# INTRODUCTORY SECTION

June 25, 2020

To the Citizens of St. Tammany Parish and Members of the St. Tammany Parish Council Covington, Louisiana

The Comprehensive Annual Financial Report (CAFR) of St. Tammany Parish Government (the Parish) for the year ended December 31, 2019 is submitted herewith. This report represents a comprehensive picture of the Parish's financial activities during 2019 and the financial condition of its various funds at December 31, 2019. The Parish is required to issue annually a report of its financial position and activity presented in conformance with generally-accepted accounting principles (GAAP) and audited in accordance with generally-accepted auditing standards by an independent firm of certified public accountants. Although formally addressed to the elected officials and citizens of the Parish, this financial report has numerous other users. Foremost among the other users are the bondholders of the Parish, financial institutions, educational institutions, and other governmental entities.

Responsibility for both the accuracy of the data presented as well as the completeness and fairness of the presentation, including all disclosures, rests with management of the Parish. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position of the Parish and the results of its operations as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the Parish's financial affairs have been included.

Management of the Parish is responsible for establishing and maintaining a system of internal accounting controls. These controls are designed to assure that the assets of the Parish are safeguarded against any material loss, theft, or misuse. These controls assure that the financial statements are in conformity with generally accepted accounting principles. Internal accounting controls are designed to provide reasonable, but not absolute, assurance that control objectives will be met. The concept of reasonable assurances recognizes that (1) the cost of control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits require estimates and judgment by management.

LaPorte CPAs & Business Advisors, Certified Public Accountants, have issued an unmodified ("clean") opinion on the St. Tammany Parish Government's financial statements for the year ended December 31, 2019. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

# **Profile of the Government**

St. Tammany Parish was named shortly before Louisiana became a state in 1812 for Tamanend, a famous Delaware Indian chief renowned for his virtue and other saintly qualities, dubbed St. Tammany, the patron saint of America, by his admirers. St. Tammany Parish is located in southeast Louisiana and encompasses 854 square miles.

The Parish is a political subdivision of the State of Louisiana. The citizens of St. Tammany approved and adopted the Home-Rule Charter establishing a "President-Council" form of government on October 3, 1998. This Home-Rule Charter took effect January 1, 2000. This form of government provides centralized services, coordinated planning, and a more efficient administration. The Parish President is the Chief Executive Officer and head of the executive branch. The Legislative Branch of the Parish consists of fourteen Parish Council members, one from each of the fourteen districts. Both the Parish President and the Parish Council members are elected by the voters to serve four-year terms.

The Parish is a multi-faceted, culturally rich, economically diverse, and all-around, exceptional place to live. From one end of the Parish to the other, each community throughout embraces its own distinctiveness, yet achieves harmonious connectivity with those around it. Every community has its own distinguishing identity, from the resort-like atmosphere of Mandeville, to the metro-rural Camellia City of Slidell, to the historic richness of Covington, to the welcoming waterfront town of Madisonville, to the opry music of Abita Springs, to the fresh water fishing of Pearl River, and then to the rural, agricultural, and equestrian communities of Folsom and Sun. The Parish is at the crossroads of three interstates, and nearby to a fourth. We are adjacent to major transportation waterways like the Mississippi River and the Gulf of Mexico, with international and metropolitan airports just minutes away. Nationwide railway systems and closeness to two ports—deep and shallow water—give the Parish a choice level of connectivity and geographic advantage, making our connectedness competitive with any community in the country.

The Parish offers fertile ground for businesses and families to thrive. At the heart of our economic stability and growth is innovation and entrepreneurialism that creates a business-friendly climate here. The Parish provides a full range of services to residents including: construction and maintenance of roads, bridges and other infrastructure, water and sewer services, public health programs, animal control, public safety services such as permitting and inspections, general governmental functions such as area planning and zoning, and environmental services.

The Parish is financially accountable for twenty-three special districts (component units) located within the parish. These districts are comprised of fire districts, recreation districts, sewer and water districts, a mosquito abatement district, as well as the Parish Library and the Parish Coroner's Office. In addition, the Parish has determined that seven additional fire districts that do not meet the financial accountability criteria should be included as component units so that the financial statements will not be misleading. A more detailed discussion of the entire reporting entity is included in Note I.B. in the Notes to the Financial Statements.

The annual budgets, both operating and capital, serve as the foundation for the Parish's financial planning and control. All departments of St. Tammany Parish are required to submit requests for appropriation to the Finance Department by the beginning of June each year. The Chief Financial

Officer uses these requests as a starting point for developing the proposed budgets. The Parish President and Chief Administrative Officer review the proposed budgets. The Parish President then submits the proposed budgets to the Parish Council at least 90 days prior to the beginning of the fiscal year. The Parish Council is required to hold a public hearing and publish the proposed budgets in the official journal at least ten days prior to the public hearing.

The appropriated budgets are prepared by fund and department in the General Fund and Public Works Fund. For all other funds, budgets are prepared by fund. Department heads may make transfers of appropriations within a department (or fund if the fund's expenditures are budgeted by fund). Transfers between departments in the General Fund and Public Works Fund, however, require the approval of the Parish Council. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund and all major special revenue funds, this comparison is presented as Required Supplementary Information. The comparison for the major capital project fund is presented immediately following the Combining and Individual Fund Schedules as part of the Budgetary Comparisons section. For all non-major governmental funds, the comparison is in the fund financials for the fund type.

