labor Unions, the CONTRACTOR shall reimburse the CITY the actual cost of engineering, inspection, superintendence, and or other overhead expenses which are directly chargeable to the contract. Should such work be undertaken at the request of the CITY, reimbursement will not be required. To conform strictly with the provisions of Division 2, Part 7, Chapter 1, Article 2, of the Labor Code of the State of California. To forfeit as a penalty to CITY the sum of TWENTY-FIVE AND NO/100 DOLLARS (\$25.00) for each laborer, worker, or mechanic employed by CONTRACTOR, or by any Subcontractor under CONTRACTOR, in the execution of this contract, for each calendar day during which any laborer, worker, or mechanic is required or permitted to work more than eight (8) hours and who is not paid the general prevailing rate of per diem wages for holiday and overtime work in violation of the provisions of Sections 1770 to 1781 of the Labor Code of the State of California. That all sums forfeited under the provisions of the foregoing sections shall be deducted from the payments to be made under the terms of this contract.
- (iii) The CONTRACTOR to whom the contract is awarded shall ensure that the prime and each subcontractor will in accordance with Section 1776 of the Labor Code, maintain certified payroll records. A copy of said records shall

be provided with each invoice to the Public Works Department, Attention Contract Compliance Officer. It shall be the CONTRACTOR'S responsibility to obtain copies of the current prevailing wage rate determination for all subcontractors. Additionally, certified payroll records must be uploaded to the DIR website as required by labor code.

- (iv) The CONTRACTOR shall comply with the provisions established in Section 1777.5 of the Labor Code concerning the 1) certified approval by local joint apprenticeship committees for the employment and training of apprentices, and 2) contribution of funds to administer and conduct apprenticeship programs, if applicable to the job.

E. APPENDIX E OF THE TITLE VI ASSURANCES

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest agrees to comply with the Appendix E of the Title VI Assurances attached as **Exhibit F**.

F. SANCTIONS

Deliverables must conform with all applicable federal, state, and local laws. Such conformity includes compliance with federal sanctions, and Contractor certifies that it has not and will not engage in prohibited transactions with sanctioned persons or entities.

CITY agrees:

8. COMPENSATION. To pay CONTRACTOR for the work herein contemplated in the following manner: Progress payments will be made on or about the first day of each calendar month, in such sum as shall make the aggregate of payment up to such day equal to ninety-five percent (95%) of the proportional contract price, upon the basis of the progress certificate of the Director of Public Works as to the amount of work done and the proportional amount of the contract price represented therefore; and all of the remaining part of the contract price not as aforesaid paid, shall be paid at the expiration of thirty-five (35) days from the completion of said work of construction and the certification by the Director of Public Works of such completion.

9. SECURITIES. Pursuant to Section 22300 of the Public Contract Code, CONTRACTOR will be permitted, at its request and sole expense, to substitute securities for any monies withheld by the CITY to ensure performance under the contract. Said securities will be deposited either with the CITY or with a State or federally chartered bank as escrow agent. Securities eligible for this substitution are those listed in Section 16430 of the California Government Code or bank or savings and loan certificates of deposit. CONTRACTOR shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon.

10. CHANGE ORDERS. CITY reserves the right to make such alterations, deviations, additions to or omissions from the plans and specifications, including the right to increase or decrease the quantity of any item or portion of the work, as may be deemed by the Engineer to be necessary or advisable and to require such extra work as may be determined by the Engineer to be required for the proper completion or construction of the whole work contemplated.

Any such changes will be set forth in a contract change order which will specify, in addition to the work done in connection with the change made, adjustment of contract time, if any, and the basis of compensation for such work. A contract change order will not become effective until approved by the City Manager and/or the City Council.

Processing of change orders shall be in accordance with Section 4-1.05A of the City of Stockton Standard Specifications and Plans as adopted by Council on September 27, 2016, by Resolution No. 2016-09-27-2013, effective September 27, 2016, or as otherwise amended by Council. When the compensation for an item of work is subject to adjustment under the provisions of Standard Specifications and Plans, Section 4-1.05A, CONTRACTOR shall, upon request, promptly furnish the Engineer with adequate detailed cost data for such item of work.

11. AUDITS

(a) CITY reserves the right to periodically audit all charges made by CONTRACTOR to CITY for services under the contract. Upon request, CONTRACTOR agrees to furnish CITY, or a designated representative, with necessary information and assistance.

(b) CONTRACTOR agrees that CITY or its delegate will have the right to review, obtain and copy all records pertaining to performance of the contract. CONTRACTOR agrees to provide CITY or its delegate with any relevant information requested and shall permit CITY or its delegate access to its premises, upon reasonable notice, during normal business hours for the purpose of interviewing employees and inspecting and copying such books, records, accounts, and other material that may be relevant to a matter under investigation for the purpose of determining compliance with this requirement. CONTRACTOR further agrees to maintain such records for a period of five (5) years after final payment under the contract.

12. FHWA 1273 AND CARGO PREFERENCE ACT

Federal form FHWA 1273 is physically included in this contract as **Exhibit E**.

In compliance with the Cargo Preference Act of 1954 (CPA), 46 CFR §381, and the implementing regulations in 46 CFR §381.7, the Contractor agrees:

- A. To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels;

- B. To furnish within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, "on-board" commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (b) (1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590;
- C. To insert the substance of the provisions of this clause in all subcontracts issued pursuant to this contract.

13. WAIVER. It is expressly understood and agreed by and between the parties hereto that a waiver of any of the conditions of this contract shall not be considered a waiver of any of the other conditions thereof.

It is further understood and agreed by and between the parties hereto that time is of the essence of this contract in all respects.

IN WITNESS WHEREOF, the parties hereto have hereunto affixed their hands and seals the day and year first above written.

BIDDING SCHEDULE

Each bidder shall bid each item, including all alternate bid(s). Failure to bid an item shall be just cause for considering the bid as non-responsive. Line-item costs should include all Contractor's overhead and profit and indirect costs. Bids not presented on City forms shall be cause for considering the bid as non-responsive. If the City awards the contract, the award is made to the lowest responsible bidder.

The basis of contract award will be the lowest bidder for the Base Bid. It is the City's sole discretion to add, or not add, the Alternative Bid(s) to the Base Bid contract.

Insurance Requirements for Construction Contracts

SAFE ROUTES TO SCHOOL SAFETY AND CONNECTIVITY IMPROVEMENTS
PROJECT NO. WT19005 (formerly PW1905), FEDERAL PROJECT NO. ATPCML-5008(189)

Contractor shall procure and maintain for the duration of the contract, *and for 5 years thereafter*, insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, his agents, representatives, employees, or subcontractors.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability** (CGL): Insurance Services Office (ISO) Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **\$5,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.
2. **Automobile Liability**: Insurance Services Office Form CA 0001 covering Code 1 (any auto), with limits no less than **\$5,000,000** per accident for bodily injury and property damage.
3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employers' Liability insurance with a limit of no less than **\$1,000,000** per accident for bodily injury or disease.
4. **Professional Liability** (if Design/Build), with limits no less than **\$1,000,000** per occurrence or claim, and **\$1,000,000** policy aggregate.
5. **Contractors Pollution Liability** applicable to the work being performed, with a limit no less than **\$1,000,000** per claim or occurrence and **\$1,000,000** aggregate per policy period of one year.
6. **Surety Bonds** as described below.

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Self-Insured Retentions

Self-insured retentions must be declared to and approved by the City of Stockton. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds \$25,000 unless approved in writing by City of Stockton. Any and all deductibles and SIRs shall be the sole responsibility of Contractor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. City of Stockton may deduct from any amounts otherwise due Contractor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named Insured. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. City of Stockton reserves the right to obtain a copy of any policies and endorsements for verification.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

1. **The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds** on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations and automobiles owned, leased, hired, or borrowed by or on behalf of the Contractor. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 forms if later revisions used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

2. For any claims related to this project, the **Contractor's insurance coverage shall be primary and non-contributory** insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City of Stockton, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or

Umbrella liability policies. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

3. Each insurance policy required by this clause shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Claims Made Policies (Professional & Pollution only)

If any coverage required is written on a claims-made coverage form:

1. The retroactive date must be shown, and this date must be before the execution date of the contract or the beginning of contract work.

2. Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of contract work.

3. If coverage is cancelled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the contract effective, or start of work date, the Contractor must purchase extended reporting period coverage for a minimum of five (5) years after completion of contract work.

4. A copy of the claims reporting requirements must be submitted to the City of Stockton for review.

5. If the services involve lead-based paint or asbestos identification/remediation, the Contractors Pollution Liability policy shall not contain lead-based paint or asbestos exclusions. If the services involve mold identification/remediation, the Contractors Pollution Liability policy shall not contain a mold exclusion, and the definition of Pollution shall include microbial matter, including mold.

Umbrella or Excess Policies

The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Contractor's primary and excess liability policies are exhausted.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best rating of no less than A: VII, unless otherwise acceptable to the City of Stockton.

Waiver of Subrogation

Contractor hereby agrees to waive rights of subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss.

Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause and **a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements**. All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the City of Stockton before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time. City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Subcontractors

Contractor shall require and verify that all subcontractors maintain insurance meeting all requirements stated herein, and Contractor shall ensure that City of Stockton is an additional insured on insurance required from subcontractors. For CGL coverage, subcontractors shall provide coverage with a form at least as broad as CG 20 38 04 13.

Duration of Coverage

CGL & Excess liability policies **for any construction related work, including, but not limited to, maintenance, service, or repair work**, shall continue coverage for a minimum of 5 years for Completed Operations liability coverage. Such Insurance must be maintained and evidence of insurance must be provided **for at least five (5) years after completion of the contract of work**.

Surety Bonds

Contractor shall provide the following Surety Bonds:

1. Bid Bond

2. Performance Bond

3. Payment Bond

4. Maintenance Bond

The Payment Bond and the Performance Bond shall be in a sum equal to the contract price. If the Performance Bond provides for a one-year warranty a separate Maintenance Bond is not necessary. If the warranty period specified in the contract is for longer than one year a Maintenance Bond equal to 10% of the contract price is required. Bonds shall be duly executed by a responsible corporate surety, authorized to issue such bonds in the State of California and secured through an authorized agent with an office in California.

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other circumstances.

Certificate Holder Address

The address for mailing certificates, endorsements and notices shall be:

City of Stockton
Its Officers, Officials, Employees and Volunteers
400 E Main Street, 3rd Floor – HR

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 1 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

I. PURPOSE

The purpose of this policy is to reaffirm the City's commitment to demonstrating respect for all individuals by strictly prohibiting discrimination and harassment, including sexual harassment in the workplace. This policy defines prohibited behavior and conduct, and sets forth a procedure for reporting, investigating and resolving complaints of discrimination, harassment, in the workplace, including retaliation and hostile work environment.

II. POLICY

- A. The City of Stockton prohibits any form of discrimination and/or harassment of any person based on race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute consistent with state or federal law. All such discrimination and harassment is unlawful and shall not be tolerated. In addition, under the federal Affordable Care Act (ACA), the City of Stockton prohibits discrimination and/or harassment, or retaliation against an employee who obtains coverage, receives a tax credit or subsidy through the Health Care "Market Place" or "Exchange."
- B. It is an unlawful employment practice to discriminate against or to harass an unpaid intern or volunteer on the basis of any legally protected classification unless an exception applies, such as a bona fide occupational qualification.
- C. The City will neither tolerate nor condone discrimination and/or harassment of employees by managers, supervisors, co-workers, or non-employees with whom City employees have a business service, or professional relationship.
- D. All City employees and non-employees share a responsibility to assist in

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

maintaining an employment environment free of discrimination and harassment. This policy applies to all aspects of City employment, including, but not limited to, hiring, reassignment, placement, promotion, employment action, disciplinary action, layoff, reemployment, transfer, leave of absence, compensation and benefits, training; or other terms of treatment of that person in an unpaid internship, or another limited duration program to provide unpaid work experience for that person, or the harassment of an unpaid intern or volunteer.

- E. All allegations of discrimination and/or harassment shall be investigated immediately by the City, in accordance with this policy. If it is determined that any prohibited activity has occurred, remedial action shall be taken. Such action may include discipline up to and including discharge. In addition, under applicable law, individual supervisors and employees may be subject to personal liability and/or punitive damages in any litigation arising as a result of such conduct.
- F. All new hires shall attend harassment awareness training, and supervisors and managers shall attend harassment awareness and prevention training for supervisors every two years.
- G. The City of Stockton prohibits retaliation against any employee or non-employee by another employee, non-employee, supervisor, or manager for reporting, filing, testifying, assisting or participating in any manner in any investigation, proceeding, or hearing conducted by the employer or a federal or state enforcement agency.
- H. This policy applies to all officials, employees, volunteers, unpaid interns, agents, or contractors of the City.
- I. This policy shall be administered by the Director of Human Resources.

EXHIBIT C**

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 3 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

III. DEFINITION AND EXAMPLES OF DISCRIMINATION AND HARASSMENT

- A. "Discrimination," as used in this policy, is any action, behavior, practice, or process that is intended to deny, or results in the denial of, employment rights, privileges, or benefits because of a person's race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other prohibition identified under state and federal law. The following are examples of conduct that may constitute discrimination:
1. Soliciting applications from a source where all or most of potential workers are of the same race or color.
 2. Considering a person's gender as the basis for differences in pay, work assignments, performance evaluations, training, discipline, or any other area of employment; and
 3. Questioning a job applicant about the existence, nature and severity of a disability.
- B. "Harassment," as used in this policy, consists of any conduct affecting another person because of his or her race, religious creed, color, national origin, ancestry, military and veterans status, physical or mental disability, medical condition, genetic characteristics or information, denial of family and medical care leave, marital status, sexual orientation, sex (including gender, gender identity, gender expression, transgender, pregnancy, childbirth and breastfeeding), political affiliation, age (40 and older), concerted labor activity, or any other category or attribute identified under state and federal law when such conduct has the purpose or the effect of: (1) creating an intimidating, hostile or offensive work environment; (2) unreasonably interfering with the employee's or non-employee's work performance; or (3)

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

otherwise adversely affecting an employee's or non-employee's employment opportunities.

Harassment may take many forms, including, but not limited to, the following examples:

1. Verbal Harassment: Epithets, derogatory and offensive comments or slurs based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.
 2. Physical Harassment: Assault, impeding or blocking movement that results in the physical interference with normal work or movement on the basis of race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.
 3. Visual Harassment: The displaying of posters, photography, notices, bulletins, e-mails, cartoons or drawings with derogatory and offensive content based on race, religion, color, national origin, ancestry, physical or mental disability, marital status, pregnancy, medical condition, gender, sexual orientation, political affiliation, age, or any other category or attribute identified under state and federal law.
- C. "Sexual harassment," as used in this policy, is a subcategory of harassment, and is specifically defined by law as unwanted sexual advances, requests for sexual favors or visual, verbal or physical conduct of a sexual nature when:
1. Submission to such conduct is made a term or condition of employment; or
 2. Submission to or rejection of such conduct is used as a basis for employment decisions affecting the individual; or

3. Such conduct has the purpose or effect of unreasonably interfering with an employee's or non-employee's work performance or creating an intimidating, hostile or offensive working environment because of the persistent, severe or pervasive nature of the conduct.

Examples of Sexual Harassment include, but are not limited to the following:

- a. Unwelcome sexual overtures or propositions.
- b. Offering employment benefits or status in exchange for sexual favors.
- c. Making or threatening retaliation after a negative response to sexual advances.
- d. Visual conduct such as leering, making sexual gestures, displaying sexually suggestive objects or pictures, cartoons, calendars or posters.
- e. Verbal conduct such as using epithets or slurs, telling sexually explicit jokes, or making derogatory or suggestive comments about a person's body or dress.
- f. Written communications of a sexual nature distributed in hard copy, soft copy or via a computer network.
- g. Verbal abuse of a sexual nature, graphic verbal commentary about an individual's body, sexually degrading words to describe an individual, suggestive or obscene letters, notes or invitations.
- h. Physical conduct such as touching, assaulting, impeding or blocking movements.

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

- i. Retaliation for making harassment reports or threatening to report harassment.

D. Affordable Care Act (ACA) Anti-Retaliation

Pursuant to section §1558 of the Affordable Care Act, the City prohibits discrimination or retaliation towards any employee who:

1. Receives a health insurance tax credit or subsidy through the Health Care "Marketplace" or "Exchange", by which can trigger a penalty payable by the employer;
2. Reports potential violations of protections afforded under Title I of the Act, which provides guaranteed availability protections among other things;
3. Testifies in a proceeding concerning such violation;
4. Assists or participates in a proceeding concerning a violation; or
5. Objects to, or refuses to participate in, any activity, policy, practice, or assigned task that the employee reasonably believes to be in violation of any provision of the Title I of the Act.

An employee who believes that he or she has been discharged or otherwise discriminated against in violation of section §1558 of the Affordable Care Act may seek relief in accordance with the procedures, notifications, burdens of proof, remedies, and statutes of limitation set forth in section 2087(b) of title 15, United States Code.

IV. REPORTING AND COMPLAINT PROCEDURES

A. Immediate Action Required

The City's reporting and complaint procedures provide for an immediate, thorough and objective investigation of discrimination or harassment claims, appropriate disciplinary action taken against any person found to have engaged in prohibited behavior, and appropriate alternative remedies to any

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

employee or non-employee subject to discrimination or harassment. To accomplish this, such incidents must be reported immediately to a supervisor or manager.

1. Employee's and Non-Employee's Responsibilities when Subjected to Discrimination and/or Harassment
 - a. Employees or non-employees who believe they have been subjected to discrimination or harassment, or are aware of discrimination or harassment against others, shall report the situation immediately to his/her supervisor or manager, except as specified in subsection (b), below. Employees and non-employees shall report any such incidents occurring in the workplace, whether committed by coworkers, supervisors or managers, or third persons doing business with the City, such as customers or vendors, or other non-employees. If comfortable doing so, an employee or non-employee who has a complaint of discrimination or harassment is encouraged to directly inform the person(s) engaging in the behavior that such conduct is offensive and insist the behavior to stop.
 - b. Employees and non-employees must immediately contact a supervisor or manager to register a complaint of discrimination or harassment, unless that supervisor or manager is the individual engaging in the unwanted behavior. In that case, the employee or non-employee may contact someone at the next supervisory level. If the employee or non-employee feels uncomfortable dealing directly with his or her immediate supervisor or manager, he or she may contact the department head, or the Director of Human Resources (or either of their designees) to register a complaint of discrimination or harassment.
 - c. Employees and non-employees may file a formal complaint of harassment or discrimination with their department head or

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

with Human Resources. To assist the City in conducting a thorough investigation, complaints shall be submitted in writing and shall include specific details of the incident(s), the names of the individuals involved, the names of any witnesses, and any documentary evidence (notes, pictures, cartoons, etc.) that will corroborate the allegations.

- d. Employees and non-employees shall immediately report any retaliation to a supervisor, manager, department head or Director of Human Resources (or designee). All retaliation complaints shall be immediately, objectively and thoroughly investigated in accordance with the investigation procedures. If a report of retaliation is substantiated, appropriate disciplinary action, up to and including discharge shall be taken.

2. Supervisor's or Manager's Responsibilities to Eliminate Discrimination and/or Harassment

- a. A supervisor or manager is responsible for enforcing the City's discrimination and harassment policy. Supervisors or managers must ensure that all employees and non-employees are aware of the City's policy through open discussion of the policy at staff meetings and by posting the policy in a conspicuous location accessible to all staff members.
- b. A supervisor or manager shall be cognizant of employees' and non-employees' behavior and shall not permit any employee or non-employee under their supervision to be subjected to or engage in any conduct prohibited by this policy.
- c. A supervisor or manager who observes conduct prohibited by this policy shall immediately direct the employee or non-employee to cease the conduct.

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

- d. A supervisor or manager who receives a complaint of prohibited conduct is required to take the complaint seriously, and report the matter immediately to the department head; be supportive of the complainant; ensure there is no retaliation against the complainant; conduct an internal fact-finding review into the allegations; obtain as much detailed information as possible; thoroughly document the findings; communicate in written form to the parties the resolution of the complaint; and report to and consult with the Human Resources Department promptly, without delay.
- B. Confidentiality. The City will make every effort to protect the privacy and confidentiality of all parties involved, as well as any information and/or documentation obtained, to the extent possible consistent with a thorough investigation.
- C. Penalty for Non-Compliance. The City shall take disciplinary action, up to and including discharge, against any supervisor or manager who fails in his/her responsibility to take immediate action in response to an employee's or non-employee's complaint of discrimination or harassment. Further, such disciplinary action shall be taken against a supervisor or manager who fails to stop discriminatory or harassing conduct committed in his/her presence or to stop such conduct about which the supervisor or manager has knowledge.

V. INVESTIGATION PROCEDURES

A. Determination of Responsibility for Investigation

If a formal complaint is filed with the department head or the Director of Human Resources (or either of their designees), the department head and the Director of Human Resources shall consult with one another to determine whether the department or Human Resources shall conduct the fact-finding investigation into the allegations. Either the department head or the Director of Human Resources (or either of their designees), depending on who is

responsible for the investigation, shall issue written notification to the complainant and alleged harasser(s). The notification shall specify the nature of the complaint, and inform the parties that an investigation into the allegations of discrimination and/or harassment shall be conducted.

B. Investigative Guidelines

The investigation shall include the following steps taken in the order best suited to the circumstances:

1. Identify and preserve the evidence.
2. Confirm the name and position of the complainant. Interview the complainant.
3. Allow the complainant the opportunity to place the complaint in writing.
4. Obtain the identity of the alleged harasser(s).
5. Obtain as many details as possible regarding the incident(s) that prompted the complaint, including the number of occurrences, dates, times, locations, and witnesses (if applicable).
6. Ascertain how the complainant felt about the alleged incident when it occurred; complainant's response(s) to the alleged behavior; and witness statements (if applicable).
7. Ascertain if any threats or promises were made in connection with the alleged harassment.
8. Ascertain if the complainant knows of or suspects that there are other victims of harassment by the same person(s).
9. Ascertain whether the complainant has spoken to anyone, especially

supervisors, about the harassment.

10. Ascertain what resolution would be acceptable to the complainant.
11. Interview the alleged harasser to get his or her side of the story, including any possible motivation for a false allegation.
12. Interview witnesses who were identified by the complainant regarding the alleged harasser or other persons identified during the investigation.
13. Interview witnesses who were identified by the alleged harasser or other persons identified during the investigation.
14. Advise all participants that the investigation is "confidential" and not to engage in any retaliatory conduct, as such conduct is subject to disciplinary action up to and including discharge. Confidentiality will be maintained to the extent possible. An individual who is interviewed during the course of an investigation is prohibited from discussing the substance of the interview, except as otherwise directed by a supervisor or the Director of Human Resources. Any individual who discusses the content of an investigatory interview will be subject to discipline or other appropriate sanction.
15. Conduct follow-up interviews, if warranted.
16. Prepare report of findings and discuss with management and designated legal staff.

VI. RESPONDING TO THE COMPLAINT

- A. Following the completion of the fact-finding investigation, either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation, shall

make a report of findings, along with a recommendation regarding the appropriate remedial action to be taken, if warranted. The recommendation shall be made after reviewing the findings of the investigation, giving consideration to all factual information, the nature of the alleged conduct, and the totality of the circumstances. If the investigation was conducted by the Director of Human Resources, or designee, the Director, or designee, shall confer with the affected department head and both shall concur on the remedial action to be taken, if any. If the investigation was conducted by the department head, the department head shall confer with the Director of Human Resources prior to making the report of findings and both shall concur on the remedial action to be taken, if any.

- B. If either the department head or the Director of Human Resources does not concur with the findings and recommendation of the other, the City Attorney (or designee) shall review and resolve the matter in dispute.
- C. Report of findings and recommendation shall be treated as a confidential document and no other distribution shall be made without first consulting with the City Attorney's Office. A completed investigation report will not be disclosed, except as it is deemed necessary to support a disciplinary action, to take remedial action, to defend the City in adversarial proceedings, or to comply with the law or court order.
- D. Either the department head or the Director of Human Resources (or either of their designees), depending on who is responsible for the investigation shall provide a written response to the complainant and the person alleged to have committed the misconduct, discrimination and/or harassment. The response shall include a copy of the City's discrimination and harassment policy and a memorandum indicating the City's determination as to whether the complaint is:
 - 1. Unsustained: The investigation failed to disclose sufficient evidence to substantiate the allegation(s).
 - 2. Unfounded: The investigation proved that the act(s) or omission(s)

PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

complained of did not occur. The finding also applies when the individual employee(s) named in the complaint were not involved in the act(s) or omission(s) alleged.

3. Sustained: The investigation disclosed sufficient evidence to substantiate the allegation(s) made in the complaint; appropriate action will be taken.

- E. Details regarding any specific fact-findings or disciplinary action to be taken will not be communicated to the complainant. The City Attorney shall review the response for legal sufficiency before dissemination.
- F. The City shall close and retain the investigation file, in accordance with applicable laws, regulations, and City policy regarding retention of City records.

VII. DISCIPLINE

Disciplinary action imposed as a result of any investigation conducted pursuant to this policy shall be commensurate with the severity of the offense, up to and including discharge, even for a first offense.

VIII. ALTERNATIVE REMEDIES

If upon exhausting all internal remedies to file, investigate, and respond to a charges of discrimination/harassment, pursuant to title VII of the Federal Civil Rights Act of 1964 (42 U.S.C §§ 2000e *et seq.*), any person has a right to file a charge of discrimination/harassment with the Equal Employment Opportunity Commission ("EEOC"). In addition, pursuant to the California Fair Employment and Housing Act (Gov. Code §§ 12900 – 12996.) a person may also file a complaint of discrimination/harassment with the California Department of Fair Employment and Housing ("DFEH"). Employees or non-employees who believe that they have been subjected to discrimination/harassment may file a complaint with either of these

**CITY OF STOCKTON, CALIFORNIA
CITY MANAGER ADMINISTRATIVE DIRECTIVE**

EXHIBIT 2
EXHIBIT C

Subject: DISCRIMINATION AND HARASSMENT POLICY	Directive No. HR-15	Page No. 14 of 14
	Effective Date: 5/1/2015	Revised From: 7/27/09 4/6/09 3/1/2010 (see below)

PER-015 (Sexual Harassment in the Workplace) revised from 10/21/94, 5/1/95, 1/1/98
PER-037 (Sexual Harassment Investigative Procedures) revised from 2/15/93

agencies. Both the EEOC and DFEH serve as neutral fact-finders and attempt to assist parties in resolving disputes voluntarily.

IX. COMMUNICATION OF POLICY

This policy shall be provided to all managers, supervisors, employees, volunteers, unpaid interns, agents or contractors of the City and shall be posted in the appropriate places. All employees shall participate in City approved harassment awareness training as directed by management or Human Resources; and all supervisors, as required by law, shall participate in City approved interactive harassment awareness training and education sessions at least once every two years, or as otherwise specified by law.

APPROVED:

KURT O. WILSON
CITY MANAGER

"General Decision Number: CA20240018 04/26/2024

Superseded General Decision Number: CA20230018

State: California

Construction Types: Building, Heavy (Heavy and Dredging) and Highway

Counties: Alameda, Calaveras, Contra Costa, Fresno, Kings, Madera, Mariposa, Merced, Monterey, San Benito, San Francisco, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Stanislaus and Tuolumne Counties in California.

BUILDING CONSTRUCTION PROJECTS; DREDGING PROJECTS (does not include hopper dredge work); HEAVY CONSTRUCTION PROJECTS (does not include water well drilling); HIGHWAY CONSTRUCTION PROJECTS

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(1).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	. Executive Order 14026 generally applies to the contract. . The contractor must pay all covered workers at least \$17.20 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2024.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	. Executive Order 13658 generally applies to the contract. . The contractor must pay all covered workers at least \$12.90 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2024.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker

protections under the Executive Orders is available at
<http://www.dol.gov/whd/govcontracts>.

SCOPE OF WORK

Includes the installation testing, service and maintenance, of the following systems which utilize the transmission and/or transference of voice, sound, vision and digital for commercial, education, security and entertainment purposes for the following: TV monitoring and surveillance, background-foreground music, intercom and telephone interconnect, inventory control systems, microwave transmission, multi-media, multiplex, nurse call system, radio page, school intercom and sound, burglar alarms, and low voltage master clock systems.

A. SOUND AND VOICE TRANSMISSION/TRANSFERENCE SYSTEMS

Background foreground music, Intercom and telephone interconnect systems, Telephone systems Nurse call systems, Radio page systems, School intercom and sound systems, Burglar alarm systems, Low voltage, master clock systems, Multi-media/multiplex systems, Sound and musical entertainment systems, RF systems, Antennas and Wave Guide,

B. FIRE ALARM SYSTEMS Installation, wire pulling and testing

C. TELEVISION AND VIDEO SYSTEMS Television monitoring and surveillance systems Video security systems, Video entertainment systems, Video educational systems, Microwave transmission systems, CATV and CCTV

D. SECURITY SYSTEMS Perimeter security systems Vibration sensor systems Card access systems Access control systems, Sonar/infrared monitoring equipment

E. COMMUNICATIONS SYSTEMS THAT TRANSMIT OR RECEIVE INFORMATION AND/OR CONTROL SYSTEMS THAT ARE INTRINSIC TO THE ABOVE LISTED SYSTEMS SCADA (Supervisory Control and Data Acquisition) PCM (Pulse Code Modulation) Inventory Control Systems, Digital Data Systems Broadband and Baseband and Carriers Point of Sale Systems, VSAT Data Systems Data Communication Systems RF and Remote Control Systems, Fiber Optic Data Systems

WORK EXCLUDED Raceway systems are not covered (excluding Ladder-Rack for the purpose of the above listed systems). Chases and/or nipples (not to exceed 10 feet) may be installed on open wiring systems. Energy management systems. SCADA (Supervisory Control and Data Acquisition) when not intrinsic to the above listed systems (in the scope). Fire alarm systems when installed in raceways (including wire and cable pulling) shall be performed at the electrician wage rate, when either of the following two (2) conditions apply:

1. The project involves new or major remodel building trades construction.
2. The conductors for the fire alarm system are installed in conduit.

Technician.....	\$ 47.01	3%+24.15

SCOPE OF WORK: Including any data system whose only function is to transmit or receive information; excluding all other data systems or multiple systems which include control function or power supply; inclusion or exclusion of terminations and testings of conductors determined by their function; excluding fire alarm work when installed in raceways (including wire and cable pulling) and when performed on new or major remodel building projects or jobs for which the conductors for the fire alarm system are installed in conduit; excluding installation of raceway systems, line voltage work, industrial work, life-safety systems (all buildings having floors located more than 75' above the lowest floor level having building access); excluding energy management systems.

FOOTNOTE: Fire alarm work when installed in raceways (including wire and cable pulling), on projects which

involve new or major remodel building construction, for which the conductors for the fire alarm system are installed in the conduit, shall be performed by the inside electrician.

FOOTNOTE: Work suspended by ropes or cables, or work on a Yo-Yo Cat: \$.60 per hour additional.

POWER EQUIPMENT OPERATOR CLASSIFICATIONS

GROUP 1: Operator of helicopter (when used in erection work); Hydraulic excavator, 7 cu. yds. and over; Power shovels, over 7 cu. yds.

GROUP 2: Highline cableway; Hydraulic excavator, 3-1/2 cu. yds. up to 7 cu. yds.; Licensed construction work boat operator, on site; Power blade operator (finish); Power shovels, over 1 cu. yd. up to and including 7 cu. yds. m.r.c.

GROUP 3: Asphalt milling machine; Cable backhoe; Combination backhoe and loader over 3/4 cu. yds.; Continuous flight tie back machine assistant to engineer or mechanic; Crane mounted continuous flight tie back machine, tonnage to apply; Crane mounted drill attachment, tonnage to apply; Dozer, slope brd; Gradall; Hydraulic excavator, up to 3 1/2 cu. yds.; Loader 4 cu. yds. and over; Long reach excavator; Multiple engine scraper (when used as push pull); Power shovels, up to and including 1 cu. yd.; Pre-stress wire wrapping machine; Side boom cat, 572 or larger; Track loader 4 cu. yds. and over; Wheel excavator (up to and including 750 cu. yds. per hour)

GROUP 4: Asphalt plant engineer/box person; Chicago boom; Combination backhoe and loader up to and including 3/4 cu. yd.; Concrete batch plant (wet or dry); Dozer and/or push cat; Pull- type elevating loader; Gradesetter, grade checker (GPS, mechanical or otherwise); Grooving and grinding machine; Heading shield operator; Heavy-duty

drilling equipment, Hughes, LDH, Watson 3000 or similar; Heavy-duty repairperson and/or welder; Lime spreader; Loader under 4 cu. yds.; Lubrication and service engineer (mobile and grease rack); Mechanical finishers or spreader machine (asphalt, Barber-Greene and similar); Miller Formless M-9000 slope paver or similar; Portable crushing and screening plants; Power blade support; Roller operator, asphalt; Rubber-tired scraper, self-loading (paddle-wheels, etc.); Rubber-tired earthmoving equipment (scrapers); Slip form paver (concrete); Small tractor with drag; Soil stabilizer (P & H or equal); Spider plow and spider puller; Tubex pile rig; Unlicensed construction work boat operator, on site; Timber skidder; Track loader up to 4 yds.; Tractor-drawn scraper; Tractor, compressor drill combination; Welder; Woods-Mixer (and other similar Pugmill equipment)

GROUP 5: Cast-in-place pipe laying machine; Combination slusher and motor operator; Concrete conveyor or concrete pump, truck or equipment mounted; Concrete conveyor, building site; Concrete pump or pumpcrete gun; Drilling equipment, Watson 2000, Texoma 700 or similar; Drilling and boring machinery, horizontal (not to apply to waterliners, wagon drills or jackhammers); Concrete mixer/all; Person and/or material hoist; Mechanical finishers (concrete) (Clary, Johnson, Bidwell Bridge Deck or similar types); Mechanical burm, curb and/or curb and gutter machine, concrete or asphalt; Mine or shaft hoist; Portable crusher; Power jumbo operator (setting slip-forms, etc., in tunnels); Screed (automatic or manual); Self-propelled compactor with dozer; Tractor with boom D6 or smaller; Trenching machine, maximum digging capacity over 5 ft. depth; Vermeer T-600B rock cutter or similar

GROUP 6: Armor-Coater (or similar); Ballast jack tamper; Boom-type backfilling machine; Assistant plant engineer; Bridge and/or gantry crane; Chemical grouting machine, truck-mounted; Chip spreading machine operator; Concrete saw (self-propelled unit on streets, highways, airports and canals); Deck engineer; Drilling equipment Texoma 600, Hughes 200 Series or similar up to and including 30 ft. m.r.c.; Drill doctor; Helicopter radio operator; Hydro-hammer or similar; Line master; Skidsteer loader, Bobcat larger than 743 series or similar (with attachments); Locomotive; Lull hi-lift or similar; Oiler, truck mounted equipment; Pavement breaker, truck-mounted, with compressor combination; Paving fabric installation and/or laying machine; Pipe bending machine (pipelines only); Pipe wrapping machine (tractor propelled and supported); Screed (except asphaltic concrete paving); Self-propelled pipeline wrapping machine; Tractor; Self-loading chipper; Concrete barrier moving machine

GROUP 7: Ballast regulator; Boom truck or dual-purpose A-frame truck, non-rotating - under 15 tons; Cary lift or similar; Combination slurry mixer and/or cleaner; Drilling equipment, 20 ft. and under m.r.c.; Firetender (hot plant); Grouting machine operator; Highline cableway signalperson; Stationary belt loader (Kolman or similar); Lift slab machine (Vagtborg and similar types); Maginnes internal full slab vibrator; Material hoist (1 drum); Mechanical trench shield; Pavement breaker with or without compressor combination; Pipe cleaning machine (tractor propelled and supported); Post driver; Roller (except asphalt); Chip Seal; Self-propelled automatically applied concrete curing

mahcine (on streets, highways, airports and canals);
Self-propelled compactor (without dozer); Signalperson;
Slip-form pumps (lifting device for concrete forms); Tie
spacer; Tower mobile; Trenching machine, maximum digging
capacity up to and including 5 ft. depth; Truck- type loader

GROUP 8: Bit sharpener; Boiler tender; Box operator;
Brakeperson; Combination mixer and compressor
(shotcrete/gunite); Compressor operator; Deckhand; Fire
tender; Forklift (under 20 ft.); Generator;
Gunite/shotcrete equipment operator; Hydraulic monitor; Ken
seal machine (or similar); Mixermobile; Oiler; Pump
operator; Refrigeration plant; Reservoir-debris tug (self-
propelled floating); Ross Carrier (construction site);
Rotomist operator; Self-propelled tape machine; Shuttlecar;
Self-propelled power sweeper operator (includes vacuum
sweeper); Slusher operator; Surface heater; Switchperson;
Tar pot firetender; Tugger hoist, single drum; Vacuum
cooling plant; Welding machine (powered other than by
electricity)

GROUP 8-A: Elevator operator; Skidsteer loader-Bobcat 743
series or smaller, and similar (without attachments); Mini
excavator under 25 H.P. (backhoe-trencher); Tub grinder
wood chipper

ALL CRANES AND ATTACHMENTS

GROUP 1: Clamshell and dragline over 7 cu. yds.; Crane, over
100 tons; Derrick, over 100 tons; Derrick barge
pedestal-mounted, over 100 tons; Self-propelled boom-type
lifting device, over 100 tons

GROUP 2: Clamshell and dragline over 1 cu. yd. up to and
including 7 cu. yds.; Crane, over 45 tons up to and
including 100 tons; Derrick barge, 100 tons and under;
Self-propelled boom-type lifting device, over 45 tons;
Tower crane

GROUP 3: Clamshell and dragline up to and including 1 cu.
yd.; Cranes 45 tons and under; Self-propelled boom-type
lifting device 45 tons and under;

GROUP 4: Boom Truck or dual purpose A-frame truck,
non-rotating over 15 tons; Truck-mounted rotating
telescopic boom type lifting device, Manitex or similar
(boom truck) over 15 tons; Truck-mounted rotating
telescopic boom type lifting device, Manitex or similar
(boom truck) - under 15 tons;

PILEDRIVERS

GROUP 1: Derrick barge pedestal mounted over 100 tons;
Clamshell over 7 cu. yds.; Self-propelled boom-type lifting
device over 100 tons; Truck crane or crawler, land or barge
mounted over 100 tons

GROUP 2: Derrick barge pedestal mounted 45 tons to and
including 100 tons; Clamshell up to and including 7 cu.
yds.; Self-propelled boom-type lifting device over 45 tons;
Truck crane or crawler, land or barge mounted, over 45 tons

up to and including 100 tons; Fundex F-12 hydraulic pile rig

GROUP 3: Derrick barge pedestal mounted under 45 tons; Self-propelled boom-type lifting device 45 tons and under; Skid/scow piledriver, any tonnage; Truck crane or crawler, land or barge mounted 45 tons and under

GROUP 4: Assistant operator in lieu of assistant to engineer; Forklift, 10 tons and over; Heavy-duty repairperson/welder

GROUP 5: Deck engineer

GROUP 6: Deckhand; Fire tender

STEEL ERECTORS

GROUP 1: Crane over 100 tons; Derrick over 100 tons; Self-propelled boom-type lifting device over 100 tons

GROUP 2: Crane over 45 tons to 100 tons; Derrick under 100 tons; Self-propelled boom-type lifting device over 45 tons to 100 tons; Tower crane

GROUP 3: Crane, 45 tons and under; Self-propelled boom-type lifting device, 45 tons and under

GROUP 4: Chicago boom; Forklift, 10 tons and over; Heavy-duty repair person/welder

GROUP 5: Boom cat

--

TUNNEL AND UNDERGROUND WORK

GROUP 1-A: Tunnel bore machine operator, 20' diameter or more

GROUP 1: Heading shield operator; Heavy-duty repairperson; Mucking machine (rubber tired, rail or track type); Raised bore operator (tunnels); Tunnel mole bore operator

GROUP 2: Combination slusher and motor operator; Concrete pump or pumpcrete gun; Power jumbo operator

GROUP 3: Drill doctor; Mine or shaft hoist

GROUP 4: Combination slurry mixer cleaner; Grouting Machine operator; Motorman

GROUP 5: Bit Sharpener; Brakeman; Combination mixer and compressor (gunitite); Compressor operator; Oiler; Pump operator; Slusher operator

FOOTNOTES:

Laborers working off or with or from bos'n chairs, swinging scaffolds, belts shall receive \$0.25 per hour above the applicable wage rate. This shall not apply to workers entitled to receive the wage rate set forth in Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander, pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and buckler; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in

connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work; Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree topper; Bit grinder

GROUP 1-b: Sewer cleaners shall receive \$4.00 per day above Group 1 wage rates. "Sewer cleaner" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer manholes shall receive \$5.00 per day above Group 1 wage rates.

GROUP 1-c: Burning and welding in connection with laborers' work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive \$.25 per hour above their regular rate for all work performed on underground structures not specifically covered herein. This paragraph shall not be construed to apply to work below ground level in open cut. It shall apply to cut and cover work of subway construction after the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts thereof, and work on and in deep footings. (A deep footing is a hole 15 feet or more in depth.) In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100 lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete construction; Pittsburgh chipper and similar type brush

shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification "material cleaner" is to be utilized under the following conditions:

- A: at demolition site for the salvage of the material.
- B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.
- C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

The material cleaner classification should not be used in the performance of "form stripping, cleaning and oiling and moving to the next point of erection".

In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100 lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete construction; Pittsburgh chipper and similar type brush shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification ""material cleaner"" is to be utilized under the following conditions:

A: at demolition site for the salvage of the material.

B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.

C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

The material cleaner classification should not be used in the performance of ""form stripping, cleaning and oiling and moving to the next point of erection"".

FOOTNOTES:

Laborers working off or with or from bos'n chairs, swinging scaffolds, belts shall receive \$0.25 per hour above the applicable wage rate. This shall not apply to workers entitled to receive the wage rate set forth in Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander, pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and buckler; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work; Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree topper; Bit grinder

GROUP 1-b: Sewer cleaners shall receive \$4.00 per day above Group 1 wage rates. "Sewer cleaner" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer manholes shall receive \$5.00 per day above Group 1 wage rates.

GROUP 1-c: Burning and welding in connection with laborers'

work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive \$.25 per hour above their regular rate for all work performed on underground structures not specifically covered herein. This paragraph shall not be construed to apply to work below ground level in open cut. It shall apply to cut and cover work of subway construction after the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts thereof, and work on and in deep footings. (A deep footing is a hole 15 feet or more in depth.) In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100 lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete construction; Pittsburgh chipper and similar type brush shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification "material cleaner" is to be utilized under the following conditions:

- A: at demolition site for the salvage of the material.
- B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.
- C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

The material cleaner classification should not be used in the performance of "form stripping, cleaning and oiling and moving to the next point of erection".

FOOTNOTES:

Laborers working off or with or from bos'n chairs, swinging scaffolds, belts shall receive \$0.25 per hour above the applicable wage rate. This shall not apply to workers entitled to receive the wage rate set forth in Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander, pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and buckler; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and

worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work; Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree topper; Bit grinder

GROUP 1-b: Sewer cleaners shall receive \$4.00 per day above Group 1 wage rates. ""Sewer cleaner"" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer manholes shall receive \$5.00 per day above Group 1 wage rates.

GROUP 1-c: Burning and welding in connection with laborers' work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive \$.25 per hour above their regular rate for all work performed on underground structures not specifically covered herein. This paragraph shall not be construed to apply to work below ground level in open cut. It shall apply to cut and cover work of subway construction after the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts thereof, and work on and in deep footings. (A deep footing is a hole 15 feet or more in depth.) In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 1-g, CONTRA COSTA COUNTY: Pipelayer (including grade

checking in connection with pipelaying); Caulker; Bander; Pipewrapper; Conduit layer; Plastic pipe layer; Pressure pipe tester; No joint pipe and stripping of same, including repair of voids; Precast manhole setters, cast in place manhole form setters

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100 lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete construction; Pittsburgh chipper and similar type brush shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification ""material cleaner"" is to be utilized under the following conditions:

- A: at demolition site for the salvage of the material.
- B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.
- C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

The material cleaner classification should not be used in the performance of ""form stripping, cleaning and oiling and moving to the next point of erection"".

FOOTNOTES:

Articulated dump truck; Bulk cement spreader (with or without auger); Dumpcrete truck; Skid truck (debris box); Dry pre-batch concrete mix trucks; Dumpster or similar type; Slurry truck: Use dump truck yardage rate. Heater planer; Asphalt burner; Scarifier burner; Industrial lift truck (mechanical tailgate); Utility and clean-up truck: Use appropriate rate for the power unit or the equipment utilized.

TRUCK DRIVER CLASSIFICATIONS

GROUP 1: Dump trucks, under 6 yds.; Single unit flat rack (2-axle unit); Nipper truck (when flat rack truck is used appropriate flat rack shall apply); Concrete pump truck (when flat rack truck is used appropriate flat rack shall apply); Concrete pump machine; Fork lift and lift jitneys; Fuel and/or grease truck driver or fuel person; Snow buggy; Steam cleaning; Bus or personhaul driver; Escort or pilot car driver; Pickup truck; Teamster oiler/greaser and/or serviceperson; Hook tender (including loading and unloading); Team driver; Tool room attendant (refineries)

GROUP 2: Dump trucks, 6 yds. and under 8 yds.; Transit mixers, through 10 yds.; Water trucks, under 7,000 gals.; Jetting trucks, under 7,000 gals.; Single-unit flat rack (3-axle unit); Highbed heavy duty transport; Scissor truck; Rubber-tired muck car (not self-loaded); Rubber-tired truck jumbo; Winch truck and "A" frame drivers; Combination winch truck with hoist; Road oil truck or bootperson; Buggymobile; Ross, Hyster and similar straddle carriers; Small rubber-tired tractor

GROUP 3: Dump trucks, 8 yds. and including 24 yds.; Transit mixers, over 10 yds.; Water trucks, 7,000 gals. and over; Jetting trucks, 7,000 gals. and over; Vacuum trucks under 7500 gals. Trucks towing tilt bed or flat bed pull trailers; Lowbed heavy duty transport; Heavy duty transport tiller person; Self-propelled street sweeper with self-contained refuse bin; Boom truck - hydro-lift or Swedish type extension or retracting crane; P.B. or similar type self-loading truck; Tire repairperson; Combination bootperson and road oiler; Dry distribution truck (A bootperson when employed on such equipment, shall receive the rate specified for the classification of road oil trucks or bootperson); Ammonia nitrate distributor, driver

and mixer; Snow Go and/or plow

GROUP 4: Dump trucks, over 25 yds. and under 65 yds.; Water pulls - DW 10's, 20's, 21's and other similar equipment when pulling Aqua/pak or water tank trailers; Helicopter pilots (when transporting men and materials); Lowbed Heavy Duty Transport up to including 7 axles; DW10's, 20's, 21's and other similar Cat type, Terra Cobra, LeTourneau Pulls, Tournorocker, Euclid and similar type equipment when pulling fuel and/or grease tank trailers or other miscellaneous trailers; Vacuum Trucks 7500 gals and over and truck repairman

GROUP 5: Dump trucks, 65 yds. and over; Holland hauler; Low bed Heavy Duty Transport over 7 axles

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$17.20) or 13658 (\$12.90). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular

rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

State Adopted Rate Identifiers

Classifications listed under the ""SA"" identifier indicate that the prevailing wage rate set by a state (or local) government

was adopted under 29 C.F.R. 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 01/03/2024 reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

1. DISADVANTAGED BUSINESS ENTERPRISES (DBE)

The contractor, subrecipient or subcontractor shall take necessary and reasonable steps to ensure that DBEs have opportunity to participate in the contract (49 CFR 26). To ensure equal participation of DBEs provided in 49 CFR 26.5, the Agency shows a contract goal for DBEs. The prime contractor shall make work available to DBEs and select work parts consistent with available DBE subcontractors and suppliers.

The prime contractor shall meet the DBE goal shown elsewhere in these special provisions or demonstrate that they made adequate Good Faith Efforts (GFE) to meet this goal. An adequate GFE means that the bidder must show that it took all necessary and reasonable steps to achieve a DBE goal that, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to meet the DBE goal.

If the DBE goal is not met, the contractor needs to complete and submit the DBE GFE documentation as described in Local Assistance Procedures Manual (LAPM) Chapter 9, Section 9.8 within 5 (five) days of bid opening.

It is the prime contractor's responsibility to verify that the DBE firm is certified as a DBE on the date of bid opening by using the California Unified Certification Program (CUCP) database and possesses the most specific available North American Industry Classification System (NAICS) codes and Work Code applicable to the type of work the firm will perform on the contract. Additionally, the prime contractor is responsible to document this verification by printing out the CUCP data for each DBE firm. A list of DBEs certified by the CUCP can be found at: <https://dot.ca.gov/programs/civil-rights/dbe-search>.

DBE participation will only count toward the California Department of Transportation's federally mandated statewide overall DBE goal if the DBE performs a commercially useful function under 49 CFR 26.55.

Credit for materials or supplies the prime contractor purchases from DBEs counts towards the goal in the following manner:

- 100 percent counts if the materials or supplies are obtained from a DBE manufacturer.
- 60 percent counts if the materials or supplies are obtained from a DBE regular dealer.
- Only fees, commissions, and charges for assistance in the procurement and delivery of materials or supplies count if obtained from a DBE that is neither a manufacturer nor regular dealer. 49 CFR 26.55 defines "manufacturer" and "regular dealer."

The prime contractor receives credit towards the goal if they employ a DBE trucking company that performs a commercially useful function as defined in 49 CFR 26.55(d) as follows:

- The DBE must be responsible for the management and supervision of the entire trucking operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE goals.
- The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.
- The DBE receives credit for the total value of the transportation services it provides on the Contract using trucks it owns, insures, and operates using drivers it employs.
- The DBE may lease trucks from another DBE firm, including an owner-operator who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services the lessee DBE provides on the Contract.
- The DBE may also lease trucks from a non-DBE firm, including from an owner-operator. The DBE that leases trucks equipped with drivers from a non-DBE is entitled to credit for the total value of transportation services provided by non-DBE leased trucks equipped with drivers not to exceed the value of transportation services on the contract provided by DBE-owned trucks or leased trucks with DBE employee drivers. Additional participation by non-DBE owned trucks equipped with drivers receives credit only for the fee or commission it receives as a result of the lease arrangement.
- The DBE may lease trucks without drivers from a non-DBE truck leasing company. If the DBE leases trucks from a non-DBE truck leasing company and uses its own employees as drivers, it is entitled to credit for the total value of these hauling services.

- A lease must indicate that the DBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the DBE.

A. Nondiscrimination Statement

The contractor, subrecipient or subcontractor will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR 26 on the basis of race, color, sex, or national origin. In administering the Local Agency components of the DBE Program Plan, the contractor, subrecipient or subcontractor will not, directly, or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the DBE Program Plan with respect to individuals of a particular race, color, sex, or national origin.

B. Contract Assurance

Under 49 CFR 26.13(b): The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR 26 in the award and administration of federal-aid contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:

- (1) Withholding monthly progress payments;
- (2) Assessing sanctions;
- (3) Liquidated damages; and/or
- (4) Disqualifying the contractor from future bidding as non-responsible.

C. Prompt Progress Payment

In accordance with California Business and Professions Code section 7108.5, the prime contractor or subcontractor shall pay to any subcontractor, not later than seven days after receipt of each progress payment, unless otherwise agreed to in writing, the respective amounts allowed the contractor on account of the work performed by the subcontractors, to the extent of each subcontractor's interest therein. In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from the prime contractor or subcontractor to a subcontractor, the prime contractor or subcontractor may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subcontractor, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. The sanctions authorized under this requirement shall be separate from, and in addition to, all other remedies, either civil, administrative, or criminal. This clause applies to both DBE and non-DBE subcontractors.

D. Prompt Payment of Withheld Funds to Subcontractors

The Agency may hold retainage from the prime contractor and shall make prompt and regular incremental acceptances of portions, as determined by the Agency, of the contract work, and pay retainage to the prime contractor based on these acceptances. The Agency shall designate one of the methods below in the contract to ensure prompt and full payment of any retainage kept by the prime contractor or subcontractor to a subcontractor. The Agency shall include either Method 1, Method 2, or Method 3 below and delete the other two.

Method 1: No retainage will be held by the Agency from progress payments due to the prime contractor. Prime contractors and subcontractors are prohibited from holding retainage from subcontractors. Any delay or postponement of payment may take place only for good cause and with the Agency's prior written approval. Any violation of these provisions shall subject the violating contractor or subcontractor to the penalties, sanctions, and other remedies specified in Section 7108.5 of the California Business and Professions Code and Section 10262 of the California Public Contract Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to the

contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the contractor, deficient subcontractor performance and/or noncompliance by a subcontractor. This clause applies to both DBE and non-DBE subcontractors.

Method 2: No retainage will be held by the Agency from progress payments due to the prime contractor. Any retainage kept by the prime contractor or by a subcontractor must be paid in full to the earning subcontractor within seven (7) days after the subcontractor's work is satisfactorily completed. Any delay or postponement of payment may take place only for good cause and with the Agency's prior written approval. Any violation of these provisions shall subject the violating contractor or subcontractor to the penalties, sanctions, and remedies specified in Section 7108.5 of the California Business and Professions Code and Section 10262 of the California Public Contract Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to the contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the contractor, deficient subcontractor performance and/or noncompliance by a subcontractor. This clause applies to both DBE and non-DBE subcontractors.

Method 3: The Agency shall hold retainage from the prime contractor and shall make prompt and regular incremental acceptances of portions, as determined by the Agency of the contract work and pay retainage to the prime contractor based on these acceptances. The prime contractor or subcontractor shall return all monies withheld in retention from all subcontractors within seven (7) days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the Agency. Any delay or postponement of payment may take place only for good cause and with the Agency's prior written approval. Any violation of these provisions shall subject the violating prime contractor or subcontractor to the penalties, sanctions, and other remedies specified in Section 7108.5 of the California Business and Professions Code and Section 10262 of the California Public Contract Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies otherwise available to the contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the contractor; deficient subcontractor performance and/or noncompliance by a subcontractor. This clause applies to both DBE and non-DBE subcontractors.

Any violation of these provisions of Prompt Progress Payment and Prompt Payment of Withheld Funds to Subcontractors shall subject the violating prime contractor or subcontractor to the penalties, sanctions and other remedies specified therein. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to the prime contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the prime contractor, deficient subcontract performance, or noncompliance by a subcontractor.

E. Termination and Replacement of DBE Subcontractors

The prime contractor shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the contractor obtains the Agency's written consent. The prime contractor shall not terminate or replace a listed DBE for convenience and perform the work with their own forces or obtain materials from other sources without prior written authorization from the Agency. Unless the Agency's prior written consent is provided, the contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE on the Exhibit 15-G Construction Contract DBE Commitment form, included in the Bid.

Termination of DBE Subcontractors

After a contract with a specified DBE goal has been executed, termination of a DBE may be allowed for the following, but not limited to, justifiable reasons with prior written authorization from the Agency:

1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.
2. The Local Agency stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet the Local Agency's bond requirements.
3. Work requires a contractor's license and listed DBE does not have a valid license under Contractors License Law, or is not properly registered with the California Department of Industrial Relations as a public works contractor.
4. Listed DBE fails or refuses to perform the work or furnish the listed materials (failing or refusing to

perform is not an allowable reason to remove a DBE if the failure or refusal is a result of bad faith or discrimination).

5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
6. Listed DBE is ineligible to work on the project because of suspension or debarment.
7. Listed DBE becomes bankrupt or insolvent or exhibits credit unworthiness.
8. Listed DBE voluntarily withdraws with written notice from the Contract
9. Listed DBE is ineligible to receive credit for the type of work required.
10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
11. The Agency determines other documented good cause.

To terminate a DBE or to terminate a portion of a DBE's work, the contractor must use the following procedures:

1. Send a written notice to the DBE of Contractor's intent to use other forces or material sources and include one or more justifiable reasons listed above. Simultaneously send a copy of this written notice to the Agency. The written notice to the DBE must request they provide any response within five (5) business days to both the Contractor and the Agency by either acknowledging their agreement or documenting their reasoning as to why the use of other forces or sources of materials should not occur.
2. If the DBE does not respond within 5 business days, Contractor may move forward with the request as if the DBE had agreed to Contractor's written notice.
3. Submit Contractor's DBE termination request by written letter to the Agency and include:
 - One or more above listed justifiable reasons along with supporting documentation.
 - Contractor's written notice to the DBE regarding the request, including proof of transmission and tracking documentation of Contractor's written notice
 - The DBE's response to Contractor's written notice, if received. If a written response was not provided, provide a statement to that effect.

The Agency shall respond in writing to Contractor's DBE termination request within 5 business days.

Replacement of DBE Subcontractors

After receiving the Agency's written authorization of DBE termination request, the Contractor must obtain the Agency's written agreement for DBE replacement. The Contractor must find or demonstrate GFEs to find qualified DBE replacement firms to perform the work to the extent needed to meet the DBE commitment.

The following procedures shall be followed to request authorization to replace a DBE firm:

1. Submit a request to replace a DBE with other forces or material sources in writing to the Agency which must include:
 - a. Description of remaining uncommitted work items made available for replacement DBE solicitation and participation.
 - b. The proposed DBE replacement firm's business information, the work they have agreed to perform, and the following:
 - Quote for bid item work and description of work to be performed
 - Proposed subcontract agreement and written confirmation of agreement to perform on the Contract
 - Revised Subcontracting Request form
 - Revised Exhibit 15-G: Construction Contract DBE Commitment
2. If Contractor has not identified a DBE replacement firm, submit documentation of the Contractor's GFEs

to use DBE replacement firms within 7 days of Agency's authorization to terminate the DBE. The Contractor may request the Agency's approval to extend this submittal period to a total of 14 days. Submit documentation of actions taken to find a DBE replacement firm, such as:

- Search results of certified DBEs available to perform the original DBE work identified and/or other work the Contractor had intended to self-perform, to the extent needed to meet the DBE commitment
- Solicitations of DBEs for performance of work identified
- Correspondence with interested DBEs that may have included contract details and requirements
- Negotiation efforts with DBEs that reflect why an agreement was not reached
- If a DBE's quote was rejected, provide Contractor's reasoning for the rejection, such as why the DBE was unqualified for the work, or why the price quote was unreasonable or excessive
- Copies of each DBE's and non-DBE's price quotes for work identified, as the Agency may contact the firms to verify solicitation efforts and determine if the DBE quotes are substantially higher
- Additional documentation that supports the GFE

The Agency shall respond in writing to the Contractor's DBE replacement request within five (5) business days. The Contractor must submit a revised Subcontracting Request form if the replacement plan is authorized by the Agency.

F. Commitment and Utilization

The Agency's DBE program must include a monitoring and enforcement mechanism to ensure that DBE commitments reconcile to DBE utilization.

The bidder shall complete and sign Exhibit 15-G: Construction Contract DBE Commitment included in the contract documents regardless of whether DBE participation is reported. The bidder shall provide written confirmation from each DBE that the DBE is participating in the Contract. LAPM Exhibit 9-I: DBE Confirmation or equivalent form and DBE's quote must be submitted. The written confirmation must be submitted no later than 4pm on the 5th day after bid opening. If a DBE is participating as a joint venture partner, the bidder shall submit a copy of the joint venture agreement.

If the DBE Commitment form, Exhibit 15-G, is not submitted with the bid, it must be completed and submitted by all bidders to the Agency within five (5) days of bid opening. If the bidder does not submit the DBE Commitment form within the specified time, the Agency will find the bidder's bid nonresponsive.

The prime contractor shall use each DBE subcontractor as listed on Exhibit 15-G: Construction Contract DBE Commitment unless they receive written authorization for a termination or replacement from the Agency.

The Agency shall request the prime contractor to:

1. Notify the Resident Engineer or Inspector of any changes to its anticipated DBE participation
2. Provide this notification before starting the affected work
3. Maintain records including:
 - Name and business address of each 1st-tier subcontractor
 - Name and business address of each DBE subcontractor, DBE vendor, and DBE trucking company, regardless of tier
 - Date of payment and total amount paid to each DBE (see Exhibit 9-F: Monthly Disadvantaged Business Enterprise Payment)

If the prime contractor is a DBE contractor, they shall include the date of work performed by their own forces and the corresponding value of the work.

Before the 15th of each month, the prime contractor shall submit a Monthly DBE Trucking Verification (LAPM Exhibit 16-Z1) form.

If a DBE is decertified before completing its work, the DBE must notify the prime contractor in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify the prime contractor in writing of the certification date. The prime contractor shall submit the notifications. Upon work completion, the prime contractor shall complete a Disadvantaged Business Enterprises (DBE) Certification Status Change, Exhibit 17-O, form and submit the form within 30 days of contract acceptance.

Upon work completion, the prime contractor shall complete Exhibit 17-F: Final Report – Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subcontractors and submit it within 90 days of contract acceptance. The Agency will withhold \$10,000 until the form is submitted. The Agency releases the withhold upon submission of the completed form.

G. Running Tally of Attainments

For projects awarded on or after March 1, 2020, but before September 1, 2023:

After submitting an invoice for reimbursement that includes a payment to a DBE, but no later than the 10th of the following month, the prime contractor/consultant must complete and email the Exhibit 9-F: Disadvantaged Business Enterprise Running Tally of Payments to business.support.unit@dot.ca.gov with a copy to local administering agencies.

For projects that are awarded on or after September 1, 2023:

Exhibit 9-F is no longer required. Instead, by the 15th of the month following the month of any payment(s), the prime contractor must now submit Exhibit 9-P to the Local Agency administering the contract. If the Contractor does not make any payments to subcontractors, supplier(s) and/or manufacturers they must report “no payments were made to subs this month” and write this visibly and legibly on Exhibit 9-P.

H. Commercially Useful Function

DBEs must perform a commercially useful function (CUF) under 49 CFR 26.55 when performing work or supplying materials listed on the DBE Commitment form. The DBE value of work will only count toward the DBE commitment if the DBE performs a CUF. A DBE performs a CUF when it is responsible for execution of the work on the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. If a DBE does not perform or exercise responsibility for at least 30% of the total cost of its contract with its own work force, or the DBE subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that the DBE is not performing a CUF. Additionally, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material and installing (where applicable), and paying for the material itself.

The Contractor must perform CUF evaluation for each DBE company working on a federal-aid contract, with or without a DBE goal. Perform a CUF evaluation at the beginning of the DBE's work, and continue to monitor the performance of CUF for the duration of the project.

The Contractor must provide written notification to the AGENCY at least 15 days in advance of each DBE's initial performance of work or supplying materials for the Contract. The notification must include the DBE's name, work the DBE will perform on the contract, and the location, date, and time of where their work will take place.

Within 10 (ten) days of a DBE initially performing work or supplying materials on the contract, the Contractor shall submit to the LPA the initial evaluation and validation of DBE performance of a CUF using the LAPM 9-J: Disadvantaged Business Enterprise Commercially Useful Function Evaluation. Include the following information with the submittal:

- Subcontract agreement with the DBE
- Purchase orders
- Bills of lading
- Invoices
- Proof of payment

The Contractor must monitor all DBE's performance of CUF by conducting quarterly evaluations and validations throughout their duration of work on the contract using the LAPM 9-J: DBE Commercially Useful Function Evaluation. The Contractor must submit to the AGENCY these quarterly evaluations and validations by the 5th of the month for the previous three (3) months of work.

The Contractor must notify the AGENCY immediately if the Contractor believes the DBE may not be performing a CUF.

The AGENCY will verify DBEs performance of CUF by reviewing the initial and quarterly submissions of LAPM 9-J: DBE Commercially Useful Function Evaluation, submitted supporting information, field observations, and through any additional AGENCY evaluations. The AGENCY must evaluate DBEs and their CUF performance throughout the duration of a Contract. The AGENCY will provide written notice to Contractor and DBE at least two (2) business days prior to any evaluation. The Contractor and DBE must participate in the evaluation. Upon completing the evaluation, the AGENCY must share the evaluation results with the Contractor and DBE. An evaluation could include items that must be remedied upon receipt. If the AGENCY determines the DBE is not performing a CUF the Contractor must suspend performance of the noncompliant work.

The Contractor and DBEs must submit any additional CUF related records and documents within five (5) business days of AGENCY's request such as:

- Proof of ownership or lease and rental agreements for equipment
- Tax records
- Employee rosters
- Certified payroll records
- Inventory rosters

Failure to submit required DBE Commercially Useful Function Evaluation forms or requested records and documents can result in withholding of payment for the value of work completed by the DBE.

If the Contractor and/or the AGENCY determine that a listed DBE is not performing a CUF in performance of their DBE committed work, immediately suspend performance of the noncompliant portion of the work. The AGENCY may deny payment for the noncompliant portion of the work. The AGENCY will ask the Contractor to submit a corrective action plan (CAP) to the AGENCY within five (5) days of the noncompliant CUF determination. The CAP must identify how the Contractor will correct the noncompliance findings for the remaining portion of the DBE's work. The AGENCY has five (5) days to review the CAP in conjunction with the prime contractor's review. The Contractor must implement the CAP within five (5) days of the AGENCY's approval. The AGENCY will then authorize the prior noncompliant portion of work for the DBE's committed work.

If corrective actions cannot be accomplished to ensure the DBE performs a CUF on the Contract, then the Contractor may have good cause to request termination of the DBE.

I. Use of Joint Checks

A joint check may be used between the Contractor or lower-tier subcontractor and a DBE subcontractor purchasing materials from a material supplier if the contractor obtains prior approval from the LPA for the proposed use of joint check upon submittal of the LAPM 9-K: DLA Disadvantaged Business Enterprises (DBE) Joint Check Agreement Request form.

To use a joint check, the following conditions must be met:

- All parties, including the Contractor, must agree to the use of a joint check
- Entity issuing the joint check acts solely to guarantee payment
- DBE must release the check to the material supplier
- LPA must authorize the request before implementation
- Any party to the agreement must provide requested documentation within 10 days of the LPA's request for the documentation
- Agreement to use a joint check must be short-term, not to exceed 1 year, allowing sufficient time needed to establish or increase a credit line with the material supplier

A request for a joint check agreement may be initiated by any party. If a joint check is used, the DBE remains responsible for all elements of 49 CFR 26.55(c)(1).

Failure to comply with the above requirements disqualifies DBE participation and results in no credit and no payment to the Contractor for DBE participation.

A joint check may not be used between the Contractor or subcontractor and a DBE regular dealer, bulk material supplier, manufacturer, wholesaler, broker, trucker, packager, manufacturer's representative, or other persons who arrange or expedite transactions.

2. BID OPENING

The Agency publicly opens and reads bids at the time and place shown on the Notice to Contractors.

3. BID RIGGING

The U.S. Department of Transportation (DOT) provides a toll-free hotline to report bid rigging activities. Use the hotline to report bid rigging, bidder collusion, and other fraudulent activities. The hotline number is (800) 424-9071. The service is available 24 hours 7 days a week and is confidential and anonymous. The hotline is part of the DOT's effort to identify and investigate highway construction contract fraud and abuse and is operated under the direction of the DOT Inspector General.

4. CONTRACT AWARD

If the Agency awards the contract, the award is made to the lowest responsible and responsive bidder.

5. CONTRACTOR LICENSE

The Contractor must be properly licensed as a contractor from contract award through Contract acceptance (23 CFR 635.110).

6. CHANGED CONDITIONS

A. Differing Site Conditions

1. During the progress of the work, if subsurface or latent physical conditions are encountered at the site differing materially from those indicated in the contract or if unknown physical conditions of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in the work provided for in the contract, are encountered at the site, the party discovering such conditions shall promptly notify the other party in writing of the specific differing conditions before the site is disturbed and before the affected work is performed.
2. Upon written notification, the engineer will investigate the conditions, and if it is determined that the conditions materially differ and cause an increase or decrease in the cost or time required for the performance of any work under the contract, an adjustment, excluding anticipated profits, will be made and the contract modified in writing accordingly. The engineer will notify the contractor of the determination whether or not an adjustment of the contract is warranted.
3. No contract adjustment which results in a benefit to the contractor will be allowed unless the contractor has provided the required written notice.
4. No contract adjustment will be allowed under this clause for any effects caused on unchanged work.
[This provision may be omitted by the Local Agency, at their option.]

B. Suspensions of Work Ordered by the Engineer

1. If the performance of all or any portion of the work is suspended or delayed by the engineer in writing for an unreasonable period of time (not originally anticipated, customary, or inherent to the construction industry) and the contractor believes that additional compensation and/or contract time is due as a result of such suspension or delay, the contractor shall submit to the engineer in writing a request for adjustment within 7 calendar days of receipt of the notice to resume work. The request shall set forth the reasons and support for such adjustment.
2. Upon receipt, the engineer will evaluate the contractor's request. If the engineer agrees that the cost and/or time required for the performance of the contract has increased as a result of such suspension and the suspension was caused by conditions beyond the control of and not the fault of the contractor, its suppliers, or subcontractors at any approved tier, and not caused by weather, the engineer will make an adjustment (excluding profit) and modify the contract in writing accordingly. The contractor will be notified of the engineer's determination whether or not an adjustment of the contract is warranted.

3. No contract adjustment will be allowed unless the contractor has submitted the request for adjustment within the time prescribed.
4. No contract adjustment will be allowed under this clause to the extent that performance would have been suspended or delayed by any other cause, or for which an adjustment is provided or excluded under any other term or condition of this contract.

C. Significant Changes in the Character of Work

1. The engineer reserves the right to make, in writing, at any time during the work, such changes in quantities and such alterations in the work as are necessary to satisfactorily complete the project. Such changes in quantities and alterations shall not invalidate the contract nor release the surety, and the contractor agrees to perform the work as altered.
2. If the alterations or changes in quantities significantly change the character of the work under the contract, whether such alterations or changes are in themselves significant changes to the character of the work or by affecting other work cause such other work to become significantly different in character, an adjustment, excluding anticipated profit, will be made to the contract. The basis for the adjustment shall be agreed upon prior to the performance of the work. If a basis cannot be agreed upon, then an adjustment will be made either for or against the contractor in such amount as the engineer may determine to be fair and equitable.
3. If the alterations or changes in quantities do not significantly change the character of the work to be performed under the contract, the altered work will be paid for as provided elsewhere in the contract.
4. The term "significant change" shall be construed to apply only to the following circumstances:
 - When the character of the work as altered differs materially in kind or nature from that involved or included in the original proposed construction; or
 - When a major item of work, as defined elsewhere in the contract, is increased in excess of 125 percent or decreased below 75 percent of the original contract quantity. Any allowance for an increase in quantity shall apply only to that portion in excess of 125 percent of original contract item quantity, or in case of a decrease below 75 percent, to the actual amount of work performed.

7. BEGINNING OF WORK, TIME OF COMPLETION AND LIQUIDATED DAMAGES

The Contractor shall begin work within 15 calendar days after the issuance of the Notice to Proceed.

This work shall be diligently prosecuted to completion before the expiration of 120 WORKING DAYS beginning on the fifteenth calendar day after the date shown on the Notice to Proceed.

The Contractor shall pay to the City/County City of Stockton the sum of \$ 6,800 per day, for each and every calendar days' delay in finishing the work in excess of the number of working days prescribed above.

8. BUY AMERICA

Buy America Requirements apply to steel and iron, manufactured products, and construction materials permanently incorporated into the project.

Steel and Iron Materials

All steel and iron materials must be melted and manufactured in the United States except:

1. Foreign pig iron and processed, pelletized, and reduced iron ore may be used in the domestic production of the steel and iron materials [60 Fed Reg 15478 (03/24/1995)];
2. If the total combined cost of the materials produced outside the United States does not exceed the greater of 0.1 percent of the total contract amount or \$2,500, materials produced outside the United States may be used if authorized.

Furnish steel and iron materials to be incorporated into the work with certificates of compliance and certified mill test reports. Mill test reports must indicate where the steel and iron were melted and manufactured. All melting and manufacturing processes for these materials, including an application of a coating, must occur in the United States. Coating includes all processes that protect or enhance the value of the material to which the coating is applied.

Manufactured Products

Iron and steel used in precast concrete manufactured products must meet the requirements of the above section (Steel and Iron Materials) regardless of the amount used. Iron and steel used in other manufactured products must meet the requirements of the above section (Steel and Iron Materials) if the weight of steel and iron components constitute 90 percent or more of the total weight of the manufactured product.

Construction Materials

Buy America requirements apply to the following construction materials that are or consist primarily of:

1. Non-ferrous metals
2. Plastic and polymer-based products such as:
 - 2.1 Polyvinylchloride
 - 2.2 Composite Building Materials
3. Glass
4. Fiber optic cable (including drop cable)
5. Optical fiber
6. Lumber
7. Engineered wood
8. Drywall

All manufacturing processes for these materials as defined in 2 CFR 184.6 must occur in the United States.

Where one or more of these construction materials have been combined by a manufacturer with other materials through a manufacturing process, Buy America requirements do not apply unless otherwise specified.

Furnish construction materials to be incorporated into the work with certificates of compliance with each project delivery. Manufacturer's certificate of compliance must identify where the construction material was manufactured and attest specifically to Buy America compliance.

All manufacturing processes for these materials must occur in the United States.

Buy America requirements do not apply to the following:

1. Tools and construction equipment used in performing the work
2. Temporary work that is not incorporated into the finished project

Waivers

If Buy America waivers are granted, use the following language to include in the contract:

The following steel and iron products, manufactured products, or construction materials have received an approved Buy America waiver for this contract, and therefore, are not subject to Buy America requirements:

1. _____
2. _____

9. QUALITY ASSURANCE

The Local Agency uses a Quality Assurance Program (QAP) to ensure a material is produced to comply with the Contract. The Local Agency may examine the records and reports of tests the prime contractor performs if they are available at the job site. Schedule work to allow time for QAP.

10. PROMPT PAYMENT**A. FROM THE AGENCY TO THE CONTRACTORS**

The Local Agency shall make all project progress payment within 30 days after receipt of an undisputed and properly submitted payment request from the Contractor on a construction contract. If the Local Agency fails to pay promptly, the Local Agency shall pay interest to the Contractor, which accrues at the rate of 10 percent per annum on the principal amount of a money judgment remaining unsatisfied and pro-rated as necessary. Upon receipt of the payment request, the Local Agency shall act in accordance with both of the following:

1. The Local Agency shall review each payment request as soon as feasible after receipt to verify it is a proper payment request.
2. The Local Agency must return any payment request deemed improper by the Local Agency to the Contractor as soon as feasible, but not later than seven (7) days, after receipt. A request returned pursuant to this paragraph shall include documentation setting forth in writing the reasons why it is an improper payment request.

B. SUBMITTAL OF EXHIBIT 9-P

For projects awarded on or after September 1, 2023:

The Contractor must submit Exhibit 9-P to the Local Agency administering the contract by the 15th of the month following the month of any payment(s). If the Contractor does not make any payments to subcontractors, supplier(s) and/or manufacturers they must report "no payments were made to subs this month" and write this visibly and legibly on Exhibit 9-P.

The Local Agency must verify all Exhibit 9-P information, monitor compliance with prompt payment requirements for DBE and non-DBE firms, and address any shortfall to the DBE commitment and prompt payment issues until the end of the project. The Local Agency must email a copy of Exhibit 9-P to DBE.Forms@dot.ca.gov before the end of the month after receiving the Exhibit 9-P from the Contractor.

11. FORM FHWA-1273 REQUIRED CONTRACT PROVISIONS FEDERAL-AID CONTRACTS

[Form FHWA-1273 must be physically inserted into the contract without modification, excluding ATTACHMENT A - EMPLOYMENT AND MATERIALS PREFERENCE FOR APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM OR APPALACHIAN LOCAL ACCESS ROAD CONTRACTS.]

*[The current version of Form FHWA-1273 is accessible at FHWA's website:
<https://www.fhwa.dot.gov/programadmin/contracts/1273/1273.pdf>]*

12. FEMALE AND MINORITY GOALS

To comply with Section II, "Nondiscrimination," of "Required Contract Provisions Federal-Aid Construction Contracts," the following are for female and minority utilization goals for Federal-aid construction contracts and subcontracts that exceed \$10,000:

The nationwide goal for female utilization is 6.9 percent.

The goals for minority utilization (45 Fed Reg 65984 (10/3/1980)) are as follows:

MINORITY UTILIZATION GOALS

	Economic Area	Goal (Percent)
174	Redding CA: Non-SMSA (Standard Metropolitan Statistical Area) Counties: CA Lassen; CA Modoc; CA Plumas; CA Shasta; CA Siskiyou; CA Tehama	6.8
175	Eureka, CA Non-SMSA Counties: CA Del Norte; CA Humboldt; CA Trinity	6.6
176	San Francisco-Oakland-San Jose, CA: SMSA Counties: 7120 Salinas-Seaside-Monterey, CA	28.9
	CA Monterey	25.6
	7360 San Francisco-Oakland	
	CA Alameda; CA Contra Costa; CA Marin; CA San Francisco; CA San Mateo	
	7400 San Jose, CA	19.6
	CA Santa Clara, CA	
	7485 Santa Cruz, CA	14.9
	CA Santa Cruz	
	7500 Santa Rosa	9.1
	CA Sonoma

	7320 San Diego, CA	
	CA San Diego	18.2
	Non-SMSA Counties	
	CA Imperial	

For the last full week of July during which work is performed under the contract, the prime contractor and each non material-supplier subcontractor with a subcontract of \$10,000 or more must complete Form FHWA PR-1391 (Appendix C to 23 CFR 230). Submit the forms by August 15.

13. TITLE VI ASSURANCES

[The U.S. Department of Transportation Order No.1050.2A requires all federal-aid Department of Transportation contracts between an agency and a contractor to contain Appendix A and E.

Note: Appendix B only requires inclusion if the contract impacts deeds effecting or recording the transfer of real property, structures, or improvements thereon, or granting interest therein. Appendices C and D only require inclusion if the contract impacts deeds, licenses, leases, permits, or similar instruments entered into by the recipient.]

APPENDIX A

During the performance of this Agreement, the contractor, for itself, its assignees and successors in interest (hereinafter collectively referred to as CONTRACTOR) agrees as follows:

- a. Compliance with Regulations: CONTRACTOR shall comply with the regulations relative to nondiscrimination in federally assisted programs of the Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the REGULATIONS), which are herein incorporated by reference and made a part of this agreement.
- b. Nondiscrimination: CONTRACTOR, with regard to the work performed by it during the AGREEMENT, shall not discriminate on the grounds of race, color, sex, national origin, religion, age, or disability in the selection and retention of sub-applicants, including procurements of materials and leases of equipment. CONTRACTOR shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the agreement covers a program set forth in Appendix B of the Regulations.
- c. Solicitations for Sub-agreements, Including Procurements of Materials and Equipment: In all solicitations either by competitive bidding or negotiation made by CONTRACTOR for work to be performed under a Sub- agreement, including procurements of materials or leases of equipment, each potential sub-applicant or supplier shall be notified by CONTRACTOR of the CONTRACTOR'S obligations under this Agreement and the Regulations relative to nondiscrimination on the grounds of race, color, or national origin.
- d. Information and Reports: CONTRACTOR shall provide all information and reports required by the

Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the recipient or FHWA to be pertinent to ascertain compliance with such Regulations or directives. Where any information required of CONTRACTOR is in the exclusive possession of another who fails or refuses to furnish this information, CONTRACTOR shall so certify to the recipient or FHWA as appropriate, and shall set forth what efforts CONTRACTOR has made to obtain the information.

- e. Sanctions for Noncompliance: In the event of CONTRACTOR's noncompliance with the nondiscrimination provisions of this agreement, the recipient shall impose such agreement sanctions as it or the FHWA may determine to be appropriate, including, but not limited to:
 - i. withholding of payments to CONTRACTOR under the Agreement within a reasonable period of time, not to exceed 90 days; and/or
 - ii. cancellation, termination or suspension of the Agreement, in whole or in part.
- f. Incorporation of Provisions: CONTRACTOR shall include the provisions of paragraphs (1) through (6) in every sub-agreement, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto.

CONTRACTOR shall take such action with respect to any sub-agreement or procurement as the recipient or FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance, provided, however, that, in the event CONTRACTOR becomes involved in, or is threatened with, litigation with a sub-applicant or supplier as a result of such direction, CONTRACTOR may request the recipient enter into such litigation to protect the interests of the State, and, in addition, CONTRACTOR may request the United States to enter into such litigation to protect the interests of the United States.

APPENDIX B

CLAUSES FOR DEEDS TRANSFERRING UNITED STATES PROPERTY

The following clauses will be included in deeds effecting or recording the transfer of real property, structures, or improvements thereon, or granting interest therein from the United States pursuant to the provisions of Assurance 4:

NOW THEREFORE, the U.S. Department of Transportation as authorized by law and upon the condition that the recipient will accept title to the lands and maintain the project constructed thereon in accordance with Title 23 U.S.C., the regulations for the administration of the preceding statute, and the policies and procedures prescribed by the FHWA of the U.S. Department of Transportation in accordance and in compliance with all requirements imposed by Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Non-discrimination in Federally-assisted programs of the U.S. Department of Transportation pertaining to and effectuating the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. § 2000d to 2000d-4), does hereby remise, release, quitclaim and convey unto the recipient all the right, title and interest of the U.S. Department of Transportation in and to said lands described in Exhibit A attached hereto and made a part hereof.

(HABENDUM CLAUSE)

TO HAVE AND TO HOLD said lands and interests therein unto the recipient and its successors forever, subject, however, to the covenants, conditions, restrictions and reservations herein contained as follows, which will remain in effect for the period during which the real property or structures are used for a purpose for which Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits and will be binding on the recipient, its successors and assigns. The recipient, in consideration of the conveyance of said lands and interest in lands, does hereby covenant and agree as a covenant running with the land for itself, its successors and assigns, that (1) no person will on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination with regard to any facility located wholly or in part on, over, or under such lands hereby conveyed [,] [and]* (2) that the recipient will use the lands and interests in lands and interest in lands so conveyed, in compliance with all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Non-discrimination in Federally-assisted programs of the U.S. Department of Transportation, Effectuation of Title

VI of the Civil Rights Act of 1964, and as said Regulations and Acts may be amended[, and (3) that in the event of breach of any of the above-mentioned non-discrimination conditions, the Department will have a right to enter or re-enter said lands and facilities on said lands, and that above described land and facilities will thereon revert to and vest in and become the absolute property of the U.S. Department of Transportation and its assigns as such interest existed prior to this instruction].*

(*Reverter clause and related language to be used only when it is determined that such a clause is necessary in order to make clear the purpose of Title VI.)

APPENDIX C

CLAUSES FOR TRANSFER OF REAL PROPERTY ACQUIRED OR IMPROVED UNDER THE ACTIVITY, FACILITY, OR PROGRAM

The following clauses will be included in deeds, licenses, leases, permits, or similar instruments entered into by the recipient pursuant to the provisions of Assurance 7(a):

A. The (grantee, lessee, permittee, etc. as appropriate) for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree [in the case of deeds and leases add "as a covenant running with the land"] that:

1. In the event facilities are constructed, maintained, or otherwise operated on the property described in this (deed, license, lease, permit, etc.) for a purpose for which a U.S. Department of Transportation activity, facility, or program is extended or for another purpose involving the provision of similar services or benefits, the (grantee, licensee, lessee, permittee, etc.) will maintain and operate such facilities and services in compliance with all requirements imposed by the Acts and Regulations (as may be amended) such that no person on the grounds of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities.

B. With respect to licenses, leases, permits, etc., in the event of breach of any of the above Non-discrimination covenants, the recipient will have the right to terminate the (lease, license, permit, etc.) and to enter, re-enter, and repossess said lands and facilities thereon, and hold the same as if the (lease, license, permit, etc.) had never been made or issued.*

C. With respect to a deed, in the event of breach of any of the above Non-discrimination covenants, the recipient will have the right to enter or re-enter the lands and facilities thereon, and the above described lands and facilities will there upon revert to and vest in and become the absolute property of the recipient and its assigns.*

(*Reverter clause and related language to be used only when it is determined that such a clause is necessary to make clear the purpose of Title VI.)

APPENDIX D**CLAUSES FOR CONSTRUCTION/USE/ACCESS TO REAL PROPERTY ACQUIRED UNDER THE
ACTIVITY, FACILITY OR PROGRAM**

The following clauses will be included in deeds, licenses, permits, or similar instruments/agreements entered into by the recipient pursuant to the provisions of Assurance 7(b):

A. The (grantee, licensee, permittee, etc., as appropriate) for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree (in the case of deeds and leases add, "as a covenant running with the land") that (1) no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (2) that in the construction of any improvements on, over, or under such land, and the furnishings of services thereon, no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits or, or otherwise be subjected to discrimination, (3) that the (grantee, licensee, lessee, permittee, etc.) will use the premises in compliance with all other requirements imposed by or pursuant to the Acts and Regulations, as amended, set forth in this Assurance.

B. With respect to (licenses, leases, permits, etc.) in the event of breach of any of the above of the above Non-discrimination covenants, the recipient will have the right to terminate the (license, permits, etc., as appropriate) and to enter or re-enter and repossess said land and the facilities thereon, and hold the same as if said (license, permit, etc., as appropriate) had never been made or issued.*

C. With respect to deeds, in the event of breach of any of the above Non-discrimination covenants, the recipient will there upon revert to and vest in and become the absolute property of the recipient and its assigns.

(*Reverter clause and related language to be used only when it is determined that such a clause is necessary to make clear the purpose of Title VI.)

APPENDIX E

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities, including, but not limited to:

Pertinent Non-Discrimination Authorities:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), prohibits discrimination on the basis of race, color, national origin; and 49 CFR Part 21.
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), prohibits discrimination on the basis of sex;
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CR Part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), prohibits discrimination on the basis of age;
- Airport and Airway Improvement Act of 1982, (49 U.S.C. § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such

programs or activities are Federally funded or not);

- Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations 49 C.F.R. parts 37 and 38;
- The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

Federal Trainee Program Special Provisions
(to be used when applicable)**14. FEDERAL TRAINEE PROGRAM**

For the Federal training program, the number of trainees or apprentices is zero.

This section applies if a number of trainees or apprentices is shown on the Notice of Bidders.

As part of the prime contractor's equal opportunity affirmative action program, provide on-the-job training to develop full journeymen in the types of trades or job classifications involved.

The prime contractor has primary responsibility for meeting this training requirement.

If the prime contractor subcontracts a contract part, they shall determine how many trainees or apprentices are to be trained by the subcontractor. Include these training requirements in each subcontract.

Where feasible, 25 percent of apprentices or trainees in each occupation must be in their 1st year of apprenticeship or training.

Distribute the number of apprentices or trainees among the work classifications on the basis of the prime contractor's needs and the availability of journeymen in the various classifications within a reasonable recruitment area.

Before starting work, the prime contractor shall submit to the City/County of City of Stockton :

1. Number of apprentices or trainees to be trained for each classification
2. Training program to be used
3. Training starting date for each classification

The prime contractor shall obtain the City/County of City of Stockton approval for this submitted information before the prime contractor starts work. The City/County of City of Stockton credits the prime contractor for each apprentice or trainee the prime contractor employs on the job who is currently enrolled or becomes enrolled in an approved program.