# Local Economy

The economy of the Parish is primarily residential, bringing an influx of retail and service establishments, corporate headquarters, and shopping centers. Residents are employed in a variety of diverse industries ranging from agriculture to space age technology. St. Tammany Parish's transportation accessibility, low business costs, availability of labor, superb school system, low crime rate, and first-rate medical facilities encourage continued growth.

The average unemployment rate (4.2%) remained lower that the average rate for the State of Louisiana (4.8%). The number of residential permits increased by 22%, and the number of commercial building permits increased by 2%. Total sales and sales tax collections in the Parish increased by 4.7%.

## Long-term Financial Planning and Major Initiatives

Unassigned fund balance in the General Fund of \$17,021,608 (123.1 percent of revenues and 126.1 percent of expenditures) falls above the minimum fund balance policy guidelines for the Parish (i.e., four months of budgeted expenditures prior to cost recoveries plus two million for cash flow for grants and one million for contingencies), which totaled \$11,867,118. Administration and the Council continue to monitor the General Fund and other fund balances as they seek to balance available resources with the achievement of objectives to further development of the Parish.

St. Tammany Parish continues to grow both in population as well as in economic vitality. Our population in the last five years has increased by 4.6%. We continue to attract leading-edge corporations and have a diverse array of business headquarters who contribute to our vibrant

economy. Parish Government's primary focus in the coming year will be to continue our support of economic development as one of the fastest growing parishes in the state, while protecting our pristine quality of life through investment in infrastructure improvements and water quality projects, as well as public health initiatives in our community.

- Significant investment in infrastructure across the Parish continues as we secured a \$25 million BUILD grant in 2018 to widen Interstate 12 at the Tchefuncte River near Covington. In 2019, \$7.2 million of local funds was committed for the section of I-12 between LA Highway 21 and US Highway 190, and \$8 million of local funds was committed for the section of I-12 between LA Highway 59 and Highway 190. Those funds were remitted to DOTD in early 2020 to ensure this project moves forward expeditiously. The safety concerns and traffic congestion at this location have made this project a priority for Parish Government. Construction has started on Phase 1 (the section between Highway 59 and Highway 190) and should be completed within two and a half years.
- During the fiscal year, the Parish issued sales tax bonds in the amount of \$30,000,000 with a premium of \$4,952,189 for road, bridge, and drainage projects to expedite additional capacity projects across the Parish to ensure we maintain pace with the growth and demands of our Parish. Improvements to the I-10 Service Road in Slidell, including the replacement of two bridges, is the first bond-funded project to start construction.
- Another significant improvement is the Mandeville Bypass project, which consists of the construction a new two-lane roadway approximately 3.5 miles long. This road will provide connectivity between US Highway 190 near Pelican Park and LA Highway 1088 near I-12. The project will also provide an alternate route for traffic that is currently using Highway 1088, LA Highway 59, and portions of Highway 190 through the City of Mandeville to reach Highway 190, east of Mandeville. This project is currently in final design and includes the purchase and acquisition of property, as well as mitigation of wetlands using the Parish's Cane Bayou Mitigation Bank. The Parish is still actively working on identifying and securing funds for construction of this project.
- The St. Tammany Parish Cane Bayou Mitigation Bank (CBMB) was established in October 2019. The land for the CBMB was purchased in 2012 from the State of Louisiana and lies between Mandeville and Lacombe in the Bayou Castine and Bayou Cane watersheds. The CBMB will be developed in two sections, which will preserve the pine savannah wetlands in perpetuity while providing compensatory mitigation for future Parish projects. The Mitigation Banking Instrument (MBI) for Section 1 of CBMB has been formally approved by the cognizant federal and state agencies, and work to develop Section 1 has begun.
- St. Tammany Parish Government and the St. Tammany Levee, Drainage, and Conservation District (St. Tammany Levee Board) selected Neel-Schaffer, Inc., to begin the first phase of the St. Tammany Parish Coastal Protection Project— a collaborative initiative between the Parish and the St. Tammany Levee Board, made possible with \$2 million in funding from the Coastal Protection and Restoration Authority (CPRA) through an Intergovernmental Agreement. This project is part of the ongoing flood mitigation efforts by St. Tammany Parish to increase protection for all residents, and to increase resiliency

following natural disasters that impact our community. Neel-Schaffer, Inc., is currently tasked with analyzing and updating the 2012 Northshore Hurricane and Flood Protection Study for St. Tammany Parish with newly completed and current proposed projects in the St. Tammany Parish Coastal Zone. A gap analysis will then be performed to identify new projects to further protect vulnerable areas. A benefit/cost analysis of proposed projects will then be completed to determine project priority and viability. Any funds remaining after completion of these tasks will go toward engineering and design of prioritized alternatives.