The primary objective of this section is to train and upgrade minorities and women toward journeyman status. The prime contractor shall make every effort to enroll minority and women apprentices or trainees, such as conducting systematic and direct recruitment through public and private sources likely to yield minority and women apprentices or trainees, to the extent they are available within a reasonable recruitment area and show that they have made the efforts. In making these efforts, the prime contractor shall not discriminate against any applicant for training.

The prime contractor shall not employ as an apprentice or trainee an employee:

1. In any classification in which the employee has successfully completed a training course leading to journeyman status or in which the employee has been employed as a journeyman
2. Who is not registered in a program approved by the US Department of Labor, Bureau of Apprenticeship and Training

The prime contractor shall ask the employee if the employee has successfully completed a training course leading to journeyman status or has been employed as a journeyman. The prime contractor's records must show the employee's answers to the questions.

In the training program, the prime contractor shall establish the minimum length and training type for each classification. The City/County of City of Stockton and FHWA approves a program if one of the following is met:

1. It is calculated to:
 - Meet the equal employment opportunity responsibilities
 - Qualify the average apprentice or trainee for journeyman status in the classification involved by the end of the training period
2. It is registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training, and it is administered in a way consistent with the equal employment responsibilities of Federal-aid highway construction contracts

The prime contractor shall obtain the State's approval for their training program before they start work involving the classification covered by the program.

The prime contractor shall provide training in the construction crafts, not in clerk-typist or secretarial-type positions. Training is allowed in lower-level management positions such as office engineers, estimators, and timekeepers if the training is oriented toward construction applications. Training is allowed in the laborer classification if significant and meaningful training is provided and approved by the division office. Off-site training is allowed if the training is an integral part of an approved training program and does not make up a significant part of the overall training.

The City/County of City of Stockton reimburses the prime contractor 80 cents per hour of training given an employee on this contract under an approved training program:

1. For on-site training
2. For off-site training if the apprentice or trainee is currently employed on a Federal-aid project and prime contractor does at least one of the following:
 - a. Contribute to the cost of the training
 - b. Provide the instruction to the apprentice or trainee
 - c. Pay the apprentice's or trainee's wages during the off-site training period
3. If the prime contractor complies with this section.

Each apprentice or trainee must:

1. Begin training on the project as soon as feasible after the start of work involving the apprentice's or trainee's skill
2. Remain on the project as long as training opportunities exist in the apprentice's or trainee's work classification or until the apprentice or trainee has completed the training program

Furnish the apprentice or trainee a:

1. Copy of the training plan approved by the U.S. Department of Labor or a training plan for trainees approved by both Caltrans and FHWA
2. Certification showing the type and length of training satisfactorily completed

Maintain records and submit reports documenting contractor's performance under this section.

15. PROHIBITION OF CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE EQUIPMENT AND SERVICES

In response to significant national security concerns, the agency shall check the prohibited vendor list before making any telecommunications and video surveillance purchase because recipients and subrecipients of federal funds are prohibited from obligating or expending loan or grant funds to:

- Procure or obtain;
- Extend or renew a contract to procure or obtain; or
- Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

The prohibited vendors (and their subsidiaries or affiliates) are:

- Huawei Technologies Company;
- ZTE Corporation;
- Hytera Communications Corporation;
- Hangzhou Hikvision Digital Technology Company;
- Dahua Technology Company; and
- Subsidiaries or affiliates of the above-mentioned companies.

In implementing the prohibition, the agency administering loan, grant, or subsidy programs shall prioritize available funding and technical support to assist affected businesses, institutions and organizations as is reasonably necessary for those affected entities to transition from covered communications equipment and services, to procure replacement equipment and services, and to ensure that communications service to users and customers is sustained.

The contractors should furnish telecommunications and video surveillance equipment with a certificate of compliance. The certificate must state telecommunications and video surveillance equipment was not procured or obtained from manufacturers identified in the above list.

Appendix E of the Title VI Assurances

(US DOT Order 1050.2A)

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following nondiscrimination statutes and authorities; including but not limited to:

Pertinent Nondiscrimination Authorities:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21.
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 U.S.C. § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, subrecipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131-12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38;

- The Federal Aviation Administration's Nondiscrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

BOND FOR FAITHFUL PERFORMANCE

KNOW ALL MEN BY THESE PRESENTS:

That we, _____, a **STATE OF**
 _____ **CORPORATION**, as Principal and _____
 _____, a corporation,
 organized and existing under the laws of the State of _____
 and duly authorized to transact business under the laws of the State of California, as
 Surety, are held and firmly bound unto the City of Stockton, a municipal corporation, duly
 created and existing under and by virtue of the laws of the State of California, as obligee,
 in the just and full sum of **FIVE MILLION, FIVE HUNDRED TWENTY-ONE THOUSAND,**
TWO HUNDRED THIRTY/100 DOLLARS (\$5,521,230.00), in lawful money of the United
 States of America (being 100% of the contract price) for the payment whereof well and
 truly to be made to the said CITY, the said Principal and Surety bind themselves, their
 successors and assigns, jointly and severally, firmly by these presents.

The condition of the foregoing obligation is such that the above bounded Principal
 has simultaneously entered into a contract with the CITY, to do and perform the following
 work, to wit:

SAFE ROUTES TO SCHOOL SAFETY AND CONNECTIVITY IMPROVEMENTS
PROJECT NO. WT19005 / FEDERAL PROJECT NO. ATPCML-5008(189)

NOW, THEREFORE, if the above bounded Principal, CONTRACTOR, Company
 or
 Corporation or its Subcontractor, shall well and truly perform the work contracted to be
 done under said contract, then this obligation to be null and void; otherwise to remain in
 full force and effect.

No prepayment or delay in payment and no change, extension, addition or
 alteration of any provision of said contract, or in said plans or specifications agreed to
 between the said CONTRACTOR and the said CITY, and no forbearance on the part of
 the said CITY shall operate to relieve any Surety or Sureties from liability on this bond,
 and consent by said Surety is hereby given, and the said Surety hereby waives the

provisions of Sections 2819 and 2845 of the Civil Code of the State of California.

RESOLUTION SETTING A PUBLIC HEARING TO ESTABLISH AN UNDERGROUND UTILITY DISTRICT ALONG LOWER SACRAMENTO ROAD

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Set a public hearing for August 20, 2024, to determine whether public necessity, health, safety, or welfare requires the formation of an underground utility district along Lower Sacramento Road pursuant to Stockton Municipal Code section 13.36.020.
2. Authorize the City Clerk to notify all affected property owners by mail of the public hearing pursuant to Stockton Municipal Code section 13.36.020.
3. Authorize the City Clerk to publish notice of this public hearing in a newspaper of local circulation, at least ten (10) days prior to said hearing.
4. Approve the proposed area to be included in the Lower Sacramento Road Underground Utility District.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

Summary

Pacific Gas & Electric (PG&E) is mandated by the California Public Utilities Commission (CPUC), under Tariff Rule 20, to budget monies for communities to convert overhead facilities to underground. These undergrounding projects are commonly known as Rule 20A projects. As of March 2024, the City accumulated approximately \$4.8 million in PG&E credits that can be used to relocate eligible overhead powerlines and communication utilities underground for eligible priority project(s) in the City of Stockton. PG&E typically takes the lead on Rule 20A projects and uses the credits to fund the design, construction, and administration costs.

The Lower Sacramento Road Widening and Bridge Replacements project is a priority project for Public Works that will require undergrounding of existing electrical and communication utilities. The limit of the project is between Royal Oaks Drive and Pixley Slough just north of Eight Mile Road. The project will generally widen the existing roadway from two to four/six lanes and was included in the 2019-24 Five-Year Capital Improvement Plan (CIP).

The CPUC Rule 20A guidelines require the City to establish an Underground Utility District and to determine the public interest the undergrounding would satisfy. Establishment of a District will enable

staff, PG&E, and other utilities to start the process of relocating facilities underground in coordination with the construction of the Lower Sacramento Road Widening and Bridge Replacements project. It is recommended that Council approve the formation of an Underground Utility District between Pixley Slough and Bear Creek, as shown on Exhibit 1 to the Resolution, as it meets the Public Interest Criteria required under the CUPC guidelines.

It is also recommended that Council adopt a resolution authorizing the City Manager to set a public hearing for August 20, 2024, and authorize the City Clerk to publish notice of the public hearing.

DISCUSSION

Background

PG&E is mandated by the CPUC, under Tariff Rule 20A, to budget monies for communities to convert overhead facilities to underground. The CPUC Rule 20A program defines the policies and procedures for conversion for overhead power lines and other equipment to underground facilities where there is a public interest to do so. These undergrounding projects are commonly known as Rule 20A projects. As of March 2024, the City accumulated approximately \$4.8 million in PG&E Rule 20A work credits that can be used to relocate eligible overhead powerlines and communication utilities underground within the City. PG&E typically takes the lead on Rule 20A projects and uses the credits to fund the design, construction, and administration costs. The City takes the lead in relocating any street lighting attached to PG&E utility poles that will be undergrounded.

In general, removing utility poles and relocating overhead facilities below ground improves safety and aesthetics of streets, sidewalks, neighborhoods, and civic areas. Potential hazards associated with downed lines or poles being situated close to vehicle travel areas are also eliminated. Rule 20A projects are typically identified by the City, in coordination with PG&E, and other utility providers. Following this coordination, PG&E will, using available credits, replace its existing overhead electric facilities with underground electric facilities along the public street provided that the governing body of city has:

- A. Determined that undergrounding the utilities is in the general public interest for one or more of the following reasons:
 - 1. Undergrounding will avoid or eliminate an unusually heavy concentration of overhead electric facilities.
 - 2. The street is extensively used by the general public and carries a heavy volume of pedestrian or vehicular traffic.
 - 3. The street adjoins or passes through a civic area, recreation area, or an area of unusual scenic interest to the general public.
 - 4. The street is an arterial or major collector road defined in the City's General Plan.
- B. Adopt an ordinance which approves the formation of an underground district where existing utilities will be removed and relocated underground; specifies all property services will be ready to receive underground services; and PG&E can discontinue its overhead service.

On July 17, 1989, Council adopted policies and procedures for a Master Plan of Underground Utility Districts. This outlined the development of a long-range (30 to 50 years) Plan. First priority was given to major street widening and reconstruction projects by the City, and second priority was given to areas of civic, scenic, or historic importance.

Staff has reviewed the 50-year Master Plan, together with current and future priority road projects and identified the Lower Sacramento Road Widening and Bridge Replacements project (generally between Royal Oaks Drive and Pixley Slough just north of Eight Mile Road) as a priority project. This project is a key north-south primary arterial that serves as a primary connector to Lodi. San Joaquin County recently completed the widening of the Lower Sacramento Road segment north of Eight Mile Road including the undergrounding of aerial facilities. In addition, the Lower Sacramento Road Corridor is a project listed on the San Joaquin Council of Governments Measure K Strategic Plan. As such, the Lower Sacramento Road Corridor is a high priority for the establishment of an Undergrounding Utility District.

Public Works issued a Request for Proposals for professional engineering services to complete a Precise Roadway Plan and to design the Lower Sacramento Road Widening and Bridge Replacements project. The limit of the project is between Royal Oaks Drive and Pixley Slough just north of Eight Mile Road. Design work is expected to start by the end of 2024. The project will generally widen the existing roadway from two to four/six lanes and include the reconstruction of the bridges over Pixley Slough and Bear Creek. The project was included in the 2019-24 Five-Year CIP.

Present Situation

The Lower Sacramento Road Widening and Bridge Replacements project will require the undergrounding of existing electrical and communication utilities before the widening project starts. As noted above, the City must create an Underground Utility District and determine the public interest the undergrounding would satisfy. It is recommended that Council approve the formation of an Underground Utility District between Pixley Slough and Bear Creek as shown on Exhibit 1 to the Resolution.

The Underground Utility District meets the Public Interest Criteria required under the CPUC guidelines. Formation of the proposed District will enable staff, PG&E, and other utilities to utilize Rule 20A funds to underground eligible facilities before the Lower Sacramento Road Widening and Bridge Replacements project starts. The full scope of undergrounding will be coordinated with the City's design of the Lower Sacramento Road Widening and Bridge Replacements project in the next two or three years. After which, it is estimated PG&E can begin coordinating utility relocation and underground work no sooner than 2030. The construction of the City's Lower Sacramento Road Widening and Bridge Replacements project is dependent on funding availability.

Stockton Municipal Code (SMC) Chapter 13.36 Regulations and Procedures for the Removal of Overhead Utility Facilities and the Installation of Underground Facilities in Underground Utility Districts, establishes regulations and procedures for the formation of Underground Utility Districts (Attachment A). In accordance with SMC section 13.36.020, a public hearing is required to determine whether the public necessity, health, safety, or welfare requires the undergrounding of overhead facilities. This also satisfies the CPUC Rule 20 requirement that the local government determines if a proposed Rule 20A project serves the public interest pursuant to a public hearing.

Pursuant to SMC section 13.36.020, at least ten (10) days prior to the public hearing, the City Clerk will notify all affected property owners and respective utilities of the time and place of the hearing. Owners within the proposed district will be notified of the public hearing by mail based on the last equalized assessment roll. A copy of the resolution with a map of this district will be included as well.

The recommended resolution will:

1. Set a public hearing for August 20, 2024.
2. Authorize the City Clerk to notify all affected property owners by mail of the public hearing pursuant to SMC section 13.36.020.
3. Authorize the City Clerk to publish notice of the public hearing.

Notice of the public hearing is required to be published a minimum of ten (10) days prior to the public hearing pursuant to SMC section 13.36.020. The required notice will be published in The Record on August 6, 2024.

PG&E takes the lead in the design and construction of Rule 20A projects. Rights of entry from adjacent property owners will be needed to allow PG&E contractors to make modifications to electrical panels to receive underground service. The cost to adapt electric panels to receive underground service will be covered by the Rule 20A project at no cost to the property owners. Upon formation of the Rule 20A underground district, PG&E will start coordination activities and design of the underground project. Design is anticipated to take approximately 12 months with underground construction activities starting as early as 2025.

FINANCIAL SUMMARY

As of March 2024, the City has accumulated approximately \$4.8 million in the Rule 20A account with the utility companies. Some costs, such as right-of-way acquisition and street light relocation are not funded by Rule 20A and must be funded by the City. Partial funding exists in the Rule 20A Streetlighting program (PW1521) to fund the necessary activities and staff time associated with the Lower Sacramento Road Widening and Bridge Replacements project. The program currently has an unencumbered balance of \$24,320.

Per SMC section 16.72.230, Developers remain to be responsible for the cost of utility undergrounding for their new development adjacent to the project.

There is no additional impact to the City's General Fund or any other unrestricted fund as a result of taking the recommended actions.

Attachment A - SMC Chapter 13.36

Stockton Municipal Code, Charter, and Civil Service Rules[Up](#)[Previous](#)[Next](#)[Main](#)[Collapse](#)[Search](#)[Print](#)[No Frames](#)[Municipal Code Title 13 PUBLIC SERVICES](#)**Chapter 13.36 REGULATIONS AND PROCEDURES FOR THE REMOVAL OF OVERHEAD UTILITY FACILITIES AND THE INSTALLATION OF UNDERGROUND FACILITIES IN UNDERGROUND UTILITY DISTRICTS****13.36.010 Definitions.**

Whenever in this chapter the words or phrases hereinafter in this section defined are used, they shall have the respective meanings assigned to them in the following definitions:

“Commission” means the Public Utilities Commission of the State of California.

“Person” means and include individuals, firms, corporations, partnerships, and their agents and employees.

“Poles, overhead wires and associated overhead structures” means poles, towers, supports, wires, conductors, guys, stubs, platforms, crossarms, braces, transformers, insulators, cutouts, switches, communication circuits, appliances, attachments and appurtenances located aboveground within a district and used or useful in supplying electric, communication or similar or associated service.

“Underground utility district” or “district” means that area in the City within which poles, overhead wires, and associated overhead structures are prohibited as such area is described in a resolution adopted pursuant to the provisions of Section [13.36.030](#).

“Utility” means and includes all persons or entities supplying electric, communication or similar or associated service by means of electrical materials or devices. (Prior code § 9-750)

13.36.020 Public hearing by Council.

The Council may from time to time call public hearings to ascertain whether the public necessity, health, safety or welfare requires the removal of poles, overhead wires and associated overhead structures within designated areas of the City and the underground installation of wires and facilities for supplying electric, communication, or similar or associated service. The City Clerk shall notify all affected property owners as shown on the last equalized assessment roll and utilities concerned by mail of the time and place of such hearings at least 10 days prior to the date thereof. Each such hearing shall be open to the public and may be continued from time to time. At each such hearing all persons interested shall be given an opportunity to be heard. The decision of the Council shall be final and conclusive. (Prior code § 9-751)

13.36.030 Council may designate Underground Utility Districts by resolution.

If, after any such public hearing the Council finds that the public necessity, health, safety or welfare requires such removal and such underground installation within a designated area, the Council shall, by resolution, declare such designated area an Underground Utility District and order such removal and underground installation. Such resolution shall include a description of the area comprising such district and shall fix the time within which such removal and underground installation shall be accomplished and within which affected property owners must be ready to receive underground service. A reasonable time shall be allowed for such removal and underground installation, having due regard for the availability of labor, materials and equipment necessary for such removal and for the installation of such underground facilities, as may be occasioned thereby. (Prior code § 9-752)

13.36.040 Unlawful acts.

Whenever the Council creates an underground utility district and orders the removal of poles, overhead wires

and associated overhead structures therein as provided in Section [13.36.030](#), it is unlawful for any person or utility to erect, construct, place, keep, maintain, continue, employ or operate poles, overhead wires and associated overhead structures in the district after the date when said overhead facilities are required to be removed by such resolution, except as said overhead facilities may be required to furnish service to an owner or occupant of property prior to the performance by such owner or occupant of the underground work necessary for such owner or occupant to continue to receive utility service as provided in Section [13.36.090](#), and for such reasonable time required to remove said facilities after said work has been performed and except as otherwise provided in this chapter. (Prior code § 9-753)

13.36.050 Exception, emergency or unusual circumstances.

Notwithstanding the provisions of this chapter, overhead facilities may be installed and maintained for a period, not to exceed 10 days, without authority of the City Engineer in order to provide emergency service. The City Engineer may grant special permission, on such terms as the City Engineer may deem appropriate, in cases of unusual circumstances, without discrimination as to any person or utility, to erect, construct, install, maintain, use or operate poles, overhead wires and associated overhead structures. (Prior code § 9-754)

13.36.060 Other exceptions.

This chapter or any resolution adopted pursuant to Section [13.36.030](#), shall, unless otherwise provided in such resolution, not apply to the following types of facilities:

- A. Any municipal facilities or equipment installed under the supervision and to the satisfaction of the City Engineer.
- B. Poles, or electroliers used exclusively for street lighting.
- C. Overhead wires (exclusive of supporting structures) crossing any portion of a district within which overhead wires have been prohibited, or connecting to buildings on the perimeter of a district, when such wires originate in an area from which poles, overhead wires and associated overhead structures are not prohibited.
- D. Poles, overhead wires and associated overhead structures used for the transmission of electric energy at nominal voltages in excess of 34,500 volts.
- E. Overhead wires attached to the exterior surface of a building by means of a bracket or other fixture and extending from one location on the building to another location on the same building or to an adjacent building without crossing any public street.
- F. Antennae, associated equipment and supporting structures, used by a utility for furnishing communication services.
- G. Equipment appurtenant to underground facilities, such as surface mounted transformers, pedestal mounted terminal boxes and meter cabinets, and concealed ducts.
- H. Temporary poles, overhead wires and associated overhead structures used or to be used in conjunction with construction projects. (Prior code § 9-755)

13.36.070 Notice to property owners and utility companies.

Within 10 days after the effective date of a resolution adopted pursuant to Section [13.36.030](#), the City Clerk shall notify all affected utilities and all persons owning real property within the district created by said resolution of the adoption thereof. Said City Clerk shall further notify such affected property owners of the necessity that, if they or any person occupying such property desire to continue to receive electric, communication, or similar or associated service, they or such occupant shall provide all necessary facility changes on their premises so as to receive such service from the lines of the supplying utility or utilities at a new location, subject to the applicable rules, regulations and tariffs of the respective utility or utilities on file with the Commission. Notification by the City Clerk shall be made by mailing a copy of the resolution adopted pursuant to Section [13.36.030](#), together with a copy of this chapter,

to affected property owners as such are shown on the last equalized San Joaquin County assessment roll and to the affected utilities. (Prior code § 9-756)

13.36.080 Responsibility of utility companies.

If underground construction is necessary to provide utility service within a district created by any resolution adopted pursuant to Section [13.36.030](#), the supplying utility shall furnish that portion of the conduits, conductors and associated equipment required to be furnished by it under its applicable rules, regulations and tariffs on file with the Commission. (Prior code § 9-757)

13.36.090 Responsibility of property owners.

A. Every person owning, operating, leasing, occupying or renting a building or structure within a district shall construct and provide that portion of the service connection on his or her property between the facilities referred to in Section [13.36.080](#) and the termination facility on or within said building or structure being served, all in accordance with applicable rules, regulations and tariffs of the respective utility or utilities on file with the Commission. If the above is not accomplished by any person within the time provided for in the resolution enacted pursuant to Section [13.36.030](#), the City Engineer shall give notice in writing to the person in possession of such premises, and a notice in writing to the owner thereof as shown on the last equalized assessment roll, to provide the required underground facilities within 10 days after receipt of such notice.

B. The notice to provide the required underground facilities may be given either by personal service or by mail. In case of service by mail on either of such persons, the notice must be deposited in the United States mail in a sealed envelope with postage prepaid, addressed to the person in possession of such premises at such premises, and the notice must be addressed to the owner thereof as such owner's name appears, and must be addressed to such owner's last known address as the same appears on the last equalized assessment roll, and when no address appears, to General Delivery, City of Stockton. If notice is given by mail, such notice shall be deemed to have been received by the person to whom it has been sent within 48 hours after the mailing thereof. If notice is given by mail to either the owner or occupant of such premises, the City Engineer shall, within 48 hours after the mailing thereof, cause a copy thereof, printed on a card not less than eight (8) inches by 10 inches in size, to be posted in a conspicuous place on said premises.

C. The notice given by the City Engineer to provide the required underground facilities shall particularly specify what work is required to be done, and shall state that if said work is not completed within 30 days after receipt of such notice, the City Engineer will provide such required underground facilities, in which case the cost and expense thereof will be assessed against the property benefited and become a lien upon such property.

D. If upon the expiration of the 30-day period, the said required underground facilities have not been provided, the City Engineer shall forthwith proceed to do the work, provided; however, if such premises are unoccupied and no electric or communications services are being furnished thereto, the City Engineer shall in lieu of providing the required underground facilities, have the authority to order the disconnection and removal of any and all overhead service wires and associated facilities supplying utility service to said property. Upon completion of the work by the City Engineer, he or she shall file a written report with the City Council setting forth the fact that the required underground facilities have been provided and the cost thereof, together with a legal description of the property against which such cost is to be assessed. The Council shall thereupon fix a time and place for hearing protests against the assessment of the cost of such work upon such premises, which said time shall not be less than 10 days thereafter.

E. The City Engineer shall forthwith, upon the time for hearing such protests having been fixed, give a notice in writing to the person in possession of such premises, and a notice in writing thereof to the owner thereof, in the manner hereinabove provided for the giving of the notice to provide the required underground facilities, of the time and place that the Council will pass upon such report and will hear protests against such assessment. Such notice shall also set forth the amount of the proposed assessment.

F. Upon the date and hour set for the hearing of protests, the Council shall hear and consider the report and all protests, if there be any, and then proceed to affirm, modify or reject the assessment.

G. If any assessment is not paid within five (5) days after its confirmation by the Council, the amount of the assessment shall become a lien upon the property against which the assessment is made by the City Engineer, and the City Engineer is directed to turn over to the Assessor and Tax Collector a notice of lien on each of said properties on which the assessment has not been paid, and said Assessor and Tax Collector shall add the amount of said assessment to the next regular bill for taxes levied against the premises upon which said assessment was not paid. Said assessment shall be due and payable at the same time as said property taxes are due and payable, and if not paid when due and payable, shall bear interest at the rate of six (6) percent per year. (Prior code § 9-758)

13.36.100 Responsibility of City.

City shall remove at its own expense all City-owned equipment from all poles required to be removed hereunder in ample time to enable the owner or user of such poles to remove the same within the time specified in the resolution enacted pursuant to Section [13.36.030](#). (Prior code § 9-759)

13.36.110 Extension of time.

In the event that any act required by this chapter or by a resolution adopted pursuant to Section [13.36.030](#) cannot be performed within the time provided on account of shortage of materials, war, restraint by public authorities, strikes, labor disturbances, civil disobedience, or any other circumstances beyond the control of the actor, then the time within which such act will be accomplished shall be extended for a period equivalent to the time of such limitation. (Prior code § 9-760)

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING SETTING A PUBLIC HEARING TO ESTABLISH AN UNDERGROUND UTILITY DISTRICT ALONG LOWER SACRAMENTO ROAD, AUTHORIZING THE CITY CLERK TO NOTIFY ALL AFFECTED PROPERTY OWNERS BY MAIL OF THE PUBLIC HEARING, AUTHORIZING THE CITY CLERK TO PUBLISH NOTICE OF THE PUBLIC HEARING, AND APPROVING THE PROPOSED AREA TO BE INCLUDED IN THE LOWER SACRAMENTO ROAD UNDERGROUND UTILITY DISTRICT

On July 17, 1989, Council adopted policies and procedures for a Master Plan of Underground Utility Districts. This outlined the development of a long-range (30 to 50 years) Plan. First priority was given to major street widening and reconstruction project by the City, and second priority was given to areas of civic, scenic, or historic importance; and

Staff has reviewed the 50-year Master Plan, together with current and future priority road projects, and identified the Lower Sacramento Road Corridor as a high priority for the establishment of an Undergrounding Utility District. In addition, the Lower Sacramento Road Corridor is a project listed on the San Joaquin Council of Governments Measure K Strategic Plan; and

Stockton Municipal Code (SMC) Chapter 13.36, Regulations and Procedures for the Removal of Overhead Utility Facilities and the Installation of Underground Facilities in Underground Utility Districts, establishes regulations and procedures for the formation of Underground Utility Districts. In accordance with SMC section 13.36.020, a public hearing is required to determine whether the public necessity, health, safety, or welfare requires the undergrounding of overhead facilities; and

PG&E is mandated by the California Public Utilities Commission, under Tariff Rule 20, to budget monies to convert overhead facilities to underground. These undergrounding projects are commonly known as Rule 20A projects; and

As of March 2024, the City has accumulated approximately \$4.8 million in PG&E credits that can be used to relocate eligible overhead powerlines and communication utilities underground within the City; and

Removing utility poles and relocating overhead facilities below ground improves safety and aesthetics of streets, sidewalks, neighborhoods, and civic areas. Potential hazards associated with downed lines or poles being situated close to vehicle travel areas are also eliminated. In addition, undergrounding poles will provide unobstructed right-of-way required to install the road improvements of the Lower Sacramento Road Widening and Bridge Replacements project; and

It has been recommended that such Lower Sacramento Road Underground Utility District be formed between Pixley Slough and Bear Creek and encompass 100 feet on either side of the centerline of Lower Sacramento Road; and

Per SMC section 16.72.230, developers remain to be responsible for the cost of utility undergrounding for their new development adjacent to the project; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The City Council approves setting a public hearing for August 20, 2024, at 5:30 p.m., or as soon thereafter as the matter can be heard, in the Council Chambers of City Hall, 425 North El Dorado Street, Stockton, California, as the date, time, and place, when the City Council will conduct a public hearing to determine whether public necessity, health, safety, or welfare requires the formation of an underground utility` district along Lower Sacramento Road bound between Pixley Slough and Bear Creek.

2. The City Council authorizes the City Clerk to publish notice of this public hearing in a newspaper of local circulation, *The Record*, at least ten (10) days prior to said hearing date.

3. The City Council authorizes the City Clerk to notify by mail, all affected property owners as shown on the last equalized assessment roll and utilities concerned of the time and place of such hearing by mailing a copy of this Resolution to such property owners and utilities concerned at least ten (10) days prior to the date thereof as required by SMC section 13.36.020.

4. The City Council approves the area proposed to be included in the District which is shown upon that certain map entitled "Lower Sacramento Road Underground Utility District", a copy of which is attached as Exhibit 1 and incorporated by this reference.

5. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

ATTEST:

KEVIN J. LINCOLN II
Mayor of the City of Stockton

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

City of Stockton

Legislation Text

File #: 24-0681, **Version:** 1

APPROVE MOTION TO RATIFY EXECUTION OF A FUNDS TRANSFER AGREEMENT FOR THE REDEVELOPMENT ON THE MIRACLE MILE: PUBLIC SAFETY/MAINTENANCE SUBSTATION/PARKING

RECOMMENDATION

It is recommended that the City Council approve a motion to ratify the City Manager executing a Funds Transfer Agreement between the City of Stockton and the California Department of Transportation for a total of \$3,100,000 for the Redevelopment on the Miracle Mile: Public Safety/Maintenance Substation/Parking.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this motion.

Summary

Section 19.561, subdivision (g) (46) of the Budget Act of 2023 appropriated \$3,100,000 from the State General Fund to Caltrans, to be allocated to the City of Stockton for the Redevelopment on the Miracle Mile: Public Safety/Maintenance Substation/Parking. The California Department of Transportation (Caltrans) is the authorizing agency for the proper distribution of the funding provided by this legislation. The funding will allow for increased public safety improvements, acquisition of a maintenance substation and enhance parking improvements along Pacific Avenue between Alpine Avenue and Harding Way and the immediate surrounding area (Attachment A - Vicinity Map). Improvements may include areas along Harding Way between Lincoln Street and El Dorado Street.

It is recommended that Council approve a motion ratifying the City Manager executing a Funds Transfer Agreement in the amount of \$3,100,000 with Caltrans for the Redevelopment on the Miracle Mile: Public Safety/Maintenance Substation/Parking Improvements Project (Attachment B).

DISCUSSION

Background

Section 19.561, subdivision (g) (46) of the Budget Act of 2023 appropriated \$3,100,000 from the State General Fund to Caltrans, to be allocated to the City of Stockton for the Redevelopment on the Miracle Mile: Public Safety/Maintenance Substation/Parking. Caltrans is the authorizing agency for the proper distribution of the funding provided by this legislation. The funds are not attached to an established State program or subject to the authority of the California Transportation Commission or the California State Transportation Agency, unless specified in the legislation.

Caltrans determined the best method for allocation to ensure the funds are used for the purposes

specified in Section 19.56 of the Act is a Funds Transfer Agreement. Funds shall only be used for the project specified in the Act. The funds will be encumbered within two days of the effective date of the agreement. Pursuant to Section 19.56 of the Act, funds must be encumbered by June 30, 2025, and expended by June 30, 2027, or funds will revert to the State's General Fund by operation of law.

Present Situation

The Miracle Mile is predominantly a shopping and dining district within the City of Stockton. The Miracle Mile includes businesses fronting along Pacific Avenue from Alpine Avenue to Harding Way, and businesses along Harding Way between El Dorado Street and Lincoln Street.

The Redevelopment on the Miracle Mile: Public Safety/Maintenance Substation/Parking will provide funding for increased public safety improvements, acquisition of a maintenance substation and enhanced parking improvements along Pacific Avenue between Alpine Avenue and Harding Way.

Caltrans has identified \$3.1 million of available funding to aid in the safety improvements along the Miracle Mile.

It is recommended that Council approve a motion ratifying the City Manager's execution of a Funds Transfer Agreement in the amount of \$3,100,000 with Caltrans for the Redevelopment on the Miracle Mile: Public Safety/ Maintenance Substation/Parking Improvement.

FINANCIAL SUMMARY

Approval of the Funds Transfer Agreement will result in \$3,100,000 of State General funds being applied to the Redevelopment on the Miracle Mile: Public Safety/Maintenance Substation/Parking Improvement Project.

There is no impact to the City's General Fund or any other unrestricted fund as a result of taking the recommended action.

Attachment A - Vicinity Map
Attachment B - Funds Transfer Agreement

MIRACLE MILE PEDESTRIAN CROSSING IMPROVEMENTS, INCLUDING PEDESTRIAN CROSSING UPGRADES IMPROVEMENTS, PUBLIC SAFETY IMPROVEMENTS, AND REVITALIZATION IMPROVEMENTS

Funds Transfer Agreement Between the California Department of Transportation and the City of Stockton

- 1.1 The California Department of Transportation (Caltrans) and the City of Stockton (City) hereby enter into this Funds Transfer Agreement (Agreement) on the terms and conditions set forth below.
- 1.2 This Agreement is not valid until signed by both parties. This Agreement shall expire on City's completion of its obligations under this Agreement but may be extended by amending this Agreement.

BACKGROUND

- 2.1 Section 19.561, subdivision (g)(46) of the Budget Act of 2023 (the Act) appropriated \$3,100,000 (the Funds) from the State General Fund to Caltrans, to be allocated to City for the Redevelopment on the Miracle Mile: Public Safety/Maintenance Substation/Parking.
- 2.2 Caltrans determined the best method for allocation to ensure the funds are used for the purposes specified in Section 19.561 of the Act is a funds transfer agreement.
- 2.3 The Miracle Mile is predominantly a shopping and dining district within the City of Stockton. The Miracle Mile includes businesses fronting along Pacific Avenue from Alpine Avenue to Harding Way, and businesses along Harding Way between El Dorado Street and Lincoln Street.

Project's goal includes public safety, a maintenance substation and parking.

SCOPE OF WORK

- 3.1 The Funds provided under this Agreement will be used to redevelop the Miracle Mile along Pacific Avenue between Alpine Avenue and Harding Way and the immediate surrounding area (Project). Improvements may include areas along Harding Way between Lincoln Street and El Dorado Street. Project scope may include public safety, maintenance substation and parking (Project). Deliverables may include the following:
 - Conceptual Design – which may include:
 - Curb, gutter, sidewalk, and driveways

Funds Transfer Agreement Between the California Department of Transportation
and the City of Stockton

- Roadway maintenance projects (slurry seals, cape seals, micro-surfacing, overlays, pulverizations, and full depth reclamations with cement)
 - Traffic signal upgrades
 - High visibility crosswalks, Rectangular Rapid Flashing Beacons
 - Streetlights and ambient lighting
 - ADA curb ramps
 - Pedestrian safety improvements, buffered bike facilities, dedicated bicycle ramps, raised medians, and pavement striping
 - Maintenance substation acquisition improvements and maintenance (includes single available NOFA to secure location for maintenance).
 - Parking improvements/maintenance
- Environmental clearances as needed (CEQA/NEPA)
- Professional Design Services and Studies – may include the following submittals:
 - Engineering Plans at 30%
 - Engineering Plans, Specifications, Estimate (60 and 90%)
 - Engineering Plans, Specifications, Estimate at 100% and Final Approval
- Public Outreach/Public Meetings
- Public Safety Improvements
 - Security cameras/monitoring services/reimbursements
- Project Advertisement
 - Issuance of a Single Available Source NOFA to the Miracle Mile Improvement District (MMID)
- Construction Contract Award
- Construction Management Services
- Project Closeout

3.2 City shall only use Funds for the Project specified in the Act. City's self-attestation verifying the intended use of funds shall be provided to the Department prior to the release of any funds.

FUNDING, COSTS, COST LIMITATION, & PAYMENT

4.1 The Funds will be encumbered within 2 days of the effective date of this Agreement. Pursuant to Section 19.561 of the Act, funds must be

Funds Transfer Agreement Between the California Department of Transportation
and the City of Stockton

encumbered by June 30, 2025, and expended by June 30, 2027, or the funds will revert to the State's General Fund by operation of law.

- 4.2 Payments shall be made as authorized by Sections 19.561(a) of the Act, including but not limited to the provisions noted below:
 - a. Notwithstanding any other law, a designated state entity administering on allocation pursuant to this section may provide the allocation as an advanced lump sum payment, and the allocation may be used to pay for costs incurred prior to the effective date of the act adding this paragraph.
 - b. Funding provided in this section shall not be used for a purpose subject to Section 8 of the Article XVI of California Constitution.
- 4.3 After receiving the funds, the City shall provide semi-annual reporting on January 1 and July 1 to Caltrans each calendar year until the funds are expended or upon completion or termination of the Project, whichever comes first.
- 4.4 Within 30 days of expending all of the Funds or upon completion or termination of Project, whichever comes first, City shall submit to Caltrans a Project Closeout Report. The Project Closeout Report at a minimum shall include LAPM Exhibit 17-M, photos of the completed project (including before photos, if available), a description of completed Project component(s) and a description of project deliverables.
- 4.5 Any Project costs paid using the Funds that are determined by subsequent audit to be unallowable under 48 CFR, Part 31 or 2 CFR, Part 200, are subject to repayment by City to Caltrans.
- 4.6 City shall return any unspent Funds to Caltrans at the conclusion, completion, or termination of the Project.
- 4.7 Upon written demand by Caltrans, any overpayment to City of amounts invoiced by Caltrans shall be returned to Caltrans.
- 4.8 Should City fail to refund any moneys due to Caltrans as provided herein or should City breach this AGREEMENT by failing to complete Project without adequate justification and approval by Caltrans, then, within thirty (30) days demand, or within such other period as may be agreed to in writing between the PARTIES, Caltrans, acting through the State Controller, the State Treasurer, the CTC or any other public entity or agency, may intercept, withhold and demand the transfer of an amount equal to the

Funds Transfer Agreement Between the California Department of Transportation
and the City of Stockton

amounts paid by or owed to Caltrans for each Project, from future apportionments or any other funds due to City from Highway User Tax Fund or any other sources of funds, and/or may also withhold approval of future state-funded projects proposed by ADMINISTERING AGENCY.

INQUIRIES & NOTICES

- 5.1 All inquiries during the term of this Agreement will be directed to the representatives listed below:

For Caltrans:

Name: Silvia Dayak
Address: 1976 E Dr. Martin Luther
King Jr. Blvd,
Stockton, CA 95205
Phone Number: (279) 220-0804
Email: silvia.dayak@dot.ca.gov

For City of Stockton:

Name: Harry Black
Address: 425 N. El Dorado Street,
2nd Floor,
Stockton, CA 95202
Phone Number: (209) 937-8212
Email: harry.black@stocktonca.gov

- 5.2 Each party may change their representative listed above upon 10 calendar days' written or emailed notice to the other party and without the need for amending this Agreement.

OTHER TERMS & CONDITIONS

- 6.1 Drug-Free Workplace Requirements: City will comply with the requirements of the Drug-Free Workplace Act of 1990 and will provide a drug-free workplace by taking the following actions:
- a. Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations.
 - b. Establish a Drug-Free Awareness Program to inform employees about:
 - 1) the dangers of drug abuse in the workplace;
 - 2) the person's or organization's policy of maintaining a drug-free workplace;
 - 3) any available counseling, rehabilitation, and employee assistance programs; and,
 - 4) penalties that may be imposed upon employees for drug abuse violations.

Funds Transfer Agreement Between the California Department of Transportation
and the City of Stockton

- c. Every employee who works on the proposed Agreement will:
- 1) receive a copy of the company's drug-free workplace policy statement; and,
 - 2) agree to abide by the terms of the company's statement as a condition of employment on the Agreement.

Failure to comply with these requirements may result in suspension of payments under the Agreement or termination of the Agreement or both and City may be ineligible for award of any future State agreements if Caltrans or the State Department of General Services determines that any of the following has occurred: City has made false certification, or violated the certification by failing to carry out the requirements as noted above. (Gov. Code §8350 et seq.)

- 6.2 Conflict of Interest: City needs to be aware of the following provisions regarding current or former state employees. If City has any questions on the status of any person rendering services or involved with the Agreement, Caltrans must be contacted immediately for clarification.

Current State Employees (Pub. Contract Code §10410):

- 1). No officer or employee shall engage in any employment, activity or enterprise from which the officer or employee receives compensation or has a financial interest and which is sponsored or funded by any state agency, unless the employment, activity or enterprise is required as a condition of regular state employment.
- 2). No officer or employee shall contract on his or her own behalf as an independent contractor with any state agency to provide goods or services.

Former State Employees (Pub. Contract Code §10411):

- 1). For the two-year period from the date he or she left state employment, no former state officer or employee may enter into a contract in which he or she engaged in any of the negotiations, transactions, planning, arrangements or any part of the decision-making process relevant to the contract while employed in any capacity by any state agency.
- 2). For the twelve-month period from the date he or she left state employment, no former state officer or employee may enter into a contract with any state agency if he or she was employed by that state agency in a policy-making position in the same general

Funds Transfer Agreement Between the California Department of Transportation
and the City of Stockton

subject area as the proposed contract within the 12-month period
prior to his or her leaving state service.

If City violates any provisions of above paragraphs, such action by City shall render this Agreement void. (Pub. Contract Code § 10420.) If the Agreement is rendered void, City shall return all Funds.

- 6.3 Labor Code/Workers' Compensation: City needs to be aware of the provisions which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions, and City affirms to comply with such provisions before commencing the performance of the work described in this Agreement. (Labor Code § 3700.)
- 6.4. Americans With Disabilities Act: City assures the State that it complies with the Americans with Disabilities Act (ADA) of 1990, which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to the ADA. (42 U.S.C. § 12101 et seq.)
- 6.5. City of Stockton Name Change: An amendment is required to change City's name as listed on this Agreement. Upon receipt of legal documentation of the name change the State will process the amendment. Payment of invoices presented with a new name cannot be paid prior to approval of said amendment.
- 6.6. Resolution: A county, city, district, or other local public body must provide the State with a copy of a resolution, order, motion, or ordinance of the local governing body which by law has authority to enter into an agreement, authorizing execution of the agreement.
- 6.7. Air or Water Pollution Violation: Under State law, City shall not be: (1) in violation of any order or resolution not subject to review promulgated by the State Air Resources Board or an air pollution control district; (2) subject to cease and desist order not subject to review issued pursuant to Section 13301 of the Water Code for violation of waste discharge requirements or discharge prohibitions; or (3) finally determined to be in violation of provisions of federal law relating to air or water pollution.
- 6.8. Audit: City agrees that Caltrans, the California Department of General Services, the California State Auditor's Office, or other State agency with a legitimate business purpose, or their designated representative(s) shall have the right to review and to copy any records and supporting

Funds Transfer Agreement Between the California Department of Transportation
and the City of Stockton

documentation pertaining to the performance of this Agreement. City agrees to maintain such records for possible audit for a minimum of three (3) years after final payment, unless a longer period of record retention is stipulated.

- 6.9. Amendments: No amendment or variation of the terms of this Agreement shall be valid unless made in writing and signed by the parties. Any amendment signed by City must be approved by its Council as evidenced by a resolution, order, motion, or ordinance of the City and a copy provided to Caltrans. No oral understanding or agreement not incorporated in the Agreement is binding on any of the parties.
- 6.10. Caltrans and City shall continue with their responsibilities under this Agreement during any dispute.
- 6.11 This Agreement may be executed in separate counterparts.
- 6.12 An electronically signed copy of this Agreement shall have the same force and effect as if it were signed manually.
- 6.13 Should City be declared to be in breach of this AGREEMENT or otherwise in default thereof by Caltrans, and if City is constituted as a joint powers authority, special district, or any other public entity not directly receiving funds through the State Controller, Caltrans is authorized to obtain reimbursement from whatever sources of funding are available, including withholding or transfer of funds, from those constituent entities comprising a joint powers authority or by bringing of an action against City or its constituent member entities, to recover all funds provided by Caltrans hereunder.

COMMUNITY SUPPORT GRANT PROGRAM FUNDED THROUGH THE AMERICAN RESCUE PLAN ACT (ARPA) UPDATE

RECOMMENDATION

Informational only; no action to be taken.

Summary

This will be an informational update presented by the Economic Development Department as well as three program awardees and their funded programs:

1. Amelia Ann Adams Whole Life Center
2. Stockton Emergency Food Bank
3. United Way of San Joaquin County

COMMUNITY SUPPORT GRANT PROGRAM FUNDED THROUGH ARPA UPDATE

**Stockton City Council
Agenda Item 15.1
July 9, 2024**

Background

- During the pandemic, Nonprofits and other community-based organizations were called upon by the City to serve those most in need, while oftentimes facing significant reductions in revenue streams.
- Through funding provided by the American Rescue Plan Act (ARPA), Council authorized the development of a Community Support Grant Program (Motion 2022-11-15-1205).
- The City issued a Notice of Funding Availability (NOFA) offering a one-time grant to eligible organizations providing programs, services, or activities that respond to and mitigate the various COVID-19 related community impacts.
- \$2.6 million in total was awarded to 34 nonprofits in November 2022.
- Contracts were executed as organizations were able to provide the required information.

The EFB is grateful for the sustained support of our Programs.

Through the Community Support Grant Nutrition Educators and staff:

- Our Fresh Produce Program distribution increased by 520,623 pounds over the previous year, reaching a total distribution of 1,646,382 pounds of fresh produce.
- 12 sites were added to our Mobile Farmer's Market Program, bringing fresh produce distribution, nutrition education and coaching, live cooking demonstrations, and in-person contact to 84 sites and 29,226 recipients over the last year.
- In-person Nutrition Education and independent living demonstrations and instruction, by our degreed Nutrition Educators, are administered directly in the dining room at St. Mary's Community Services.
- We work with several partners weekly to distribute nutrition-dense foods in Homeless Encampments. Our partners include *SJ County Public Health, Gospel Center Rescue Mission, St. Mary's Community Services, Community Medical Centers, and the Salvation Army.*

Encounters and Resolutions Provided

Case Study #1

- "Bianca Jones", is self-referred with her initial call presenting as needing behavioral health intervention services due to experiencing mild to moderate behavioral health needs.

MCR Team, visited her and made initial contact with her at the location she was sleeping at outside with her small dog. MCR worked with the individual over the period of 2 months with 6 behavioral health encounters as well as a host of case management services.

She was linked to services for obtaining medical replacement card, obtaining food at local food banks, DMV appointments, DMV voucher, transportation to and from medical appointments, immigration services as well as connecting her with Univision to share her story as requested.

The Spanish-speaking channel came and interviewed and shared the story on the local news, and it created assistance for this person by way of being gifted a trailer to live in while she gets back on her feet.

During one of the incidents, CMM called MCR team to accompany her to the hospital, she felt as if she would not be shown understanding with both BH needs and being a Spanish Speaker. After connecting with MCR team she now has a stable home living in a trailer, has a behavioral health clinician, attends regular medical appointments and reports feeling a sense of safety now that she does not have to live on the streets

Case Study #2

This is Jeremy, and he is 19 years old and lives in Stockton.

He was referred from Prevail due to mild to moderate Behavioral health concerns.

MCR Team visited him at his home with 7 encounters over 2 months.

His use of MCR services is noteworthy as he utilized services over Q2 and then phoned again this quarter when he was robbed for his beloved bike.

ADOPTION OF PROPOSED REDLINE CHANGES TO CHAPTERS 3.02 AND 3.03 OF THE COUNCIL POLICY MANUAL

RECOMMENDATION

Staff recommends that the City Council adopt by resolution the proposed redline changes to Chapters 3.02 and 3.03 of the Council Policy Manual.

Summary

On April 17, 2024, and May 15, 2024, the Council Legislation/Environmental Committee reviewed and provided direction to staff for changes to Chapter's 3.02 and 3.03 of the Council Policy Manual. Those changes are presented for the City Council's consideration for adoption.

DISCUSSION

Background

At the May 15, 2024, Council Legislation/Environmental Committee meeting, proposed changes to Chapters 3.02 and 3.03 were discussed by the Committee and recommendation forwarded to Council.

Chapter 3.02 language regarding recruitment for applicants to Boards and Commissions contained outdated language and did not reflect best practices. Updated language is reflected in the attached redline policy (Attachment A).

Chapter 3.03 regarding the attendance policy for Boards and Commissions needed clarity to ensure better governance. Language was updated to further define absences, meeting types, process for addressing violations, and provide clarity regarding boards that were an exception. These changes are reflected in the attached redline policy (Attachment B).

Present Situation

In accordance with Council Legislation/Environmental Committee recommendation, Staff now presents proposed redlines for Council Policy Manual Chapters 3.02 and 3.03 for adoption.

FINANCIAL SUMMARY

There is no financial impact from approval of these changes.

§ 3.02.010 Policy.

- 1) In 1975 the State Legislature amended Government Code Section 54957 of the Brown Act, removing "public officer" from those appointees that the Council could consider in executive session. This action resulted in the requirement that all discussions and deliberations by the City Council regarding appointments or confirmation of appointments are to take place in public at regular or special meetings of the City Council as opposed to closed executive sessions. This amendment was placed into effect January 1, 1976.
- 2) To comply with this new requirement, the City Council on January 19, 1976 adopted Resolution No. 32,937 establishing procedures for interviewing and confirming appointments in open Council session. The resolution additionally incorporated the existing informal procedures of the City Council regarding such appointments.
- 3) On January 1, 1977, the Maddy Local Appointive List Act of 1975 (Section 54970 et seq. Government Code) became effective requiring, among other things, that:

On or before December 31st of each year, each legislative body shall prepare an appointments list of all regular and ongoing boards, commissions, and committees which are appointed by the legislative body of the local agency. The appointees' list shall contain the following information:

- A) A list of all appointive terms which will expire during the next calendar year, with the name of the incumbent appointee, the date of appointment, the date the term expires, and the necessary qualifications for the position.
- B) A list of all boards, commissions, and committees whose members serve at the pleasure of the legislative body, and the necessary qualifications for each position.
- C) These requirements are contained in this Council policy.
- 4) The purpose of this policy is to establish an orderly process to provide all citizens of Stockton equal access to specific and current information about the many regulatory and advisory boards, commissions, and committees appointed by the City Council and/or the Mayor, to provide for equal opportunity to be informed of vacancies which, from time to time, shall occur, and to provide for open sessions in the interview or confirmation appointment process. Hereafter, for sake of simplicity, all boards, commissions and committees appointed as set forth in the following Policy shall be referred to as "Commission" or "Commissions." A member of a board, commission or committee shall be referred to as a "Commissioner."

- 5) **APPOINTMENTS LIST**

- A) Each year, on or before December 31, the City Clerk shall prepare and provide to the City Council an appointments list of all regular and ongoing Commissions which are appointed by the Stockton City Council, a Stockton City Councilmember or by the Mayor. The appointment list shall set forth the following information:

A list of all current Commission vacancies and of all appointive terms which will expire during the next calendar year with the name of the incumbent appointee, the date of appointment, the date the term expires, and the necessary qualifications for the position.

- B) The appointments list shall be made available to members of the public on the City's website for free or a hard copy for a reasonable fee as indicated on the City's Fee Schedule.

- 6) **VACANCY ANNOUNCEMENTS**

~~In mid-January and mid-July, w~~Where a vacancy on a Commission exists or where by ~~June 30 or December 31, respectively,~~ a Commissioner's term of office will expire, the City Clerk shall announce through the news and social media, and post notice thereof on the City's website and in the Office of the City Clerk, that a vacancy exists or that a term of office will expire. A standing contact list of community partners and organizations will be maintained by the Clerk's Office to facilitate effective outreach.

Announcements/postings shall indicate:

- A) Title of the position;
- B) Minimum qualifications;
- C) Special residency requirements, if any;
- D) Frequency of meetings of the Commission;
- E) Remuneration, if any;
- F) Where to submit an application;
- G) Final date for submission of an application; and
- H) Term of office.

7) APPLICATIONS

- A) All applicants for Commission membership, including persons currently serving on a Commission who seek to be reappointed, shall complete and submit a uniform public service application form to the City Clerk's Office prior to the final time and date for submission of the application. An applicant may submit for consideration to more than one Commission, depending on the applicant's qualifications and interest
- B) The City Council may appoint a person then serving on a Commission to serve on a different Commission after taking into account the number of other qualified application seeking appointment and whether the person's appointment to the different Commission is compatible with the person's current Commission service or creates the potential for overlapping subject matter jurisdiction.
- C) The application shall identify the membership on the Commission or Commissions being sought, the applicant's background and qualifications and may include any additional material deemed relevant by the applicant. Additional material will not be accepted after the filing deadline.
- D) The advertisement will remain open until the City Clerk has received one more application than the number of vacancies to be filled or 45 days from the date of the advertisement, whichever comes earlier, at which time the City Clerk will proceed to fill vacancies with the available applicants.
- E) The City Clerk or other staff will review the applications to determine the applicant's compliance with this Policy and any other requirements specified in the Commission's Roster.
- F) The City Clerk's office shall keep applications on file and applications shall be considered active for one year from the date received.
- G) All applications shall be deemed to be public documents and shall be available for public inspection. Nothing herein shall preclude the Mayor or an individual Councilmember from requesting additional or clarifying information of an applicant prior to the Council's consideration of the applicants for appointment as provided in this Policy.

8) STOCKTON RESIDENCY

Absent specific qualifying requirements to the contrary, all applicants and appointees to Commissions shall be residents of the City of Stockton during the term of their appointment.

9) PROHIBITION OF CITY EMPLOYEES

City Employees Prohibited. Because of potential conflicts between City employment and an employee serving on City Commissions, no City employee, with the exception of the staff person appointed to serve on the Successor Agency to the Redevelopment Agency, shall be appointed to a Commission.

10) APPLICANT INTERVIEWS

- A) Except as provided below, the City department or affected agency that staffs a Commission for which there is a vacancy or for which a term of office will expire during the recruitment period shall prepare interview questions, reviewed and approved by the City Manager's Office, and forward the questions to the City Clerk. To the extent feasible, questions should be open-ended and limited to no more than five key queries. The City department or affected agency that staffs a Commission, in consultation with the City Manager's Office, will determine whether to provide the interview questions to the applicants ahead of the interview itself.
- B) The City Clerk will notify the Council and the applicants regarding the date and time of the interviews. The interviews will be streamed live. This will allow the Council the opportunity to view the interviews live via streamed video or at any time prior to the date on which the Council will make its appointment. The video stream of the interviews will remain on the City's website only until the Council concludes the appointment process.
- C) The City Clerk shall notify all applicants of the time and place of the interviews, the amount of time allowed for the interview and the method by which the Council appointment shall be made. If notifying the candidates by electronic mail, the City Clerk shall also follow up with a phone call to the applicant. Applicants who desire to withdraw from consideration shall notify the City Clerk, preferably in writing.
- D) On the date and time of the interview, applicants will arrive at the designated location, date and time as set by the City Clerk.
- E) Applicants will assemble in the designated location where the City Clerk/designee will provide the applicants with the following information:
 - i) Instructions regarding the interview procedure; and
 - ii) The date and time of the meeting at which the Council will be voting on the appointment; applicants may be asked by the Council to appear at this meeting.
- F) Applicants will be interviewed one at a time. Candidates yet to be interviewed will be instructed to wait in a lobby or other designated location until such time that s/he is invited to the location of the interview. Applicants not present for the interview will automatically be removed from further consideration for that recruitment period.
- G) During the interview, the City Clerk/designee will give the opportunity for the applicant to make a two-minute opening statement; the City Clerk/designee will read each question aloud from the list of prepared questions. Each interview is timed and limited to no more than 10 minutes per applicant. Applicants will be excused at the end of the interview.
- H) Interviews for applicants to the Central Parking District Authority Board, Cultural Heritage Board and

Public Art Advisory Committee shall be conducted by committees of the respective Boards or Committee and the committee's recommendation then considered by the full Boards and Committee. The Boards' and Committee's recommendations will be forwarded to the City Council for Council action. The City Council may appoint or not appoint the recommended applicant. An appointment to fill an unexpired term shall become effective immediately. Other appointments shall become effective as of July 1st or January 1st respectively. In the latter case, then serving Board or Committee members will continue to serve until the effective date of the new appointment. If the City Council does not appoint the recommended applicant, the Boards or Committee shall make another recommended appointment.

- I) The City Council shall not appoint the City Council Salary Setting Commission. Applicants for that Commission shall be interviewed by the Civil Service Commission which will make the appointment (as provided in Charter Section 1912) and the Director of Human Resources shall notify the City Council of the appointment.

11) CITY COUNCIL APPOINTMENTS

- A) Subsequent to the interviews, the City Clerk will immediately notify the Council that the interviews have been conducted and the date the Council will be voting on the appointments. The Council will have the opportunity to view the interviews during the live stream or may view the video stream at any time prior to the date set for Council appointment. Councilmembers shall limit conversation regarding the applicants amongst each other consistent with the Brown Act.
- B) The City Clerk will prepare a staff report relative to the interviews conducted; this report will be placed on a regular meeting agenda for Council consideration on the date indicated to the applicants. The applicants are not required to appear at this meeting unless requested by a Councilmember before the appointment date. Any Councilmember may ask additional questions of the applicant(s) if the applicant has been requested to appear and has appeared at the meeting.
- C) At the meeting at which the City Clerk has prepared a staff report relative to the persons who have been interviewed for an appointment to a Commission, for each Commission on which there is a vacancy or for which a term of office will expire, the City Clerk will provide to the City Council a list of those persons who have been interviewed.
- D) All discussions by the City Council regarding appointments or confirmation of appointments shall be conducted in compliance with the Brown Act. The appointment process shall not require a public hearing; however, persons desiring to comment on the applicants may do so prior to Council action. A Councilmember may ask questions or seek clarification from any applicant present at the meeting before the Council takes action.
- E) If there is at least one more applicant than the number of vacancies from the list(s) so provided to the Council, each Councilmember, including the Mayor, will rank the applicants for each Commission such that the number of applicants that each Councilmember ranks will be one number greater than the number of vacancies and/or the number of Commission members whose terms will be expiring. (This will likely avoid tie votes.) For example, if there is only one vacancy or only one term expiring, the Councilmember's first choice for appointment will be ranked with the number "2" and the Councilmember's second choice with the number "1." If because of a vacancy and/or because of an expiring term, there is more than one appointment to a Commission, the Councilmember will assign to the Councilmember's first choice the higher(est) number and lesser number(s) to the Councilmember's other choice(s). For example, if there were one vacancy and one term expiring, each Councilmember would rank three applicants, assigning the number "3" to the Councilmember's first choice, the number "2" to the Councilmember's second choice and the number "1" to the third choice.
- i) After the Council has ranked the applicants, the City Clerk will tally the rankings and the applicant(s) receiving the highest number(s) would, subject to Council ratification, be appointed. If there is a tie,

then the process described in subsection E above will be repeated only as to the applicants who are tied.

- ii) In instances where there are a vacancy and an expiring term and the term of the vacant office is less than the new term of office, the applicant with the highest number will serve the new term of office and the applicant with the next highest number will serve the lesser term.
- F) If the number of applicants is less than or equal to the number of vacancies, Council may direct staff to open a recruitment or proceed to fill any number of vacancies from the available list of applicants.
- G) Should a vacancy occur within the first year of an appointment, the remainder of the unexpired term may be filled from the current, active pool without running a recruitment.
- H) An appointment to fill an unexpired term shall become effective immediately. Other appointments shall become effective as of July 1st or January 1st, respectively. In the latter case, the serving Commissioners will continue to serve until the effective date of the new appointments.

12) APPOINTMENTS TO THE PLANNING COMMISSION

As to the Planning Commission, where a vacancy exists or a term of office is expiring from a particular Councilmember's District, the Councilmember from that District shall make the appointment subject to City Council approval; for the at-large Planning Commissioner, the Mayor shall make the appointment subject to City Council approval.

13) MAYORAL APPOINTMENTS

As to any appointments made by the Mayor (other than the Mayor's appointment to the Planning Commission), they shall be submitted on the next regular City Council meeting agenda. The City Council shall confirm or not confirm the appointment(s).

14) TERM OF OFFICE

No person shall serve more than two terms on any Commission other than the following: Port Commission; San Joaquin Commission on Aging; San Joaquin County Mosquito/Vector Control Board; and San Joaquin Regional Transit District Board. If a person is appointed to a vacancy and there are more than two years remaining on that term, that shall count as one term.

§ 3.03.010 Policy.

- 1) For any Board, Commission and Committee (hereafter "Commission") that meets ~~regularly~~ more than once a month, a Commissioner's ~~unexcused~~ absence from either three consecutive ~~regular~~ meetings or five or more ~~regular~~ meetings in any 12-month period shall result in the position being vacated, subject to City Council ratification as provided in this section. For any Commission that meets ~~regularly~~ once a month or less frequently, a Commissioner's ~~unexcused~~ absences from 25% or more of the ~~regular~~ meetings in any 12-month period shall result in the position being vacated, subject to City Council ratification as provided in this section. Meetings that are cancelled due to lack of quorum prior to the meeting date will be included in this attendance policy.
- 2) Excused absences shall include illness or other medical reasons, work related conflicts and scheduled vacations when notice is provided at least 30 days in advance. The ~~Chairperson~~ assigned staff support person of the particular Commission shall determine if the absence is excused; provided a commissioner, ~~prior to the meeting, provides reasonable notice in writing~~, including 30 days' notice of scheduled vacation, of the absence ~~to the Chairperson or to the staff person assigned to the Commission. In the case of a Chairperson's absence, the Vice-Chair shall make the determination.~~
- 3) The staff person assigned to the Commission shall record the attendance of Commissioners in a uniform format as shown on Board/Commission/Committee Attendance Report and submit the report to the City Clerk's Office. The Clerk's Office shall provide Attendance Reports to the City Council on a quarterly basis. As to any Commissioner who is ~~required to be a resident of~~ a Councilmember's ~~district direct appointment~~, if the attendance record of that Commissioner is such that additional ~~unexcused~~ absences would result in the position being vacated, the ~~staff person assigned to the Commission Clerk's Office~~ shall notify the Councilmember from that district of the Commissioner's attendance record. If the attendance records indicate that any Commissioner has exceeded the number of ~~unexcused~~ absences as provided in subsection 1 above, the ~~staff person shall~~ Councilmember may direct the Clerk's Office to prepare a report to the City Council so stating and recommending that the City Council ratify that the position has been vacated. The City Council, at a regular meeting, shall consider the recommendation and take whatever action the City Council deems appropriate. If the City Council ratifies that the position has been vacated due to ~~unexcused~~ absences, the staff person shall notify any outside agency on which the Commissioner sat of the Council action.
- 4) The following Boards and Commissions are not directly appointed by City Council and require removal by their appointing bodies:

Stockton Arts Commission

Parks and Recreation Commission

Cultural Heritage Board

Salary Setting Commission

Resolution No.

STOCKTON CITY COUNCIL

A RESOLUTION ADOPTING A REVISED CITY COUNCIL POLICY CHAPTER 3.02 CITY COUNCIL AND MAYORAL APPOINTMENTS TO COMMITTEES, BOARDS, AND COMMISSIONS AND CHAPTER 3.03 ATTENDANCE POLICY FOR APPOINTEES

Chapter 3.02 of the Council Policy Manual addresses the procedures by which members are recruited to Committees, Boards, and Commissions; and

Chapter 3.03 of the Council Policy Manual addresses the procedures by which attendance is monitored for appointed members of Boards and Commissions; and

The Legislation and Environmental Committee voted on May 25, 2024, to forward a recommendation to Council to make changes to improve the recruitment and attendance monitoring process for Boards and Commissions; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. City Council approves the revised City Council Policy 3.02 entitled "City Council and Mayoral Appointments to Committees, Boards, and Commissions;" attached hereto as "Exhibit 1."
2. City Council approves the revised City Council Policy 3.03 entitled "Attendance Policy for Appointees;" attached hereto as "Exhibit 2."
3. The City Manager is hereby authorized to take appropriate and necessary actions to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC,CPMC
Interim City Clerk of the City of Stockton

§ 3.02.010 Policy.

- 1) In 1975 the State Legislature amended Government Code Section 54957 of the Brown Act, removing "public officer" from those appointees that the Council could consider in executive session. This action resulted in the requirement that all discussions and deliberations by the City Council regarding appointments or confirmation of appointments are to take place in public at regular or special meetings of the City Council as opposed to closed executive sessions. This amendment was placed into effect January 1, 1976.
- 2) To comply with this new requirement, the City Council on January 19, 1976 adopted Resolution No. 32,937 establishing procedures for interviewing and confirming appointments in open Council session. The resolution additionally incorporated the existing informal procedures of the City Council regarding such appointments.
- 3) On January 1, 1977, the Maddy Local Appointive List Act of 1975 (Section 54970 et seq. Government Code) became effective requiring, among other things, that:

On or before December 31st of each year, each legislative body shall prepare an appointments list of all regular and ongoing boards, commissions, and committees which are appointed by the legislative body of the local agency. The appointees' list shall contain the following information:

- A) A list of all appointive terms which will expire during the next calendar year, with the name of the incumbent appointee, the date of appointment, the date the term expires, and the necessary qualifications for the position.
- B) A list of all boards, commissions, and committees whose members serve at the pleasure of the legislative body, and the necessary qualifications for each position.
- C) These requirements are contained in this Council policy.
- 4) The purpose of this policy is to establish an orderly process to provide all citizens of Stockton equal access to specific and current information about the many regulatory and advisory boards, commissions, and committees appointed by the City Council and/or the Mayor, to provide for equal opportunity to be informed of vacancies which, from time to time, shall occur, and to provide for open sessions in the interview or confirmation appointment process. Hereafter, for sake of simplicity, all boards, commissions and committees appointed as set forth in the following Policy shall be referred to as "Commission" or "Commissions." A member of a board, commission or committee shall be referred to as a "Commissioner."

- 5) **APPOINTMENTS LIST**

- A) Each year, on or before December 31, the City Clerk shall prepare and provide to the City Council an appointments list of all regular and ongoing Commissions which are appointed by the Stockton City Council, a Stockton City Councilmember or by the Mayor. The appointment list shall set forth the following information:

A list of all current Commission vacancies and of all appointive terms which will expire during the next calendar year with the name of the incumbent appointee, the date of appointment, the date the term expires, and the necessary qualifications for the position.

- B) The appointments list shall be made available to members of the public on the City's website for free or a hard copy for a reasonable fee as indicated on the City's Fee Schedule.

6) VACANCY ANNOUNCEMENTS

Where a vacancy on a Commission exists or where by a Commissioner's term of office will expire, the City Clerk shall announce through the news and social media, and post notice thereof on the City's website and in the Office of the City Clerk, that a vacancy exists or that a term of office will expire. A standing contact list of community partners and organizations will be maintained by the Clerk's Office to facilitate effective outreach. Announcements/postings shall indicate:

- A) Title of the position;
- B) Minimum qualifications;
- C) Special residency requirements, if any;
- D) Frequency of meetings of the Commission;
- E) Remuneration, if any;
- F) Where to submit an application;
- G) Final date for submission of an application; and
- H) Term of office.

7) APPLICATIONS

- A) All applicants for Commission membership, including persons currently serving on a Commission who seek to be reappointed, shall complete and submit a uniform public service application form to the City Clerk's Office prior to the final time and date for submission of the application. An applicant may submit for consideration to more than one Commission, depending on the applicant's qualifications and interest
- B) The City Council may appoint a person then serving on a Commission to serve on a different Commission after taking into account the number of other qualified application seeking appointment and whether the person's appointment to the different Commission is compatible with the person's current Commission service or creates the potential for overlapping subject matter jurisdiction.
- C) The application shall identify the membership on the Commission or Commissions being sought, the applicant's background and qualifications and may include any additional material deemed relevant by the applicant. Additional material will not be accepted after the filing deadline.
- D) The advertisement will remain open until the City Clerk has received one more application than the number of vacancies to be filled or 45 days from the date of the advertisement, whichever comes earlier, at which time the City Clerk will proceed to fill vacancies with the available applicants.
- E) The City Clerk or other staff will review the applications to determine the applicant's compliance with this Policy and any other requirements specified in the Commission's Roster.
- F) The City Clerk's office shall keep applications on file and applications shall be considered active for one year from the date received.
- G) All applications shall be deemed to be public documents and shall be available for public inspection. Nothing herein shall preclude the Mayor or an individual Councilmember from requesting additional or

clarifying information of an applicant prior to the Council's consideration of the applicants for appointment as provided in this Policy.

8) STOCKTON RESIDENCY

Absent specific qualifying requirements to the contrary, all applicants and appointees to Commissions shall be residents of the City of Stockton during the term of their appointment.

9) PROHIBITION OF CITY EMPLOYEES

City Employees Prohibited. Because of potential conflicts between City employment and an employee serving on City Commissions, no City employee, with the exception of the staff person appointed to serve on the Successor Agency to the Redevelopment Agency, shall be appointed to a Commission.

10) APPLICANT INTERVIEWS

- A) Except as provided below, the City department or affected agency that staffs a Commission for which there is a vacancy or for which a term of office will expire during the recruitment period shall prepare interview questions, reviewed and approved by the City Manager's Office, and forward the questions to the City Clerk. To the extent feasible, questions should be open-ended and limited to no more than five key queries. The City department or affected agency that staffs a Commission, in consultation with the City Manager's Office, will determine whether to provide the interview questions to the applicants ahead of the interview itself.
- B) The City Clerk will notify the Council and the applicants regarding the date and time of the interviews. The interviews will be streamed live. This will allow the Council the opportunity to view the interviews live via streamed video or at any time prior to the date on which the Council will make its appointment. The video stream of the interviews will remain on the City's website only until the Council concludes the appointment process.
- C) The City Clerk shall notify all applicants of the time and place of the interviews, the amount of time allowed for the interview and the method by which the Council appointment shall be made. If notifying the candidates by electronic mail, the City Clerk shall also follow up with a phone call to the applicant. Applicants who desire to withdraw from consideration shall notify the City Clerk, preferably in writing.
- D) On the date and time of the interview, applicants will arrive at the designated location, date and time as set by the City Clerk.
- E) Applicants will assemble in the designated location where the City Clerk/designee will provide the applicants with the following information:
 - i) Instructions regarding the interview procedure; and
 - ii) The date and time of the meeting at which the Council will be voting on the appointment; applicants may be asked by the Council to appear at this meeting.
- F) Applicants will be interviewed one at a time. Candidates yet to be interviewed will be instructed to wait in a lobby or other designated location until such time that s/he is invited to the location of the interview. Applicants not present for the interview will automatically be removed from further consideration for that recruitment period.
- G) During the interview, the City Clerk/designee will give the opportunity for the applicant to make a two-minute opening statement; the City Clerk/designee will read each question aloud from the list of prepared questions. Each interview is timed and limited to no more than 10 minutes per applicant.

Applicants will be excused at the end of the interview.

- H) Interviews for applicants to the Central Parking District Authority Board, Cultural Heritage Board and Public Art Advisory Committee shall be conducted by committees of the respective Boards or Committee and the committee's recommendation then considered by the full Boards and Committee. The Boards' and Committee's recommendations will be forwarded to the City Council for Council action. The City Council may appoint or not appoint the recommended applicant. An appointment to fill an unexpired term shall become effective immediately. Other appointments shall become effective as of July 1st or January 1st respectively. In the latter case, then serving Board or Committee members will continue to serve until the effective date of the new appointment. If the City Council does not appoint the recommended applicant, the Boards or Committee shall make another recommended appointment.
- I) The City Council shall not appoint the City Council Salary Setting Commission. Applicants for that Commission shall be interviewed by the Civil Service Commission which will make the appointment (as provided in Charter Section 1912) and the Director of Human Resources shall notify the City Council of the appointment.

11) CITY COUNCIL APPOINTMENTS

- A) Subsequent to the interviews, the City Clerk will immediately notify the Council that the interviews have been conducted and the date the Council will be voting on the appointments. The Council will have the opportunity to view the interviews during the live stream or may view the video stream at any time prior to the date set for Council appointment. Councilmembers shall limit conversation regarding the applicants amongst each other consistent with the Brown Act.
- B) The City Clerk will prepare a staff report relative to the interviews conducted; this report will be placed on a regular meeting agenda for Council consideration on the date indicated to the applicants. The applicants are not required to appear at this meeting unless requested by a Councilmember before the appointment date. Any Councilmember may ask additional questions of the applicant(s) if the applicant has been requested to appear and has appeared at the meeting.
- C) At the meeting at which the City Clerk has prepared a staff report relative to the persons who have been interviewed for an appointment to a Commission, for each Commission on which there is a vacancy or for which a term of office will expire, the City Clerk will provide to the City Council a list of those persons who have been interviewed.
- D) All discussions by the City Council regarding appointments or confirmation of appointments shall be conducted in compliance with the Brown Act. The appointment process shall not require a public hearing; however, persons desiring to comment on the applicants may do so prior to Council action. A Councilmember may ask questions or seek clarification from any applicant present at the meeting before the Council takes action.
- E) If there is at least one more applicant than the number of vacancies from the list(s) so provided to the Council, each Councilmember, including the Mayor, will rank the applicants for each Commission such that the number of applicants that each Councilmember ranks will be one number greater than the number of vacancies and/or the number of Commission members whose terms will be expiring. (This will likely avoid tie votes.) For example, if there is only one vacancy or only one term expiring, the Councilmember's first choice for appointment will be ranked with the number "2" and the Councilmember's second choice with the number "1." If because of a vacancy and/or because of an expiring term, there is more than one appointment to a Commission, the Councilmember will assign to the Councilmember's first choice the higher(est) number and lesser number(s) to the Councilmember's other choice(s). For example, if there were one vacancy and one term expiring, each Councilmember would rank three applicants, assigning the number "3" to the Councilmember's first choice, the number "2" to the Councilmember's second choice and the number "1" to the third choice.

- i) After the Council has ranked the applicants, the City Clerk will tally the rankings and the applicant(s) receiving the highest number(s) would, subject to Council ratification, be appointed. If there is a tie, then the process described in subsection E above will be repeated only as to the applicants who are tied.
- ii) In instances where there are a vacancy and an expiring term and the term of the vacant office is less than the new term of office, the applicant with the highest number will serve the new term of office and the applicant with the next highest number will serve the lesser term.
- F) If the number of applicants is less than or equal to the number of vacancies, Council may direct staff to open a recruitment or proceed to fill any number of vacancies from the available list of applicants.
- G) Should a vacancy occur within the first year of an appointment, the remainder of the unexpired term may be filled from the current, active pool without running a recruitment.
- H) An appointment to fill an unexpired term shall become effective immediately. Other appointments shall become effective as of July 1st or January 1st, respectively. In the latter case, the serving Commissioners will continue to serve until the effective date of the new appointments.

12) APPOINTMENTS TO THE PLANNING COMMISSION

As to the Planning Commission, where a vacancy exists or a term of office is expiring from a particular Councilmember's District, the Councilmember from that District shall make the appointment subject to City Council approval; for the at-large Planning Commissioner, the Mayor shall make the appointment subject to City Council approval.

13) MAYORAL APPOINTMENTS

As to any appointments made by the Mayor (other than the Mayor's appointment to the Planning Commission), they shall be submitted on the next regular City Council meeting agenda. The City Council shall confirm or not confirm the appointment(s).

14) TERM OF OFFICE

No person shall serve more than two terms on any Commission other than the following: Port Commission; San Joaquin Commission on Aging; San Joaquin County Mosquito/Vector Control Board; and San Joaquin Regional Transit District Board. If a person is appointed to a vacancy and there are more than two years remaining on that term, that shall count as one term.

§ 3.03.010 Policy.

- 1) For any Board, Commission and Committee (hereafter "Commission") that meets more than once a month, a Commissioner's absence from either three consecutive meetings or five or more meetings in any 12-month period shall result in the position being vacated, subject to City Council ratification as provided in this section. For any Commission that meets once a month or less frequently, a Commissioner's absences from 25% or more of the meetings in any 12-month period shall result in the position being vacated, subject to City Council ratification as provided in this section. Meetings that are cancelled due to lack of quorum prior to the meeting date will be included in this attendance policy.
- 2) Excused absences shall include illness or other medical reasons, work related conflicts and scheduled vacations when notice is provided at least 30 days in advance. The assigned staff support person of the particular Commission shall determine if the absence is excused; provided a commissioner provides reasonable notice in writing, including 30 days' notice of scheduled vacation, of the absence to the staff person assigned to the Commission.
- 3) The staff person assigned to the Commission shall record the attendance of Commissioners in a uniform format as shown on Board/Commission/Committee Attendance Report and submit the report to the City Clerk's Office. The Clerk's Office shall provide Attendance Reports to the City Council on a quarterly basis. As to any Commissioner who is a Councilmember's direct appointment, if the attendance record of that Commissioner is such that absences would result in the position being vacated, the Clerk's Office shall notify the Councilmember from that district of the Commissioner's attendance record. If the attendance records indicate that any Commissioner has exceeded the number of absences as provided in subsection 1 above, the Councilmember may direct the Clerk's Office to prepare a report to the City Council so stating and recommending that the City Council ratify that the position has been vacated. The City Council, at a regular meeting, shall consider the recommendation and take whatever action the City Council deems appropriate. If the City Council ratifies that the position has been vacated due to absences, the staff person shall notify any outside agency on which the Commissioner sat of the Council action.
- 4) The following Boards and Commissions are not directly appointed by City Council and require removal by their appointing bodies:

Stockton Arts Commission

Parks and Recreation Commission

Council Cultural Heritage Board

Salary Setting Commission

DISCUSSION REGARDING CAMPING ON CITY PROPERTY (*GRANTS PASS DECISION*)

RECOMMENDATION

Informational only; no action to be taken.

Summary

In 2019, the Ninth Circuit decided *Martin v. Boise* 920 F.3d 584 (2019). Martin involved an ordinance in Boise that made it a misdemeanor to use “streets, sidewalks, parks, or public places” for “camping.” The Ninth Circuit held that “the Eighth Amendment prohibits the imposition of criminal penalties for sitting, sleeping, or lying outside on public property for homeless individuals who cannot obtain shelter.” Boise (and all other local governments in the Ninth Circuit), therefore could not enforce public-camping ordinances against homeless individuals who lacked “access to alternative shelter.”

Grants Pass, a city in Oregon passed several ordinances after the Martin decision related to the regulation of sleeping outside, which taken together made it nearly impossible to sleep outside with any form of bedding or shelter on public land in the city. A violation of these ordinances resulted in fines, which would escalate if left unpaid. Two homeless individuals in Grants Pass filed a class action lawsuit on behalf of those that are “involuntarily homeless” against the city, arguing its ordinances are unconstitutional under the Eighth Amendment’s Cruel and Unusual Punishment Clause.

The Ninth Circuit affirmed the district court’s holding that “the anti-camping ordinances violated the Cruel and Unusual Punishment Clause to the extent they prohibited homeless individuals from ‘taking necessary minimal measures to keep themselves warm and dry while sleeping when there are no alternative forms of shelter available.’”

Grants Pass filed a petition for certiorari which was granted. Ultimately, the Supreme overturned *Martin v. Boise*, holding that anti-camping ordinances do not violate the Eighth Amendment to the Constitution.

DISCUSSION

Background

Grants Pass, a city in Oregon with a population of 38,000 people, of whom approximately 600 are individuals experiencing homelessness, passed several ordinances after the Martin decision related to the regulation of sleeping outside, which taken together made it nearly impossible to sleep outside with any form of bedding or shelter on public land in the city.

A violation of these ordinances resulted in fines, which would escalate if left unpaid. The “park exclusion” ordinance allowed police officers to bar someone from a city park for 30 days if they received 2 more citations for violating park ordinances within one year. If someone received a park exclusion ordinance and was later found in a park, that could result in criminal trespass. The city amended its camping ordinance after Martin to make it clear that the involuntary act of sleeping in a park was not prohibited, rather what was prohibited was “camping” - i.e., sleeping with any bedding / shelter.

Two homeless individuals in Grants Pass filed a class action lawsuit on behalf of those that are “involuntarily homeless” against the city, arguing its ordinances are unconstitutional under the Eighth Amendment’s Cruel and Unusual Punishment Clause. The Ninth Circuit upheld the district court’s class certification of all “involuntarily homeless” in Grants Pass. The Ninth Circuit also affirmed the district court’s holding that “the anti-camping ordinances violated the Cruel and Unusual Punishment Clause to the extent they prohibited homeless individuals from ‘taking necessary minimal measures to keep themselves warm and dry while sleeping when there are no alternative forms of shelter available.’” Although the city had four temporary shelters, none were “adequate” for the city’s homeless population.

Present Situation

Grants Pass filed a petition for certiorari and many cities and counties from across the Ninth Circuit and country joined Grants Pass in urging the Court to grant review, which the Court granted. On June 28, 2024, the Supreme Court issued a 6-3 decision overturning *Martin v. Boise*, holding that anti-camping ordinances do not violate the Eighth Amendment to the Constitution.

The Court explained the “Constitution’s Eighth Amendment serves many important functions, but it does not authorize federal judges to wrest ... [the] rights and responsibilities from the American people” to decide “how best to handle a pressing social question like homelessness” and “in their place dictate this Nation’s homelessness policy.” The decision also highlighted the complexities of the homeless crisis and noted that five years ago, the Ninth Circuit “took one of [the] tools [needed to address homelessness] off the table” in *Martin v. Boise*, 920 F. 3d 584 (2019).

In its 6-3 opinion, the Supreme Court reversed the Ninth Circuit’s “Martin experiment.” In doing so, the Court explained that the Eighth Amendment’s Cruel and Unusual Punishment Clause addresses “the method or kind of punishment a government may impose for the violation of criminal statutes.”

Ultimately, the Court found that public camping laws like the one in Grants Pass do not criminalize status, but instead make certain actions a crime, and the crime applies to any defendant, as the Court puts it, whether the person is homeless or a backpacker on vacation. The Court also noted that *Martin* exemplifies much of what can go wrong when courts try to resolve matters without secure guidance in the Constitution.

In other words, the Court recognized that the problem of homelessness is complex and that its decision would return the hard task of solving the homelessness crisis to state and local policymakers, where it belongs. Rather than spending significant time, money, and resources litigating *Martin* claims, local governments can focus on expending resources to help the homeless community while ensuring their public spaces are safe and clean in a manner consistent with local needs.

To that end, the City's efforts to expand services for the unsheltered and address the ongoing root causes of homelessness will continue with an eye toward review and revision of existing ordinances as needed to further these efforts.

One example of these efforts is the Clean City Initiative which advances new and existing programs to reduce trash accumulation and illegal dumping across the city.

The initiative is a collaborative effort between the City Manager's Office, Public Works Department, Stockton Police Department, Republic Services, Waste Manage, and community volunteers. The initiative is comprised of activities including recycling events, community cleanup events, and encampment cleanups. A summary of activity is provided below:

Event	2021	2022	2023
Drive Thru Recycling	2,627 vehicles served	2,028 vehicles served	1,312 vehicles served
Community Cleanup	21 events, 575 volunteers, 458 bags of litter	11 events, 409 volunteers, 38 trees planted, 65 litter bags collected	18 events, 457 volunteers, 72 trees planted, 198 litter bags collected
Neighborhood Services Events	449 mattresses, 179 tires, 113 e-waste, 69.2 tons of trash, 224 appliances	115 mattresses, 169 tires, 112 e-waste, 76.8 tons of trash, 107 appliances	72 mattresses recycled, 98 tires, 3 tons of e-waste, 47 tons of trash, 82 appliances
Homeless Encampment Cleanup	28 events, 897 truckloads, 1,485 tons of waste removed	26 events, 690 truckloads, 1,216 tons of waste removed	24 events, 583 truckloads, 1,238 tons of waste removed

Another example is the City's ongoing effort to facilitate and support the creation of affordable housing and shelter space. To that end, the following chart depicts completed or scheduled to be completed housing and shelter projects in 2024:

Housing Project	Developer	Units	Timeframe
Villa D Flore	Visionary	12	August
Grand View Village	Visionary	74	Opened in Feb.
Calaveras Quarters	Housing Authority	69	October
Sonora Square	Housing Authority	37	Opened in Spring
Town Center Studios	Central Valley	20 (of 40)	Opened in July

Homeless Beds	Developer	Beds	Timeframe
Navigation Center	City of Stockton	150	Fall 2024
Pathways	St. Mary's	280	December 2024/January 2025

FINANCIAL SUMMARY

Homelessness/Housing Spending

- **2020:**
 - Total Allocated Funds: \$15,845,000 (State/Federal funds)

Legislation Text

File #: 24-0564, Version: 1

AUTHORIZE THE ISSUANCE AND SALE OF STOCKTON PUBLIC FINANCING AUTHORITY WASTEWATER REVENUE REFUNDING BONDS (WASTEWATER REFUNDING PROJECT), SERIES 2024 (THE “2024 BONDS”) TO ACHIEVE SAVINGS BY REFUNDING THE OUTSTANDING WASTEWATER REVENUE REFUNDING BONDS, SERIES 2014

RECOMMENDATION

Staff recommends the City of Stockton and the Stockton Public Financing Authority authorize the issuance and sale of the 2024 Bonds, in a principal amount not-to-exceed \$32,000,000, to refund the remaining Wastewater Revenue Refunding Bonds, Series 2014 (the “2014 Bonds”), of which \$34,710,000 is currently outstanding and \$29,620,000 will be outstanding after September 1, 2024.

Resolution of the City of Stockton: This Resolution authorizes the form of and the execution and delivery of an Installment Purchase Contract, Bond Purchase Contract, Continuing Disclosure Certificate and Official Statement all relating to the issuance of the 2024 Bonds and approving certain actions in connection therewith.

Resolution of the Stockton Public Financing Authority: This Resolution authorizes the issuance and sale of the 2024 Bonds in an aggregate principal amount not to exceed \$32,000,000; approves the form of and authorizes the execution and delivery of an Indenture, an Installment Purchase Contract, a Bond Purchase Contract, and an Official Statement all relating to the issuance of the 2024 Bonds and approving certain actions in connection therewith.

The Resolutions also approve the execution of all documents and other actions related to the issuance of the 2024 bonds and that the Chair of the Authority (Mayor), Executive Director of the Authority (City Manager), Treasurer of the Authority (Chief Financial Officer) or their designee be authorized to take appropriate and necessary actions to carry out the purpose and intent of the Resolutions (Exhibits 1-5 to both resolutions).

Summary

In October 2014, the Stockton Public Financing Authority issued Wastewater Revenue Refunding Bonds, Series 2014 (the “2014 Bonds”) in the original amount of \$69,440,000 of which \$34,710,000 is currently outstanding and \$29,620,000 will be outstanding after September 1, 2024. The 2014 Bonds refunded two previously outstanding issues from 1998 and 2003.

The purpose of the refunding is to generate significant annual debt service savings for the City’s wastewater system. The savings are currently estimated at \$227,225 per year from fiscal year 2026 to fiscal year 2030 for an estimated 3.56% in net present value savings.

Staff is further seeking a potential waiver of the City's Capital Financing and Debt Management Policy Chapter 17.01.040 (the "Policy"). The refunding currently meets the net present value savings threshold under the Policy; however, since this is most likely the last opportunity to refund the 2014 Bonds, staff would prefer to set a minimum cash flow savings target of \$150,000 per year from fiscal year 2026 to fiscal year 2030. However, this lower minimum cash flow target equates to an estimated 2.38% in net present value savings, which is below the minimum established under the Policy.

DISCUSSION

Background

In October 2014, the Stockton Public Financing Authority issued Wastewater Revenue Refunding Bonds, Series 2014 (the "2014 Bonds") in the original amount of \$69,440,000, of which \$34,710,000 is currently outstanding and \$29,620,000 will be outstanding after September 1, 2024. The 2014 Bonds have a final maturity of September 1, 2029 (FY 2030), and are first callable on September 1, 2024, and any date thereafter, without prepayment penalty. The 2014 Bonds refunded the following outstanding issues:

- (1) City of Stockton, Revenue Certificates of Participation, 1998 Series A (Wastewater System Project)
- (2) City of Stockton Refunding Certificates of Participation, 2003 Series A (Wastewater System Project)

Staff seeks approval of the City Council and the Board of the Stockton Public Financing Authority ("Authority") to issue the 2024 Bonds to refund the 2014 Bonds. The purpose of the refunding is to generate significant annual debt service savings for the City's wastewater system. Total savings are currently estimated to be \$1.17 million with average annual savings estimated at \$227,225 per year from fiscal year 2026 to 2030 for an estimated 3.56% in net present value savings.

The City's "Capital Financing and Debt Management Policy Chapter 17.01.040 Section VII Refinancing Outstanding Debt" sets a minimum net present value savings threshold goal of percent (3%) of the refunded bonds principal amount, net of all costs related to the refunding. As bonds get paid every year and the remaining term is shortened, the less the potential cash flow savings and the potential net present value benefit of doing a refunding. Given the short remaining term of the 2014 bonds, September 1, 2029 (FY 2030), it is unlikely the City will have another opportunity to refund the 2014 Bonds again, unless it does so as part of this action.

Staff would like to take advantage of this final opportunity and set a minimum annual savings target of \$150,000 per year from fiscal year 2026 to fiscal year 2030. The total savings under this scenario would be \$791,810 with an estimated net present value savings of 2.38%. While the current net present value savings are estimated to be 3.56% (within the range of the current policy) and cash flow savings are estimated at \$227,225 per year from fiscal year 2026 to 2030, staff would still like to take advantage of this opportunity with \$150,000 cash flow savings per year seen as minimally significant to the City's wastewater fund.

Therefore, staff recommends approval of the resolutions as proposed and a waiver from the Policy should the net present value savings percentage drop below 3.00%, by implementing “Section XVI: Exceptions To These Policies”:

“The City may find in limited and exceptional instances that a waiver to any of the above stated policies is warranted given identified special City benefits to be derived from such waiver. Such waivers may be granted by the City Manager or CFO with the approval of the City Attorney, if provisions waived are not material, and shall be granted only by action of the City Council if as to material provisions and shall be based upon stated policies as warranted given identified special City benefits to be derived from such specific public purpose, economic and/or health and safety findings.”

Present Situation

The 2024 Bonds, after the refunding, will be on parity (have equal rights to the system net revenue) with the other outstanding obligations of the City’s wastewater fund:

Water Infrastructure Finance and Innovation Act (“WIFIA”) (Loan Number: N18126CA)

Principal Payments: September 1, 2030 to September 1, 2051
Remaining Amount: \$108,000,000
Interest Rate: 1.20%
Purpose: Repaid Bond Anticipation Notes sold to fund a portion of the Regional Wastewater Control Facilities Modification Project

California Department of Water Resources (SRF Loan Number: D2001045)

Principal Payments: December 31, 2024 to December 31, 2051
Remaining Amount: \$46,800,000
Interest Rates: 0.90%
Purpose: Used to pay project costs associated with the Regional Wastewater Control Facilities Modification Project

Assuming market interest rates as of May 14, 2024, staff estimates the proposed refunding will result in the following estimated savings assuming the acquisition of bond insurance and a surety for the reserve fund:

Outstanding 2014 Bonds ⁽¹⁾	\$29,620,000
Principal Amount of the 2024 Bonds	\$28,615,000
2014 Bonds Total Debt Service	\$34,211,250
2024 Bonds Total Debt Service	\$33,038,077
Total Savings	\$1,173,173
Average Annual Savings ⁽²⁾	\$227,225
Net Present Value (“NPV”) Savings	\$1,055,707
NPV Savings Percentage ⁽³⁾	3.56%
Final Maturity ⁽⁴⁾	September 1, 2029 (FY 2030)

Notes

- (1) Amount Outstanding After September 1, 2024
- (2) From Fiscal Year 2026 to Fiscal Year 2030
- (3) As a Percentage of the Principal Amount of Bonds Refunded
- (4) Same Final Maturity as the 2014 Bonds (No Extension of Term)

Financing Team

Along with City staff, the financing team (the “Financing Team”) includes Hawkins Delafield & Wood LLP as Bond and Disclosure Counsel as a member of the authorized Bond Counsel Pool, and Hilltop Securities and Oppenheimer & Co. Inc. as the Underwriters, both as members of the authorized Underwriter Pool. Other members of the Financing Team include Del Rio Advisors, LLC, Municipal Advisor to the City and Authority as a member of the authorized Municipal Advisor Pool, and U.S. Bank Trust Company, National Association as Trustee / Paying Agent.

Documents for Review

There are several documents to be approved as part of the Resolutions to authorize the issuance and sale of the 2024 Bonds:

2024 Indenture: An agreement between the Authority and U.S. Bank Trust Company, National Association (“U.S. Bank”) as Trustee. This document governs all the terms and conditions of the 2024 Bonds including the role of U.S. Bank as Trustee, the principal payments along with the interest rates on the individual maturities, the redemption provisions of the 2024 Bonds, establishes the funds and accounts for the 2024 Bonds, establishes the City obligations for continuing disclosure reporting, arbitrage rebate and annual CDIAC reporting, and remedies for bondholders in an event of default.

2024 Installment Purchase Contract: An agreement between the Authority (seller) and the City (purchaser) whereby the City will purchase from the Authority the Wastewater System improvements funded with proceeds of the 2014 Bonds. In exchange, the City agrees to make installment payments to the Authority. The installment payments are equal to the debt service on the 2024 Bonds.

Official Statement (Including the Continuing Disclosure Certificate): The Official Statement is the primary document used by the Underwriter to market the 2024 Bonds to investors. The official statement describes the 2024 Bonds in detail and all the information used by investors to make an informed purchase decision. The official statement, in the preliminary form presented, is deemed final pursuant to Rule 15c-2-12 under the Securities Exchange Act of 1934.

The Resolution permits staff to make updates as needed for a final version, which will primarily be to reflect actual interest rates when they are finally determined, and the final version will be made publicly available. The Continuing Disclosure Certificate, included as an attachment to the Official Statement, describes covenants of the City to provide required ongoing disclosure to investors in the form of an annual report due by the end of March each year and posted to the electronic platform known as the Electronic Municipal Market Access system (“EMMA”). In addition, the City covenants, when they occur, will provide notices of certain events as listed therein.

A final Official Statement will be made available shortly after the 2024 Bonds are sold; it will be identical to the preliminary Official Statement except that it will reflect the final bond sale information. A table of contents of the preliminary official statement identifies critical topics such as the plan of finance, security for the bonds, the continuing disclosure requirements, form of the 2024 Indenture and the 2024 Installment Purchase Contract and the opinion of Bond Counsel.

The distribution of the preliminary Official Statement and the final Official Statement is subject to federal securities laws, including the Securities Act of 1933 and the Securities Exchange Act of 1934. These laws require that the Official Statement include all facts that would be material to an investor purchasing the 2024 Bonds. Material information exists where there is a substantial likelihood that the information would have actual significance in the deliberations of the reasonable investor when deciding whether to buy or sell securities. The Securities and Exchange Commission (SEC), the agency with regulatory authority over compliance with the federal securities laws, has indicated that if a member of a legislative body, like the City Council, has knowledge of any material facts or circumstances that an investor would want to know prior to investing in securities, similar to the 2024 Bonds, whether relating to their repayment, tax-exempt status, undisclosed conflicts of interest with interested parties, or otherwise, he or she should endeavor to discover whether such facts are adequately disclosed in the preliminary Official Statement. The steps that a member of the City Council could take to fulfill this obligation include becoming familiar with the preliminary Official Statement and questioning City staff and other members of the Financing Team about it.

Bond Purchase Contract: An agreement between the City, the Authority and the Underwriter, pursuant to which the Underwriter agrees to purchase the 2024 Bonds from the Authority, on the terms and conditions set forth therein. It provides certain conditions for closing that must be met prior to the closing and funding of the 2024 Bonds and will be executed on the date of pricing.

Financing Schedule

If the refunding is approved tonight, the Financing Team expects the following schedule to sell and close the 2024 Bonds:

Date	Action
Tuesday July 9 th	City Council / Authority Board Meeting
Week of July 29 th	Print and Post the Preliminary Official Statement
Wednesday August 14 th	Sell the Bonds
Weeks of August 19 th and August 26 th	Print and Post Final Official Statement Documents Executed
Wednesday September 4 th	Transaction Closes

FINANCIAL SUMMARY

There is no impact on the City's General Fund or any other unrestricted fund because of taking the recommended action.

The total estimated costs of issuance of \$503,936 includes estimated fixed costs of \$178,763, estimated underwriter's discount in the amount of \$140,214, the estimated cost of a bond insurance policy of \$99,114 and the estimated cost to purchase a surety bond for the reserve fund of \$85,845.

The refunding will free up approximately \$227,225 per year from fiscal year 2026 to fiscal year 2030. These are dollars that the wastewater utility can use to meet operational needs.

Resolution No.

STOCKTON PUBLIC FINANCING AUTHORITY

RESOLUTION AUTHORIZING THE ISSUANCE AND SALE OF STOCKTON PUBLIC FINANCING AUTHORITY WASTEWATER REVENUE REFUNDING BONDS (WASTEWATER REFUNDING PROJECT), DESIGNATED AS “SERIES 2024,” IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED \$32,000,000; APPROVING THE FORM OF AND AUTHORIZING THE EXECUTION AND DELIVERY OF AN INDENTURE, AN INSTALLMENT PURCHASE CONTRACT, A BOND PURCHASE CONTRACT AND AN OFFICIAL STATEMENT RELATING TO THE BONDS; AND APPROVING CERTAIN ACTIONS IN CONNECTION THEREWITH

The City of Stockton (the “City”) and the former Redevelopment Agency of the City of Stockton entered into a Joint Exercise of Powers Agreement establishing the Stockton Public Financing Authority (the “Authority”), a California joint exercise of powers entity duly organized and existing under and pursuant to Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (commencing with section 6500), as amended, to provide financial assistance to the City; and

The City and the Authority previously entered into an Installment Purchase Contract, dated as of October 1, 2014 (the “2014 Installment Purchase Contract”), whereby the Authority agreed to sell certain improvements to the City’s wastewater system (the “Prior Projects”) to the City and the City agreed to purchase such improvements from the Authority; and

In connection with the 2014 Installment Purchase Contract, the Authority entered into an Indenture, dated as of October 1, 2014, by and between Computershare Trust Company, N.A. as successor to Wells Fargo Bank, National Association, as successor trustee, and the Authority and, in connection therewith, the Authority issued its Wastewater Revenue Refunding Bonds, Series 2014 (1998 Wastewater Project and 2003 Wastewater Project) in the aggregate principal amount of \$69,440,000 (the “2014 Bonds”) in October of 2014; and

The City now desires to refinance the Prior Projects by refunding the obligations of the City under the 2014 Installment Purchase Contract, and the Authority has determined to assist the City in the foregoing by prepaying all of the outstanding 2014 Bonds; and

To provide funds for the refinancing of the Prior Projects, the Authority desires to issue bonds tentatively designated as its Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “2024 Bonds”); and

The Authority and the City desire to authorize the 2024 Bonds or any portion thereof to be sold in a public offering; and

The Authority and the City desire that the 2024 Bonds may be sold and issued in such series or subseries as may be necessary or desirable to effectuate the foregoing; and

In order to provide for the authentication and delivery of the 2024 Bonds, to establish and declare the terms and conditions upon which the 2024 Bonds are to be issued and secured and to secure the repayment thereof, it is proposed that the Authority and U.S. Bank Trust Company, National Association, as trustee (the "Trustee") enter into an Indenture (the "Indenture"); and

In order to implement the foregoing, the City and the Authority propose to enter into an Installment Purchase Contract (the "Installment Purchase Contract"); and

Under the Installment Purchase Contract, the City will be obligated to make installment payments to the Authority for the refinancing of the Prior Projects; and

Pursuant to section 5852.1 of the Government Code of the State of California, the Authority has received certain representations and good faith estimates from Hilltop Securities, LLC, an underwriter of the 2024 Bonds, including an estimate of costs associated with the issuance of the Bonds and the Authority has disclosed such good faith estimates as set forth on Exhibit 1 attached hereto; now, therefore,

BE IT RESOLVED BY THE STOCKTON PUBLIC FINANCING AUTHORITY, AS FOLLOWS:

Section 1. The method of refinancing the Prior Projects through the issuance by the Authority of the 2024 Bonds in the aggregate principal amount of not to exceed \$32,000,000, is hereby approved.

Section 2. The issuance of the 2024 Bonds in the aggregate principal amount of not to exceed \$32,000,000 on the terms and conditions set forth in and subject to the limitations specified in the Indenture, is hereby authorized and approved. The 2024 Bonds are authorized to be executed for and in the name and on behalf of the Authority by the manual or facsimile signature of the Chair or Executive Director of the Authority and attested to by the manual or facsimile signature of the Secretary of the Authority. The 2024 Bonds, when so executed and attested, are authorized to be delivered to the Trustee for authentication. The 2024 Bonds may be sold and issued in such series or subseries as may be necessary or desirable to effectuate the purposes of this resolution.

Section 3. The form of the Indenture (attached as Exhibit 2), a copy of which is on file in the office of the Secretary of the Authority or his or her designee (the "Secretary") and submitted to this meeting, is hereby approved. The Chair, the Executive Director, any Deputy City Manager of the City on behalf of the Executive Director, and the Treasurer and the designees of any of them (each, an "Authorized Officer"), each acting

alone, are hereby authorized and directed, for and in the name of and on behalf of the Authority, to execute the Indenture, and the Secretary is authorized to attest thereto, with such additions and changes therein as the Authorized Officer executing the same shall approve, with the advice of counsel, as being in the best interests of the Authority, such approval to be conclusively evidenced by the execution and delivery thereof.

Section 4. The form of the Installment Purchase Contract (attached as Exhibit 3), a copy of which is on file in the office of the Secretary and submitted to this meeting, is hereby approved. The Authorized Officers, each acting alone, are hereby authorized and directed, for and in the name of and on behalf of the Authority, to execute the Installment Purchase Contract, and the Secretary is authorized to attest thereto, with such additions and changes therein as the Authorized Officer executing the same shall approve, with the advice of counsel, as being in the best interests of the Authority, such approval to be conclusively evidenced by the execution and delivery thereof; provided, that the installment payments to be contained in the Installment Purchase Contract shall be determined or approved by the Treasurer of the Authority or the designee thereof (the "Treasurer") upon the sale of the 2024 Bonds, but the principal portions thereof shall not exceed \$32,000,000 in aggregate principal amount and the final installment payments shall be due not later than September 1, 2029.

Section 5. The form of a Bond Purchase Contract (attached as Exhibit 4) relating to the sale of the 2024 Bonds (the "Bond Purchase Contract"), among Hilltop Securities Inc., on behalf of itself and as representative (the "Representative") of Oppenheimer & Co. Inc. of the underwriters of the 2024 Bonds (the "Underwriters"), the Authority and the City, a copy of which is on file in the office of the Secretary and submitted to this meeting, is hereby approved. The Authorized Officers, each acting alone, are hereby authorized and directed, for and in the name and on behalf of the Authority, to execute and deliver the Bond Purchase Contract, and the Secretary is authorized to attest thereto, with such additions and changes therein as the Authorized Officer executing the same shall approve, with the advice of counsel, as being in the best interests of the Authority, such approval to be conclusively evidenced by the execution and delivery thereof; provided, that the debt service savings achieved from the refunding of the 2014 Bonds shall be at least \$150,000 per year.

Section 6. The form of a preliminary official statement (attached as Exhibit 5) relating to the 2024 Bonds (the "Preliminary Official Statement"), a copy of which is on file in the office of the Secretary and submitted to this meeting, is hereby approved, with such additions and changes as may be approved, with the advice of counsel, by any Authorized Officer. The Authorized Officers, each acting alone, are hereby authorized on behalf of the Authority to the Underwriters of the 2024 Bonds that the Preliminary Official Statement is deemed "final" (as it relates to the Authority) for the purposes of Rule 15c2-12 promulgated under the Securities Exchange Act of 1934 (the "Rule") (except for the omission of certain final pricing, rating and related information as permitted by the Rule). The Authorized Officers, each acting alone, are hereby authorized and directed to execute and deliver to the Authority and, the Underwriters a final Official Statement (the "Official Statement") in substantially the form of the Preliminary Official Statement, with such additions and changes as the Authorized Officer executing the same shall approve,

with the advice of counsel, as being in the best interests of the Authority, such approval to be conclusively evidenced by the execution of said Official Statement. The printing, delivery and distribution of the Preliminary Official Statement and the Official Statement are hereby approved, and the Underwriters of the 2024 Bonds are hereby authorized to distribute copies of the Preliminary Official Statement and the Official Statement to persons who may be interested in the purchase of the 2024 Bonds and are directed to deliver copies of the Official Statement to all purchasers of the 2024 Bonds.

Section 7. The Authorized Officers, each acting alone, are hereby authorized and directed to take all actions and execute any and all documents necessary or advisable to arrange for the insuring of all or a portion of the 2024 Bonds or to obtain a debt service reserve fund insurance policy or surety bond, or to obtain any other form of credit enhancement or debt service reserve fund facility, if, upon the advice of the Authority's municipal advisor, such insurance, surety bond, other credit enhancement or other reserve fund facility will result in a lower true interest cost for the 2024 Bonds.

Section 8. All actions heretofore taken by any officers, employees or agents of the Authority with respect to the issuance, delivery or sale of the 2024 Bonds, or in connection with or related to any of the documents referenced herein or the refinancing of the Prior Projects, are hereby approved, confirmed and ratified; and the Authorized Officers are hereby authorized and directed, for and in the name and on behalf of the Authority, to do any and all things and take any and all actions and execute and deliver any and all certificates, agreements and other documents (including but not limited to a Tax Certificate and Agreement and escrow agreement), which they, or any of them, may deem necessary or advisable in order to consummate the lawful issuance and delivery of the 2024 Bonds and the disbursement of proceeds thereof in accordance with this Resolution.

Section 9. In connection with the 2024 Bonds, the Authority hereby appoints and retains Del Rio Advisors, LLC as Municipal Advisor and Hawkins Delafield & Wood LLP as Bond Counsel and Disclosure Counsel. Hilltop Securities Inc. is appointed as Representative of the Underwriters and Oppenheimer & Co. Inc. is appointed as co-manager for the 2024 Bonds.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION AUTHORIZING THE FORM OF AND AUTHORIZING THE EXECUTION AND DELIVERY OF AN INSTALLMENT PURCHASE CONTRACT, BOND PURCHASE CONTRACT, CONTINUING DISCLOSURE CERTIFICATE AND OFFICIAL STATEMENT RELATING TO AN INSTALLMENT PURCHASE FINANCING AND APPROVING CERTAIN ACTIONS IN CONNECTION THEREWITH

The City of Stockton (the “City”) and the former Redevelopment Agency of the City of Stockton entered into a Joint Exercise of Powers Agreement establishing the Stockton Public Financing Authority (the “Authority”), a California joint exercise of powers entity duly organized and existing under and pursuant to Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (commencing with section 6500), as amended, to provide financial assistance to the City; and

The City and the Authority previously entered into an Installment Purchase Contract, dated as of October 1, 2014, (the “2014 Installment Purchase Contract”), whereby the Authority agreed to sell certain improvements to the City’s wastewater system (the “Prior Projects”) to the City and the City agreed to purchase such improvements from the Authority; and

In connection with the 2014 Installment Purchase Contract, the Authority entered into an Indenture, dated as of October 1, 2014, by and between Computershare Trust Company, N.A. as successor to Wells Fargo Bank, National Association, as successor trustee, and the Authority and, in connection therewith, the Authority issued its Wastewater Revenue Refunding Bonds, Series 2014 (1998 Wastewater Project and 2003 Wastewater Project) in the aggregate principal amount of \$69,440,000 (the “2014 Bonds”) in October of 2014; and

The City now desires to refinance the Prior Projects by refunding the obligations of the City under the 2014 Installment Purchase Contract, and the Authority has determined to assist the City in the foregoing by prepaying all of the outstanding 2014 Bonds; and

To provide funds for the refinancing of the Prior Projects, the Authority desires to issue bonds tentatively designated as its Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “2024 Bonds”); and

The Authority and the City desire to authorize the 2024 Bonds or any portion thereof to be sold in a public offering; and

The Authority and the City desire that the 2024 Bonds may be sold and issued in such series or subseries as may be necessary or desirable to effectuate the foregoing; and

In order to provide for the authentication and delivery of the 2024 Bonds, to establish and declare the terms and conditions upon which the 2024 Bonds are to be issued and secured and to secure the repayment thereof, it is proposed that the Authority and U.S. Bank Trust Company, National Association, as trustee (the "Trustee") enter into an Indenture (the "Indenture"); and

In order to implement the foregoing, the City and the Authority propose to enter into an Installment Purchase Contract (the "Installment Purchase Contract"); and

Under the 2024 Installment Purchase Contract, the City will be obligated to make installment payments to the Authority for the refinancing of the Prior Projects; and

Pursuant to section 5852.1 of the Government Code of the State of California, the City has received certain representations and good faith estimates from Hilltop Securities, LLC, an underwriter of the 2024 Bonds, including an estimate of costs associated with the issuance of the Bonds and the Authority has disclosed such good faith estimates as set forth in Exhibit 1, attached and incorporated by reference; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

Section 1. The method of refinancing the Prior Projects through the issuance by the Authority of the 2024 Bonds in the aggregate principal amount of not to exceed \$32,000,000, is hereby approved. The 2024 Bonds may be sold and issued in such series or subseries as may be necessary or desirable to effectuate the purposes of this resolution.

Section 2. The form of the Indenture (attached as Exhibit 2, incorporated by reference), a copy of which is on file in the office of the City Clerk or his or her designee (the "City Clerk") and submitted to this meeting, is hereby approved. The Authority and the Trustee are hereby authorized and directed to enter into the Indenture as contemplated herein.

Section 3. The form of the Installment Purchase Contract (attached as Exhibit 3, incorporated by reference), a copy of which is on file in the office of the City Clerk and submitted to this meeting, is hereby approved. The Mayor, the City Manager, any Deputy City Manager, and the Chief Financial Officer and the designees of any of them (each, an "Authorized Officer"), each acting alone, are hereby authorized and directed, for and in the name of and on behalf of the City, to execute the Installment Purchase Contract, and the City Clerk is authorized to attest thereto, with such additions and changes therein as the Authorized Officer executing the same shall approve, with the advice of counsel, as being in the best interests of the City, such approval to be conclusively evidenced by the execution and delivery thereof; provided, that the installment payments to be contained

in the Installment Purchase Contract shall be determined or approved by the Chief Financial Officer or the designee thereof (the "Chief Financial Officer") upon the sale of the 2024 Bonds, but the principal portions thereof shall not exceed \$32,000,000 in aggregate principal amount and the final installment payments shall be due not later than September 1, 2029.

Section 4. The form of a Bond Purchase Contract (attached as Exhibit 4, incorporated by reference) relating to the sale of the 2024 Bonds (the "Bond Purchase Contract"), among Hilltop Securities Inc., on behalf of itself and as representative (the "Representative") of Oppenheimer & Co. Inc., the underwriters of the 2024 Bonds (the "Underwriters"), the Authority and the City, a copy of which is on file in the office of the City Clerk and submitted to this meeting, is hereby approved. The Authorized Officers, each acting alone, are hereby authorized and directed, for and in the name and on behalf of the City, to execute and deliver the Bond Purchase Contract, and the City Clerk is authorized to attest thereto, with such additions and changes therein as the Authorized Officer executing the same shall approve, with the advice of counsel, as being in the best interests of the City, such approval to be conclusively evidenced by the execution and delivery thereof; provided, that the debt service savings achieved from the refunding of the 2014 Bonds shall be at least \$150,000 per year.

Section 5. The form of a preliminary official statement (attached as Exhibit 5, incorporated by reference) relating to the 2024 Bonds (the "Preliminary Official Statement"), a copy of which is on file in the office of the City Clerk and submitted to this meeting, is hereby approved, with such additions and changes as may be approved, with the advice of counsel, by any Authorized Officer. The Authorized Officers, each acting alone, are hereby authorized on behalf of the City to certify to the Underwriters of the 2024 Bonds that the Preliminary Official Statement is deemed "final" for the purposes of Rule 15c2-12 promulgated under the Securities Exchange Act of 1934 (the "Rule") (except for the omission of certain final pricing, rating and related information as permitted by the Rule). The Authorized Officers, each acting alone, are hereby authorized and directed to execute and deliver to the City and the Underwriters or a final Official Statement (the "Official Statement") in substantially the form of the Preliminary Official Statement, with such additions and changes as the Authorized Officer executing the same shall approve, with the advice of counsel, as being in the best interests of the City, such approval to be conclusively evidenced by the execution of said Official Statement. The printing, delivery and distribution of the Preliminary Official Statement and the Official Statement are hereby approved, and the Underwriters of the 2024 Bonds are hereby authorized to distribute copies of the Preliminary Official Statement and the Official Statement to persons who may be interested in the purchase of the 2024 Bonds and are directed to deliver copies of the Official Statements to all purchasers of the 2024 Bonds.

Section 6. The form of Continuing Disclosure Certificate, a copy of which is attached as an exhibit to the form of Preliminary Official Statement on file in the office of the City Clerk and submitted to this meeting, is hereby approved. The Authorized Officers, each acting alone, are hereby authorized and directed, for and in the name of and on behalf of the City, to execute and deliver the Continuing Disclosure Certificate, and the City Clerk is authorized to attest thereto, with such additions and changes therein as the

Authorized Officer executing the same shall approve, with the advice of counsel, as being in the best interests of the City, such approval to be conclusively evidenced by the execution and delivery thereof.

Section 7. The Authorized Officers, each acting alone, are hereby authorized and directed to take all actions and execute any and all documents necessary or advisable to arrange for the insuring of all or a portion of the 2024 Bonds or to obtain a debt service reserve fund insurance policy or surety bond, or to obtain any other form of credit enhancement or debt service reserve fund facility, if, upon the advice of the City's municipal advisor, such insurance, surety bond, other credit enhancement or other reserve fund facility will result in a lower true interest cost for the 2024 Bonds.

Section 8. All actions heretofore taken by any officers, employees or agents of the City with respect to the issuance, delivery or sale of the 2024 Bonds, or in connection with or related to any of the documents referenced herein or the refinancing of the Prior Projects, are hereby approved, confirmed and ratified; and the Authorized Officers are hereby authorized and directed, for and in the name and on behalf of the City, to do any and all things and take any and all actions and execute and deliver any and all certificates, agreements and other documents (including but not limited to a Tax Certificate and Agreement and escrow agreement), which they, or any of them, may deem necessary or advisable in order to consummate the lawful issuance and delivery of the 2024 Bonds and the disbursement of proceeds thereof in accordance with this Resolution.

Section 9. In connection with the 2024 Bonds, the City hereby appoints and retains Del Rio Advisors, LLC as Municipal Advisor and Hawkins Delafield & Wood LLP as Bond Counsel and Disclosure Counsel. Hilltop Securities Inc. is appointed as Representative of the Underwriters and Oppenheimer & Co. Inc. is appointed as co-manager for the 2024 Bonds.

Section 10. This Resolution shall take effect immediately upon its adoption.

The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED AND ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

GOOD FAITH ESTIMATES

Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project)

The following information was obtained from Hilltop Securities, LLC, as an underwriter of the bonds defined above (the “Bonds”), for consideration prior to the authorization in the foregoing Resolution of the proposed Bonds:

1. *True Interest Cost of the Bonds.* Assuming an aggregate principal amount of the Bonds in the amount of \$28,615,000 is sold to effectuate the financing with annual debt service savings and based on market interest rates prevailing at the time of preparation of this information, a good faith estimate of the true interest cost of the Bonds, which means the rate necessary to discount the amounts payable on the respective principal and interest payment dates to the purchase price received for the Bonds, is 3.365318%.

2. *Finance Charge of the Bonds.* Assuming such a principal amount of the proposed Bonds is sold and based on market interest rates prevailing at the time of preparation of this information, a good faith estimate of the Finance Charge of the Bonds, which means the sum of all fees and charges paid to third parties (or costs associated with the issuance of the Bonds), is \$503,935.70 consisting of an estimated fixed costs of issuance of \$178,762.97, estimated underwriter’s discount of \$140,213.50, estimated bond insurance premium of \$99,114.23 and estimated surety bond premium of \$85,845.00.

3. *Amount of Proceeds to be received.* Assuming such aggregate principal amount of the proposed Bonds required to effectuate the financing is sold and based on market interest rates prevailing at the time of preparation of this information, a good faith estimate of the amount of proceeds expected to be received by the issuer for sale of the Bonds less the Finance Charge of the Bonds described in 2 above and any reserves or capitalized interest paid or funded with proceeds of the Bonds, is \$29,599,973.00.

4. *Total Payment Amount.* Assuming such aggregate principal amount of the proposed Bonds \$28,615,000 are sold and based on market interest rates prevailing at the time of preparation of this information, a good faith estimate of the total payment amount, which means the sum total of all payments the issuer will make to pay debt service on the Bonds plus the Finance Charge of the Bonds described in paragraph 2 above not paid with the proceeds of the Bonds, calculated to the final maturity of the Bonds, is \$33,038,077.08 (does not include capitalized interest paid or funded from proceeds of the Bonds referenced above).

Attention is directed to the fact that the foregoing information constitutes good faith estimates only. The actual interest cost, finance charges, amount of proceeds and total payment amount may vary from the estimates above due to variations from these estimates in the timing of Bond sales, the amount of Bonds sold, the amortization of the Bonds sold and market interest rates at the time of each sale. The date or dates of sale and the amount of Bonds sold will be determined by the issuer based on need for funds and other factors. The actual interest rates at which the Bonds will be sold will depend on the bond market at the time of sale. The actual amortization of the Bonds will also depend, in part, on market interest rates at the time of each sale. Market interest rates are affected by economic and other factors beyond the issuer’s control.

2024 INDENTURE

This 2024 Indenture (the “2024 Indenture”), dated as of August 1, 2024, by and between the Stockton Public Financing Authority, a joint exercise of powers entity duly organized and existing under and by virtue of the laws of the State of California (the “Authority”), and U.S. Bank Trust Company, National Association, a national banking association duly organized and existing under and by virtue of the laws of the United States of America, as trustee (the “Trustee”);

WITNESSETH:

WHEREAS, the Authority is a joint exercise of powers entity duly organized and existing under and pursuant to Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California, as amended (the “Act”);

WHEREAS, the Act authorizes and empowers the Authority to issue revenue bonds to assist the City of Stockton (the “City”) in financing public capital improvements;

WHEREAS, the City is a local agency as defined and provided in the Act;

WHEREAS, the City and the Authority had previously entered into an Installment Purchase Contract, dated as of October 1, 2014 (the “2014 Installment Purchase Contract”), whereby the Authority agreed to sell certain improvements to the City’s wastewater system, consisting of the 1998 Wastewater Project and the 2003 Wastewater Project (each as defined herein, and collectively, the “Prior Projects”) to the City and the City agreed to purchase the Prior Projects from the Authority;

WHEREAS, in connection with the 2014 Installment Purchase Contract, the Authority entered into an Indenture, dated as of October 1, 2014, by and between Computershare Trust Company, N.A. as successor to Wells Fargo Bank, National Association, and the Authority and, in connection therewith, the Authority in October of 2014 issued its Wastewater Revenue Refunding Bonds, Series 2014 (1998 Wastewater Project and 2003 Wastewater Project) in the aggregate, principal amount of \$69,440,000 (the “2014 Bonds”);

WHEREAS, the Authority and the City have determined that providing funds to prepay all of the outstanding 2014 Bonds by the issuance of revenue bonds of the Authority will result in demonstrable savings in borrowing costs of the City and will result in significant public benefits to the City;

WHEREAS, the City will be obligated to make installment payments to the Authority for the refinancing of the Prior Projects;

WHEREAS, the City’s obligation to make the installment payments under the 2024 Contract are secured by a pledge of certain net revenues of the Wastewater System of the City;

WHEREAS, in order to achieve the foregoing, the Authority has authorized the issuance of its Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “2024 Bonds”) pursuant to the Act in an aggregate principal amount of \$_____;

WHEREAS, in order to provide for the authentication and delivery of the 2024 Bonds and to establish and declare the conditions and terms upon which the 2024 Bonds are to be issued and secured and to secure the payment of the interest on and principal of 2024 Bonds, the Authority has authorized the execution and delivery of the 2024 Indenture;

WHEREAS, all acts, conditions and things required by law to exist, to have happened and to have been performed necessary to make the 2024 Bonds, when executed by the Authority and authenticated and delivered by the Trustee, valid and binding obligations of the Authority payable in accordance with their terms, and to constitute the 2024 Indenture a valid and binding agreement of the parties hereto for the uses and purposes herein set forth in accordance with its conditions and terms, do exist, have happened and have been performed in the time, form and manner required by law, and the execution and delivery of the 2024 Indenture by the parties hereto has been in all respects duly authorized;

NOW, THEREFORE, THIS 2024 INDENTURE WITNESSETH, that in order to secure the payment of the interest on and principal of the 2024 Bonds at any time issued and outstanding hereunder according to their tenor, and to secure the performance and observance of all the agreements, conditions, covenants and terms therein and herein set forth, and to declare the conditions and terms upon and subject to which the 2024 Bonds are to be issued and received, and in consideration of the premises and of the mutual covenants herein contained and of the purchase and acceptance of the 2024 Bonds by the registered owners thereof, and for other valuable considerations, the receipt whereof is hereby acknowledged, the Authority does hereby covenant and agree with the Trustee, for the benefit of the respective holders from time to time of the 2024 Bonds, as follows:

ARTICLE I

DEFINITIONS; EQUAL SECURITY

Section 1.01. Definitions. Unless the context otherwise requires, the terms defined in this section shall for all purposes hereof and of any Supplemental Indenture and of any certificate, opinion, request or other document herein or therein mentioned have the meanings herein specified:

1998 Installment Sale Agreement

“1998 Installment Sale Agreement” means the 1998 Installment Sale Agreement, dated as of February 1, 1998, between the City and the Authority.

1998 Wastewater Project

“1998 Wastewater Project” means those certain improvements to the City’s Wastewater System which the Authority sold to the City and the City purchased from the Authority under certain documents entered into in 1998, including the 1998 Installment Sale Agreement.

2003 Installment Sale Agreement

“2003 Installment Sale Agreement” means the 2003 Installment Sale Agreement, dated as of June 1, 2003, between the City and the Authority.

2003 Wastewater Project

“2003 Wastewater Project” means those certain improvements to the City’s Wastewater System which the Authority sold to the City and the City purchased from the Authority under certain documents entered into in 2003, including the 2003 Installment Sale Agreement.

2014 Bonds

“2014 Bonds” means the Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2014 (1998 Wastewater Project and 2003 Wastewater Project) issued in the aggregate, principal amount of \$69,440,000.

2014 Escrow Agreement

“2014 Escrow Agreement” means that certain Escrow Agreement, dated as of August 1, 2024, among the City, the Authority and the Escrow Agent, relating to the prepayment and defeasance of the 2014 Bonds.

2014 Escrow Fund

“2014 Escrow Fund” means the fund so designated and created under the 2014 Escrow Agreement.

2014 Installment Purchase Contract

“2014 Installment Purchase Contract” means the Installment Purchase Contract, dated as of October 1, 2014, between the City and the Authority.

2014 Indenture

“2014 Indenture” means that certain Indenture, dated as of October 1, 2014, between the 2014 Trustee and the Authority, relating to the 2014 Bonds.

2014 Trustee

“2014 Trustee” means Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association, as trustee under the 2014 Indenture.

2024 Bonds

“2024 Bonds” means the Authority’s Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project), authorized, issued and delivered hereunder in accordance with Article II that are at any time Outstanding pursuant hereto.

2024 Contract

“2024 Contract” means that certain 2024 Installment Purchase Contract, dated as of August 1, 2024, by and between the City and the Authority, as originally executed and as it may from time to time be amended in accordance therewith.

2024 Indenture

“2024 Indenture” means this 2024 Indenture dated as of August 1, 2024, by and between the Authority and the Trustee, as originally executed and as it may from time to time be amended or supplemented by all Supplemental Indentures executed pursuant to the provisions hereof.

2024 Installment Payment Fund

“2024 Installment Payment Fund” means the Stockton Public Financing Authority 2024 Installment Payment Fund established pursuant to Section 3.02.

2024 Installment Payments

“2024 Installment Payments” shall have the meaning given in the 2024 Contract.

2024 Reserve Account

“2024 Reserve Account” means the account within the 2024 Installment Payment Fund by that name established pursuant to Section 3.03.

2024 Reserve Requirement

“2024 Reserve Requirement” means, as of any date of determination, the least of (a) ten percent (10%) of the amount of the 2024 Bonds (as defined in Section 1.148-2(f)(1) of the Treasury Regulations), or (b) the maximum annual 2024 Installment Payments payable under the 2024 Contract in the then current or any future one-year period ending on [September 1], or (c) one hundred twenty-five per cent (125%) of the average annual 2024 Installment Payments payable under the 2024 Contract in the then current and all future one-year periods ending on [September 1], all as computed by the City under the Code and specified in writing to the Trustee; provided, that such requirement (or any portion thereof) may be provided by one or more financial instruments (including, but not limited to, one or more policies of financial guaranty insurance, one or more surety bonds or one or more letters of credit) issued by a municipal bond insurer, bank or other financial institution or organization with ratings at the time of issuance of such financial instrument at least equal to the rating on the 2024 Bonds (if any) assigned by Moody’s and by S&P.

Act

“Act” means the Joint Exercise of Powers Act (being Chapter 5 of Division 7 of Title 1 of the Government Code of the State, as amended) and all laws amendatory thereof or supplemental thereto.

Authority

“Authority” means the Stockton Public Financing Authority, a joint exercise of powers entity duly organized and existing under and by virtue of the Act.

Bond Insurance Policy

“Bond Insurance Policy” means the Municipal Bond Insurance Policy issued by the Insurer that guarantees the scheduled payment of principal of and interest on the 2024 Bonds when due.

Business Day

“Business Day” means any day (other than a Saturday, a Sunday or a legal holiday) on which banks in New York, New York, are open for business and on which the Trustee is open for business at its Principal Corporate Trust Office.

Certificate of the Authority

“Certificate of the Authority” means an instrument in writing signed by the Treasurer, or by any other officer of the Authority duly authorized by the Authority for that purpose.

City

“City” means the City of Stockton, a municipal corporation and chartered city duly organized and existing under and by virtue of the Constitution and laws of the State and its charter.

Code

“Code” means the Internal Revenue Code of 1986 and the regulations of the United States Department of the Treasury issued thereunder, and in this regard reference to any particular section of the Code shall include reference to all successor sections of the Code.

Costs of Issuance

“Costs of Issuance” means all items of expense directly or indirectly payable by or reimbursable to the Authority or the City related to the authorization, execution and delivery of the 2024 Contract, the 2024 Indenture and the sale of the 2024 Bonds, including, but not limited to, costs of preparation and reproduction of documents, costs of rating agencies and costs to provide information required by rating agencies, filing and recording fees, initial charges and fees of the Trustee, legal charges and fees, fees and disbursements of consultants and professionals, fees and expenses of the underwriter of the 2024 Bonds, and charges and fees for preparation, execution and safekeeping of the 2024 Bonds, and any other charge, cost or fee in connection with the original execution and delivery of the 2024 Bonds.

Costs of Issuance Fund

“Costs of Issuance Fund” means the Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 Costs of Issuance Fund established pursuant to Section 2.12(b).

Escrow Agent

“Escrow Agent” means a bank or trust company doing business and having a corporate trust office in Los Angeles or San Francisco, California, having a combined capital (exclusive of borrowed capital) and surplus of at least one hundred million dollars (\$100,000,000), subject to supervision or examination by a federal or state banking authority, and having the corporate power and authority to accept the trusts created by a deposit made pursuant to Section 8.01(c). If such bank or trust company publishes a report of condition at least annually, pursuant to law or to the requirements of any supervising or examining authority above referred to, then for the purpose of this definition the combined capital and surplus of such bank or trust company shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. Computershare Trust Company, N.A., in its capacity as escrow agent, shall serve as Escrow Agent under the 2014 Escrow Agreement.

Escheat Period

“Escheat Period” means, with respect to any money held by the Trustee in trust for the payment of the interest on or principal of 2024 Bonds, a period beginning on the date such payment was due and ending on the date sixty (60) days prior to the date on which such money would escheat to the State by operation of applicable law.

Event of Default

“Event of Default” means an event defined as such in Section 7.01.

Fiscal Year

“Fiscal Year” means the twelve-month period terminating on June 30 of each year, or any other annual accounting period hereafter selected and designated by the Authority as its Fiscal Year in accordance with applicable law.

Holder

“Holder” means any person who shall be the registered owner of any Outstanding 2024 Bonds.

Independent Certified Public Accountant

“Independent Certified Public Accountant” means any firm of certified public accountants duly licensed and entitled to practice and practicing as such under the laws of the State, appointed and paid by the Authority, and each of whom --

- (1) is in fact independent and not under the domination of the Authority;
- (2) does not have a substantial financial interest, direct or indirect, in the operations of the Authority; and
- (3) is not connected with the Authority as a member, officer or employee of the Authority, but which firm may be regularly retained by the Authority to audit the accounting records of the Authority and make reports thereon to the Authority.

Information Services

“Information Services” means securities information services selected by the Trustee to comply with custom or the rules of any securities and exchange commission or brokerage board.

Insurer

“Insurer” means [_____], or any successor thereto.

Interest Account

“Interest Account” means the account within the 2024 Installment Payment Fund by that name established pursuant to Section 3.03.

Interest Payment Date

“Interest Payment Date” means a date on which interest is due on the 2024 Bonds, being March 1 and September 1 of each year to which reference is made, commencing on March 1, 2025.

Late Payment Rate

“Late Payment Rate” has the meaning given to such term in the 2024 Contract.

Moody’s

“Moody’s” means Moody’s Investors Service, a corporation duly organized and existing under and by virtue of the laws of the State of Delaware, and its successors or assigns, except that if such entity shall be dissolved or liquidated or shall no longer perform the services of a municipal securities rating agency, then “Moody’s” shall be deemed to refer to any other nationally recognized municipal securities rating agency selected by the Authority.

Opinion of Counsel

“Opinion of Counsel” means a written opinion of counsel of recognized national standing in the field of law relating to municipal bonds, retained by the Authority.

Outstanding

“Outstanding” means, when used with reference to 2024 Bonds and subject to the provisions of Section 6.02, all 2024 Bonds except -

- (1) 2024 Bonds theretofore cancelled by the Trustee or surrendered to the Trustee for cancellation;
- (2) 2024 Bonds paid or deemed to have been paid within the meaning of Section 8.01; and
- (3) 2024 Bonds in lieu of or in substitution for which other 2024 Bonds shall have been executed, issued and delivered by the Authority pursuant hereto.

Permitted Investments

“Permitted Investments” means any of the following obligations to the extent then authorized by law for the investment of money of the Authority:

(1) Direct obligations (including obligations issued or held in book-entry form on the books of) the Department of the Treasury of the United States of America;

(2) Direct obligations of any of the following federal agencies, which obligations represent the full faith and credit of the United States of America:

- Export-Import Bank
- Farm Credit System Financial Assistance Corporation
- Rural Economic Community Development Administration (formerly the Farmers Home Administration)
- General Services Administration
- U.S. Maritime Administration
- Small Business Administration
- Government National Mortgage Association (GNMA)
- U.S. Department of Housing & Urban Development (PHA’s)
- Federal Housing Administration
- Federal Financing Bank;

(3) Direct obligations of any of the following federal agencies, which obligations are not fully guaranteed by the full faith and credit of the United States of America:

- Senior debt obligations rated “Aaa” by Moody’s and “AAA” by S&P issued by the Federal National Mortgage Association (FNMA) or Federal Home Loan Mortgage Corporation (FHLMC)
- Obligations of the Resolution Funding Corporation (REFCORP)
- Senior debt obligations of the Federal Home Loan Bank System
- Senior debt obligations of other Government Sponsored Agencies;

(4) U.S. dollar denominated deposit accounts, federal funds and bankers’ acceptances with domestic commercial banks which have a rating on their short-term certificates of deposit on the date of purchase of “A-1” or “A-1+” by S&P and “P-1” by Moody’s and maturing no more than three hundred sixty (360) days after the date of purchase. (Ratings on holding companies are not considered as the rating of the bank);

(5) Commercial paper which is rated at the time of purchase in the single highest classification, “A-1+” by S&P and “P-1” by Moody’s and which matures not more than two hundred seventy (270) days after the date of purchase;

(6) Investments in a money market fund rated “AAAm” or “AAAm-G” by S&P, including any such fund managed, advised or sponsored by the Trustee or any of its affiliates;

(7) Pre-refunded municipal obligations defined as follows: Any bonds or other obligations of any state of the United States of America or of any agency, instrumentality or local governmental unit of any such state which are not callable at the option of the obligor prior to maturity or as to which irrevocable instructions have been given by the obligor to call on the date specified in the notice; and

(A) which are rated, based on an irrevocable escrow account or fund (the “escrow”), in the highest rating category of S&P and Moody’s or any successors thereto; or

(B) (i) which are fully secured as to principal and interest and redemption premium, if any, by an escrow consisting only of cash or obligations described in paragraph (1) above, which escrow may be applied only to the payment of such principal of and interest and redemption premium, if any, on such bonds or other obligations on the maturity date or dates thereof or the specified redemption date or dates pursuant to such irrevocable instructions, as appropriate, and (ii) which escrow is sufficient, as verified by a nationally recognized independent certified public accountant, to pay principal of and interest and redemption premium, if any, on the bonds or other obligations described in this paragraph on the maturity date or dates specified in such irrevocable instructions, as appropriate;

(8) General obligations of states with a rating of at least “A2/A” or higher by both Moody’s and S&P;

(9) Investment agreements (supported by appropriate opinions of counsel) with notice to S&P;

(10) Shares in the California Asset Management Program (established pursuant to Title 1, Division 7, Chapter 5 of the Government Code of the State) that invests exclusively in investments permitted by Section 53635 of the Government Code of the State, as now existing and as it may be amended from time to time;

(11) The Local Agency Investment Fund (established under Sections 53600-53609 of the California Government Code, as amended or supplemented from time to time); and

(12) Other forms of investment agreements (including repurchase agreements) with notice to S&P.

Unless otherwise provided in this 2024 Indenture, the value of the above investments shall be determined at fair market value.

Principal Corporate Trust Office

“Principal Corporate Trust Office” means the corporate trust office of the Trustee in San Francisco, California, or such other office designated by the Trustee from time to time.

Principal Subaccount

“Principal Subaccount” means the subaccount within the Redemption Account by that name established pursuant to Section 3.03.

Prior Projects

“Prior Projects” shall have the meaning as set forth in the recitals hereto.

Record Date

“Record Date” means, with respect to any Interest Payment Date, the day of the month that is the fifteenth (15th) day of the month prior to such Interest Payment Date.

Redemption Account

“Redemption Account” means the account within the 2024 Installment Payment Fund by that name established pursuant to Section 3.03.

Representation Letter

“Representation Letter” means the blanket letter of representation from the Authority to The Depository Trust Company, New York, New York, relating to its book-entry securities.

Reserve Fund Policy

“Reserve Fund Policy” means the Municipal Bond Debt Service Reserve Insurance Policy issued by the Insurer with respect to the 2024 Bonds.

Revenues

“Revenues” means all 2024 Installment Payments paid by the City and received by the Authority, its successors and assigns under the 2024 Contract, together with all income from any investment pursuant to Section 10.06 of any money in any account or fund established pursuant hereto.

Securities Depositories

“Securities Depositories” means The Depository Trust Company, 711 Stewart Avenue, Garden City, New York 11530, Fax-(516) 227-4039 or 4190; Midwest Securities Trust Company, Capital Structures-Call Notification 440 South LaSalle Street, Chicago, Illinois 60605, Fax-(312) 663-2343; or in accordance with the current guidelines of the Securities and Exchange Commission, such other securities depositories as the Authority may designate in a Certificate of the Authority delivered to the Trustee.

S&P

“S&P” means S&P Global Ratings, a corporation duly organized and existing under and by virtue of the laws of the State of New York, and its successors or assigns, except that if such entity shall be dissolved or liquidated or shall no longer perform the services of a municipal securities rating agency, then “S&P” shall be deemed to refer to any other nationally recognized municipal securities rating agency selected by the Authority.

State

“State” means the State of California.

Supplemental Indenture

“Supplemental Indenture” means any indenture, duly executed and delivered by the Authority and the Trustee and in full force and effect, which is amendatory hereof or supplemental hereto; but only if and to the extent that such Supplemental Indenture is specifically authorized hereunder.

Tax Certificate

“Tax Certificate” means the Tax Certificate delivered by the Authority at the time of the issuance and delivery of the 2024 Bonds, as the same may be amended or supplemented in accordance with its terms.

Treasurer

“Treasurer” means the Treasurer of the Authority.

Trustee

“Trustee” means U.S. Bank Trust, National Association, a national banking association duly organized and existing under and by virtue of the laws of the United States of America, at its Principal Corporate Trust Office, or any successor Trustee which may at any time be substituted in place of the original or any successor Trustee hereunder as provided in Section 5.01.

Wastewater System

“Wastewater System” means the whole and each and every part of the wastewater system of the City, including the portion thereof existing on the date hereof and including all additions, betterments, extensions and improvements to such system or any part thereof and hereafter acquired or constructed.

Written Request of the Authority

“Written Request of the Authority” means an instrument in writing signed by the Chairperson, Vice-Chairperson, Executive Director or Treasurer of the Authority, or by any other officer of the Authority duly authorized by the Authority for that purpose.

Section 1.02. Equal Security. In consideration of the acceptance of the 2024 Bonds by the Holders thereof, the 2024 Indenture shall be deemed to be and shall constitute a contract by and among the Authority, the Trustee and the Holders from time to time of all 2024 Bonds authorized, executed, authenticated and delivered hereunder and then Outstanding to secure the full and final payment of the interest on and principal of all 2024 Bonds which may from time to time be authorized, executed, authenticated and delivered hereunder, subject to the agreements, conditions, covenants and terms contained herein; and all agreements and covenants set forth herein to be performed by or on behalf of the Authority shall be for the equal and proportionate benefit, protection and security of all Holders of the 2024 Bonds without distinction, preference or priority as to security or otherwise of any 2024 Bonds over any other 2024 Bonds by reason of the number or date thereof or the time of authorization, sale, execution, authentication or delivery thereof or for any cause whatsoever, except as expressly provided herein or therein.

ARTICLE II

ISSUANCE OF 2024 BONDS

Section 2.01. Authorization and Purpose of 2024 Bonds. The Authority has reviewed all proceedings heretofore taken relative to the authorization of the 2024 Bonds and has found, as a result of such review, and hereby finds and determines that all acts, conditions and things required by law to exist, to have happened and to have been performed precedent to and in the issuance of the 2024 Bonds do exist, have happened and have been performed in due time, form and manner as required by law, that the Authority is now duly authorized, pursuant to each and every requirement of the Act, to issue the 2024 Bonds to prepay the 2014 Bonds in the form and manner provided herein for the purpose of providing funds to refinance the Prior Projects, as provided under the 2024 Contract, and that the 2024 Bonds shall be entitled to the benefit, protection and security of the provisions hereof.

Section 2.02. Terms of 2024 Bonds. The 2024 Bonds shall be designated the “Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project)” and shall be issued in the aggregate principal amount of \$ _____.

The 2024 Bonds shall be dated the date of their original delivery, shall be issued in fully registered form in denominations of five thousand dollars (\$5,000) or any integral multiple of five thousand dollars (\$5,000) (not exceeding the principal amount of 2024 Bonds maturing at any one time), and shall mature on the dates and in the principal amounts and shall bear interest at the annual interest rates as set forth in the following schedule:

Maturity Date ([September 1])	Principal Amount	Interest Rate
2025		
2026		
2027		
2028		
2029		

The 2024 Bonds shall bear interest payable in lawful money of the United States of America at the annual interest rates (based on a 360-day year of twelve, 30-day calendar months) set forth above, payable semiannually on March 1 and September 1 in each year, commencing on March 1, 2025. Each 2024 Bond shall bear interest from the Interest Payment Date next preceding the date of authentication thereof, unless such date of authentication is an Interest Payment Date or is during the period from the day after the Record Date preceding an Interest Payment Date to such Interest Payment Date, both dates inclusive, in which event it shall bear interest from such Interest Payment Date, or unless such date of authentication is prior to the first Record Date, in which event it shall bear interest from its date; provided, that if at the time of authentication of any 2024 Bonds interest is then in default on the Outstanding 2024 Bonds, such 2024 Bonds shall bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment on the Outstanding 2024 Bonds. Payment of interest on the 2024 Bonds due on any Interest Payment Date on or before the maturity thereof shall be made only to the person whose name appears in the bond registration books kept by the Trustee pursuant to Section 2.08 as the registered owner thereof as of the close of business on the Record Date for such Interest Payment Date, whether or not such Record Date is a Business Day, and shall be paid by check mailed on such Interest Payment Date by first class mail to such registered owner at the address as it appears in such books; provided, that upon the written request of any Holder of one million dollars (\$1,000,000) or more in aggregate principal amount of 2024 Bonds received by the Trustee prior to the applicable Record Date (which request shall remain in effect until rescinded in writing by such Holder), interest shall be paid on each Interest Payment Date by wire transfer of immediately available funds to an account maintained in any bank or trust company in the United States of America that is a member of the Federal Reserve System designated in writing by such Holder.

The principal of the 2024 Bonds shall be payable in lawful money of the United States of America upon the surrender thereof at maturity at the Principal Corporate Trust Office of the Trustee.

Section 2.03. 2024 Bonds Not Subject to Redemption. The 2024 Bonds are not subject to redemption prior to their respective stated maturity dates.

Section 2.04. Form of 2024 Bonds. The 2024 Bonds (and the certificate of authentication and assignment to appear thereon) shall be substantially in the form set forth in Exhibit A hereto attached and by this reference incorporated herein.

Section 2.05. Execution of 2024 Bonds. The Chairperson or Executive Director of the Authority is hereby authorized and directed to execute each of the 2024 Bonds on behalf of the Authority and the Secretary of the Authority is hereby authorized and directed to countersign each of the 2024 Bonds on behalf of the Authority, which signatures of such Chair or Executive Director and Secretary may be manually subscribed or may be copied, printed, lithographed or engraved by facsimile reproduction; provided, that in case any officer whose signature appears on the 2024 Bonds shall cease to be such officer before the delivery of the 2024 Bonds to the purchaser thereof, such signature shall nevertheless be valid and sufficient for all purposes as if such officer had remained in office until such delivery of the 2024 Bonds.

Only those 2024 Bonds bearing thereon a certificate of authentication in the form hereinbefore referred to, executed manually and dated by the Trustee, shall be entitled to any benefit, protection or security hereunder or be valid or obligatory for any purpose, and such certificate of authentication of the Trustee shall be conclusive evidence that the 2024 Bonds so authenticated have been duly authorized, executed, issued and delivered hereunder and are entitled to the benefit, protection and security hereof.

Section 2.06. Transfer and Payment of 2024 Bonds. Any 2024 Bonds may, in accordance with its terms, be transferred in the books required to be kept by the Trustee pursuant to the provisions of Section 2.08 by the person in whose name it is registered, in person or by his duly authorized attorney, upon surrender of such 2024 Bonds for cancellation accompanied by delivery of a duly executed written instrument of transfer in a form acceptable to the Trustee. Whenever any 2024 Bonds shall be surrendered for transfer, the Authority shall execute and the Trustee shall authenticate and deliver to the transferee a new 2024 Bond or 2024 Bonds and aggregate principal amount of the same maturity date and of the same or other authorized denominations. All costs of printing 2024 Bonds and any services rendered or expenses incurred by the Trustee in connection with any such exchange shall be paid by the Authority; provided, that the Trustee shall require the payment by the Holder requesting such transfer of any tax or other governmental charge required to be paid with respect to such transfer as a condition precedent to the exercise of such privilege.

The Authority and the Trustee may deem and treat the registered owner of any 2024 Bonds as the absolute owner of such 2024 Bonds for the purpose of receiving payment thereof and for all other purposes, whether such 2024 Bonds shall be overdue or not, and neither the Authority nor the Trustee shall be affected by any notice or knowledge to the contrary; and payment of the interest on and principal of such 2024 Bonds shall be made only to such registered owner thereof, which payments shall be valid and effectual to satisfy and discharge liability on such 2024 Bonds to the extent of the sum or sums so paid.

Section 2.07. Exchange of 2024 Bonds. Any 2024 Bond may be exchanged at the Principal Corporate Trust Office of the Trustee for a new 2024 Bond and aggregate principal amount of the same maturity date and of the same or other authorized denominations. All costs of printing 2024 Bonds and any services rendered or expenses incurred by the Trustee in connection with any such exchange shall be paid by the Authority; provided, that the Trustee shall require the payment by the Holder requesting such exchange of any tax or other governmental charge required to be paid with respect to such exchange as a condition precedent to the exercise of such privilege.

Section 2.08. 2024 Bonds Registration Books. The Trustee will keep at its Principal Corporate Trust Office sufficient books for the registration and transfer of the 2024 Bonds which shall during normal business hours be open to inspection by the Authority, and upon presentation for such purpose the Trustee shall, under such reasonable regulations as it may prescribe, register or transfer the 2024 Bonds in such books as hereinabove provided.

Section 2.09. Mutilated, Destroyed, Stolen or Lost 2024 Bonds. If any 2024 Bonds shall become mutilated the Trustee at the expense of the Holder shall thereupon authenticate and deliver a new 2024 Bonds of like tenor and principal amount of authorized denominations in exchange and substitution for the 2024 Bonds so mutilated, but only upon surrender to the Trustee at its Principal Corporate Trust Office of the 2024 Bonds so mutilated, and every mutilated 2024 Bonds so surrendered to the Trustee shall be cancelled by the Trustee.

If any 2024 Bonds shall be lost, destroyed or stolen, evidence of such loss, destruction or theft may be submitted to the Trustee at its Principal Corporate Trust Office and, if such evidence be satisfactory to the Trustee and indemnity satisfactory to the Trustee shall be given, the Trustee, at the expense of the Holder, shall thereupon authenticate and deliver a new 2024 Bonds of like tenor and principal amount of authorized denominations in lieu of and in substitution for the 2024 Bonds so lost, destroyed or stolen.

The Trustee may require payment of the expenses which shall be incurred by the Authority and the Trustee in connection with the issuance of each new 2024 Bonds under this section. Any 2024 Bond issued under the provisions of this section in lieu of any 2024 Bonds alleged to be lost, destroyed or stolen shall be equally and proportionately entitled to the benefits hereof with all other 2024 Bonds secured hereby, and neither the Authority nor the Trustee shall be required to treat both the original 2024 Bonds and any replacement 2024 Bonds as being Outstanding for the purpose of determining the principal amount of 2024 Bonds which may be issued hereunder or for the purpose of determining any percentage of 2024 Bonds Outstanding hereunder, but both the original and replacement 2024 Bonds shall be treated as one and the same.

Section 2.10. [Reserved].

Section 2.11. Use of Book-Entry System for 2024 Bonds. The 2024 Bonds shall be initially issued and registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"), or such other nominee as DTC shall request pursuant to the Representation Letter, and the ownership of such 2024 Bonds shall be registered in the registration records maintained by the Trustee pursuant to Section 2.08 in the name of Cede & Co., as nominee of DTC, or such other nominee as DTC shall request pursuant to the Representation Letter, and payment of the interest on the 2024 Bonds registered in the name of Cede & Co. shall

be made on each Interest Payment Date to the account, in the manner and at the address indicated in or pursuant to the Representation Letter, and the 2024 Bonds shall be issued in the form of a single 2024 Bond for each stated maturity of the 2024 Bonds, representing the aggregate principal amount of the 2024 Bonds of such maturity. The Authority and the Trustee may treat DTC (or its nominee) as the sole and exclusive owner of the 2024 Bonds registered in its name for the purposes of payment of the interest on or principal of such 2024 Bonds, for giving any notice permitted or required to be given to Holders hereunder, for registering the transfer of 2024 Bonds, for obtaining any consent or other action to be taken by Holders of the 2024 Bonds and for all other purposes whatsoever; and neither the Authority nor the Trustee shall be affected by any notice to the contrary, and neither the Authority nor the Trustee shall have any responsibility or obligation to any Participant (which shall mean, for purposes of this section, securities brokers and dealers, banks, trust companies, clearing corporations and other entities, some of whom directly or indirectly own DTC), any person claiming a beneficial ownership interest in the 2024 Bonds under or through DTC or any Participant, or any other person whom is not shown on the registration records as being a Holder of 2024 Bonds, with respect to (i) the accuracy of any records maintained by DTC or any Participant, (ii) the payment by DTC or any Participant of any amount in respect of the interest on or principal of the 2024 Bonds, (iii) any notice which is permitted or required to be given to Holders of 2024 Bonds hereunder, or (iv) any consent given or other action taken by DTC as a Holder of 2024 Bonds. The Trustee shall pay the interest on and principal of the 2024 Bonds at the times, to the accounts, at the addresses and otherwise in accordance with the Representation Letter, and all such payments shall be valid and effective to satisfy fully and discharge the Authority's obligations with respect to the interest on or principal of the 2024 Bonds to the extent of the sum or sums so paid. Upon delivery by DTC to the Trustee of written notice to the effect that DTC has determined to substitute a new nominee in place of its then existing nominee, the 2024 Bonds will be transferable to such new nominee in accordance with the last paragraph of this section.

In the event that the Authority determines that it is in the best interests of the beneficial owners of the 2024 Bonds that they be able to obtain definitive 2024 Bonds, the Trustee shall, upon receipt of a Written Request of the Authority, so notify DTC, whereupon DTC shall notify the Participants of the availability through DTC of definitive 2024 Bonds, and in such event, the 2024 Bonds will be transferable in accordance with the last paragraph of this section. DTC may determine to discontinue providing its services with respect to the 2024 Bonds at any time by giving written notice of such discontinuance to the Authority or the Trustee and discharging its responsibilities with respect thereto under applicable law, and in such event the 2024 Bonds will be transferable in accordance with the last paragraph of this section. Whenever DTC requests the Authority and the Trustee to do so, the Authority and the Trustee will cooperate with DTC in taking appropriate action after reasonable notice to arrange for another securities depository to maintain custody of all certificates evidencing the 2024 Bonds then Outstanding, and in such event, the 2024 Bonds will be transferable to such securities depository in accordance with the last paragraph of this section, and thereafter all references herein to DTC or its nominee shall be deemed to refer to such successor securities depository and its nominee, as appropriate.

So long as all 2024 Bonds Outstanding are registered in the name of any nominee of DTC, all payments with respect to the interest on and principal of the 2024 Bonds and all notices with respect to the 2024 Bonds shall be made and given to DTC as provided in the Representation Letter.

The Trustee is hereby authorized and requested to execute and deliver the Representation Letter and, in connection with any successor nominee of DTC or any successor depository, enter into comparable arrangements, and shall have the same rights with respect to its actions thereunder as it has with respect to its actions hereunder.

In the event that any transfer or exchange of 2024 Bond is authorized under the first or second paragraphs of this section, such transfer or exchange shall be accomplished upon receipt by the Trustee from the registered owner thereof of the 2024 Bonds to be transferred or exchanged and appropriate instruments of transfer to the permitted transferee, all in accordance with the applicable provisions of Sections 2.06 and 2.07. In the event that definitive 2024 Bonds are issued to Holders other than Cede & Co., its successor as nominee of DTC as Holder of all the 2024 Bonds, another securities depository as Holder of all the 2024 Bonds, or the nominee of such successor securities depository, the provisions of Sections 2.06 and 2.07 shall also apply to, among other things, the registration, exchange and transfer of the 2024 Bonds and the method of payment of the interest on and principal of the 2024 Bonds.

Section 2.12. Procedure for the Issuance of 2024 Bonds. At any time after the sale of the 2024 Bonds in accordance with the Act, the Authority shall execute the 2024 Bonds for issuance hereunder and shall deliver them to the Trustee, and thereupon the 2024 Bonds shall be authenticated and delivered by the Trustee to the purchaser thereof upon receipt of a Written Request of the Authority and upon receipt of payment therefor from such purchaser. Upon receipt of payment of the purchase price of the 2024 Bonds by the purchaser thereof (net of the premiums for the Bond Insurance Policy and the Reserve Fund Policy transferred directly by the purchaser to the Bond Insurer), the Trustee shall set aside and deposit in or transfer such net purchase price of the 2024 Bonds received from such sale to the following respective accounts or funds:

(a) The Trustee shall transfer the amount of \$_____ for deposit into the 2014 Escrow Fund to the Escrow Agent to provide for the prepayment and defeasance of all outstanding 2014 Bonds.

(b) The Trustee shall deposit in the “Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 Costs of Issuance Fund” (which fund is hereby created and which fund the Trustee hereby agrees to maintain until _____, 2024), the sum of \$_____. All money in the Costs of Issuance Fund shall be used and withdrawn by the Trustee to pay the Costs of Issuance of the 2024 Bonds upon receipt of a Written Request of the Authority filed with the Trustee, each of which shall be sequentially numbered and shall state the person to whom payment is to be made, the amount to be paid, the purpose for which the obligation was incurred and that such payment is a proper charge against said fund. On _____, 2024, any remaining balance in the Costs of Issuance Fund shall be transferred to the 2024 Installment Payment Fund.

(c) The Trustee shall deposit the Reserve Fund Policy to the credit of the 2024 Reserve Account.

Section 2.13. Validity of 2024 Bonds. The validity of the issuance of the 2024 Bonds shall not be dependent on or affected in any way by the proceedings taken by the Authority with respect to or in connection with the 2024 Contract. The recital contained in the 2024 Bonds

that the same are issued pursuant to the Act and pursuant hereto shall be conclusive evidence of their validity and of the regularity of their issuance, and all 2024 Bonds shall be incontestable from and after their issuance. The 2024 Bonds shall be deemed to be issued, within the meaning hereof, whenever the definitive 2024 Bonds (or any temporary 2024 Bonds exchangeable therefor) shall have been delivered to the purchaser thereof and the proceeds of sale thereof received.

ARTICLE III

REVENUES

Section 3.01. Pledge of Revenues. All Revenues received by the Authority are hereby assigned by the Authority to the Trustee for the benefit of the Holders of the 2024 Bonds, and are hereby irrevocably pledged to the payment of the interest on and principal of the 2024 Bonds as provided herein, and the Revenues shall not be used for any other purpose while any of the 2024 Bonds remain Outstanding; provided, that out of the Revenues there may be applied such sums for such purposes as are permitted hereunder. This pledge shall constitute a first and exclusive pledge of and charge and lien upon the Revenues and all money on deposit in the accounts and funds established hereunder for the payment of the interest on and principal of the 2024 Bonds in accordance with the terms hereof and thereof. The Authority (to the extent of its rights, if any, in the 2024 Installment Payment Fund and all money on deposit in the accounts and funds established hereunder, although it is the intent of the parties hereto that the Authority not have any right, title or interest in or to the 2024 Installment Payment Fund or such money) hereby pledges and grants a lien on and a security interest in the 2024 Installment Payment Fund and such money to the Trustee for the benefit of the Holders. The Authority and the Trustee agree to take such action (including, if required under applicable law, the filing of financing statements and continuation statements) as may be necessary from time to time to perfect or otherwise preserve the priority of the pledge set forth above.

In order to secure the pledge of the Revenues hereunder, the Authority hereby transfers, conveys and assigns to the Trustee, for the benefit of the Holders, all of the Authority's rights under the 2024 Contract (excepting its right to indemnification thereunder), including the right to receive 2024 Installment Payments from the City, and the right to exercise any remedies provided therein in the event of a default by the City thereunder. The Trustee hereby accepts said assignment for the benefit of the Holders subject to the provisions of this 2024 Indenture.

Section 3.02. Receipt and Deposit of Revenues in the 2024 Installment Payment Fund. In order to carry out and effectuate the pledge, charge and lien contained herein, the Authority agrees and covenants that all Revenues when and as received by the Authority will be forthwith transferred by the Authority to the Trustee for deposit in the "Stockton Public Financing Authority 2024 Installment Payment Fund," which fund is hereby created and which fund the Authority hereby agrees and covenants to maintain with the Trustee so long as any 2024 Bonds are Outstanding hereunder. All money in the 2024 Installment Payment Fund shall be accounted for through and held in trust in the 2024 Installment Payment Fund by the Trustee, and the Authority shall have no beneficial right or interest in any money in the 2024 Installment Payment Fund except only as herein provided. All Revenues, whether received by the Authority or deposited with the Trustee as herein provided, shall nevertheless be allocated, applied and

disbursed solely to the purposes and uses hereinafter in this article set forth, and shall be accounted for separately and apart from all other accounts, funds, money or other resources of the Authority.

Section 3.03. Establishment and Maintenance of Accounts for Use of Money in the 2024 Installment Payment Fund. All money in the 2024 Installment Payment Fund shall be set aside by the Trustee in the following respective special accounts within the 2024 Installment Payment Fund (each of which is hereby created and each of which the Trustee hereby covenants and agrees to cause to be maintained) in the following order of priority:

Interest Account,

Redemption Account, and

2024 Reserve Account.

All money in each of such accounts shall be held in trust by the Trustee and shall be applied, used and withdrawn only for the purposes hereinafter authorized in this section.

(a) Interest Account. On March 1 and September 1 of each year, beginning on March 1, 2025, the Trustee shall set aside from the 2024 Installment Payment Fund and deposit in the Interest Account an amount of money which is equal to the amount of interest becoming due and payable on all Outstanding 2024 Bonds on such March 1 or September 1, as the case may be; provided, that no such deposit need be made in the Interest Account if the amount contained therein is at least equal to the aggregate amount of interest becoming due and payable on all Outstanding 2024 Bonds on such Interest Payment Date. All money in the Interest Account shall be used and withdrawn by the Trustee solely for the purpose of paying the interest on the 2024 Bonds as it shall become due and payable.

(b) Redemption Account. On [September 1 of each year, beginning on September 1, 2025], the Trustee shall set aside from the 2024 Installment Payment Fund and deposit in the Principal Subaccount of the Redemption Account an amount of money equal to the principal amount of all Outstanding 2024 Bonds maturing on such [September 1], provided, that no such deposit need be made in the Principal Subaccount on [September 1] of any year if the amount contained in the Principal Subaccount therein is at least equal to the aggregate amount of the principal of all Outstanding 2024 Bonds maturing by their terms on such [September 1]. All money in the Principal Subaccount in the Redemption Account shall be used and withdrawn by the Trustee solely for the purpose of paying the principal of the Serial 2024 Bonds as they shall become due and payable at maturity.

(c) 2024 Reserve Account.

(i) On [September 1] of each year, beginning on [September 1], 2025, the Trustee shall set aside from the 2024 Installment Payment Fund and deposit in the 2024 Reserve Account the amount of money necessary to restore the 2024 Reserve Account to the 2024 Reserve Requirement (taking into account the then available amount of the Reserve Fund Policy), and for this purpose all investments in each such account on [September 1] of each year (beginning on [September 1], 2025) shall be valued at the face value thereof if such investments mature within twelve (12) months from the date of such

valuation, or if such investments mature more than twelve (12) months after the date of such valuation, at the price at which such investments are redeemable by the holder, at his option, if so redeemable, or if not so redeemable, at the then current market value of such investments.

(ii) All money in the 2024 Reserve Account shall be used and withdrawn by the Trustee solely for the purpose of paying the interest on or principal of the 2024 Bonds if no other money is available in the 2024 Installment Payment Fund for such purpose; provided, that if at any time the Trustee determines that an amount in excess of the 2024 Reserve Requirement is on deposit in the 2024 Reserve Account (due to the foregoing valuation or otherwise), the Trustee shall withdraw any such excess and transfer it to the 2024 Installment Payment Fund or as otherwise directed in a Written Request of the Authority for any lawful purpose.

ARTICLE IV

COVENANTS OF THE AUTHORITY

Section 4.01. Punctual Payment and Performance. The Authority will punctually pay the interest on and principal of to become due on every 2024 Bond issued hereunder from the Revenues in strict conformity with the terms hereof and of the 2024 Bonds, and will faithfully observe and perform all the agreements, conditions, covenants and terms to be observed or performed by it contained herein and in the 2024 Bonds.

Section 4.02. Against Encumbrances. The Authority will not make any pledge of or place any charge or lien upon the Revenues except as provided herein, and will not issue any bonds, notes or obligations payable from the Revenues or secured by a pledge of or charge or lien upon the Revenues except the 2024 Bonds.

Section 4.03. Tax Covenants. The Authority will not use or permit the use of any proceeds of 2024 Bonds or any funds of the Authority, directly or indirectly, to acquire any securities or obligations and will not take or permit to be taken any other action or actions which would cause any 2024 Bonds to be “arbitrage bonds” within the meaning of Section 148 of the Code, “private activity bonds” within the meaning of Section 141(a) of the Code or “federally guaranteed” within the meaning of Section 149(b) of the Code and any applicable requirements thereunder and under Section 103(c) of the Code. The Authority will observe and will not violate the requirements of Section 148 of the Code and any applicable regulations thereunder, and the Authority will comply with all requirements of Sections 148 and 149(b) of the Code and any applicable regulations thereunder to the extent applicable to the 2024 Bonds. In the event that at any time the Authority is of the opinion that for purposes of this section it is necessary to restrict or to limit the yield on the investment of any money held by the Trustee hereunder, the Authority shall so instruct the Trustee in writing, and the Trustee shall take such action as may be necessary in accordance with such instructions.

The Authority will comply with the provisions and procedures of the Tax Certificate, and the Trustee shall only be obligated to follow the directions of the Authority agreed to be followed by it hereunder.

The Authority will not use or permit the use of any proceeds of the 2024 Bonds or any funds of the Authority, directly or indirectly, in any manner, and will not take or omit to take any action that would cause any of the 2024 Bonds to be treated as an obligation not described in Section 103(a) of the Code and any applicable regulations thereunder or which would affect the exemption of interest on the 2024 Bonds from State personal income taxes.

Notwithstanding any provisions of this section, if the Authority provides the Trustee with an Opinion of Counsel that any specified action required under this section is no longer required or that some further or different action is required to maintain the exclusion from federal income tax of interest with respect to the 2024 Bonds, the Trustee may conclusively rely on such opinion in complying with the requirements of this section, and, notwithstanding Article VI, the tax covenants hereunder shall be deemed to be modified to that extent.

Section 4.04. Accounting Records and Reports. The Authority will keep or cause to be kept proper books of record and accounts in which complete and correct entries shall be made of all transactions relating to the receipts, disbursements, allocation and application of the Revenues, and such books shall be available for inspection by the Trustee at reasonable hours and under reasonable conditions. Not more than two hundred seventy (270) days after the close of each Fiscal Year, the Authority will furnish or cause to be furnished to the Trustee audited financial statements for such Fiscal Year prepared by an Independent Certified Public Accountant. The Authority will also keep or cause to be kept such other information as required under the Tax Certificate, and the Trustee shall have no duty to review or examine such statements.

Section 4.05. Prosecution and Defense of Suits. The Authority will defend against every suit, action or proceeding at any time brought against the Trustee upon any claim to the extent arising out of the receipt, application or disbursement of any of the Revenues or to the extent involving the failure of the Authority to fulfill its obligations hereunder; provided, that the Trustee or any affected Holder at its election may appear in and defend any such suit, action or proceeding. The Authority will indemnify and hold harmless the Trustee against any and all liability claimed or asserted by any person to the extent arising out of any such failure by the Authority, and will indemnify and hold harmless the Trustee against any attorney's fees or other expenses which it may incur in connection with any litigation to which it may become a party by reason of its actions hereunder, except for any loss, cost, damage or expense resulting from the active or passive negligence, willful misconduct or breach of duty by the Trustee.

Section 4.06. Amendments to 2024 Contract. The Authority will not supplement, amend, modify or terminate any of the terms of the 2024 Contract, or consent to any such supplement, amendment, modification or termination, without the prior written consent of the Trustee, which consent shall be given only if (a) such supplement, amendment, modification or termination will not materially adversely affect the interests of the Holders or result in any material impairment of the security hereby given for the payment of the 2024 Bonds, or (b) the Trustee first obtains the written consent of the Holders of a majority in aggregate principal amount of the 2024 Bonds then Outstanding to such supplement, amendment, modification or termination; provided, that no such supplement, amendment, modification or termination shall reduce the amount of 2024 Installment Payments to be made to the Authority by the City pursuant to the 2024 Contract, or extend the time for making such 2024 Installment Payments, or permit the creation of

any lien prior to the lien created by the 2024 Contract on the Net System Revenues without the written consent of the Holders of all the 2024 Bonds then Outstanding.

Section 4.07. Continuing Disclosure. Pursuant to the 2024 Contract and the Continuing Disclosure Certificate (as defined in the 2024 Contract) the City has undertaken all responsibility for compliance with continuing disclosure requirements related to the 2024 Bonds. Notwithstanding any other provisions hereof, failure of the City to comply with the Continuing Disclosure Certificate shall not be considered an Event of Default hereunder; provided, the Trustee may (and, at the request of any Participating Underwriter or the Holders of at least twenty-five per cent (25%) in aggregate principal amount of Outstanding 2024 Bonds, shall) or any Holder or Beneficial Owner may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the City to comply with its obligations under this section.

Section 4.08. Further Assurances. Whenever and so often as reasonably requested to do so by the Trustee or any Holder, the Authority will promptly execute and deliver or cause to be executed and delivered all such other and further assurances, documents or instruments, and promptly do or cause to be done all such other and further things as may be necessary or reasonably required in order to further and more fully vest in the Holders all rights, interests, powers, benefits, privileges and advantages conferred or intended to be conferred upon them hereby.

ARTICLE V

THE TRUSTEE

Section 5.01. The Trustee. U.S. Bank Trust Company, National Association at its Principal Corporate Trust Office, is hereby appointed Trustee for the purpose of receiving all money which the Authority is required to transfer to it hereunder and for applying and using such money as provided herein for the purpose of paying the interest on and principal of the 2024 Bonds

The Authority may remove the Trustee initially appointed and any successor thereto and may appoint a successor or successors thereto by an instrument in writing; provided, that any such successor shall be a bank or trust company doing business and having a corporate trust office in Los Angeles or San Francisco, California, having a combined capital (exclusive of borrowed capital) and surplus of at least one hundred million dollars (\$100,000,000) and subject to supervision or examination by a federal or state banking authority. If such bank or trust company publishes a report of condition at least annually, pursuant to law or to the requirements of any supervising or examining authority above referred to, then for the purpose of this section the combined capital and surplus of such bank or trust company shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. The Trustee may at any time resign by giving written notice of such resignation to the Authority and to the Holders, and upon receiving such notice of resignation, the Authority shall promptly appoint a successor Trustee by an instrument in writing having the qualifications required hereby. Any resignation or removal of a Trustee and appointment of a successor Trustee shall become effective only upon the acceptance of appointment by the successor Trustee. If within thirty (30) days after notice of the removal or resignation of the Trustee no successor Trustee shall have been appointed by the

Authority and shall have accepted such appointment, the removed or resigning Trustee may petition any court of competent jurisdiction for the appointment of a successor Trustee, which court may thereupon, after such notice, if any, as it may deem proper and prescribe and as may be required by law, appoint a successor Trustee having the qualifications required hereby.

The Trustee is hereby authorized to pay interest on the 2024 Bonds due on or before the maturity to the Holders as their names appear at the close of business as of the Record Date next preceding each Interest Payment Date on the registration books required to be kept by it pursuant to Section 2.08 as the registered owners thereof, such interest to be paid by check mailed by first class mail to the Holders at their addresses appearing on such books (except that upon the written request of any Holder of one million dollars (\$1,000,000) or more in aggregate principal amount of 2024 Bonds received by the Trustee prior to the applicable Record Date (which such request shall remain in effect until rescinded in writing by such Holder), interest shall be paid on each Interest Payment Date by wire transfer of immediately available funds to an account maintained in any bank or trust company in the United States of America that is a member of the Federal Reserve System designated in writing by such Holder) and to pay to the Holders the principal of the 2024 Bonds upon presentation and surrender of the 2024 Bonds to the Trustee at maturity. The Trustee shall cancel and destroy all 2024 Bonds paid by it at maturity and all 2024 Bonds surrendered to it by the Authority, and shall deliver to the Authority a certificate of such destruction, and the Trustee shall keep accurate records of all 2024 Bonds cancelled and destroyed by it hereunder. All money held by or on behalf of the Trustee for the payment of the interest on or principal of the 2024 Bonds at maturity shall be held in trust for the account of the Holders thereof, and the Trustee shall not be required to pay Holders or the Authority any interest on, or be liable to the Authority, the Holders or any other person for any interest earned on, any money so held.

Any company into which the Trustee shall be merged or converted or with which it may be consolidated or any company resulting from any merger, conversation or consolidation to which it shall be a party or any company to which the Trustee may sell or transfer all or substantially all of its corporate trust business, so long as such company shall meet the requirements set forth in this section, shall be the successor to the Trustee and shall be vested with all of the trusts, powers, discretions, immunities, privileges and all other matters as was its predecessor, without the execution or filing of any paper or further act, anything herein to the contrary notwithstanding

Section 5.02. Liability of Trustee. The recitals of facts, agreements and covenants contained herein and in the 2024 Bonds shall be taken as statements, agreements and covenants of the Authority, and the Trustee shall not assume any responsibility for the correctness of the same and does not make any representation as to the sufficiency or validity hereof or of the 2024 Bonds or of the 2024 Contract, and shall not incur any responsibility in respect thereof other than in connection with the rights and obligations expressly assigned to or imposed upon it herein or in the 2024 Bonds, and shall not be liable in connection with the performance of its duties hereunder except for its own negligence or willful misconduct. The Trustee shall not be liable for any error of judgment made in good faith, unless it shall be proved that the Trustee was negligent in ascertaining the pertinent facts, and no provision hereof shall require the Trustee to expend or risk its own funds or otherwise incur any liability for the performance of its duties hereunder, or

in the exercise of any of its rights or powers hereunder, if repayment of such funds, or adequate indemnity satisfactory to it against such risks or liability, is not assured to it.

The Trustee shall not be liable for any error of judgment made in good faith by a responsible officer unless it shall be proved that the Trustee was negligent in ascertaining the pertinent facts, and the Trustee shall be entitled to advice of counsel concerning all matters of trust and its duties hereunder; provided, that the Trustee shall not be answerable for the negligence or misconduct of any attorney or certified public accountant selected by it with due care.

The Trustee shall, prior to an Event of Default, and after the curing or waiver of all Events of Default that may have occurred, perform such duties and only such duties as are specifically set forth herein, and no implied duties or obligations shall be read herein against the Trustee. The Trustee shall, during the existence of any Event of Default (that has not been cured or waived), exercise such of the rights and powers vested in it hereby, and use the same degree of care and skill in their exercise, as a prudent man would exercise or use under the circumstances in the conduct of his own affairs.

The Trustee shall not be bound to recognize any person as the Holder of a 2024 Bonds unless and until such 2024 Bond is submitted for inspection, if required, and such Holder's title thereto satisfactorily established, if disputed.

The Trustee shall not be liable with respect to any action taken or omitted to be taken by it in good faith in accordance with the direction of the Holders of not less than a majority in aggregate principal amount of the 2024 Bonds at the time Outstanding relating to the time, method and place of conducting any proceedings for any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee hereunder.

The Trustee shall be under no obligation to exercise any of the rights or powers vested in it hereby at the request, order or direction of any of the Holders pursuant to the provisions hereof unless such Holders shall have offered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities that may be incurred therein or thereby. The Trustee has no obligation or liability to the Holders for the payment of the interest on and principal of the 2024 Bonds from its own funds, but rather the Trustee's obligations shall be limited to the performance of its duties and obligations hereunder.

The Trustee shall not be deemed to have knowledge of any Event of Default hereunder unless and until an officer at the Trustee's Principal Corporate Trust Office responsible for the administration of the Trustee's duties and obligations hereunder shall have actual knowledge thereof or the Trustee shall have received written notice thereof at its Principal Corporate Trust Office. The Trustee shall not be bound to ascertain or to inquire as to the performance or observance of any of the agreements, conditions, covenants or terms herein or of any of the documents executed in connection with the 2024 Bonds, or as to the existence of an Event of Default hereunder.

The Trustee shall be entitled to advice of counsel and other professionals concerning all matters of trust and its duty hereunder, but the Trustee shall not be answerable for the professional malpractice of any attorney-at-law or certified public accountant in connection

with the rendering of professional advice in accordance with the terms hereof, if such attorney-at-law or certified public accountant was selected by the Trustee with due care.

No provision hereof shall require the Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance or exercise of any of its duties hereunder, or in the exercise of its rights or powers.

The Trustee shall have no responsibility, opinion or liability with respect to any information, statement or recital in any offering memorandum or other disclosure material prepared or distributed with respect to the issuance of the 2024 Bonds.

All immunities, indemnifications and releases from liability granted herein to the Trustee shall extend to the directors, employees, officers and agents thereof.

Section 5.03. Compensation and Indemnification of Trustee. The Authority agrees to pay to the Trustee from time to time, and the Trustee shall be entitled to, reasonable compensation for all services rendered by it in the exercise and performance of any of the duties and obligations of the Trustee hereunder, and the Authority will pay or reimburse the Trustee upon its request for all expenses, disbursements and advances incurred or made by the Trustee and its affiliates, directors, employees or agents in accordance with any of the provisions hereof (including the reasonable compensation and the expenses and disbursements of its counsel and of all persons not regularly in its employ) except any such expense, disbursement or advance as may arise from its negligence, default or willful misconduct. The Authority, to the extent permitted by law, agrees to indemnify, defend and hold harmless the Trustee against any loss, damages, liability or expense incurred without negligence or bad faith on the part of the Trustee arising out of or in connection with (i) the exercise or performance of any of its duties or obligations hereunder, or (ii) any untrue statement or alleged untrue statement of any material fact or omission or alleged omission to state a material fact necessary to make the statements made, in the light of the circumstances under which they were made, not misleading in any official statement or other offering circular utilized in connection with the sale of any of the 2024 Bonds, including costs and expenses (including attorneys' fees) of defending itself against any claim or liability in connection with the exercise or performance of any of its duties and obligations hereunder. The rights of the Trustee and the obligations of the Authority under this section shall survive the discharge of the 2024 Bonds and hereof and the resignation or removal of the Trustee.

Section 5.04. Notice to the Trustee. The Trustee shall be protected in acting upon any 2024 Bonds, certificate, consent, notice, opinion, report, request, resolution or other document or paper believed by it to be genuine and to have been signed or presented by the proper party or parties. The Trustee may consult with counsel, including, without limitation, counsel to the Authority, with regard to legal questions, and the opinion of such counsel shall be full and complete authorization and protection with respect to any action taken or suffered hereunder in good faith and in accordance therewith.

Whenever in the administration of its rights and obligations hereunder the Trustee shall deem it necessary or desirable that a matter be established or proved prior to taking or suffering any action hereunder, such matter (unless other evidence in respect thereof be herein specifically prescribed) may, in the absence of bad faith on the part of the Trustee, be deemed to

be conclusively established or proved by a Certificate of the Authority, which shall be full warrant to the Trustee for any action taken or suffered under the provisions hereof upon the faith thereof, and on which the Trustee may conclusively rely, but in its discretion the Trustee may, in lieu thereof, accept other evidence of such matter or may require such additional evidence as it may deem reasonable.