- In 2019, nearly \$855,000 in capital improvement investments to the Tammany Utilities Water and Sewer System were made. Among them, the completion of an upgrade to a major sewage lift station, the purchase of 28 new control panels for sewage lift station facilities, the replacement of 22 fire hydrants, the purchase of an improved blower system for a wastewater treatment plant, and the reconditioning of 3 water storage tanks. These improvements will aide Tammany Utilities in providing water and sewer services to its customers while maintaining compliance with State and Federal requirements.
- Thanks to the hard work of many people over the past eight years, momentum continues • with "Safe Haven". The vision of the campus, which is to provide a collaborative healing environment for the behavioral health continuum by creating a high-quality, coordinated, sustainable, and humane network of care, is becoming a reality. Last year, the Parish was awarded a grant of \$5,310,000 through the National Disaster Resiliency funding, facilitated through the State of Louisiana's Strategic Adaptations for Future Environments initiative (LA SAFE). Through this grant, we produced a master plan for the campus as well as a comprehensive list of projects. The projects will focus on blue/green infrastructure, specifically: stormwater management, walking paths, wayfinding, and entrance enhancements. With the completion of Quad A renovations, the opening of the State's first Crisis Receiving Center is imminent. Start Corporation will operate a Level III Crisis Receiving Center with the aim to reduce emergency room visits and arrests for people in a behavioral health crisis. The Parish is also moving forward with an Education and Training Center. This facility will provide a much-needed space on campus to host trainings, seminars, workshops, and support groups. The facility will also include office space for NAMI St. Tammany, and accordingly their work on campus can continue and expand. The list of partners and advocates for Safe Haven continues to increase and includes government agencies, non-profits, healthcare organizations, and private citizens. The campus continues to evolve, but the mission remains the same, which is to anchor behavioral healthcare in St. Tammany and the surrounding regions both now and in the future.

## **Relevant Financial Policies**

In 2018, the Parish implemented a new Enterprise Resource Planning (ERP) system. The majority of that fiscal year was discovery. The second year (2019) enabled the Parish to more thoroughly review the internal control processes and accounting policies. As a result, we streamlined the process of recording assets and implemented additional processes using the project ledger module.

#### Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to St. Tammany Parish Government for its CAFR for the fiscal year ended December 31, 2018. This was the sixteenth consecutive year that the Parish has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government had to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable program requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year only. However, we believe that our current CAFR continues to meet the Certificate of Achievement for Excellence in Financial Reporting Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of the Finance Department. We wish to thank all government departments for their assistance in providing the data necessary to prepare this report. We also wish to recognize the late Pat Brister, whose final year of her eight-year term as St. Tammany Parish President is shown in this report. Her administration produced many of the initiatives – either completed or in progress – reflected in this report.

Respectfully submitted,

Michael B. Cooper Parish President

#### Independent Auditor's Report

Members of the Parish Council St. Tammany Parish, Louisiana

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of St. Tammany Parish, Louisiana (the Parish) as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Parish's basic financial statements as listed in the accompanying table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Fire Protection District No. 1; Fire Protection District No. 3; Fire Protection District No. 4; Fire Protection District No. 6; Fire Protection District No. 8; Fire Protection District No. 9; Fire Protection District No. 11; Fire Protection District No. 12; Fire Protection District No. 13; Recreation District No. 11; Recreation District No. 12; Mosquito Abatement District No. 2; and the St. Tammany Parish Coroner which represent 59%, 56%, and 71%, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports thereon were furnished to us, and our opinion, insofar as it relates to the amounts included for Fire Protection District No. 1: Fire Protection District No. 3: Fire Protection District No. 4: Fire Protection District No. 6; Fire Protection District No. 8; Fire Protection District No. 9; Fire Protection District No. 11: Fire Protection District No. 12; Fire Protection District No. 13; Recreation District No. 11; Recreation District No. 12; Mosquito Abatement District No. 2; and the St. Tammany Parish Coroner, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

#### LOUISIANA • TEXAS

An Independently Owned Member, RSM US Alliance RSM US Alliance member firms are separate and independent businesses and legal entities that are responsible for their own acts and omissions, and each is separate and independent from RSM US LLP. RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Members of RSM US Alliance have access to RSM International resources through RSM US LLP but are not member firms of RSM International. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Parish as of December 31, 2019 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the Parish's proportionate share of net pension liability, schedule of St. Tammany Parish contributions, and schedule of changes in total OPEB liability and related ratios on pages 19 through 27 and pages 86 through 96, respectively be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Parish's basic financial statements. The introductory section; combining and individual non-major fund financial statements; the non-major component unit financial statements; the budgetary comparison schedules for non-major funds; the schedules in the other supplementary information section as listed in the table of contents; the schedule of expenditures of federal awards, as required Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards;* and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, the non-major component unit financial statements, the budgetary comparison schedules for non-major funds, the schedules in the other supplementary information section as listed in the table of contents, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures described above, and the report of other auditors, the combining and individual non-major fund financial statements, the non-major component unit financial statements, the budgetary comparison schedules for non-major funds, the schedules in the other supplementary information section as listed in the table of contents, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2020 on our consideration of the Parish's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Parish's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Parish's internal control over financial reporting and compliance.

A Professional Accounting Corporation

Covington, LA June 25, 2020

As management of St. Tammany Parish Government (the Parish), we offer this narrative overview and analysis of the financial activities of St. Tammany Parish Government for the fiscal year ended December 31, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our Letter of Transmittal, which can be found on pages 3-8 of this report.