ARTICLE VI

AMENDMENT OF THE 2024 INDENTURE

Section 6.01. Amendment of the 2024 Indenture.

(a) The 2024 Indenture and the rights and obligations of the Authority and of the Holders may be amended at any time by a Supplemental Indenture which shall become binding when the written consents of the Holders of a majority in aggregate principal amount of the 2024 Bonds then Outstanding, exclusive of 2024 Bonds disqualified as provided in Section 6.02, are filed with the Trustee; provided, that before executing any such Supplemental Indenture the Trustee shall first be provided at the Authority's expense with an Opinion of Counsel that such Supplemental Indenture is permitted by the 2024 Indenture, on which opinion the Trustee may conclusively rely. No such amendment shall (1) extend the maturity of or reduce the interest rate on or amount of interest on or principal any 2024 Bonds without the express written consent of the Holder of such 2024 Bonds, or (2) permit the creation by the Authority of any pledge of or charge or lien upon the Revenues as provided herein superior to or on a parity with the pledge, charge and lien created hereby for the benefit of the 2024 Bonds, or (3) reduce the percentage of 2024 Bonds required for the written consent to any such amendment, or (4) modify any duties or obligations of the Authority or the Trustee without their prior written assent thereto, respectively.

(b) The 2024 Indenture and the rights and obligations of the Authority and of the Holders may also be amended at any time by a Supplemental Indenture which shall become binding upon adoption without the consent of any Holders, but only to the extent permitted by law, for any purpose that will not materially adversely affect the interests of the Holders, including (without limitation) for any one or more of the following purposes --

(i) to add to the agreements and covenants required herein to be performed by the Authority other agreements and covenants thereafter to be performed by the Authority, or to surrender any right or power reserved herein to or conferred herein on the Authority;

(ii) to make such provisions for the purpose of curing any ambiguity or of correcting, curing or supplementing any defective provision contained herein or in regard to questions arising hereunder which the Authority may deem desirable or necessary and not inconsistent herewith;

(iii) to add to the agreements and covenants required herein, such agreements and covenants as may be necessary to qualify the 2024 Indenture under the Trust Indenture Act of 1939;

(iv) to make any amendments or supplements necessary or appropriate to preserve or protect the exclusion of interest on the 2024 Bonds from gross income for federal income tax purposes under the Code or the exemption of such interest from State personal income taxes;

(v) to make such amendments or supplements as may be necessary or appropriate to maintain any then current rating on the 2024 Bonds; or

(vi) to add to the rights of the Trustee;

provided, that before executing any such Supplemental Indenture the Trustee shall first be provided at the Authority's expense with an Opinion of Counsel that such Supplemental Indenture is permitted by the 2024 Indenture, on which opinion the Trustee may conclusively rely.

Section 6.02. Disqualified 2024 Bonds. 2024 Bonds owned or held by or for the account of the Authority shall not be deemed Outstanding for the purpose of any consent or other action or any calculation of Outstanding 2024 Bonds provided in this article, and shall not be entitled to consent to or take any other action provided in this article.

Section 6.03. Endorsement or Replacement of 2024 Bonds After Amendment. After the effective date of any action taken as hereinabove provided, the Authority may determine that the 2024 Bonds may bear a notation by endorsement in form approved by the Authority as to such action, and in that case upon demand of the Holder of any Outstanding 2024 Bonds and presentation of such Holder's 2024 Bonds for such purpose at the Principal Corporate Trust Office of the Trustee, a suitable notation as to such action shall be made on such 2024 Bonds. If the Authority shall so determine, new 2024 Bonds so modified as, in the opinion of the Authority, shall be necessary to conform to such action shall be prepared and executed, and in that case upon demand of the Holder of any Outstanding 2024 Bonds a new 2024 Bonds or 2024 Bonds shall be exchanged at the Principal Corporate Trust Office of the Trustee without cost to each Holder for its 2024 Bonds or 2024 Bonds then Outstanding upon surrender of such Outstanding 2024 Bonds.

Section 6.04. Amendment by Mutual Consent. The provisions of this article shall not prevent any Holder from accepting any amendment as to the particular 2024 Bonds held by him; provided, that due notation thereof is made on such 2024 Bonds.

ARTICLE VII

EVENTS OF DEFAULT AND REMEDIES OF HOLDERS

Section 7.01. Events of Default. The following events shall constitute "Events of Default" hereunder:

(a) if default shall be made by the Authority in the due and punctual payment of the interest on any 2024 Bonds when and as the same shall become due and payable;

(b) if default shall be made by the Authority in the due and punctual payment of the principal of any 2024 Bonds when and as the same shall become due and payable at maturity;

(c) if default shall be made by the Authority in the performance of any of the agreements or covenants contained herein required to be performed by the Authority, and such default shall have continued for a period of thirty (30) days after the Authority shall have been given notice in writing of such default by the Trustee;

(d) if the Authority shall file a petition or answer seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if a court of competent jurisdiction shall approve a petition filed with or without the consent of the Authority seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if under the provisions of any other law for the relief or aid of debtors any court of competent jurisdiction shall assume custody or control of the Authority or of the whole or any substantial part of its property; or

(e) If an Event of Default (as that term is defined in the 2024 Contract) has occurred under the 2024 Contract.

Notwithstanding anything to the contrary contained herein, in no event are the 2024 Bonds subject to acceleration if an Event of Default occurs and is continuing.

Section 7.02. Application of Funds Upon Default. All money in the accounts and funds provided in Sections 2.12, 3.02 and 3.03 upon the date of the declaration of an Event of Default by the Trustee as provided in Section 7.01 and all Revenues thereafter received by the Authority hereunder shall be transmitted to the Trustee and shall be applied by the Trustee in the following order--

First, to the payment of the costs and expenses of the Trustee, if any, in carrying out the provisions of this article, including any outstanding fees and expenses of the Trustee and including reasonable compensation to its accountants and counsel, and thereafter to the payment of the costs and expenses of the Holders in providing for the declaration of such Event of Default, including reasonable compensation to their accountants and counsel;

Second, to the payment of the Holders entitled thereto of all installments of interest then due on the 2024 Bonds, in the order of the maturity of the installments of such interest, and if the amount available shall not be sufficient to pay in full any particular installment, then to the payment ratably, according to the amounts due on such installment, to the Holders entitled thereto, without any discrimination or privilege;

Third, to the payment of the Holders entitled thereto of the unpaid principal of the 2024 Bonds which shall have become due (other than 2024 Bonds matured) in the order of their due dates, and if the amount available shall not be sufficient to pay in full the principal of such 2024 Bonds due on any particular date, then to the payment ratably, according to the amount due on such date, to the Holders entitled thereto without any discrimination or privilege; and

Fourth, to be held for the payment to the Holders entitled thereto as the same shall become due of the principal of and interest on the 2024 Bonds which may thereafter become due at maturity, and if the amount available shall not be sufficient to pay in full such principal due on

any particular date, together with interest then due and owing thereon, payment shall be made in accordance with the Second and Third paragraphs hereof.

Section 7.03. Institution of Legal Proceedings by Trustee. If one or more of the Events of Default shall happen and be continuing, the Trustee may, and upon the written request of the Holders of a majority in principal amount of the 2024 Bonds then Outstanding (so long as the Trustee is indemnified to its satisfaction therefor) shall, proceed to protect or enforce its rights or the rights of the Holders of 2024 Bonds hereunder by a suit in equity or action at law, either for the specific performance of any agreement or covenant contained herein, or in aid of the execution of any power herein granted, or by mandamus or other appropriate proceeding for the enforcement of any other legal or equitable remedy as the Trustee shall deem most effectual in support of any of its rights and duties hereunder.

Section 7.04. Non-Waiver. Nothing in this article or in any other provision hereof or in the 2024 Bonds shall affect or impair the obligation of the Authority, which is absolute and unconditional, to pay the interest on and principal of the 2024 Bonds to the respective Holders of the 2024 Bonds at the respective dates of maturity from the Revenues and the funds held in the accounts and funds as provided herein pledged for such payment, or (except as provided in Section 7.07) shall affect or impair the right of such Holders, which is also absolute and unconditional, to institute suit to enforce such payment by virtue of the contract embodied herein and in the 2024 Bonds.

A waiver of any default or breach of duty or contract by the Trustee or any Holder shall not affect any subsequent default or breach of duty or contract or impair any rights or remedies on any such subsequent default or breach of duty or contract. No delay or omission by the Trustee or any Holder to exercise any right or remedy accruing upon any default or breach of duty or contract shall impair any such right or remedy or shall be construed to be a waiver of any such default or breach of duty or contract or an acquiescence therein, and every right or remedy conferred upon the Holders by the Act or by this article may be enforced and exercised from time to time and as often as shall be deemed expedient by the Trustee or the Holders.

If any action, proceeding or suit to enforce any right or exercise any remedy is abandoned, the Authority, the Trustee and any Holder shall be restored to their former positions, rights and remedies as if such action, proceeding or suit had not been brought or taken.

Section 7.05. Actions by Trustee as Attorney-in-Fact. Any action, proceeding or suit which any Holder shall have the right to bring to enforce any right or remedy hereunder may be brought by the Trustee for the equal benefit and protection of all Holders, whether or not the Trustee is a Holder, and the Trustee is hereby appointed (and the successive Holders, by taking and holding the 2024 Bond issued hereunder, shall be conclusively deemed to have so appointed it) the true and lawful attorney-in-fact of the Holders for the purpose of bringing any such action, proceeding or suit and for the purpose of doing and performing any and all acts and things for and on behalf of the Holders as a class or classes as may be advisable or necessary in the opinion of the Trustee as such attorney-in-fact.

Section 7.06. Remedies Not Exclusive. No remedy herein conferred upon or reserved to the Holders is intended to be exclusive of any other remedy, and each such remedy

shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise and may be exercised without exhausting and without regard to any other remedy conferred by the Act or any other law.

Section 7.07. Limitation on 2024 Bondholders' Right to Sue. No Holder of any 2024 Bond issued hereunder shall have the right to institute any suit, action or proceeding, at law or equity, for any remedy hereunder unless (a) such Holder shall have previously given to the Trustee written notice of the occurrence of an Event of Default; (b) the Holders of at least a majority in aggregate principal amount of all the 2024 Bonds then Outstanding shall have made written request upon the Trustee to exercise the powers hereinbefore granted or to institute such suit, action or proceeding in its own name; (c) such Holders shall have tendered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities to be incurred in compliance with such request; and (d) the Trustee shall have refused or omitted to comply with such request for a period of sixty (60) days after such request shall have been received by, and such tender of indemnity shall have been made to, the Trustee.

Each such notification, request, tender of indemnity and refusal or omission are hereby declared, in every case, to be conditions precedent to the exercise by any Holder of 2024 Bonds of any remedy hereunder; it being understood and intended that no one or more Holders shall have any right in any manner whatever by his or their action to enforce any right hereunder except in the manner herein provided, and that all proceedings at law or in equity to enforce any provision hereof shall be instituted and maintained in the manner herein provided and for the equal benefit of all Holders of Outstanding 2024 Bonds.

ARTICLE VIII

DEFEASANCE

Section 8.01. Discharge of 2024 Bonds.

(a) If the Authority shall pay or cause to be paid or there shall otherwise be paid to the Holders of all Outstanding 2024 Bonds the interest thereon and the principal thereof at the times and in the manner stipulated herein, then the Holders of such 2024 Bonds shall cease to be entitled to the pledge of and charge and lien upon the Revenues as provided herein, and all agreements, covenants and other obligations of the Authority to the Holders of such 2024 Bonds hereunder shall thereupon cease, terminate and become void and be discharged and satisfied. In such event, the Trustee shall execute and deliver to the Authority all such instruments as may be necessary or desirable to evidence such discharge and satisfaction, and the Trustee shall pay over or deliver to the Authority all money or securities held by it pursuant hereto which are not required for the payment of the interest on and principal of such 2024 Bonds and for the payment of any fees and expenses of the Trustee.

(b) Any Outstanding 2024 Bonds shall on the maturity dates thereof be deemed to have been paid within the meaning of and with the effect expressed in subsection (a) of this section if there shall be on deposit with the Trustee money which is sufficient to pay the interest on and principal of such 2024 Bonds on the maturity dates thereof.

(c) Any Outstanding 2024 Bonds shall prior to the maturity dates thereof be deemed to have been paid within the meaning of and with the effect expressed in subsection (a) of this section (except that the Authority shall remain liable for the payment of such 2024 Bonds, but only out of the money or securities deposited with the Trustee or an Escrow Agent) if (1) there shall have been deposited with the Trustee or with an Escrow Agent in trust for the benefit of the Holders thereof either (A) money in an amount which shall be sufficient to pay when due the interest to become due on such 2024 Bonds on and prior to the maturity dates thereof and the principal to become due on such 2024 Bonds on such maturity dates, or (B) (a) Permitted Investments of the type described in clause (1) of the definition thereof which are not subject to redemption prior to maturity (including any such Permitted Investments issued or held in book-entry form on the books of the Treasury of the United States of America) or (b) tax exempt obligations of a state or political subdivision thereof which have been defeased under irrevocable escrow instructions by the deposit of such money or Permitted Investments and which are then rated in the highest rating category by Moody's and S&P, the interest on and principal of which when paid will provide money which, together with the money, if any, deposited with the Trustee or such Escrow Agent at the same time, will be sufficient, in the opinion of an Independent Certified Public Accountant addressed to the Trustee, to pay when due the interest to become due on such 2024 Bonds on and prior to the maturity dates thereof, and the principal to become due on such 2024 Bonds on such maturity dates, and (2) the Authority shall have given the Trustee in form satisfactory to it irrevocable instructions to mail as soon as practicable a notice to the Holders of such 2024 Bonds that the deposit required above has been made with the Trustee or such Escrow Agent and that such 2024 Bonds are deemed to have been paid in accordance with this section and stating the maturity date upon which money is to be available for the payment of the principal of such 2024 Bonds.

(d) After the payment of the interest on and principal of the 2024 Bonds as provided in this section, the Trustee shall, after the payment of all amounts due the Trustee hereunder, execute and deliver to the Authority all such instruments as may be necessary or desirable to evidence the discharge and satisfaction of the 2024 Indenture, and the Trustee shall pay over or deliver to the Authority all money or deposits or investments held by it pursuant hereto which are not required for the payment of the interest and principal on the 2024 Bonds.

Section 8.02. Unclaimed Money. Anything contained herein to the contrary notwithstanding, if any money is held by the Trustee in trust for the payment and discharge of the interest on or principal of the 2024 Bonds after the date when the interest on or principal of such 2024 Bonds has become due and payable at their stated maturity dates and remains unclaimed for the Escheat Period, such money shall be repaid by the Trustee to the Authority as its absolute property free from trust, and the Trustee shall thereupon be released and discharged with respect thereto and the Holders shall not look to the Trustee for the payment of the interest on or principal of such 2024 Bonds; provided, that before being required to make any such payment to the Authority, the Trustee shall, at the expense of the Authority, cause to be mailed to all Holders and to the Information Services and the Securities Depositories a notice that such money remains unclaimed and that, after a date named in such notice, which date shall not be less than thirty (30) days after the date of the mailing of each such notice, the balance of such money then unclaimed will be returned to the Authority.

ARTICLE IX

PROVISIONS RELATING TO THE BOND INSURANCE POLICY AND THE RESERVE
FUND POLICY

Section 9.01. Provisions of this Article to Govern. Notwithstanding anything to the contrary set forth in this 2024 Indenture, the provisions of this Article IX shall govern this 2024 Indenture and the 2024 Bonds.

Section 9.02. Notice and Other Information to be Given to the Insurer. The Authority will provide the Insurer with all notices and other information it is obligated to provide to the holders of 2024 Bonds or the Trustee under this 2024 Indenture. The notice address of [INSURANCE PROVIDER] is set forth in Section 10.11 of this 2024 Indenture.

Section 9.03. Defeasance.

(a) The Permitted Investments purchased for any defeasance escrow relating to the 2024 Bonds under Section 8.01(c) of this 2024 Indenture shall be limited to non-callable, direct obligations of the United States of America and securities fully and unconditionally guaranteed as to the timely payment of principal and interest by the United States of America, or as otherwise may be authorized under this 2024 Indenture and approved by the Insurer.

(b) At least (three) 3 Business Days prior to any defeasance with respect to the 2024 Bonds under Section 8.01(c)(2)(B) of this 2024 Indenture, the Authority shall deliver to the Insurer draft copies of an escrow agreement, an opinion of counsel acceptable to the Insurer regarding the validity and enforceability of the escrow agreement, an opinion of bond counsel regarding the defeasance of the 2024 Bonds, and a verification report (a "Verification Report") prepared by a nationally recognized independent financial analyst or firm of certified public accountants regarding the sufficiency of the escrow fund. Such opinions and Verification Report shall be addressed to the Insurer and shall be in form and substance satisfactory to the Insurer.

(c) In addition, any escrow agreement entered into to defease 2024 Bonds under Section 8.01(c) of this 2024 Indenture shall provide that:

(i) Any substitution of securities following the execution and delivery of the escrow agreement shall require the delivery of a Verification Report, an opinion of bond counsel to the effect that such substitution will not adversely affect the exclusion from gross income of the holders of the 2024 Bonds of the interest on the 2024 Bonds for federal income tax purposes and the prior written consent of the Insurer, which consent will not be unreasonably withheld.

(ii) [Reserved].

(iii) The Authority shall not amend the escrow agreement or enter into a forward purchase agreement or other agreement with respect to rights in the escrow without the prior written consent of the Insurer.

Section 9.04. Trustee Provisions. The Trustee shall provide the Insurer with prior written notice of any name change of the Trustee. Any Trustee must be (1) a national banking association that is supervised by the Office of the Comptroller of the Currency and has at least \$250 million of assets, (2) a state-chartered commercial bank that is a member of the Federal Reserve System and has at least \$1 billion of assets, or (3) otherwise approved by the Insurer in writing. No removal, resignation or termination of the Trustee shall take effect until a successor, acceptable to the Insurer, shall be qualified and appointed.

Section 9.05. Amendments, Supplements and Consents.

(a) Any amendments or supplements to the 2024 Indenture or the 2024 Contract shall require the prior written consent of the Insurer with the exception of amendments or supplements:

(i) to cure any ambiguity or formal defect or omissions or to correct any inconsistent provisions in the transaction documents or in any supplement thereto; or

(ii) to grant or confer upon the holders of the '2024 Bonds any additional rights, remedies, powers, authority or security that may lawfully be granted to or conferred upon the holders of the 2024 Bonds; or

(iii) to add to the conditions, limitations and restrictions on the issuance of bonds or other obligations under the provisions of the 2024 Indenture or the 2024 Contract other conditions, limitations and restrictions thereafter to be observed; or

(iv) to add to the covenants and agreements of the Authority or the City in the 2024 Indenture or 2024 Contract other covenants and agreements thereafter to be observed by the Authority or the City or to surrender any right or power therein reserved to or conferred upon the Authority or the City.

(b) The Authority shall send copies of any amendments or supplements to the 2024 Indenture and the 2024 Contract to the Insurer and any rating agencies then rating the 2024 Bonds at the request of the Authority or the City.

(c) Any amendment, supplement, modification to, or waiver of, the 2024 Indenture or 2024 Contract that requires the consent of holders of the 2024 Bonds or adversely affects the rights or interests of the Insurer shall be subject to the prior written consent of the Insurer.

(d) In the event of any reorganization or liquidation of the Authority or the City, the Insurer shall have the right to vote on behalf of all holders of the 2024 Bonds on any reorganization or liquidation plan absent a continuing failure by the Insurer to make a payment under the Bond Insurance Policy.

(e) Anything in the 2024 Indenture or the 2024 Contract to the contrary notwithstanding, upon the occurrence and continuance of a default or an event of default, the Insurer shall be entitled to control and direct the enforcement of all rights and remedies granted to the holders of the 2024 Bonds or the Trustee or Paying Agent for the benefit of the holders of the

2024 Bonds under the 2024 Indenture and the 2024 Contract. No default or event of default may be waived without the Insurer's written consent.

(f) Upon the occurrence and continuance of a default or an event of default as described in Section 7.01, the Insurer shall be deemed to be the sole owner of the 2024 Bonds for all purposes under the 2024 Indenture and the 2024 Contract, including, without limitations, for purposes of exercising remedies and approving amendments.

(g) No grace period shall be permitted for payment defaults on the 2024 Bonds. No grace period for a covenant default shall exceed 30 days without the prior written consent of the Insurer.

(h) If an Insurer Default shall occur and be continuing, then, notwithstanding anything in subsections (a)-(e) above to the contrary, (1) if at any time prior to or following an Insurer Default, the Insurer has made payment under the Bond Insurance Policy or the Reserve Fund Policy, to the extent of such payment the Insurer shall be treated like any other holder of the 2024 Bonds for all purposes, including giving of consents, and (2) if the Insurer has not made any payment under the Bond Insurance Policy or the Reserve Fund Policy, the Insurer shall have no further consent rights until the particular Insurer Default is no longer continuing or the Insurer makes a payment under the Bond Insurance Policy or the Reserve Fund Policy, in which event, the foregoing clause (1) shall control. For purposes of this paragraph, "Insurer Default" means: (A) the Insurer has failed to make any payment under the Bond Insurance Policy or the Reserve Fund Policy when due and owing in accordance with its terms; or (B) the Insurer shall (i) voluntarily commence any proceeding or file any petition seeking relief under the United States Bankruptcy Code or any other Federal, state or foreign bankruptcy, insolvency or similar law, (ii) consent to the institution of or fail to controvert in a timely and appropriate manner, any such proceeding or the filing of any such petition, (iii) apply for or consent to the appointment of a receiver, trustee, custodian, sequestrator or similar official for such party or for a substantial part of its property, (iv) file an answer admitting the material allegations of a petition filed against it in any such proceeding, (v) make a general assignment for the benefit of creditors, or (vi) take action for the purpose of effecting any of the foregoing; or (C) any state or federal agency or instrumentality shall order the suspension of payments on the Bond Insurance Policy or the Reserve Fund Policy or shall obtain an order or grant approval for the rehabilitation, liquidation, conservation or dissolution of the Insurer (including without limitation under the New York Insurance Law).

Section 9.06. Insurer As Third Party Beneficiary. The Insurer is recognized as and shall be deemed to be a third party beneficiary of this 2024 Indenture and may enforce the provisions of this 2024 Indenture as if it were a party hereto.

Section 9.07. Payment Procedure Under the Bond Insurance Policy.

(a) In the event that principal and/or interest due on the 2024 Bonds shall be paid by the Insurer pursuant to the Bond Insurance Policy, the 2024 Bonds shall remain outstanding for all purposes, not be defeased or otherwise satisfied and not be considered paid by the Authority, the assignment and pledge of the Revenues and all covenants, agreements and other obligations of the Authority to the Owners of the 2024 Bonds shall continue to exist and shall run to the benefit

of the Insurer, and the Insurer shall be subrogated to the rights of such registered owners including, without limitation, any rights that such Owners may have in respect of securities law violations arising from the offer and sale of the 2024 Bonds.

(b) In the event that on the second (2nd) business day prior to any payment date on the 2024 Bonds, the Trustee has not received sufficient moneys to pay all principal of and interest on the 2024 Bonds due on such payment date, the Trustee shall immediately notify the Insurer or its designee on the same business day by telephone or electronic mail, of the amount of the deficiency. If any deficiency is made up in whole or in part prior to or on the payment date, the Trustee shall so notify the Insurer or its designee.

(c) In addition, if the Trustee has notice that any holder of the 2024 Bonds has been required to disgorge payments of principal of or interest on the 2024 Bonds pursuant to a final, non-appealable order by a court of competent jurisdiction that such payment constitutes an avoidable preference to such holder within the meaning of any applicable bankruptcy law, then the Trustee shall notify the Insurer or its designee of such fact by telephone or electronic mail, or by overnight or other delivery service as to which a delivery receipt is signed by a person authorized to accept delivery on behalf of the Insurer.

(d) The Trustee shall irrevocably be designated, appointed, directed and authorized to act as attorney-in-fact for holders of the 2024 Bonds as follows:

(i) If there is a deficiency in amounts required to pay interest and/or principal on the 2024 Bonds, the Trustee shall (1) execute and deliver to the Insurer, in form satisfactory to the Insurer, an instrument appointing the Insurer as agent and attorney-in-fact for such holders of the 2024 Bonds in any legal proceeding related to the payment and assignment to the Insurer of the claims for interest on the 2024 Bonds, (2) receive as designee of the respective holders (and not as Trustee) in accordance with the tenor of the Bond Insurance Policy payment from the Insurer with respect to the claims for interest so assigned, and (3) disburse the same to such respective holders; and

(ii) If there is a deficiency in amounts required to pay principal of the 2024 Bonds, the Trustee shall (1) execute and deliver to the Insurer, in form satisfactory to the Insurer, an instrument appointing the Insurer as agent and attorney-in-fact for such holder of the 2024 Bonds in any legal proceeding related to the payment of such principal and an assignment to the Insurer of the 2024 Bonds surrendered to the Insurer, (2) receive as designee of the respective holders (and not as Trustee) in accordance with the tenor of the Bond Insurance Policy payment therefore from the Insurer, and (3) disburse the same to such holders.

The Trustee shall designate any portion of payment of principal on Insured Obligations paid by the Insurer, whether by virtue of maturity or other advancement of maturity, on its books as a reduction in the principal amount of 2024 Bonds registered to the then current holder, whether DTC or its nominee or otherwise, and shall issue a replacement 2024 Bond to the Insurer, registered in the name directed by the Insurer, in a principal amount equal to the amount of principal so paid (without regard to authorized denominations); provided that the Trustee's failure to so designate any payment or issue

any replacement 2024 Bond shall have no effect on the amount of principal or interest payable by the Authority on any 2024 Bond or the subrogation or assignment rights of the Insurer.

(e) Payments with respect to claims for interest on and principal of 2024 Bonds disbursed by the Trustee from proceeds of the Bond Insurance Policy shall not be considered to discharge the obligation of the Authority with respect to such 2024 Bonds, and the Insurer shall become the owner of such unpaid 2024 Bonds and claims for the interest in accordance with the tenor of the assignment made to it under the provisions of the preceding paragraphs or otherwise.

(f) Irrespective of whether any such assignment is executed and delivered, the Authority and Trustee agree for the benefit of the Insurer that:

(i) They recognize that to the extent the Insurer makes payments directly or indirectly (e.g., by paying through the Trustee), on account of principal of or interest on the 2024 Bonds, the Insurer will be subrogated to the rights of such holders to receive the amount of such principal and interest from the Authority, with interest thereon, as provided and solely from the sources stated in the 2024 Indenture and 2024 Contract and the 2024 Bonds; and

(ii) They will accordingly pay to Insurer the amount of such principal and interest, with interest thereon as provided in the 2024 Indenture and 2024 Contract and the 2024 Bonds, but only from the sources and in the manner provided therein for the payment of principal of and interest on the 2024 Bonds to holders, and will otherwise treat the Insurer as the owner of such rights to the amount of such principal and interest.

Section 9.08. Exercise of Rights by the Insurer. The rights granted to the Insurer under the 2024 Indenture and the 2024 Contract to request, consent to or direct any action are rights granted to the Insurer in consideration of its issuance of the Bond Insurance Policy. Any exercise by the Insurer of such rights is merely an exercise of the Insurer's contractual rights and shall not be construed or deemed to be taken for the benefit, or on behalf, of the holders of the 2024 Bonds and such action does not evidence any position of the Insurer, affirmative or negative, as to whether the consent of the holders of the 2024 Bonds or any other person is required in addition to the consent of the Insurer.

Section 9.09. Payment of Principal and Interest by the Insurer. The Insurer shall be entitled to pay principal of or interest on the 2024 Bonds that shall become Due for Payment but shall be unpaid by reason of Nonpayment by the Issuer (as such terms are defined in the Bond Insurance Policy) in accordance with the 2024 Indenture, whether or not the Insurer has received a claim upon the Bond Insurance Policy.

Section 9.10. 2024 Reserve Account.

(a) The prior written consent of the Insurer shall be a condition precedent to the deposit of any credit instrument provided in lieu of a cash deposit into the 2024 Reserve Account, if any (each a "Reserve Fund Credit Instrument"). Amounts on deposit in the 2024 Reserve Account shall be applied solely to the payment of debt service due on the 2024 Bonds in accordance with the 2024 Indenture.

(b) All cash and investments in the 2024 Reserve Account shall be transferred to the Interest Account and the Redemption Account for the payment of the debt service on the 2024 Bonds before any drawing may be made on the Reserve Fund Policy or any other Reserve Fund Credit Instrument in lieu of cash.

(c) Payment of any Policy Costs shall be made prior to the replenishment of any cash amounts. Draws on all Reserve Fund Credit Instruments (including the Reserve Fund Policy) on which there is available coverage shall be made on a pro-rata basis (calculated by reference to the coverage then available thereunder) after applying all available cash and investments in the 2024 Reserve Account. Payment of Policy Costs and reimbursement of amounts with respect to other Reserve Fund Credit Instruments shall be made on a pro-rata basis prior to replenishment of any cash drawn from the 2024 Reserve Account. For the avoidance of doubt, “available coverage” means the coverage then available for disbursement pursuant to the terms of the applicable Reserve Fund Credit Instrument without regard to the legal or financial ability or willingness of the provider of such Reserve Fund Credit Instrument to honor a claim or draw thereon or the failure of such provider to honor any such claim or draw.

(d) Repayment of draws under the Reserve Fund Policy and payment of expenses and accrued interest thereon at the Late Payment Rate (collectively, “Policy Costs”) shall commence in the first month following each draw, and each such monthly payment shall be in an amount at least equal to 1/12 of the aggregate Policy Costs related to such draw.

(e) Amounts in respect of Policy Costs paid to the Insurer shall be credited first to interest due, then to expenses due and then to principal due. As and to the extent that payments are made to the Insurer on account of principal due, the coverage under the Reserve Fund Policy will be increased by a like amount, subject to the terms of the Reserve Fund Policy.

(f) Draws under the Reserve Fund Policy may only be used to make payments on the 2024 Bonds.

(g) If the City shall fail to pay any Policy Costs in accordance with the requirements of Section 8.06 of the 2024 Contract, the Insurer shall be entitled to exercise any and all legal and equitable remedies available to it, including those provided under this 2024 Indenture and the 2024 Contract other than (i) acceleration of the maturity of the 2024 Bonds or the 2024 Installment Payments, or (ii) remedies which would adversely affect the owners of the 2024 Bonds.

(h) The 2024 Indenture shall not be discharged until all Policy Costs owing to the Insurer shall have been paid in full. The City’s obligation to pay such amount shall expressly survive payment in full of the 2024 Bonds.

(i) The Trustee shall ascertain the necessity for a claim upon the Reserve Fund Policy in accordance with the provisions of this Section 9.10 and provide notice to the Insurer at least two (2) business days prior to each date upon which interest or principal is due on the 2024 Bonds.

(j) The Reserve Fund Policy shall expire on the earlier of the date the 2024 Bonds are no longer Outstanding and the final maturity date of the 2024 Bonds.

ARTICLE X

MISCELLANEOUS

Section 10.01. Liability of Authority Limited to Revenues and Certain Other Funds. Notwithstanding anything contained herein, the Authority shall not be required to advance any money derived from any source other than the Revenues and the funds held in the accounts and funds as provided herein for the payment of the interest on or principal of the 2024 Bonds or for the performance of any agreements or covenants herein contained; provided, that the Authority may, however, advance funds for any such purpose so long as such funds are derived from a source legally available for such purpose without incurring an indebtedness.

The 2024 Bonds are limited obligations of the Authority and are payable, as to interest thereon and principal thereof, solely from the Revenues and the funds held in the accounts and funds provided herein, and the Authority is not obligated to pay such interest or principal on the 2024 Bonds except from the Revenues and such funds. All the 2024 Bonds are equally and ratably secured by a pledge of and charge and lien upon the Revenues and such funds, and the Revenues and such funds constitute a trust fund for the security and payment of the interest on and principal of the 2024 Bonds as provided herein. The full faith and credit of the Authority is not pledged for the payment of the interest on or principal of the 2024 Bonds, and no tax shall ever be levied or collected to pay the interest on or principal of the 2024 Bonds. The 2024 Bonds are not secured by a legal or equitable pledge of or charge or lien upon any property of the Authority or any of its income or receipts except the Revenues and such funds. Neither the payment of the interest on or principal of the 2024 Bonds is a debt, liability or general obligation of the City or the State and neither the faith and credit of the City or the State are pledged to the payment of interest on or principal of the 2024 Bonds.

Section 10.02. Benefits of the 2024 Indenture Limited to Parties and Beneficiaries. Nothing contained herein, expressed or implied, is intended or shall be construed to confer upon, or to give or grant to, any person or entity other than the Authority, the Trustee, and the Holders any right, remedy or claim under or by reason hereof or any covenant, condition or stipulation hereof; and all covenants, stipulations, promises and agreements herein contained by and on behalf of the Authority shall be for the sole and exclusive benefit of the Authority, Trustee, and the Holders.

Section 10.03. Successor Is Deemed Included In All References To Predecessor. Whenever herein either the Authority or any officer thereof is named or referred to, such reference shall be deemed to include the successor to the powers, duties and functions that are presently vested in the Authority or such officer, and all agreements and covenants required hereby to be performed by or on behalf of the Authority or any officer thereof shall bind and inure to the benefit of the respective successors thereof whether so expressed or not.

Section 10.04. Execution of Documents by Holders. Any declaration, request or other instrument which is permitted or required herein to be executed by Holders may be in one or more instruments of similar tenor and may be executed by Holders in person or by their attorneys appointed in writing. The fact and date of the execution by any Holder or his attorney of any declaration, request or other instrument or of any writing appointing such attorney may be proved

by the certificate of any notary public or other officer authorized to make acknowledgments of deeds to be recorded in the state or territory in which he purports to act that the person signing such declaration, request or other instrument or writing acknowledged to him the execution thereof, or by an affidavit of a witness of such execution duly sworn to before such notary public or other officer. The ownership of any 2024 Bonds and the amount, maturity, number and date of holding the same may be proved by the registration books kept by the Trustee pursuant to Section 2.08.

Any declaration, request, consent or other instrument or writing of the Holder of any 2024 Bonds shall bind all future Holders of such 2024 Bonds with respect to anything done or suffered to be done by the Trustee or the Authority in good faith and in accordance therewith.

Section 10.05. Waiver of Personal Liability. No member, officer or employee of the Authority shall be individually or personally liable for the payment of the interest on or principal of the 2024 Bonds by reason of their issuance, but nothing herein contained shall relieve any such member, officer or employee from the performance of any official duty provided by the Act or any other applicable provisions of law or hereby.

Section 10.06. Deposit or Investment of Money in Accounts and Funds. Subject to Section 4.03, all money held by the Trustee in any of the accounts or funds established pursuant hereto shall be invested in those Permitted Investments described in a Written Request of the Authority filed with the Trustee at least two (2) Business Days prior to the making of any such investment, which such Permitted Investments shall, as nearly as practicable, mature on or before the dates on which such money is anticipated to be needed for disbursement hereunder, except that any money held in the 2024 Reserve Account shall be invested in those Permitted Investments that mature (or which may be redeemed or terminated by the Authority or the Trustee at par) not later than five (5) years after their purchase or the final maturity date of the related 2024 Bonds, whichever is earlier, and the Trustee shall have no liability or responsibility for any loss resulting from any investment made in accordance herewith; provided, that if no such Written Request is received by the Trustee, the Trustee shall invest such money in those Permitted Investments described in subdivision (6) of the definition thereof. The earnings on any investment in any fund or account created hereunder shall be deposited in such fund or account. The Trustee will furnish the Authority periodic cash transaction statements which include detail for all investment transactions made by the Trustee hereunder.

The Authority acknowledges that to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grant the Authority the right to receive brokerage confirmations of security transactions as they occur, the Authority specifically waives receipt of such confirmations to the extent permitted by law.

The Trustee or any of its affiliates may act as principal, agent, sponsor or advisor in connection with any investment made by the Trustee hereunder and may impose its customary fees therefor.

Section 10.07. [Reserved].

Section 10.08. Destruction of Cancelled 2024 Bonds. Whenever provision is made for the return to the Authority of any 2024 Bonds which have been cancelled pursuant to the provisions hereof, the Trustee shall destroy such 2024 Bonds and furnish to the Authority a certificate of such destruction, and the Authority agrees to reimburse the Trustee for costs incurred in connection with the microfilming or the making of other permanent records of any such destroyed 2024 Bonds.

Section 10.09. Content of Certificates. Every Certificate of the Authority with respect to compliance with any agreement, condition, covenant or provision provided herein shall include (a) a statement that the person or persons making or giving such certificate have read such agreement, condition, covenant or provision and the definitions herein relating thereto; (b) a statement that, in the opinion of the signers, they have made or caused to be made such examination or investigation as is necessary to enable them to express an informed opinion as to whether or not such agreement, condition, covenant or provision has been complied with; and (c) a statement as to whether, in the opinion of the signers, such agreement, condition, covenant or provision has been complied with.

Any Certificate of the Authority may be based, insofar as it relates to legal matters, upon an Opinion of Counsel unless the person making or giving such certificate knows that the Opinion of Counsel with respect to the matters upon which his certificate may be based, as aforesaid, is erroneous, or in the exercise of reasonable care should have known that the same was erroneous. Any Opinion of Counsel may be based, insofar as it relates to factual matters information with respect to which is in the possession of the Authority, upon a representation by an officer or officers of the Authority unless the counsel executing such Opinion of Counsel knows that the representation with respect to the matters upon which his opinion may be based, as aforesaid, is erroneous, or in the exercise of reasonable care should have known that the same was erroneous.

Section 10.10. Accounts and Funds; Business Days. Any account or fund required herein to be established and maintained by the Trustee may be established and maintained in the - accounting records of the Trustee either as an account or a fund, and may, for the purposes of such accounting records, any audits thereof and any reports or statements with respect thereto, be treated either as an account or a fund; but all such records with respect to all such accounts and funds shall at all times be maintained in accordance with sound industry practice and with due regard for the protection of the security of the 2024 Bonds and the rights of the Holders. Any action required to occur hereunder on a day which is not a Business Day shall be required to occur on the next succeeding Business Day.

Section 10.11. Notices. All written notices to be given hereunder shall be given by mail to the party entitled thereto at its address set forth below, or at such other address as such party may provide to the other party in writing from time to time, namely:

If to the Authority:

Stockton Public Financing Authority
425 N. El Dorado Street
Stockton, California 95202
Attention: Treasurer

If to the Trustee:

Attention: Corporate Trust Services

If to the Insurer:

Attention: Surveillance, Re: Policy No. _____
Telephone:
Telecopier:
Email:

In each case in which notice or other communication refers to an event of default or a claim on the Bond Insurance Policy or Reserve Fund Policy, then a copy of such notice or other communication shall also be sent to the attention of the General Counsel at the same address and at claims@buildamerica.com or at. Telecopier: _____ and shall be marked to indicate "URGENT MATERIAL ENCLOSED."

Section 10.12. CUSIP Numbers. Neither the Authority nor the Trustee shall be liable for any defect or inaccuracy in the CUSIP number that appears on any 2024 Bonds, and the Trustee may, in its discretion, include in any defeasance notice relating to any of the 2024 Bonds a statement to the effect that the CUSIP numbers on the 2024 Bonds have been assigned by an independent service and are included in such notice solely for the convenience of the Holders and that neither the Authority nor the Trustee shall be liable for any defects or inaccuracies in such numbers.

Section 10.13. Article and Section Headings and References. The headings or titles of the several articles and sections hereof and the table of contents appended hereto shall be solely for convenience of reference and shall not affect the meaning, construction or effect hereof. All references herein to "Articles," "Sections" and other subdivisions or clauses are to the corresponding articles, sections, subdivisions or clauses hereof; and the words "hereby," "herein," "hereof," "hereto," "herewith," "hereunder" and other words of similar import refer to the 2024 Indenture as a whole and not to any particular article, section, subdivision or clause hereof.

Section 10.14. Partial Invalidity. If any one or more of the agreements or covenants or portions thereof required hereby to be performed by or on the part of the Authority or the Trustee shall be contrary to law, then such agreement or agreements, such covenant or covenants or such portions thereof shall be null and void and shall be deemed separable from the remaining agreements and covenants or portions thereof and shall in no way affect the validity

hereof or of the 2024 Bonds, and the Holders shall retain all the benefit, protection and security afforded to them under the Act or any other applicable provisions of law. The Authority and the Trustee hereby declare that they would have executed and delivered the 2024 Indenture and each and every other article, section, paragraph, subdivision, sentence, clause and phrase hereof and would have authorized the issuance of the 2024 Bonds pursuant hereto irrespective of the fact that any one or more articles, sections, paragraphs, subdivisions, sentences, clauses or phrases hereof or the application thereof to any person or circumstance may be held to be unconstitutional, unenforceable or invalid.

Section 10.15. Governing Law. The 2024 Indenture shall be construed and governed in accordance with the laws of the State.

Section 10.16. Execution in Several Counterparts. The 2024 Indenture may be executed in any number of counterparts and each of such counterparts shall for all purposes be deemed to be an original; and all such counterparts, or as many of them as the Authority and the Trustee shall preserve undestroyed, shall together constitute but one and the same instrument.

Section 10.17. Use of Electronic Signatures. Each of the parties hereto agrees that the transaction consisting of this 2024 Indenture may be conducted by electronic means. Each party agrees, and acknowledges that it is such party's intent (i) that, by signing this 2024 Indenture using an electronic signature, it is signing, adopting and accepting this 2024 Indenture, and (ii) that signing this 2024 Indenture using an electronic signature is the legal equivalent of having placed the undersigned officer's handwritten signature on this 2024 Indenture on paper. Each party acknowledges that it is being provided with an electronic or paper copy of this 2024 Indenture in a usable format.

IN WITNESS WHEREOF, the Stockton Public Financing Authority has caused the 2024 Indenture to be signed in its name by its [Title] and U.S. Bank Trust Company, National Association, in token of its acceptance of the trusts created hereunder, has caused the 2024 Indenture to be signed by one of its duly authorized signatories, all as of the day and year first above written.

(WASTEWATER REFUNDING PROJECT)

No. R _____ \$ _____

Interest Rate	Maturity Date	Bond Date	CUSIP
_____ %	[September 1], _____	_____, 2024	_____

REGISTERED OWNER:

PRINCIPAL SUM: _____ DOLLARS

The Stockton Public Financing Authority, a joint exercise of powers entity duly organized and existing under and pursuant to the laws of the State of California (the “Authority”), for value received, hereby promises to pay (but only out of the Revenues and certain other funds hereinafter referred to) to the registered owner identified above or registered assigns, on the maturity date specified above the principal sum specified above, together with interest thereon computed on the basis of a 360-day year of twelve (12), 30 day calendar months from the interest payment date next preceding the date of authentication of this 2024 Bond (unless this 2024 Bond is authenticated on an interest payment date or on a day during the period from the sixteenth (16th) day of the month next preceding an interest payment date to such interest payment date, both dates inclusive, in which event it shall bear interest from such interest payment date, or unless it is authenticated on a day on or before the Record Date (as that term is hereinafter defined) for the first interest payment date, in which event it shall bear interest from its date) until the principal hereof shall have been paid, at the interest rate per annum specified above, payable semiannually thereafter on March 1 and September 1 in each year, commencing on March 1, 2025. The interest due on this 2024 Bond on or before the maturity shall be payable only to the person whose name appears in the registration books required to be kept by U.S. Bank Trust Company, National Association (the “Trustee”) at its Principal Corporate Trust Office (as that term is defined in the 2024 Indenture hereinafter referred to, and herein the “Principal Corporate Trust Office”) as the registered owner hereof at the close of business as of the fifteenth (15th) day of the month next preceding each interest payment date (each, a “Record Date”), with such interest to be paid by check mailed by first class mail on each interest payment date to such registered owner at his address as it appears on such registration books; provided, that upon the written request of the registered owner of one million dollars (\$1,000,000) or more in aggregate principal amount of 2024 Bond received by the Trustee prior to the applicable Record Date (which such request shall remain in effect until rescinded in writing by such registered owner), interest shall be paid on each interest payment date by wire transfer of immediately available funds to an account maintained in any bank or trust company in the United States of America that is a member of the Federal Reserve

System designated in writing by such registered owner. The principal of this 2024 Bond shall be payable only to the person whose name appears in such registration books as the registered owner hereof, such principal to be paid upon surrender of this 2024 Bond to the Trustee at its Principal Corporate Trust Office at maturity. The interest on and principal of this 2024 Bond is payable in lawful money of the United States of America.

This 2024 Bond is one of a duly authorized issue of revenue bonds of the Authority designated as its “Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project)” (the “2024 Bonds”) in the aggregate principal amount of sixty-nine million four hundred forty thousand dollars (\$ _____) all of like tenor and date (except for such variations, if any, as may be required to designate varying numbers, maturities and interest rates), and is issued under and pursuant to the provisions of the Joint Exercise of Powers Act (being Chapter 5 of Division 7 of Title 1 of the California Government Code, as amended) and all laws amendatory thereof or supplemental thereto (the “Act”) and under and pursuant to the provisions of a 2024 Indenture dated as of August 1, 2024, by and between the Authority and the Trustee (the “2024 Indenture”) (copies of which are on file at the Principal Corporate Trust Office of the Trustee).

The 2024 Bonds are issued to provide funds to refinance the cost of the acquisition and construction of certain additions, betterments, extensions and improvements to the Wastewater System (as that term is defined in the 2024 Indenture) of the City of Stockton (the “City”). The Bonds are limited obligations of the Authority and are payable, as to interest thereon and principal thereof, solely from the Revenues (the “Revenues”) constituting the installment payments (the “2024 Installment Payments”) to be made by the City to the Authority for the refinancing of the Prior Projects (as defined in the 2024 Indenture) pursuant to the 2024 Installment Purchase Contract, dated as of August 1, 2024, by and between the City and the Authority (the “2024 Contract”) and the funds held in the accounts and funds pursuant to the 2024 Indenture as provided therein, and the Authority is not obligated to pay interest on or principal of the Bonds except from the Revenues and such funds.

All the 2024 Bonds are equally and ratably secured in accordance with the terms and conditions of the 2024 Indenture by a pledge of and charge and lien upon the Revenues and such funds, and the Revenues and such funds constitute a trust fund for the security and payment of the interest on and principal of the 2024 Bonds as provided in the 2024 Indenture. The full faith and credit of the Authority is not pledged for the payment of the interest on or principal of the 2024 Bonds, and no tax shall ever be levied or collected to pay the interest on or principal of the 2024 Bonds. The 2024 Bonds are not secured by a legal or equitable pledge of or charge or lien upon any property of the Authority or any of its income or receipts except the Revenues and such funds. Neither the payment of the interest on or principal of the 2024 Bonds is a debt, liability or general obligation of the City or the State of California and neither the faith and credit of the City or the State of California are pledged to the payment of interest on or principal of the 2024 Bonds. Reference is hereby made to the Act and to the 2024 Indenture and any and all amendments thereof and supplements thereto for a description of the terms on which the 2024 Bonds are issued, the provisions with regard to the nature and extent of the Revenues, the rights of the registered owners of the 2024 Bonds, the security for payment of the 2024 Bonds, the remedies upon default and limitations thereon, and the amendment of the 2024 Indenture (with or without consent of the registered owners of the 2024 Bonds); and all the terms of the 2024 Indenture are hereby incorporated herein and constitute a contract between the Authority and the registered owner of

this 2024 Bond, to all the provisions of which the registered owner of this 2024 Bond, by acceptance hereof, agrees and consents.

The 2024 Bonds are not subject to redemption prior to their respective stated maturity dates.

This 2024 Bond is transferable only on a register to be kept for that purpose at the above-mentioned office of the Trustee by the registered owner hereof in person or by his duly authorized attorney upon payment of the charges provided in the 2024 Indenture and upon surrender of this 2024 Bond together with a written instrument of transfer satisfactory to the Trustee duly executed by the registered owner or his duly authorized attorney, and thereupon a new fully registered 2024 Bond or 2024 Bond in the same aggregate principal amount of authorized denominations will be issued to the transferee in exchange therefor. The Authority and the Trustee may deem and treat the registered owner hereof as the absolute owner hereof for the purpose of receiving payment of the interest hereon and principal hereof and for all other purposes, whether or not this 2024 Bond shall be overdue, and neither the Authority nor the Trustee shall be affected by any notice or knowledge to the contrary; and payment of the interest on and principal of this 2024 Bond shall be made only to such registered owner, which payments shall be valid and effectual to satisfy and discharge liability on this 2024 Bond to the extent of the sum or sums so paid.

This 2024 Bond shall not be entitled to any benefit, protection or security under the 2024 Indenture or become valid or obligatory for any purpose until the certificate of authentication hereon endorsed shall have been executed and dated by the Trustee.

It is hereby certified that all acts, conditions and things required by law to exist, to have happened and to have been performed precedent to and in the issuance of this 2024 Bond do exist, have happened and have been performed in due time, form and manner as required by law and that the amount of this 2024 Bond, together with all other indebtedness of the Authority, does not exceed any limit prescribed by the Constitution or laws of the State of California and is not in excess of the amount of 2024 Bond permitted to be issued under the 2024 Indenture.

IN WITNESS WHEREOF, the Stockton Public Financing Authority has caused this 2024 Bond to be executed in its name and on its behalf by the manual or facsimile signature of its Chairperson and countersigned by the manual or facsimile signature of its Secretary, and has caused this 2024 Bond to be dated as of [____], 2024.

2024 INSTALLMENT PURCHASE CONTRACT

This 2024 Installment Purchase Contract (the “2024 Contract”), dated as of August 1, 2024, by and between the City of Stockton, a municipal corporation and chartered city duly organized and existing under and by virtue of the Constitution and laws of the State of California and its charter (the “City”), and the Stockton Public Financing Authority, a joint exercise of powers entity duly organized and existing under and by virtue of the laws of the State of California (the “Authority”);

WITNESSETH:

WHEREAS, the City is authorized by law to purchase improvements for the municipal wastewater system of the City; and

WHEREAS, the City and the Authority had previously entered into an Installment Sale Agreement, dated as of October 1, 2014 (the “2014 Installment Purchase Contract”), whereby the Authority agreed to sell certain improvements to the City’s wastewater system, consisting of the 1998 Wastewater Project and the 2003 Wastewater Project (each as defined herein, and collectively, the “Prior Projects”), to the City and the City agreed to purchase the Prior Projects from the Authority;

WHEREAS, in connection with the 2014 Installment Purchase Contract, the Authority entered into an Indenture, dated as of October 1, 2014, by and between Computershare Trust Company, N.A. as successor to Wells Fargo Bank, National Association and the Authority and, in connection therewith, the Authority in October of 2014 issued its Wastewater Revenue Refunding Bonds, Series 2014 (1998 Wastewater Project and 2003 Wastewater Project) in the aggregate principal amount of \$69,440,000 (the “2014 Bonds”);

WHEREAS, the City has determined that the refinancing of the Prior Projects by refunding the obligations of the City under the 2014 Installment Purchase Contract, as provided in the 2024 Contract (as that term is hereinafter defined), is necessary and proper for the City and is in the public interest, and the Authority has determined to assist the City in the foregoing by prepaying all of the outstanding 2014 Bonds;

WHEREAS, the Authority and the City have determined that providing funds to prepay all of the outstanding 2014 Bonds by the issuance of revenue bonds of the Authority will result in demonstrable savings in borrowing costs of the City and will result in significant public benefits to the City;

WHEREAS, the City will be obligated to make installment payments to the Authority for the refinancing of the Prior Projects;

WHEREAS, the City has agreed to make scheduled installment payments to the Authority to refinance the Prior Projects, together with interest thereon, which installment payments are to be secured by a pledge of and lien on certain revenues of the Wastewater System (as further described herein, the “Net System Revenues”), as provided herein; and

WHEREAS, the City and the Authority hereby certify that all acts, conditions and things required by law to exist, to have happened and to have been performed precedent to and in connection with the execution and entering into of the 2024 Contract do exist, have happened and have been performed in regular and due time, form and manner as required by law, and the parties hereto are now duly authorized to execute and enter into the 2024 Contract;

NOW, THEREFORE, IN CONSIDERATION OF THE PREMISES AND OF THE MUTUAL AGREEMENTS AND COVENANTS CONTAINED HEREIN AND FOR OTHER VALUABLE CONSIDERATION, THE PARTIES HERETO DO HEREBY AGREE AS FOLLOWS:

ARTICLE I

DEFINITIONS

Unless the context otherwise requires, the terms defined in this Article shall for all purposes hereof and of any amendment hereof and of any report or other document mentioned herein or therein have the meanings defined herein, the following definitions to be equally applicable to both the singular and plural forms of any of the terms defined herein. Unless a contrary intent is expressed in this 2024 Contract, capitalized terms used but not defined in this 2024 Contract shall have the meanings given in the 2024 Indenture.

1998 Installment Sale Agreement

“1998 Installment Sale Agreement” means the 1998 Installment Sale Agreement, dated as of February 1, 1998, between the City and the Authority.

1998 Wastewater Project

“1998 Wastewater Project” means those certain improvements to the City’s Wastewater System which the Authority sold to the City and the City purchased from the Authority under certain documents entered into in 1998, including the 1998 Installment Sale Agreement.

2003 Installment Sale Agreement

“2003 Installment Sale Agreement” means the 2003 Installment Sale Agreement, dated as of June 1, 2003, between the City and the Authority.

2003 Wastewater Project

“2003 Wastewater Project” means those certain improvements to the City’s Wastewater System which the Authority sold to the City and the City purchased from the Authority under certain documents entered into in 2003, including the 2003 Installment Sale Agreement.

2014 Installment Purchase Contract

“2014 Installment Purchase Contract” means the 2014 Installment Purchase Contract, dated as of October 1, 2014, between the City and the Authority.

2020 WIFIA Loan

“2020 WIFIA Loan” means the \$108,000,000 Stockton Public Financing Authority Wastewater Revenue Bond, Series 2020 (Regional Wastewater Control Facility Modifications Project) (WIFIA – N18126CA), issues pursuant to that certain WIFIA Loan Agreement dated as of September 30, 2020 among the City, the Authority, and the United States Environmental Protection Agency, an agency of the United States of America, acting by and through the Administrator of the Environmental Protection Agency, that certain Installment Purchase Contract dated as of September 30, 2020, by and between the City and the Authority, and that certain Indenture dated as of September 1, 2020 by and between the Authority and [Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association], as trustee.

2021 SRF Loan

“2021 SRF Loan” means that certain loan issued in connection with that certain Construction Installment Sale Agreement Regional Wastewater Control Facilities Modifications Project No. C-06-8447-110, Agreement No. SWRCB0000000000D2001045, by and between the City and the California State Water Resources Control Board, in the Project Funding Amount of \$46,800,000.

2024 Bonds

“2024 Bonds” means all wastewater revenue bonds of the Authority authorized, issued and delivered under the 2024 Indenture that are at any time outstanding pursuant thereto.

2024 Contract

“2024 Contract” means this 2024 Installment Purchase Contract dated as of August 1, 2024, by and between the City and the Authority, as originally executed and as it may from time to time be amended in accordance herewith.

2024 Indenture

“2024 Indenture” means that certain 2024 Indenture, dated as of August 1, 2024, by and between the Authority and the Trustee, as originally executed and as it may from time to time be amended or supplemented in accordance with its terms.

2024 Installment Payment Date

“2024 Installment Payment Date” has the meaning set forth in Section 3.02.

2024 Installment Payment Fund

“2024 Installment Payment Fund” means the Stockton Public Financing Authority 2024 Installment Payment Fund established pursuant to Section 3.02 of the 2024 Indenture.

2024 Installment Payments

“2024 Installment Payments means the installment payments scheduled to be paid by the City hereunder and set forth in Exhibit A hereto.

2024 Reserve Account

“2024 Reserve Account” means the account within the 2024 Installment Payment Fund by that name established pursuant to Section 3.03 of the 2024 Indenture.

Accountant’s Report

“Accountant’s Report” means an audited financial report prepared and signed by an Independent Certified Public Accountant.

Act

“Act” means the Joint Exercise of Powers Act (being Chapter 5 of Division 7 of Title 1 of the Government Code of the State, as amended) and all laws amendatory thereof or supplemental thereto.

Adjusted Net System Revenues

“Adjusted Net System Revenues” means, for any Fiscal Year, the Net System Revenues for such Fiscal Year less, to the extent included in the calculation of Net System Revenues for such Fiscal Year, all amounts referred to in clause (G) of the definition of Parity Debt Service received or expected to be received by the City or a fiduciary, on behalf of the City, in such Fiscal Year.

Authority

“Authority” means the Stockton Public Financing Authority, a joint exercise of powers entity duly organized and existing under and by virtue of the Act.

Balloon Obligation

“Balloon Obligation” means any Parity Obligation designated as such in such obligation or in the related Issuing Document.

Balloon Payments

“Balloon Payments” means any payments designated as such in any Balloon Obligation or in the related Issuing Document.

Bond Insurance Policy

“Bond Insurance Policy” means the Municipal Bond Insurance Policy issued by the Insurer that guarantees the scheduled payment of principal of and interest on the 2024 Bonds when due.

City

“City” means the City of Stockton, a municipal corporation and chartered city duly organized and existing under and by virtue of the Constitution and laws of the State and its charter.

Code

“Code” means the Internal Revenue Code of 1986 and the regulations of the United States Department of the Treasury issued thereunder, and in this regard reference to any particular section of the Code shall include reference to all successor sections of the Code.

Consultant

The term “Consultant” means the consultant, consulting firm, financial consultant, financial consulting firm, engineer, architect, engineering firm, architectural firm, accountant or accounting firm retained by the City to perform acts or carry out the duties provided for such consultant in this 2024 Contract. Such consultant, consulting firm, financial consultant, financial consulting firm, engineer, architect, engineering firm or architectural firm shall be nationally or regionally recognized within its profession for work of the character required. Any such accountants or accounting firms shall be an Independent Certified Public Accountant licensed to practice in the State of California.

Coverage Requirement

“Coverage Requirement” means, for any Fiscal Year or any other period, an amount of Adjusted Net System Revenues equal to at least one hundred fifteen per cent (115%) of Parity Debt Service for such Fiscal Year or such other period, as applicable.

Credit Provider Reimbursement Obligations

“Credit Provider Reimbursement Obligations” means obligations of the City to repay, from Net System Revenues, amounts advanced by a municipal bond insurance company, bank or other financial institution or organization as credit support or liquidity support for Parity Obligations or obligations secured by Parity Obligations, together with any interest on such advances and any related administrative costs.

Event of Default

“Event of Default” means an event defined as such in Section 6.01(a), (b), (c), or (d).

Federal Securities

“Federal Securities” means United States of America Treasury bills, notes, bonds or certificates of indebtedness, or obligations for which the full faith and credit of the United States of America are pledged for the payment of interest and principal, or securities evidencing direct ownership interests in such obligations or in specified portions of the interest on or principal of

such obligations that are held by a custodian in safekeeping on behalf of the owners of such securities.

Fiscal Year

“Fiscal Year” means the twelve month period terminating on June 30 of each year, or any other annual accounting period hereafter selected and designated by the City as its Fiscal Year in accordance with applicable law.

Generally Accepted Accounting Principles

“Generally Accepted Accounting Principles” means the uniform accounting and reporting procedures set forth in publications of the American Institute of Certified Public Accountants or its successor, or by any other generally accepted authority on such procedures, and includes, as applicable, the standards set forth by the Governmental Accounting Standards Board or its successor.

Independent Certified Public Accountant

“Independent Certified Public Accountant” means any firm of certified public accountants duly licensed and entitled to practice and practicing as such under the laws of the State, appointed and paid by the City, and each of whom:

- (1) is in fact independent and not under the domination of the City;
- (2) does not have a substantial financial interest, direct or indirect, in the operations of the City; and
- (3) is not connected with the City as a councilmember, officer or employee of the City, but which firm may be regularly retained by the City to audit the accounting records of the City and make reports thereon to the City.

Insurer

“Insurer” means _____, or any successor thereto.

Issuing Document

“Issuing Document” means the 2024 Contract and any installment purchase contract, indenture, trust agreement or other document that provides for the issuance or incurrence of Parity Obligations.

Late Payment Rate

“Late Payment Rate” means the lesser of (a) the greater of (i) the per annum rate of interest, publicly announced from time to time by JPMorgan Chase Bank, N.A., at its principal office in The City of New York, New York, as its prime or base lending rate (“Prime Rate”) (any change in such Prime Rate to be effective on the date such change is announced by JPMorgan

Chase Bank, N.A.) plus 3%, and (ii) the then applicable highest rate of interest on the 2024 Bonds and (b) the maximum rate permissible under applicable usury or similar laws limiting interest rates. In the event JPMorgan Chase Bank, N.A., ceases to announce its Prime Rate, the Prime Rate shall be the prime or base lending rate of such other bank, banking association or trust company as the Insurer, in its sole and absolute discretion, shall designate. Interest at the Late Payment Rate on any amount owing to the Insurer shall be computed on the basis of the actual number of days elapsed in a year of 360 days.

Moody's

“Moody's” means Moody's Investors Service, a corporation duly organized and existing under and by virtue of the laws of the State of Delaware, and its successors or assigns, but only to the extent that such entity is then rating any Parity Obligations at the request of the Authority.

Net System Revenues

“Net System Revenues” means, for any period, the System Revenues during such period less the Operation and Maintenance Costs during such period.

Operation and Maintenance Costs

“Operation and Maintenance Costs” means the reasonable and necessary costs paid or incurred by the City for maintaining and operating the Wastewater System, determined in accordance with Generally Accepted Accounting Principles, including the expenses of maintenance, repair, billing and collection and other expenses incurred to maintain and preserve the Wastewater System in good repair and working order, and including all administrative and management costs of the City that are charged directly or apportioned to the operation of the Wastewater System, such as salaries and wages of employees, payments to employee retirement systems, overhead, taxes (if any) and insurance premiums (including payments required to be paid into any self-insurance funds), and including all other reasonable and necessary costs of the City or charges required to be paid by it to comply with the terms hereof, any Parity Obligations, but excluding in all cases (i) depreciation, replacement and obsolescence charges or reserves therefor, (ii) amortization of intangibles, (iii) costs of capital additions, replacements, betterments, extensions or improvements to the Wastewater System which under Generally Accepted Accounting Principles are chargeable to a capital account, and (iv) charges for the payment of principal and interest on any debt service or other regularly scheduled payments on account of any Parity Obligation or obligation subordinate to the Parity Obligations.

Parity Debt Service

“Parity Debt Service” means, with respect to any Parity Obligation for any period of calculation, those portions of the payments of interest on and principal and redemption premiums, if any, or other regularly scheduled payments required to be made during such period under such Parity Obligation, less any such interest that is to be paid from proceeds of such Parity Obligation, less the earnings to be derived from the investment of moneys on deposit in debt service reserve funds and capitalized interest funds established for such Parity Obligation; provided, that for purposes of the calculation of Parity Debt Service, the following shall apply:

(A) Interest on Variable Interest Rate Obligations. Interest on any Variable Interest Rate Obligation shall be assumed to bear interest at a fixed rate equal to the higher of:

(1) the actual rate on the date of calculation, or if such Parity Obligation is not yet outstanding, the initial rate (if established and binding); or

(2) if such Parity Obligation has been outstanding for at least twelve months, the average rate over the twelve months immediately preceding the date of calculation, or if such Parity Obligation has not been outstanding for the twelve prior months, the average rate borne by reference to an index comparable to that to be utilized in determining the interest rate for the Parity Obligation to be issued.

(B) Interest on Parity Obligations with respect to which a Payment Agreement is in force. For purposes of the definition of Parity Debt Service, interest deemed to be payable on any Parity Obligation with respect to which a Payment Agreement is in force shall be based on the net economic effect on the City expected to be produced by the terms of such Parity Obligation and such Payment Agreement, including but not limited to the effects that (i) such Parity Obligation would, but for such Payment Agreement, be treated as an obligation bearing interest at a Variable Interest Rate instead shall be treated as an obligation bearing interest at a fixed interest rate, and (ii) such Parity Obligation would, but for such Payment Agreement, be treated as an obligation bearing interest at a fixed interest rate instead shall be treated as an obligation bearing interest at a Variable Interest Rate; and accordingly, the amount of interest deemed to be payable on any Parity Obligation with respect to which a Payment Agreement is in force shall be an amount equal to the amount of interest that would be payable at the rate or rates stated in such Parity Obligation plus the applicable Payment Agreement Payments minus the applicable Payment Agreement Receipts, and for the purpose of calculating as nearly as practicable the Payment Agreement Receipts and the Payment Agreement Payments under such Parity Obligation, the following assumptions shall be made:

(1) City Obligated to Pay Net Variable Payments. If a Payment Agreement has been entered into by the City with respect to a Parity Obligation resulting in the payment of a net variable interest rate with respect to such Parity Obligation and Payment Agreement by the City, the interest rate on such Parity Obligation for future periods when the actual interest rate cannot yet be determined shall be assumed, during the period the Payment Agreement is in effect, to be equal to the sum of (i) the fixed rate or rates stated in such Parity Obligation, minus. (ii) the fixed rate paid by the counterparty to the City, plus (iii) the lesser of (A) the interest rate cap, if any, provided by the counterparty with respect to such Payment Agreement (but only during the period that such interest rate cap is in effect) and (B) the higher of (x) the actual variable rate or rates payable by the City to the Counterparty pursuant to the Payment Agreement on the date of calculation, or if such Payment Agreement is not yet outstanding, the initial rate (if established and binding) and (y) if such Payment Agreement has been in effect for at least twelve months, the average variable rate or rates payable by the City to the counterparty pursuant to the Payment Agreement over the twelve months immediately preceding the date of calculation, or if such Payment Agreement has not been outstanding for the twelve prior months, the average variable rate or rates that would have been

payable by the City to the counterparty pursuant to such Payment Agreement for the twelve prior months determined by reference to an index comparable to that to be utilized in determining the variable rate for the Payment Agreement to be executed.

(2) City Obligated to Pay Net Fixed Payments. If a Payment Agreement has been entered into by the City with respect to a Parity Obligation which is reasonably believed, in the opinion of a financial consultant or financial consulting firm, to result in the payment of a net fixed interest rate with respect to such Parity Obligation and Payment Agreement by the City, the interest on such Parity Obligation shall be included in the calculation of the Parity Debt Service during the period the Payment Agreement is in effect by including for each calculation period an amount equal to the amount of interest payable at the fixed interest rate pursuant to such Payment Agreement;

(C) For purposes of calculating the Parity Debt Service on any Balloon Obligation, it shall be assumed that the principal of such Balloon Obligation will be amortized in a manner resulting in approximately equal annual installments of debt service over a term of thirty (30) years, at an assumed interest rate determined by reference to subparagraph (A) of this definition of Parity Debt Service;

(D) For purposes of any Parity Obligation or portions thereof the debt service requirements under which contain no current interest component but which are sold at a discount and which discount accretes with respect to such Parity Obligation or portions thereof, such accreted discount shall be treated as interest in the calculation of Parity Debt Service;

(E) For purposes of any Parity Obligations that constitute paired obligations, the interest rate on such Parity Obligations shall be the resulting linked rate or the effective fixed interest rate (each as certified by a financial consultant or financial consulting firm) reasonably expected to be paid by the City with respect to such paired obligations;

(F) The amount on deposit in a debt service reserve fund with respect to a Parity Obligation on any date of calculation of Parity Debt Service shall be deducted from the amount of principal due at the final maturity of such Parity Obligation and to the extent the amount in such debt service reserve fund is in excess of such amount of principal, such excess shall be applied to the full amount of principal due, in each preceding year, in inverse order of due date, until such amount is exhausted;

(G) If, under any statutory scheme, during any period of calculation the City or a fiduciary, on behalf of the City, receives or expects to receive any subsidy, reimbursement or other payment from a governmental entity (including, but not limited to, the federal government of the United States of America) in connection with, or related to, payments of principal of and/or interest or other regularly scheduled payments on Parity Obligations, then principal of and/or interest or other regularly scheduled payments on such Parity Obligations during such period of calculation shall be disregarded and not included in calculating Parity Debt Service to the extent that such subsidy, reimbursement or other payment is received or expected to be received by the City or fiduciary, on behalf of the City, during such period of calculation; and

(H) Credit Provider Reimbursement Obligations shall be disregarded, except to the extent such Credit Provider Reimbursement Obligations are due and owing at the time of calculation of Parity Debt Service.

Parity Obligations

“Parity Obligations” means the 2024 Installment Payments, [the 2020 WIFIA Loan, the 2021 SRF Loan] and any other obligation (including, but not limited to, any installment payment obligation) payable on a parity with the 2024 Installment Payments from Net System Revenues, as the case may be, as provided in Article IV and the regularly scheduled payments under any Payment Agreement which have been designated by the City as a “Parity Obligation” in the Payment Agreement.

Payment Agreement

“Payment Agreement” means a written agreement for the purpose of managing or reducing the City’s exposure to fluctuations in interest rates or for any other interest rate, investment, asset or liability managing purposes, entered into either on a current or forward basis by the City as authorized under any applicable laws of the State in connection with, or incidental to, the entering into of any Parity Obligation, that provides for an exchange of payments based on interest rates, ceilings or floors on such payments, options on such payments or any combination thereof, or any similar device.

Payment Agreement Payments

“Payment Agreement Payments” means the regularly scheduled amounts (excluding Termination Payments) periodically required to be paid by the City under all Payment Agreements.

Payment Agreement Receipts

“Payment Agreement Receipts” means the regularly scheduled amounts (excluding Termination Payments) required to be paid by all counterparties to the City under all Payment Agreements.

Prior Projects

“Prior Projects” shall have the meaning as described in the recitals hereto.

Principal Corporate Trust Office

“Principal Corporate Trust Office” means the corporate trust office of the Trustee in San Francisco, California or such other office designated by the Trustee from time to time.

Refunding Price

“Refunding Price” means the principal amount owed by the City to the Authority for the refunding of the installment payments due under the 2014 Installment Purchase Contract under the terms hereof as provided in Section 3.01

Reserve Fund Policy

“Reserve Fund Policy” means the Municipal Bond Debt Service Reserve Insurance Policy issued by the Insurer with respect to the 2024 Bonds.

Revenue Fund

“Revenue Fund” means the Wastewater Utility Fund, established and held by the City into which all System Revenues are deposited.

S&P

“S&P” means S&P Global Ratings, a corporation duly organized and existing under and by virtue of the laws of the State of New York, and its successors or assigns, but only to the extent that such entity is then rating any Parity Obligations at the request of the Authority.

State

“State” means the State of California.

System Revenues

“System Revenues” means all gross income and revenue received or receivable by the City from the ownership or operation of the Wastewater System, determined in accordance with Generally Accepted Accounting Principles, including all fees, rates, charges and amounts paid under any contracts received by or owed to the City in connection with the operation of the Wastewater System and all proceeds of insurance relating to the Wastewater System and all other income and revenue howsoever derived by the City from the ownership or operation of the Wastewater System.

Termination Payments

“Termination Payments” means any payments due and payable by the City in connection with the termination of a Payment Agreement.

Trustee

“Trustee” means U.S. Bank Trust Company, National Association, a national banking association duly organized and existing under and by virtue of the laws of the United States of America, at its Principal Corporate Trust Office, as trustee under the 2024 Indenture, and any successors thereto.

Variable Interest Rate

“Variable Interest Rate” means any variable interest rate or rates to be paid under any Parity Obligation, the method of computing which variable interest rate shall be as specified in such obligation, which obligation shall also specify either (i) the payment period or periods or time or manner of determining such period or periods or time for which each value of such variable interest rate shall remain in effect, and (ii) the time or times based upon which any change in such variable interest rate shall become effective, and which variable interest rate may, without limitation, be based on the interest rate on certain bonds or may be based on interest rate, currency, commodity or other indices.

Variable Interest Rate Obligations

“Variable Interest Rate Obligations” means, for any period of time, any Parity Obligations that bear a Variable Interest Rate during such period.

Wastewater Project

“Wastewater Project” means any additions, betterments, extensions or improvements to the Wastewater System designated by the City Council of the City as a designated Wastewater Project for the City.

Wastewater Service

“Wastewater Service” means the wastewater services made available or provided by the Wastewater System.

Wastewater System

“Wastewater System” means the whole and each and every part of the wastewater system of the City including the portion thereof existing on the date of this 2024 Installment Purchase Contract and including all additions, betterments, extensions and improvements to such system or any part thereof and hereafter acquired or constructed.

ARTICLE II

REFUNDING OF THE INSTALLMENT PAYMENTS DUE FOR THE PRIOR PROJECTS

Section 2.01. Refunding of the Installment Payments for the Prior Projects. The Authority agrees to refund the installment payments due by the City for the purchase of the Prior Projects. In order to implement this provision, the Authority agrees to deliver to the Trustee the sum of \$_____ from the proceeds of the 2024 Bonds to be deposited in the 2014 Escrow Fund with the Escrow Agent and the City agrees to use such amount (together with funds on deposit relating to the _____ Prior Projects in the amount of \$_____) to prepay the installment payments payable by the City for the purchase of the Prior Projects to the Authority as provided herein.

In the event the Authority fails to observe or perform any agreement, condition, covenant or term contained herein required to be observed or performed by it, the City may institute such action or proceeding against the Authority as the City may deem necessary or convenient to compel the observance or performance of such agreement, condition, covenant or term, or to recover damages for the nonobservance or nonperformance thereof. The City may, at its own cost and expense and in its own name or in the name of the Authority, prosecute or defend any action or proceeding or take any other action involving third persons which the City deems reasonably necessary in order to protect or secure its rights hereunder, and in such event the Authority agrees to cooperate fully with the City and to take all action necessary to effect the substitution of the City for the Authority in any action or proceeding if the City shall so request.

ARTICLE III

2024 INSTALLMENT PAYMENTS

Section 3.01. Refunding Price.

(a) The Refunding Price to be paid by the City hereunder to the Authority for the refunding of the aggregate installment payments payable by the City under the 2014 Installment Sale Agreement is \$_____, payable in installments of principal together with interest on the unpaid principal balance thereof, all as provided in Section 3.01(b) (subject in each case to any right of prepayment provided herein), plus the 2024 Reserve Account deposits required pursuant to Section 4.02, which may be credited to the 2024 Installment Payments as provided herein.

(b) The interest on the unpaid balance of the principal amount of the City's obligations hereunder constituting the 2024 Installment Payments shall accrue from _____, 2024, at the following annual rates of interest per annum, and shall be paid by the City as and constitute interest paid on the principal amount of the City's obligations hereunder constituting the 2024 Installment Payments, namely:

Installment Payment Date (September 1)	Principal Installment	Interest Rate
2025		
2026		
2027		
2028		
2029		

Section 3.02. Payment of the 2024 Installment Payments. The City shall, subject to any right of prepayment as provided herein, pay the Authority the 2024 Installment Payments as herein provided, without offset or deduction of any kind, by paying the principal components of the 2024 Installment Payments annually in the amounts and on or before the date that is at least two (2) business days prior to September 1 in each of the years in accordance with Exhibit A attached hereto and incorporated herein and made a part hereof, together with the interest components of the 2024 Installment Payments, which interest components shall be paid semiannually on or before the date that is at least two (2) business days prior to each March 1 and

September 1, commencing March 1, 2025 (each such March 1 and September 1, a “2024 Installment Payment Date”), in the amounts set forth in Exhibit A attached hereto and incorporated herein and made a part hereof; provided, that in the event the City fails to make any 2024 Installment Payment when due, the defaulted 2024 Installment Payment shall continue as an obligation of the City, and the City shall pay the same with interest thereon from the due date thereof at the rate of interest applicable thereto.

The obligation of the City to pay the 2024 Installment Payments from the Net System Revenues as herein provided is absolute and unconditional, and until such time as the 2024 Installment Payments shall have been fully paid (or provision for the payment thereof shall have been made pursuant to Section 7.01), the City will not discontinue or suspend any 2024 Installment Payments required to be made by it under this section, whether or not the Wastewater System, or any part thereof is operating or operable or has been completed, or its use is suspended, interfered with, reduced or curtailed or terminated in whole or in part, and such payments shall not be subject to abatement because of any damage to, destruction or condemnation of the Wastewater System, and such payments shall not be subject to reduction whether by offset or otherwise and shall not be conditioned upon the performance or nonperformance by any party of any agreement for any cause whatsoever.

Section 3.03. Prepayment of the 2024 Installment Payments. The City may prepay the principal components of the 2024 Installment Payments; provided, however, that the 2024 Bonds are not subject to redemption prior to their state maturity date pursuant to Section 2.03 of the 2024 Indenture, but the 2024 Bonds are subject to defeasance pursuant to the 2024 Indenture.

Notwithstanding any such prepayment, the City shall not be relieved of its obligations hereunder until all 2024 Installment Payments shall have been fully paid (or provision for the payment thereof shall have been made pursuant to Section 7.01).

ARTICLE IV

REVENUES

Section 4.01. Pledge of Net System Revenues; Revenue Fund.

(a) The City hereby grants to the Authority a lien on and a security interest in and pledge of all Net System Revenues to secure the payment of the 2024 Installment Payments and any Parity Obligations as provided herein, and the Net System Revenues shall not be used for any other purpose while any 2024 Installment Payments or any Parity Obligations remain unpaid; provided, that out of the Net System Revenues there may be apportioned such sums for such purposes as are expressly permitted by this article. This lien, security interest, and pledge shall constitute an exclusive lien on the Net System Revenues for the payment of the 2024 Installment Payments and any Parity Obligations in accordance with the terms hereof (subject to the incurrence of Parity Obligations in accordance with Section 4.03 hereof).

(b) All System Revenues shall be deposited as and when received in the Revenue Fund which fund is hereby continued in the treasury of the City and which fund shall be

maintained by the City, and all money in the Revenue Fund shall be set aside by the City and applied to the payment of Operation and Maintenance Costs, as and when required to be paid.

(c) The City hereby covenants to cause all Net System Revenues to be allocated and applied as provided in Section 4.02; provided, that pending the use by the City of the Net System Revenues for such purposes, such money may be invested by the City in Permitted Investments.

Section 4.02. Allocation of Net System Revenues. All Net System Revenues shall be set aside by the City at the following times and deposited in the following account or fund in the following order of priority:

(a) 2024 Installment Payment Fund Deposits. On or before the date that is two (2) business days prior to each 2024 Installment Payment Date, the City shall, from Net System Revenues, transfer to the Trustee (on a parity with any required transfers of Net System Revenues for the payment of all other Parity Obligations) for deposit in the 2024 Installment Payment Fund a sum equal to the amount of the interest components becoming due hereunder on such 2024 Installment Payment Date and a sum equal to the amount of the principal components, if any, becoming due hereunder on such 2024 Installment Payment Date;

(b) Reserve Account Deposits. On each date required by the 2024 Indenture, after making the transfers and deposits required by paragraph (a) for 2024 Installment Payments and payments on Parity Obligations currently due and payable, the City shall, from Net System Revenues, transfer to the Trustee (on a parity with any required transfers of Net System Revenues for the replenishment of all other reserve accounts for all Parity Obligations) for deposit in the 2024 Reserve Account a sum equal to the amount, if any, required by the terms of the 2024 Indenture, to be necessary to restore the 2024 Reserve Account to the 2024 Reserve Requirement, on such date (taking into account the then available amount of the Reserve Fund Policy); and

(c) Surplus Net System Revenues. On any date, provided that (i) all transfers and deposits required by paragraph (a) for 2024 Installment Payments and payments on Parity Obligations currently due and payable have been made and (ii) all transfers required to be made on such date by paragraph (b) have been made, Net System Revenues may be used for any lawful purpose, including, but not limited to the payment of any obligations secured by Net System Revenues on a priority subordinate to the Parity Obligations or the payment of any Termination Payment;

provided, that no such transfers to and deposits in the 2024 Installment Payment Fund need be made if the amount available and contained therein is at least equal to the interest component becoming due hereunder on such 2024 Installment Payment Date, plus the principal component, if any, becoming due hereunder on such 2024 Installment Payment Date and if the 2024 Indenture does not require a replenishment of the amounts contained in the 2024 Reserve Account; and provided further, that nothing in this section shall be construed to limit the City's ability to make other transfers and deposits at any time from Net System Revenues for the payment of debt service, reserve replenishment, credit enhancement reimbursement costs and Payment Agreement Payments to the extent required with respect to additional Parity Obligations incurred in accordance with Section 4.03.

Section 4.03. Additional Obligations.

(a) The City will not incur any obligations payable from Net System Revenues superior to the payment of the 2024 Installment Payments.

(b) Without regard to Section 4.03(c), the City may at any time enter into or create an obligation or commitment which is a Credit Provider Reimbursement Obligation or a Payment Agreement.

(c) The City may at any time and from time to time issue or create any other Parity Obligations (in addition to the 2024 Installment Payments, which may be incurred without compliance with this Section 4.03), provided:

(1) There shall not have occurred and be continuing (i) an Event of Default under the terms of this 2024 Contract or any Issuing Document or (ii) an Event of Default or Termination Event (as defined in any Payment Agreement) under any Payment Agreement; and

(2) The City obtains or provides a certificate or certificates, prepared by the City or at the City's option by a Consultant, showing that either:

(A) the Adjusted Net System Revenues for either the most recent Fiscal Year for which audited financial statements are available or any 12 consecutive calendar month period during the 18 consecutive calendar month period ending immediately prior to the incurring of such additional Parity Obligations were at least sufficient to satisfy the Coverage Requirement for each of the next five full Fiscal Years following the incurring of such additional Parity Obligations or each of the next three full Fiscal Years following the incurring of such additional Parity Obligations during which no interest is capitalized, whichever is later, including the Parity Debt Service during such Fiscal Years on such additional Parity Obligations; and for the purpose of providing such certificate or certificates, the City or the City's Consultant, as applicable, may adjust the Adjusted Net System Revenues for such Fiscal Year or 12 calendar month period, as the case may be, to reflect:

(i) an allowance for Net System Revenues that would have been derived from each new connection to the Wastewater System that was made prior to the incurrence of such additional Parity Obligations but which was not in existence, during all or any part of such Fiscal Year or 12 calendar month period under consideration, in an amount equal to the estimated additional Net System Revenues that would have been derived from each such connection if it had been made prior to the beginning of such Fiscal Year or 12 calendar month period, and

(ii) an allowance for Net System Revenues that would have been derived from any increase in the rates, fees and charges fixed and prescribed for Wastewater Service which became effective prior to the incurrence of such additional Parity Obligations but which was not in effect,

during all or any part of such Fiscal Year or 12 calendar month period, in an amount equal to the estimated additional Net System Revenues that would have been derived from such increase in rates, fees and charges if it had been in effect prior to the beginning of such Fiscal Year or 12 calendar month period; or

(B) the estimated Adjusted Net System Revenues for each of the five full Fiscal Years next following the earlier of (i) the end of the period during which interest on such additional Parity Obligations is to be capitalized or, if no interest is capitalized, the Fiscal Year in which such additional Parity Obligations are incurred, or (ii) the date on which substantially all Wastewater Projects financed with such additional Parity Obligations plus all Wastewater Projects financed with all existing Parity Obligations are expected to commence operations, will be at least sufficient to satisfy the Coverage Requirement for such period; and for the purpose of providing such certificate or certificates, the City or the City's Consultant, as applicable, may adjust the foregoing estimated Adjusted Net System Revenues to reflect:

(i) an allowance for Net System Revenues that are estimated to be derived from any increase in the rates, fees and charges for Wastewater Service which have been adopted by the City and which will be in effect during all or any portion of the period for which such estimates are provided; and

(ii) an allowance for Net System Revenues that are estimated to be derived from new customers of the Wastewater System anticipated to be served by any additions or improvements to or extensions of the Wastewater System reasonably expected to become available during such five year period in an amount equal to the additional Net System Revenues that are estimated to be derived from such customers.

For purposes of clause (B) above, with respect to Operation and Maintenance Costs, the City or the City's Consultant, as applicable, shall use such assumptions (which shall be set forth in such certificate or certificates) as such believes to be reasonable, taking into account: (i) historical Operation and Maintenance Costs, (ii) Operation and Maintenance Costs associated with the additions or improvements to or extensions of the Wastewater System to be financed with the proceeds of such additional Parity Obligations and any other new additions or improvements to or extensions of the Wastewater System during such five year period and (iii) such other factors, including inflation and changing operations or policies of the City, as the City or the City's Consultant, as applicable, believes to be appropriate.

The certificate or certificates described above in subsection (c)(2) shall not be required if the Parity Obligations being issued are for the purpose of refunding (x) then outstanding Parity Obligations, if at the time of the issuance of such refunding Parity Obligations a certificate of the City shall be delivered showing that Parity Debt Service in each Fiscal Year on all Parity Obligations outstanding after the issuance of the refunding Parity Obligations will not exceed 110% of Parity Debt Service in each corresponding Fiscal Year on all Parity Obligations

outstanding prior to the issuance of such refunding Parity Obligations; or (y) then outstanding Balloon Obligations or Variable Interest Rate Obligations, but only to the extent that the principal amount of such Balloon Obligations or Variable Interest Rate Obligations has been put, tendered to or otherwise purchased by a standby purchase or other liquidity facility relating to such Balloon Obligations or Variable Interest Rate Obligations.

(d) Without regard to Section 4.03(c), the City may issue or incur obligations secured by Net System Revenues on a priority subordinate to the Parity Obligations and such obligations may be paid only in accordance with the provisions of Section 4.02 as long as (i) no Event of Default has occurred and is continuing (unless such Event of Default will not be continuing after the incurrence of such subordinate obligations) and (ii) no Event of Default or Termination Event (as defined in any Payment Agreement) under any Payment Agreement has occurred and is continuing (unless such Event of Default or Termination Event will not be continuing after the incurrence of such subordinate obligations).

ARTICLE V

COVENANTS OF THE CITY

Section 5.01. Compliance with and Amendment of 2024 Contract.

(a) The City will punctually pay the 2024 Installment Payments in strict conformity with the terms hereof, and will faithfully observe and perform all the agreements, conditions, covenants and terms contained herein required to be observed and performed by it, and will not terminate the 2024 Contract for any cause whatsoever, including, without limiting the generality of the foregoing, any acts or circumstances that may constitute failure of consideration, destruction of or damage to the Wastewater System, commercial frustration of purpose, any change in the tax or other laws of the United States of America or of the State of California or any political subdivision of either or any failure of the Authority to observe or perform any agreement, condition, covenant or term contained herein required to be observed and performed by it, whether express or implied. The City will, so long as any 2024 Installment Payments remain unpaid, apply Net System Revenues as provided herein.

(b) The City and the Authority shall not supplement, amend, modify or terminate any of the terms of the 2024 Contract, or consent to any such supplement, amendment, modification or termination, without the prior written consent of the Insurer and the Trustee, which such consent, in the case of the Trustee, shall be given only if (a) such supplement, amendment, modification or termination will not materially adversely affect the interests of the 2024 Bonds or result in any material impairment of the security hereby given for the payment of the 2024 Installment Payments, or (b) the Trustee first obtains the written consent of a majority in aggregate principal amount of the 2024 Bonds then Outstanding to such supplement, amendment, modification or termination; provided, that no such supplement, amendment, modification or termination shall reduce the amount of 2024 Installment Payments to be made to the Authority or the Trustee by the City pursuant to the 2024 Contract, or extend the time for making such 2024 Installment Payments, or permit the creation of any lien prior to the lien created by the 2024 Contract on Net System Revenues without the written consent of the Insurer and all of the Holders of all 2024 Bonds then Outstanding.