#### Financial Highlights

- The Parish's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$673,659,274 (*net position*). Of this amount, \$80,582,245 (*unrestricted net position*) may be used to meet the Parish's ongoing obligations to citizens and creditors.
- The Parish's total net position increased by \$3,010,798. Parish revenues increased by 3.2%, while expenses increased by 11.0%.
- As of the close of the current fiscal year, St. Tammany Parish's governmental funds reported combined ending fund balances of \$258,350,126, an increase of \$38,529,275 in comparison with the prior year. Approximately 80.7% of this total amount, or \$208,392,975, constitutes restricted fund balance, which can only be used for specific purposes. Another 12.4%, or \$31,999,427, constitutes *committed fund* balance, which can only be used for specific purposes as directed by the Parish Council.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$17,021,608, or approximately 126.1% of total General Fund expenditures.

#### **Overview of the Financial Statements**

The discussion and analysis provided here are intended to serve as an introduction to St. Tammany Parish Government's basic financial statements. The Parish's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the Parish's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the Parish's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Parish is improving or deteriorating.

The *statement of activities* presents information showing how the Parish's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Parish that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Parish include general government, public safety, highways and streets, sanitation, health and welfare, culture and recreation, economic development, conservation, and transportation. The business-type activities of the Parish include the operations of sewer and water facilities and development activities.

The government-wide financial statements include not only the Parish itself (known as the *primary government*), but also thirty legally separate organizations. Twenty-three of these organizations are ones in which the Parish is financially accountable. These *component units* include fire protection districts, recreation districts, sewer and water districts, a mosquito abatement district, the Parish Library system and the Parish Coroner's office. An additional seven fire protection districts have been included because management feels it would be misleading to exclude them. Financial information for these component units is reported separately from the financial information presented for the primary government. The government-wide financial statements can be found on pages 31-33 of this report.

**Fund financial statements.** A *fund* is a grouping of related accounts used to maintain control over resources segregated for specific activities or objectives. The Parish, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the Parish's funds can be divided into two categories: governmental funds and proprietary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Parish maintains ninety-one individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the four major governmental funds of the Parish. Data from the other eighty-six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The Parish adopts annual appropriated budgets, either operating or capital, for all governmental funds. Budgetary comparison statements have been provided for all of these funds to demonstrate compliance with those budgets.

The basic governmental fund financial statements can be found on pages 34-38 of this report.

**Proprietary funds.** The Parish maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Parish uses two enterprise funds. One to account for water and sewer utility operations and one to account for development activities. *Internal service funds* are an accounting device used to account for operations of government buildings, unemployment compensation, risk management insurance, post-employment health insurance, post-employment leave benefits, and workers' compensation insurance. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for utility operations and development; all internal service funds are combined into a single, aggregated presentation. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 39-42 of this report.

**Component units.** As stated above, the Parish is financially accountable for thirty component units, of which three are considered major component units. The component unit financial statements provide separate information for the three major component units. The twenty-seven non-major component units are presented in the aggregate. Individual component unit data for the non-major component units is provided in the form of *combining statements* elsewhere in this report. The basic component unit financial statements can be found on pages 43-45 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 47-84 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning St. Tammany Parish. Budgetary comparisons for the General Fund and major special revenue funds are in this section. Required supplementary information and notes to required supplementary information can be found on pages 86-96 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented along with non-major component unit combining statements immediately following the notes to required supplementary information. Combining and individual fund statements and schedules can be found on pages 98-191 of this report.

#### Government-wide Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of St. Tammany Parish, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$673,659,274 at the close of the most recent fiscal year.

The largest portion of the Parish's net position (56.7%) is the Parish's investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure), less any related debt used to acquire those assets that is still outstanding. The Parish uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Parish's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The second largest portion of the Parish's net position (31.3%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$80,582,245 is unrestricted and may be used to meet the Parish's ongoing obligations to citizens and creditors.

The Parish's overall net position increased \$3,010,798 from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

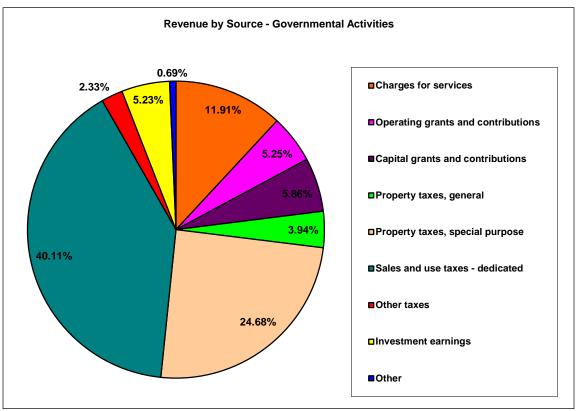

Governmental activities. Governmental activities decreased the Parish's net position by \$1,530,268.