Section 5.02. Against Encumbrances. The City will not make any use of or encumber the Net System Revenues except as provided herein; provided, that so long as the City is not in default hereunder, the City may issue any obligations subordinate to the Parity Obligations that are payable from surplus Net System Revenues as provided in paragraph (c) of Section 4.02.

Section 5.03. Against Sale or Other Disposition of Property. The City will not sell, lease or otherwise dispose of the Wastewater System or any part thereof essential to the proper operation of the Wastewater System or to the maintenance of Net System Revenues. The City will not enter into any agreement which impairs the operation of the Wastewater System or any part thereof necessary to secure adequate Net System Revenues for the payment of Parity Obligations or which would otherwise impair the rights of the City with respect to Net System Revenues or the operation of the Wastewater System.

Section 5.04. Against Competitive Facilities. The City will not, to the extent permitted by law, acquire, purchase, maintain or operate and will not, to the extent permitted by law and within the scope of its powers, permit any other public or private agency, corporation, district or political subdivision or any person whomsoever to acquire, purchase, maintain or operate within the City any wastewater system competitive with the Wastewater System.

Section 5.05. Tax Covenants. The City will at all times do and perform all acts and things permitted by law which are necessary or desirable in order to assure that the interest components of the 2024 Installment Payments will not be included in the gross income of the owners of the 2024 Bonds (as defined in the 2024 Indenture) for federal income tax purposes under the Code and will be exempt from State of California personal income taxes, and will take no action that would result in such interest being so included or not being so exempt. Without limiting the foregoing, the City and the Authority will at all times comply with the requirements of the Tax Certificate executed in connection with the delivery of the 2024 Bonds. This covenant shall survive any defeasance or discharge of the 2024 Installment Payments pursuant to Article VII or any prepayment of principal components of the 2024 Installment Payments pursuant to Article III.

Section 5.06. Maintenance, and Operation of the Wastewater System. The City will maintain and preserve the Wastewater System in good repair and working order at all times and will operate the Wastewater System in an efficient and economical manner and will pay all Operation and Maintenance Costs as they become due and payable.

Section 5.07. Payment of Claims. The City will pay and discharge any and all lawful claims for labor, materials or supplies which, if unpaid, might become a lien on Net System Revenues or any part thereof or on any funds in the hands of the City or which might impair the security of the 2024 Installment Payments.

Section 5.08. Compliance with Contracts. The City will comply with, keep, observe and perform all agreements, conditions, covenants and terms, express or implied, required to be kept, observed and performed by it contained in all contracts for the use of the Wastewater System and all other contracts affecting or involving the Wastewater System to the extent that the City is a party thereto.

Section 5.09. Insurance. The City will procure and maintain such insurance relating to the Wastewater System which it shall deem advisable or necessary to protect its interests and the interests of the Authority and the Trustee, which insurance shall afford protection in such amounts and against such risks as are usually covered in the State in connection with municipal wastewater systems comparable to the Wastewater System; provided, that any such insurance may be maintained under a self-insurance program so long as such self-insurance is maintained in the amounts and manner usually maintained in connection with municipal wastewater systems in the State comparable to the Wastewater System and is, in the opinion of an accredited actuary, actuarially sound. All policies of insurance required to be maintained herein shall provide that the Authority and the Trustee shall be given thirty (30) days' written notice of any intended cancellation thereof or reduction of coverage provided thereby.

Section 5.10. Accounting Records; Financial Statements and Other Reports.

(a) The City will keep appropriate accounting records in which complete and correct entries shall be made of all transactions relating to the Wastewater System and the Net System Revenues and the Operation and Maintenance Costs relating thereto, which records shall be available for inspection by the Authority and the Trustee at reasonable hours and under reasonable conditions.

(b) The City will prepare annually within two hundred seventy (270) days after the close of each Fiscal Year (commencing with the Fiscal Year ending June 30, 2024) financial statements of the City for the preceding Fiscal Year prepared in accordance with generally accepted accounting principles, together with an Accountant's Report thereon, which records shall be available for inspection by the Authority and the Trustee at reasonable hours and under reasonable conditions.

Section 5.11. Protection of Security and Rights of Authority. The City will preserve and protect the security hereof and the rights of the Authority to the 2024 Installment Payments hereunder and will warrant and defend such rights against all claims and demands of all persons.

Section 5.12. Payment of Taxes and Compliance with Governmental Regulations. The City will pay and discharge all taxes, assessments and other governmental charges which may hereafter be lawfully imposed upon the Wastewater System or any part thereof or upon Net System Revenues when the same shall become due. The City will duly observe and comply with all valid regulations and requirements of any governmental authority relative to the operation of the Wastewater System or any part thereof, but the City shall not be required to comply with any regulations or requirements so long as the validity or application thereof shall be contested in good faith.

Section 5.13. Amount of Charges, Fees and Rates; Rate Stabilization Fund. The City will fix, prescribe and collect rates, fees and charges for the Wastewater Service during each Fiscal Year which are estimated to yield Net System Revenues for such Fiscal Year equal to at least the Coverage Requirement for such Fiscal Year. The City may make adjustments from time to time in such fees and charges and may make such classification thereof as it deems necessary, but shall not reduce the rates, fees and charges then in effect unless the Net System Revenues from

such reduced rates, fees and charges are estimated to be sufficient to meet the requirements of this section.

The City may establish a fund denominated the Rate Stabilization Fund. From time to time the City may deposit into the Rate Stabilization Fund, from current System Revenues, such amounts as the City shall determine and the amount of available current System Revenues in the Fiscal Year shall be reduced by the amount so transferred. Amounts may be transferred from the Rate Stabilization Fund and deposited in the Revenue Fund, and any amounts so transferred within 270 days after the end of a Fiscal Year shall be deemed System Revenues for such Fiscal Year when so transferred. The City may also apply moneys on deposit in the Rate Stabilization Fund for any lawful purpose. All interest or other earnings upon amounts in the Rate Stabilization Fund may be withdrawn therefrom and accounted for as System Revenues in accordance with the terms of this Section or used for any lawful purpose.

Section 5.14. Eminent Domain and Insurance Proceeds. If all or any part of the Wastewater System shall be taken by eminent domain proceedings, or if the City receives any insurance proceeds resulting from a casualty loss to the Wastewater System, the net proceeds thereof, at the option of the City, shall be applied either to (a) the prepayment of Parity Obligations, or (b) to acquire and construct additions, betterments or improvements to the Wastewater System to replace the condemned or destroyed portion of the Wastewater System.

Section 5.15. Continuing Disclosure. The City hereby agrees to comply with and carry out all of the provisions of the continuing disclosure undertaking relating to the 2024 Bonds. Notwithstanding any other provision of this 2024 Contract, failure of the City to comply with such undertaking shall not be considered an Event of Default under the 2024 Contract or the 2024 Indenture; provided, that the Trustee may (and, at the request of any Participating Underwriter or the Holders of at least twenty-five per cent (25%) in aggregate principal amount of Outstanding 2024 Bonds, shall) or any Holder or Beneficial Owner may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the City to comply with its obligations under this section. Capitalized terms used in this section but not defined in this 2024 Contract shall have the meanings given in the aforesaid continuing disclosure undertaking.

Section 5.16. Further Assurances. The City will adopt, deliver, execute and make any and all further assurances, instruments and resolutions as may be reasonably necessary or proper to carry out the intention or to facilitate the performance hereof and for the better assuring and confirming unto the Authority of the rights and benefits provided to it herein.

ARTICLE VI

EVENTS OF DEFAULT AND REMEDIES OF THE AUTHORITY

Section 6.01. Events of Default. The following events shall constitute “Events of Default” hereunder:

(a) if default shall be made in the due and punctual payment of any 2024 Installment Payment when the same shall become due and payable;

(b) if default shall be made by the City in the performance of any of the other agreements or covenants contained herein required to be performed by it, and such default shall have continued for a period of thirty (30) days after the City shall have been given notice in writing of such default by the Authority or the Trustee;

(c) if the City shall file a petition or answer seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if a court of competent jurisdiction shall approve a petition filed with or without the consent of the City seeking arrangement or reorganization under the federal bankruptcy laws or any other applicable law of the United States of America or any state therein, or if under the provisions of any other law for the relief or aid of debtors any court of competent jurisdiction shall assume custody or control of the City or of the whole or any substantial part of its property; or

(d) if an event of default (as defined in any Parity Obligation or Issuing Document) shall have occurred.

Notwithstanding anything to the contrary contained herein, in no event are the 2024 Installment Payments subject to acceleration if an Event of Default occurs and is continuing.

Section 6.02. Distribution of Assets. Upon the date of the declaration of an Event of Default by the Authority as provided in Section 6.01, all Net System Revenues shall be applied in the following order —

(1) First, to the payment of the costs and expenses of the Trustee (as assignee of the Authority), if any, in carrying out the provisions of this article, including reasonable compensation to its agents, accountants and counsel and including any expenses of the Authority in indemnifying the Trustee;

(2) Second, to the payment of interest and regularly scheduled payments then due on Parity Obligations (except Termination Payments), and, if the amount available shall not be sufficient to pay in full all such interest and regularly scheduled payments then due and payable, then to the payment thereof ratably, according to the amounts due thereon without any discrimination or preference;

(3) Third, to the payment of the unpaid principal amount of the Parity Obligations then due and payable with interest on the overdue principal and interest amounts of the unpaid Parity Obligations at the rate or rates of interest then applicable to such Parity Obligations if paid in accordance with their terms, and, if the amount available shall not be sufficient to pay in full all the amounts due with respect to the Parity Obligations on any date, together with such interest, then to the payment thereof ratably, according to the principal amount due on such date, without any discrimination or preference;

(4) Fourth, to the required replenishment of any debt service reserves with respect to the Parity Obligations (including Credit Support Reimbursement Obligations);

(5) Fifth, to the payment of any other amounts becoming due and payable with respect to Parity Obligations; and

(6) Sixth, to the payment of the costs and expenses of the Authority, if any, in carrying out the provisions of this article, including reasonable compensation to its agents, accountants and counsel, that were not paid pursuant to clause (1) above;

(7) Seventh, to the payment of all other amounts due and payable by the City from Net System Revenues, including, but not limited to the payment of obligations secured by Net System Revenues on a priority subordinate to the Parity Obligations, and to the payment of any Termination Payments on any Payment Agreements.

Section 6.03. Remedies of the Authority. The Authority shall have the right —

(a) by mandamus or other action or proceeding or suit at law or in equity to enforce its rights against the City or any councilmember, officer or employee thereof, and to compel the City or any such councilmember, officer or employee to perform and carry out its duties under agreements and covenants required to be performed by it or him or her contained herein;

(b) by suit in equity to enjoin any acts or things which are unlawful or violate the rights of the Authority; or

(c) by suit in equity upon the happening of an Event of Default to require the City and its councilmembers, officers and employees to account as the trustee of an express trust.

Section 6.04. Non-Waiver. Nothing in this article or in any other provision hereof shall affect or impair the obligation of the City, which is absolute and unconditional, to pay the 2024 Installment Payments to the Authority at their respective due dates or upon prepayment as provided herein from the Net System Revenues, or shall affect or impair the right of the Authority, which is also absolute and unconditional, to institute suit to enforce such payment by virtue of the contract embodied herein.

A waiver of any default or breach of duty or contract by the Authority shall not affect any subsequent default or breach of duty or contract or impair any rights or remedies on any such subsequent default or breach of duty or contract, and no delay or omission by the Authority to exercise any right or remedy accruing upon any default or breach of duty or contract shall impair any such right or remedy or shall be construed to be a waiver of any such default or breach of duty or contract or an acquiescence therein, and every right or remedy conferred upon the Authority by applicable law or by this article may be enforced and exercised from time to time and as often as shall be deemed expedient by the Authority.

If any action, proceeding or suit to enforce any right or exercise any remedy is abandoned or determined adversely to the Authority, the City and the Authority shall be restored to their former positions, rights and remedies as if such action, proceeding or suit had not been brought or taken.

Section 6.05. Remedies Not Exclusive. No remedy herein conferred upon or reserved to the Authority is intended to be exclusive of any other remedy, and each such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing in law or in equity or by statute or otherwise and may be exercised without exhausting and without regard to any other remedy conferred by applicable law.

ARTICLE VII

DISCHARGE OF OBLIGATIONS

Section 7.01. Discharge of Obligations.

(a) If the City shall pay or cause to be paid all the 2024 Installment Payments at the times and in the manner provided herein, the right, title and interest of the Authority herein and the obligations of the City hereunder shall thereupon cease, terminate, become void and be completely discharged and satisfied, except as provided in Section 5.05.

(b) Any unpaid principal component of the 2024 Installment Payments shall on its scheduled payment date or date of prepayment be deemed to have been paid within the meaning of and with the effect expressed in subsection (a) of this section if the City makes payment of such 2024 Installment Payments and the interest thereon in the manner provided herein, and money for the purpose of such payment or prepayment is then held by the Trustee.

(c) All or any portion of unpaid principal components of the 2024 Installment Payments shall, prior to their scheduled payment dates or dates of prepayment, be deemed to have been paid within the meaning of and with the effect expressed in subsection (a) of this section (except that the City shall remain liable for the payment of such 2024 Installment Payments, but only out of the money or securities deposited with the Trustee or an escrow agent as hereinafter described) if (i) notice is provided by the City to the Trustee and (ii) there shall have been deposited with the Trustee or such escrow agent either money in an amount which shall be sufficient to pay when due the principal components of such 2024 Installment Payments or such portions thereof and the interest thereon on and prior to their payment date or their dates of prepayment, as the case may be, or Federal Securities which are not subject to redemption prior to maturity except by the holder thereof (including any such Federal Securities issued or held in book entry form) the interest on and principal of which when paid will provide money which, together with money, if any, deposited with the Trustee or such escrow agent at the same time, shall be sufficient, as stated in a report of an Independent Certified Public Accountant addressed to the City and the Trustee or such escrow agent, to pay when due the principal components of such 2024 Installment Payments or such portions thereof and the interest thereon on and prior to their payment dates or their dates of prepayment, as the case may be.

ARTICLE VIII

PROVISIONS RELATING TO THE BOND INSURANCE POLICY AND THE RESERVE
FUND POLICY

Section 8.01. Provisions of this Article to Govern. Notwithstanding anything to the contrary set forth in this 2024 Contract, the provisions of this Article VIII shall govern this 2024 Contract.

Section 8.02. Notice and Other Information to be Given to the Insurer. The City will provide the Insurer with all notices and other information it is obligated to provide (1) under its Continuing Disclosure Certificate executed in connection with the 2024 Bonds and (2) to the holders of the 2024 Bonds or the Trustee under the 2024 Indenture. The notice address of the Insurer is set forth in Section 9.10 of this 2024 Contract.

Section 8.03. Defeasance. Defeasance of the 2024 Installment Payments under Section 7.01 of this 2024 Contract shall only be accomplished to the extent that the related 2024 Bonds are paid or deemed to have been paid under the 2024 Indenture.

Section 8.04. Insurer As Third Party Beneficiary. The Insurer is recognized as and shall be deemed to be a third party beneficiary of this 2024 Contract and may enforce the provisions of this 2024 Contract as if it were a party hereto.

Section 8.05. Additional Payments.

(a) To the extent permitted by law and solely from the Net System Revenues, the City agrees unconditionally that it will pay or reimburse the Insurer on demand any and all reasonable charges, fees, costs, losses, liabilities and expenses that the Insurer may pay or incur, including, but not limited to, fees and expenses of the Insurer's agents, attorneys, accountants, consultants, appraisers and auditors and reasonable costs of investigations, in connection with the administration (including waivers and consents, if any), enforcement, defense, exercise or preservation of any rights and remedies in respect of the 2024 Indenture or 2024 Contract ("Administrative Costs"). For purposes of the foregoing, costs and expenses shall include a reasonable allocation of compensation and overhead attributable to the time of employees of the Insurer spent in connection with the actions described in the preceding sentence. The City agrees that failure to pay any Administrative Costs on a timely basis will result in the accrual of interest on the unpaid amount at the Late Payment Rate, compounded semi-annually, from the date that payment is first due to the Insurer until the date the Insurer is paid in full.

(b) Notwithstanding anything herein to the contrary, the City agrees to pay to the Insurer, but solely from Net System Revenues (i) a sum equal to the total of all amounts paid by the Insurer under the Bond Insurance Policy (the "Bond Insurance Policy Payment"); and (ii) interest on such Bond Insurance Policy Payments from the date paid by the Insurer until payment thereof in full by the City, payable to Insurer at the Late Payment Rate per annum (collectively, "Insurer Reimbursement Amounts") compounded semi-annually. The City hereby covenants and agrees that the Insurer Reimbursement Amounts constitute Credit Provider Reimbursement Obligations and Parity Obligations under this 2024 Contract.

Section 8.06. Payment of Policy Costs — Reserve Fund Policy.

(a) Solely from the Net System Revenues, the City agrees that it will repay any draws under the Reserve Fund Policy and, to the extent permitted by law, pay all related reasonable expenses incurred by the Insurer. Interest shall accrue and be payable on such draws and, to the extent permitted by law, expenses from the date of payment by the Insurer at the Late Payment Rate.

(b) Repayment of draws under the Reserve Fund Policy and payment of expenses and accrued interest thereon at the Late Payment Rate (collectively, “Policy Costs”) shall commence in the first month following each draw, and each such monthly payment shall be in an amount at least equal to 1/12 of the aggregate Policy Costs related to such draw. The City hereby covenants and agrees that the Policy Costs constitute Credit Provider Reimbursement Obligations and Parity Obligations under this 2024 Contract.

(c) Amounts in respect of Policy Costs paid to the Insurer shall be credited first to interest due, then to expenses due and then to principal due. As and to the extent that payments are made to the Insurer on account of principal due, the coverage under the Reserve Fund Policy will be increased by a like amount, subject to the terms of the Reserve Fund Policy.

(d) If the City shall fail to pay any Policy Costs in accordance with the requirements of this Section 8.06, the Insurer shall be entitled to exercise any and all legal and equitable remedies available to it, including those provided under the 2024 Indenture and this 2024 Contract other than (i) acceleration of the maturity of the 2024 Bonds or the 2024 Installment Payments, or (ii) remedies which would adversely affect the owners of the 2024 Bonds.

(e) The 2024 Contract shall not be discharged until all Policy Costs owing to the Insurer shall have been paid in full. The City’s obligation to pay such amount shall expressly survive payment in full of the 2024 Bonds.

Section 8.07. No Acceleration of Parity Obligations. No Parity Obligations shall be subject to acceleration without the prior written consent of the Insurer.

ARTICLE IX

MISCELLANEOUS

Section 9.01. Liability of City Limited to Net System Revenues. Notwithstanding anything contained herein, the City shall not be required to advance any money derived from any source of income other than the Net System Revenues and the other funds provided herein for the payment of the 2024 Installment Payments or for the performance of any agreements or covenants required to be performed by it contained herein; provided, that the City may advance money for any such purpose so long as such money is derived from a source legally available for such purpose and may be legally used by the City for such purpose.

The obligation of the City to make the 2024 Installment Payments is a special obligation of the City and is payable solely from the Net System Revenues and the other funds as provided herein, and does not constitute a debt of the City or the State of California or of any

political subdivision thereof within the meaning of any constitutional or statutory debt limitation or restriction, and does not constitute an obligation for which the City is obligated to levy or pledge any form of taxation or for which the City has levied or pledged any form of taxation.

Section 9.02. Benefits of Contract Limited to Parties and Beneficiary. Except as provided in Sections 8.03 and 8.04, nothing contained herein, expressed or implied, is intended to give to any person other than the City, the Authority and their assigns any right, remedy or claim under or pursuant hereto, and any agreement or covenant required herein to be performed by or on behalf of the City or the Authority shall be for the sole and exclusive benefit of the City, the Authority and their assigns.

Section 9.03. Assignment. The 2024 Contract and any rights hereunder may be assigned by the Authority, as a whole or in part, without the necessity of obtaining the prior consent of the City. The assignment of the 2024 Contract or rights hereunder to the Trustee is solely in its capacity as Trustee and the duties, powers and liabilities of the Trustee in acting hereunder shall be subject to the provisions of the 2024 Indenture.

Section 9.04. Successor is Deemed Included in all References to Predecessor. Whenever either the City or the Authority is named or referred to herein, such reference shall be deemed to include the successor to the powers, duties and functions that are presently vested in the City or the Authority, and all agreements and covenants required hereby to be performed by or on behalf of the City or the Authority with respect to the Wastewater System shall bind and inure to the benefit of the respective successors thereof whether so expressed or not.

Section 9.05. Waiver of Personal Liability. No councilmember, officer or employee of the City shall be individually or personally liable for the payment of the 2024 Installment Payments, but nothing contained herein shall relieve any councilmember, officer or employee of the City from the performance of any official duty provided by any applicable provisions of law or hereby.

Section 9.06. Article and Section Headings, Gender and References. The headings or titles of the several articles and sections hereof and the table of contents appended hereto shall be solely for convenience of reference and shall not affect the meaning, convenience or effect hereof, and words of any gender shall be deemed and construed to include all genders. All references herein to “Articles,” “Sections” and other subdivisions or clauses are to the corresponding articles, sections, subdivisions or clauses hereof; and the words “hereby,” “herein,” “hereto,” “herewith,” “hereunder” and other words of similar import refer to the 2024 Contract as a whole and not to any particular article, section, subdivision or clause hereof.

Section 9.07. Partial Invalidity. If any one or more of the agreements or covenants or portions thereof required hereby to be performed by or on the part of the City or the Authority shall be contrary to law, then such agreement or agreements, such covenant or covenants or such portions thereof shall be null and void and shall be deemed separable from the remaining agreements and covenants or portions thereof and shall in no way affect the validity hereof, and the City and the Authority hereby declare that they would have executed the 2024 Contract and each and every other article, section, paragraph, subdivision, sentence, clause and phrase hereof irrespective of the fact that any one or more articles, sections, paragraphs, subdivisions, sentences,

clauses or phrases hereof or the application thereof to any person or circumstance may be held to be unconstitutional, unenforceable or invalid.

Section 9.08. Net Contract. The 2024 Contract shall be deemed and construed to be a net contract, and the City shall pay absolutely net during the term hereof the 2024 Installment Payments and all other payments required hereunder, free of any deductions and without abatement, diminution or set-off whatsoever.

Section 9.09. California Law. The 2024 Contract shall be construed and governed in accordance with the laws of the State of California.

Section 9.10. Notices. All written notices to be given hereunder shall be given by mail to the party entitled thereto at its address set forth below, or at such other address as such party may provide to the other party in writing from time to time, namely:

If to the City:

City of Stockton
425 N. El Dorado Street
Stockton, California 95202
Attention: Chief Financial Officer

If to the Authority:

Stockton Public Financing Authority
425 N. El Dorado Street
Stockton, California 95202
Attention: Treasurer

If to the Insurer:

Attention:
Telephone:
Telecopier:
Email:

In each case in which notice or other communication refers to an event of default or a claim on the Bond Insurance Policy or Reserve Fund Policy, then a copy of such notice or other communication shall also be sent to the attention of the General Counsel at the same address and at claims@buildamerica.com or at Telecopier: _____ and shall be marked to indicate "URGENT MATERIAL ENCLOSED."

Section 9.11. Effective Date. The 2024 Contract shall become effective upon its execution and delivery.

Section 9.12. Execution in Counterparts. The 2024 Contract may be executed in several counterparts, each of which shall be deemed an original, and all of which shall constitute but one and the same instrument.

Section 9.13. Use of Electronic Signatures. Each of the parties hereto agrees that the transaction consisting of this 2024 Contract may be conducted by electronic means. Each party agrees, and acknowledges that it is such party's intent (i) that, by signing this 2024 Contract using an electronic signature, it is signing, adopting and accepting this 2024 Contract, and (ii) that signing this 2024 Contract using an electronic signature is the legal equivalent of having placed the undersigned officer's handwritten signature on this 2024 Contract on paper. Each party acknowledges that it is being provided with an electronic or paper copy of this 2024 Contract in a usable format.

IN WITNESS WHEREOF, the parties hereto have executed the 2024 Contract by their officers thereunto duly authorized as of the day and year first written above.

_____, 2024

Stockton Public Financing Authority
 425 N. El Dorado Street
 Stockton, California 95202

City of Stockton
 425 N. El Dorado Street
 Stockton, California 95202

Ladies and Gentlemen:

Hilltop Securities Inc., on behalf of itself and as representative (the “**Representative**”) of Oppenheimer & Co. Inc. (collectively, with the Representative, the “**Underwriters**”), hereby offers to enter into this Bond Purchase Agreement (this “**Bond Purchase Agreement**”) with the Stockton Public Financing Authority (the “**Authority**”), a joint exercise of powers authority duly organized and validly existing under and pursuant to the laws of the State of California (the “**State**”), and the City of Stockton (the “**City**”), a municipal corporation and charter city duly organized and validly existing pursuant to the Constitution and laws of the State, which upon written acceptance of this offer, will be binding upon the Authority, the City and the Underwriters. This offer is made subject to the Authority’s and the City’s written acceptance hereof on or before 11:59 p.m., California time, on the date hereof, and, if not so accepted, will be subject to withdrawal by the Underwriters upon written notice delivered to the Authority and the City at any time prior to the acceptance hereof by the Authority and the City.

Capitalized terms used and not defined herein shall have the same meanings as set forth in the 2024 Installment Purchase Contract, the 2024 Indenture and the Official Statement (each as defined below).

1. Purchase and Sale of the Series 2024 Bonds

Subject to the terms and conditions and in reliance upon the representations, warranties and agreements set forth herein, the Underwriters hereby jointly and severally agree to purchase from the Authority, and the Authority hereby agrees to sell and deliver to the Underwriters, all (but not less than all) of the \$ _____ aggregate principal amount of Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “**Series 2024 Bonds**”). The Series 2024 Bonds will be issued on the Closing Date (as hereinafter defined), in the principal amount of \$ _____. The Series 2024 Bonds will bear interest from the Closing Date at the respective rates and will mature in the principal amounts on the respective dates set forth on Schedule I attached hereto. The purchase price for the Series 2024 Bonds shall be \$ _____, being the principal amount

of the Series 2024 Bonds plus original issue premium of \$ _____ and less an Underwriters' discount of \$ _____.

The Representative represents and warrants that: (i) it has been duly authorized by and on behalf of the Underwriters to execute this Bond Purchase Agreement; and (ii) it has been duly authorized by the Underwriters to act hereunder and, as the representative of the Underwriters, to take all actions, and waive any condition or requirement, required or permitted to be taken or waived hereunder by the Underwriters. The Underwriters shall not designate any other representative except upon the approval of the Authority and the City (which approval shall not be unreasonably withheld). The Underwriters agree to comply with all applicable Securities and Exchange Commission rules and rules of the Municipal Securities Rulemaking Board (the “MSRB”) governing the offering, sale and delivery of the Series 2024 Bonds to ultimate purchasers.

The Authority and the City acknowledge and agree that: (i) the primary role of the Underwriters, as underwriters, is to purchase securities, for resale to investors, in an arm's length commercial transaction among the Authority, the City and the Underwriters and the Underwriters have financial and other interests that differ from those of the Authority and/or the City; (ii) the Underwriters are acting solely as principals and are not acting as municipal advisors, financial advisors or fiduciaries to the Authority or the City and have not assumed any advisory or fiduciary responsibility to the Authority or the City with respect to the transaction contemplated hereby and the discussions, undertakings and procedures leading thereto (irrespective of whether the Underwriters have provided other services or are currently providing other services to the Authority or the City on other matters); (iii) other than as imposed by law, the only obligations the Underwriters have to the Authority and/or the City with respect to the transaction contemplated hereby expressly are set forth in this Bond Purchase Agreement; and (iv) the Authority and the City have each consulted their own financial and/or municipal, legal, accounting and other advisors, as applicable, to the extent it has deemed appropriate. The Authority and the City acknowledge that they have previously provided the Representative with an acknowledgement of receipt of the required Underwriter disclosure under Rule G-17 of the MSRB.

2. **Description and Purpose of the Series 2024 Bonds**

The Series 2024 Bonds shall be substantially in the form described in, shall be issued and secured under the provisions of, and shall be payable as provided in the 2024 Indenture, dated as of August 1, 2024 (the “**2024 Indenture**”), between the Authority and U.S. Bank Trust Company, National Association, as trustee (the “**Trustee**”). The Series 2024 Bonds are [not] subject to redemption prior to maturity, as provided in the 2024 Indenture.

The Series 2024 Bonds are limited obligations of the Authority payable from and secured by a pledge of the Revenues (as defined in the 2024 Indenture) comprised primarily of 2024 Installment Payments to be made by the City pursuant to the 2024 Installment Purchase Contract, dated as of August 1, 2024 (the “**2024 Installment Purchase Contract**”), between the Authority and the City.

The pledge and right of payment from Net System Revenues securing the 2024 Installment Payments (which, in turn, constitute the primary source of the Revenues that are pledged to secure the repayment of the Series 2024 Bonds) is on a parity to the pledge and right of payment from Net System Revenues securing (1) installment payments made by the City to the Authority in connection with a bond issued by the United States Environmental Protection Agency, an agency of the United States of America, acting by and through the Administrator of the Environmental Protection Agency, in the original aggregate principal amount of up to \$108,000,000, which is current outstanding in the

aggregate principal amount of \$[____], and (2) a November 2021 loan issued by the California State Water Resources Control Board in the original aggregate principal amount of \$46,800,000, which is currently outstanding in the aggregate principal amount of \$[____], and that will remain outstanding following the issuance of the Series 2024 Bonds.

The proceeds of the sale of the Series 2024 Bonds will be used to: (i) refund all of the outstanding principal amount of the Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2014 (1998 Wastewater Project and 2003 Wastewater Project); [(ii) pay the premiums of a municipal bond insurance policy (the “**Policy**”) and a municipal bond debt service reserve insurance policy (the “**Reserve Policy**”) for the Series 2024 Bonds, each to be issued by _____ (the “**Insurer**”);] and (iii) pay certain costs for the Series 2024 Bonds.

[The scheduled payment of principal of and interest on the Series 2024 Bonds when due will be guaranteed under the Policy to be issued concurrently with the delivery of the Series 2024 Bonds by the Insurer. The Insurer will also issue the Reserve Policy concurrently with the delivery of the Series 2024 Bonds.]

3. **Public Offering**

(a) The Underwriters agree to make a bona fide public offering of all the Series 2024 Bonds initially at prices not in excess of the public offering prices (or less than the yields) set forth on Schedule I attached hereto and incorporated herein by this reference. Subsequent to the initial public offering, the Underwriters reserve the right to change the public offering prices (or yields) as they deem necessary in connection with the marketing of the Series 2024 Bonds, provided that the Underwriters shall not change the interest rates set forth on Schedule I. The Series 2024 Bonds may be offered and sold to certain dealers, unit investment trusts and money market funds, certain of which may be sponsored or managed by one or more of the Underwriters, at prices lower than such initial public offering prices. In connection with the sale and delivery of the Series 2024 Bonds, the Representative will deliver an Issue Price Certificate substantially in the form attached hereto as Exhibit A.

(b) The Authority and the City hereby authorize the use by the Underwriter of the 2024 Indenture and the 2024 Installment Purchase Contract in connection with the public offering and sale of the Series 2024 Bonds.

4. **Delivery of Official Statement; Continuing Disclosure**

(a) Preliminary Official Statement. The Authority and the City have delivered or caused to be delivered to the Underwriters prior to the execution of this Bond Purchase Agreement, copies, including electronic copies, of the Preliminary Official Statement dated _____, 2024 relating to the Series 2024 Bonds (the “**Preliminary Official Statement**”). Such Preliminary Official Statement is the official statement deemed final by the Authority and the City for purposes of Rule 15c2-12 under the Securities Exchange Act of 1934 (the “**Rule**”), except for certain information permitted to be omitted therefrom by the Rule, and approved for distribution by the Underwriters by resolution of the Board of Directors of the Authority and by the City Council of the City. The Authority and the City hereby ratify and confirm their authorization of the use by the Underwriters prior to the date hereof of the Preliminary Official Statement.

(b) Final Official Statement. Within seven (7) business days from the date hereof, and in any event not later than two business days prior to the Closing Date, the Authority and the City shall deliver to

the Underwriters a final Official Statement, which may be in electronic form, executed on behalf of the Authority and the City by authorized representatives of such entities, which shall include information permitted to be omitted from the Preliminary Official Statement by paragraph (b)(1) of the Rule and with such other amendments or supplements as shall have been approved by the Authority, the City and the Representative (the “**Final Official Statement**”) and such additional conformed copies thereof, which may be electronic copies, as the Underwriters may reasonably request in sufficient quantities to comply with the Rule and rules of the MSRB and to meet potential customer requests for copies of the Final Official Statement. The Authority and the City hereby agree to deliver to the Underwriters an electronic copy of the Official Statement in a form that permits the Underwriters to satisfy their obligations under the rules and regulations of the MSRB and the Securities and Exchange Commission. Electronic copies of the Official Statement shall be filed and posted by the Representative on the MSRB’s Electronic Municipal Market Access System (“**EMMA**”) in connection with the offer and sale of the Series 2024 Bonds as provided herein, which may be in lieu of hard copies of the Official Statement. The Authority and the City hereby authorize the Underwriters to use the Final Official Statement and the information contained therein in connection with the offering and sale of the Series 2024 Bonds. The Authority and the City shall prepare the Official Statement, including any amendments thereto, in word-searchable PDF format as described in the MSRB’s Rule G-32 and shall provide the electronic copy of the word-searchable PDF format of the Official Statement to the Underwriters no later than one (1) business day prior to the Closing Date to enable the Underwriters to comply with MSRB Rule G-32. The Underwriters covenant to file, or cause to be filed, the Official Statement (and any supplement and amendment thereof furnished to the Underwriters pursuant to this Section 4), with EMMA.

(c) Continuing Disclosure Certificate. In order to enable the Underwriters to comply with the Rule, the City will execute a Continuing Disclosure Certificate concurrently with issuance of the Series 2024 Bonds substantially in the form attached as Appendix D to the Final Official Statement (the “**Continuing Disclosure Certificate**”).

5. **Closing**

At 8:30 a.m. Pacific time on _____, 2024, or such other time as shall be agreed upon by the Representative, the City and the Authority (the “**Closing Date**”), the Authority will deliver or cause to be delivered to the Underwriters by electronic means provided by Hawkins Delafield & Wood LLP, San Francisco, California (“**Bond Counsel**”), or by such other means as may be designated by the Representative and approved by the Authority and the City), the closing documents hereinafter mentioned and, through the F.A.S.T. facilities of The Depository Trust Company (“**DTC**”), the Series 2024 Bonds in the form of registered book-entry bonds evidenced by one certificate for each maturity of the Series 2024 Bonds (which may be typewritten) in denominations of \$5,000 or any multiple thereof, duly executed by the Authority and authenticated by the Trustee, and subject to the terms and conditions hereof the Underwriters will accept delivery of the Series 2024 Bonds in book-entry form, and the Underwriters will pay the purchase price of the Series 2024 Bonds set forth in Section 1 by Federal Funds wire (such delivery and payment being herein referred to as “**Closing**”).

6. **Representations, Warranties and Agreements of the Authority**. For purposes of this Section 6, “to the best of the Authority’s knowledge” means to the best knowledge of the officers thereof.

The Authority represents, warrants and covenants with the City and the Underwriters that:

- (a) the Authority is a joint exercise of powers authority duly organized and validly existing under and pursuant to the laws of the State, with full legal right, power and authority to issue, sell and deliver the Series 2024 Bonds to the Underwriters pursuant to the 2024 Indenture, and execute, deliver and perform its obligations, as the case may be, under this Bond Purchase Agreement, the Series 2024 Bonds, the 2024 Installment Purchase Contract and the 2024 Indenture (collectively, the “**Legal Documents**”) and to carry out and consummate all transactions on its part contemplated by each of the aforesaid documents and the Final Official Statement, and compliance by the Authority with the provisions of the Legal Documents will not materially conflict with or constitute a breach of or default under any applicable constitutional provision, law, administrative regulation, court order or consent decree or any applicable judgment or decree or any loan agreement, note, resolution, indenture, agreement or other instrument to which the Authority is a party or may be otherwise subject;
- (b) the resolution adopted by the Board of Directors of the Authority on [July 9, 2024] approving and authorizing the execution and delivery by the Authority of the Legal Documents, the Preliminary Official Statement, the Final Official Statement and the Series 2024 Bonds (the “**Authority Resolution**”) was duly adopted at a meeting of the Authority called and held pursuant to law and with all public notice required by law and at which a quorum was present and acting throughout, and are in full force and effect and have not been amended or repealed;
- (c) when delivered by the Authority and paid for by the Underwriters in accordance with the provisions of this Bond Purchase Agreement, the Series 2024 Bonds will have been duly authorized, executed and delivered by, and will constitute the valid and binding limited obligations of, the Authority in conformity with, and entitled to the benefit and security of, the 2024 Indenture;
- (d) the Authority has duly authorized and approved the execution and delivery of the Legal Documents and when fully executed and delivered, the Legal Documents, assuming due authorization, execution and delivery by the other respective parties thereto, will constitute the legally valid and binding obligations of the Authority enforceable in accordance with their respective terms, except as enforcement may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws or equitable principles relating to or affecting creditors’ rights generally;
- (e) except as otherwise disclosed in the Final Official Statement, as of the Closing, the Authority will be in compliance with the covenants and agreements contained in the Legal Documents, and no event has occurred and is continuing which, with the passage of time or giving of notice, or both, would, to the knowledge of the Authority, constitute an event of default thereunder;
- (f) all approvals, consents and orders of any governmental authority or agency having jurisdiction in the matter which would constitute a condition precedent to the preparation and distribution of the Preliminary Official Statement and the Official Statement or the due performance by the Authority of its obligations under the Legal Documents have been duly obtained or made, and are, and will be as of the Closing Date, in full force and effect;
- (g) the Authority will comply with the requirements of the Tax Certificate executed by the Authority and the City in connection with the delivery of the Series 2024 Bonds;
- (h) any certificate signed by any officer of the Authority and delivered to the Underwriters pursuant to the Legal Documents or any document contemplated hereby or thereby shall be deemed a representation and warranty by the Authority to the Underwriters as to the statements made therein and that such officer shall have been duly authorized to execute the same;

(i) as of the date hereof there is not, and as of the Closing Date there will not be, a public vote or referendum pending or proposed, the results of which could materially adversely affect the transactions contemplated by the Preliminary Official Statement, the Official Statement, the Legal Documents or the Series 2024 Bonds, or the Revenues securing the Series 2024 Bonds, or the validity or enforceability of the Legal Documents or the Series 2024 Bonds;

(j) the 2024 Indenture creates a valid pledge of and grant of a first priority security interest in the Revenues purported to be pledged thereby, subject to no prior pledges or security interests other than as described in the Final Official Statement;

(k) the information under the headings “THE AUTHORITY” and “ABSENCE OF MATERIAL LITIGATION – The Authority” in the Preliminary Official Statement, as of the date of the Preliminary Official Statement and as of the date hereof, was and is true and correct in all material respects, and did not and does not contain a misstatement of any material fact or omit to state a material fact necessary to make the statements contained therein, in the light of the circumstances in which such statements were made, not misleading;

(l) the information under the headings “THE AUTHORITY” and “ABSENCE OF MATERIAL LITIGATION – The Authority” in the Final Official Statement is, and at all times subsequent to the date of the Official Statement up to and including the Closing will be, true and correct in all material respects, and such information in the Final Official Statement contains, and up to and including the Closing will contain, no misstatement of any material fact and does not, and up to and including the Closing will not, omit any statement necessary to make the statements contained therein, in the light of the circumstances in which such statements were made, not misleading;

(m) the Authority will advise the Representative and the City promptly of any proposal to amend or supplement the Final Official Statement and will not effect or consent to any such amendment or supplement without the consent of the Representative and the City, which consents will not be unreasonably delayed or withheld, and the Authority will advise the Representative and the City promptly of the institution of any proceedings known to it by any governmental agency prohibiting or otherwise affecting the use of the Final Official Statement in connection with the offering, sale or distribution of the Series 2024 Bonds;

(n) as of the time of acceptance hereof and as of the time of the Closing, except as otherwise disclosed in the Preliminary Official Statement and the Final Official Statement, the Authority is not and will not be in breach of or in default under any applicable constitutional provision, law or administrative rule or regulation of the State or the United States, or any applicable judgment or decree or any trust agreement, loan agreement, bond, note, resolution, ordinance, agreement or other instrument to which the Authority is a party or is otherwise subject, and no event has occurred and is continuing which, with the passage of time or the giving of notice, or both, would constitute a default or event of default under any such instrument which breach or default would materially adversely affect the security for the Series 2024 Bonds or the Authority’s performance under the Legal Documents; and, as of such times, except as disclosed in the Final Official Statement, the authorization, execution and delivery by the Authority of the Legal Documents and the Series 2024 Bonds and compliance by the Authority with the provisions of each of such agreements or instruments do not and will not conflict with or constitute a breach of or default under any applicable constitutional provision, law or administrative rule or regulation of the State or the United States or any applicable judgment, decree, license, permit, trust agreement, loan agreement, bond, note, resolution, ordinance agreement or other instrument to which the Authority (or any of its officers in their respective capacities as such) is subject,

or by which it or any of its properties is bound; nor will any such authorization, execution, delivery or compliance result in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature whatsoever upon any of its assets or properties or under the terms of any such law, regulation or instrument, except as may be provided by the Series 2024 Bonds and the Legal Documents;

(o) as of the time of acceptance hereof and the Closing, except as disclosed in the Preliminary Official Statement and the Final Official Statement, no action, suit, proceeding, inquiry or investigation, at law or in equity, notice of which has been given to the Authority, before or by any court, government agency, public board or body, is pending or to the best of the Authority's knowledge after reasonable investigation, threatened (i) in any way questioning the corporate existence of the Authority or the titles of the Commissioners, Chair, Vice Chair or Secretary and Treasurer of the Authority to their respective offices; (ii) affecting, contesting or seeking to prohibit, restrain or enjoin the issuance, sale or delivery of any of the Series 2024 Bonds, or the payment or collection of any amounts pledged or to be pledged to pay the principal of and interest on the Series 2024 Bonds, or in any way contesting or affecting the validity of the Series 2024 Bonds, the Legal Documents or the consummation of the transactions contemplated thereby or hereby, or contesting the exclusion of the interest on the Series 2024 Bonds from gross income for Federal income tax purposes or contesting the powers of the Authority or its authority to issue the Series 2024 Bonds; (iii) which may result in any material adverse change relating to the Authority; or (iv) contesting the completeness or accuracy of the Preliminary Official Statement or the Final Official Statement or any supplement or amendment thereto or asserting that the Preliminary Official Statement or the Final Official Statement contained any untrue statement of a material fact or omitted to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, nor, to the knowledge of the Authority, is there any basis for any action, suit, proceeding, inquiry or investigation of the nature described in clauses (i) through (iv) of this paragraph;

(p) for purposes of the Rule, the Authority has heretofore deemed final the Preliminary Official Statement prior to its use and distribution by the Underwriters, except for the information specifically permitted to be omitted by paragraph (b)(1) of the Rule; and

(q) the Authority has not entered into any contract or agreement that would limit or restrict the Authority's ability to enter into this Bond Purchase Agreement for the sale of the Series 2024 Bonds to the Underwriters.

All representations, warranties and agreements of the Authority shall remain operative and in full force and effect, regardless of any investigations made by or on the Underwriters' behalf, and shall survive the delivery of the Series 2024 Bonds.

7. Representations, Warranties, and Agreements of the City. The City represents, warrants and covenants with the Underwriters that:

(a) the City is a municipal corporation and charter city duly organized and validly existing pursuant to the Constitution and laws of the State, with full legal right, power, and authority to execute, deliver and perform its obligations, as the case may be, under this Bond Purchase Agreement, the Continuing Disclosure Certificate and the 2024 Installment Purchase Contract (collectively, the "**City's Legal Documents**") and to carry out and consummate all transactions on its part contemplated by each of the City's Legal Documents, and compliance by the City with the provisions of the City's Legal Documents will not materially conflict with or constitute a breach of or default under any applicable

constitutional provision, law, charter provision, administrative regulation, court order or consent decree or any applicable judgment or decree or any loan agreement, note, resolution, indenture, agreement or other instrument to which the City is a party or may be otherwise subject;

(b) the resolution adopted by the City Council of the City on [July 9, 2024] approving and authorizing the execution and delivery by the City of the City's Legal Documents, the Preliminary Official Statement, the Final Official Statement and the Series 2024 Bonds (the "**City Resolution**") was duly adopted at a meeting of the City called and held pursuant to law and with all public notice required by law and at which a quorum was present and acting throughout, and are in full force and effect and have not been amended or repealed;

(c) as of the time of acceptance hereof and the Closing, except as otherwise disclosed in the Preliminary Official Statement and the Final Official Statement, there is no action, suit, proceeding, inquiry or investigation at law or in equity, notice of which has been given to the City, or by or before any court, governmental agency, public board or body pending or, to the best knowledge of the City, after reasonable investigation, threatened against or affecting the City (i) which in any way contests the existence, organization or powers of the City or the title of the officers of the City to their respective offices, or (ii) affecting, contesting or seeking to prohibit, restrain or enjoin the issuance, sale or delivery of the Series 2024 Bonds, or the payment or collection of revenues or assets of the City pledged or to be pledged to pay the obligations of the City under the 2024 Installment Purchase Contract, or the pledge thereof, or (iii) in any way contesting or affecting the validity or enforceability of the City's Legal Documents, or (iv) contesting the power of the City or its authority with respect to the Series 2024 Bonds or the City's Legal Documents, (v) contesting the exclusion of interest on the Series 2024 Bonds from gross income for Federal income tax purposes or contesting the completeness or accuracy of the Preliminary Official Statement or the Final Official Statement or any supplement or amendment thereto or asserting that the Preliminary Official Statement or the Final Official Statement contained any untrue statement of a material fact or omitted to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; nor, to the best knowledge of the City, is there any basis for any action, suit, proceeding, inquiry or investigation of the nature described in clauses (i) through (v) of this paragraph;

(d) the execution and delivery of the City's Legal Documents, the adoption of the City Resolution and compliance by the City with the provisions of the foregoing, under the circumstances contemplated thereby, do not and will not in any material respect conflict with or constitute on the part of the City a breach or default under any agreement or other instrument to which the City is a party or by which it is bound or any existing law, regulation, court order or consent decree to which the City is subject;

(e) the City has duly authorized the preparation and distribution of the Preliminary Official Statement and the Final Official Statement and the execution and delivery of the City's Legal Documents and when executed and delivered, the City's Legal Documents, assuming due authorization, execution and delivery by the other respective parties thereto, will constitute the legally valid and binding obligations of the City enforceable in accordance with their respective terms, except as enforcement may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws or equitable principles relating to or affecting creditors' rights generally;

(f) except as otherwise disclosed in the Preliminary Official Statement and the Final Official Statement, the City is not in violation or breach of or default under any applicable law or administrative regulation of the State or the United States of America, or any agency or instrumentality of either of

them, or any applicable judgment or decree, or any loan agreement, indenture, bond, note, resolution, agreement or other instrument to which the City is a party or is otherwise subject, and no event has occurred and is continuing which, with the passage of time or the giving of notice or both, would constitute a violation or a breach of or a default under any such instrument; which violation, breach or default would materially adversely affect the security of the Series 2024 Bonds or the City's performance under the City's Legal Documents; and, except as disclosed in the Preliminary Official Statement and the Final Official Statement, the authorization, execution and delivery by the City of the City's Legal Documents and compliance by the City with the provisions of each of such agreements or instruments do not and will not conflict with or constitute a breach of or default under any applicable constitutional provision, law or administrative rule or regulation of the State or the United States, or any applicable judgment, decree, license, permit, trust agreement, loan agreement, bond, note, resolution, ordinance, agreement or other instrument to which the City (or any of its officers in their respective capacities as such) is subject, or by which it or any of its properties is bound, which conflict, breach or default would materially adversely affect the security of the Series 2024 Bonds or the City's performance under the City's Legal Documents; nor will any such authorization, execution, delivery or compliance result in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature whatsoever upon any of its assets or properties or under the terms of any such law, regulation or instrument, except as may be provided by the City's Legal Documents;

(g) as of the date hereof, the City is, and as of the Closing Date will be, except as otherwise disclosed in the Preliminary Official Statement and the Final Official Statement, in compliance with the covenants and agreements contained in the City's Legal Documents, and no event has occurred and is continuing which, with the passage of time or giving of notice, or both, would, to the knowledge of the City, constitute an event of default thereunder shall have occurred and be continuing;

(h) all approvals, consents and orders of any governmental authority or agency having jurisdiction in the matter which would constitute a condition precedent to the preparation and distribution of the Preliminary Official Statement and the Final Official Statement or the due performance by the City of its obligations under the City's Legal Documents have been duly obtained or made and are in full force and effect;

(i) the City will comply with the requirements of the Tax Certificate executed by the Authority and the City in connection with the delivery of the Series 2024 Bonds;

(j) any certificate signed by any duly authorized officer of the City and delivered to the Underwriters pursuant to the City's Legal Documents or any document contemplated thereby shall be deemed a representation and warranty by the City to the Underwriters as to the statements made therein;

(k) to the best knowledge of the City as of the date hereof, there is no public vote or referendum pending or proposed, the results of which could adversely affect the transactions contemplated by the Final Official Statement, the City's Legal Documents or the Series 2024 Bonds, or the Revenues securing the Series 2024 Bonds, or the validity or enforceability of the Series 2024 Bonds;

(l) the City has full legal right, power and authority to pledge the Net System Revenues, and the pledge of the Net System Revenues pursuant to the 2024 Installment Purchase Contract constitutes a valid first priority lien and pledge on the Net System Revenues purported to be pledged thereby, subject to no prior pledges or security interests other than as described in the Final Official Statement;

(m) the information in the Preliminary Official Statement, as of its date and as of the date hereof, was and is true and correct in all material respects, and contained and contains no untrue statement of any material fact, and did not and does not omit to state any material fact necessary to make the statements contained therein, in the light of the circumstances in which such statements were made, not misleading, provided, however, the City makes no representation or warranty with respect to the information concerning the Insurer, the Policy, the Reserve Policy, DTC and its book-entry system, or with respect to any statements or omissions made in reliance upon and in conformity with information furnished to the City in writing by the Underwriters expressly for use in the Preliminary Official Statement which the parties agree consists only of the information under the heading “UNDERWRITING” in the Preliminary Official Statement;

(n) the information in the Final Official Statement is, and at all times subsequent to the date of the Final Official Statement up to and including the Closing Date will be, true and correct in all material respects, and the Final Official Statement contains, and up to and including the Closing Date will contain, no untrue statement of any material fact and does not, and up to and including the Closing Date will not, omit to state any material fact necessary to make the statements contained therein, in the light of the circumstances in which such statements were made, not misleading, provided, however, (i) the City makes no representation or warranty with respect to any information concerning the Insurer, the Policy, the Reserve Policy, DTC and its book-entry system or with respect to any statements or omissions made in reliance upon and in conformity with any information furnished to the City in writing by the Underwriters expressly for use in the Final Official Statement and any amendment or supplement thereto, and (ii) the City acknowledges that the only information relating to the Underwriters furnished to the City in writing by the Underwriters expressly for use in the Final Official Statement and any amendment or supplement thereto is the identity of the Underwriters on the bottom of the cover page of the Final Official Statement and the information under the heading “UNDERWRITING” in the Final Official Statement and the pricing information appearing on the inside front cover of the Final Official Statement;

(o) the City will advise the Representative and the Authority promptly of any proposal to amend or supplement the Final Official Statement and will not effect or consent to any such amendment or supplement without the consent of the Representative and the Authority which consents will not be unreasonably delayed or withheld, and the City will advise the Representative and the Authority promptly of the institution of any proceedings known to it by any governmental agency prohibiting or otherwise affecting the use of the Final Official Statement in connection with the offering, sale or distribution of the Series 2024 Bonds;

(p) the City has not, in the last five years, failed to comply in any material respect with its obligations under any continuing disclosure undertaking entered into pursuant to the Rule except as disclosed in the Preliminary Official Statement and Final Official Statement. The City will undertake, pursuant to the Continuing Disclosure Certificate to provide annual reports and notices of certain events in accordance with the requirements of the Rule.

(q) for purposes of the Rule, the City has heretofore deemed final the Preliminary Official Statement prior to its use and distribution by the Underwriters, except for the information specifically permitted to be omitted by paragraph (b)(1) of the Rule;

(r) the financial statements of the City for Fiscal Year ended June 30, 2023 fairly present the financial position of the City and results of operations thereof as of the dates and for the periods therein

set forth, and the City believes that such financial statements have been prepared in accordance with generally accepted accounting principles consistently applied;

All representations, warranties and agreements of the City shall remain operative and in full force and effect, regardless of any investigations made by or on the Underwriters' behalf, and shall survive the delivery of the Series 2024 Bonds

8. **Establishment of Issue Price.** (a) The Representative, on behalf of the Underwriters, agrees to assist the Authority in establishing the issue price of the Series 2024 Bonds and shall execute and deliver to the Authority and the City on the Closing Date an "issue price" or similar certificate, together with the supporting pricing wires or equivalent communications, substantially in the form attached hereto as Exhibit B, with such modifications as may be appropriate or necessary, in the reasonable judgment of the Representative, the Authority and Bond Counsel, to accurately reflect, as applicable, the sales price or prices or the initial offering price or prices to the public of the Series 2024 Bonds.

(b) The Representative confirms that the Underwriters have offered each maturity of the Series 2024 Bonds to the public on or before the date of this Bond Purchase Agreement at the offering price or prices (the "**initial offering price**"), or at the corresponding yield or yields, set forth in Schedule I. Each separate CUSIP number within a maturity will be treated as its own maturity for purposes of this Section 8. Except for any maturities subject to the hold-the-offering-price rule (as defined below) identified in Schedule I attached hereto, the Authority will treat the first price at which 10% of each maturity of the Series 2024 Bonds (the "**10% test**") is sold to the public as the issue price of that maturity. Prior to the execution of this Bond Purchase Agreement, the Representative shall report to the Authority the price or prices at which the underwriters have sold to the public each maturity of Series 2024 Bonds.

(c) Schedule I also sets forth, as of the date of this Bond Purchase Agreement, the maturities, if any, of the Series 2024 Bonds for which the 10% test has not been satisfied, including any maturities for which the Authority and the Representative, on behalf of the other Underwriters, agree that the restrictions set forth in the next sentence shall apply, which will allow the Authority to treat the initial offering price to the public of each such maturity as of the sale date as the issue price of that maturity (the "**hold-the-offering-price rule**"). So long as the hold-the-offering-price rule remains applicable to any maturity of the Series 2024 Bonds, the Underwriters will neither offer nor sell unsold Series 2024 Bonds of that maturity to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

- (i) the close of the fifth (5th) business day after the sale date;
- (ii) or the date on which the underwriters have sold at least 10% of that maturity of the Series 2024 Bonds to the public at a price that is no higher than the initial offering price to the public.

The Representative shall within one business day report to the Authority when the underwriters have sold 10% of that maturity of the Series 2024 Bonds to the public at a price that is no higher than the initial offering price to the public, if that occurs prior to the close of the fifth (5th) business day after the sale date (this reporting requirement, if applicable, together with the reporting requirement in the immediately preceding paragraph, the "**Reporting Requirements**").

(d) The Representative confirms that:

(i) any agreement among underwriters, any selling group agreement and each third-party distribution agreement (to which the Representative is a party) relating to the initial sale of the Series 2024 Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter, each dealer who is a member of the selling group and each broker-dealer that is a party to such third-party distribution agreement, as applicable:

(A) (i) to report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing Date has occurred, until either all Bonds of that maturity allocated to it have been sold or it is notified by the Representative that the 10% test has been satisfied as to the Series 2024 Bonds of that maturity, provided that, the reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the Representative, and (ii) to comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Representative and as set forth in the related pricing wires,

(B) to promptly notify the Representative of any sales of Bonds that, to its knowledge, are made to a purchaser who is a related party to an underwriter participating in the initial sale of the Series 2024 Bonds to the public (each such term being used as defined below),

(C) to acknowledge that, unless otherwise advised by the underwriter, dealer or broker-dealer, the Representative shall assume that each order submitted by the underwriter, dealer or broker-dealer is a sale to the public.

(ii) any agreement among underwriters or selling group agreement relating to the initial sale of the Series 2024 Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter or dealer that is a party to a third-party distribution agreement to be employed in connection with the initial sale of the Series 2024 Bonds to the public to require each broker-dealer that is a party to such third-party distribution agreement to (A) report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing Date has occurred, until either all Bonds of that maturity allocated to it have been sold or it is notified by the Representative or such underwriter or dealer that the 10% test has been satisfied as to the Series 2024 Bonds of that maturity, provided that, the reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the Representative or such underwriter or dealer, and (B) comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Representative or the underwriter or the dealer and as set forth in the related pricing wires.

(e) The Authority acknowledges that, in making the representations set forth in subsection (c) of this Section 8, the Representative will rely on (i) the agreement of each underwriter to comply with the requirements for establishing the issue price of the Series 2024 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2024 Bonds, as set forth in an agreement among underwriters and the related pricing wires, (ii) in the event a selling group has been created in connection with the initial sale of the Series 2024 Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the

requirements for establishing issue price of the Series 2024 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2024 Bonds, as set forth in a selling group agreement and the related pricing wires, and (iii) in the event that an underwriter or dealer who is a member of the selling group is a party to a third-party distribution agreement that was employed in connection with the initial sale of the Series 2024 Bonds to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the requirements for establishing the issue price of the Series 2024 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2024 Bonds, as set forth in the third-party distribution agreement and the related pricing wires. The Authority further acknowledges that each underwriter shall be solely liable for its failure to comply with its agreement to adhere to the requirements for establishing issue price of the Series 2024 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2024 Bonds, and that no underwriter shall be liable for the failure of any other underwriter, or of any dealer who is a member of a selling group, or of any broker-dealer that is a party to a third-party distribution agreement, to comply with its corresponding agreement to comply with the requirements for establishing the issue price of the Series 2024 Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Series 2024 Bonds.

(f) The Underwriters acknowledge that sales of any Bonds to any person that is a related party to an underwriter participating in the initial sale of the Series 2024 Bonds to the public (each such term being used as defined below) shall not constitute sales to the public for purposes of this section. Further, for purposes of this section:

(i) “public” means any person other than an underwriter or a related party,

(ii) “underwriter” means (A) any person that agrees pursuant to a written contract with the Authority (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Series 2024 Bonds to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Series 2024 Bonds to the public (including a member of a selling group or a party to a third-party distribution agreement participating in the initial sale of the Series 2024 Bonds to the public),

(iii) a purchaser of any of the Series 2024 Bonds is a “related party” to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (A) more than 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (B) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (C) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other), and

(iv) “sale date” means the date of execution of this Bond Purchase Agreement by all parties.

9. Conditions to the Obligations of the Underwriters

The Underwriters hereby enter into this Bond Purchase Agreement in reliance upon the representations and warranties of the Authority and the City contained herein, and the representations and warranties to be contained in the documents and instruments to be delivered on the Closing Date and upon the performance by the Authority, the City and the Trustee of their respective obligations both on and as of the date hereof and on and as of the Closing Date. Accordingly, the Underwriters' obligations under this Bond Purchase Agreement to purchase, to accept delivery of and to pay for the Series 2024 Bonds on the Closing Date shall be subject, at the option of the Underwriters, to the accuracy in all material respects of the representations and warranties of the Authority and the City contained herein as of the date hereof and as of the Closing Date, to the accuracy in all material respects of the statements of the officers and other officials of the Authority, the City and the Trustee made in any certificate or document furnished pursuant to the provisions hereof, to the performance by the Authority, the City and the Trustee of their respective obligations to be performed hereunder and under the Series 2024 Bonds, the Legal Documents and the City's Legal Documents at or prior to the date hereof and at or prior to the Closing Date, and also shall be subject to the following additional conditions:

- (a) On the Closing Date, the Legal Documents and the City's Legal Documents shall have been duly authorized, executed and delivered by the Authority and by the City where each is a party, all in substantially the forms heretofore submitted to the Representative, with only such changes as shall have been agreed to in writing by the Representative, and shall be in full force and effect; and there shall be in full force and effect such resolutions and ordinances of the Board of Directors of the Authority and the City Council as, in the opinion of Bond Counsel, shall be necessary or appropriate in connection with the transactions contemplated hereby;
- (b) On the Closing Date, all necessary action of the Authority and the City relating to the issuance and sale of the Series 2024 Bonds will have been taken and will be in full force and effect and will not have been amended, modified or supplemented;
- (c) On or prior to the time of the Closing, the Underwriters shall have received the following documents, in each case reasonably satisfactory in form and substance to the Representative:
 - (i) the Official Statement and each supplement or amendment thereto, if any
 - (ii) one copy of the Legal Documents and the City's Legal Documents, each duly executed and delivered by the respective parties thereto;
 - (iii) the approving opinion, dated the date of the Closing and addressed to the Authority, of Bond Counsel in substantially the form of Appendix F to the Final Official Statement, and a letter of such counsel, dated the Closing Date, and addressed to the Underwriters to the effect that such opinion may be relied upon by the Underwriters to the same extent as if such opinion were addressed to them;
 - (iv) a supplemental opinion or opinions of Bond Counsel addressed to the Underwriters, in form and substance acceptable to the Representative, and dated the date of the Closing substantially to the following effect:
 - (A) the City and the Authority have duly and validly executed the Bond Purchase Agreement, and, assuming the due authorization, execution and delivery by and validity against the Underwriters, the Bond Purchase Agreement constitutes the legal, valid and binding agreement of the City and the

Authority, subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted and to the exercise of judicial discretion in appropriate cases;

(B) the statements contained in the Final Official Statement on the cover page and under the captions "INTRODUCTION," "THE 2024 BONDS," "SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS," "TAX MATTERS," and in Appendices C and F thereto, are accurate insofar as such statements expressly summarize certain provisions of the Series 2024 Bonds, the 2024 Indenture, the 2024 Installment Purchase Contract, and Bond Counsel's final approving opinion relating to the Series 2024 Bonds; and

(C) the Series 2024 Bonds are exempt from registration under the Securities Act of 1933, as amended, and the 2024 Indenture is exempt from qualification under the Trust Indenture Act of 1939, as amended.

(v) a letter from Hawkins Delafield & Wood LLP ("**Disclosure Counsel**"), dated the Closing Date and addressed to the Underwriter, Authority and City, substantially to the effect that on the basis of the information developed in the course of such firm's performance of services as Disclosure Counsel, such firm is of the view, subject to certain limitations to be set forth in such letter, that as of the Closing Date such firm has no reason to believe that the Preliminary Official Statement as of its date and the date of this Bond Purchase Agreement and the Final Official Statement ([excluding therefrom financial, demographic, economic, engineering and statistical data, forecasts, numbers, charts, tables, graphs, projections, estimates, assumptions and expressions of opinion, CUSIP numbers (or other identification numbers, if applicable), ratings and information relating to [the Insurer, the Policy, the Reserve Policy,] DTC and the book-entry only system, and information in Appendices B, E and G], as to all of which such firm expresses no opinion) as of its date and as of the Closing Date contained or contains any untrue statement of a material fact or omitted or omits to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(vi) the opinion of Kutak Rock LLP, Irvine, California, counsel to the Underwriters ("**Underwriters' Counsel**"), dated the Closing Date, addressed to the Underwriters, in form and substance satisfactory to the Underwriters;

(vii) the opinion of the counsel to the Authority dated the Closing Date and addressed to the Underwriters, substantially to the effect that: (A) the Authority is a joint exercise of powers authority duly organized and validly existing under the laws of the State of California; (B) the Authority Resolution was duly adopted at a regular meeting of the Authority that was called and held pursuant to law and with all public notice required by law and at which a quorum was present and acting throughout, and are in full force and effect and have not been amended or repealed; (C) other than as disclosed in the Preliminary Official Statement and the Official Statement, there is no action, suit, proceeding or investigation at law or in equity before or by any court, public board or body, pending, notice of which has been given to the Authority, or, to the best knowledge of such counsel after reasonable investigation, threatened against or affecting the Authority, to restrain or enjoin the issuance, execution, delivery or sale of the Series 2024 Bonds or the collection or payment of Revenues that are the source of security for the Series 2024 Bonds, or the pledge thereof, or in any way contesting or affecting the validity or enforceability of the Series 2024 Bonds or the Legal Documents, or in any way contesting or affecting the existence of the Authority or the title of any official of the Authority to such person's office, or contesting the power of the Authority or its authority with respect to the Series 2024 Bonds or the Legal Documents or contesting the exclusion of interest on the Series 2024 Bonds

from gross income for federal income tax purposes or contesting the completeness or accuracy of the Preliminary Official Statement or the Official Statement or any supplement or amendment thereto or asserting that the Preliminary Official Statement or the Official Statement contained any untrue statement of a material fact or omitted to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; (D) the execution and delivery of the Series 2024 Bonds and the Legal Documents, the adoption of the Authority Resolution, and compliance by the Authority with the provisions of the Series 2024 Bonds, the Legal Documents and the Authority Resolution, under the circumstances contemplated thereby, do not and will not in any material respect conflict with or constitute on the part of the Authority a breach or default under any agreement or other instrument to which the Authority is a party or by which it is bound or by any existing law, regulation, court order or consent decree to which the Authority is subject; (E) the Legal Documents have been duly authorized, executed and delivered by the Authority and, assuming due authorization, execution and delivery by the other parties thereto, constitute legal, valid and binding agreements of the Authority enforceable in accordance with their respective terms, subject to laws relating to bankruptcy, insolvency or other laws affecting the enforcement of creditors' rights generally and the limitations on legal remedies against public agencies in the State and the application of equitable principles if equitable remedies are sought; (F) no authorization, approval, consent, or other order of the United States of America, the State, or any other governmental authority or agency within the State having jurisdiction over the Authority is required for the valid authorization, execution, delivery and performance by the Authority of the Legal Documents or for the adoption of the Authority Resolution which has not been obtained and is in full force and effect;; and (G) that while such counsel is not passing upon and does not assume any responsibility for the accuracy, completeness or fairness of any of the statements contained in the Preliminary Official Statement or in the Official Statement and make no representation that such counsel has independently verified the accuracy, completeness or fairness of any such statements, such counsel advises as a matter of fact and not opinion that (a) no facts had come to such counsel's attention which caused them to believe, as of the date of the Preliminary Official Statement and as of the date of this Bond Purchase Agreement, that the information under the heading "ABSENCE OF MATERIAL LITIGATION" (as it relates to the Authority) in the Preliminary Official Statement contained any untrue statement of a material fact or omitted to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, and (b) no facts had come to such counsel's attention which caused them to believe that that the information under the heading "ABSENCE OF MATERIAL LITIGATION" (as it relates to the Authority) in the Official Statement, as of its date, contained, or as of the Closing Date, contains any untrue statement of a material fact or, as of its date, omitted, or as of the Closing Date, omits to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(viii) the opinion of the City Attorney, dated the Closing Date and addressed to the Authority and the Underwriters, substantially to the effect that: (A) the City is a municipal corporation of the State, duly organized and existing under its charter and the laws of the State; (B) the City Resolution was duly adopted at meetings of the City Council that were called and held pursuant to law and with all public notice required by law and at which a quorum was present and acting throughout, and is in full force and effect and has not been amended or repealed; (C) except as disclosed in the Preliminary Official Statement and the Official Statement, no action, suit, proceeding, or investigation at law or in equity before or by any court, public board or body is pending in which service of process has been completed, or to our knowledge is threatened against or affecting the City: (a) to restrain or enjoin the execution, delivery or sale of the Series 2024 Bonds; or (b) the payment or collection of revenues of the City from which the City will pay amounts due under the 2024 Installment Purchase Contract, or

the pledge thereof; or (c) in any way contesting or materially affecting the validity or enforceability of the Series 2024 Bonds or the City's Legal Documents; or (d) in any way contesting or affecting the existence of the City or the title of any executive officer of the City to such executive officer's office; or (e) contesting the power of the City or its authority with respect to the City's Legal Documents; or (f) contesting the completeness or accuracy of the Preliminary Official Statement or the Official Statement or any supplement or amendment thereto or asserting that the Preliminary Official Statement or the Official Statement contained any untrue statement of a material fact or omitted to state any material fact necessary in order to make the statements made therein, in the light of the circumstances in which they were made, not misleading; (D) the execution and delivery of the City's Legal Documents, the adoption of the City Resolution and compliance by the City with the provisions of the foregoing under the circumstances contemplated thereby, do not and will not in any material respect conflict with or constitute on the part of the City a violation or breach of, or constitute a default under, (a) any agreement or other instrument to which the City is a party or by which it is bound and with respect to such conflict, violation, breach or default would materially adversely affect the ability of the City to pay Installment Payments under the 2024 Installment Purchase Contract, or (b) any existing law, regulation, court order or consent decree to which the City is subject and that we have, in the exercise of customary professional diligence, recognized as applicable to the City and the transactions contemplated by the City's Legal Documents. (E) the City has the necessary power and authority to execute and deliver the City's Legal Documents; (F) the City's Legal Documents have been duly authorized, executed and delivered by the City, and assuming due authorization, execution and delivery by the other parties thereto, constitute legal, valid and binding agreements of the City enforceable in accordance with their respective terms, subject to laws relating to bankruptcy, insolvency or other laws affecting the enforcement of creditors' rights generally and the limitations on legal remedies against public agencies in the State of California and the application of equitable principles if equitable remedies are sought; (G) no authorization, approval, consent or other order of the United States of America, the State of California, or other governmental authority or agency within the State of California having jurisdiction over the City is required for the valid execution, delivery or performance by the City of the City's Legal Documents or for the adoption of the City Resolution which has not been obtained, except for such actions as may be necessary to be taken to qualify the Series 2024 Bonds for offer and sale under the Blue Sky or other securities laws and regulations of any state or jurisdiction of the United States of America, as to which no opinion is expressed; and (H) while we are not passing upon and do not assume any responsibility for the accuracy, completeness or fairness of any of the statements contained in the Preliminary Official Statement or in the Official Statement and make no representation that we have independently verified the accuracy, completeness or fairness of any such statements, we advise you as a matter of fact and not opinion that (a) no facts had come to our attention which caused us to believe, as of the date of the Preliminary Official Statement and as of the date of this Bond Purchase Agreement, that the information under the heading "ABSENCE OF MATERIAL LITIGATION" (as it relates to the City) in the Preliminary Official Statement contained any untrue statement of a material fact or omitted to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, and (b) no facts had come to our attention which caused us to believe that that the information under the heading "ABSENCE OF MATERIAL LITIGATION" (as it relates to the City) in the Official Statement, as of its date, contained, or as of the date hereof, contains any untrue statement of a material fact or, as of its date, omitted, or as of the date hereof, omits to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(ix) a certificate of a duly authorized official of the Authority, dated the Closing Date, in form and substance reasonably satisfactory to the Representative, to the effect that (A) the Authority's representations and warranties contained in the Legal Documents are true and correct on and as of the

Closing Date with the same effect as if made on the Closing Date; (B) there is no misstatement of any material fact under the headings “THE AUTHORITY” and “ABSENCE OF MATERIAL LITIGATION” (as it relates to the Authority) in the Final Official Statement and such statements or information in the Final Official Statement do not omit to state a material fact necessary to make the statements contained therein, in the light of the circumstances in which such statements were made, not misleading; and (C) the Authority has complied with all of the agreements and satisfied all of the conditions on its part to be performed or satisfied pursuant to the Legal Documents to which it is a party at or prior to the time of Closing;

(x) a certificate of a duly authorized official of the City, dated the Closing Date, in form and substance reasonably satisfactory to the Representative, to the effect that (A) the City’s representations and warranties contained in the City’s Legal Documents are true and correct on and as of the Closing Date with the same effect as if made on the Closing Date; (B) the information in the Final Official Statement as of its date was, and as of the date hereof is, true and correct in all material respects, and as of its date, the information in the Final Official Statement contained, and as of the date hereof, contains no misstatement of any material fact and as of its date did not, and as of the date hereof does not, omit to state a material fact necessary to make the statements contained therein, in the light of the circumstances in which such statements were made, not misleading (excluding therefrom any information concerning the Insurer, the Policy, the Reserve Policy, DTC and its book-entry system, or with respect to any statements or omissions made in reliance upon and in conformity with information furnished to the City in writing by the Underwriters expressly for use in the Final Official Statement); and (C) the City has complied with all of the agreements and satisfied all of the conditions on its part to be performed or satisfied pursuant to the Bond Purchase Agreement and the City’s Legal Documents to which it is a party at or prior to the time of Closing;

(xi) a certificate of a duly authorized official of the Trustee, dated the Closing Date, to the effect that: (A) the Trustee is a national banking association organized and existing under and by virtue of the laws of the United States, having the full power and being qualified to enter into and perform its duties under the 2024 Indenture and to authenticate and deliver the Series 2024 Bonds to the Underwriters; (B) the Trustee is duly authorized to enter into the 2024 Indenture and to authenticate and deliver the Series 2024 Bonds to the Underwriters pursuant to the 2024 Indenture; (C) when delivered to and paid for by the Underwriters at the Closing, the Series 2024 Bonds will have been duly authenticated and delivered by the Trustee; (D) the execution and delivery of the 2024 Indenture and compliance with the provisions on the Trustee’s part contained therein, will not conflict with or constitute a breach of or default under any law, administrative regulation, judgment, decree, loan agreement, indenture, note, resolution, agreement or other instrument to which the Trustee is a party or is otherwise subject (except that no representation, warranty or agreement is made with respect to any federal or state securities or blue sky laws or regulations), which conflict, breach or default would materially impair the ability of the Trustee to perform its obligations under the 2024 Indenture, nor will any such execution, delivery, adoption or compliance result in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature whatsoever upon any of the properties or assets held by the Trustee pursuant to the lien created by the 2024 Indenture under the terms of any such law, administrative regulation, judgment, decree, loan agreement, indenture, bond, note, resolution, agreement or other instrument, except as provided by the 2024 Indenture; and (E) to the best of the knowledge of the Trustee, it has not been served with any action, suit, proceeding, inquiry or investigation in law or in equity, before or by any court, governmental agency, public board or body, nor is any such action or other proceeding threatened against the Trustee, affecting the existence of the Trustee, or the titles of its officers to their respective offices or seeking to prohibit, restrain, or enjoining the execution and delivery of the Series 2024 Bonds or the collection of revenues

to be applied to pay the principal, premium, if any, and interest with respect to the Series 2024 Bonds, or the pledge thereof, or in any way contesting or affecting the validity or enforceability of the Series 2024 Bonds or the 2024 Indenture, or contesting the powers of the Trustee or its authority to enter into, adopt or perform its obligations under any of the foregoing to which it is a party, wherein an unfavorable decision, ruling or funding would materially adversely affect the validity or enforceability of the Series 2024 Bonds or the 2024 Indenture or the power and authority of the Trustee to enter into and perform its duties under the 2024 Indenture and to authenticate and deliver the Series 2024 Bonds to or upon the order of the Underwriters;

(xii) the opinion, dated the Closing Date and addressed to the Underwriters, the Authority and the City, of Counsel to the Trustee, to the effect that: (A) the Trustee has been duly incorporated as a national banking association under the laws of the United States and is in good standing under the laws of the United States, and is qualified to exercise trust powers therein, having full power and authority to enter into and to perform its duties under the 2024 Indenture; (B) the Trustee has duly authorized, executed and delivered the 2024 Indenture, and by all proper corporate action has authorized the acceptance of the trusts of the 2024 Indenture; (C) the 2024 Indenture constitutes the legally valid and binding agreement of the Trustee, enforceable against the Trustee in accordance with its terms, and (D) the Series 2024 Bonds have been validly authenticated and delivered by the Trustee;

(xiii) one certified copy of the general resolution of the Trustee authorizing the execution and delivery of the 2024 Indenture;

(xiv) one certified copy of the Authority Resolution;

(xv) one certified copy of the City Resolution;

(xvi) a Tax Certificate of the Authority and the City in form and substance reasonably acceptable to Bond Counsel;

(xvii) evidence that the federal tax information form 8038-G has been prepared for filing;

(xviii) a copy of the Notice of Proposed Sale and Report of Final Sale required to be delivered to the California Debt and Investment Advisory Commission pursuant to Section 8855(g) of the California Government Code;

(xix) evidence that the Bonds have been rated as set forth in the Official Statement and that such ratings continue in effect as of the Closing;

(xx) a certified copy of the joint exercise of powers agreement pursuant to which the Authority was created;

(xxi) a copy of the Notice of Joint Exercise of Powers Agreement from the Secretary of State certifying that the joint exercise of powers agreement pursuant to which the Authority was created was duly filed;

(xxii) a copy of the Blanket Letter of Representations to DTC, properly executed by all parties thereto; and

(xxiii) [the Policy, duly executed by the Insurer;]

(xxiv) [the Reserve Policy, duly executed by the Insurer;]

(xxv) [an opinion of counsel to the Insurer, dated the Closing Date, addressed to the Authority, City and the Underwriter, in form and substance satisfactory to the Underwriter and Bond Counsel;]

(xxvi) [a certificate or certificates of the Insurer, dated the Closing Date, as to the accuracy of the information relating to the Insurer, the Policy and the Reserve Policy included in the Official Statement and such other matters reasonably requested by the Underwriter and Bond Counsel;]

(xxvii) such additional legal opinions, certificates, instruments or evidences thereof and other documents as the Counsel to the Underwriters or Bond Counsel may reasonably request to evidence the due authorization, execution and delivery of the Series 2024 Bonds and the conformity of the Series 2024 Bonds and the Legal Documents with the terms of the Series 2024 Bonds and the descriptions thereof in the Final Official Statement.

(d) the Underwriters shall have the right to terminate this Bond Purchase Agreement, without liability therefor, by written notification to the Authority and the City if at any time at or prior to the Closing:

(i) any event shall occur or facts are discovered which causes any statement contained in the Official Statement to be materially misleading or results in a failure of the Official Statement to state a material fact necessary in order to make the statements in the Official Statement, in the light of the circumstances under which they were made, not misleading, provided, however, the Underwriters shall not terminate this Bond Purchase Agreement if prior to the Closing and prior to the distribution of the Official Statement to any public investor the City and the Underwriters agree to and shall have amended or supplemented the Official Statement so that the Official Statement as so amended or supplemented will not contain an untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made in the light of the circumstances in which they were made, not misleading, and, in the sole judgment of the Underwriters, such amendment or supplement would not have a material adverse effect on the marketability or market price of the Series 2024 Bonds on the terms and conditions contemplated by this Bond Purchase Agreement or the ability of the Underwriters to enforce contracts with investors for the sale of the Series 2024 Bonds (collectively, an “**Adverse Effect**”); or

(ii) any of an amendment to the Constitution of the United States or any legislation in or by the Congress of the United States or the State, or the amendment of legislation pending as of the date of this Bond Purchase Agreement in the Congress of the United States, or the recommendation to Congress or endorsement for passage (by press release, other form of notice or otherwise) of legislation by the President of the United States, the Treasury Department of the United States, the Internal Revenue Service or the Chairman or ranking minority member of the Committee on Finance of the United States Senate or the Committee on Ways and Means of the United States House of Representatives, or the proposal for consideration of legislation by either such Committee or by any member thereof, or the presentment of legislation for consideration as an option by either such Committee, or by the staff of the Joint Committee on Taxation of the Congress of the United States, or the favorable reporting for passage of legislation to either House of the Congress of the United States by a Committee of such House to which such legislation has been referred for consideration, or any decision of any federal or State court or any ruling or regulation (final, temporary or proposed) or official statement on behalf of the United States Treasury Department, the Internal Revenue Service or other federal or State authority, which in any case has a materially adverse effect on the federal or State tax status of the City or the Authority, or the interest on bonds or notes or obligations of the general

character of the Series 2024 Bonds, shall have occurred and would, in the reasonable opinion of the Representative, have an Adverse Effect; or

(iii) any legislation, ordinance, rule or regulation shall be introduced in, or be enacted by any governmental body, department or agency of the State, or a decision by any court of competent jurisdiction within the State or any court of the United States shall be rendered which, in the reasonable opinion of the Representative, would have an Adverse Effect; or

(iv) legislation shall be enacted by the Congress of the United States, or a decision by a court of the United States shall be rendered, or a stop order, ruling, regulation or official statement by, or on behalf of, the Securities and Exchange Commission or any other governmental agency having jurisdiction of the subject matter of the Series 2024 Bonds shall be issued or made to the effect that the issuance, offering or sale of obligations of the general character of the Series 2024 Bonds, or the issuance, offering or sale of the Series 2024 Bonds, including all underlying obligations, as contemplated hereby or by the Official Statement, is in violation or would be in violation of, or that obligations of the general character of the Series 2024 Bonds, or the Series 2024 Bonds, are not exempt from registration under, any provision of the federal securities laws, including the Securities Act of 1933, as amended and as then in effect, or that the 2024 Indenture needs to be qualified under the Trust Indenture Act of 1939, as amended and as then in effect; or

(v) there shall have occurred any outbreak or escalation of hostilities or terrorist activities or other local, national or international calamity or crisis, a downgrade of the sovereign debt rating of the United States by any major credit rating agency or payment default on United States Treasury obligations, or a default with respect to the debt obligations of, or the institution of proceedings under the federal bankruptcy laws by or against, any state of the United States or agency thereof, or any city in the United States having a population of over one million, in any case the effect of which, in the Representative's reasonable judgment, would have an Adverse Effect; or

(vi) any rating of the Series 2024 Bonds or rating of other debt securities of the Authority that are payable from the City's Wastewater System and not based solely on credit enhancement shall have been downgraded, suspended or withdrawn by S&P or Fitch or any rating of the Series 2024 Bonds or such other debt securities of the Authority shall be placed on "credit watch," so long as such action was not the result of any sector-wide action or change in rating methodology undertaken by such rating agency, which, in the Representative's reasonable opinion, would have an Adverse Effect; or

(vii) the commencement of any action, suit or proceeding described in Section 6(o) hereof or in Section 7(c) hereto which, in the reasonable judgment of the Representative, would have an Adverse Effect; or

(viii) the declaration of a general banking moratorium by federal, New York or California authorities, the general suspension of trading on any national securities exchange or a material disruption in securities settlement, payment or clearance services, which event, in the reasonable judgment of the Representative, would have an Adverse Effect; or

(ix) the imposition by the New York Stock Exchange or other national securities exchange, or any governmental authority, of any material restrictions not now in force with respect to obligations of the general character of the Series 2024 Bonds or securities generally, or the material increase of any such restrictions now in force, including those relating to the extension of credit by, or the charge to net

capital requirements of, the Underwriters, which, in the reasonable judgment of the Representative, would have an Adverse Effect; or

(x) [any rating of the Series 2024 Bonds or other obligations of the Insurer by a national rating agency shall have been withdrawn or downgraded or placed on negative outlook or negative watch; or]

(xi) there shall have been any materially adverse change in the affairs of the Authority or the City which (A) requires an amendment to the Official Statement under Section 11(a) or (b) hereof and (B) in the Representative's reasonable judgment would have an Adverse Effect.

If the City or the Authority shall be unable to satisfy the conditions contained in this Bond Purchase Agreement, or if the obligations of the Underwriters shall be terminated for any reason permitted by this Bond Purchase Agreement, this Bond Purchase Agreement shall terminate and neither the Underwriters, the City nor the Authority shall be under further obligation hereunder, except as further set forth in Section 10 hereof.

10. Expenses

The Underwriters shall be under no obligation to pay, and the Authority and the City shall pay or cause to be paid, the expenses incident to the performance of the obligations of the Authority and the City hereunder including but not limited to (a) the costs of the preparation and printing, or other reproduction (for distribution on or prior to the date hereof) of the Legal Documents and the City's Legal Documents and the cost of preparing, printing, issuing and delivering the definitive Series 2024 Bonds, (b) the fees and disbursements of any counsel, financial advisors, accountants, verification agents or other experts or consultants retained by the Authority or the City, (c) the fees and disbursements of Bond Counsel, (d) the fees and disbursements of Disclosure Counsel, (e) the fees and disbursements of the Trustee, (f) the cost of preparation (including preparation in electronic form), and printing and distribution of the Preliminary Official Statement and any supplements and amendments thereto and the cost of preparation (including preparation in electronic form), printing and distribution of the Official Statement and any supplements and amendments thereto, including the requisite number of copies thereof for distribution by the Underwriters, (g) [the premiums with respect to the Policy and the Reserve Policy,] and (h) charges of rating agencies for the rating of the Series 2024 Bonds. The Authority, the City and the Underwriters intend that the Authority and the City will pay all expenses of the Authority and City's employees that are incidental to implementing this Bond Purchase Agreement, including, but not limited to, meals, transportation, and lodging, of those employees, and the Authority and the City shall reimburse the Underwriters if the Underwriters pay for any of such expenses on behalf of the Authority or City.

All out-of-pocket expenses of the Underwriters incident to the performance of the Underwriters' obligations hereunder, including the California Debt and Investment Advisory Commission fee, CUSIP services bureau charges, fees of Underwriters' counsel and other expenses (except as provided above), shall be paid by the Underwriters from the Underwriters' discount set forth in Section 1 hereof; provided, however, certain such expenses may be included in the expense component of the Underwriters' discount.

11. Covenants of Authority and City

The Authority and the City covenant with the Underwriters that:

(a) Until the earlier of (i) the date which is twenty-five (25) days after the Authority delivers the Series 2024 Bonds to the Representative, or (ii) the date the Underwriters do not retain, directly or as a member of an underwriting syndicate, any unsold balance of the Series 2024 Bonds for sale to the public (the “**End of the Underwriting Period**”), if any event shall occur of which the Authority or the City is aware, as a result of which it may be necessary to supplement the Official Statement in order to ensure the Official Statement will not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make such information therein, in the light of the circumstances under which it was made, not misleading, the Authority shall forthwith notify the Representative of any such event of which it has knowledge and shall cooperate fully in furnishing any information available to it for any supplement to the Official Statement necessary or desirable, in the Representative’s or Authority’s opinion, so that the statements therein as so supplemented will not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make such information therein, in the light of the circumstances under which it was made, not misleading, and the Authority shall promptly furnish to the Underwriters electronic copies of such supplement; provided that unless the Representative delivers written notice to the Authority in accordance with this provision at or prior to the Closing Date specifying a date (if other than the Closing Date) to be deemed the “End of the Underwriting Period,” the Closing Date shall be the “End of the Underwriting Period.” If such notice is delivered, then and the Representative agrees to notify the Authority in writing of the date on which no Underwriter retains, directly or as a member of an underwriting syndicate, any unsold balance of the Series 2024 Bonds for sale to the public;

(b) If the information contained in the Final Official Statement is amended or supplemented pursuant to subparagraph (a) of this Section 11, at the time of such supplement or amendment thereto and (unless subsequently again supplemented or amended pursuant to such subparagraph) at all times subsequent thereto up to and including the End of the Underwriting Period, the portions of the Official Statement so supplemented or amended (including any financial and statistical data contained therein), excluding information concerning The Depository Trust Company and its book-entry system, CUSIP numbers, and any statements or omissions made in reliance upon and in conformity with information relating to any Underwriter furnished to the Authority in writing by such Underwriter expressly for use in the Official Statement and any amendment or supplement thereto, will not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make such information therein, in the light of the circumstances under which it was made, not misleading;

(c) The Authority will advise the Representative immediately of receipt by the Authority or the City of any notification with respect to the suspension of the qualification of the Series 2024 Bonds for sale in any jurisdiction or the initiation or threat of any proceeding for that purpose;

(d) The Authority and the City will advise the Representative promptly of any proposal to amend or supplement the Official Statement and will not effect or consent to any such amendment or supplement without the consent of the Representative, which consent will not be unreasonably withheld. The Authority and the City will advise the Representative promptly of the institution of any proceedings known to it by any court, governmental agency, public board or body, prohibiting or otherwise affecting the use of the Preliminary Official Statement or the Official Statement in connection with the offering, sale or distribution of the Series 2024 Bonds.

(e) The Authority and the City will furnish such information, execute such instruments and take such other action in cooperation with the Underwriters as the Underwriters may reasonably request to qualify the Series 2024 Bonds for offer and sale under the Blue Sky or other securities laws and regulations of such states and other jurisdictions of the United States as the Underwriters may

designate; provided, however, that the Authority and the City shall not be required to register as a dealer or broker or foreign corporation in any such state or jurisdiction or consent to service of process therein;

(f) Between the date of this Bond Purchase Agreement and the Closing Date, except as disclosed in the Final Official Statement, the Authority and/or the City will not, without prior written notice to the Representative, offer or issue any bonds, certificates, notes or other obligations for borrowed money secured by the Net System Revenues; and

(g) The Authority and the City will perform all actions as may be requested by the Underwriters (including delivery of an appropriate certificate with respect to the Preliminary Official Statement) in order for the Underwriters to comply with the applicable provisions of the Rule.

12. Notices

Any notice or other communication to be given to the Authority or the City under this Bond Purchase Agreement may be given by delivering the same in writing at the Authority's and the City's addresses, respectively, set forth above and any such notice or other communication to be given to the Representative or the Underwriters shall be delivered to the following address:

Hilltop Securities Inc.
777 S. Hwy 101, Suite 104
Solana Beach, CA 92075
Attention: Public Finance Department

13. Parties in Interest

This Bond Purchase Agreement is made solely for the benefit of the Authority, the City and the Underwriters and no other person shall acquire or have any right hereunder or by virtue hereof. All the representations and warranties of the parties hereto contained in this Bond Purchase Agreement shall remain operative and in full force and effect regardless of any investigation made by or on behalf of the Underwriters, the City or the Authority until the earlier of (a) delivery of and payment for the Series 2024 Bonds hereunder, and (b) any termination of this Bond Purchase Agreement.

14. Counterparts

This Bond Purchase Agreement may be executed in any number of counterparts, each of which shall be an original, and all of which shall constitute but one and the same instrument.

15. Effectiveness

This Bond Purchase Agreement shall become effective and binding upon the respective parties hereto upon the execution of the acceptance hereof by the duly authorized officers of the Authority and the City and shall be valid and enforceable as of the time of such acceptance.

16. Choice of Law

The validity, interpretation and performance of this Bond Purchase Agreement shall be governed by the laws of the State of California, without regard to conflicts of law.

17. **Severability**

In the event any provision of this Bond Purchase Agreement shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof.

18. **Entire Agreement**

The Bond Purchase Agreement, when accepted by the Authority and the City in writing as heretofore specified, shall constitute the entire agreement among the Authority, the City and the Underwriters.

19. **Headings**

The headings of the sections of this Bond Purchase Agreement are inserted for convenience only and shall not be deemed to be part hereof.

20. **No Assignment**

The rights and obligations created by this Bond Purchase Agreement shall not be subject to assignment by the Underwriters, the City or the Authority without the prior written consent of the other parties hereto.

[REMAINDER OF PAGE LEFT BLANK]

IN WITNESS WHEREOF, the parties hereto, by their officers thereunto duly authorized, have executed and delivered this Bond Purchase Agreement, effective as of the day and year first above written.

WASTEWATER REVENUE REFUNDING BONDS, SERIES 2024
(WASTEWATER REFUNDING PROJECT)

Hilltop Securities Inc. (“Hilltop”), on behalf of itself and as representative of Oppenheimer & Co. Inc., in connection with the sale and issuance by the Stockton Public Financing Authority (the “Issuer”) of its \$ _____ Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “Bonds”), being issued on the date hereof, hereby certifies and represents the following:

A. Issue Price.

1. ***Sale of the General Rule Maturities.*** As of the date of this certificate, for each Maturity of the [Bonds][General Rule Maturities], the first price at which at least 10% of such Maturity was sold to the Public is the respective price listed in Schedule A.

2. ***[Initial Offering Price of the Hold-the-Offering-Price Maturities.***

(a) The Underwriter offered the Hold-the-Offering Price Maturities to the Public for purchase at the respective initial offering prices listed in Schedule A (the “Initial Offering Prices”) on or before the Sale Date. A copy of the pricing wire or equivalent communication for the Hold-the-Offering Price Maturities is attached to this certificate as Schedule B.

(b) As set forth in the Bond Purchase Agreement between the Issuer and Hilltop, dated _____, 2024, Hilltop has agreed in writing that, (i) for each Maturity of the Hold-the-Offering-Price Maturities, it would neither offer nor sell any of the unsold Bonds of such Maturity to any person at a price that is higher than the Initial Offering Price for such Maturity during the Holding Period for such Maturity (the “hold-the-offering-price rule”), and (ii) any selling group agreement shall contain the agreement of each dealer who is a member of the selling group, and any third-party distribution agreement shall contain the agreement of each broker-dealer who is a party to the third-party distribution agreement, to comply with the hold-the-offering-price rule. Pursuant to such agreement, no Underwriter has offered or sold any Maturity of the Hold-the-Offering-Price Maturities at a price that is higher than the respective Initial Offering Price for that Maturity of the Bonds during the Holding Period.]

For purposes of this certificate the following definitions apply:

(a) *General Rule Maturities* means those Maturities of the Bonds listed in Schedule A hereto as the “General Rule Maturities.”

(b) *[Hold-the-Offering-Price Maturities* means those Maturities of the Bonds listed in Schedule A hereto as the “Hold-the-Offering-Price Maturities.”]

(c) *[Holding Period* means, with respect to a Hold-the-Offering-Price Maturity, the period starting on the Sale Date and ending on the earlier of (i) the close of the fifth business

day after the Sale Date, or (ii) the date on which the Underwriter has sold at least 10% of such Hold-the-Offering-Price Maturity to the Public at prices that are no higher than the Initial Offering Price for such Hold the Offering Price Maturity.]

(d) *Maturity* means Bonds with the same credit and payment terms. Bonds with different maturity dates, or Bonds with the same maturity date but different stated interest rates, are treated as separate maturities.

(e) *Public* means any person (including an individual, trust, estate, partnership, association, company, or corporation) other than an Underwriter or a Related Party to an Underwriter.

(f) *Sale Date* means the first day on which there is a binding contract in writing for the sale of a Maturity of the Bonds. The Sale Date of the Bonds is _____, 2024.

(g) *Underwriter* means (i) Hilltop, (ii) any person that agrees pursuant to a written contract with the Issuer (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the Public, and (iii) any person that agrees pursuant to a written contract directly or indirectly with a person described in clauses (i) or (ii) of this paragraph to participate in the initial sale of the Bonds to the Public (including a member of a selling group or a party to a third-party distribution agreement participating in the initial sale of the Bonds to the Public).

(h) *Related Party* means any entity if an Underwriter and such entity are subject, directly or indirectly, to (i) more than 50 percent common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (ii) more than 50 percent common ownership of their capital interests or profit interests, if both entities are partnerships (including direct ownership by one partnership of another), or (iii) more than 50 percent common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other).

B. Bond Yield.

Using industry standard software, we have calculated the yield on the Bonds to be _____%.

C. Weighted Average Maturity.

Using industry standard software, we have calculated (i) the weighted average maturity of the Bonds to be _____; and (ii) the remaining weighted average maturity of the Prior Bonds to be _____.

D. [Insurance Policy and Surety Policy.

We believe that the present value of the sum of the premiums for a municipal bond insurance policy insuring the payment of the principal of and interest on the Bonds and a surety bond for the Reserve Fund with respect to the Bonds (collectively, the “Credit Enhancement”) paid to [NAME OF PROVIDER] is less than the present value of the aggregate amount of interest reasonably expected to be saved as a result of such Credit Enhancement (based on the yield on the Bonds determined with

regard to premium for such Credit Enhancement). We further believe that the premium for the Credit Enhancement does not exceed a reasonable charge for the transfer of credit risk and is comparable with other fees under current market conditions for similar credits. The Credit Enhancement was a vital factor in marketing the Bonds and permits the marketing of the Bonds at interest rates comparable to other bond issues of a similar type and purpose.]

We understand that the representations contained herein may be relied upon by the Issuer and the City of Stockton in making certain of the representations contained in the Tax Certificate, and we further understand that Hawkins Delafield & Wood LLP, as bond counsel, may rely upon this certificate, among other things, in providing an opinion with respect to the exclusion from gross income of interest on the Bonds pursuant to Section 103 of the Internal Revenue Code of 1986, as amended (the “Code”). The undersigned is certifying only as to facts in existence on the date hereof. Nothing herein represents the undersigned’s interpretation of any laws; in particular the regulations under the Code, or the application of any laws to these facts. The undersigned is authorized to execute this certificate on behalf of Hilltop, which certifications are not necessarily based on personal knowledge, but may instead be based on either inquiry deemed adequate by the undersigned or institutional knowledge (or both) regarding the matters set forth herein.

PRELIMINARY OFFICIAL STATEMENT DATED [JULY __], 2024**NEW ISSUE—FULL BOOK-ENTRY****RATINGS**

(See “RATINGS” herein)

In the opinion of Hawkins Delafield & Wood LLP, Bond Counsel, under existing statutes and court decisions and assuming continuing compliance with certain tax covenants described herein, (i) interest on the 2024 Bonds (as defined herein) is excluded from gross income for federal income tax purposes pursuant to Section 103 of the Internal Revenue Code of 1986, as amended (the “Code”), and (ii) interest on the 2024 Bonds is not treated as a preference item in calculating the alternative minimum tax under the Code, however, interest on the 2024 Bonds is included in the “adjusted financial statement income” of certain corporations that are subject to the alternative minimum tax under Section 55 of the Code. In addition, in the opinion of Bond Counsel, under existing statutes, interest on the 2024 Bonds is exempt from State of California personal income taxes. See “TAX MATTERS” herein.

**\$(PAR AMOUNT)*
STOCKTON PUBLIC FINANCING AUTHORITY
WASTEWATER REVENUE REFUNDING BONDS, SERIES 2024
(WASTEWATER REFUNDING PROJECT)**

Dated: Date of Delivery**Due: September 1, as shown on the inside cover**

The \$(PAR AMOUNT) principal amount of Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “2024 Bonds”) are being issued by the Stockton Public Financing Authority (the “Authority”) for the purpose of providing funds which, together with certain other available moneys, will be used to: (i) refund all of the outstanding principal amount of the Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2014 (1998 Wastewater Project and 2003 Wastewater Project) (the “2014 Bonds”); [(ii) pay the premiums of a municipal bond insurance policy and a municipal bond debt service reserve insurance policy for the 2024 Bonds; and] (iii) pay certain costs associated with the issuance of the 2024 Bonds. See “PLAN OF REFUNDING” herein.

The 2024 Bonds are being issued by the Authority pursuant to the 2024 Indenture, dated as of August 1, 2024 (the “2024 Indenture”), by and between the Authority and U.S. Bank Trust Company, National Association, as trustee (the “Trustee”). The 2024 Bonds are limited obligations of the Authority payable solely from installment payments (the “2024 Installment Payments”) to be made by the City under the 2024 Installment Purchase Contract, dated as of August 1, 2024 (the “2024 Contract”), by and between the Authority and the City, and certain amounts held under the 2024 Indenture. As security for the payment of the 2024 Installment Payments, the City has pledged the Net System Revenues (as defined herein) of the Wastewater System as provided in the 2024 Contract. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS” herein. The 2024 Bonds will be issued in denominations of \$5,000 or any integral multiple thereof, in fully registered form. When delivered, the 2024 Bonds will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York (“DTC”). DTC will act as securities depository for the 2024 Bonds. Individual purchases of the 2024 Bonds will be made in book-entry form only. See APPENDIX E – “DTC AND THE BOOK-ENTRY ONLY SYSTEM” attached hereto.

Interest on the 2024 Bonds is payable on March 1 and September 1 of each year, commencing March 1, 2025. Payments of principal of and interest on the 2024 Bonds are payable directly to DTC by the Trustee. Upon receipt of payments of principal and interest, DTC will in turn remit such principal and interest to DTC Participants for subsequent distribution to the beneficial owners of the 2024 Bonds. So long as the 2024 Bonds are registered in the name of Cede & Co., all payments with respect to the 2024 Bonds will be made to DTC.

The 2024 Bonds are not subject to redemption prior to maturity. See “THE 2024 BONDS – 2024 Bonds Not Subject to Redemption” herein.

The City has outstanding certain obligations, and may issue or incur additional obligations, secured by the pledge of, and payable from, Net System Revenues on a parity basis with the 2024 Installment Payments, as described herein. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Outstanding Parity Obligations,” “– Additional Parity Obligations,” and “– Subordinate Obligations” herein.

[The scheduled payment of principal of and interest on the 2024 Bonds when due will be guaranteed under a municipal bond insurance policy to be issued concurrently with the delivery of the 2024 Bonds by [INSURANCE PROVIDER]. See APPENDIX G – “SPECIMEN MUNICIPAL BOND INSURANCE POLICY” attached hereto.]

[INSURANCE PROVIDER LOGO]

THE 2024 BONDS ARE LIMITED OBLIGATIONS OF THE AUTHORITY PAYABLE SOLELY FROM THE 2024 INSTALLMENT PAYMENTS AND CERTAIN MONEYS HELD UNDER THE 2024 INDENTURE. THE 2024 BONDS ARE NOT A DEBT OF THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF (OTHER THAN THE AUTHORITY), AND SHALL BE PAYABLE SOLELY FROM THE REVENUES PLEDGED THEREFOR PURSUANT TO THE 2024 INDENTURE. THE OBLIGATION OF THE CITY TO MAKE 2024 INSTALLMENT PAYMENTS IS A SPECIAL OBLIGATION PAYABLE SOLELY FROM THE NET SYSTEM REVENUES AS PROVIDED IN THE 2024 CONTRACT. NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF (INCLUDING THE AUTHORITY) IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF OR INTEREST ON THE 2024 BONDS OR THE 2024 INSTALLMENT PAYMENTS. THE AUTHORITY HAS NO TAXING POWER. THE ISSUANCE OF THE 2024 BONDS SHALL NOT DIRECTLY OR INDIRECTLY OBLIGATE THE AUTHORITY, THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF TO LEVY OR PLEDGE ANY FORM OF TAXATION WHATSOEVER OR TO MAKE ANY APPROPRIATION FOR PAYMENT OF THE 2024 BONDS. THE 2024 BONDS AND THE 2024 INSTALLMENT PAYMENTS ARE NOT PAYABLE FROM THE GENERAL FUND OF THE CITY.

**MATURITY SCHEDULE
(See Inside Cover)**

This cover page contains certain information for general reference only. It is not a summary of this issue. Investors must read the entire Official Statement to obtain information essential to the making of an informed investment decision.

The 2024 Bonds are offered when, as and if issued, subject to the approval as to their validity by Hawkins Delafield & Wood LLP, San Francisco, California, Bond Counsel, and certain other conditions. Hawkins Delafield & Wood LLP, San Francisco, California, is serving as Disclosure Counsel to the City. Certain legal matters will be passed on for the Authority and the City by the City Attorney, [for the Insurer by its general counsel,] and for the Underwriters by Kutak Rock LLP, Irvine, California. It is anticipated that the 2024 Bonds will be available for delivery through the facilities of DTC on or about [September __, 2024].

OFFICIAL STATEMENT

\$[PAR AMOUNT]* STOCKTON PUBLIC FINANCING AUTHORITY WASTEWATER REVENUE REFUNDING BONDS, SERIES 2024 (WASTEWATER REFUNDING PROJECT)

INTRODUCTION

This Introduction is only a brief description of, and is qualified by, more complete and detailed information contained in the entire Official Statement, including the cover page through the appendices hereto, and the documents summarized or described herein. A full review should be made of the entire Official Statement. The offering of the 2024 Bonds to potential investors is made only by means of the entire Official Statement. Capitalized terms used herein and not otherwise defined shall have the meanings given to such terms as set forth in the 2024 Indenture or the 2024 Contract (each as defined below). See APPENDIX C – “SUMMARY OF CERTAIN PROVISIONS OF THE PRINCIPAL LEGAL DOCUMENTS – DEFINITIONS OF CERTAIN TERMS” attached hereto.

General

The purpose of this Official Statement is to furnish information with respect to the issuance, sale and delivery of \$[PAR AMOUNT]* principal amount of Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “2024 Bonds”). The 2024 Bonds are being issued by the Stockton Public Financing Authority (the “Authority”) under and pursuant to Chapter 5 of Division 7 of Title 1 of the California Government Code, as amended (the “Act”), a resolution adopted by the Authority on [July 9, 2024], and in accordance with the provisions of a 2024 Indenture, dated as of August 1, 2024 (the “2024 Indenture”), by and between the Authority and U.S. Bank Trust Company, National Association, as trustee (the “Trustee”).

The 2024 Bonds are being issued by the Authority for the purpose of providing funds which, together with certain other available moneys, will be used to: (i) refund all of the outstanding principal amount of the Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2014 (1998 Wastewater Project and 2003 Wastewater Project) (the “2014 Bonds”); [(ii) pay the premiums of a municipal bond insurance policy and a municipal bond debt service reserve insurance policy for the 2024 Bonds;] and (iii) pay certain costs for the 2024 Bonds. The 2014 Bonds were executed and delivered in October 2014 to provide funds to the City of Stockton (the “City”) to refund certain costs used to acquire and construct certain improvements to the City’s wastewater system (the “Wastewater System”), pursuant to a certain installment sale agreement that the City entered into with the Authority. See “PLAN OF REFUNDING” and “ESTIMATED SOURCES AND USES OF FUNDS” herein.

Security for the 2024 Bonds

The 2024 Bonds are limited obligations of the Authority payable solely from certain installment payments (the “2024 Installment Payments”) to be made by the City under the 2024 Installment Purchase Contract, dated as of August 1, 2024 (the “2024 Contract”), by and between the Authority and the City and certain amounts held under the 2024 Indenture. The City has pledged the Net System Revenues (as defined herein) of the Wastewater System to the payment of the 2024 Installment Payments as provided in the 2024 Contract. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS” herein.

[The scheduled payment of principal of and interest on the 2024 Bonds when due will be guaranteed under a municipal bond insurance policy (the “Policy”) to be issued concurrently with the delivery of the 2024

* Preliminary, subject to change.

Bonds by [INSURANCE PROVIDER] (the “Insurer”). See “BOND INSURANCE” and APPENDIX G – “SPECIMEN MUNICIPAL BOND INSURANCE POLICY”] herein.

THE 2024 BONDS ARE LIMITED OBLIGATIONS OF THE AUTHORITY PAYABLE SOLELY FROM THE 2024 INSTALLMENT PAYMENTS AND CERTAIN MONEYS HELD UNDER THE 2024 INDENTURE. THE 2024 BONDS ARE NOT A DEBT OF THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF (OTHER THAN THE AUTHORITY), AND SHALL BE PAYABLE SOLELY FROM THE REVENUES PLEDGED THEREFOR PURSUANT TO THE 2024 INDENTURE. THE OBLIGATION OF THE CITY TO MAKE 2024 INSTALLMENT PAYMENTS IS A SPECIAL OBLIGATION PAYABLE SOLELY FROM THE NET SYSTEM REVENUES AS PROVIDED IN THE 2024 CONTRACT. NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF (INCLUDING THE AUTHORITY) IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF OR INTEREST ON THE 2024 BONDS OR THE 2024 INSTALLMENT PAYMENTS. THE AUTHORITY HAS NO TAXING POWER. THE ISSUANCE OF THE 2024 BONDS SHALL NOT DIRECTLY OR INDIRECTLY OBLIGATE THE AUTHORITY, THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF TO LEVY OR PLEDGE ANY FORM OF TAXATION WHATSOEVER OR TO MAKE ANY APPROPRIATION FOR PAYMENT OF THE 2024 BONDS. THE 2024 BONDS AND THE 2024 INSTALLMENT PAYMENTS ARE NOT PAYABLE FROM THE GENERAL FUND OF THE CITY.

2024 Reserve Account

The 2024 Indenture establishes a reserve account for the 2024 Bonds. In connection with the 2024 Bonds, the City is obtaining a municipal bond debt service reserve insurance policy for the benefit of such reserve account. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – 2024 Reserve Account” herein.

Outstanding and Additional Parity and Subordinate Obligations

The City has certain outstanding obligations (described below), and may issue or incur additional obligations, secured by the pledge of, and payable from, Net System Revenues on a parity basis with the 2024 Installment Payments. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Additional Parity Obligations” herein. The City may also issue or incur additional obligations payable from the Net System Revenues on a basis subordinate to the 2024 Installment Payments and other Parity Obligations. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Subordinate Obligations” herein.

The pledge of Net System Revenues securing the 2024 Installment Payments is on parity with the pledge of Net System Revenues securing (1) installment payments made by the City to the Authority in connection with a bond issued by the United States Environmental Protection Agency, an agency of the United States of America, acting by and through the Administrator of the Environmental Protection Agency, in the original aggregate principal amount of up to \$108,000,000 (the “2020 WIFIA Loan”), which is current outstanding in the aggregate principal amount of \$[____], and (2) a November 2021 loan issued by the California State Water Resources Control Board in the original aggregate principal amount of \$46,800,000 (the “2021 SRF Loan”), which is currently outstanding in the aggregate principal amount of \$[____], and that will remain outstanding following the issuance of the 2024 Bonds. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – General” and “– Outstanding Parity Obligations” herein.

Continuing Disclosure

The Authority has determined that no financial or operating data concerning the Authority is material to an evaluation of the offering of the 2024 Bonds or to any decision to purchase, hold or sell the 2024 Bonds, and the Authority will not provide any such information.

The City has undertaken all responsibilities for any continuing disclosure to Holders of the 2024 Bonds. The City will covenant for the benefit of Holders of the 2024 Bonds and beneficial owners to provide certain financial information and operating data relating to the City and the Wastewater System by not later than the end of the ninth month following the end of the City's Fiscal Year, commencing with the Report for the Fiscal Year 2023-24 (the "Annual Report"), and to provide notices of the occurrence of certain enumerated events. The Annual Report and notices of events will be filed by means of the Electronic Municipal Market Access ("EMMA") site maintained by the Municipal Securities Rulemaking Board (the "MSRB"). The specific nature of the information to be contained in the Annual Report or the notices of certain enumerated events is set forth in APPENDIX D — "FORM OF CONTINUING DISCLOSURE CERTIFICATE." These covenants have been made in order to assist the Underwriters in complying with the Securities Exchange Commission Rule 15c2-12, as amended (the "Rule"). See "CONTINUING DISCLOSURE" herein.

2024 Bondowners' Risks

An investment in the 2024 Bonds involves risk. See "2024 BONDOWNERS' RISKS" for a discussion of important investment considerations and other risk factors associated with the purchase of the 2024 Bonds. Any one or more of the risks discussed, and others, could lead to a decrease in the market value of the 2024 Bonds or impact the ability of the City to make 2024 Installment Payments. Potential purchasers of the 2024 Bonds are advised to review the entire Official Statement carefully and to conduct such due diligence and other review as they deem necessary and appropriate under the circumstances.

Certain Information Related to This Official Statement

Brief descriptions of the 2024 Bonds, the security for the 2024 Bonds, the Wastewater System, the Authority and the City are included in this Official Statement together with summaries of certain provisions of the 2024 Bonds, the 2024 Indenture, the 2024 Contract and certain other documents. Such descriptions do not purport to be comprehensive or definitive. Capitalized terms used herein and not otherwise defined shall have the meanings given to such terms as set forth in the 2024 Indenture or the 2024 Contract. See APPENDIX C — "SUMMARY OF CERTAIN PROVISIONS OF THE PRINCIPAL LEGAL DOCUMENTS — DEFINITIONS OF CERTAIN TERMS" attached hereto. Certain general demographic and economic information relating to the City is contained in APPENDIX A.

All references herein to the 2024 Indenture, the 2024 Contract and other documents are qualified in their entirety by reference to such documents, and references herein to the 2024 Bonds are qualified in their entirety by reference to the form thereof included in the 2024 Indenture, copies of which are available prior to the issuance of the 2024 Bonds at the office of the Chief Financial Officer, City of Stockton, 425 North El Dorado Street, Stockton, California 95202; and thereafter at the office of the Trustee, U.S. Bank Trust Company, National Association, 633 West Fifth Street, 24th Floor, Los Angeles, California 90071.

PLAN OF REFUNDING

General

The 2024 Bonds are being issued for the purpose of providing funds which[, together with certain other available moneys,] will be used to: (i) refund all of the outstanding principal amount of the 2014 Bonds [(ii) pay the premiums of a municipal bond insurance policy and a municipal bond debt service reserve insurance policy for the 2024 Bonds; and] (iii) pay certain costs associated with the issuance of the 2024 Bonds.

A portion of the proceeds of the 2014 Bonds[, together with other available moneys,] will be deposited into an escrow fund for the 2014 Bonds to be refunded (the "Escrow Fund") established under an escrow agreement between the City and Computershare Trust Company, N.A., as escrow agent (the "Escrow Agent"). The moneys so deposited in the Escrow Fund will be invested in direct obligations of the United States of America (the "Defeasance Securities"), the interest on and principal of which will be sufficient, together with

any money held in the related Escrow Fund uninvested, to prepay the outstanding 2014 Bonds approximately [89] days after the date of delivery of the 2024 Bonds. Upon deposit, all liability of Authority and the City with respect to the 2014 Bonds (except for the obligation to pay the interest and principal evidenced and represented by the 2014 Bonds from moneys on deposit in the Escrow Fund) will cease. The Defeasance Securities nor the interest income thereon, and moneys in the Escrow Fund, will not secure the 2024 Bonds and will not be available to pay the principal of or interest on the 2024 Bonds. See “VERIFICATION OF MATHEMATICAL COMPUTATIONS.”

ESTIMATED SOURCES AND USES OF FUNDS

The estimated sources and uses of funds with respect to the 2024 Bonds are set forth below.

Sources of Funds:

Principal amount of 2024 Bonds

Net Original Issue Premium

[Other available funds]

Total Estimated Sources of Funds

Uses of Funds:

Escrow Fund⁽¹⁾

Costs of Issuance⁽²⁾

Total Estimated Uses of Funds

⁽¹⁾ See “PLAN OF REFUNDING” and “VERIFICATION OF MATHEMATICAL COMPUTATIONS.”

⁽²⁾ Includes Trustee fees, Escrow Agent fees, Bond Counsel and Disclosure Counsel fees, Municipal Advisor fees, the Underwriters’ discount, premiums for the municipal bond insurance policy and the municipal bond debt service reserve insurance policy, rating agency fees, printing costs and other costs of issuance.

DEBT SERVICE SCHEDULE

The Fiscal Year debt service requirements for the 2024 Bonds are set forth below.

Fiscal Year (June 30)	Principal	Interest	Total
2025			
2026			
2027			
2028			
2029			
2030			
Total			

THE 2024 BONDS

General

The 2024 Bonds will be issued as fully registered bonds without coupons in denominations of \$5,000, or any integral multiple thereof and shall be dated the date of delivery. The 2024 Bonds will be issued in book-entry only form and The Depository Trust Company, New York, New York (“DTC”) will act as securities depository for the 2024 Bonds. So long as the 2024 Bonds are held in book-entry only form, principal of and

interest on the 2024 Bonds will be paid directly to DTC for distribution to the beneficial owners of the 2024 Bonds in accordance with the procedures adopted by DTC. See APPENDIX E – “DTC AND THE BOOK-ENTRY ONLY SYSTEM” attached hereto.

The 2024 Bonds will mature on September 1 in each of the years and in the respective principal amounts, and will bear interest from their date of delivery at the rates, as shown on the inside cover page of this Official Statement. Interest on the 2024 Bonds will be payable semiannually on March 1 and September 1 of each year, commencing March 1, 2025 (each, an “Interest Payment Date”). Interest on the 2024 Bonds will be calculated on the basis of a 360-day year of twelve, 30-day calendar months. The Record Date for each Interest Payment Date is the 15th day of the month prior to such Interest Payment Date.

2024 Bonds Not Subject to Redemption

No Optional Redemption. The 2024 Bonds are not subject to redemption, prior to maturity.

SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS

General

Pledge of Net System Revenues. The 2024 Bonds are limited obligations of the Authority issued under and pursuant to the 2024 Indenture, payable solely from the 2024 Installment Payments to be made by the City under the 2024 Contract and certain amounts held under the 2024 Indenture. The obligation of the City to make 2024 Installment Payments constitutes a special obligation of the City payable solely from a pledge of the “Net System Revenues.”

“Net System Revenues” is defined in the 2024 Contract as, for any period, the System Revenues during such period less the Operation and Maintenance Costs during such period.

“System Revenues” is defined in the 2024 Contract as all gross income and revenue received or receivable by the City from the ownership or operation of the Wastewater System, determined in accordance with Generally Accepted Accounting Principles, including all fees, rates, charges and amounts paid under any contracts received by or owed to the City in connection with the operation of the Wastewater System and all other proceeds of insurance relating to the Wastewater System and all other income and revenue howsoever derived by the City from the ownership or operation of the Wastewater System.

“Operation and Maintenance Costs” is defined in the 2024 Contract as the reasonable and necessary costs paid or incurred by the City for maintaining and operating the Wastewater System, determined in accordance with Generally Accepted Accounting Principles, including the expenses of maintenance, repair, billing and collection and other expenses incurred to maintain and preserve the Wastewater System in good repair and working order, and including all administrative and management costs of the City that are charged directly or apportioned to the operation of the Wastewater System, such as salaries and wages of employees, payments to employee retirement systems, overhead, taxes (if any) and insurance premiums (including payments required to be paid into any self-insurance funds), and including all other reasonable and necessary costs of the City or charges required to be paid by it to comply with the terms hereof, any Parity Obligations, but excluding in all cases (i) depreciation, replacement and obsolescence charges or reserves therefor, (ii) amortization of intangibles, (iii) costs of capital additions, replacements, betterments, extensions or improvements to the Wastewater System which under Generally Accepted Accounting Principles are chargeable to a capital account, and (iv) charges for the payment of principal and interest on any debt service on account of any Parity Obligation or obligation subordinate to the Parity Obligations.

“Parity Obligations” is defined in the 2024 Contract as the 2024 Installment Payments, the 2020 WIFIA Loan, the 2021 SRF Loan and any other obligation (including, but not limited to, any installment payment obligation) payable on a parity with the 2024 Installment Payments from Net System Revenues, and the regularly

scheduled payments under any Payment Agreement designated as a “Parity Obligation” in the Payment Agreement.

THE 2024 BONDS ARE LIMITED OBLIGATIONS OF THE AUTHORITY PAYABLE SOLELY FROM THE 2024 INSTALLMENT PAYMENTS AND CERTAIN MONEYS HELD UNDER THE 2024 INDENTURE. THE 2024 BONDS ARE NOT A DEBT OF THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF (OTHER THAN THE AUTHORITY), AND SHALL BE PAYABLE SOLELY FROM THE REVENUES PLEDGED THEREFOR PURSUANT TO THE 2024 INDENTURE. THE OBLIGATION OF THE CITY TO MAKE 2024 INSTALLMENT PAYMENTS IS A SPECIAL OBLIGATION PAYABLE SOLELY FROM THE NET SYSTEM REVENUES AS PROVIDED IN THE 2024 CONTRACT. NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF (INCLUDING THE AUTHORITY) IS PLEDGED TO THE PAYMENT OF THE PRINCIPAL OF OR INTEREST ON THE 2024 BONDS OR THE 2024 INSTALLMENT PAYMENTS. THE AUTHORITY HAS NO TAXING POWER. THE ISSUANCE OF THE 2024 BONDS SHALL NOT DIRECTLY OR INDIRECTLY OBLIGATE THE AUTHORITY, THE CITY, THE STATE OF CALIFORNIA OR ANY POLITICAL SUBDIVISION THEREOF TO LEVY OR PLEDGE ANY FORM OF TAXATION WHATSOEVER OR TO MAKE ANY APPROPRIATION FOR PAYMENT OF THE 2024 BONDS. THE 2024 BONDS AND THE 2024 INSTALLMENT PAYMENTS ARE NOT PAYABLE FROM THE GENERAL FUND OF THE CITY.

Rate Covenant

Under the 2024 Contract, the City has covenanted that it will fix, prescribe and collect rates, fees and charges for the Wastewater Service during each Fiscal Year which are estimated to yield Net System Revenues for such Fiscal Year equal to at least the Coverage Requirement (i.e. generally 115% of Parity Debt Service as defined below) for such Fiscal Year. The City may make adjustments from time to time in such fees and charges and may make such classification thereof as it deems necessary, but may not reduce the rates, fees and charges then in effect unless the Net System Revenues from such reduced rates, fees and charges are estimated to be sufficient to meet the requirements of such covenant.

“Adjusted Net System Revenues” is defined in the 2024 Contract as, for any Fiscal Year, the Net System Revenues for such Fiscal Year less, to the extent included in the calculation of Net System Revenues for such Fiscal Year, all amounts received or expected to be received by the City or fiduciary, on behalf of the City, in such Fiscal Year in respect of any subsidy, reimbursement or other payment from a governmental entity in connection with, or related to, payment of principal and/or interest on Parity Obligations.

“Coverage Requirement” is defined in the 2024 Contract as, for any Fiscal Year or any other period, an amount of Adjusted Net System Revenues equal to at least 115% of Parity Debt Service for such Fiscal Year or such other period, as applicable.

“Parity Debt Service” is defined in the 2024 Contract as, generally, all net debt service on obligations of the City relating to the Wastewater System that are secured by the Net System Revenues on a parity with the 2024 Installment Payments as described in APPENDIX C – “SUMMARY OF CERTAIN PROVISIONS OF THE PRINCIPAL LEGAL DOCUMENTS – DEFINITIONS OF CERTAIN TERMS.”

Rate Stabilization Fund

Under the 2024 Contract, the City may establish a fund denominated the Rate Stabilization Fund. From time to time the City may deposit into the Rate Stabilization Fund, from current System Revenues, such amounts as the City shall determine and the amount of available current System Revenues in the Fiscal Year shall be reduced by the amount so transferred. Amounts may be transferred from the Rate Stabilization Fund and deposited in the Revenue Fund, and any amounts so transferred within 270 days after the end of a Fiscal Year shall be deemed System Revenues for such Fiscal Year when so transferred. The City may also apply moneys

on deposit in the Rate Stabilization Fund for any lawful purpose. All interest or other earnings upon amounts in the Rate Stabilization Fund may be withdrawn therefrom and accounted for as System Revenues in accordance with the terms of the 2024 Contract or used for any lawful purpose. [The City currently does not have a Rate Stabilization Fund but may establish one in the future.] [*Confirm*]

2024 Reserve Account

The 2024 Indenture establishes a reserve account for the 2024 Bonds (the “2024 Reserve Account”).

[The 2024 Reserve Requirement as of the date of issuance of the 2024 Bonds is \$ _____ and will be initially satisfied by a municipal bond debt service reserve insurance policy (the “Reserve Fund Policy”) issued by the Insurer. See “BOND INSURANCE – [INSURANCE PROVIDER]” herein.]

Outstanding Parity Obligations

The pledge of Net System Revenues securing the 2024 Installment Payments is on parity with the pledge of Net System Revenues securing (1) the 2020 WIFIA Loan, and (2) the 2021 SRF Loan. See “PLAN OF REFUNDING,” “DEBT SERVICE SCHEDULE,” and “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Outstanding Parity Obligations” herein.

Additional Parity Obligations

No Senior Obligations. The City covenants in the 2024 Contract that it will not incur any obligations payable from Net System Revenues on a basis superior to the payment of the 2024 Installment Payments.

Issuance of Parity Obligations. Under the 2024 Contract, the City may at any time and from time to time issue or create any Parity Obligations, *provided*:

(i) There has not occurred and be continuing (A) an Event of Default under the terms of the 2024 Contract, and any installment purchase contract, indenture, trust agreement or other document that provides for the issuance of Parity Obligations (each an “Issuing Document”) or (B) an Event of Default or Termination Event (as defined in any Payment Agreement) under any Payment Agreement; and

(ii) The City obtains or provides a certificate or certificates, prepared by the City or at the City’s option by a Consultant, showing that either:

(A) the Adjusted Net System Revenues for either the most recent Fiscal Year for which audited financial statements are available or any 12 consecutive calendar month period during the 18 consecutive calendar month period ending immediately prior to the incurring of such additional Parity Obligations were at least sufficient to satisfy the Coverage Requirement for each of the next five full Fiscal Years following the incurring of such additional Parity Obligations or each of the next three full Fiscal Years following the incurring of such additional Parity Obligations during which no interest is capitalized, whichever is later, including the Parity Debt Service during such Fiscal Years on such additional Parity Obligations; and for the purpose of providing such certificate or certificates, the City or the City’s Consultant, as applicable, may adjust the Adjusted Net System Revenues for such Fiscal Year or 12 calendar month period, as the case may be, to reflect:

(1) an allowance for Net System Revenues that would have been derived from each new connection to the Wastewater System that was made prior to the incurrence of such additional Parity Obligations but which was not in existence, during all or any part of such Fiscal Year or 12 calendar month period under consideration, in an amount equal to the estimated additional Net System Revenues that would have been derived from each such

connection if it had been made prior to the beginning of such Fiscal Year or 12 calendar month period, and

(2) an allowance for Net System Revenues that would have been derived from any increase in the rates, fees and charges fixed and prescribed for Wastewater Service which became effective prior to the incurrence of such additional Parity Obligations but which was not in effect, during all or any part of such Fiscal Year or 12 calendar month period, in an amount equal to the estimated additional Net System Revenues that would have been derived from such increase in rates, fees and charges if it had been in effect prior to the beginning of such Fiscal Year or 12 calendar month period; or

(B) the estimated Adjusted Net System Revenues for each of the five full Fiscal Years next following the earlier of (i) the end of the period during which interest on such additional Parity Obligations is to be capitalized or, if no interest is capitalized, the Fiscal Year in which such additional Parity Obligations are incurred, or (ii) the date on which substantially all Wastewater Projects financed with such additional Parity Obligations plus all Wastewater Projects financed with all existing Parity Obligations are expected to commence operations, will be at least sufficient to satisfy the Coverage Requirement for such period; and for the purpose of providing such certificate or certificates, the City or the City's Consultant, as applicable, may adjust the foregoing estimated Adjusted Net System Revenues to reflect:

(1) an allowance for Net System Revenues that are estimated to be derived from any increase in the rates, fees and charges for Wastewater Service which have been adopted by the City and which will be in effect during all or any portion of the period for which such estimates are provided; and

(2) an allowance for Net System Revenues that are estimated to be derived from new customers of the Wastewater System anticipated to be served by any additions or improvements to or extensions of the Wastewater System reasonably expected to become available during such five year period in an amount equal to the additional Net System Revenues that are estimated to be derived from such customers.

For purposes of clause (B) above, with respect to Operation and Maintenance Costs, the City or the City's Consultant, as applicable, is required to use such assumptions (which are required to be set forth in such certificate or certificates) as such believes to be reasonable, taking into account: (i) historical Operation and Maintenance Costs, (ii) Operation and Maintenance Costs associated with the additions or improvements to or extensions of the Wastewater System to be financed with the proceeds of such additional Parity Obligations and any other new additions or improvements to or extensions of the Wastewater System during such five year period and (iii) such other factors, including inflation and changing operations or policies of the City, as the City or the City's Consultant, as applicable, believes to be appropriate.

The certificate or certificates described above in paragraph (ii) are not required if the Parity Obligations being issued are for the purpose of refunding (x) then outstanding Parity Obligations, if at the time of the issuance of such refunding Parity Obligations a certificate of the City is delivered showing that Parity Debt Service in each Fiscal Year on all Parity Obligations outstanding after the issuance of the refunding Parity Obligations will not exceed one hundred ten per cent (110%) of Parity Debt Service in each corresponding Fiscal Year on all Parity Obligations outstanding prior to the issuance of such refunding Parity Obligations; or (y) then outstanding Balloon Obligations or Variable Interest Rate Obligations, but only to the extent that the principal amount of such Balloon Obligations or Variable Interest Rate Obligations has been put, tendered to or otherwise purchased by a standby purchase or other liquidity facility relating to such Balloon Obligations or Variable Interest Rate Obligations.

Subordinate Obligations

Under the 2024 Contract, the City may issue or incur obligations secured by Net System Revenues on a priority subordinate to the Parity Obligations and such obligations may be paid only in accordance with the provisions of 2024 Contract as long as (i) no Event of Default has occurred and is continuing (unless such Event of Default will not be continuing after the incurrence of such subordinate obligations) and (ii) no Event of Default or Termination Event (as defined in any Payment Agreement) under any Payment Agreement has occurred and is continuing (unless such Event of Default or Termination Event will not be continuing after the incurrence of such subordinate obligations).

Certain Rights of the Insurer

[In the event that principal of or interest due on the 2024 Bonds shall be paid by the Insurer pursuant to the Policy or the Reserve Fund Policy, the Insurer will be subrogated to the rights of the registered owners of the 2024 Bonds. Any amendment, supplement, modification to, or waiver of, the 2024 Indenture or the 2024 Contract that requires the consent of holders of the 2024 Bonds will also require the prior written consent of the Insurer. Upon the occurrence and continuance of a default or an event of default under the 2024 Indenture or 2024 Contract, the Insurer will be deemed to be the sole owner of the 2024 Bonds for all purposes under the 2024 Indenture and the 2024 Contract, including, without limitations, for purposes of exercising remedies and approving amendments. In the event of any reorganization or liquidation of the City, the Insurer will have the right to vote on behalf of all holders of the 2024 Bonds on any reorganization or liquidation plan absent a continuing failure by the Insurer to make a payment under the Policy.]

BOND INSURANCE

[Section to be updated]

Bond Insurance Policy

Concurrently with the issuance of the 2024 Bonds, [INSURANCE PROVIDER] (“[INSURANCE PROVIDER]”) will issue its Municipal Bond Insurance Policy for the 2024 Bonds (the “Policy”). The Policy guarantees the scheduled payment of principal of and interest on the 2024 Bonds when due as set forth in the form of the Policy included as APPENDIX G to this Official Statement.

The Policy is not covered by any insurance security or guaranty fund established under New York, California, Connecticut or Florida insurance law.

[INSURANCE PROVIDER]

[INSURANCE PROVIDER] is a New York domiciled mutual insurance corporation. BAM provides credit enhancement products solely to issuers in the U.S. public finance markets. BAM will only insure obligations of states, political subdivisions, integral parts of states or political subdivisions or entities otherwise eligible for the exclusion of income under section 115 of the U.S. Internal Revenue Code of 1986, as amended. No member of [INSURANCE PROVIDER] is liable for the obligations of [INSURANCE PROVIDER].

The address of the principal executive offices of [INSURANCE PROVIDER] is: [address]

[INSURANCE PROVIDER] is licensed and subject to regulation as a financial guaranty insurance corporation under the laws of the State of New York and in particular Articles 41 and 69 of the New York Insurance Law.

[INSURANCE PROVIDER]’s financial strength is rated “AA/Stable” by Standard and Poor’s Ratings Services, a Standard & Poor’s Financial Services LLC business (“S&P”). An explanation of the significance of

the rating and current reports may be obtained from S&P at www.standardandpoors.com. The rating of [INSURANCE PROVIDER] should be evaluated independently. The rating reflects the S&P's current assessment of the creditworthiness of [INSURANCE PROVIDER] and its ability to pay claims on its policies of insurance. The above rating is not a recommendation to buy, sell or hold the 2024 Bonds, and such rating is subject to revision or withdrawal at any time by S&P, including withdrawal initiated at the request of [INSURANCE PROVIDER] in its sole discretion. Any downward revision or withdrawal of the above rating may have an adverse effect on the market price of the 2024 Bonds. [INSURANCE PROVIDER] only guarantees scheduled principal and scheduled interest payments payable by the issuer of the 2024 Bonds on the date(s) when such amounts were initially scheduled to become due and payable (subject to and in accordance with the terms of the Policy), and [INSURANCE PROVIDER] does not guarantee the market price or liquidity of the 2024 Bonds, nor does it guarantee that the rating on the 2024 Bonds will not be revised or withdrawn.

Capitalization of [INSURANCE PROVIDER]

[INSURANCE PROVIDER]'s total admitted assets, total liabilities, and total capital and surplus, as of [____], 2024 and as prepared in accordance with statutory accounting practices prescribed or permitted by the New York State Department of Financial Services were \$[____] million, \$[____] million and \$[____] million, respectively.

[INSURANCE PROVIDER] is party to a first loss reinsurance treaty that provides first loss protection up to a maximum of [15]% of the par amount outstanding for each policy issued by [INSURANCE PROVIDER], subject to certain limitations and restrictions.

[INSURANCE PROVIDER]'s most recent Statutory Annual Statement, which has been filed with the New York State Insurance Department and posted on [INSURANCE PROVIDER]'s website at [website], is incorporated herein by reference and may be obtained, without charge, upon request to [INSURANCE PROVIDER] at its address provided above (Attention: Finance Department). Future financial statements will similarly be made available when published.

[INSURANCE PROVIDER] makes no representation regarding the 2024 Bonds or the advisability of investing in the 2024 Bonds. In addition, [INSURANCE PROVIDER] has not independently verified, makes no representation regarding, and does not accept any responsibility for the accuracy or completeness of this Official Statement or any information or disclosure contained herein, or omitted herefrom, other than with respect to the accuracy of the information regarding [INSURANCE PROVIDER], supplied by [INSURANCE PROVIDER] and presented under the heading "BOND INSURANCE."

Additional Information Available from [INSURANCE PROVIDER]

Credit Insights Videos. For certain [INSURANCE PROVIDER]-insured issues, [INSURANCE PROVIDER] produces and posts a brief Credit Insights video that provides a discussion of the obligor and some of the key factors [INSURANCE PROVIDER]'s analysts and credit committee considered when approving the credit for insurance. The Credit Insights videos are easily accessible on [INSURANCE PROVIDER]'s website at [website].

Obligor Disclosure Briefs. Subsequent to closing, [INSURANCE PROVIDER] posts an Obligor Disclosure Brief on every issue insured by [INSURANCE PROVIDER], including the 2024 Bonds. [INSURANCE PROVIDER] Obligor Disclosure Briefs provide information about the gross par insured by CUSIP, maturity and coupon; sector designation (e.g. general obligation, sales tax); a summary of financial information and key ratios; and demographic and economic data relevant to the obligor, if available. The Obligor Disclosure Briefs are also easily accessible on [INSURANCE PROVIDER]'s website at [website].

Disclaimers. The Obligor Disclosure Briefs and the Credit Insights videos and the information contained therein are not recommendations to purchase, hold or sell securities or to make any investment

decisions. Credit-related and other analyses and statements in the Obligor Disclosure Briefs and the Credit Insights videos are statements of opinion as of the date expressed, and [INSURANCE PROVIDER] assumes no responsibility to update the content of such material. The Obligor Disclosure Briefs and Credit Insight videos are prepared by [INSURANCE PROVIDER]; they have not been reviewed or approved by the Authority, the City or the underwriters for the 2024 Bonds, and the Authority, the City and underwriters assume no responsibility for their content.

[INSURANCE PROVIDER] receives compensation (an insurance premium) for the insurance that it is providing with respect to the 2024 Bonds. Neither [INSURANCE PROVIDER] nor any affiliate of [INSURANCE PROVIDER] has purchased, or committed to purchase, any of the 2024 Bonds, whether at the initial offering or otherwise.

THE AUTHORITY

The Authority was created by a Joint Exercise of Powers Agreement, dated June 18, 1990 (the “JPA Agreement”), between the City and the former Redevelopment Agency of the City of Stockton. The JPA Agreement was entered into pursuant to the Joint Exercise of Powers Act, Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (the “State”). The Authority was created for the purpose of facilitating the financing or refinancing public improvement facilities within the City.

THE CITY

The City is a municipal corporation and charter city incorporated in 1850. The City is the county seat of San Joaquin County and is located in California’s San Joaquin Valley, 78 miles east of the San Francisco Bay Area, 345 miles north of Los Angeles and 45 miles south of Sacramento. San Joaquin County is bounded by Sacramento County on the north, Stanislaus County on the south, Contra Costa County and Alameda County on the west and Amador County, Calaveras County and Stanislaus County on the east.

Certain economic and demographic information with respect to the City is contained in APPENDIX A. Such economic and demographic information is presented as general background information only. The 2024 Bonds are secured solely by the 2024 Installment Payments (which are payable from Net System Revenues) and funds and accounts established under the 2024 Indenture, and not by the general fund of the City. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS” herein.

THE WASTEWATER SYSTEM

Overview

The City of Stockton Wastewater System is one of three utilities managed, operated, and maintained by the City of Stockton Municipal Utilities Department (the “Stockton MUD”). The two other utilities are Water and Stormwater. The Wastewater System is comprised of the regional wastewater collection system (the “Collection System”) and the treatment and disposal facilities located at the Stockton Regional Wastewater Control Facility (the “Stockton RWCF”). See “– Facilities” below.

Service Area

The Wastewater System provides wastewater service within the City limits and certain contiguous portions of unincorporated San Joaquin County (collectively, the “Service Area”). The Service Area covers approximately 100 square miles, of which the City comprises approximately 55.5 square miles. The total population of the City is approximately 317,204 (as of January 1, 2024 as estimated by the State Department of Finance), including eight service districts located outside of City limits (Colonial Heights, Lincoln Village, Taft, Pacific Gardens, Morrison Gardens, Boggs Tract, College Parkview, and Country Club) and an unincorporated

portion of the County. The eight service districts and the unincorporated portion of the County are referred to collectively as “Non-City Customers.”

The following is a map of the Service Area.

Organization and Management

Organization. The Wastewater System is operated under the management and control of the City Council. Day-to-day management is provided by C. Mel Lytle, Ph.D., the Director of Stockton MUD; Deedee Antypas, Deputy MUD Director of Wastewater Operations; Ali Gharegozloo, Deputy MUD Director of Engineering and Department Services; and Jeff Marasovich, Deputy MUD Director of Maintenance and Collections Systems, under the general supervision of the City Manager. The Assistant MUD Director position is currently vacant.

The organization of the Wastewater System is presented in the organizational chart on the following page. The Wastewater System also receives services from other divisions within Stockton MUD, including engineering, administration, laboratory, maintenance, and environmental control.

The Wastewater System operates within the legal requirements of the City Charter, the City Municipal Code, and in accordance with the laws of the State and the nation. The Wastewater System is regulated at the State level by the State Water Resources Control Board (the “SWRCB”), the Central Valley Regional Water

Quality Control Board (the “RWQCB”), and at the Federal level by the Environmental Protection Agency (the “EPA”).

The Wastewater System also receives guidance from the Water Advisory Group (described below) and the City Council Water Committee.

Water Advisory Group. In 2009, the City Council adopted Resolution No. 09-0279 establishing the Water Advisory Group (the “WAG”) to foster citizen input and transparency in the operations of Stockton MUD. The WAG reports directly to the Council Water Committee (described below) on current and future issues impacting the Wastewater, Water, and Stormwater Utilities of the City, including review of Stockton MUD monthly operations and maintenance reports (including those for the Wastewater System). The WAG is comprised of seven members, who must reside within one of the service areas of the City’s three Utilities, and serve four-year terms for a maximum of two terms. The Mayor and each Council member nominate one candidate with all nominees ratified by the full City Council.

The Director of Stockton MUD serves ex-officio as Secretary of the Water Advisory Group.

Council Water Committee. The Council Water Committee is a standing committee of the City Council. This Committee is comprised of three members of the City Council and one alternate appointed by the Mayor and ratified by the full City Council. The Council Water Committee is responsible for advising and making recommendations to the City Council on all issues related to wastewater, including, but not limited to, projects, treatment, regulatory issues, and recommendations made by the WAG.

[Remainder of Page Intentionally Left Blank]

Wastewater System Organizational Chart

Management. The Wastewater System operates within the legal requirements of the City Charter, the Municipal Code and in accordance with the laws of the State and the nation. See also “ – Regulatory Compliance.”

The Wastewater System receives administrative and overhead support services from the City and is charged for these services through an interdepartmental cost allocation system.

A Brief resume of the Stockton MUD Director is set forth below:

C. Mel Lytle, Ph.D., Director of Municipal Utilities. Dr. Mel Lytle began work for the City of Stockton in 2012 as Director of the Municipal Utilities Department. Prior to his time with the City, Mel worked for 10 years as the Water Resources Manager for San Joaquin County. Dr. Lytle is a published author, invited lecturer and Postdoctoral Fellow of the University of California Berkeley. His academic training includes bachelor’s & master’s degrees in agricultural business/science and a Ph.D. in botany & range science from Brigham Young University, Utah.

Facilities

General. The Stockton RWCF is located on an approximately 690-acre site in the southwestern portion of the City adjacent to the San Joaquin River. The Stockton RWCF is comprised of primary, secondary, and

tertiary wastewater treatment and discharge to the San Joaquin River. The current capacity of the Stockton RWCF in million gallons per day (“mgd”) is as follows:

Design Average Dry Weather Flow	47 mgd
Maximum Secondary Treatment Capacity.....	79.4 mgd
Maximum Outfall Capacity	55 mgd

In Fiscal Year 2022-23, the Stockton RWCF treated and discharged approximately 9.9 billion gallons of wastewater originating from residential, commercial, industrial and institutional customers within the Service Area.

The Stockton RWCF is undergoing a multi-year project to repair, replace and upgrade the treatment process units at the Stockton RWCF in order to meet treated wastewater discharge limits regulated by the Central Valley Regional Water Quality Control Board by June 1, 2024. As of the date hereof, completion of the project has been extended to January 2025.

Collection System. The existing sanitary collection system conveys all wastewater for the Service Area to the Stockton RWCF. The collection system is comprised of ten smaller collection systems that function somewhat independently of each other, although some interties and shared facilities do exist. More than 108,000 sanitary sewer connections and more than 1,400 miles of sanitary sewer pipelines, including pressurized force mains, gravitational sewer mains and service laterals, comprise the collection system. The sanitary collection system also includes 27 pump stations. The sanitary collection system and the City’s storm water collection system are separate, unconnected systems.

Wastewater generally flows by gravity from east to west. Wastewater from north Stockton and several east Stockton locations must be pumped to the Stockton RWCF. Capacities of these pump stations range from several hundred to over 30,000 gallons per minute.

Treatment Process and Disposal System. Wastewater is treated at the Stockton RWCF and discharged into the San Joaquin River. The Stockton RWCF processes wastewater in three steps: primary, secondary, and tertiary (advanced) which are required to meet environmental standards. A summary of each stage of the treatment process is set forth below.

Primary Treatment. Primary treatment includes screening, grit removal, and sedimentation. Screens remove large objects such as rags, sticks, plastics, small stones, and pieces of wood. The wastewater flows through six primary settling tanks to allow heavy particles to settle to the bottom to be moved to sludge hoppers. Floating materials are removed with water sprays and rotating collectors or skimmers. Floatable substances, such as grease, are skimmed and sent to the bio-oxidation towers.

Secondary Treatment. After passing through primary settling tanks, the effluent is pumped to four secondary clarifiers where further settling of solids occurs. Cleaned effluent from the secondary clarifiers then flows to the aeration basins where aerobic, anaerobic, and swing zones activate the microbes to metabolize the remaining organic matter in the wastewater stream. The microbes are recycled through a return activated sludge system in a continuous loop back into the aeration basins to replenish the microbe stock. The aeration basins, and activated sludge system removes the majority of BOD, TSS, and ammonia from the wastewater stream.

Advanced Tertiary Treatment. The tertiary treatment facilities consist of disk filters and ultraviolet radiation. Effluent from the aeration basins is routed through disk filters to remove any final remaining solids. The filtered water is then pumped through channels containing ultraviolet bulbs for final disinfection before discharge into the San Joaquin River.

A diagram of the treatment process is set forth on the next page.

Figure 4-5. Conceptual Process Flow Diagram

Fat, Oils, and Grease. Fats, oils, and grease (“FOG”) in the collection system is also a major concern. Wastewater lines blocked with FOG can cause overflows and result in sanitary sewer overflows (“SSOs”). The City has developed a comprehensive program to address sanitary sewer overflows associated with FOG, consisting of preventative maintenance, inspections, enforcement procedures, and public education and outreach to food service establishments. The City also requires industrial users to install pretreatment equipment, including equipment to reduce FOG and has public educational outreach programs for other users to reduce FOG in the collection system and SSOs.

Power Source. The Stockton RWCF produces approximately 47 million pounds of sludge each month. The decomposition of this sludge produces enough methane to generate 38,000 megawatts (“MW”) per year to supply the majority of the power needs of the Stockton RWCF. The City also purchases electrical power from Pacific Gas & Electric. In order to satisfy State requirements that all wastewater treatment facilities have an alternate source of power, the Stockton RWCF is equipped with a standby 1,750 kilowatt black start diesel generator and a 3MW Kohler generator.

Disposal System. The Stockton RWCF discharges treated effluent to the San Joaquin River through a pipe outfall in compliance with State requirements. Solids removed from the treatment process include grit, screenings and large debris. These solids are collected or removed through various processes and disposed of to a local landfill. Sludge collected from the treatment process is pumped to the anaerobic digesters. Once digested, the solids are dewatered and are sent through the belt filter presses where the remaining water is removed, and a biosolids “cake” is produced. This cake is hauled by a contract hauler off site and is land disposed or land applied (to land located outside of the County). The Stockton RWCF hauls approximately 5,400 dry tons of biosolids off-site each year.

Wastewater System Users

Customer Class. During Fiscal Year 2022-23, the Wastewater System served 108,807 accounts, of which approximately 96% were residential users. Table 1 summarizes the customer base by the number of connections for the last five Fiscal Years.

[Remainder of Page Intentionally Left Blank]

Table 1
City of Stockton Wastewater System
Customer Class by Type of Account
(Fiscal Years 2018-19 through 2022-23)

Account Type	Fiscal Years				
	2018-19	2019-20	2020-21	2021-22	2022-23
Residential:					
Single Family and Condo	75,826	76,139	76,350	76,774	77,879
Multi-Family and Apartments	26,624	26,630	26,630	26,626	26,635
Commercial:					
Low Strength	192	196	196	201	205

Wastewater Haulers	13	11	11	11	11
TOTAL	106,646	106,976	107,204	107,640	108,807

Source: City of Stockton, Utility Billing.

Additionally, the County bills on the tax bill certain property owners in three unincorporated areas where the City takes in the wastewater flows. These accounts are serviced and billed by the County and directly serviced through County Assessment Districts. These areas are Lincoln Village and Colonial Heights, together comprising over 800 acres, and Country Club, which is roughly 1,200 acres, and is comprised of two County districts. Roughly 1,000 homes in the Country Club Sanitary District Area of Country Club entered into an agreement with the City and are directly billed by the City. The remaining roughly 2,460 properties are serviced through the Pacific Gardens Maintenance District. These unincorporated areas are predominately made up of residential development, but do include some small commercial developments. They are fully surrounded by the City limits. Except for the roughly 1,000 properties in the Country Club Sanitary District, parcels in these unincorporated areas previously estimated in the above table have been excluded since the customers are both serviced and billed by the County and the City has no automated way to track ownership or zoning changes.

Largest Users by Flow. The table below shows the 10 largest users (unaudited) of the Wastewater System by flow for Fiscal Year 2022-23

Table 2
City of Stockton Wastewater System
Ten Largest Users by Flow
Fiscal Year 2022-23

Name	Industry/Type of Business	Fiscal Year 2022-23 Users	
		Peak Monthly Flow (mg)	Total Yearly Flow (mg)
Campbell Soup Supply Co.	Food Processing	47.17	137.68

Rate Setting, Billing, and Collection Procedures

Rate Setting. In accordance with California law, the City Council may, from time to time and at its discretion, fix, alter, change, amend or revise any user fees, connection charges and all other fees related to the Wastewater System. No other governmental authority, board, body or commission has jurisdiction over or is required to approve the Wastewater System rates established by the City Council. However, the ability of the City to increase user fees related to the Wastewater System is subject to the limitations imposed by Proposition 218. See “CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND APPROPRIATIONS” herein.

Wastewater Rate Study. The City has contracted with HDR Engineering, Inc. (“HDR”) to conduct a new 2024 wastewater rate study (the “2024 Wastewater Rate Study”). In accordance with the California state law, requiring that billing for wastewater service be based on water consumption, the Wastewater System will use the results of the 2024 Wastewater Rate Study to establish equitable rate schedules for both consumption-based and flat-rate water usage. The 2024 Wastewater Rate Study included review of a 10-year CIP to ensure adequate future revenue to construct and maintain the Wastewater System infrastructure. The 2024 Wastewater Rate Study is currently underway and the City currently expects it to be completed in the summer of 2024, and be subsequently adopted by City Council in late 2024. Once the 2024 Wastewater Rate Study is approved, it can be viewed online at www.stocktonca.gov/files/218RateStudyReport.pdf or a copy can be obtained by contacting the City Clerk, City of Stockton, 425 North El Dorado Street, Stockton, California 95202.

In 2019, the City contracted with HDR to conduct a wastewater rate cost of service study (the “2019 Wastewater Rate Study”. On May 21, 2019, the City Council approved a resolution (“Resolution No. 2019-05-21-1506”), authorizing annual wastewater rate increases based upon a user classification, that became effective commencing July 1, 2019 and on each July 1 thereafter, commencing July 1, 2020 through July 1, 2023 as recommended in the 2019 Wastewater Rate Study.

Billing. Wastewater, water, and stormwater services are considered “ready to use” and are billed monthly as long as the account remains open. Bills for City utility services are issued monthly by the City. Within the Service Area, City customers are billed for all applicable utility services (water, wastewater, storm water, and garbage collection) on a unified bill issued by the City.

Collection. Utility bills are due 18 days from the date of billing and become delinquent 25 days thereafter. If such bills remain unpaid on the 26th day after billing a 10% penalty is assessed, and an additional 1% penalty is assessed for each additional month that charges remain unpaid. Postmark dates are not accepted as received by dates. If wastewater service is terminated due to unpaid delinquent charges, wastewater service is not to be restored or provided until all delinquent charges and associated service charges and fees, reconnection charges have been paid in full, or an amortization agreement has been authorized by the City or its authorized agent for billing and collection pursuant to Sections 779 or 10010 of the State Public Utilities Code or other applicable statute or regulation. Delinquent balances may result in the recording of a lien or assessment against the property where service is provided.

Any partial payments of a unified bill received by the City are applied to pay, in full, utility charges in the following priority: storm water, Wastewater System, water, and garbage collection. Any amounts remaining unpaid would be subject to an amortization agreement, which the City would enforce in the event of non-payment of such amortization agreement as described above.

Rates, Fees and Charges

The Wastewater System receives moneys from two primary sources: (i) monthly sewer service charges and connection fees; and (ii) interest income.

Monthly Wastewater Service Charges. Customers of the Wastewater System are billed monthly sewer service charges based on a user classification: residential, commercial, institutional, and industrial and whether the customer is located within the City. Below is a summary of the method for calculating the monthly sewer charges and the rates for Fiscal Year 2023-24.

Residential. Single family residential users of the Wastewater System are billed a flat monthly charge of \$55.68. Non-City customers received a discount on the flat monthly charge based on prior agreements to credit them for collection system charges for which they receive no benefit. Multifamily and apartment residential users are also billed a slightly lower amount per dwelling unit.

Commercial. Commercial users of the Wastewater System are billed the greater of a minimum charge of \$26.83 per month, with a discount for Non-City customers, plus a volume charge based on one-hundred cubic feet of metered sewage effluent measured. Different volume charges are applied depending upon whether the user is classified as a low, medium or high strength discharger into the Wastewater System.

Institutional. Institutional users, such as government facilities, hospitals and schools of the Wastewater System are billed based on their type of business activity, with a discount for Non-City customers.

- Low Strength Discharge Fee. Institutional users classified as low strength are charged a minimum charge \$26.83 plus a volume charge based on \$2.22 per 100 cubic feet of metered sewage effluent.
- Medium Strength Discharge Fee. Institutional users classified as medium strength are charged a minimum charge of \$26.83 plus a volume charge based on \$2.70 per 100 cubic feet of metered sewage effluent.
- High Strength Discharge Fee. Institutional users classified as high strength are charged a minimum charge of \$26.83 plus a volume charge based on \$4.54 per 100 cubic feet of metered sewer effluent.

Schools. The City bills schools for wastewater service based upon the number of students, based upon average daily attendance (“ADA”), attending the institution at a rate of \$1.30 per student per day.

Industrial. Industrial users of the Wastewater System are charged a fixed monthly administrative charge of \$26.83, plus additional charges based upon capacity, in addition to annual operation and maintenance costs, and monitoring charges. Capacity charges are \$864.80 per million gallons per month; plus strength charges of \$140.13 per 1,000 pounds of BOD and \$102.88 per 1,000 pounds of total suspended solids (“TSS”). The annual operation and maintenance charges are \$748.52 per million gallons; plus strength charges of \$52.14 per 1,000 pounds of BOD and \$83.45 per 1,000 pounds of TSS. In addition, industrial users are billed for actual cost of monitoring charges.

Historical and Current Rates. Pursuant to Resolution No. 2019-05-21-1506, the first increase in wastewater rates of 6% took effect on July 1, 2019, with subsequent increases of up to 6% in each Fiscal Year thereafter through Fiscal Year 2023-24. The adopted rates are comprised of: (i) fixed monthly charges based upon customer class; (ii) volume costs; and (iii) strength charges. Table 7 sets forth the approved wastewater rates for Fiscal Years 2019-20 through 2023-24. The 2024 Wastewater Rate Study is currently underway and the City currently expects it to be completed in the summer of 2024, and be subsequently adopted by City Council in late 2024. Once the 2024 Wastewater Rate Study is approved, it can be viewed online at www.stocktonca.gov/files/218RateStudyReport.pdf or a copy can be obtained by contacting the City Clerk, City

of Stockton, 425 North El Dorado Street, Stockton, California 95202. See “Rate Setting, Billing, and Collection Procedures – Wastewater Rate Study,” above.

⁽¹⁾ Rates are based upon a fixed charge per month plus the flow per one hundred cubic feet (HCF).

⁽²⁾ Charged on the basis of the average daily attendance (ADA).

⁽³⁾ CCF = one hundred cubic feet.

⁽⁴⁾ ADA = average daily attendance.

⁽⁵⁾ MG = million gallons

⁽⁶⁾ Klbs = one thousand pounds.

Source: City of Stockton.

Connection Fees. One-time charges (“Connection Fees”) are levied by the City to recover costs incurred for providing capacity in the Wastewater System required by new users. The amount of such fees collected is therefore subject to the pace of development in the Service Area.

Connection Fees have been in effect in the City since Fiscal Year 1976-77. On July 6, 1988, the City Council adopted an ordinance creating and establishing the authority for imposing and charging public facilities fees (“Public Facilities Fees”). On September 12, 1988, the City Council adopted a resolution establishing and imposing Public Facilities Fees, including Connection Fees, to be paid at the time of issuance of a building permit for development and are used to finance the acquisition, construction and improvement of public facilities needed as a result of new development.

The historical connection fee revenues received by the City are set forth in the table below.

Table 5
City of Stockton Wastewater System

Connection Fee Revenues	\$1,452	\$2,123	\$4,521	\$3,943	\$2,455

Source: City of Stockton.

Interest Income. The Wastewater System receives additional income from interest income earned on funds available for use in operations and for application to capital facilities projects.

Delinquencies. Set forth in the table below is a summary of the amounts billed for charges for services and estimated to be uncollectible for the last five Fiscal Years. The amount estimated as uncollectible is determined at the end of each Fiscal Year and does not take into account any amounts that may be collected after the end of that Fiscal Year.

Table 6
City of Stockton Wastewater System
Uncollectible Charges for Services
(Fiscal Years)

	<u>2018-19</u>	<u>2019-20⁽¹⁾</u>	<u>2020-21</u>	<u>2021-22</u>	<u>2022-23</u>

Financial Policies and Practices

[City to confirm]

Reserve Policy. In 2006, to ensure sound fiscal management, preserve the discretion of the City Council in its resource allocation decisions, and to minimize the impact to citizens of potentially significant rate increases, the City established a reserve policy for all of its utilities, including the Wastewater System. The target reserve seeks to: (i) build a six-month reserve of the annual operating budget of the Wastewater System using a three-year trend to project the actual amount; (ii) transfer all revenue exceeding expenses, after the payment of debt service and on-going capital project costs of the Wastewater System, into the reserve account until the target is met; and (iii) establish a rate stabilization account and transfer all remaining revenue exceeding expenses on an "as needed" basis; such as when an upcoming project is expected to significantly increase rates. The rate stabilization account will help distribute any rate increase over a period of time in lieu of a one-time increase.

As of June 30, 2024, six-month reserve was calculated to be approximately \$33.6 million. As of June 30, 2024, the balance in the reserve was approximately \$51.48 million, including the balance in the Rate Stabilization Fund in the amount of approximately \$13.6 million. See also “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Rate Stabilization Fund” herein.

Investment Policy. Funds held by the Wastewater System are invested pursuant to the City’s Investment Policy. The Investment Policy establishes three objectives in investing moneys under control of the City: safety, liquidity, and return on investment. The City Council is provided with monthly and quarterly investment reports. A copy of the City’s Investment Policy can be viewed on its website.

Historical Debt Service Coverage

Table 9 sets forth historical revenues, expenses (based upon audited financial information) and debt service coverage for Fiscal Year 2018-19 through Fiscal Year 2022-23. The information set forth below has been excerpted from the financial statements of the City but certain non-cash items have been excluded and certain other adjustments have been made.

The audited financial statements for the Wastewater System for the Fiscal Year ended June 30, 2023 are attached as APPENDIX B–“AUDITED FINANCIAL STATEMENTS OF THE CITY OF STOCKTON FOR THE YEAR ENDED JUNE 30, 2023.” These statements should be read in their entirety.

Projected Debt Service Coverage

Revenues, expenses and debt service coverage for Fiscal Years 2023-24 (budgeted) and Fiscal Years 2024-25 through 2028-29 (projected) are set forth in Table 10, based on certain assumptions described in the footnotes to Table 10. *The following projections are based on the current circumstances of the City and currently available information and are believed to be reasonable. The projections may be affected by various factors and there can be no assurance that they will be achieved and any variation from projected operating results may be material.*

Capital Improvement Program

The City maintains a five-year Capital Improvement Plan (the "CIP") for the budgeting and planning of public projects throughout the City. The adoption of the Citywide CIP is governed by the City Charter. The CIP is updated annually by the City Council based upon available funding sources, anticipated capital needs and project priority.

The City's current 5-year CIP was approved by the City Council on June 18, 2024 and includes approximately \$145 million to fund projects necessary to upgrade the Stockton RWCF, to meet regulatory requirements, replace or rehabilitate aged infrastructure to meet current permitted capacity, including all of the costs of implementing portions of the CIEMP (described below). The City's current CIP [does/doesn't] provide for borrowing [in the amount of \$_____].

The City's 2011 Capital Improvement and Energy Management Plan ("CIEMP") was approved and adopted by the City Council on August 9, 2011 to include 46 near-term projects to the Stockton RWCF required to maintain compliance with the prior NPDES permit. The "Stockton RWCF Modifications Project," a major component of the CIEMP, was a multi-year \$248 million project to repair, replace and upgrade the treatment process units at the Stockton RWCF in order to meet treated wastewater discharge limits regulated by the Central Valley Regional Water Quality Control Board by June 1, 2024. As of the date hereof, completion of the RWCF Modifications Project has been extended to January 2025. Approximately [_____] million of the \$248 million Stockton RWCF Modifications Project has been debt financed.

Funding Sources. *[Discussion to come, including any planned borrowing]*

Expected Future Parity Obligations and/or Subordinate Obligations

The City does not currently have plans to issue or incur additional Parity Obligations and/or Subordinate Obligations in connection with the Wastewater System.

Employees and Employee Benefits

Employees. Stockton MUD personnel oversee the system's functions and maintain and repair the equipment and facilities, including the collection system and sanitary pump stations. For Fiscal Year 2024-25, the Stockton MUD has 233 budgeted full-time equivalent employees, with 117 full time equivalent employees allocable to the Wastewater System.

Currently, approximately 93% of all the Wastewater System employees are covered by negotiated agreements with four bargaining units. All four bargaining unit contracts are due to expire on June 30, 2026.

Employee Benefits Generally. The City contributes to two pension plans on behalf of Wastewater System employees: The Miscellaneous Plan of the City of Stockton (the "Miscellaneous Plan"), an agent multiple-employer defined benefit plan administered by the California Employees' Retirement System ("CalPERS") and the City of Stockton Retirement Enhancement Plan (the "REP") administered by Public Agency Retirement Services ("PARS"), a multiple-employer agency trust that acts as a common investment and administrative agent for participating public entities in the State.

Substantially all full-time City employees, including employees of the Wastewater System, are eligible to participate in retirement benefit plans through a contract with the CalPERS. CalPERS provides retirement, disability, and death benefits to plan members and beneficiaries. CalPERS benefits are payable monthly for life in an amount equal to a certain percent of the employees highest annual salary. Benefit provisions and all other requirements are established by contract with CalPERS, State statute, and City ordinance. CalPERS acts as a common investment and administrative agent for participating public entities within the State. CalPERS is a contributory plan deriving funds from employee contributions as well as from employer contributions and earnings from investments.

The REP is a closed retirement plan that provides retirement benefits for Stockton MUD employees for the period when they worked for OMI-Thames Water Stockton, Inc. to cover retirement benefits between 2003 and 2008. See "– PARS Retirement Enhancement Plan" below.

California Public Employees' Retirement System. *The following information concerning the California Public Employees' Retirement System is excerpted from publicly available sources, which the City believes to be accurate. CalPERS is not obligated in any manner for payment of debt service on the 2024 Bonds and the assets of CalPERS are not available for such payment. CalPERS should be contacted directly at California Public Employees' Retirement System, Lincoln Plaza Complex, 400 Q Street, Sacramento, California 95814, Telephone: 888-225-7377 for other information, including information relating to its financial position and investments.*

Set forth below is information with respect to the Miscellaneous Plan for the entire City. CalPERS does not prepare nor are separate reports available for the Wastewater System. The City can only allocate costs of the Miscellaneous Plan to the Wastewater System to the extent such costs are allocable to employees of the Wastewater System.

The Miscellaneous Plan is available to full-time employees not enrolled in the Safety Plan. Part-time employees must meet specific criteria for participation. City employees are eligible for service or normal

retirement at age 55 or older with a minimum of five years CalPERS service. The contribution requirements of the plan members and the City are established by CalPERS and may be amended.

For Fiscal Year 2022-23, there are a total of 967 budgeted full-time equivalent City employees participating in the Miscellaneous Plan of which [] (or approximately []%) are budgeted for the Wastewater System.

Benefits Provided. CalPERS provides service retirement and disability benefits, the annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. The provisions and benefits for the Miscellaneous Plan in effect at June 30, 2023, are summarized as follows:

Miscellaneous Plan

Hire Date	Prior to January 1, 2014	After January 1, 2014
Benefit Vesting Schedule	5 years service	5 years service
Benefit Formula	Tier I: 2% @ 55 years of age Tier II: 2% @ 60 years of age	2% @ 62 years
Benefit Payments	monthly for life	monthly for life
Required Employee Contribution Rates	7.00%	6.75%
Required Employer Contribution Rates	9.86%	9.86%

Source: Audited Financial Statements of the City of Stockton for the Year Ended June 30, 2023.

Employees Covered. At June 30, 2023 the following Miscellaneous Plan employees were covered under benefit terms:

Inactive employees or beneficiaries currently receiving benefits	1,595
Inactive employees entitled to but not yet receiving benefits	531
Active employees	967
TOTAL	4,093

Contributions. The City establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by the employee during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For Fiscal Year 2022-23, the total Miscellaneous Plan employer contribution rate was 9.86% of wages. See “– Discount Rate” below.

Net Pension Liability. The City’s net pension liability was measured as of June 30, 2022, using an annual actuarial valuation as of June 30, 2021, using standard update procedures.

Actuarial Assumptions. The total pension liability on June 30, 2022, the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Miscellaneous Plan

Valuation Date	6/30/2021
Measurement Date	6/30/2022
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Payroll Growth	2.80%
Projected Salary Increase	Varies(1)
Mortality	(2)

(1) Depending on age, service and type of employment based on the 2021 CalPERS Experience Study for the period from 2001 to 2019.

(2) Pre-retirement and post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details, please refer to the CalPERS Experience Study and review of Actuarial Assumptions report from November 2021 that can be found on the CalPERS website.

Source Audited Financial Statements of the City of Stockton for the Year Ended June 30, 2023.

Discount Rate. The discount rate used to measure the total pension liability for the June 30, 2022 valuation was 6.90% [*Why CalPERS 6.8% as of June 30, 2022?*]. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rate and that the City contributions will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of currently active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The expected real rates of return by asset class are as follows:

Miscellaneous Plan

Asset Class	Assumed Asset Allocation	Real Return Years 1-10(a)(b)
Global Equity – cap weighted	30%	4.45%
Global Fixed – non-cap weighted	12	3.84
Private Equity	13	7.28
Treasury	5	0.27
Mortgage Backed Securities	5	0.50
Investment Grade Corporates	10	1.56
High Yield	5	2.27
Emerging Market Debt	5	2.48
Private Debt	5	3.57
Real Assets	15	3.21
Leverage	(5)	(0.59)
TOTAL	100%	

(a) An Expected inflation of 2.3% used for this period.

(b) Figures are based on the 2021-22 Asset Liability Management Study.

Source Audited Financial Statements of the City of Stockton for the Year Ended June 30, 2023.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following table presents the net pension liability of the City for the Miscellaneous Plan, calculated using the discount rate of 6.90%, as well as what the net pension liability of the City would be if it were calculated using a discount rate that is one-percentage point lower (5.90%) or one-percentage point higher (7.90%) than the current rate.

	Miscellaneous Plan		
	1% Decrease Rate = 5.90%	Current Discount Rate = 6.90%	1% Increase Rate = 7.90%
Net pension liability	\$255,399,878	\$153,551,506	\$69,160,881

Source Audited Financial Statements of the City of Stockton for the Year Ended June 30, 2023.

Miscellaneous Plan Fiduciary Net Position. Detailed information about the fiduciary net position for the Miscellaneous Plan is available from CalPERS in the separately issued CalPERS financial report.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. Information on the deferred outflows of resources and deferred inflows of resources related to pensions for the Miscellaneous Plan is presented in Note 12 of the City's Fiscal Year 2022-23 Annual Comprehensive Financial Report. See APPENDIX B – "AUDITED FINANCIAL STATEMENTS OF THE CITY OF STOCKTON FOR THE YEAR ENDED JUNE 30, 2023" attached hereto.

PARS Retirement Enhancement Plan. The PARS Retirement Enhancement Plan, a closed retirement plan, provides retirement benefits for Stockton MUD employees for the period during which they worked for OMI/Thames Water Stockton, Inc. ("OMI-Thames"). The City entered into an agreement with PARS to contribute to a supplemental plan for employees joining or re-joining City service after having been employed between 2003 and 2008 by OMI-Thames. OMI-Thames employees did not earn CalPERS service credit during the period of time OMI-Thames operated the City utilities.

Benefits Provided. Upon retirement, the REP benefits will supplement any CalPERS retirement for which those employees are eligible. Eligibility for REP, other than employment with OMI-Thames between 2003 and 2008, is defined as concurrent retirement with CalPERS and the City upon attaining age 55 and a minimum of five years of full-time continuous service with the City, with at least one year of continuous City service after March 1, 2008.

As of June 30, 2023, a total of 82 employees were covered by the REP, consisting of 55 inactive employees or beneficiaries currently receiving benefits and 27 active employees.

Contributions. The City establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by the employee during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

Net Pension Liability. The City's net pension liability was measured as of June 30, 2023, using an annual actuarial valuation as of June 30, 2022, using standard update procedures.

Actuarial Assumptions. The total pension liability on June 30, 2023, the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Enhancement Plan
Valuation Date	6/30/2022
Measurement Date	6/30/2023
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	6.50%
Inflation	2.30%
Payroll Growth	2.80%
Projected Salary Increase	3.34% - 9.01%(1)
Investment Rate of Return	6.50%
Mortality	(2)

(1) Depending on years of service.

(2) Pre-retirement: Consistent with Non-Industrial rates used to value the CalPERS Miscellaneous Public Agency Pension Plans after June 30, 2021. Post-retirement: Consistent with Non-Industrial rates used to value the CalPERS Miscellaneous Public Agency Pension Plans after June 30, 2021

Source: Audited Financial Statements of the City of Stockton for the Year Ended June 30, 2023.

Discount Rate. The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that the City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of currently active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Additional information with respect to the REP, including changes in net pension liability, target investment allocation, sensitivity of the net pension liability, changes in the discount rate and deferred outflows of resources and deferred inflows of resources related to pension can be found in Note 12 to the Audited Financial Statements of the City. See APPENDIX B – "AUDITED FINANCIAL STATEMENTS OF THE CITY OF STOCKTON FOR THE FISCAL YEAR ENDED JUNE 30, 2023" attached hereto.

Changes in the Net Pension Liability.

	Enhancement Plan		
	Total Pension Liability	Plan	
		Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a) – (b)
Balance at 06/30/2022	\$12,935,662	\$9,620,909	\$3,314,753
Changes for the year:			
Service cost	114,224	–	114,224
Interest on total pension liability	826,109	–	826,109
Effect of Economic/demographic gains or losses	300,141	–	300,141

Source Audited Financial Statements of the City of Stockton for the Year Ended June 30, 2023.

Sensitivity of the Net Pension Liability. The following presents the net pension liability of the City, calculated using the discount rate of 6.50 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50 percent) or 1-percentage-point higher (7.50 percent) than the current rate:

	Enhancement Plan		
	1% Decrease Rate = 5.50%	Current Discount Rate = 6.50%	1% Increase Rate = 7.50%
Net pension liability	\$4,714,537	\$3,109,369	\$1,755,989

Source Audited Financial Statements of the City of Stockton for the Year Ended June 30, 2023.

Health Insurance Premiums. The City also provides health benefits to certain employees and their dependents for medical, dental and vision care. For Fiscal Years 2019-20, 2020-21, 2021-22, and 2022-23, the City paid premiums in the amount of \$1.557 million, \$[] million, \$[] million, and \$[] million, respectively for Wastewater System employees. For Fiscal Year 2023-24, the amount paid for premiums for Wastewater System employees is budgeted to be \$[] million. The City pays a portion of the premium for health benefits for a small group of Stockton MUD employees who were reinstated to City employment on March 1, 2008, when Stockton MUD operations were transferred back to the City. See also “– PARS Retirement Enhancement Plan” above. The remainder is paid for by the employee and varies by the number of dependents covered. Each employee and dependent is covered by a life insurance policy and the employee also is covered by a long-term disability policy.

Post-Employment Health Care Benefits. The City does not provide post-employment health care benefits to its retirees and does not have any liability listed in its financials to account for such a benefit.

Regulatory Compliance

Wastewater treatment plants are required under State and federal law to meet various requirements for the disposal/discharge of wastewater. These standards are set forth in National Pollution Discharge Elimination System (the “NPDES”) permits issued and modified every five years by the California Regional Water Quality Control Board-Central Valley Region (the “RWQCB”). The City operates the Stockton RWCF under NPDES

Permit No. CA0079138 (Order R5-2020-0007-01) issued by the RWQCB. The current NPDES permit (the “Permit”) became effective on July 1, 2023 and expires June 20, 2024. The Permit prescribes wastewater discharge requirements for the Stockton RWCF as set forth in the California Code of Regulations, Title 22, Division 4, Chapter 3 (“Title 22”). Title 22 requires that wastewater be adequately disinfected, oxidized, coagulated, clarified and filtered prior to reuse on food crops, parks, playgrounds, school yards and other areas of similar public access. The City, however, does not have any current plans to reuse treated wastewater for these purposes because the quantity discharged to the San Joaquin River is the basis of the City’s water right for the Delta Water Supply Project, which treats and distributes potable water to the City’s drinking water system.

2024 BONDOWNERS’ RISKS

This section provides a general overview of certain risk factors which should be considered, in addition to the other matters set forth in this Official Statement, in evaluating an investment in the 2024 Bonds. This section is not meant to be a comprehensive or definitive discussion of the risks associated with an investment in the 2024 Bonds, and the order in which this information is presented does not necessarily reflect the relative importance of various risks. Potential investors in the 2024 Bonds are advised to consider the following factors, among others, and to review this entire Official Statement to obtain information essential to the making of an informed investment decision. Any one or more of the risk factors discussed below, among others, could lead to a decrease in the market value and/or in the marketability of the 2024 Bonds or the ability of the City to make 2024 Installment Payments. There can be no assurance that other risk factors not discussed herein will not become material in the future.

General

The 2024 Installment Payments supporting the 2024 Bonds are payable solely from Net System Revenues pursuant to the 2024 Contract. If for any of the reasons described below, or for any other reason, the City does not collect sufficient Net System Revenues to pay the 2024 Installment Payments, the City will not be obligated to utilize any other of its funds, other than amounts available in the 2024 Reserve Account and certain other amounts on deposit in the funds and accounts established under the 2024 Indenture to pay debt service on the 2024 Bonds. See also “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – 2024 Reserve Account.”

Rate Covenant Not a Guarantee of Sufficient Net System Revenues

The ability of the City to pay the 2024 Installment Payments depends on the ability of the City to generate Net System Revenues in the levels required by the 2024 Contract. Although the City has covenanted in the 2024 Contract to impose rates, fees and charges as more particularly described herein under “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Rate Covenant,” and expects that sufficient System Revenues will be generated through the imposition and collection of such rates, fees and charges and other System Revenues described herein, there is no assurance that such imposition of such rates, fees and charges or other System Revenues will result in the generation of Net System Revenues in the amounts required by the 2024 Contract. The City’s covenant does not constitute a guarantee that sufficient Net System Revenues will be available to pay the 2024 Installment Payments.

System Expenses and Capital Costs

There can be no assurance that the City’s actual Operation and Maintenance Costs, other expenses or capital costs will be consistent with the projections in this Official Statement. Increases in expenses and/or capital costs including, but not limited to, personnel costs, regulatory compliance costs, changes in technology, and aging facilities could require an increase in rates or charges in order to comply with the rate covenant. Such increases could be material.