2019 $2018$ $2019$ $2018$ $2019$ $2019$ $2018$ Revenues:         Charges for services         S16,008,793         S16,173,306         S21,120,118         S14,369,127         S37,128,911         S30,542,433           Capital grants and contributions         7,059,014         7,265,848         43,319         -         7,102,333         7,265,848           Capital grants and contributions         7,874,982         11,003,627         302,784         47,913         8,177,766         11,051,540           General revenues:         53,925,952         57,278,185         -         -         53,925,952         57,278,185           Other taxes         3,138,638         3,040,411         -         -         3,138,638         3,040,411           Federal payment in lieu of ad valorem         75,892         66,225         -         -         75,892         66,225           Other         7,085,659         4,189,714         625,361         371,864         7,711,020         4,561,578           Total revenues         134,441,618         136,947,217         22,091,582         14,78,904         156,553,200         151,736,121           Federal payment         18,007,788         20,299,867         -		St. Tammany Parish's Changes in Net Position

Key elements of this decrease are as follows:

Governmental activities revenues decreased by 1.8%, while expenses increased by 9.2%. The main reason revenue decreased is due to capital grants and contributions decreasing by 28.4% or \$3,128,645, due to the timing of the capital projects, and sales tax decreasing by \$3,352,233 or 5.9% due to two ¼ cent sales taxes that expired on March 31, 2018. Expenses for highways and streets increased \$15,285,866 or 28.9%. In 2018, the Parish changed the depreciation period for roads from over 20, 30, or 50 years depending on the type of surface to depreciate roads over 20 years regardless of the surface type. This accounted for an increase in depreciation of about \$10.5 million for the remainder of roads that were not adjusted in 2018.

**Business-type activities.** Business-type activities increased St. Tammany Parish's net position by \$4,541,066. This was primarily due an increase in water and sewer rates and customer activity totaling \$1.2 million, an increase in capacity fees of \$1.7 million, and a \$600,000 transfer from the General Fund to Development for cash flow since 2019 was the first year of operations for this fund.

**Transfers.** The transfers to business-type activities from governmental activities were the net effect of two items. First, debt payments were transferred from the Utility Operations fund to the Debt Service fund for payments due on the bonds issued for the purchase of a small utility company in 2009.

Second, capital assets that have been funded through grants and which are now used by Utility Operations and Development, were transferred from the appropriate governmental fund. This accounting treatment will show the operational costs of the enterprise fund more accurately since the depreciation expense will be recorded within the fund in which the assets operate.

#### Financial Analysis of the Government's Funds

As noted earlier, St. Tammany Parish uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

*Governmental funds.* The focus of St. Tammany Parish's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Parish's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the Parish itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the Parish Council.

At the end of the current fiscal year, the Parish's governmental funds reported combined ending fund balances of \$258,350,126, an increase of \$38,529,275 in comparison with the prior year. Approximately 80.7% of this total amount, or \$208,392,975, constitutes *restricted fund balance*, which is available for spending for specific purposes. Another 12.4%, or \$31,999,427, constitutes *committed fund* balance, which can only be used for specific purposes as directed by the Parish Council. The Parish has \$17,021,608, or 6.6%, in *unassigned fund* balance. This represents the residual classification for the General Fund. The remainder of the fund balance is *non-spendable fund balance* which is amounts that are not in spendable form because they are prepaid items, inventory or held in perpetuity for the Cane Bayou Mitigation Bank. For details on the specific purposes that the restricted and committed fund balances can be spent on, see Note III.L. on page 75 of this report.

The General Fund is the chief operating fund of St. Tammany Parish. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$17,021,608. As a measure of the General Fund's liquidity, it may be useful to compare the unassigned fund balance to total fund expenditures. The Parish's policy on the fund balance required in the General Fund is to keep a minimum fund balance of four months of budgeted expenditures prior to cost recoveries plus \$2 million for cash flow for grants and \$1 million for contingencies. The Parish continues to stay within its guidelines. The unassigned fund balance represents 126.1% of total General Fund expenditures.

The fund balance of the Parish's General Fund decreased by \$91,236, or .5%. Revenues decreased by 16.4%, while expenditures decreased by 15.9% or \$2,548,532. The decrease in revenues and expenditures is due to Development activities moving to an enterprise fund for 2019. A one-time transfer to the Development Fund from the General Fund was done in the amount of \$600,000.

The change in fund balance in the Public Works Fund is due to the growth in sales tax revenue being collected in 2019 and the subsequent allocation of this revenue to capital projects. As excess funds are identified, additional appropriations are made in the following year for projects listed in the five-year capital improvement budget. Once the Council approves the appropriation, the Public Works Fund recognizes a less proportionate share of the sales tax revenue and the capital project funds recognize a greater proportionate share. In addition, capital expenditures in this fund increased in 2019 by \$2 million.

The Hwy 21 Economic Development District Fund accounts for additional <sup>3</sup>/<sub>4</sub> cent sales tax levied in the District to be used for economic development projects. Up to \$7 million of these funds are to be transferred to the Developer when adequate supporting documentation is received for completed economic development projects. Collections of sales tax increased by 7.3%, which accounts for the increase in revenues and expenditures.

The St. Tammany Parish Library Fund accounts for the property tax levied for the benefit of the St. Tammany Parish Library. The funds are transferred to the Library after they are received, and thus this fund has no fund balance. Collections of ad valorem increased by 3.3% which accounts for the increase in revenue and expenditures.

The Capital Improvements - General Fund showed a increase in sales tax revenue of \$15.2 million over 2018 as discussed above as well as receiving bond proceeds of \$34.9 million for a new issue during 2019. Expenditures were more due to timing. Most of the projects funded in this fund are multi-year projects.

The decrease in revenue and expenditures in the non-major special revenue funds is primarily due to the two <sup>1</sup>/<sub>4</sub> cent sales taxes that expired as of March 31, 2018. Although the Justice Center Complex still has remaining funds to operate now, operations have been scaled back. The Parish Jail began being funded mainly from the General Fund. In addition, the Hwy 21 Economic Development District qualifies as a major fund in 2019.

Non-major debt service funds showed a decrease in fund balance due to transferring the residual funds after paying off the debt for the Justice Center and the Jail to their respective capital project funds.

Non-major capital project funds showed a decrease in fund balance as compared to the prior year, which is primarily due to the allocation of revenue for capital projects in 2018 from excess funds identified from 2017, whereas the excess funds identified in 2018 were allocated to the major fund 200-4640 in 2019.

Non-major permanent fund showed an increase in fund balance due to the sale of mitigation credits. This fund is explained in more detail in Note III. Q. on page 78 of this report.

*Proprietary funds.* St. Tammany Parish's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Utility Operations Fund amounted to \$22,445,095. The total change in net position, from the prior year, was an increase of \$3,207,355, or 13.7%, which is primarily due an increase in sewer and water rates and an increase in capacity fees. These revenues were offset by a \$1 million increase in depreciation.

Unrestricted net position of the Development Fund amounted to \$1,279,515. This is a new fund for 2019 as development activity, prior to 2019, was accounted for in the General Fund. The change in net position was an increase of \$1,333,711, of which \$600,000 was due to a transfer from the General Fund for cash flow.

#### **General Fund Budgetary Highlights**

The difference between the original operating budget and the final amended budget includes a 1.0% increase in appropriations and no change in budgeted revenue.

Revenues were 6.6% greater than the budget. This was due to an increase in investment earnings, occupational licenses, insurance licenses, and the sale of revocated property. The final amended budget for expenditures was 5% more than the actual results. This was due to the true up of the cost allocation plan from budget to actual, as service departments were very cognizant of what they spent and trying to save dollars wherever possible.

#### **Capital Asset and Debt Administration**

**Capital assets.** St. Tammany Parish's capital assets for governmental and business-type activities as of December 31, 2019, amounted to \$492,080,135 (net of accumulated depreciation). Capital assets include land, buildings, improvements, water and sewer systems, vehicles, machinery and equipment, office equipment, roads, bridges, ponds and canals, and pump stations.

The total decrease in the Parish's investment in capital assets for the current fiscal year was 1.9%, or \$9,488,105. There was a \$7,813,022 decrease for governmental activities while business-type activities had a \$1,675,083 decrease.

(1) For the purposes of this table, Internal Service Funds' assets are included with governmental activities.

Major capital asset events during the current fiscal year included the following:

- Emerald Forest Blvd. Extension project was completed.
- Francis Rd. Extension project was completed.
- Lake Village Ct. Drainage project was completed.
- Kings Rd. Bridge project was completed.
- Three Rivers Rd. project was completed.

Additional information on St. Tammany Parish Government's capital assets can be found in Note III.D. on pages 61-63 of this report.

The Parish receives a sales tax dedicated for road and drainage improvements. This revenue allows for a variety of road improvement projects to be completed during a year. At the end of 2019, construction in progress for road improvement projects and other infrastructure totaled \$27,439,718. Road improvement and other infrastructure projects completed during the current year totaled \$28,967,976.

**Long-term debt.** At the end of the current fiscal year, the Parish had total bonded debt outstanding of \$108,655,563, of which \$6,215,000 is backed by ad valorem tax revenue, \$63,210,000 is backed by sales tax revenue, \$1,650,000 is backed by general revenues of the Parish, and \$37,580,563 is backed by excess revenue generated from Utility Operations.

The remainder of the Parish's debt is excess-revenue debt for which the Parish is liable. All of the debt outstanding at the end of 2019 is related to governmental-type activities except for \$37,580,563 outstanding in Utility Revenue Bonds, offset by \$838,704 discount, and \$2,516,080 of pension liability which is related to business-type activities.

The Parish's bonded debt increased by \$25,650,000, or 30.9%, during the current fiscal year due to issuing an additional \$30,000,000 in sales tax bonds for road and drainage improvements. The Parish's other obligations increased by \$23,291,103 or 91.8%. This change is primarily due to the net pension liability increase.

St. Tammany Parish Government's Outstanding Debt						
U U	2019	2018				
<b>Governmental Activities</b>						
General Obligation Bonds	\$6,215,000	\$7,180,000

Total Primary Government Debt	\$157,309,864	\$108,368,761				

Additional information on the Parish's long-term debt can be found in Note III.J. on pages 72-74 of this report.

#### **Economic Factors and Next Year's Budgets**

- Retail sales continued to rise as illustrated by sales tax collections in the Parish which increased 4.7% from the prior year.
- New single-family building permits increased by 22% and commercial construction permits issued increased by 2%.
- Unemployment rate remains steady at 4.2%.

Source: St. Tammany Parish sales tax revenue, St. Tammany Parish Department of Permits, and U.S. Bureau of Labor Statistics.

All of these factors were considered in preparing the St. Tammany Parish Government's budget for the 2020 fiscal year. The factors are prior to the COVID-19 health crisis. Management of the Parish is currently assessing the impacts of the pandemic.

#### **Requests for Information**

This financial report is designed to provide a general overview of St. Tammany Parish's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to St. Tammany Parish Government, Department of Finance, P.O. Box 628, Covington, LA 70434. This report and other financial reports can be viewed on the Parish's website at <u>www.stpgov.org</u> within the Finance Department section.