The Wastewater System's facilities are aging and in need of repair or replacement. See "THE WASTEWATER SYSTEM – Capital Improvement Plan." Long-lived facilities result in decreased reliability due to unplanned outages and place a greater maintenance burden on Wastewater System's operations.

Private sewer laterals are not owned or operated by the City; however, faulty private sewer laterals can increase inflow and infiltration into the Wastewater System's facilities. Excessive inflow and infiltration into the facilities due to faulty sewer laterals may cause damage to the Wastewater System's facilities.

No Acceleration of 2024 Bonds or 2024 Installment Payments

The 2024 Indenture does not contain a provision allowing for the acceleration of the 2024 Bonds in the event of a payment default or other default under the terms of the 2024 Bonds or the 2024 Indenture. The 2024 Contract does not contain a provision allowing for the acceleration of the 2024 Installment Payments in the event of a payment default or other default under the terms of the 2024 Contract.

Initiatives; Changes in Law

In recent years several initiative measures have been proposed or adopted which affect the ability of local governments to increase taxes and rates. Article XIII A, Article XIII B, Article XIII C, Article XIII D, and Proposition 26, were adopted as measures that qualified for the ballot through California's initiative process. From time to time, other initiative measures could be adopted, which may place further limitations on the ability of the State, the City or local districts to increase revenues or to increase appropriations which may affect the City's revenues or its ability to expend its revenues. There is no assurance that the electorate or the State Legislature will not at some future time approve additional limitations which could affect the ability of the City to implement rate increases which could reduce Net System Revenues and adversely affect the security for the 2024 Bonds. See "CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND APPROPRIATIONS" herein.

Statutory and Regulatory Impact

Laws and regulations governing transmission, treatment and delivery of wastewater are enacted and promulgated by government agencies on the federal, State and local levels. Compliance with these laws and regulations may be costly, and, as more stringent standards are developed, these costs will likely increase. In addition, claims against the City for violations of regulations with respect to its facilities and services could be significant. Such claims are payable from Revenues or from other legally available sources.

Although the City has covenanted in the 2024 Contract to fix, prescribe and collect rates and charges for the sewer service during each Fiscal Year sufficient to yield the debt service coverage required by the 2024 Contract, no assurance can be given that the cost of compliance with such laws and regulations will not materially adversely affect the ability of the City to generate Net System Revenues in the amounts required by the 2024 Contract and to pay debt service on the 2024 Bonds. Higher regulatory standards could materially increase the cost to the City of providing wastewater services.

Climate Change

The adoption by the State of the California Global Warming Solutions Act of 2006 (AB 32) and subsequent companion bills demonstrate the commitment by the State to take action and reduce greenhouse gases ("GHG") to 1990 levels by 2020 and 80% below 1990 levels by 2050. The State Attorney General's Office, in accordance with SB 375, now requires that local governments examine local policies and large-scale planning efforts to determine how to reduce greenhouse gas emissions. Additionally, in 2006, the State adopted Senate Bill No. 32, which established a revised Statewide GHG emission reduction target of 40% below 1990 levels by 2030.

Following the adoption of its 2035 General Plan, which outlined development goals and stipulations for the reduction of City-wide GHG emissions, the City was sued by the Sierra Club alleging that the City had violated CEQA in approving the 2035 General Plan. In order to avoid further litigation, in October 2008, the City entered into a settlement agreement with the Sierra Club and the Attorney General, who also raised concerns about the adequacy of the EIR under CEQA, including but not limited to the failure of the EIR to incorporate enforceable measures to mitigate GHG emission impacts that would result for the adoption of the 2035 General Plan. The settlement agreement required the City to address GHG reductions in a variety of ways, including through the preparation of a Climate Action Plan (discussed below) and programs to support the development of 18,400 new housing units within the City as it existed in 2008 with at least 4,400 of those units located within the greater downtown area. As a result, the City enacted the *Envision Stockton 2040 General Plan* (the “2040 General Plan”) on December 4, 2018. The 2040 General Plan represents substantial changes in policy framework for future development in the City compared to the 2035 General Plan, with a fundamental shift from emphasizing growth in “outfill” areas on the periphery of the City to focusing new construction and redevelopment in existing “infill” neighborhoods. A copy of the 2040 General Plan is available on the City’s website.

During the development of its Climate Action Plan (a “CAP”), the City evaluated the effect of the State’s reduction measures and evaluated a wide range of potential local GHG reduction measures to examine the feasibility, cost, and benefits of potentially meeting the interim reduction target. Although technically feasible to meet the interim reduction target, it was City’s judgment that meeting the target would require some measures or actions that were infeasible under then-current economic conditions in the City, would result in short- and near-term financial impacts that could affect economic recovery in the City, and would affect the ability of the City to invest in energy efficiency and other GHG reduction strategies in the long run.

The City designed the CAP to rely, for the most part, on voluntary, incentive-based measures for existing development, flexible performance-based measures for new development, and only uses mandatory measures for new development where required by prior State or local mandates (such as for water conservation) or where advantageous to the City. By providing flexibility, the intent is that the City government, residences, and businesses would employ the most cost-effective methods to reduce GHG emissions.

The City approved a CAP on December 2, 2014 that includes an interim GHG emissions reduction goal for the purposes of initial CAP development of 15% below 2005 levels by 2020, and the City certified the Final EIR for the *Envision Stockton 2040 General Plan* on December 4, 2018.

Climate change concerns are leading to new laws and regulations at the federal, State and local levels. Research suggests that the State will experience hotter and drier conditions, reductions in winter snow and increases in winter rains, sea level rise, significant changes to the water cycle, increased occurrences of extreme and unpredictable weather events, and increased catastrophic wildfires and severity of flood events. The compound impacts of which will affect economic systems throughout the State, including within the City. The City is unable to predict the impact that such laws and regulations, if adopted, and the effects of climate change will have on the Net System Revenues, however, the effects could be material.

Risk of Earthquake and Other Natural Disasters

Earthquake. There are several active geological faults in the State that have potential to cause serious earthquakes that could result in damage within the City to the Wastewater System, buildings, roads, bridges, and other property. The City is located in a zone 3 seismic area. Seismic zones aid in identifying and characterizing certain geological conditions and the risk of seismic damage at a particular location, and are used in establishing building codes to minimize seismic damage. The five seismic zones are: zone 0 (no measurable damage), zone 1 (minor damage), zone 2 (moderate damage), zone 3 (major damage) and zone 4 (major damage and greater proximity than zone 3 to certain major fault systems). While the City is not located in any existing special study zone delineated by the State Division of Mines and Geology as an area of known active faults, it is possible that new geological faults could be discovered in the area and that an earthquake occurring on such faults could result

in damage of varying degrees of seriousness to property and infrastructure in the City, including the Wastewater System.

In the event of a severe seismic event in or around the City, there could be substantial damage to the Wastewater System facilities resulting in a reduction of Net System Revenues. Such reduction of Net System Revenues could have a material adverse effect on the City's ability to make timely payments of 2024 Installment Payments with respect to the 2024 Bonds.

Flooding. *[City to review and provide updates as necessary]* In accordance with the National Flood Insurance Reform Act (the "NFIRA") requiring, among other things, that the Federal Emergency Management Agency ("FEMA") assess its flood hazard map inventory at least once every five years. In 1995, FEMA informed the City that updated flood insurance rate maps would be prepared. In the absence of the construction of flood improvements, FEMA indicated that all of metropolitan Stockton and the surrounding County areas would be located within the boundaries of a 100-year floodplain. A 100-year floodplain is an area expected to be inundated during a flood event of the magnitude for which there is a 1% (or 1-in-100) probability of occurrence in any year.

In May 1995, the City, the County, and the San Joaquin County Flood Control and Water Conservation District formed the San Joaquin Area Flood Control Agency ("SJAFCA"), a joint powers authority, for the purpose of addressing flood protection for the City and surrounding County areas.

In the aftermath of Hurricane Katrina in August 2005, FEMA implemented a Flood Map Modernization program to update existing flood insurance rate maps ("FIRMs"), policies, regulations and procedures. In particular, FEMA placed a high priority on reviewing, identifying and accrediting levees and levee systems nationwide to verify whether such levees and levee systems provide flood protection. To assure that levees shown on modernized FIRMs still provide that level of protection, FEMA requires that each levee in the country have a maintenance and operation plan.

In October 2007, the Governor signed into law Senate Bill 5 ("SB 5") requiring urban areas in the Central Valley to reach a 200-year level of protection by 2025. SB 5 and a subsequent cleanup bill, Senate Bill 1278, require local city and county planning agencies in the Central Valley including Stockton, to amend their General Plans by July 2, 2015 and to subsequently amend their zoning ordinances by July 2, 2016 to include specific information and requirements for new development, located within a flood hazard zone, to have 200-year flood protection. On June 15, 2015, the City Council adopted a resolution amending the City's General Plan to comply with SB 5. The amendments included, among other things, modifications to existing and adoption of new goals, policies, and measures to strengthen the relationship between land use planning decisions and consideration of potential floodplain hazards, siting of new development, and retrofitting of existing development. The effect of complying with SB 5 on new development within the City has been insignificant. In 2005 voters approved State propositions 1E and 84 making available \$5 billion for flood management. After the passage of propositions 1E and 84 the State Department of Water Resources has spent millions of dollars to evaluate levees and support existing and future projects to reach a 200-year level of flood protection for urban communities in the County including the City.

FEMA completed inspection of the levees in the County and final FIRMs became effective in 2009, placing approximately 5,000 parcels in a 100-year floodplain and decertifying Smith Canal.

Smith Canal, a man-made backwater slough of the San Joaquin River adjacent to the Sacramento-San Joaquin Delta (the "Delta") located in the County, has levees that are heavily encroached upon and are not eligible to be certified as meeting either the current FEMA standards or the State's Levee Design Criteria.

In April 2017, SJAFCA partnered with Reclamation District 1614 and Reclamation District 828 to process a Conditional Letter of Map Revision with FEMA, the purpose of which was to determine an appropriate solution to protect areas affected by Smith Canal levee decertification and FEMA re-mapping. As part of that

effort, SJAFCA developed several conceptual approaches to providing at least a 100- year level of flood protection to those areas. On January 13, 2011, FEMA concluded that a solution proposed by SJAFCA and its partners, a gate structure at the mouth of Smith Canal, if constructed, would provide at least 100-year flood protection and warrant a revision in the FIRM.

On July 18, 2019, the SJAFCA Board of Directors approved the issuance of not to exceed \$25 million to construct and maintain various flood control improvements, including a gate structure at the mouth of Smith Canal to regulate flows from the Delta, that are designed to provide protection to property within an assessment district known generally as the Smith Canal Flood Control Gate. This assessment district encompasses 8,099 parcels, including the approximately 5,000 affected parcels. SJAFCA expects to commence construction of this project during the first quarter of calendar year 2020 and complete construction in summer 2022.

The City makes no representation that the construction of the SJAFCA project will guaranty that FEMA will not issue revised FIRMs in the future that place all or some of the City within the boundaries of a 100-year floodplain.

As required under SB 5, the Cities of Lathrop and Manteca and Reclamation District 17 prepared an Adequate Progress Report for Urban Level of Protection (an “APR”) for the Mossdale Tract area in June 2016. The APR served as a strategic plan describing and outlining the steps to be taken to generate the local funding necessary to advance and ultimately implement 200-year levee improvements in accordance with the requirements of SB 5. The APR described several aspects including: the requirements set forth by SB 5 and the Urban Level of Flood Protection (a “ULOP”); the requirements of the Cities of Lathrop and Manteca and Reclamation District 17 in making findings related to Adequate Progress toward a ULOP, and, more specifically; the approach the Cities of Lathrop and Manteca Reclamation District 17 in the Mossdale Tract Area were taking with respect to compliance with the guidance provided by the California Department of Water Resource in support of their maintenance of findings of Adequate Progress, as defined in the 2007 California Flood Legislation (Government Code sections 65007).

Effective January 1, 2018, members of SJAFCA amended and restated the joint exercise of powers agreement forming SJAFCA to include the Cities of Lathrop and Manteca as members. This was done to achieve an ULOP for portions of the Mossdale Tract area that encompasses areas within the jurisdictions, as amended, of each of the members of SJAFCA. The City, the Cities of Lathrop and Manteca, and the County, acting through SJAFCA, are working to comply with the SB5 requirements to establish 200-year level of flood protection within the urban areas planned for development.

Adequate progress to achieve ULOP was last documented in 2019 with the submittal by SJAFCA of the APR to the Central Valley Flood Control Board. The APR provided further details regarding continued progress toward achieving ULOP by 2025.

SJAFCA’s plan for flood protection through 2025 is an approximately \$210 million project consisting of: (i) the Mossdale Tract Levee Seepage Repair Project, and (ii) SJAFCA Levee Improvements.

In areas of the City that are outside of the Mossdale Tract in which development is planned, developer driven SB 5 levee improvements have been completed or are planned. SJAFCA is also working with the United States Army Corps of Engineers under Congressional authorization on completing approximately \$1.1 billion in levee repairs and seepage improvements (as described in a Lower San Joaquin Feasibility Study). This project will be installed along the western edge and interior areas of the City beginning at French Camp Slough in the south, north to Mosher Slough.

The Stockton RWCF is located in an area of the City that is protected by levees providing

100-year level of flood protection. However, the City makes no representation that such levees will be sufficient to protect the Stockton RWCF from all flood events in the future.

Other Natural Disasters. The occurrence of any other natural disaster or changes in natural conditions in or around the service area of the City, including, without limitation, fires (including wildfires), landslides, land subsidence, high winds, drought or other natural disasters could interrupt operation of the Wastewater System, or adversely affect economic activity in the City’s service area.

The State has historically been susceptible to wildfires and hydrologic variability. Portions of the Wastewater System are may be at risk of damage from wildfires. Since 2017, California has experienced numerous major wildfires which caused significant property damage throughout the State.

There can be no assurance that the occurrence of any natural calamity would not cause substantial damage to the Wastewater System facilities, including exacerbated infiltration and/or inflow of ground and other waters into the wastewater system, or that the Wastewater System would have insurance or other resources available to make repairs in order to resume normal operations and generate sufficient Net Revenues to pay debt service on the 2024 Bonds when due. The insurance coverage maintained by the Wastewater System may not cover damages and losses to the Wastewater System’s facilities due to earthquake, fire or flood.

Future Parity Obligations

As described in “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Additional Parity Obligations” above, the City has \$[] outstanding Parity Obligations, and the 2024 Contract permits the City to issue or create additional Parity Obligations that would be payable on parity with the payment of the 2024 Installment Payments. See also “INTRODUCTION – Outstanding and Additional Parity and Subordinate Obligations” herein.

The coverage tests described in “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Rate Covenant” and “ – Additional Parity Obligations” involve, to some extent, projections of revenues. If Parity Obligations are issued, the debt service coverage for the 2024 Bonds could be diluted below what it otherwise would be. Moreover, there is no assurance that the assumptions that form the basis of such projections, if any, will be actually realized subsequent to the date of such projections. If such assumptions are not realized, the amount of future net revenues may be less than projected, and the actual amount of revenues may be insufficient to provide for the payment of the 2024 Bonds and any future Parity Obligations.

Risk Management and Insurance

The Deputy Director of Human Resources of the City serves as the City’s Risk Manager, who oversees City personnel that handle claims and loss control activities, for the prevention and mitigation of property, liability, and employee claims for injury or damage. The City has maintained a program of self-insurance for many years. The City participates in two public entity insurance risk pools: the California Joint Powers Risk Management Authority (“CJPRMA”) and the California State Association of Counties-Excess Insurance Authority (CSAC-EIA) for various risk pooling and financing. For Fiscal Year 2023-24, excess pooled coverage for the self-insured general liability program is provided through the CJPRMA with an excess policy limit of \$[] subject to a self-insured retention (SIR) of \$[]; auto damage coverage is provided through Alliant Insurance Company and has a policy deductible of \$[] per claim; and property coverage is provided through an insured program with CJPRMA with a deductible of \$[] per occurrence (excluding earthquake damage to any of its facilities). For Fiscal Year 2023-24, excess pooled coverage for the self-insured workers’ compensation program is provided through CSAC-EIA with statutory limits subject to a \$[] SIR.

Limitations on Remedies

The ability of the City to comply with its covenants under the 2024 Contract and to generate Net System Revenues sufficient to pay principal of and interest with respect to the 2024 Bonds may be adversely affected by actions and events outside of the control of the City and may be adversely affected by actions taken (or not

taken) by voters, property owners, taxpayers or persons obligated to pay assessments, fees and charges. See “CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAX AND APPROPRIATIONS” herein. Furthermore, the remedies available to the owners of the 2024 Bonds upon the occurrence of an event of default under the 2024 Contract are in many respects dependent upon judicial actions which are often subject to discretion and delay and could prove both expensive and time consuming to obtain. See also “– No Acceleration of 2024 Bonds or 2024 Installment Payments.”

In addition, equity principles may limit the specific enforcement under state law of certain remedies; the exercise by the United States of America of the powers delegated to it by the Federal constitution; and the reasonable and necessary exercise, in certain exceptional situations, of the police power inherent in the sovereignty of the State of California and its governmental bodies in the interest of serving a significant and legitimate public purpose. Bankruptcy proceedings, or the exercise of powers by the federal or state government, if initiated, could subject the Owners of the 2024 Bonds to judicial discretion and interpretation of their rights in bankruptcy or otherwise, and consequently may entail risks of delay, limitations, or modification of their rights.

In addition to the limitations on remedies contained in the 2024 Contract, the rights and obligations under the 2024 Contract may be subject to bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors’ rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to limitations on legal remedies against cities in the State of California. The opinion to be delivered by Bond Counsel, concurrently with the issuance of the 2024 Bonds, will be subject to such limitations and the various other legal opinions to be delivered concurrently with the issuance of the 2024 Bonds will be similarly qualified. See APPENDIX F – “PROPOSED FORM OF BOND COUNSEL OPINION” attached hereto. In the event the City fails to comply with its covenants under the 2024 Contract or the Authority fails to pay principal of and interest on the 2024 Bonds, there can be no assurance of the availability of remedies adequate to protect the interest of the holders of the 2024 Bonds.

Investment of Funds

All moneys in any of the funds or accounts established with the Trustee under the 2024 Indenture will be invested by the Trustee solely in Permitted Investments as provided under the 2024 Indenture. See APPENDIX C – “SUMMARY OF CERTAIN PROVISIONS OF THE PRINCIPAL LEGAL DOCUMENTS” attached hereto for a summary of the definition of Permitted Investments. See also APPENDIX B – “AUDITED FINANCIAL STATEMENTS OF THE CITY OF STOCKTON FOR THE FISCAL YEAR ENDED JUNE 30, 2023.” All investments, including the Permitted Investments and those authorized by law from time to time for investments by public agencies contain a certain degree of risk. Such risks include, but are not limited to, a lower rate of return than expected, loss of market value and loss or delayed receipt of principal. The occurrence of these events with respect to amounts held under the 2024 Indenture or by the City could have a material adverse effect on the ability to pay debt service on the 2024 Bonds.

Cybersecurity

The City and the Wastewater System, like many other public and private entities, rely on computer and other digital technology and systems to conduct its operations. The City and its departments, including the Wastewater System, are potentially subject to multiple cyber threats including, but not limited to, hacking, viruses, malware, ransomware, and other attacks on computers and other sensitive digital networks and systems. Entities or individuals may attempt to gain unauthorized access to City systems for the purposes of misappropriating assets or information or causing operational disruption or damage. The City has adopted security awareness training, incident response reporting protocols, and security policies, which are reviewed annually, to identify potential vulnerabilities and proactively mitigate them. The City maintains insurance coverage for cyber threat losses if a successful breach occurs, however, the City makes no representation that such insurance would be sufficient to cover all losses in the event of a material and sustained cyber breach.

There have been, however, only limited cyber-attacks on the computer systems of the City and the Wastewater System

No assurances can be given that the security and operational control measures of the City and the Wastewater System will be successful in guarding against any and each cyber threat and attack. The results of any attack on the computer and information technology systems of the City could have a material adverse impact on the operations and finances of the City and the Wastewater System and damage the digital networks and systems. The resulting impacts on the operations of the City and of the Wastewater System and the costs of remedying any such damage could be material and result in a delay of payments on the 2024 Bonds or the ability of the City to comply with its reporting obligations under the Continuing Disclosure Certificate.

Loss of Tax Exemption on the 2024 Bonds

In order to maintain the exclusion from gross income for federal income tax purposes of the interest on the 2024 Bonds, the City and the Authority have covenanted in the 2024 Contract to comply with the applicable requirements of the Internal Revenue Code of 1986, as amended. The interest on the 2024 Bonds could become includable in gross income for purposes of federal income taxation retroactive to the date of issuance of such 2024 Bonds as a result of acts or omissions of the City or the Authority in violation of this or other covenants in the 2024 Contract applicable to the 2024 Bonds. The 2024 Bonds are not subject to redemption or any increase in interest rates should an event of taxability occur and will remain outstanding until maturity or prior redemption in accordance with the provisions contained in the 2024 Contract. See “TAX MATTERS” herein.

Risk of Tax Audit

The Tax Exempt and Government Entities Division (the “TE/GE Division”) of the Internal Revenue Service (the “IRS”) has a subdivision that is specifically devoted to tax-exempt bond compliance. There is no assurance that if an IRS examination of the 2024 Bonds was undertaken that it would not adversely affect the market value of the 2024 Bonds. See “TAX MATTERS” herein.

Secondary Market

There can be no guarantee that there will be a secondary market for the 2024 Bonds or, if a secondary market exists, that the 2024 Bonds can be sold for any particular price. Occasionally, because of general market conditions or because of adverse history or economic prospects connected with a particular issue, secondary marketing practices are suspended or terminated. Additionally, prices of issues for which a market is being made will depend upon then prevailing circumstances. Such prices could be substantially different from the original purchase price.

Bankruptcy

The Wastewater System, being an enterprise department of the City, likely cannot itself file for bankruptcy. While an involuntary bankruptcy petition cannot be filed against the City, the City is authorized to file for bankruptcy under certain circumstances. Should the City file for bankruptcy, there could be adverse effects on the holders of the 2024 Bonds.

To the extent that Revenues are “special revenues” under the United States Bankruptcy Code (the “Bankruptcy Code”), then Revenues collected after the date of the bankruptcy filing should be subject to the lien of the 2024 Indenture. If any or all of the Revenues are determined not to be “special revenues,” then any such amounts collected after the commencement of the bankruptcy case will likely not be subject to the lien of the 2024 Indenture. The holders of the 2024 Bonds may not be able to assert a claim against any property of the City other than the Net System Revenues, and if any or all of the Revenues are no longer subject to the lien of the Indenture, then there may be limited, if any, funds from which the holders of the 2024 Bonds are entitled to be paid.

The Bankruptcy Code provides that “special revenues” can be applied to necessary operating expenses of the project or system, before they are applied to other obligations. This rule applies regardless of the provisions of the transaction documents. It is not clear precisely which expenses would constitute necessary operating expenses, and any definition in the transaction documents may not be applicable.

If the City is in bankruptcy, the parties (including the Trustee and the holders of the 2024 Bonds) may be prohibited from taking any action to collect any amount from the City or to enforce any obligation of the City, unless the permission of the bankruptcy court is obtained. These restrictions may also prevent the Trustee from making payments to the holders of the 2024 Bonds from funds in the Trustee’s possession. The rate covenants (see “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS – Rate Covenant” herein) may not be enforceable in bankruptcy by the Trustee or the holders of the 2024 Bonds.

Revenues are deposited with and in the City Treasury and may be commingled with other City funds. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS” herein. If the City goes into bankruptcy, the City may not be required to turn over to the Trustee any Revenues that are in its possession at the time of the bankruptcy filing. In addition, if the City has possession of Revenues (whether collected before or after commencement of the bankruptcy) and if the City does not voluntarily turn over such Revenues to the Trustee, it is not clear what procedures the Trustee and the holders of the 2024 Bonds would have to follow to attempt to obtain possession of such Revenues, how much time it would take for such procedures to be completed, or whether such procedures would ultimately be successful.

The City may be able to borrow additional money that is secured by a lien on any of its property (including the Revenues), which lien could have priority over the lien of the Indenture, or to cause some of the Revenues to be released to it, free and clear of lien of the Indenture, in each case as long as the bankruptcy court determines that the rights of the Trustee and the holders of the 2024 Bonds will be adequately protected.

If the City is in bankruptcy it may be able, without the consent and over the objection of the Trustee and the holders of the 2024 Bonds, to alter the priority, interest rate, principal amount, payment terms, collateral, maturity dates, payment sources, covenants (including tax-related covenants), and other terms or provisions of the Indenture and the 2024 Bonds, as long as the bankruptcy court determines that the alterations are fair and equitable.

There may be delays in payments on the 2024 Bonds while the court considers any of these issues. There may be other possible effects of a bankruptcy of the City that could result in delays or reductions in payments on the 2024 Bonds, or result in losses to the holders of the 2024 Bonds. Regardless of any specific adverse determinations in a City bankruptcy proceeding, the fact of a City bankruptcy proceeding could have an adverse effect on the liquidity and value of the 2024 Bonds.

The City declared bankruptcy on July 18, 2012 and emerged from bankruptcy on February 25, 2015 when the City’s plan of adjustment became effective. Throughout its bankruptcy case, the City maintained that revenues of the Wastewater System qualified as “special revenues” under the United States Bankruptcy Code, and no creditor or party in interest argued otherwise. As a result, all revenues attributable to the Wastewater System were available solely for Wastewater System operations. At no point were revenues of the Wastewater System diverted to fund general fund operations; nor did the general fund borrow funds from the Wastewater System.

Public Health Emergencies

The City and the Wastewater System’s finances and operations are exposed to risks from public health events and concerns, including the occurrence of epidemics or pandemics, such as the COVID-19 pandemic. Although the federal COVID-19 public health emergency declaration ended on May 11, 2023, the economy of the City, the State, as well as national and global economies, were profoundly affected by the COVID-19 pandemic. The Wastewater System’s finances have generally not been materially and adversely impacted by the

COVID-19 pandemic; however, because of its evolving nature and the uncertainty of its duration, the cumulative impact of the crisis on the Wastewater System's financial condition and operations cannot be fully determined at this time. Future public health events, alone or in combination with other events or circumstances, could have material adverse impacts on City's economy and the City and Wastewater System's finances and operations.

Bond Insurance

In the event of default of the payment of the scheduled principal or interest with respect to the 2024 Bonds when all or some becomes due, the Trustee on behalf of any owner of the 2024 Bonds shall have a claim under the Policy for such payments. The Policy does not insure redemption premium, if any. The payment of principal and interest in connection with optional prepayment of the 2024 Bonds which is recovered from the bond owner as a voidable preference under applicable bankruptcy law is covered by the insurance policy, however, such payments will be made by the Insurer at such time and in such amounts as would have been due absent such prepayment unless the Insurer chooses to pay such amounts at an earlier date.

Under most circumstances, default of payment of principal and interest does not obligate acceleration of the obligations of the Insurer without appropriate consent. The Insurer may direct and must consent to any remedies with respect to the 2024 Bonds and the Insurer's consent may be required in connection with amendments to any applicable documents relating to the 2024 Bonds.

In the event the Insurer is unable to make payment of principal and interest as such payments become due under the Policy, the 2024 Bonds are payable solely from the Revenues as provided in the 2024 Indenture. In the event the Insurer becomes obligated to make payments with respect to the 2024 Bonds, no assurance is given that such event will not adversely affect the market price of the 2024 Bonds or the marketability (liquidity) for the 2024 Bonds.

The long-term ratings on the 2024 Bonds are dependent in part on the financial strength of the Insurer and its claims paying ability. The Insurer's financial strength and claims paying ability are predicated upon a number of factors which could change over time. No assurance is given that the long-term ratings of the Insurer and of the ratings on the 2024 Bonds will not be subject to downgrade and such event could adversely affect the market price of the 2024 Bonds or the marketability (liquidity) for the 2024 Bonds. See "RATINGS" herein.

The obligations of the Insurer are unsecured contractual obligations and in an event of default by the Insurer, the remedies available may be limited by applicable bankruptcy law or state law related to insolvency of insurance companies.

None of the Authority, the City or the underwriters has made independent investigation into the claims paying ability of the Insurer and no assurance or representation regarding the financial strength or projected financial strength of the Insurer is given. Thus, when making an investment decision, potential investors should carefully consider the ability of the Authority to pay principal and interest on the 2024 Bonds from the Revenues as provided in the 2024 Indenture and the claims paying ability of the Insurer, particularly over the life of the investment. See "BOND INSURANCE" herein for further information regarding the Insurer and the Policy, which includes further instructions for obtaining current financial information concerning the Insurer.

CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND APPROPRIATIONS

Described below are certain measures which have impacted or may in the future impact Net System Revenues.

Taxing and Spending Limitations

The taxing powers of public agencies in the State are limited by Article XIII A of the California Constitution, added by an initiative amendment approved by the voters on June 6, 1978, and commonly known as Proposition 13.

Article XIII A limits the maximum ad valorem tax on real property to 1% of “full cash value,” which is defined as “the County Assessor’s valuation of real property as shown on the Fiscal Year 1975-76 tax bill under ‘full cash value’ or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment.” The full cash value may be adjusted annually to reflect inflation at a rate not to exceed 2% per year, or reduction in the consumer price index or comparable local data, or declining property value caused by damage, destruction, or other factors.

The tax rate limitation referred to above does not apply to ad valorem taxes to pay the debt service on any indebtedness approved by the voters before July 1, 1978, or on any bonded indebtedness for the acquisition or improvement of real property approved by two-thirds of the votes cast by the voters voting on the proposition.

Under the terms of Article XIII A and pursuant to an allocation system created by implementing legislation, each county is required to levy the maximum ad valorem tax permitted by Article XIII A and to distribute the proceeds to local agencies.

Assessed valuation growth allowed under Article XIII A (new construction, change of ownership and up to 2% annual value growth) is allocated among the jurisdictions that serve the tax rate area within which the growth occurs. Local agencies and schools share the growth of base revenues from the tax rate area. Each year’s growth allocation becomes part of each agency’s allocation in the following year. The availability of revenues from tax bases to such entities may be affected by the existence of certain successor agencies to former redevelopment agencies that, under certain circumstances, may be entitled to such revenues resulting from the upgrading of certain property values.

Under State law, any fee that exceeds the reasonable cost of providing the service for which the fee is charged may be considered a “special tax” that must be authorized by a two thirds vote of the electorate. Accordingly, if a portion of the City’s wastewater user rates or capacity charges were determined by a court to exceed the reasonable cost of providing service, the City might not be permitted to continue to collect that portion unless it were authorized to do so by a two-thirds majority of the votes cast in an election to authorize the collection of that portion of the rates or fees. If the City were unable to obtain such a two-thirds majority vote and were unable to reduce costs, such failure could adversely affect the City’s ability to pay the debt service on the 2024 Bonds.

The United States Supreme Court has upheld Article XIII A against a challenge alleging violation of equal protection under the Fourteenth Amendment to the United States Constitution.

Proposition 218

General. Proposition 218, a State ballot initiative known as the “Right to Vote on Taxes Act,” was approved by California voters on November 5, 1996. The initiative added Articles XIII C and XIII D to the California Constitution, creating additional requirements for the imposition by most local governments of “general taxes,” “special taxes,” “assessments,” “fees,” and “charges.” Articles XIII C and XIII D became effective, pursuant to their terms, as of November 6, 1996, although compliance with some of the provisions was deferred until July 1, 1997, and certain of the provisions purport to apply to any tax imposed for general governmental purposes (i.e., “general taxes”) imposed, extended or increased on or after January 1, 1995 and prior to November 6, 1996.

Article XIIID imposes substantive and procedural requirements on the imposition, extension or increase of any “fee” or “charge” subject to its provisions. A “fee” or “charge” subject to Article XIIID includes any levy, other than an ad valorem tax, special tax or assessment, imposed by an agency upon a parcel or upon a person as an incident of property ownership. Article XIIID prohibits, among other things, the imposition of any proposed fee or charge, and, possibly, the increase of any existing fee or charge, in the event written protests against the proposed fee or charge are presented at a required public hearing on the fee or charge by a majority of owners of the parcels upon which the fee or charge is to be imposed. Except for fees and charges for water, sewer and refuse collection services, the approval of a majority of the property owners subject to the fee or charge, or at the option of the agency, by a two-thirds vote of the electorate residing in the affected area, is required not less than 45 days following the public hearing on any such proposed new or increased fee or charge.

Judicial Interpretation. The California Supreme Court decisions in *Richmond v. Shasta Community Services District*, 32 Cal. 4th 409 (2004) (“Richmond”), and *Bighorn-Desert View Water Agency v. Verjil*, 39 Cal. 4th 206 (2006) (“Bighorn”) have clarified uncertainty surrounding the applicability of Section 6 of Article XIIID to service fees and charges. In *Richmond*, the Shasta Community Services District charged a water connection fee, which included a capacity charge for capital improvements to the water system and a fire suppression charge. The Court held that both the capacity charge and the fire suppression charge were not subject to Article XIIID because a water connection fee is not a property-related fee or charge because it results from the property owner’s voluntary decision to apply for the connection. In both *Richmond* and *Bighorn*, however, the Court stated that a fee for ongoing water service through an existing connection is imposed “as an incident of property ownership” within the meaning of Article XIIID, rejecting, in *Bighorn*, the water agency’s argument that consumption-based water charges are not imposed “as an incident of property ownership” but as a result of the voluntary decisions of customers as to how much water to use.

Article XIIC extends the people’s initiative power to reduce or repeal previously authorized local taxes, assessments, fees and charges. This extension of the initiative power is not limited by the terms of Article XIIC to fees, taxes, assessment fees and charges imposed after November 6, 1996 and absent other authority could result in retroactive reduction in any existing taxes, assessments, fees or charges. In *Bighorn*, the Court concluded that under Article XIIC local voters by initiative may reduce a public agency’s water rates and delivery charges. The Court noted, however, that it was not holding that the authorized initiative power is free of all limitations, stating that it was not determining whether the electorate’s initiative power is subject to the public agency’s statutory obligation to set water service charges at a level that will “pay the operating expenses of the agency, ... provide for repairs and depreciation of works, provide a reasonable surplus for improvements, extensions, and enlargements, pay the interest on any bonded debt, and provide a sinking or other fund for the payment of the principal of such debt as it may become due.”

Article XIIID imposes the substantive requirement that any wastewater charges may not exceed the proportional cost of providing service to customers. The Fourth District of the California Court of Appeal decision in *Capistrano Taxpayers Association, Inc. v. City of San Juan Capistrano*, 235 Cal.App.4th 1493 (2015), clarified that tiered rate structures are compatible with the cost of service limitations of Article XIIID when each tier structure is supported by cost of service calculations. The court held that San Juan Capistrano’s water rates violated Article XIIID because no evidence in the record adequately showed that each tier corresponded to the cost of providing service at a given level of usage.

City’s Wastewater Rates and Charges. The City’s current sewer rates were adopted by resolution of the City Council on May 21, 2019, following notice to property owners and a public hearing held at least 45 days after the notice had been mailed, in compliance with Articles XIII C and XIII D.

Further, the City believes the Wastewater System rates and charges, respectively, do not constitute “taxes” under Article XIII C as revised by Proposition 26 because, as described in subsection 1(e)(7) of Article XIII C, they are “property-related fees imposed in accordance with the provisions of Article XIII D” (and are also charges for a “property-related service” as defined in subsection 2(g) of Article XIII D) and because, as

described in subsection 1(e)(2) of Article XIII C, they are charged for sewer service, “a specific government service or product provided directly to the payor that is not provided to those not charged.”

The City believes that it has complied with the required procedures in connection with its approved rate increases.

Conclusion. It is not possible to predict how courts will further interpret Proposition 218 in future judicial decisions, and what, if any, further implementing legislation will be enacted. Under the Bighorn case, local voters could adopt an initiative measure that reduces or repeals the rates and charges of the City, though it is not clear whether (and California courts have not decided whether) any such reduction or repeal by initiative would be enforceable in a situation in which such rates and charges are pledged to the repayment of bonds or other indebtedness, as is the case with respect to the 2024 Bonds. There can be no assurance that the courts will not further interpret, or the voters will not amend, Article XIII C and Article XIII D to limit the ability of local agencies to impose, levy, charge and collect increased fees and charges for wastewater services, or to call into question previously adopted wastewater services rate increases.

Proposition 26

Proposition 26, which amended Article XIII A and XIII C of the California Constitution, was approved by the electorate at the November 2, 2010 election. Proposition 26 imposes a two thirds voter approval requirement for the imposition of fees and charges by the State. It also imposes a majority voter approval requirement on local governments with respect to fees and charges for general purposes, and a two thirds voter approval requirement with respect to fees and charges for special purposes. According to its supporters, Proposition 26 was designed to prevent the circumvention of tax limitations imposed by the voters pursuant to Proposition 13, approved in 1978, Proposition 218, and other measures through the use of non tax fees and charges.

Proposition 26 expressly excludes from its scope “a charge imposed for a specific government service or product provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable cost to the governmental entity of providing the service or product to the payor” and “assessments and property related fees imposed in accordance with the provisions of Article XIII D.” The California Supreme Court has held that a fee for ongoing water service through an existing connection is imposed “as an incident of property ownership” within the meaning of Article XIII D. See “– Proposition 218” above.

The City can give no assurance that the courts will not further interpret, or the voters will not amend, the California Constitution to limit the ability of local agencies to impose, levy, charge, and collect increased fees and charges for wastewater service.

TAX MATTERS

Opinion of Bond Counsel

In the opinion of Hawkins Delafield & Wood LLP, Bond Counsel, under existing statutes and court decisions and assuming continuing compliance with certain tax covenants described herein, (i) interest on the 2024 Bonds is excluded from gross income for federal income tax purposes pursuant to Section 103 of the Internal Revenue Code of 1986, as amended (the “Code”) and (ii) interest on the 2024 Bonds is not treated as a preference item in calculating the alternative minimum tax under the Code, however, interest on the 2024 Bonds is included in the “adjusted financial statement income” of certain corporations that are subject to the alternative minimum tax under Section 55 of the Code. In rendering its opinion, Bond Counsel has relied on certain representations, certifications of fact, and statements of reasonable expectations made by the Authority and the City in connection with the 2024 Bonds, and Bond Counsel has assumed compliance by the Authority and the City with certain ongoing covenants to comply with applicable requirements of the Code to assure the exclusion of interest on the 2024 Bonds from gross income under Section 103 of the Code.

In addition, in the opinion of Bond Counsel, under existing statutes, interest on the 2024 Bonds is exempt from State of California personal income taxes.

Bond Counsel expresses no opinion as to any other federal, state or local tax consequences arising with respect to the 2024 Bonds, or the ownership or disposition thereof, except as stated above. Bond Counsel renders its opinion under existing statutes and court decisions as of the issue date, and assumes no obligation to update, revise or supplement its opinion to reflect any action thereafter taken or not taken, any fact or circumstance that may thereafter come to its attention, any change in law or interpretation thereof that may thereafter occur, or for any other reason. Bond Counsel expresses no opinion as to the consequence of any of the events described in the preceding sentence or the likelihood of their occurrence. In addition, Bond Counsel expresses no opinion on the effect of any action taken or not taken in reliance upon an opinion of other counsel regarding federal, state or local tax matters, including, without limitation, exclusion from gross income for federal income tax purposes of interest on the 2024 Bonds.

Certain Ongoing Federal Tax Requirements and Covenants

The Code establishes certain ongoing requirements that must be met subsequent to the issuance and delivery of the 2024 Bonds in order that interest on the 2024 Bonds be and remain excluded from gross income under Section 103 of the Code. These requirements include, but are not limited to, requirements relating to use and expenditure of gross proceeds of the 2024 Bonds, yield and other restrictions on investments of gross proceeds, and the arbitrage rebate requirement that certain excess earnings on gross proceeds be rebated to the federal government. Noncompliance with such requirements may cause interest on the 2024 Bonds to become included in gross income for federal income tax purposes retroactive to their issue date, irrespective of the date on which such noncompliance occurs or is discovered. The Authority and the City have covenanted to comply with certain applicable requirements of the Code to assure the exclusion of interest on the 2024 Bonds from gross income under Section 103 of the Code.

Certain Collateral Federal Tax Consequences

The following is a brief discussion of certain collateral federal income tax matters with respect to the 2024 Bonds. It does not purport to address all aspects of federal taxation that may be relevant to a particular owner of a 2024 Bond. Prospective investors, particularly those who may be subject to special rules, are advised to consult their own tax advisors regarding the federal tax consequences of owning and disposing of the 2024 Bonds.

Prospective owners of the 2024 Bonds should be aware that the ownership of such obligations may result in collateral federal income tax consequences to various categories of persons, such as corporations (including S corporations and foreign corporations), financial institutions, property and casualty and life insurance companies, individual recipients of Social Security and railroad retirement benefits, individuals otherwise eligible for the earned income tax credit, and taxpayers deemed to have incurred or continued indebtedness to purchase or carry obligations the interest on which is excluded from gross income for federal income tax purposes. Interest on the 2024 Bonds may be taken into account in determining the tax liability of foreign corporations subject to the branch profits tax imposed by Section 884 of the Code.

Original Issue Discount

“Original issue discount” (“OID”) is the excess of the sum of all amounts payable at the stated maturity of a 2024 Bond (excluding certain “qualified stated interest” that is unconditionally payable at least annually at prescribed rates) over the issue price of that maturity. In general, the “issue price” of a maturity (a bond with the same maturity date, interest rate, and credit terms) means the first price at which at least 10 percent of such maturity was sold to the public, i.e., a purchaser who is not, directly or indirectly, a signatory to a written contract to participate in the initial sale of the 2024 Bonds. In general, the issue price for each maturity of 2024 Bonds is expected to be the initial public offering price set forth on the cover page of the Official Statement. Bond

Counsel further is of the opinion that, for any 2024 Bonds having OID (a “Discount Bond”), OID that has accrued and is properly allocable to the owners of the Discount Bonds under Section 1288 of the Code is excludable from gross income for federal income tax purposes to the same extent as other interest on the 2024 Bonds.

In general, under Section 1288 of the Code, OID on a Discount Bond accrues under a constant yield method, based on periodic compounding of interest over prescribed accrual periods using a compounding rate determined by reference to the yield on that Discount Bond. An owner’s adjusted basis in a Discount Bond is increased by accrued OID for purposes of determining gain or loss on sale, exchange, or other disposition of such 2024 Bond. Accrued OID may be taken into account as an increase in the amount of tax-exempt income received or deemed to have been received for purposes of determining various other tax consequences of owning a Discount Bond even though there will not be a corresponding cash payment.

Owners of Discount Bonds should consult their own tax advisors with respect to the treatment of original issue discount for federal income tax purposes, including various special rules relating thereto, and the state and local tax consequences of acquiring, holding, and disposing of Discount Bonds.

Bond Premium

In general, if an owner acquires a bond for a purchase price (excluding accrued interest) or otherwise at a tax basis that reflects a premium over the sum of all amounts payable on the bond after the acquisition date (excluding certain “qualified stated interest” that is unconditionally payable at least annually at prescribed rates), that premium constitutes “bond premium” on that bond (a “Premium Bond”). In general, under Section 171 of the Code, an owner of a Premium Bond must amortize the bond premium over the remaining term of the Premium Bond, based on the owner’s yield over the remaining term of the Premium Bond determined based on constant yield principles (in certain cases involving a Premium Bond callable prior to its stated maturity date, the amortization period and yield may be required to be determined on the basis of an earlier call date that results in the lowest yield on such bond). An owner of a Premium Bond must amortize the bond premium by offsetting the qualified stated interest allocable to each interest accrual period under the owner’s regular method of accounting against the bond premium allocable to that period. In the case of a tax-exempt Premium Bond, if the bond premium allocable to an accrual period exceeds the qualified stated interest allocable to that accrual period, the excess is a nondeductible loss. Under certain circumstances, the owner of a Premium Bond may realize a taxable gain upon disposition of the Premium Bond even though it is sold or redeemed for an amount less than or equal to the owner’s original acquisition cost. Owners of any Premium Bonds should consult their own tax advisors regarding the treatment of bond premium for federal income tax purposes, including various special rules relating thereto, and state and local tax consequences, in connection with the acquisition, ownership, amortization of bond premium on, sale, exchange, or other disposition of Premium Bonds.

Information Reporting and Backup Withholding

Information reporting requirements apply to interest paid on tax-exempt obligations, including the 2024 Bonds. In general, such requirements are satisfied if the interest recipient completes, and provides the payor with, a Form W-9, “Request for Taxpayer Identification Number and Certification,” or if the recipient is one of a limited class of exempt recipients. A recipient not otherwise exempt from information reporting who fails to satisfy the information reporting requirements will be subject to “backup withholding,” which means that the payor is required to deduct and withhold a tax from the interest payment, calculated in the manner set forth in the Code. For the foregoing purpose, a “payor” generally refers to the person or entity from whom a recipient receives its payments of interest or who collects such payments on behalf of the recipient.

If an owner purchasing a 2024 Bond through a brokerage account has executed a Form W-9 in connection with the establishment of such account, as generally can be expected, no backup withholding should occur. In any event, backup withholding does not affect the excludability of the interest on the 2024 Bonds from gross income for federal income tax purposes. Any amounts withheld pursuant to backup withholding would be

allowed as a refund or a credit against the owner's federal income tax once the required information is furnished to the Internal Revenue Service.

Miscellaneous

Tax legislation, administrative actions taken by tax authorities, or court decisions, whether at the federal or state level, may adversely affect the tax-exempt status of interest on the 2024 Bonds under federal or state law or otherwise prevent beneficial owners of the 2024 Bonds from realizing the full current benefit of the tax status of such interest. In addition, such legislation or actions (whether currently proposed, proposed in the future, or enacted) and such decisions could affect the market price or marketability of the 2024 Bonds.

Prospective purchasers of the 2024 Bonds should consult their own tax advisors regarding the foregoing matters.

LEGAL MATTERS

The validity of the 2024 Bonds and certain other legal matters are subject to the approving opinion of Hawkins Delafield & Wood LLP, Bond Counsel. A complete copy of the proposed form of Bond Counsel opinion is contained in APPENDIX F to this Official Statement. Bond Counsel undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement. Hawkins Delafield & Wood LLP is serving as Disclosure Counsel to the City. Certain legal matters will be passed upon for the Authority and the City by the City Attorney. Certain legal matters will be passed upon for the Underwriters by their counsel, Kutak Rock LLP, [and for the Insurer by its general counsel].

ABSENCE OF MATERIAL LITIGATION

The Authority

No litigation is pending with service of process having been accomplished or, to the knowledge of the Authority, threatened, concerning the validity of 2024 Indenture or 2024 Contract.

The City

There is no litigation pending with service of process having been accomplished or, to the knowledge of the City, threatened, questioning the existence of the City, or the title of the offices of the City to their respective offices. Except as otherwise described in this Official Statement, there is no litigation pending or, to the knowledge of the City, threatened, questioning or affecting in any material respect the financial condition of the City's Wastewater System or the validity of the 2024 Bonds, the 2024 Contract, or the 2024 Indenture.

RATINGS

[S&P Global Ratings ("S&P")] and [Fitch Ratings ("Fitch")], has assigned the 2024 Bonds the municipal bond ratings of "[]" and "[]," respectively, with the understanding that upon delivery of the 2024 Bonds, the Policy will be issued by [INSURANCE PROVIDER]. See "BOND INSURANCE" herein and APPENDIX G – "SPECIMEN MUNICIPAL BOND INSURANCE POLICY" attached hereto. [S&P] and [Fitch] have assigned the 2024 Bonds the underlying municipal bond ratings of "[]" and "[]" respectively. A rating reflects only the view of the agency giving such rating and is not a recommendation to buy, sell or hold the 2024 Bonds. An explanation of the significance of each rating may be obtained from the rating agencies. There is no assurance that the ratings will be retained for any given period of time or that the same will not be revised downward or withdrawn entirely by either rating agency if, in its judgment, circumstances so warrant. Any such downward revision or withdrawal of such ratings, or either of them, may have an adverse effect on the market price of the 2024 Bonds.

MUNICIPAL ADVISOR

The Authority has retained Del Rio Advisors, LLC of Modesto, California, as municipal advisor (the “Municipal Advisor”) in connection with the offering of the 2024 Bonds and the preparation of this Official Statement. The Municipal Advisor assisted in the preparation and review of this Official Statement. All financial and other information presented in this Official Statement has been provided by the Authority and the City from their records, except for information expressly attributed to other sources. The Municipal Advisor takes no responsibility for the accuracy or completeness of the data provided by the Authority, the City or others and has not undertaken to make an independent verification or does not assume responsibility for the accuracy, completeness, or fairness of the information contained in this Official Statement. The fee of the Municipal Advisor is contingent upon the successful closing of the 2024 Bonds.

UNDERWRITING

The Underwriters, as identified on the cover of this Official Statement, have agreed to purchase the 2024 Bonds at a purchase price equal to \$ _____, which represents the principal amount of the 2024 Bonds plus a net original issue premium in the amount of \$ _____ and less an underwriters’ discount in the amount of \$ _____. The bond purchase agreement relating to the 2024 Bonds provides that the Underwriters will purchase all of the 2024 Notes if any are purchased, the obligation to make such purchase being subject to certain terms and conditions set forth in said bond purchase agreement, the approval of certain legal matters by counsel and certain other conditions. The Underwriters may offer and sell the 2024 Bonds to certain dealers and others at prices lower than (or yields higher than) the public offering prices (or yields) set forth on the cover page hereof.

VERIFICATION OF MATHEMATICAL COMPUTATIONS

The accuracy of the mathematical computations of the adequacy of the maturing principal of and interest earned on the escrow securities to provide for the payment, when due, of all principal and interest and redemption price with respect to the 2014 Bonds to their redemption date will be verified by [VERIFICATION AGENT] (the “Verification Agent”). The Verification Agent will express no opinion on the assumptions provided to them, nor as to the exemption from taxation of the interest on the Bonds. See “PLAN OF REFUNDING” above.

CONTINUING DISCLOSURE

The Authority has determined that no financial or operating data concerning the Authority is material to an evaluation of the offering of the 2024 Bonds or to any decision to purchase, hold or sell the 2024 Bonds and the Authority will not provide any such information. The City has undertaken all responsibilities for any continuing disclosure to Holders of the 2024 Bonds as described below, and the Authority shall have no liability to the Holders of the 2024 Bonds or any other person with respect to the Rule.

The City has covenanted for the benefit of the Holders of the 2024 Bonds to provide the Annual Report not later than the end of the ninth month following the end of the City’s Fiscal Year (which currently is June 30) commencing with the Annual Report for the 2023-24 Fiscal Year, and to provide notices of the occurrence of certain enumerated events. The Annual Report and notices of events will be filed by means of EMMA maintained by the MSRB. The specific nature of the information to be contained in the Annual Report or the notices of certain enumerated events is set forth in APPENDIX D – “FORM OF CONTINUING DISCLOSURE CERTIFICATE.” These covenants have been made in order to assist the Underwriters in complying with the Rule. The City has an ongoing contract with Willdan Financial Services as Dissemination Agent.

[In the past five years, the City has not failed to comply in all material respects with its outstanding continuing disclosure undertakings] *[To be confirmed]*

FINANCIAL STATEMENTS

Audited financial statements of the City (including the Wastewater System Fund) for the Fiscal Year ended June 30, 2023, are attached hereto as APPENDIX B. The City's financial statements were audited by The Pun Group, LLP (the "Independent Auditor"), as stated in its report dated March 13, 2024 appearing in APPENDIX B hereto. The Independent Auditor has not reviewed, audited or examined the finances of the City subsequent to March 13, 2024 and has not undertaken any review of any of the information contained in this Official Statement.

MISCELLANEOUS

This Official Statement is not to be construed as a contract or agreement among the Authority, the City and the Underwriters of the 2024 Bonds. Any statements made in this Official Statement involving matters of opinion or of estimates, whether or not so expressly stated, are set forth as such and not as representations of fact, and no representation is made that any of the estimates will be realized. The information and expressions of opinion herein are subject to change without notice and neither the delivery of the Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the Authority or the City since the date hereof.

References are made herein to certain documents and reports which are brief summaries thereof which do not purport to be complete or definitive and reference is made to such documents and reports for full and complete statements of the contents thereof. Copies of such documents and reports are available for inspection at the office of the Chief Financial Officer, City of Stockton, 425 North El Dorado Street, Stockton California 95202.

The execution and delivery of the Official Statement by the Authority and the City have been duly authorized by the Board of Directors of the Authority and the City Council of the City, respectively.

APPENDIX A

GENERAL ECONOMIC AND DEMOGRAPHIC INFORMATION RELATING TO THE CITY OF STOCKTON

The following information concerning the City and surrounding areas is included only for the purpose of supplying general information regarding the community. The 2024 Bonds are not a debt of the City, the State or any of its political subdivisions and neither the City, the State, nor any of its political subdivisions is liable therefor. See “SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS” herein.

Overview

The City is a charter city incorporated in 1850. The City is the county seat of San Joaquin County and is located in California’s San Joaquin Valley, 78 miles east of the San Francisco Bay Area, 345 miles north of Los Angeles and 45 miles south of Sacramento. The County of San Joaquin covers approximately 1,400 square miles. The County is bounded by Sacramento County on the north, Stanislaus County on the south, Contra Costa County and Alameda County on the west and Amador County, Calaveras County and Stanislaus County on the east. The City is a municipal corporation and a chartered city, duly organized and existing under the constitution and laws of the State.

Governing Body

The City operates under a Council/Manager form of government, with a seven-member City Council (current members were elected by district voting) for staggered four-year terms. Under this form of government, policy making and legislative authority is entrusted to the City Council. The Mayor and representatives from six districts are elected by City-wide election for staggered four-year terms, with a two-term limit. Newly elected representatives are sworn in on the first Tuesday of January of each odd-numbered year. The City Council is also the governing board of the Redevelopment Agency.

The City Manager is responsible for carrying out policies and ordinances of the City Council for appointing heads of departments and overseeing the operation of the City. The City Manager, the City Attorney, the City Auditor and the City Clerk are appointed by the City Council.

[Remainder of Page Intentionally Left Blank]

The Mayor, current members of the City Council and key administrative personnel of the City are listed in Table A-1 and Table A-2, respectively.

Katherine Roland	Interim City Clerk

The City provides a full range of municipal services. As provided in the City Charter, these services include public safety (police, fire, paramedics, water rescue and building inspection), sanitation (solid waste disposal, wastewater and stormwater utilities), water utility, community development, library, parks and recreation and general administrative services.

Population

Population information is set forth in Table A-3.

Personal Income

Total personal income is defined by the Bureau of Economic Analysis, an agency of the U.S. Department of Commerce, as income received from all sources, including income received from participation in production as well as from government and business transfer payments. It represents the sum of compensation received by employees, supplements to wages and salaries, proprietors' income with inventory valuation adjustment and capital consumption adjustment (the "CCAdj"), rental income of persons with the CCAdj, personal income receipts on assets, and personal current transfer receipts, less contributions for government social insurance. Per capita income is calculated as the personal income divided by the resident population based upon the Census Bureau's annual midyear population estimates.

Table A-7 summarizes the total personal income and per capita income for the Stockton Metropolitan Statistical Area (an "MSA"), the State and the United States for the calendar years 2019 through 2023. The principal city for the Stockton MSA is the City.

Transportation

[City to confirm]

The City is located on Interstate 5, the West Coast's major route from Canada to Mexico. The City's cross-town freeway connects Interstate 5 with State Route 99, the State's other principal north-south freeway. The City also benefits from direct highway connections to the San Francisco Bay Area via Interstate 580, and to the Reno-Lake Tahoe area via Interstate 80. Thirty-five major transcontinental truck lines and nearly 200 contract carriers serve the City and provide overnight delivery to Los Angeles, San Francisco and Reno. The City is also served by Greyhound and the San Joaquin Regional Transit District.

The City is served by the rail services of Santa Fe, Southern Pacific, and Union Pacific systems in addition to three short line railroads: Central California Traction Company, Tidewater Southern, and Stockton Terminal and Eastern Railroad. Passenger service is provided by Amtrak.

The Stockton Metropolitan Airport, located on 1,449 acres on the southern boundary of the City, is a general aviation facility offering both passenger and freight transport services. It has six air carrier gates adjoining a 44,355 square foot terminal building.

The Port of Stockton is the largest inland deep water port in the State. It is located on the Stockton deepwater ship channel and encompasses a 2,000 acre operating area. The Port has berthing space for 17 vessels, 1.1 million square feet of dockside transit sheds and shipside rail trackage, and 7.7 million square feet of warehousing, and is 75 nautical miles east of the Golden Gate Bridge.

Railroad service is provided to the City by Burlington Northern, Santa Fe and the Union Pacific railroads. Daily passenger service by Amtrak is available to San Francisco, Los Angeles and Sacramento.

Education and Recreation

[City to confirm]

Education. Within the City, there are five post-secondary institutions: San Joaquin Delta Community College, California State University Stanislaus-Stockton (extension), University of the Pacific, Humphrey's College and School of Law and National University (private).

The majority of students living within City limits attend schools operated by one of four unified school districts providing kindergarten through grade 12 education: the Stockton Unified School District, the Lodi Unified School District, the Lincoln Unified School District and the Manteca Unified School District.

The Escalon Unified School District, the Holt Union Elementary School District, the Linden Unified School District, the Tracy Unified School District and the County Office of Education also operate schools located within the City.

There are also more than 20 private schools located within the City offering elementary and secondary education.

There is also one central, five branch City libraries and two mobile library units holding more than one million books in the collection.

Recreation. The City is situated along the San Joaquin Delta waterway which connects to the San Francisco Bay and the Sacramento and San Joaquin Rivers and is also located in close proximity to Lake Tahoe and Yosemite National Park. There are approximately 619 acres of parkland located within the City.

The Stockton Children's Museum is located in downtown Stockton and offers educational experiences based upon hands-on, play-based exhibits that enhance a child's understanding of how the world works. The Museum features more than a dozen different child-sized environments that recreate the ambience of a small city where merchants, bankers and doctors might mingle among the grocery shoppers, fast food customers and canning crew.

The 5,000 seat Stockton Ballpark that opened in April 2005 is the home of the Stockton Ports single A minor league team for the Oakland Athletics features four luxury suites, lawn seating, a family recreation area and a barbeque area with umbrella seating behind the outfield.

The City Centre Cinema Complex in downtown Stockton offers a 16-screen movie theater, restaurants and retail shopping.

The 220,000 square foot, 10,000 seat Stockton Arena is home of the Stockton Thunder Minor League Hockey Team.

The 2,042-seat Bob Hope Theater is located in the historic former Fox Theater that was constructed in 1930. This performing arts center hosts national and local theatrical, musical, comedy and dance productions.

The Gary & Janice Podesto IMPACT Teen Center, located in downtown Stockton, features four bowling lanes, a half-court basketball area, stage, meeting rooms, game rooms, classrooms, a computer lab, snack bar, and a climbing wall.

The City also operates a Skate Park and Ice Arena and offers various other sports and recreational opportunities through the City Park and Recreation Department.

ENDED JUNE 30, 2023**

APPENDIX C

SUMMARY OF CERTAIN PROVISIONS OF THE PRINCIPAL LEGAL DOCUMENTS

APPENDIX D

FORM OF CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (the “Disclosure Certificate”) is executed and delivered by the City of Stockton (the “City”) in connection with the issuance of \$_____ aggregate principal amount of Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “2024 Bonds”). The 2024 Bonds were issued pursuant to a 2024 Indenture, dated as of August 1, 2024 (the “Indenture”), between the Stockton Public Financing Authority and U.S. Bank Trust Company, National Association, as Trustee (the “Trustee”). The City covenants and agrees as follows:

SECTION 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the City for the benefit of the Holders and Beneficial Owners of the 2024 Bonds and in order to assist the Participating Underwriters in complying with S.E.C. Rule 15c2-12(b)(5).

SECTION 2. Definitions. In addition to the definitions set forth in the 2024 Indenture, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

“*Annual Report*” means any Annual Report provided by the City pursuant to, and as described in, Section 3 and Section 4 of this Disclosure Certificate.

“*Beneficial Owner*” means any person which (a) has the power, directly or indirectly, to vote or consent with respect to, or to dispose of ownership of, any 2024 Bonds (including persons holding 2024 Bonds through nominees, depositories or other intermediaries).

“*Disclosure Representative*” means the Chief Financial Officer of the City or a designee, or such other officer or employee as the City shall designate in writing to the Dissemination Agent from time to time.

“*Dissemination Agent*” means initially Willdan Financial Services, acting in its capacity as Dissemination Agent hereunder, or any successor Dissemination Agent designated in writing by the City and which has filed with the City written evidence of such designation.

“*EMMA*” means the Electronic Municipal Marketplace Access site maintained by the MSRB, currently located at <http://emma.msrb.org>.

“*Filing Date*” means March 31 following the end of each Fiscal Year of the City (or the next succeeding business day if such day is not a business day), commencing with the filing for Fiscal Year 2023-24 due March 31, 2025.

“*Financial Obligation*” means a debt obligation; derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or a guarantee of a debt obligation or derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation. The term financial obligation excludes municipal securities for which a final official statement has been provided to the MSRB consistent with the Rule.

“*Fiscal Year*” means with respect to the City, the period beginning on July 1 of each year and ending on the next succeeding June 30, or any 12-month or 52-week period thereafter selected by the City with notice of such selection of change in fiscal year to be provided as set forth in Section 3(a).

“*Holders*” means either the registered owners of the 2024 Bonds, or, if the 2024 Bonds are registered in the name of The Depository Trust Company or another recognized depository, any applicable participant in its depository.

“MSRB” means the Municipal Securities Rulemaking Board, which has been designated by the Securities and Exchange Commission as the sole repository of disclosure information for purposes of the Rule, or any other repository of disclosure information that may be designated by the Securities and Exchange Commission as such for purposes of the Rule in the future.

“Official Statement” means the Official Statement dated August __, 2024 relating to the 2024 Bonds.

“Participating Underwriters” means the original underwriter of the 2024 Bonds required to comply with the Rule in connection with offering of the 2024 Bonds.

“Rule” means Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

“Specified Event” means any of the events listed in Section 5(a) or Section 5(b) of this Disclosure Certificate and any other event legally required to be reported pursuant to the Rule.

SECTION 3. Provision of Annual Reports.

(a) The City shall provide, or shall cause the Dissemination Agent to provide to the MSRB, not later than the Filing Date, an Annual Report that is consistent with the requirements of Section 4 of this Disclosure Certificate. The Annual Report shall be submitted in electronic format, accompanied by such identifying information as is prescribed by the MSRB. The Annual Report may be submitted as a single document or as separate documents comprising a package, and may include by reference other information as provided in Section 4 of this Disclosure Certificate; provided that the audited financial statements of the City may be submitted separately from the balance of the Annual Report, and later than the Annual Report Date, if not available by that date. If the Fiscal Year of the City changes, it shall give notice of such change in the same manner as for a Specified Event under this Disclosure Certificate. The City shall provide a written certification with each Annual Report furnished to the Dissemination Agent to the effect that such Annual Report constitutes the Annual Report required to be furnished by the City hereunder.

(b) Not later than 15 Business Days prior to the Filing Date, the City shall provide the Annual Report to the Dissemination Agent (if other than the City). The City shall provide, or cause the preparer of the Annual Report to provide, a written certificate with each Annual Report furnished to the Dissemination Agent to the effect that such Annual Report constitutes the Annual Report required to be furnished to it hereunder. The Dissemination Agent may conclusively rely upon such certification and shall have no duty or obligation to review such Annual Report.

(c) If the City is unable to provide to the Annual Report to the MSRB by the date required in Section 3(a), the City shall send a notice in a timely manner to the MSRB in substantially the form attached as Exhibit A.

(d) The Dissemination Agent shall:

(i) Provided it has received the Annual Report from the City pursuant to Section 3(a), file the Annual Report the MSRB by the Filing Date, and file any notice of a Specified Event, if requested by the City, as soon as practicable following receipt from the City of such notice; and

(ii) Provided it has received the Annual Report from the City pursuant to Section 3(a), file a report with the City certifying that the Annual Report has been provided pursuant to this Disclosure Certificate, and stating the date it was provided.

SECTION 4. Content of Annual Reports. The City’s Annual Report shall contain or incorporate by reference the following:

(a) The Statement of Net Assets, the Statement of Revenues, Expenditures and Changes in Fund Net Assets and the Statement of Cash Flows for the Wastewater System for the prior Fiscal Year, prepared in accordance with generally-accepted accounting principles as promulgated to apply to governmental entities from time to time by the Governmental Accounting Standards Board. If such financial reports are not available by the time the Annual Report is required to be filed pursuant to Section 3(a), the Annual Report shall contain unaudited financial statements similar to the audited financial statements contained in the Official Statement, and shall be filed in the same manner as the Annual Report when they become available.

(b) To the extent not presented in the audited financial statements:

(i) Information for the Wastewater System for the prior Fiscal Year substantially similar to that provided in the following tables of the Official Statement;

[To be Confirmed]

(A) Table 1 – “Customer Class by Type of Account and Number of Connections;”

(B) Table 2 – “Ten Largest Users by Flow;”

(C) Table 3 – “Ten Largest Users by Revenue;”

(D) Table 4 – “Schedule of Rates and Charges and Effective Dates;”

(E) Table 5 – “Connection Fee Revenues;”

(F) Table 6 – “Uncollectible Charges for Services;”

[(G) Table 9 – “Historical Revenues Expenses and Debt Service Coverage”]; and

(ii) Debt service schedules for the 2024 Bonds and any Parity Obligations.

SECTION 5. Reporting of Specified Events.

(a) Pursuant to the provisions of this Section 5, the City shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the 2024 Bonds:

(i) Principal and interest payment delinquencies on the 2024 Bonds;

(ii) Non-payment related defaults, if material;

(iii) Unscheduled draws on debt service reserves reflecting financial difficulties;

(iv) Unscheduled draws on credit enhancements reflecting financial difficulties;

(v) Substitution of credit or liquidity providers, or their failure to perform;

(vi) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the 2024 Bonds, or other material events affecting the tax status of the 2024 Bonds;

(vii) Modifications to rights of the 2024 Bond Holders, if material;

- (viii) Note calls, if material, and tender offers;
- (ix) Defeasances;
- (x) Release, substitution, or sale of property, if any, securing repayment of the 2024 Bonds, if material;
- (xi) Rating changes;
- (xii) Bankruptcy, insolvency, receivership or similar event of the City or other obligated person;
- (xiii) The consummation of a merger, consolidation, or acquisition involving the City or an obligated person, or the sale of all or substantially all of the assets of the City or an obligated person (other than in the ordinary course of business), the entry into a definitive agreement to undertake such an action, or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;
- (xiv) Appointment of a successor or additional trustee or the change of name of a trustee, if material;
- (xv) Incurrence of a Financial Obligation of the obligated person, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a Financial Obligation of the obligated person, any of which affect security holders, if material; and
- (xvi) Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a Financial Obligation of the obligated person, any of which reflect financial difficulties.

(b) The Trustee shall, promptly upon obtaining actual knowledge at its principal corporate trust office as specified in Section 12 hereof of the occurrence of any of the Specified Events and notify the City of such Specified Events; *provided*, that failure by the Trustee to so notify the City shall not relieve the City of its duty to report Specified Events as required in this Section 5. For the purpose of this Disclosure Agreement “actual knowledge” means actual knowledge at the corporate trust office of the Trustee by an officer of the Trustee with responsibility for matters related to the administration of the Indenture.

(c) Wherever the City obtains knowledge of the occurrence of Specified Event, the City shall, or shall cause the Dissemination Agent (if not the City) to, file a notice of such occurrence with the MSRB, in an electronic format as prescribed by the MSRB, in a timely manner not in excess of 10 business days after the occurrence of the Specified Event.

(d) The City acknowledges that the events described in subparagraphs (a)(ii), (a)(vii), (a)(x), (a)(xiii), (a)(xiv), (a)(xiv), and (a)(xv) of this Section 5 contain the qualifier “if material”. The City shall cause a notice to be filed as set forth in this Section 5 with respect to any such event only to the extent that it determines the event’s occurrence is material for purposes of U.S. federal securities law. Whenever the City obtains knowledge of the occurrence of any of these Specified Events, the City will as soon as possible determine if such event would be material under applicable federal securities law. If such event is determined to be material, the City will cause a notice to be filed as set forth in Section 5(c).

(e) If in response to a request under Section 5(b), the City determines that the Specified Event would not be material under applicable federal securities laws, the City shall so notify the Trustee in writing and instruct the Dissemination Agent not to report the occurrence.

(f) If the Dissemination Agent has been instructed by the City to report the occurrence of a Specified Event, the Dissemination Agent shall file a notice of such occurrence with the MSRB. Notwithstanding the foregoing, notice of Specified Events described in Section 5(a)(viii) and (ix) need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to Holders of affected 2024 Bonds pursuant to the Indenture.

(g) For purposes of this Disclosure Agreement, any event described in Section 5(a)(xii) above is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent, or similar officer for the City in a proceeding under the United States Bankruptcy Code or in any other proceeding under State or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the City, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement, or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the City.

(h) The Dissemination Agent may conclusively rely on an opinion of counsel that the City's instructions to the Dissemination Agent under this Section 5 comply with the requirements of the Rule.

SECTION 6. Identifying Information for Filings with EMMA. All documents provided to the MSRB under the Disclosure Certificate shall be accompanied by identifying information as prescribed by the MSRB.

SECTION 7. Termination of Reporting Obligation. The obligations of the City under this Disclosure Certificate shall terminate upon the legal defeasance, prior redemption or payment in full of all of the 2024 Bonds. If such termination occurs prior to the final maturity of the 2024 Bonds, the City shall give notice of such termination in the same manner as for a Specified Event under Section 5(c).

SECTION 8. Dissemination Agent. The City may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Certificate, and may discharge any such Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent may resign at any time upon delivery of written notice thereof to the City at least 30 days prior to the effective date of such resignation. If at any time there is not any other designated Dissemination Agent, the City shall be the Dissemination Agent. The Dissemination Agent, if other than the City, shall not be responsible in any manner for the content of any notice or report prepared by the City pursuant to this Disclosure Certificate.

The initial Dissemination Agent shall be Willdan Financial Services.

SECTION 9. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the City may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, provided that the following conditions are satisfied with respect to such amendment or waiver:

(a) If the amendment or waiver relates to the provisions of Section 3(a), Section 4, or Section 5(a), it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law or a change in the nature, identity or status of an obligated person with respect to the 2024 Bonds or the type of business conducted by such person;

(b) The undertaking in this Disclosure Certificate, as amended or taking into account such waiver, would, in the opinion of nationally recognized 2024 Bond counsel, have complied with the requirements of the Rule at the time of the original issuance of the 2024 Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(c) The amendment or waiver either: (i) is approved by the Holders of the 2024 Bonds in the same manner as provided in the 2019 Indenture for amendments to such Indenture with the consent of Holders, or (ii)

does not, in the opinion of nationally recognized bond counsel, materially impair the interests of the Holders or Beneficial Owners of the 2024 Bonds.

(d) Any amendment that modifies or increases the duties or obligations of the Dissemination Agent shall be agreed to in writing by the Dissemination Agent.

(e) In the event of any amendment or waiver of a provision of this Disclosure Certificate, the City shall describe such amendment in the next Annual Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or, in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by the City. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements, (i) notice of such change shall be given in the same manner as for a Specified Event, and (ii) the Annual Report for the year in which the change is made shall present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

(f) Notice of any amendment made pursuant to this Section 9 shall be filed in the same manner as for the occurrence of a Specified Event under Section 5(c).

SECTION 10. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the City from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Specified Event, in addition to that which is required by this Disclosure Certificate. If the City chooses to include any information in any Annual Report or notice of occurrence of a Specified Event in addition to that which is specifically required by this Disclosure Certificate, the City shall have no obligation under this Disclosure Certificate to update such information or include it in any future Annual Report or notice of occurrence of a Specified Event.

SECTION 11. Default. This Disclosure Certificate shall be solely for the benefit of the holders and beneficial owners from time to time of the 2024 Bonds. In the event of a failure of the City to comply with any provision of this Disclosure Certificate, the Trustee may (and, at the request of the Participating Underwriter or the Holders of at least 25% aggregate principal amount of Outstanding 2024 Bonds and upon receipt of indemnity satisfactory to the Trustee, shall), or any Holder or Beneficial Owner of the 2024 Bonds may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by order of a court of competent jurisdiction in the County of San Joaquin, California, to cause the City to comply with its obligations under this Disclosure Certificate, *provided* that any holder or beneficial owner seeking to require the City to comply with this Disclosure Certificate shall first provide at least thirty (30) days prior written notice to the City of the failure of the City, giving reasonable detail of such failure. Failure by the City to comply with any provision of this Disclosure Certificate shall not be deemed an Event of Default under the 2019 Indenture, and the sole remedy under this Disclosure Certificate in the event of any failure of the City to comply with the terms of this Disclosure Certificate shall be an action to compel performance. No person or entity shall be entitled to recover monetary damages under this Disclosure Certificate.

SECTION 12. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate, and the City agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities which it may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorneys' fees) of defending against any claim of liability, but excluding liabilities due to the negligence or willful misconduct of the Dissemination Agent. The Dissemination Agent shall be paid compensation by the City for its services provided hereunder in accordance with its schedule of fees as amended from time to time and all expenses, legal fees and advances made or incurred by the Dissemination Agent in the performance of its duties hereunder. The obligations of the City under this Section 12 shall survive resignation or removal of the Dissemination Agent and payment of the 2024 Bonds.

SECTION 13. Notices. Any notice or other communication to be given by the City or the Dissemination Agent under this Disclosure Certificate may be given by delivering the same by first class mail, postage prepaid, messenger, or overnight delivery to the addresses set forth below (until another address is filed by the City or the Dissemination Agent with the Trustee):

To the City:	City of Stockton 425 North El Dorado Street Stockton, California 95202 Attention: Chief Financial Officer
If to the Trustee:	U.S. Bank Trust Company, National Association [Address]
If to the Dissemination Agent:	Willdan Financial Services 27368 Via Industria, Suite 200 Temecula, California 92590

SECTION 14. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the City, the Dissemination Agent, the Participating Underwriter and Holders and Beneficial Owners from time to time of the 2024 Bonds, and shall create no rights in any other person or entity.

SECTION 15. Record Keeping. The City shall maintain records of Annual Reports and notices of Specified Events, including the content of such disclosure, the name of the entities with which such disclosure was filed and the date of filing of such disclosure.

SECTION 16. Governing Law. The laws of the State of California shall govern this Disclosure Certificate, the interpretation thereof and any right or liability arising hereunder. Any action or proceeding to enforce or interpret any provision of this Disclosure Certificate shall be brought, commenced or prosecuted in any courts of the State located in the County of San Joaquin, California.

SECTION 17. Counterparts. This Disclosure Certificate may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

APPENDIX E

DTC AND THE BOOK-ENTRY ONLY SYSTEM

The following description of the procedures and record keeping with respect to beneficial ownership interests in the 2024 Bonds, payment of principal, redemption premium, if any, and interest with respect to the 2024 Bonds to DTC, its Participants or Beneficial Owners, confirmation and transfers of beneficial ownership interests in the 2024 Bonds and other related transactions by and between DTC, its Participants and the Beneficial Owners is based solely on the understanding of the Authority of such procedures and record keeping from information provided by DTC. Accordingly, no representations can be made concerning these matters and neither DTC, its Participants nor the Beneficial Owners, should rely on the foregoing information with respect to such matters, but should instead confirm the same with DTC or its Participants, as the case may be. The Authority, the Trustee and the Underwriters understand that the current “Rules” applicable to DTC are on file with the Securities and Exchange Commission and that the current “Procedures” of DTC to be followed in dealing with Participants are on file with DTC.

The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for the 2024 Bonds. The 2024 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered 2024 Bond certificate will be issued for each maturity of each Series of the 2024 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has a Standard & Poor’s rating of AA+. The DTC rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the 2024 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the 2024 Bonds on DTC’s records. The ownership interest of each actual purchaser of each 2024 Bond (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the 2024 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the 2024 Bonds, except in the event that use of the book-entry system for the 2024 Bonds is discontinued.

To facilitate subsequent transfers, all 2024 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of the 2024 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the 2024 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such 2024 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of the 2024 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the 2024 Bonds, such as redemptions, tenders, defaults, and proposed amendments to the 2014 Indenture. For example, Beneficial Owners of the 2024 Bonds may wish to ascertain that the nominee holding the 2024 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC, if less than all of the 2024 Bonds within a maturity are being redeemed. DTC's practice is to determine by lot the amount of the interest of each Direct Participant in each issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the 2024 Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the 2024 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Payments of principal of, premium, if any, and interest on the 2024 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Authority or the Trustee, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, its nominee, the Trustee, or the Authority, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal of, premium, if any, and interest on the 2024 Bonds to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Authority or the Trustee. Disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the 2024 Bonds at any time by giving reasonable notice to the Authority or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, 2024 Bond certificates are required to be printed and delivered.

The Authority may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, 2024 Bond certificates will be printed and delivered.

The foregoing information concerning DTC concerning and DTC's book-entry system has been provided by DTC, and neither the Authority nor the Trustee take any responsibility for the accuracy thereof.

NEITHER THE AUTHORITY NOR THE TRUSTEE WILL HAVE ANY RESPONSIBILITY OR OBLIGATION TO DTC PARTICIPANTS, INDIRECT PARTICIPANTS OR BENEFICIAL OWNERS WITH RESPECT TO THE PAYMENTS OR THE PROVIDING OF NOTICE TO DTC PARTICIPANTS, INDIRECT PARTICIPANTS OR BENEFICIAL OWNERS OR THE SELECTION OF 2024 BONDSS FOR REDEMPTION.

In the event that the book-entry system is discontinued as described above, the requirements of the 2014 Indenture will apply.

The Authority and the Trustee cannot and do not give any assurances that DTC, the Participants or others will distribute payments of principal, interest or premium, if any, evidenced by the 2024 Bonds paid to DTC or its nominee as the registered owner, or will distribute any redemption notices or other notices, to the Beneficial Owners, or that they will do so on a timely basis or will serve and act in the manner described in this Official Statement. Neither the Authority nor the Trustee are responsible or liable for the failure of DTC or any Participant to make any payment or give any notice to a Beneficial Owner with respect to the 2024 Bonds or an error or delay relating thereto.

APPENDIX F

PROPOSED FORM OF OPINION OF BOND COUNSEL

Upon the issuance of the 2024 Bonds, Hawkins Delafield & Wood LLP, Bond Counsel, proposes to render their final approving opinion in substantially the following form:

[Closing Date]

Stockton Public Financing Authority
Stockton, California

City of Stockton
Stockton, California

**Re: \$_____ Stockton Public Financing Authority Wastewater Revenue
Refunding Bonds, Series 2024 (Wastewater Refunding Project)**

Ladies and Gentlemen:

We have acted as Bond Counsel in connection with the issuance by the Stockton Public Financing Authority (the “Authority”) of \$_____ in aggregate principal amount of the Stockton Public Financing Authority Wastewater Revenue Refunding Bonds, Series 2024 (Wastewater Refunding Project) (the “Bonds”). The Bonds are being issued pursuant to the laws of the State of California (the “State”), including Chapter 5 of Division 7 of Title 1 of the Government Code of the State, as amended (the “Act”), a resolution adopted by the Authority on _____, 2024 (“Resolution”), the 2024 Installment Purchase Contract, dated as of August 1, 2024 (the “Installment Purchase Contract”), between the Authority and the City of Stockton (the “City”), and the 2024 Indenture, dated as of August 1, 2024 (the “Indenture”), between the Authority and U.S. Bank Trust Company, National Association, as trustee (the “Trustee”).

In our capacity as Bond Counsel we have reviewed the Act, the Resolution, the Installment Purchase Contract, the Indenture, certificates of the Authority, the City, the Trustee and others, an opinion of the City Attorney, and such other documents, opinions and instruments as we deemed necessary to render the opinions set forth herein. Capitalized terms not otherwise defined herein shall have the meanings assigned thereto in the Indenture.

We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and validity against, any parties other than the Authority and the City. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents, and of the legal conclusions contained in the opinions, referred to in the second paragraph hereof.

We call attention to the fact that the rights and obligations under the Indenture and their enforceability may be subject to bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors’ rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to the limitations on legal remedies against public entities in the State. We express no opinion with respect to any indemnification, contribution, penalty, choice of law, choice of forum or waiver provisions contained in the foregoing documents.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds constitute valid and binding limited obligations of the Authority and are payable solely from Revenues and certain other amounts held under the Indenture.

2. The Indenture has been duly authorized, executed and delivered by, and constitutes a valid and binding obligation of, the Authority. The Indenture creates a valid lien on the Revenues and certain other amounts held by the Trustee under the Indenture, as and to the extent set forth in the Indenture and subject to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein.

3. The Installment Purchase Contract has been duly authorized, executed and delivered by, and constitutes a valid and binding obligation of, the Authority and the City. The Installment Purchase Contract creates a valid lien on the Net System Revenues and certain other amounts pledged by the Installment Purchase Contract for the security of the 2024 Installment Payments.

4. Under existing statutes and court decisions and assuming continuing compliance with certain tax covenants described below, (i) interest on the Bonds is excluded from gross income for federal income tax purposes pursuant to Section 103 of the Internal Revenue Code of 1986, as amended (the “Code”), and (ii) interest on the Bonds is not treated as a preference item in calculating the alternative minimum tax under the Code; however, interest on the Bonds is included in the “adjusted financial statement income” of certain corporations that are subject to the alternative minimum tax under Section 55 of the Code.

The Code establishes certain requirements that must be met subsequent to the issuance and delivery of the Bonds in order that, for federal income tax purposes, interest on the Bonds be not included in gross income pursuant to Section 103 of the Code. These requirements include, but are not limited to, requirements relating to the use and expenditure of proceeds of the Bonds, restrictions on the investment of proceeds of the Bonds prior to expenditure and the requirement that certain earnings be rebated to the federal government. Noncompliance with such requirements may cause interest on the Bonds to become subject to federal income taxation retroactive to their date of issue, irrespective of the date on which such noncompliance occurs or is ascertained.

On the date of delivery of the Bonds, the Authority and the City will execute a Tax Certificate relating to the Bonds containing provisions and procedures pursuant to which such requirements can be satisfied. In executing the Tax Certificate, the Authority and the City covenant that they will comply with the provisions and procedures set forth therein and that it will do and perform all acts and things necessary or desirable to assure that the interest paid on the Bonds will, for federal income tax purposes, be excluded from gross income.

In rendering the opinion in this paragraph 4, we have relied upon and assumed (i) the material accuracy of the Authority’s and the City’s representations, statements of intention and reasonable expectations, and certifications of fact contained in the Tax Certificate with respect to matters affecting the status of interest paid on the Bonds, and (ii) compliance by the Authority and the City with the procedures and covenants set forth in the Tax Certificate as to such tax matters.

5. Under existing statutes, interest on the Bonds is exempt from State personal income taxes.

We express no opinion as to any other federal, state or local tax consequences arising with respect to the Bonds, or the ownership or disposition thereof, except as stated in paragraphs 4 and 5 above. We render our opinion under existing statutes and court decisions as of the date hereof, and assume no obligation to update, revise or supplement our opinion to reflect any action hereafter taken or not taken, any fact or circumstance that may hereafter come to our attention, any change in law or interpretation thereof that may hereafter occur, or for any other reason. We express no opinion as to the consequence of any of the events described in the preceding

sentence or the likelihood of their occurrence. In addition, we express no opinion on the effect of any action taken or not taken in reliance upon an opinion of other counsel regarding federal, state or local tax matters, including, without limitation, exclusion from gross income for federal income tax purposes of interest on the Bonds.

Respectfully submitted,

APPENDIX G

SPECIMEN MUNICIPAL BOND INSURANCE POLICY

Stockton Public Financing Authority Wastewater Revenue Refunding Bonds Series 2024 (the “2024 Bonds”)

City Council / Stockton Public Financing Authority

July 9, 2024

Agenda Item 15.5

Existing Parity Obligations of the City's Wastewater Fund

Water Infrastructure Finance and Innovation Act ("WIFIA")

Loan Number: N18126CA

Principal Payments: September 1, 2030 to September 1, 2051
Remaining Amount: \$108,000,000
Interest Rate: 1.20%
Purpose: Repaid Bond Anticipation Notes sold to fund the Regional Wastewater Control Facilities Modification Project

California Department of Water Resources

SRF Loan Number: D2001045

Principal Payment: December 31, 2024 to December 31, 2051
Remaining Amount: \$46,800,000
Interest Rates: 0.90%
Purpose: Used to pay project costs associated with the Regional Wastewater Control Facilities Modification Project

- The 2024 Bonds are being issued to refund the outstanding:

Stockton Public Financing Authority

Wastewater Revenue Refunding Bonds, Series 2014 (the "2014 Bonds")

- The 2024 Bonds will be on parity with both the WIFIA Loan and the SRF Loan
- The 2024 Bonds will be amortized over the same remaining term as the 2014 Bonds (no extension)

Estimated Financing Summary (Assumes Market Interest Rates as of May 14)

Outstanding 2014 Bonds ⁽¹⁾	\$29,620,000
Principal Amount of the 2024	\$28,615,000
2014 Bonds Total Debt Service	\$34,211,250
2024 Bonds Total Debt	\$33,038,077
Total Savings	\$1,173,173
Average Annual Savings ⁽²⁾	\$227,225
Net Present Value Savings (\$)	\$1,055,707
Net Present Value Savings (%) ⁽³⁾	3.56%
Final Maturity ⁽⁴⁾	September 1, 2029 (FY 2030)

Notes

- (1) Amount Outstanding After September 1, 2024
- (2) From Fiscal Year 2026 to Fiscal Year 2030
- (3) As a Percentage of the Principal Amount of Bonds Refunded
- (4) Same Final Maturity as the 2014 Bonds (No Extension)

The Resolutions establish a minimum cash flow savings target of \$150,000 per year (FY 2026 to FY 2030) which equates to 2.38% net present value savings. While the transaction currently meets the standards establish in the City's debt policy at > 3.00% net present value savings, the minimum cash flow target would require a waiver from the City's debt policy by utilizing "Section XVI: Exceptions To These Policies":

"The City may find in limited and exceptional instances that a waiver to any of the above stated policies is warranted given identified special City benefits to be derived from such waiver. Such waivers may be granted by the City Manager or CFO with the approval of the City Attorney, if provisions waived are not material, and shall be granted only by action of the City Council if as to material provisions and shall be based upon stated policies as warranted given identified special City benefits to be derived from such specific public purpose, economic and/or health and safety findings."