# ST. TAMMANY PARISH, LOUISIANA Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2019

Amounts reported for governmental activities in the Statement of Activities are different because:

Net Change in fund balances, total governmental funds, Statement D	\$ 38,529,275
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay in the current period.	(4,836,063)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.	664,850
The net effect of various miscellaneous transactions involving capital assets is to decrease net position.	(254,718)
The issuance of long-term debt (bonds, leases, etc.) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(31,492,704)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(3,239,644)
Governmental funds report all expenditures in the period paid, without regard to when the expenditures were incurred. In the Statement of Activities, the expenses are recorded in the period incurred. Therefore, interest and bond insurance premiums paid in the current period that were incurred in the prior period are not expenses on the Statement of Activities.	134,250
The net activities of internal service funds is reported with governmental activities.	 (1,035,514)
Change in Net Position of Governmental Activities, Statement B	\$ (1,530,268)

# ST. TAMMANY PARISH, LOUISIANA Statement of Cash Flows Proprietary Funds For the Year Ended December 31, 2019

#### Non-cash and Financing Activities

2019

#### **Utility Operations**

A water well tank was transferred from governmental activities to Utility Operations fund where it is operated at a cost of \$22,324.

A sewer and water system were donated to Tammany Utilities by a developer at an estimated value of \$37,909 and \$46,200, respectively.

A sewer system, water system and lift station were donated to Tammany Utilities by a developer at an estimated value of \$89,715, \$66,135, and \$25,000, respectively.

A sewer system was donated to Tammany Utilities by a developer at an estimated value of \$37,825.

Deferred outflows for pension increased by \$1,074,246.

Deferred inflows for pension decreased by \$630,434.

The net pension asset was exhausted and a liability resulted with a total increase in liability of \$2,033,139.

Change in fair value of investments was \$156,958.

Pension contribution in the amount of \$28,201 was recognized.

#### Development

Nine trucks were transferred from governmental activities to Development fund where they are operated at a value of \$87,986.

Deferred outflows for pension increased by \$778,295.

Deferred inflows for pension increased by \$56,622.

The net pension liability increased by \$878,084.

Change in fair value of investments was \$1,664.

Pension contribution in the amount of \$15,118 was recognized.

#### 2018

#### **Utility Operations**

Alton/Ben Thomas water pump utility right of way was transferred from governmental activities to Utility Operations fund where it is operated at a cost of \$3,500.

Alton waterworks utility right of way was transferred from governmental activities to Utility Operations fund where it is operated at a cost of \$4,500.

West St. Tammany WWTP right of way was transferred from governmental activities to Utility Operations fund where it is operated at a cost of \$4,400.

West St. Tammany WWTP was partially funded by a grant accounted for in a governmental fund and was transferred to Utility Operations where it is operated at a cost of \$472,776.

A sewer and water system was donated to Tammany Utilities by a developer at an estimated value of \$7,476 and \$40,437, respectively.

Several assets were retired, totaling \$4,600.

Change in fair value of investments was \$10,829.

Pension contribution in the amount of \$25,691 was recognized.

# ST. TAMMANY PARISH, LOUISIANA

Notes to the Financial Statements 2019

# I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other non-exchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

# **B.** Reporting Entity

St. Tammany Parish, Louisiana (the Parish) serves as the financial reporting entity for the Parish and is governed by an elected president and fourteen-member council. The accompanying financial statements present the Parish and its component units, entities for which the government is considered to be financially accountable.

GASB has set forth criteria to be considered in determining when a potential component unit should be included in the financial statements of a primary government. These criteria include:

- 1. The primary government is financially accountable if it appoints a voting majority of the organization's governing body *and* (a) it is able to impose its will on that organization *or* (b) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.
- 2. The primary government is financially accountable if an organization is fiscally dependent on it *and* there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government regardless of whether the organization has (a) a separately elected governing board, (b) a governing board appointed by a higher level of government, or (c) a jointly appointed board.
- 3. The primary government may determine, through exercise of management's professional judgment, that an organization that does not meet the specific financial accountability criteria should be included as a component unit to prevent the reporting entity's financial statements from being misleading. This determination should be based on the nature and significance of the organization's relationship with the primary government.

The existence of any one of the following conditions clearly indicates that a primary government has the ability to impose its will on an organization:

- 1. The ability to remove appointed members of the organization's governing board at will.
- 2. The ability to modify or approve the budget of the organization.
- 3. The ability to modify or approve rate or fee changes affecting revenues, such as water usage rate increases.
- 4. The ability to veto, overrule, or modify the decisions of the organization's governing body.
- 5. The ability to appoint, hire, reassign, or dismiss those persons responsible for the day-to-day operations (management) of the organization.

An organization has a financial benefit or burden relationship with the primary government if, for example, any one of these conditions exists:

- 1. The primary government is legally entitled to or can otherwise access the organization's resources.
- 2. The primary government is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization.
- 3. The primary government is obligated in some manner for the debt of the organization.