Proposed 2024 Bonds, Financing Team and Remaining Schedule

Proposed 2024 Bonds

- \$28.615 million public offering
- Proposed same amortization term as the 2014 Bonds (no extension)
- Estimated fixed Costs of Issuance of \$178,762.97
- Estimated Bond Insurance and Surety Premium of \$184,959.23
- Estimated Underwriter's Discount of \$140,213.50 (0.49% of the refunding principal amount)

Financing Team

- Bond / Disclosure Counsel: Hawkins Delafield & Wood LLP
- Municipal Advisor: Del Rio Advisors, LLC
- Co-Underwriters: Hilltop Securities and Oppenheimer & Co. Inc.
- Trustee: U.S. Bank Trust Company, National Association

Proposed Financing Schedule

Date	Action
Tuesday July 9 th	City Council / Authority Board Meeting
Week of July 29 th	Print and Post the Preliminary Official Statement
Wednesday August 14 th	Sell the Bonds
Weeks of August 19 th and August 26 th	Print and Post Final Official Statement Documents Executed
Wednesday September 4 th	Transaction Closes

Documents for Review and Approval

- **2024 Indenture:** An agreement between the Authority and U.S. Bank Trust Company, National Association (“U.S. Bank”) as Trustee. This document governs all the terms and conditions of the 2024 Bonds including the role of U.S. Bank as Trustee, the principal payments along with the interest rates on the individual maturities, the redemption provisions of the 2024 Bonds, establishes the funds and accounts for the 2024 Bonds, establishes the City obligations for continuing disclosure reporting, arbitrage rebate and annual CDIAC reporting, and remedies for bondholders in an event of default.
- **2024 Installment Purchase Contract:** An agreement between the Authority (seller) and the City (purchaser) whereby the City will purchase from the Authority the Wastewater System improvements funded with proceeds of the 2014 Bonds. In exchange, the City agrees to make installment payments to the Authority. The installment payments are equal to the debt service on the 2024 Bonds.
- ***Official Statement (Including the Continuing Disclosure Certificate)*:** The Official Statement is the primary document used by the Underwriter to market the 2024 Bonds to investors. The official statement describes the 2024 Bonds in detail and all the information used by investors to make an informed purchase decision. The official statement, in the preliminary form presented, is deemed final pursuant to Rule 15c-2-12 under the Securities Exchange Act of 1934.
- **Bond Purchase Contract:** An agreement between the City, the Authority and the Underwriters, pursuant to which the Underwriters agree to purchase the 2024 Bonds from the Authority, on the terms and conditions set forth therein. It provides certain conditions for closing that must be met prior to the closing and funding of the 2024 Bonds and will be executed on the date of pricing.

Resolutions for Consideration

- **Resolution of the City of Stockton:** This Resolution authorizes the form of and the execution and delivery of an Installment Purchase Contract, Bond Purchase Contract, Continuing Disclosure Certificate and Official Statement all relating to the issuance of the 2024 Bonds and approving certain actions in connection therewith.
- **Resolution of the Stockton Public Financing Authority:** This Resolution authorizes the issuance and sale of the 2024 Bonds in an aggregate principal amount not to exceed \$32,000,000; approves the form of and authorizes the execution and delivery of an Indenture, an Installment Purchase Contract, a Bond Purchase Contract, and an Official Statement all relating to the issuance of the 2024 Bonds and approving certain actions in connection therewith.

The Resolutions also approve the execution of all documents and other actions related to the issuance of the 2024 bonds and that the Chair of the Authority (Mayor), Executive Director of the Authority (City Manager), Treasurer of the Authority (Chief Financial Officer) or their designee be authorized to take appropriate and necessary actions to carry out the purpose and intent of the Resolutions.

Questions and Discussion

City of Stockton

Legislation Text

File #: 24-0664, **Version:** 1

ADOPT A RESOLUTION APPROVING MEASURE A EXPENDITURE GUIDELINES

RECOMMENDATION

It is recommended that City Council adopt a Resolution to:

1. Approve the Measure A Expenditure Guidelines (Exhibit 1 to the proposed Resolution); and
2. Authorize the City Manager, or designee, to take necessary and appropriate actions to carry out the purpose and intent of the Resolution.

Summary

On December 5, 2023, the City Council adopted an ordinance to extend Measure A, a three-quarter percent transactions and use (sales) tax through March 31, 2034. The measure was originally approved by voters on November 5, 2013, and became effective April 1, 2014.

In an October 2023 performance audit, the City's internal auditors recommended the City implement expenditure guidelines for Measure A revenues to improve transparency and utilization of Measure A funds. The proposed Measure A Expenditure Guidelines are hereby presented to City Council for approval.

DISCUSSION

Background

On December 5, 2023, the Stockton City Council adopted an ordinance to extend Measure A, a three-quarter percent transactions and use (sales) tax, through March 31, 2034. The measure was originally approved by voters on November 5, 2013, and became effective April 1, 2014.

On the same ballot, voters also approved Measure B, a non-binding advisory measure, to help communicate priorities and express an opinion about how the additional tax money should be used. On February 25, 2014, Stockton's City Council supported the citizens' approval of Measure B by implementing the first phase of the Marshall Plan on Crime.

Measure B recommends that 65% of Measure A proceeds be used for law enforcement and crime prevention services, such as the Marshall Plan on Crime, and that 35% of Measure A proceeds be used for general City services, including recovery from bankruptcy.

A performance audit conducted by the City's internal auditor, Moss Adams LLP, noted the following:

While expenditure processes appear to comply with Measure A provisions, the City does not have updated expenditure guidelines to define allowable expenditures, proactively plan for future use of the funds, or support tracking of expenditures. This contributes to limited visibility into the impact of the Measure among the public and creates a lack of clarity among City staff for what constitutes allowable use of the funds.

The Measure A Citizens Advisory Committee receives regular reports from City staff on Measure B eligible expenditures, including annual economic recovery reports, quarterly financial reports, annual reports on the 65%/35% usage, and quarterly statistics concerning progress on crime reduction and staff retention.

Present Situation

The proposed Measure A Expenditure Guidelines (Exhibit 1 to the Resolution) address the City's internal auditor's finding noted above, by constructing expenditure guidelines that can be used to understand, direct, and track eligible costs.

According to Section 21 of the Ordinance (2013-07-09-1601), 100% of the proceeds of Measure A may be used for any lawful purpose of the City, as authorized by ordinance, resolution, or action of the City Council. The Ordinance explicitly states that Measure A is a general tax and not a special tax. The proposed guidelines do not restrict or legislate the use of these general-purpose tax revenues and are not intended in any way to legally obligate Measure A funds for any particular purpose. Instead, this document is designed to increase visibility and transparency, and demonstrate the City's alignment with Measure B.

The spending priorities for Measure A funds included in the proposed guidelines can be summarized as follows:

- Law Enforcement and Crime Prevention (65% recommended): This category includes Police Department and Crime Prevention personnel and related program expenditures, recruitment and retention incentives, and any special projects or initiatives to the extent funds are available.
- General City Services (35% recommended): The priorities for this category include contingency payments made to Assured Guaranty as required under the current terms and agreement, post-bankruptcy recovery/restoration of services, general City expenditures as approved by City Council, and maintaining a healthy General Fund reserve to mitigate impacts from the next economic downturn.

Several benefits will be achieved by establishing clear Measure A guidelines:

- Specific guidance to prescribe and encourage eligible costs to incur against Measure B.
- Specific contingencies for use of Measure B when savings occur in high priority areas.
- Outlining the Marshall plan into specific items that can be adjusted to respond to changes in the City's demand for services.

The guidelines are meant to replace the aging Marshall Plan with a list of items categorized into goals that can be adjusted annually to respond to a changing fiscal environment.

As part of the annual budget process, the City will develop and present an expenditure plan for Measure A funds for the upcoming fiscal year based on the spending priorities identified in the proposed guidelines. The plan will be presented to the Measure A Citizens' Advisory Committee, followed by a presentation to City Council for approval.

Any revisions to the spending plan will be presented to the Measure A Citizens' Advisory Committee at regularly scheduled meetings. City Council will be presented with spending plan updates and/or revisions as part of the quarterly budget updates that are currently provided to Council.

Attachment A displays the Measure A Expenditure Plan for FY 2024-25 for informational purposes. This plan was incorporated into the FY 2024-25 Adopted Budget that was approved by City Council on June 18, 2024.

The approved guidelines may subsequently be modified or revised as economic and programmatic conditions evolve over time, including but not limited to:

- Anticipated or unanticipated changes in projected or actual revenues and/or expenditures
- Economic trends and/or forecasts
- Overall fiscal health of the City
- Changes in programmatic and/or personnel needs
- Council priorities

Any future proposed changes to the guidelines will be presented to the Measure A Citizens' Advisory Committee for discussion, and subsequently presented to City Council for approval.

A draft of the Measure A Expenditure Guidelines was presented to the Measure A Citizens' Advisory committee for review and discussion on June 6, 2024. The Committee did not make any recommendations concerning the guidelines for staff to consider. Staff subsequently made minor, technical changes to the draft guidelines, and those changes are reflected in the current version recommended for Council approval (Exhibit 1 to the Resolution).

FINANCIAL SUMMARY

There is no fiscal impact associated with City Council's approval of the Measure A Expenditure Guidelines. The expenditures displayed in the FY 2024-25 Measure A Expenditure Plan (Attachment A) are already included in the FY 2024-25 Budget that was adopted by City Council on June 18, 2024.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING MEASURE A EXPENDITURE GUIDELINES

On December 5, 2023, City Council adopted an ordinance extending for 10 years (through March 31, 2034) the term of the City of Stockton transactions and use tax ordinance ("Measure A") approved by voters at the November 5, 2013, election; and

Measure A is a general tax imposed for general governmental purposes; and

Voters also approved Measure B on November 5, 2013, a non-binding advisory measure that recommends 65% of Measure A proceeds be used for law enforcement and crime prevention services, and 35% of Measure A proceeds be used for general City services, including recovery from bankruptcy; and

The City's internal auditor recommended City Council adopt guidelines to increase visibility and transparency of the uses of Measure A proceeds, and to demonstrate the City's alignment with Measure B; and

The City Council's adoption of guidelines for Measure A proceeds does not restrict or legislate the use of those proceeds, nor do the guidelines legally obligate the proceeds for any particular purpose; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The City Council hereby adopts the Measure A Expenditure Guidelines, attached hereto as Exhibit 1, incorporated by this reference.
2. The City Manager is authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

ATTEST:

KEVIN J. LINCOLN II
Mayor of the City of Stockton

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

Measure A/B Expenditure Guidelines

Introduction

On December 5, 2023, the Stockton City Council adopted an ordinance to extend Measure A, a three-quarter percent transactions and use (sales) tax, through March 31, 2034. The measure was originally approved by voters on November 5, 2013, and became effective April 1, 2014.

On the same ballot, voters also approved Measure B, a non-binding advisory measure, to help communicate priorities and express an opinion about how the additional tax money should be used. On February 25, 2014, Stockton's City Council supported the citizen's approval of Measure B by implementing the first phase of the Marshall Plan on Crime.

Measure B recommends that 65% of Measure A proceeds be used for law enforcement and crime prevention services, such as the Marshall Plan on Crime, and that 35% of Measure A proceeds be used for general City services, including recovery from bankruptcy.

Background

A performance audit performed by the City's internal auditor, Moss Adams, noted the following:

While expenditure processes appear to comply with Measure A provisions, the City does not have updated expenditure guidelines to define allowable expenditures, proactively plan for future use of the funds, or support tracking of expenditures. This contributes to limited visibility into the impact of the Measure among the public and creates a lack of clarity among City staff for what constitutes allowable use of the funds.

The Measure A Citizens Advisory Committee receives regular reports from City staff on Measure B eligible expenditures, including annual economic recovery reports, quarterly financial reports, annual reports on the 65%/35% usage, and quarterly statistics concerning progress on crime reduction and staff retention. Regular reporting will continue under the tax extension authorized by City Council.

Purpose

The purpose of this document is to address the above finding from Moss Adams, and construct expenditure guidelines that can be used to understand, direct, and track eligible costs.

According to Section 21 of the Measure A Ordinance (2013-07-09-1601), 100% of the proceeds of Measure A may be used for any lawful purpose of the City, as authorized by ordinance, resolution, or action of the City Council. The Ordinance explicitly states that Measure A is a general tax and not a special tax. The guidelines set forth below do not

restrict or legislate the use of these general purpose tax revenues, and are not intended in any way to legally obligate Measure A funds for any particular purpose. Instead, this document is designed to increase visibility and transparency, and demonstrate the City's alignment with Measure B.

Benefits of Establishing Expenditure Guidelines

Several benefits will be achieved by establishing clear Measure A guidelines:

- Specific guidance to prescribe and encourage eligible costs to incur against Measure B recommendations.
- Specific contingencies for use of Measure funds when savings occur in high priority areas.
- Outlining the Marshall Plan into specific items that can be adjusted to respond to changes in the City's demand for services.

These guidelines are meant to replace the aging Marshall Plan with a list of items categorized into goals that can be adjusted annually to respond to a changing fiscal environment.

Spending Priorities for the 65% Funds (Law Enforcement and Crime Prevention)

What follows is a list of funding priorities that fit into general goals originally set forth by the Marshall Plan on crime. Funds will be prioritized in the order below. In addition, if a service or improvement will advance Marshall Plan goals, it will be in compliance with these priorities, even if not itemized below.

1. Fund Police Department (PD) and Crime Prevention Personnel
 - a. 60 Sworn positions
 - b. 41 Civilian positions: 8 positions for the Office of Violence Prevention (OVP), and 33 positions for the Police Department and Neighborhood Betterment Teams (NBT) Division
2. Fund program expenditures:
 - a. PD capacity expenditures; technology, equipment
 - b. OVP expenditures
 - c. NBT expenditures
 - d. PD and Crime Prevention General Administration expenditures
3. Recruitment and Retention – Fund temporary recruitment and retention incentives, as provided for in the [Side Letter Agreement Between the City of Stockton and Police Officers' Association](#)
4. Special Projects – Funds may be identified for special crime prevention projects or initiatives if savings occur in any of the above areas

Spending Priorities for the 35% Funds (General City Services)

In addition to the 65% originally allocated to law enforcement and crime prevention expenditures, 35% is advised to go towards general City expenditures. Any amount not spent on law enforcement and crime prevention expenditures will be analyzed on an annual basis with the fourth quarter budget report and made available to the City Council for special consideration. Items specifically funded by this portion of Measure A will be tracked going forward to demonstrate the impact of the 35%. Budget Priorities include:

1. Assured Guaranty Contingent Payments – this is a direct result of the bankruptcy
2. Post-bankruptcy recovery/restoration of services
3. General City expenditures as approved by City Council
4. Building healthy reserves for the next economic downturn

Development of Expenditure Plan

As part of the annual budget process, the City will develop and present an expenditure plan for Measure A funds for the upcoming fiscal year based on the spending priorities identified in these guidelines. The plan will be presented to the Measure A Citizens' Advisory Committee, followed by a presentation to City Council for approval.

Any revisions to the spending plan will be presented to the Measure A Citizens' Advisory Committee at regularly scheduled meetings. City Council will be presented with spending plan updates and/or revisions as part of the quarterly budget updates that are currently provided.

Future Updates to Guidelines

The guidelines contained herein may subsequently be modified or revised as economic and programmatic conditions evolve over time, including but not limited to:

- Anticipated or unanticipated changes in projected or actual revenues and/or expenditures
- Economic trends and/or forecasts
- Overall fiscal health of the City
- Changes in programmatic and/or personnel needs
- Council priorities

Any proposed changes to the guidelines will be presented to the Measure A Citizens' Advisory Committee for discussion, and subsequently presented to City Council for approval.

Adopt Resolution Approving Measure A Expenditure Guidelines

City Council Meeting
July 9, 2024
Agenda Item 15.6

Measure A Background

- $\frac{3}{4}$ Cent Sales Tax
- Approved as a General Tax by Voters in 2013
 - Accompanied by Advisory Measure B
 - 35% General City Services
 - 65% Law Enforcement and Crime Prevention
- Subject to an array of oversight controls, audits, and attestations
- Extended by Council through March 31, 2034

Internal Performance Audit

- Internal Performance Audit performed by Moss Adams in early FY 2023-24 at the Measure A Advisory Committee's request
- Performance Audit found no compliance issues
- Audit recommended that the City could benefit from Measure A Expenditure Guidelines & Planning to Increase Visibility and Transparency

Purpose and Benefits

○ Purpose:

- Understand, direct, and track uses of Measure A proceeds

○ Benefits:

- Prescribe and Encourage eligible Measure B costs
- Identify Contingencies when savings occur
- Itemize Marshall Plan into specific items that can be adjusted to respond to changes in demand for services, economic forecasts, Council priorities, etc.

Priorities: Law Enforcement and Crime Prevention - 65%

1. Fund Police Department & Crime Prevention Personnel
 - a. 60 Sworn Positions, 41 Civilian Positions
2. Fund Program Expenditures
 - a. PD capacity Expenditures
 - b. OVP expenditures
 - c. Neighborhood Betterment Teams (NBT) expenditures
 - d. PD & Crime Prevention General Administration Expenditures
3. Recruitment and Retention Incentives
4. Special Crime Prevention Projects

Priorities: General City Services - 35%

1. Assured Guaranty contingent payments
2. Post-bankruptcy recovery / restoration of service
3. General City expenditures as approved by City Council
4. Building healthy reserves for the next economic downturn

Expenditure Plan

1. Develop an Expenditure Plan each year
 - a. Provide to the Measure A Citizens Advisory Committee followed by City Council approval
2. Revisions will be presented to committee and council regularly

Expenditure Plan (Attachment A)

(dollars in thousands)

FY 2024-25 Expenditure Plan

Future Updates to Guidelines

- Will allow the City to respond to anticipated and/or unanticipated changes, economic trends, demand, priorities, and fiscal health
- Revisions will be presented to the Advisory Committee for discussion, followed by City Council approval

Recommendation Action

- Adopt a Resolution approving the Measure A Expenditure Guidelines (Exhibit 1 to the proposed Resolution)
- Authorize the City Manager to take necessary and appropriate actions to carry out the purpose and intent of the approved guidelines

City of Stockton

Legislation Text

File #: 24-0694, Version: 1

ACCEPT THE FISCAL YEAR 2023-24 FIRST AND SECOND QUARTER BUDGET STATUS UPDATE AND AUTHORIZE BUDGET AMENDMENTS

RECOMMENDATION

It is recommended that the City Council adopt a resolution to:

1. Accept this budget status report on the unaudited results through the second quarter of Fiscal Year (FY) 2023-24.
2. Authorize a budget amendment to increase expenditure appropriation by \$363,979 from the Development Services Fund (220) balance to cover the Information Technology Internal Services Fund expense.
3. Authorize a budget amendment to increase expenditure appropriation by \$110,508 from the Development Services Fund (220) balance and \$208,727 from the Measure K Fund (250) balance to cover Indirect Costs.
4. Authorize a budget amendment of \$145,000 in the Public Works Department to reflect a transfer of Measure K funds between two capital projects.

It is further recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of the resolution.

Summary

City staff analyzes the City's expenditures and revenues quarterly and provides reports to the City Council and the public to increase transparency, make financial recommendations in response to financial activities, and perform routine financial operations that require Council's authority to complete.

At the end of the second quarter, it would be expected that actuals would be at around 50% of the budget, or halfway utilized. As of December 31, 2023, General Fund revenues are at approximately 25% of the anticipated budget. This is due to the timing of receipts. Tax remittances are usually remitted from the collection agencies to the City any time from 60 - 90 days after the period closes.

Expenditures are largely at 38% utilization, with \$129.0 million of the \$340.0 million General Fund budget being spent down. The main factors driving this level of underutilizations are salary savings from vacant positions and project expenditures not yet being fully allocated to the funding source - project expenditures for the year are usually fully allocated by the fourth quarter.

DISCUSSION

Background

One of the strategic initiatives developed to support the City's long-term fiscal sustainability was to provide regular analysis and reporting of the City's financial status. As a result, the Council and the public should anticipate quarterly reports. The mid-year quarters are not fully closed or audited, so it is expected that these numbers may change in future reports as departments reconcile their books and complete closing entries.

Present Situation

General Fund Revenues

The General Fund Revenues are detailed in Attachment B. Overall, Revenues are coming in at approximately 25% of revenues, which is generally consistent with previous second quarter results due to the timing of receipt of certain revenue streams.

General Tax Revenues make up 91% of the budgeted revenues in the General Fund. Staff expect that remittances from the collection agencies can take up to 90 days to post to the General Fund; as such, only first quarter sales tax revenues are reflected in this report. Taking this into consideration, the sales tax appears to be coming in slightly over budget, at 28.5% utilization. Property taxes are remitted to the City each year by San Joaquin County in January and April. Receipts for the first six months are about 1.7% of the annual estimate. These timing issues are normal and expected and will be adjusted by the fourth quarter report.

The other revenues are largely proceeding as expected or slightly lower due to anticipated market cooling and similar timing issues. These amounts generally do not contribute to the low utilization, as they make up only 9% of General Fund revenues. Overall, revenues are coming in as expected. After higher-than-expected revenues in the past several years, the City, under the advice of its tax consultants, is anticipating some cooling in tax revenue.

General Fund Expenditures

The General Fund Expenditures are detailed in Attachment A, with summary revenue amounts populated from Attachment B, for an estimated ending fund balance based on staff's understanding of the City's current fiscal climate. Expenditures are currently at 38% budget utilization; this is due to several factors.

Salary Savings Across the Board have resulted in mild-to-moderate savings in most program expenditures. Several departments continue to experience staff vacancies. At December 31, 2023, 1,450 out of 1,794 authorized positions had been filled Citywide, with 156 sworn and 59 civilian public safety positions vacant. The city has made comprehensive efforts to recruit and retain positions in a highly competitive environment, including expanding benefits and wellness efforts for employees. The City's Office of Performance and Data Analytics is also collecting data and advising on data-driven solutions to hiring and retention.

Timing with Multi-Year Program and Capital Improvement Expenditures has resulted in those items being understated in the first and second quarters. Economic Development and Capital improvement lines both show underutilization due to new contracts that have not been fully spent down yet. For instance, approximately \$2.0 million in budget in the economic development fund will be reprogrammed in a future period for use in the land acquisition and redevelopment fund. Likewise, Capital Improvement expenditures will not be allocated to the funding sources until year-end close, resulting in what appears to be only a 6% utilization. In addition, much of the Capital Improvement budget of approximately \$41.8 million is reserved for future years' expenditures.

Other Major Funds

Attachment C summarizes the FY 2023-24 unaudited second quarter ending results for other significant City funds. Funds are coming in at around 50% budget utilization, with some exceptions - such as Measure W tax revenue, which has understated revenue due to similar reasons to the General Fund taxes described above. Likewise, debt service transactions are not expended in any regular pattern but instead by the scheduled due dates to bondholders. In addition, other transactions have not yet been posted through the second quarter.

In most cases, the other funds all experienced revenue at or greater than expected and expenditures below what was expected budget - this is largely attributable to salary savings. No action is required to balance these funds currently.

FINANCIAL SUMMARY

This report provides an analysis of FY 2023-24 first and second quarter budget status results. The unaudited 6-month period review indicates General Fund revenue increases and expenditure savings are estimated to result in a year-end balance that can fully fund the Working Capital Reserve and mostly fund the Known Contingency Reserve.

Following are the budget amendments and transactions needed to complete the recommended actions:

1. Accept this budget status report on the unaudited results of the first and second quarter of FY 2023-24.
2. Increase FY 2023-24 expenditure appropriation in the Development Services Fund (220) by \$363,979 from fund balance to cover the Information Technologies (IT) ISF calculated expenditure amount omitted in the FY 2023-24 Adopted Budget. This administrative budget amendment is necessary to reimburse the IT ISF for the service it provides to City Departments.
3. Increase FY 2023-24 expenditure appropriation in the Development Services Fund (220) by \$110,508 from fund balance and in the Measure K Fund (250) by \$208,727 from fund balance to cover the Indirect Costs expenditure amounts omitted in the FY 2023-24 Adopted Budget. This administrative budget amendment is necessary to reimburse the General Fund for indirect costs incurred by City Departments.

4. Authorize a budget amendment transferring \$145,000 in Measure K funding from a traffic signal modification project to a lighted crosswalk upgrades project. Project No. WT15026 Lighted Crosswalk Upgrades will upgrade the existing pedestrian-actuated warning system in three locations. The three sites are on El Dorado Street, at the intersections of Main, Channel, and Lindsay Streets. The project was advertised for construction, and the construction bids received exceeded the available funding for the project. Staff is requesting to transfer \$145,000 from project no. WT15029 Traffic Signal Modification to project no. WT15026 Lighted Crosswalk Upgrades to support construction for any unforeseen costs, risks, or scope changes that may impact the project's cost throughout the construction phase.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION ACCEPTING THE FISCAL YEAR 2023-24 FIRST AND SECOND QUARTER BUDGET STATUS UPDATE REPORT, AND AUTHORIZE BUDGET AMENDMENTS

Fiscal Sustainability is one of the City Council's goals; and

City Council adopted the Fiscal Year (FY) 2023-24 Annual Budget on June 20, 2023, following a duly noticed budget study session and a public hearing, and

By the staff report accompanying this Resolution, incorporated into this Resolution by this reference (Staff Report), the Council has been provided with additional information upon which the actions set forth in this Resolution are based; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

- 1) Accept this budget status report on the results of the First and Second quarters of Fiscal Year 2023-24.
- 2) Authorize a budget amendment to increase expenditure appropriation by \$363,979 in the Development Services Fund (220) from fund balance.
- 3) Authorize a budget amendment to increase expenditure appropriation by \$110,508 in the Development Services Fund (220) from fund balance and by \$208,727 in the Measure K Fund (250) from fund balance.
- 4) Authorize a budget amendment transferring Measure K funding between two capital projects in the amount of \$145,000.

//
//
//
//
//
//
//
//
//
//
//

5) The City Manager is hereby authorized to take whatever actions are appropriate and necessary to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

DISCUSS AND CONSIDER A RESOLUTION TO AUTHORIZE APPROPRIATION OF \$3,000,000 FROM THE GENERAL FUND TO CITY COUNCIL PRIORITY PROJECTS

RECOMMENDATION

It is recommended that the City Council discuss and consider a resolution recommended by the Council Budget/Finance/Economic Development Committee authorizing a FY 2024-25 General Fund appropriation and any necessary transfers of \$3,000,000 to eleven City Council priority projects.

It is also recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of this resolution.

Summary

At the Council meeting on January 23, 2024, the City Council discussed Agenda Item 15.1 - Accept the Fiscal Year 2022-23 Fourth Quarter Budget Status Update, Authorize Budget Amendments, and Make Allocations to General Fund Reserves, which included appropriating \$4,000,000 from the General Fund for Council priority projects to be allocated following discussions by the Council Budget/Finance/Economic Development Committee (Committee).

At its March 29, 2024 meeting, the Committee approved Motion 2024-03-29-0303 recommending that \$1,000,000 of the \$4,000,000 from the FY 2022-23 General Fund balance be appropriated and allocated to the Stockton Shelter Navigation Center, and the balance of \$3,000,000 remaining available to be discussed at a future Committee meeting. City Council subsequently approved the Committee's recommended \$1,000,000 for the Stockton Shelter Navigation Center during its May 21, 2024 meeting (Motion 2024-05-21-1203).

The Committee convened again on May 1, 2024, and June 11, 2024, to consider allocation of the remaining \$3,000,000 General Fund balance available and make recommendations to the full Council. During these meetings, staff provided information on several potential projects identified by the Committee at the March 29, 2024 meeting.

At the June 11, 2024 meeting, the Committee approved Motion 2024-06-11-0302 recommending that the \$3,000,000 from the FY 2022-23 General Fund balance be appropriated as follows, and be presented to the Council for consideration: Grupe Park pickleball courts, \$302,500; Mormon Slough improvements, \$425,000; Lincoln Road/Alexandria clean-up, \$130,000; Formation of Maintenance District for Five Mile Creek, \$100,000; Swenson Park miniature golf, \$433,057; Anderson Park playground, \$300,000; Loch Lomond Park playground, \$300,000; Van Buskirk tennis court lighting replacement, \$185,000; Van Buskirk Park playground replacement, \$375,000; Williams Brotherhood handball court lighting replacement, \$80,000; Oak Park Magpie fencing replacement, \$80,000; Contingency for Council priority projects, \$289,443. The Committee also recommended that to the

extent the \$3 million is not fully expended on the aforementioned projects, the unobligated balance should be put towards restoration of old asphalt and addition of a decorative concrete/brick walkway at the Haggin Museum.

The Committee is recommending that the City Council discuss adopting a resolution to authorize a FY 2024-25 General Fund appropriation of \$3,000,000 to the various projects as itemized in Exhibit 1 to the Resolution.

DISCUSSION

Background

At the Council meeting on January 23, 2024, the City Council discussed Agenda Item 15.1 - Accept the Fiscal Year 2022-23 Fourth Quarter Budget Status Update, Authorize Budget Amendments, and Make Allocations to General Fund Reserves. This item included authorization to earmark \$4,000,000 for Council priority needs with allocation of the funds to be brought back to the full Council after discussion by the Committee. The \$4,000,000 is one-time in nature from unanticipated expenditure savings and revenues, and therefore it should be used for one-time activities.

The Committee met to discuss potential projects on March 29, 2024, May 1, 2024, and June 11, 2024. At the March 29th meeting, Committee approved a motion for City Council to consider allocating \$1,000,000 of the available priority funding to the Stockton Shelter Navigation Center. City Council subsequently approved this allocation at its May 21, 2024 meeting.

Present Situation

The Committee motion from its June 11, 2024 meeting recommends the following allocation of FY 2024-25 General Fund moneys:

1. Anderson Park playground	\$300,000
2. Loch Lomand Park playground	\$300,000
3. Van Buskirk tennis court lighting replacement	\$185,000
4. Van Buskirk Park playground replacement	\$375,000
5. Williams Brotherhood Park handball court lighting replacement	\$80,000
6. Oak Park Magpie fencing replacement	\$80,000
7. Grupe Park pickleball courts	\$302,500
8. Mormon Slough improvements	\$425,000
9. Lincoln Rd/Alexandria clean-up	\$130,000
10. Maintenance District formation for Five Mile Creek	\$100,000
11. Swenson Park miniature golf	\$433,057
Subtotal	\$2,710,557
Contingency	\$289,443
Total	\$3,000,000

FINANCIAL SUMMARY

Following are the budget amendments and transactions needed to complete the recommended actions:

Appropriate \$3,000,000 from the General Fund Balance to the various projects and necessary transfer accounts based on Council allocation. Exhibit 1 to the Resolution details the recommendation from the Committee. A contingency of \$289,443 is available for administrative appropriation to the projects specified as needed, for a total appropriation not to exceed \$3,000,000.

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION AUTHORIZING APPROPRIATION OF \$3,000,000 FROM THE GENERAL FUND TO CITY COUNCIL PRIORITY PROJECTS

City Council adopted the Fiscal Year (FY) 2023-24 Annual Budget on June 20, 2023, following a duly noticed budget study session and a public hearing; and

City Council discussed the FY 2022-23 Fourth Quarter Budget Status Update on January 23, 2024, and allocated \$4,000,000 to Council priority projects; and

The City Council Budget/Finance/Economic Development Committee met on March 29, 2024, to discuss potential uses of the \$4,000,000 and made a recommendation for review by the full City Council to allocate \$1,000,000 to the Stockton Shelter Navigation Center; and

City Council approved the allocation of \$1,000,000 General Fund to the Stockton Shelter Navigation Center on May 21, 2024; and

The City Council Budget/Finance/Economic Development Committee subsequently met on May 1, 2024, and June 11, 2024, to discuss potential uses of the remaining \$3,000,000 and made a recommendation for review by the full City Council; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. Authorize the appropriation and any necessary transfers of \$3,000,000 from the General Fund Balance to the various projects as detailed in Exhibit 1.

//
//
//
//
//
//
//
//
//
//
//
//

2. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 9, 2024.

KEVIN J. LINCOLN II
Mayor of the City of Stockton

ATTEST:

KATHERINE ROLAND, CMC, CPMC
Interim City Clerk of the City of Stockton

Budget/Finance/Economic Development Committee Meeting

PROJECT SUMMARY

	Project	Description	Committee Recommendation
1	Playground at Anderson Park	Install a new playground at Anderson Park.	\$ 300,000
2	Playground at Loch Lomond Park	Install a new playground at Loch Lomond Park, replacing a structure that was burned.	300,000
3	Van Buskirk Tennis Court Lighting Replacement	Replace stolen wire, controls, and lights at VB tennis courts.	185,000
4	Van Buskirk Park Playground Replacement	Playground area enhancements.	375,000
5	Williams Brotherhood Park Handball Court Lighting Replacement	Replace stolen wire, controls, and lights at Williams Brotherhood handball courts.	80,000
6	Oak Park Magpie Fencing Replacement	Remove and replace damaged ornamental fencing surrounding picnic area.	80,000
7	Grupe Park Pickleball Courts	Add pickleball courts to Grupe Park.	302,500
8	Mormon Slough Improvements	Extensive sidewalk repairs (excludes Stanislaus St.)	425,000
9	Lincoln Rd/Alexandria Clean-up (Five Mile Creek)	Hyacinth removal on east and west sides.	130,000
10	Maintenance District formation for Five Mile Creek	Proceed with formation of a Maintenance District for Five Mile Creek to provide dedicated funding for future maintenance/repairs.	100,000
11	Miniature Golf at Swenson Park	Funding to support construction of miniature golf course at Swenson Park.	433,057
	Contingency Funds	Contingency funding to support unanticipated increases in the projects listed above.	289,443
	TOTAL		\$ 3,000,000

Authorize Appropriation of \$3 Million General Fund for Council Priority Projects

City Council Meeting

July 9, 2024

Agenda Item 15.8

Background

- At the January 23, 2024 Council meeting, the Council discussed Fiscal Year 2022-23 Fourth Quarter Budget results and General Fund Reserves
- Council action 2024-01-23-1501 approved an appropriation of \$4,000,000 from the General Fund for Council Priority Projects to be guided by the Budget/Finance/Economic Development Council Committee
- The Committee met on March 29, 2024, and approved a motion to recommend City Council allocate \$1 million of the \$4 million to the Stockton Shelter Navigation Center, which the Council subsequently approved on May 21, 2024
- The Committee met in May and June of 2024 to discuss potential uses of the remaining \$3 million, and approved a motion with project funding recommendations for full Council approval on June 11, 2024

Committee Recommendations

Project Name	Committee Recommendation
Playground at Anderson Park	\$300,000
Playground at Loch Lomand Park	\$300,000
Van Buskirk Tennis Court Lighting Replacement	\$185,000
Van Buskirk Park Playground Replacement	\$375,000
Williams Brotherhood Park Handball Court Lighting Replacement	\$80,000
Oak Park Magpie Fencing Replacement	\$80,000
Grupe Park Pickleball Courts	\$302,500
Mormon Slough Improvements	\$425,000
Lincoln Rd/Alexandria Clean-up (Five Mile Creek)	\$130,000
Maintenance District formation for Five Mile Creek	\$100,000
Miniature Golf at Swenson Park	\$433,057
Contingency	\$289,443
TOTAL	\$3,000,000

Recommendation

- Discuss and consider the funding allocations recommended by the Budget/Finance/Economic Development Council Committee
- Authorize a FY 2024-25 appropriation and any necessary transfers for the \$3,000,000 earmarked from the FY 2022-23 General Fund balance

Next Steps

- Tonight's action authorizes adding the budget for the approved projects
- Staff will begin the necessary project planning and procurement processes to implement each project
- Grant-funded projects will continue to take priority over General Fund projects, as grant funds are time-sensitive and subject to expiration and/or penalties

Questions?

City of Stockton

Legislation Text

File #: 24-0357, Version: 1

ADOPTION OF A RESOLUTION APPROVING AMENDMENTS TO THE CITY'S GENERAL PLAN TO ADOPT THE 2023-2031 HOUSING ELEMENT AND REVISE THE SAFETY ELEMENT TO COMPLY WITH STATE LAW

RECOMMENDATION

It is recommended that City Council:

1. Find no further environmental review is required per California Environmental Quality Act (CEQA) Guidelines Section 15183 (Consistency with a Community Plan or General Plan); and
2. Adopt a Resolution amending the Stockton General Plan to approve the 2023-2031 Housing Element and update the Safety Element for consistency with State Law.

It is also recommended that the City Manager be authorized to submit the 2023-2031 Housing Element for state certification and take appropriate and necessary actions to carry out the purpose and intent of the resolution.

Summary

The City is required by California law to update its Housing Element for the next 8-year period (2023-2031) and receive certification approval from the California Department of Housing and Community Development (HCD). HCD's certification is to ensure the City's Housing Element adequately addresses how Stockton will meet its share of the Regional Housing Needs Allocation (RHNA), which was determined to be 12,673 new housing units which is further divided into four income categories of Very Low, Low, Moderate and Above Moderate income levels. Stockton's share represents approximately 24% of the total 52,719 San Joaquin Countywide new housing unit allocation.

The proposed draft City of Stockton 2023-2031 Housing Element (dated April 2024) identifies Goals, Policies and Implementation Actions for meeting and exceeding the forecasted housing needs with an identified capacity of providing for 22,999 new housing units. This draft Housing Element is reflective of a multitude of comments received from the Stockton community, interested stakeholders and HCD over the course of an approximate 18-month time period.

In addition to the Housing Element update, State regulation (Assembly Bill (AB) 747, approved in 2019) requires California cities and counties to update the Safety Element in their General Plan to provide enhanced safety measures for protection from unreasonable risks associated with geologic hazards, flooding, and wildland and urban fires. More specifically, this entails updates or the creation of evacuation routes and their capacity, safety, and viability under various emergency scenarios. This update must be completed in conjunction with the Housing Element Update and repeated every eight years. Further, state regulation (AB 1409, approved in 2021), mandates consideration of "evacuation

locations". This update is included in the proposed General Plan Amendment.

On May 22, 2024, HCD notified the City that the draft Housing Element substantially complies with state housing law and directed the City to seek local (City Council) adoption to authorize filing for State certification. To comply with State law, the City Council must adopt the element and submit to HCD for certification. The State mandated deadline for certification was originally the end of 2023, however, HCD allowed for extension without penalty since the City was proactively seeking the State's review and approval since early 2023. Following HCD's certification, progress on implementation of the Housing Element will be monitored with annual progress reports presented to the Planning Commission and City Council.

On June 13, 2024, the Planning Commission considered and voted (5-0) recommending the City Council adopt the 2023-2031 Housing Element and update to the Safety Element. The City Council is asked to adopt the General Plan Amendment to approve 2023-2031 Housing Element and update to the Safety Element to comply with State of California (State) housing law, and authorize the City Manager to submit the adopted Housing Element to HCD for certification.

DISCUSSION

Background

California cities and counties update their Housing Element every eight years (i.e. cycles) to comply with State regulations, which are overseen by HCD. This is the only element of the General Plan that is subject to State review and certification and is often utilized as an eligibility requirement for State housing and economic development grant opportunities. The City last updated the 2015-2023 Housing Element in 2014 (5th Housing Cycle) and the deadline to adopt the 2023-2031 Housing Element (6th Cycle) was December 31, 2023. The City was informed by State representatives that since the City was actively pursuing the State's approval since early 2023, the City is considered in good standing and will not be penalized.

PlaceWorks and City staff began outreach efforts on the Housing Element in fall of 2022. Since then, there have been numerous meetings on the housing issues facing Stockton, including property owner meetings to discuss opportunity sites for Land Inventory needed to comply with RHNA. The prominent feedback received from outreach meetings and public comment includes:

- Make zoning changes that remove barriers to developing housing,
- Provide adequate housing sites for all income groups, and
- Provide equal access to supportive services (disability, special housing needs, minority groups).

The following is a brief summary of the milestones completed and still remaining to obtain HCD certification:

- October 2022-April 2023: Housing Element outreach.
- April 12, 2023: Start of Public 30-Day Review
- June 6, 2023: Start of HCD 90-Day Review
- September 1, 2023: City Receives HCD Compliance Letter requesting revisions

- December 2023 & January 2024: Revised Housing Element posted to website
- February 6, 2024: Start of HCD 60-Day Review
- May 22, 2024: HCD indicates draft Housing Element complies with State law.
- June 13, 2024: Planning Commission approves recommendation to Council
- July 9, 2024: City Council Adoption Consideration
- July 2024: City Submittal to HCD for Certification

In addition to the Housing Element, State law requires General Plan Safety Elements to be updated after January 2022 to address new changes to State law. The update must identify evacuation routes in Stockton and assess their capacity, safety, and viability for emergencies. Since 2022, discussions occurred with City departments (Fire, Police, Public Works) culminating into public drafts circulated to the public and surrounding agencies involved with emergency planning. The result was to establish a map of existing evacuation routes and hazard zones, review infrastructure capacity, assess risks and vulnerabilities, and identify goals, policies, and implementation programs to reduce risk and vulnerability.

Present Situation

The following summarizes the content and main points for the proposed 2023-2031 Housing Element and revised Safety Element.

Housing Element

Changes made to the draft Housing Element since the Planning Commission's April 27, 2023, study session and HCD's generally compliant determination on April 5, 2024 include:

- Multiple Policy and Program amendments to address clarification on placed-based actions, additional actions for the Housing Action Plan (HAP) and development code, types of resources the City can provide, use of City-owned properties, options for maintaining land to accommodate housing capacity, and commitments to explore special housing topics (i.e., performance requirements, funding options) within the housing cycle.
- Clarification in the background report on farmworker demographics in the region, the City's adopted Local Homeless Action Plan (LHAP), regional trends, updated demographics, and details on the City's development process review times and local housing regulatory requirements.
- The Housing Inventory was updated based on feedback received from the State. This inventory is needed for the City to comply with its fair share of the State-required Regional Housing Needs Allocation (RHNA). The Inventory indicated that overall unit capacity for potential housing sites increased slightly, and there were some decreases in the City's surplus capacity for low- and moderate-income groups based on State denial of some proposed sites. Additional information was provided on approved private projects and city-owned land based on feedback from the State.
- Responses to public comments received in August and December 2023 incorporated into the latest draft Housing Element.

Attachment A (Draft 2023-2031 Housing Element) includes a link to the redline edits made to address HCD and public comments received since December 2023. All working drafts and supportive materials can be viewed and downloaded at the City's website at www.stocktonca.gov/ShapeStockton. A clean copy of the Housing Element is included as Exhibit 1 of the Proposed Resolution.

Safety Element

AB 747 and AB 1409 aim to ensure that local agencies adequately address the need for sufficient evacuation routes during a full-scale emergency. While Stockton does not have the same risks as other areas of the State or Nation (e.g., fire, tornados), it is not immune from major disasters. The three largest risks to the community are:

- Issue #1: Risk from Flooding (existing and due to climate change)
- Issue #2: Risk from Dam Inundation
- Issue #3: Severe heat (individual health risk and fire)

An analysis of evacuation scenarios was prepared to address the potential occurrence of major disasters and offers best-practice response and evacuation plans for residents, community members, and City staff (see Attachment B Safety Element Background Report). The objective is to create customized evacuation plans for three disaster scenarios. While flood, fire risks, and dam inundation remained the same, the vulnerability assessment identified climate-related risks and hazards such as drought, extreme heat, and severe weather. Based on the analysis findings, the following revisions to the General Plan's goals and policies are proposed. The actions will not alter existing emergency plans but are meant to guide future decisions when planning for land use and infrastructure.

- POLICY SAF-2.2: Enhance the effectiveness of evacuations in Stockton.
- Action SAF-2.2A: Require new development to provide adequate access for emergency vehicles and evacuation routes, including by designing roadway systems to provide multiple escape routes in the event of flooding or other emergencies.
- Action SAF-2.2B: Regularly review the City's evacuation maps and update as necessary.
- Action SAF-2.2C: Regularly share the City's evacuation maps with the public and property owners within flood zones.
- Action SAF-2.2D: Coordinate with transit and service providers to identify and advertise ways to evacuate in the event of a flood or other emergency for individuals with restricted mobility or those who may need additional assistance.
- Action SAF-2.2E: In partnership with the San Joaquin Council of Governments and other local agencies, retrofit potential evacuation routes to protect them against floodwaters and other emergencies, and ensure that they can provide viable paths out of Stockton.
- Action SAF-2.2F: Conduct door-to-door evacuation notifications in areas with limited access to reliable communication, particularly in frontline communities or those that may need the greatest advanced notification.

- Action SAF-2.2G: To the extent feasible in emergency conditions, phase evacuations to minimize roadway constraints and to allow all residents sufficient time to leave.

Attachment C (Draft Amended Safety Element) includes redlines to the existing Safety Element adopted in 2018, while a clean copy of the Safety Element is included as Exhibit 2 of the Proposed Resolution.

STAFF ANALYSIS

The City Council is asked to consider amendments to the General Plan for adoption of the 2023-2031 Housing Element and update to the Safety Element based on the following analysis.

State and Local Compliance

Housing Element

As indicated in the HCD Letter dated May 22, 2024, the State found the City's Draft 2023-2031 Housing Element generally in compliance with State housing law requirements (Attachment D - HCD Letter). In addition, the Housing Element does not conflict with any other General Plan Element or regulatory document. To fully comply with State Law, the City Council must adopt the Housing Element and submit to the State for Certification. Once Certified, the City will monitor action programs annually as required by law. Changes to supportive documents (i.e., Development Code, Housing Action Plans) will be completed after adoption of the Housing Element.

Safety Element

While the Safety Element is not approved by the State like the Housing Element, the proposed revision to the Safety Element has been reviewed by various departments and agencies and is found to be in compliance with the City's General Plan, the County's Local Hazard Mitigation Plan (LHMP), the City's Emergency Preparedness Plan, and with applicable State laws including the guidance issued by the Governor's Office of Planning and Research (OPR) and California Governor's Office of Emergency Services (CalOES).

Public Outreach

Between Fall 2022 and Spring 2023, as part of the overall Shape Stockton effort, City staff sent mailed notices to property owners, published dozens of notices to the Record, sent dozens of updates via e-mail blasts, hosted over fifteen (15) workshops, conducted dozens of interviews, and held numerous meetings with residents and stakeholders. Specifically for the Housing Element, those workshops include:

- September 14, 2022: Land Inventory Public Workshop #1
- October 19, 2022: Housing Element/Housing Action Plan Kick-Off Meeting
- February 28, 2023: Land Inventory Public Workshop #2
- April 10, 2023: Housing Element Public Workshop #2
- April 27, 2023: Planning Commission Housing Element Working-Session

The Housing Element workshops were intended to introduce the Housing Element Update project, encourage feedback on potential sites and issues, provide a draft document for comment, and provide responses and edits to address those comments received. The draft 6th Cycle (2023-2031) Housing Element was circulated to residents, stakeholders, and City departments for comments in April, August, and December 2023, and again in February and April 2024. Based on feedback in 2023 and 2024, the final Draft Housing Element was revised and submitted to HCD on April 29, 2024.

In addition, given that this effort requires a General Plan Amendment, the Project was circulated to State and regional tribal representatives in accordance with Senate Bill 18 (2004) with no additional mitigation measures proposed by the groups contacted. As required by State law, the draft Safety Element was circulated to the Central Valley Flood Protection Board, San Joaquin County Flood Control, and Water Conservation District, with no comments submitted as of writing this report.

Environmental Analysis

No further environmental review is required under CEQA for General Plan amendments pursuant to Section 15183 (consistency with the development density established by existing zoning, community plan, or general). Changes to Housing and Safety Elements are required by State law and provide additional information to reaffirm and clarify objectives, but do not alter land use designations, zoning, or development intensity, or result in an indirect or direct physical change to the environment. Therefore, the changes are consistent with the General Plan and General Plan Environmental Impact Report (EIR) provided under Section 15183, and no further environmental review is required.

Planning Commission

On June 13, 2024, the Planning Commission voted 5-0 (two members absent) recommending the City Council adopt the 2023-2031 Housing Element and update to the Safety Element (see Attachment E - Planning Commission Approved Resolution).

Public Notice

Notice for the City Council public hearing for this request was published in *The Record* on June 27, 2024. Copies of the notices were sent to all stakeholders and interested residents from the Shape Stockton contact group, which consists of over 500 individuals. As of the publication of this report, no written comments have been received.

FINANCIAL SUMMARY

While there is no financial impact on the City for the adoption, a certified Housing Element allows the City to submit for funding related to housing. Most of the funds for consultant time was reimbursed by the Local Early Action Planning (LEAP) grants given to the City from the state in 2022.

DRAFT

1 OVERVIEW

1.1 PURPOSE AND CONTENT

The Hazard Protection section of the Stockton Safety Element is one of the state-mandated general plan elements and must identify potential natural and human-created hazards that could affect Stockton's residents, businesses, and services. The purpose of the Safety Element is to establish a framework that anticipates these hazards and prepares the community to minimize exposure to these risks.

The Safety Element conveys the City's goals, policies, and actions to minimize the hazardous situations and protect and improve public health in and around Stockton. It identifies the natural and human-caused hazards that affect existing and future development, describes present and expected future conditions, and sets policies and standards for improved public safety. This includes efforts to minimize physical harm to the buildings and infrastructure in and around Stockton to reduce damage to local economic systems, community services, and ecosystems.

Some degree of risk is inevitable because the potential for many disasters cannot be eliminated completely, and the ability to predict such disasters is limited. However, the Safety Element aims to reduce this risk by:

- Developing a framework by which safety considerations are introduced into the land use planning process.
- Establishing a policy framework for periodic updates of the hazard mitigation plan.
- Facilitating the identification and mitigation of hazards for new development, and strengthening existing codes, project review, and permitting processes.
- Presenting policies directed at identifying and reducing hazards in existing developed areas.
- Strengthening preparedness planning and postdisaster reconstruction policies for earthquake, flood, dam inundation, wildland fire, and other relevant hazards.
- Identifying how natural and climate-related hazards are likely to increase in frequency and intensity in the future and providing policies to increase community resilience through preparedness and adaptation.

The Safety Element addresses the topic of public health and safety following state requirements in Section 65302(g) of the California Government Code. State law requires that the Safety Element contain background information and policies to address multiple natural hazards, analyze the vulnerabilities from climate change and contain policies to improve climate change resilience, and assess residential areas with evacuation constraints. The public safety issues in Stockton include public safety, seismic and geologic hazards, flood and inundation hazards, hazardous materials, drought, fire, and climate change hazards including ecosystem pests, extreme heat, and severe weather. The Safety Element identifies goals and policies for each of these hazards.

1.2 RELATIONSHIP TO OTHER DOCUMENTS

The Stockton Safety Element is one of several plans that address community public safety and related topics. These other plans include other General Plan elements, the 2022 San Joaquin County Emergency Operations Plan, and various local regulations. The Safety Element should be consistent with these other elements and plans to minimize conflicts between documents and ensure that the City has a unified strategy to address public safety issues. The Safety Element incorporates information, technical analyses, and policies from these other documents where appropriate to help support this consistency.

1.2.4 General Plan Elements

The City Council adopted the Envision Stockton 2040 General Plan in 2018. Its six chapters are:

- Introduction
- Planning Framework
- Land Use (containing the Land Use, Open Space, and Conservation Elements)
- Transportation (containing the Circulation and Land Use Elements)
- Safety (containing the Safety and Noise Elements)
- Community Health (containing the Land Use, Environmental Justice, Conservation, and Air Quality Elements)

The Safety Element provides policy direction and identifies safety improvements that complement the intent and policies of other General Plan elements. Crucial

relationships exist between the Safety Element and the other General Plan elements. How land uses are determined in areas prone to natural hazards, what regulations limit development in these areas, and how hazards are mitigated for existing development, are among the issues that tie the elements together.

Environmental justice concerns discussed in the Community Health chapter may exacerbate residents' vulnerability to environmental hazards. The Open Space and Conservation Elements in the Land Use chapter are closely tied to the Safety Element. Floodplains, for example, are not only hazard areas, but often serve as sensitive habitat for threatened or endangered species or provide recreation or passive open space opportunities for residents and visitors. Therefore, flood and inundation policies balance the need to protect public health and safety with the need to protect habitat and open space. Community Health and Safety chapters policies, especially those concerning evacuation routes and critical facilities, must also be consistent with those of the Transportation chapter. This Safety Element is consistent with the other elements of the Stockton General Plan.

1.2.5 San Joaquin County Emergency Operations Plan

The EOP describes the planned response to extraordinary emergency situations associated with natural disasters, technological (human-caused) emergencies, and war emergency operations in or affecting San Joaquin County. The EOP establishes an emergency management structure that coordinates and supports on-scene responses, including maintenance of situational awareness, facilitation of effective communication between operations centers at various levels of government, continuity of government, and interaction with public information sources; establishes the overall operational concepts associated with the management of incidents, emergencies, crises, disasters, and catastrophes at the county and city levels; and provides a flexible platform for planning and response to all hazards, incidents, events, and emergencies believed to be important to the operational area. It is applicable to a wide variety of anticipated events, including floods, droughts, earthquakes, and public health issues.

1.3 COMMUNITY PROFILE

Founded in 1849 and incorporated in 1850, the City of Stockton is one of the oldest incorporated cities in California and the current seat of San Joaquin County. In 1922, Stockton city voters approved a city charter (municipal constitution) with a city council–manager form of government that is still being used today. With a population of approximately 322,489, Stockton is one of the largest cities in the Central Valley. It is in Northern California, south of Sacramento and north of Modesto; surrounded by farmland; and along Interstate 5, State Route 99, and State Route 4. It is connected to San Francisco Bay by the San Joaquin River, and is, with Sacramento, one of the state's two inland seaports. The Stockton Municipal Airport, just south of the city limit, provides commercial passenger service to limited destinations, along with air cargo service and other operations.

Historically, Stockton's major economic endeavors have revolved around agriculture and shipping, including ship building. Stockton's unique position as an inland seaport adjacent to agricultural land continues to influence the local economy. Today, major economic drivers include the construction, manufacturing, and engineering industries; e-commerce and logistics; education services; food processing; and healthcare services. Major employers include the Stockton Unified School District, St. Joseph's Medical Center, Amazon, the City of Stockton, and San Joaquin County.

In and around Stockton are thousands of miles of waterways and rivers that make up the California Delta. Local climate is generally characterized by warm, dry summers and mild winters. The historical average high temperature is 74.2°F, and the historical average low is 47.3°F. The city receives an average of 14.5 inches of rain per year.¹

Stockton's long history is marked by periods of systemic economic and racial discrimination. South Stockton was redlined by the Home Owners Loan Corporation in the 1930s, discouraging lenders from offering loans in the area. The Federal Housing Administration (FHA) and the Veteran's Administration used the HOLC maps for underwriting, meaning residents of redlined communities could not benefit from federal mortgage subsidies the way white homebuyers and businesses could. This policy

reinforced segregation and led to disinvestment in redlined neighborhoods. Historical redlining has been shown to correlate closely with the present-day environmental quality and injustices in Stockton. Therefore, it is not surprising that historically redlined communities in Stockton also have higher social vulnerability than other neighborhoods in the city.²

1.3 CLIMATE CHANGE VULNERABILITY

Changes to the global climate system are expected to affect future occurrences of natural hazards in and around Stockton. Many hazards are projected to become more frequent and intense in coming years and decades, and in some cases, these changes have already begun. Key effects of climate change that affect Stockton include increasing temperatures, changes in precipitation, and sea level rise. Overall, precipitation levels are expected to increase slightly; however, there are likely to be more years of extreme precipitation events and droughts that last longer and are more severe.

Both droughts and floods are expected to become more frequent and intense. Although Stockton is likely to experience only a slight increase in overall annual precipitation levels from climate change, rainfall is expected to fall in fewer, extreme precipitation events.

Drought conditions will likely strain the water supplies obtained from the Stockton East Water District, causing the water shortage contingency plan and demand-reduction actions to go into effect more frequently. Droughts also cause soil to dry out and condense, meaning that when precipitation does return, water will be more likely to run off the surface rather than being absorbed into the ground, which can lead to floods.

High intensity and potentially catastrophic flooding is expected to occur more frequently in Stockton as a result of heavy rain events, which may overwhelm stormwater systems, flood the San Joaquin and Calaveras Rivers, and contribute to levee failure. Sea level rise will further exacerbate the risk of levee failure and flooding.

Sea level rise is a gradual process, taking place over years or decades. Because Stockton is not immediately on the coast, it is not affected by sea level rise as directly as a coastal community might be, and there is uncertainty regarding which parts of the city will be most affected by

What is vulnerability?

Vulnerability is the degree to which natural, built, and human systems are susceptible to harm from exposure to stresses associated with environmental and social change and from the absence of a capacity to adapt.

Source: California Governor's Office of Emergency Services. 2020. California Adaptation Planning Guide. <https://www.caloes.ca.gov/climate>.

sea level rise. However, sea level rise will cause water levels in the San Joaquin River Delta to rise, increasing the risk of flooding and threatening the integrity of the region's levees. Saltwater intrusion due to sea level rise can also harm local ecosystems and agricultural production and increase the salinity levels of local groundwater supplies.

Severe weather events, such as lightning, hail, heavy rainfall, and high winds, may become more frequent and intense due to climate change. Climate change is expected to cause an increase in intense rainfall, which is usually associated with strong storm systems. Heavy rainfall may also contribute to an increased risk of inland flooding. Though landslide risk in Stockton is generally low, severe weather could exacerbate this risk.

Warmer temperatures are projected to cause an increase in extreme heat events. The number of extreme heat days—defined in Stockton as a day when the high temperature is at least 102.3°F—is expected to rise from a historical annual average of 4 days per year to 23 days per year by the middle of the century (2035 to 2064), and to an average of 44 days per year by the end of the century (2070 to 2099). In addition, Stockton is expected to see an increase in the number of warm nights—defined in Stockton as a night when the minimum temperatures stay above 66°F—from a historical annual average of 4 nights per year to 27 nights per year by the middle of the century (2035 to 2064), and to an average of 66 nights per year by the end of the century (2070 to 2099). Extreme heat and warm nights pose a significant human health risk, especially to senior citizens, outdoor workers, and persons who do not have access to adequate cooling, including people experiencing homelessness. Some buildings and infrastructure systems may be damaged by very high

temperatures, constraining their ability to meet community needs.

Hotter, drier weather because of climate change is expected to lead to an increase in wildfires across Northern California. Wildfire risk in Stockton is generally low. However, air quality in the city could be negatively impacted by smoke from wildfires burning in other parts of the state.

Climate change can increase the rates of infection and pest infestation for plants and animals because many of the pests that spread diseases are more active during warmer weather. There are a number of diseases that are linked to climate change and can be harmful to the health of Stockton community members, such as hantavirus pulmonary syndrome, Lyme disease, West Nile fever, and Valley Fever. Many of these diseases are carried by mice and rats, ticks, mosquitos, and other pests. Weeds, insects, and diseases such as bark beetles and Sudden Oak Death can impact local agricultural operations and ecosystems. Warmer temperatures earlier in the spring and later in the winter can cause these animals to be active for longer periods, increasing the time that diseases can be transmitted.

1.4.4 Vulnerability Assessment Results

Under California law, the Safety Element is required to include a vulnerability assessment that looks at how people, buildings, infrastructure, and other key community assets may be affected by climate change. The City conducted a Climate Change Vulnerability Assessment in the winter of 2023 to analyze Stockton's susceptibility to climate-related hazards. Stockton's vulnerability assessment, prepared in accordance with the most recent available guidance in the *California Adaptation Planning Guide*, assesses how nine climate-related hazards (agricultural and ecosystem pests, drought, extreme heat and warm nights, human health hazards, inland flooding, landslides, sea level rise, severe weather, and wildfire and smoke) may affect 62 different population groups and community assets.

Each population or asset received a score of V1 (minimal vulnerability) to V5 (severe vulnerability) for each climate-related hazard. The Climate Change Vulnerability Assessment indicates that Stockton's populations and assets are most vulnerable to inland flooding and sea level rise, followed by extreme heat, severe weather, wildfire and

smoke, and human health hazards. The most vulnerable communities include low-resourced people of color, outdoor workers, and individuals experiencing homelessness, all of whom are highly vulnerable to extreme heat, human health hazards, inland flooding, sea level rise, severe weather, and poor air quality due to wildfire. Additional highly vulnerable populations include households in poverty; immigrant communities; persons with chronic illnesses or disabilities; people without access to lifelines such as private vehicles, internet, and phone service; seniors; seniors living alone; and unemployed persons.

Citywide, energy delivery is vulnerable to multiple hazards, including severe weather and flooding that can damage or down power lines or flood or undermine substations. It is also vulnerable extreme heat, which reduces the transmission capacity and strains the system, ultimately disrupting energy service. Extreme heat can also lead to power outages by causing mechanical failure of grid equipment, heat damage to power lines, and creating a high demand for electricity to power air conditioners, all of which place stress on the network and lead to rolling blackouts.

Public safety power shutoff (PSPS) events or interruptions in energy service due to extreme heat can create vulnerabilities for Stockton community members. A loss of electricity can cause a loss of refrigeration for food and medical supplies; limit cooking; and cause loss of cooling (particularly dangerous during extreme heat events), lighting, and limited or no access to the Internet or other information systems. Many businesses are forced to close during a power outage, causing economic hardships and depriving community members of important services, such as grocery stores, gas stations, and banks/ATMs. Power outages may also be harmful to people who depend on electrically powered medical devices.

The combined effects of flooding and sea level rise could cause significant damage and disruption to the majority of the city's infrastructural systems, structures, economic drivers, and community services. Transportation infrastructure, including bridges, roads, and railways, are all vulnerable to flood damage. SR-4 from Stockton west to Contra Costa County plays an important role in economic development, daily commutes, shipping for agricultural products and other goods, and evacuation

ATTACHMENT B - Safety Element Background Report

from the San Joaquin Delta in the event of flooding. This route runs through the 100-year floodplain and crosses areas that are projected to be flooded under one foot of sea level rise (plus storm) scenarios. It is important to reduce flood risk along this roadway because it serves a rural area with few alternative routes.³ Impacts to the transit system are a major concern for the South Stockton neighborhood, which has a disproportionately high percentage of transportation-disadvantaged communities.* Several bus stops in downtown Stockton are within the 100-year floodplain, and the vast majority of bus stops surrounding transit-dependent census tracts in the Hammer Triangle area and the Harrell Park area are within the 500-year floodplain.⁴

Rail lines can be damaged by intermittent flooding. High water levels, particularly fast-moving flows, can damage railroad bridges and rail lines. These impacts cause increased wear and tear on infrastructure, increasing maintenance costs and disruptions during construction and repair activities.⁵ When flood water rises above the rails, trains must reduce their speed to prevent damage to the train, slowing the movement of goods and people. The Union Pacific Railroad Stockton Railyard is immediately surrounded by a 500-year floodplain. The BNSF Intermodal Railyard is in the 100-year floodplain. Flooding of these areas could cause widespread economic impacts and subject nearby communities to health risks associated with exposure to hazardous materials.⁶

Ports, including the Port of Stockton, are particularly vulnerable to flooding because they depend on the waterfront and have limited ability to relocate. While the Port generally has 100-year flood protection, some of its access roads do not. Most terminals of the Port of Stockton are projected to be exposed to flooding by midcentury, and the entire port is projected to be exposed by end of century.⁷ Flooding at the Port of Stockton could interrupt the Port's operations, with potentially significant regional economic impacts.

Much of the Delta's energy industry may be exposed to flooding in the future, with the greatest number of exposed assets in San Joaquin County. Energy infrastructure has a

high sensitivity to flooding. Associated facilities are typically complex, with many electrical and mechanical components that are susceptible to flood damage. Energy facilities also rely on a network of at- or below-grade pipelines and transmission lines to distribute natural gas and power throughout the region. Large floods may cause scouring or removal of sediment around pipelines, creating support issues or damage. Submergence of pipes can also cause them to float or become displaced due to buoyancy effects. Depending on the materials, exposure to saltwater flooding may corrode transmission pipes, requiring replacement before the end of the project's design life and/or impediments to access for maintenance and inspections.⁸

The City's water and wastewater treatment infrastructure are also vulnerable to flooding and sea level rise. Water pipes, wells, and water intake and treatment infrastructure systems could be inundated by flood waters and sea level rise. Wastewater treatment plants (WWTP) contain numerous treatment basins that may be overwhelmed during a flood, resulting in sewage overflows. Damage to WWTPs could cause backup and overflows of untreated sewage into adjacent neighborhoods and waterways, which could cause serious public health and environmental impacts.⁹ Long-term sea level rise can exacerbate wet weather flows into WWTPs.

Sea level rise is expected to place stress on the operation of the State Water Project and Central Valley Project and the ability of these projects to continue to meet water quality requirements in the Delta. Salinity intrusion into the Delta and San Joaquin Valley Groundwater Basin is exacerbated by both sea level rise and drought.¹⁰ Water treatment plants can be corroded and damaged by salt water, preventing the plants from functioning as needed.

Sea level rise and changes in hydrological patterns in Delta watersheds will place greater stress on the Delta's flood management infrastructure, such as Delta levees and upstream reservoirs. Most of the Delta's flood management infrastructure are designed to operate under historical sea level and hydrologic conditions that do not consider potential future climate change. Changing

* The U.S. Department of Transportation identifies transportation-disadvantaged communities as places where residents spend more and take longer to get where they need to go. Indicators considered when determining a community's degree of transportation disadvantage include the percentage of the population that does not have access to a vehicle, commute length, walkability, and transportation costs as a percentage of household income.

climate conditions will place greater stress on the flood management system in the future.¹¹ Levees may be overtopped or damaged by rising sea levels, reducing their flood protection benefits. Damage to Stockton's key infrastructure systems could have significant impacts on the economy, provision of basic services, and public health and safety. Floodwaters and sea level rise can also damage homes, schools, medical buildings, and businesses.

Though Stockton is most vulnerable to extreme heat, flooding, and sea level rise, other hazards may also damage buildings and infrastructure, interrupt community services and economic activity, threaten public health and well-being, and harm ecosystems. These include increases in agricultural and ecosystem pests, drought, human health hazards, landslides (in limited areas), severe weather, and wildfire and smoke events. Agricultural and ecosystem pests may make plant communities more vulnerable to the effects of other climate stressors such as drought and may impact the operations of the local food processing industry. Drought may harm local ecosystems and the communities and industries that depend on them, as well as facilitate saltwater intrusion and declines in local water quality. Overall landslide risk in the city is low, but landslides may damage buildings and roads in select areas (see Figure 3). Stockton is most likely to experience the effects of wildfire through increased exposure to wildfire smoke, which poses a threat to public health. Outdoor workers, those with chronic health conditions, those experiencing homelessness, and those lacking access to adequate air filtration systems are most vulnerable to the impacts of wildfire smoke.

The Safety Element includes goals, policies, and implementation actions to increase community resilience and help lower vulnerability scores, particularly for the populations and assets that received a score of V4 or V5 in the Vulnerability Assessment. A full list of the Vulnerability Assessment results is in **Appendix A**.

2 PUBLIC SAFETY ISSUES

This section outlines the existing and likely future hazardous conditions and other public safety issues in Stockton and the policy responses to these issues. The public safety issues include:

- Public safety
- Seismic and geologic hazards
- Flood and inundation hazards
- Hazardous materials
- Drought
- Fire Hazards
- Agricultural and ecosystem pests
- Extreme heat
- Severe weather

This section provides details about the locations each hazard or issue is likely, past notable events in and around Stockton, agencies responsible for providing protection from these public safety issues, and other background information required by the State of California Government Code Section 65302(g)(4).

The results of the Vulnerability Assessment are integrated into the hazards and other public safety issues previously mentioned.

2.1 PUBLIC SAFETY

2.1.4 Public Safety Services

The Stockton Police Department (SPD) and Fire Department (SFD) provide essential services to keep the community safe.

2.1.4.1 Stockton Police Department

Stockton has one police station within the city limits, with two additional stations in the city's sphere of influence, and provides 1.5 sworn officers per 1,000 residents.

The SPD provides service to a 65-square-mile area and is organized into two bureaus: the Operations Bureau, which includes the Field Operations, Special Operations, Investigations Divisions; and the Logistics Bureau, which includes the Technical Services and Administrative Services Divisions. These divisions provide patrol, investigation, law enforcement, apprehension, and community programs in Stockton. Other special programs in the SPD include Special Weapons and Tactics Team (SWAT), Crisis Negotiations Team, Community Response Teams (CRT), Explosive Ordnance Disposal (EOD) Team, Mobile Field

ATTACHMENT B - Safety Element Background Report

Force, and Canine Unit. The animal service section is included as part of the Administrative Services Division, which provides contracted shelter services to San Joaquin County.

The SPD maintains an average response time of five minutes or less for priority one calls (where a threat to persons may exist).

2.1.4.2 Stockton Fire Department

Stockton contains 13 fire stations throughout the city, with 1.23 sworn firefighters per 1,000 residents. The SFD mission is centered on providing emergency and nonemergency services through public education, prevention, and suppression and rescue activities. Fire prevention and response services include fire suppression, code enforcement, fire safety education, fire investigation, and special services such as plan checking and fire code operation permits. The SFD is an all-hazard fire department, capable of mitigating all types of both human-made and natural disasters. As such, the SFD contains the following specialized teams:

- **Hazardous Materials Team:** A California Office of Emergency Services Type II Hazardous Materials Team staffed with seven personnel daily, trained to the Hazardous Materials Technician and Specialist level.
- **Water Rescue Team:** Staffed by a team of four personnel daily, the water rescue team is capable of both surface and subsurface water rescues, helping to protect over 1,000 miles of waterways surrounding the city. The team has specialty apparatus including personal watercraft, inflatable boats, and a water rescue vehicle.
- **Urban Search and Rescue (USAR) Team:** Staffed by a team of seven personnel daily, the USAR Team is trained in rope rescue, confined space rescue, trench rescue, and building collapse. The team utilizes specialty apparatus including a Type I heavy rescue and a California Office of Emergency Services rescue trailer.

The SFD maintains mutual aid agreements with the Lincoln, Tuxedo-Country Club, Boggs Tract, and Eastside Fire Districts and formal reciprocal agreements with the Woodbridge Fire Protection District, City of Lodi Fire Department, and Cosumnes Fire Department in Elk Grove.

The City and San Joaquin County coordinate response in emergency situations.

The SFD also supports the Community Emergency Response Team (CERT), which provides training to residents and members of the business community to increase disaster awareness and emergency response capacity.

The first arriving engine company typically arrives at the incident scene within 240 seconds. For low-rise structures, deployment of an initial full alarm assignment occurs within 480 seconds. For high-rise structures, deployment of an initial full alarm assignment occurs within 610 seconds.

2.1.5 Funding for Public Safety

Measure W was approved by voters November 2, 2004. It was originally adopted by Ordinance 038-04 C.S. and is codified in Section 3.52 of the Stockton Municipal Code, Funding for Police and Fire Protection. The ordinance provides for a ¼-cent transaction and use tax, a tax dedicated to providing for police and fire personnel and services. The ordinance calls for Program Guidelines, which were developed and adopted by the City Council on August 4, 2004. The Program Guidelines prescribe two methods of ensuring that tax monies are used as specified by the ordinance—an independent audit and a citizen's committee. Measure W provides funding for 23 suppression positions in the SFD.

2.1.6 Emergency Response

The City maintains an EOP that addresses the City's planned response to natural disasters and public health emergencies. The plan is intended to facilitate multi-agency and multi-jurisdictional coordination, particularly between the City of Stockton and its jurisdictions, including special districts, utilities, major businesses, and other government agencies.

The Stockton Municipal Code, Chapter 2.82, Emergency Organization and Functions, establishes that the City Manager is delegated to act as the Director of Emergency Services. In this role, the City Manager is authorized to manage the emergency events of the city, as well as to develop, modify, and take other actions as may be necessary to maintain and implement the City's emergency response.

ATTACHMENT B - Safety Element Background Report

When emergency conditions exceed or have the potential to exceed local resources and capabilities, the City may request, through the County, that the governor proclaim a state of emergency.

2.1.7 Community Warning Systems

San Joaquin County has partnered with Everbridge, a public warning platform, to implement SJREADY, a community notification system to alert residents about emergency events and other important public safety information. This system allows San Joaquin County to provide residents with critical information quickly in a variety of situations, such as severe weather, unexpected road closures, and evacuations of neighborhoods and buildings.

Other emergency alert systems include notifications through broadcasters, cable television systems, and digital audio services, among others. These systems may be used by state and local authorities in cooperation with the broadcast community to deliver important emergency information, such as weather information, imminent threats, AMBER alerts, and local incident information targeted to specific areas. San Joaquin Office of Emergency Services has historically used this system to provide real-time information to citizens about evacuations, flood dangers, and other emergencies in our county.

2.1.3 Emergency Evacuation

With advanced warning, evacuation can be effective in reducing injury and loss of life during a catastrophic event. The San Joaquin County Office of Emergency Services has prepared an evacuation plan for response to flooding due to failure of a levee or dike. The evacuation plan includes routes for people evacuating by car; rally points for people needing assistance evacuating; and instructions for evacuation and safety during a flood.

Figure 1 shows major evacuation routes in Stockton. The city has numerous roadways that may be called upon for evacuation in the event of an emergency. Major evacuation routes include SR-4, SR-26, SR-88, I-5, Airport Way, S El Dorado Street, W 8th Avenue, E Mariposa Road, Charter Way, Martin Luther King Jr Blvd, Hazelton Ave, E Main St, Weber Ave, W Park St, E Fremont St, Waterloo Blvd, W Harding Way, Cherokee Rd, N El Dorado St, Pacific Ave, Telegraph Ave, W Alpine Ave, Pershing Ave, Pacific Ave, N El Dorado St, E March Ln, N Wilson Way,

Holman Rd, E Hammer Ln, Morada Ln, Davis Rd, Thornton Rd, and W Eight Mile Rd. If there is a need for an evacuation, emergency responders will direct community members to the suitable evacuation routes given the specific needs and characteristics of the emergency.

Figure 1 also shows residential parcels with evacuation constraints, as required by Senate Bill 99, meaning that they are at least a half mile from a major roadway and may have access to only one emergency evacuation route. The lack of multiple emergency access points limits roadway access for these properties, which may create difficulties if there is a need to evacuate. Clusters of evacuation-constrained parcels are located throughout the city. Large clusters occur along the western edge of the city, especially in areas west of I-5 and north of Hammer Ln.

2.1.4 Evacuation Constraints Analysis

As a part of the work to prepare the Safety Element, the City has identified the level of evacuation constraints in different parts of Stockton under four different emergency scenarios:

- A major flood, inundating both the 100-year and 500-year flood plains and resulting in city-wide levee failures.
- Areas at risk of inundation from sea level rise by 2050.
- Areas at risk of inundation from sea level rise by 2085.
- Areas in the inundation zone of one or more dams.

The City has modeled potential evacuation times under these four scenarios. There are two sets of modeling results for each of the four scenarios. The first set assumes that all evacuees will be able to travel at the maximum speed limit along local roads and highways. The second set assumes that all evacuees will be limited to a top speed of 5 miles per hour due to roadway constraints. Evacuees may be able to travel at the maximum speed limit in some instances, especially in the case of smaller evacuations or those that have enough advance warning to adequately phase the evacuations. In a mass, sudden evacuation, lower speeds are more likely.

This modeling uses a geographic information system (GIS) software to model travel times between residential areas in the affected hazard zones and points called “evacuation gateways”. These are access points out of Stockton, both highways and surface streets, that would not be blocked by the hazard event (including being blocked outside of Stockton’s borders, before evacuees could reach another community). These gateways are not ultimate destinations to which evacuees are traveling, but are points along roadways where they can safely consider themselves evacuated from Stockton once they have reached this point. The more widespread the hazard, the more potential evacuation gateways are blocked, forcing evacuees to use a smaller number of gateways, creating additional constraints. This modeling assumes a single car per evacuating residential property. The modeling also assumes some additional residential development in areas that are currently used for agriculture or open space, and includes modeling of unincorporated areas within the Stockton’s sphere of influence.

Figures 2 through 9 show the results of the four scenarios under the two different speed results. Even under the smaller evacuation scenarios, all viable evacuation gateways are in northeast, east, and southeast Stockton. Under the more widespread evacuation scenarios, evacuation gateways are further limited to east or southeast Stockton. If evacuees can travel at the maximum legal speed, almost all of Stockton can be safely evacuated in approximately 30 minutes or less, although some areas in east Stockton may take longer. If evacuees can only travel at 5 miles per hour, evacuation times become significantly longer. Most of the evacuating areas would need an hour or more to reach an evacuation gateway, with some locations taking longer than three hours.

Many groups are likely to face higher levels of evacuation constraints, especially as flooding and other emergency events increase in frequency and severity. Disabled persons and those with access and functional needs, persons without access to a reliable personal vehicle, and similar groups are often most at risk. These persons may not be able to evacuate on their own and would require assistance from the City or other government agencies, community groups, or others (such as neighbors, family, or friends) to safely leave their homes. Stockton residents who have limited English proficiency or lack access to reliable communications face evacuation constraints because they may not receive accurate or timely evacuation notices. Independent of other factors, residents in west Stockton generally face a greater level of constraints because they are typically located further from safe ways out of the community.

There are several steps Stockton can take to prepare for evacuations and improve their effectiveness:

- Develop plans to safely evacuate Stockton residents who do not have reliable access to a private vehicle or would otherwise need assistance evacuating. This can include using transit vehicles, school buses, and other van and bus fleets to provide evacuation support.
- Look at establishing shelter-in-place locations throughout Stockton, especially in areas with high levels of evacuation constraints, that are adequately protected against flooding and other hazards. For people who are unable to safely evacuate the city, these locations can provide a safe point of refuge. They should be combined with resilience centers whenever possible.
- If an evacuation is necessary, provide as much advanced warning as possible. As the situation allows, provide phased evacuation notices so that those who need the most time to evacuate are alerted first.
- In areas with low levels of English proficiency or access to communication systems, conduct in-person evacuation noticing. Be sure to provide information in multiple languages.
- Work with the San Joaquin County Council of Governments and other relevant agencies to elevate or otherwise protect evacuation routes and gateways, increasing the number of safe paths out of Stockton.

The policies included in the Safety Element address these issues.

2.2 SEISMIC AND GEOLOGIC HAZARDS

Seismic and geologic hazards are risks caused by the movement of the Earth's surface, or crust. Seismic hazards are earthquakes and related hazards. Geologic hazards are other hazards involving land movements that are not linked to seismic activity.

2.2.4 Seismic Hazards

Seismic activity occurs along boundaries in the Earth's crust called faults. Pressure along the faults builds over time and is ultimately released, resulting in ground shaking

that we refer to as an earthquake. Earthquakes can also trigger other hazards, including surface rupture (cracks in the ground surface), liquefaction (causing loose soil to lose its strength), landslides, and subsidence (sinking of the ground surface). Earthquakes and other seismic hazards often damage or destroy property and public infrastructure, including utility lines, and falling objects or structures pose a risk of injury or death.

Earthquakes

An earthquake has the potential to cause significant damage to life and property.

The Working Group on California Earthquake Probabilities—a collaborative effort involving the US Geological Survey, the California Geological Survey, and the Southern California Earthquake Center—estimates that the 30-year probability of a magnitude 6.7 or greater earthquake striking the nearby San Francisco Bay area is 63 percent. The Hayward Fault, a major earthquake fault in the San Francisco Bay region, lies roughly 40 miles west-southwest of Stockton. Recent seismological research concluded that the average earthquake recurrence interval on this fault is approximately 138 years, and the forecast probability of an earthquake of magnitude 6.7 or greater by 2036 is greater than 31 percent.

The Greenville Fault lies much closer to the city (i.e., estimated 22 miles), although its forecast activity is far less than the Hayward Fault. The maximum probable earthquake is estimated to be magnitude 6.0, and the probability of an earthquake of magnitude 6.7 or greater along this fault by 2036 is 3 percent.¹² Figure 10 shows the location of faults around Stockton.

An earthquake of moderate to high magnitude generated in the nearby San Francisco Bay area could cause significant ground shaking in the Stockton area. This ground shaking could cause damage to structures and foundations not designed to resist those forces. Underground utility lines are also susceptible where they lack sufficient flexibility to accommodate seismic ground motion. If an earthquake of this magnitude were to occur, most parts of Stockton could experience potential casualties and damage from collapsed buildings, damaged roads and bridges, fires, flooding, and other threats to life and property. Modeling from the US Geological Survey suggests that the shaking in Stockton

would be considered “moderate” to “very strong” in the event of a major Bay area earthquake.

Comparatively few subsurface faults have been mapped in the northern part of the San Joaquin Valley, and the largest of these is the Stockton Fault, which runs east-west across the city’s planning area. The fault is not exposed at the surface and is not recently active, with most of the known activity during the Oligocene and early Miocene epochs (i.e., approx. 10 to 30 million years before present). Furthermore, the Stockton Fault has not been classified as an “active” fault by the California Geological Survey.

In the event of an earthquake, the location of the epicenter, as well as the time of day and season of the year, would have a profound effect on the number of deaths and casualties and the extent of property damage. There are several small-scale earthquakes that happen weekly and are barely felt or not felt at all by people, but larger-scale or catastrophic shaking is less likely. Nevertheless, property and human life in Stockton are at some risk for a significant earthquake causing substantial damage and strains on response and mitigation resources.

Most of the loss of life and injuries from earthquakes are due to damage and collapse of buildings and structures. Building codes for new construction have generally been made more stringent following damaging earthquakes. However, in Stockton, structures built prior to the enactment of these improved building codes have generally not been upgraded to current standards and are vulnerable in earthquakes. In Stockton, 52,737 homes, or 51 percent of all housing in the community, were constructed prior to 1980.¹³ The damage caused by earthquakes may trigger secondary hazards, including urban fires, dam failures, and toxic chemical releases.

Liquefaction

In addition to the direct physical damage that can result from the motion of the earthquake, damage can result from liquefaction. Liquefaction occurs where water-logged soils near the ground surface lose compaction during strong ground motion, causing the soils to lose strength and behave as a liquid. This can cause building foundations to shift and can result in significant structural damage. Soils susceptible to liquefaction are typically found in areas of low-lying, current, or former floodplains containing moist, fine-grained sediment.

Liquefaction is most often triggered by seismic shaking, but it can also be caused by improper grading, landslides, or other factors. The potential for liquefaction is greatest in areas underlain by bay mud or alluvium. Buildings in areas that experience liquefaction may suddenly subside and suffer major structural damage. There are no liquefaction zones mapped in or around Stockton, although there may still be a risk of liquefaction in the community.

2.2.5 Geologic Hazards

Geologic hazards such as subsidence, landslides, liquefaction, and erosion depend on the geologic composition of the area.

Landslides

Landslides are gravity-driven movements of earth materials that can include rock, soil, unconsolidated sediment, or combinations of such materials. The rate of landslide movement can vary considerably; some move rapidly, as in a soil or rock avalanche, and others creep or move slowly for long periods of time. The susceptibility of a given area to landslides depends on many variables, but some of the more important contributing factors are:

- Slope material: Loose, unconsolidated soil and weakly hardened or highly fractured bedrock are more prone to landslides.
- Slope steepness: Most landslides occur on moderate to steep slopes.
- Structural geometry: The orientation of soils or bedrock layers and their relationship to the ground surface can affect landslide probability.
- Moisture: Increased moisture in subsurface soil, bedrock pores, or bedrock fractures can increase the likelihood of a landslide due to decreased internal friction and increased weight of the earth materials.
- Vegetation: Well-established vegetation and the associated root structures help promote slope stability.
- Eroded slopes or human-made cuts: Proximity to eroded faces in soil or bedrock, as well as proximity to cut (i.e., excavated) slope faces, can increase landslide potential.
- Seismic shaking: Strong seismic shaking can trigger landslides in otherwise stable slopes or loosen the slope materials so they are more prone to landslides in the future.

Due to the gentle topography throughout the city's planning area and lack of steep slopes, the probability of earthquake-induced landslides is very low.¹⁴ However, several small landslide hazard areas are scattered throughout the city, as seen on Figure 11.

Subsidence

Subsidence is the gradual caving in or sinking of an area of land. The Delta is vulnerable to subsidence; since the initiation of intense land management practices in the

1850s, half of the volume of organic peat soils in the Delta has been lost due to groundwater pumping, disturbance, and oxidation, resulting in the lowering of some Delta islands by as much as 25 feet below sea level. Subsidence rates have decreased substantially from early 20th century values and range from a few tenths of an inch per year to approximately 0.8 inches per year today.¹⁵

Subsidence of Delta islands creates height differences between the land and adjacent water surface elevations in channels. These height differences amplify forces against the levees and drive flow through and underneath levees into the subsided islands. Irrigation water further contributes to the accumulation of water in island drainage ditches, where it is routed to pumps and returned to adjacent channels.¹⁶

Expansive Soils

Expansive soils can change dramatically in volume depending on moisture content. When wet, these soils can expand; conversely, when dry, they can contract or shrink. Sources of moisture that can trigger this shrink-swell phenomenon include seasonal rainfall, landscape irrigation, utility leakage, and/or perched groundwater. Expansive soil can develop wide cracks in the dry season, and changes in soil volume have the potential to damage concrete slabs, foundations, and pavement. Special building/structure design or soil treatments are often needed in areas with expansive soils.

Expansive soils are typically very fine grained with a high to very high percentage of clay. The clay minerals typically include montmorillonite, smectite, and/or bentonite.

Based on a countywide map of expansive soils published by the San Joaquin County Geographical Information Systems Unit, much of the city's planning area appears to be underlain by expansive soils, with shallow soils exhibiting moderate shrink-swell potential.¹⁷ Measures such as emplacement of nonexpansive fill or special compaction of clay-rich soil may need to be considered prior to construction. Soil shrink-swell properties often vary from site to site, and detailed geotechnical investigations generally provide the most reliable means of identifying and mitigating these soil characteristics.

2.2.6 Past Occurrences

The 1989 Loma Prieta earthquake was a magnitude 6.9 earthquake on the San Andreas Fault near Mt. Loma Prieta in the Santa Cruz Mountains, approximately 80 miles southwest of Stockton. Statewide, approximately 18,306 houses were damaged and 963 were destroyed, and approximately 2,575 businesses were damaged and 147 were destroyed. The most notable damage included the collapse of the elevated Cypress Structure section of I-880 in Oakland, the collapse of a section of roadbed on the Bay Bridge, and extensive damage to downtown Santa Cruz and San Francisco's Marina District. The Bay Bridge was unusable for a month.

The quake caused localized damages and significant shaking across San Joaquin County. It resulted in 63 people killed, 3,757 reported injured, and 12,053 displaced, and the economic loss was approximately \$10 billion. This earthquake was felt as far away as San Diego and western Nevada. As experienced before, an earthquake equivalent to this strength in the Bay Area would produce strong shaking and ground failure throughout the region, including in Stockton. Other notable seismic and geologic activity has occurred periodically within and around San Joaquin County. Significant incidents include:

- Linden earthquake, 1881. This earthquake, possibly located on the Tracy-Stockton Fault, had an estimated Modified Mercalli intensity of VII.*
- The San Francisco earthquake of 1906, which caused historic destruction in San Francisco, also caused strong seismic shaking in San Joaquin County.
- Two small quakes of magnitude 5.0 occurred in Linden in 1940.
- Seismic shaking occurred within the Delta in 1979, 1980, 1983, 1984, and 1989. Impacts of these shaking events were not verified.
- A magnitude 5.8 earthquake occurred along the Greenville fault near Brentwood in 1980.
- In April 2006, heavy rains caused a landslide along Corral Hollow Road at a Lawrence Livermore Labs site in Tracy.

Earthquake Magnitude Scale

Magnitude 2.5 or less: Usually not felt but can be recorded by seismograph.

Magnitude 2.5 to 5.4: Often felt, but only causes minor damage.

Magnitude 5.5 to 6.0: Slight damage to buildings and other structures.

Magnitude 6.1 to 6.9: May cause a lot of damage in very populated areas.

Magnitude 7.0 to 7.9: Major earthquake. Serious damage.

Magnitude 8.0 or greater: Great earthquake. Can destroy communities near the epicenter.