In determining if the organization is fiscally dependent on the primary government, if the organization must have the approval of the primary government for any one of the following, it is fiscally dependent:

- 1. Determine the budget
- 2. Levy taxes or set rates or charges
- 3. Issue bonded debt

A component unit should be included in the reporting entity's financial statements using the blending method in any of these circumstances:

- The component unit's governing body is substantively the same as the governing body of the primary government *and* 
   (a) there is a financial benefit or burden relationship between the primary government and the component unit, or (b) management of the primary government has operational responsibility for the component unit.
- 2. The component unit provides services entirely, or almost entirely, to the primary government or otherwise exclusively, or almost exclusively, benefits the primary government even though it does not provide services directly to it.
- 3. The component unit's total debt outstanding, including leases, is expected to be repaid entirely or almost entirely with resources of the primary government.

The Parish does not report any blended component units using these criteria. Discretely presented component units are presented in a separate column in the government-wide financial statements (see note below for description) to emphasize that they are legally separate from the government.

Based on the previous criteria, the Parish has determined that the following organizations are component units and should be included in the Parish's financial statements:

**Discretely presented component units.** St. Tammany Parish appoints the voting majority of the governing board and is able to impose its will by removing board members at will for the following:

Fire Protection District Nos. 3, 6, 7, 12, and 13 Recreation District Nos. 1, 2, 4, 6, 7, 11, 12, 14, and 16 Mosquito Abatement District St. Tammany Parish Library Sewerage District Nos. 1, 2, and 4 Water District Nos. 2 and 3

St. Tammany Parish appoints the voting majority of the governing board and is able to impose its will by approving the budget for Sub-Drainage District No. 1 of Drainage District No. 3.

The St. Tammany Parish Coroner's office has been included as a discretely presented component unit because it is fiscally dependent on the Parish and a financial benefit or burden relationship exists. The Parish has levied an ad valorem tax to be used for the construction and operations of the Coroner's office as well as issued bonded debt secured by this tax.

The Parish has also included Fire Protection District Nos. 1, 2, 4, 5, 8, 9, and 11. State law requires that when a fire district's boundaries include a municipality, two board members are appointed by the Parish and two by the municipality. Those four members appoint an additional two members. Although these Districts are fiscally dependent by not being able to incur bonded debt or place an item on the ballot without Parish approval, there is no financial benefit or burden relationship with the Parish. The Parish believes it would be misleading to exclude these Districts since some of the Fire Districts must be included and these Districts in total comprise the fire protection for our Parish.

Fund financial statements are included in the Other Supplementary Information section of this report for Sub-Drainage District Number 1 of 3. Separate financials are not issued for this district since St. Tammany Parish performs administrative and accounting services for the district. All other discretely presented component units' complete financial information can be obtained at the Office of the Legislative Auditor of the State of Louisiana, 1600 North Third Street, Baton Rouge, LA 70802, at the Legislative Auditors web site, <u>www.lla.state.la.us/</u> or from the St. Tammany Parish Government Department of Finance, P.O. Box 628, Covington, LA 70434.

**Related organizations.** Organizations for which a primary government is accountable because that government appoints a voting majority of the board, but are not financially accountable, are related organizations.

The following are considered to be related organizations because the Parish appoints the voting majority of the governing board; however, the Parish is not able to impose its will nor do the organizations have a financial benefit or burden relationship with the Parish:

Drainage District Nos. 2, 4, and 5 Sub-Drainage District Nos. 1, 2, 3, 4, and 5 of Gravity Drainage District No. 5 Gravity Drainage District Nos. 5 and 6 Hospital Service District No. 1 St. Tammany Parish Development District

# C. Basis of Presentation – Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

As discussed earlier, the Parish has thirty discretely presented component units which are presented in one column in the government-wide financial statements. Three of these component units (i.e., St. Tammany Parish Coroner, St. Tammany Parish Library, and Mosquito Abatement District) are considered major component units and are presented separately in the component unit financial statements.

# D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds and component units. Separate statements for each fund category – governmental, proprietary, and component units – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds as well as major component units. Major individual governmental and enterprise funds and major component units are reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds and component units are aggregated and reported as non-major funds or component units.

The Parish reports the following major governmental funds:

<u>General Fund (000)</u> accounts for all financial transactions except those required to be accounted for in another fund and includes general revenues such as ad valorem tax, severance tax, and occupational/liquor/insurance/other licenses, as well as cable franchise fees, contributions, fines, and miscellaneous revenues.

**Public Works Fund (100)** accounts for a portion of the Sales Tax District No. 3 sales tax levied for constructing, acquiring, extending, improving, maintaining and/or operating (i) roads, streets, bridges, (ii) drains and drainage facilities including all necessary land, equipment and furnishings of any of said Public Works, improvements and facilities, and further including allocations to municipalities under intergovernmental agreements relating to annexations, revenue sharing areas, and growth management areas.

<u>Hwy 21 Economic Development District (123-2025)</u> accounts for the additional sales tax levy of three quarters of one percent in the District to be used for economic development projects.

<u>St. Tammany Parish Library Fund (128)</u> accounts for the property tax levied for constructing, acquiring, improving, maintaining and/or operating public library facilities, furnishings and equipment, and otherwise supporting the public library system in the Parish. The funds are transferred to the Library as they are received.

<u>Capital Improvements – General Fund (200-4640)</u> accounts for the portion of the Sales Tax District No. 3 sales tax dedicated to construction of major roadways, bridges, drains and drainage facilities Parish-wide, which provide a benefit to all citizens of the Parish.

The Parish reports the following major enterprise fund:

<u>Utility Operations Fund (502)</u> accounts for receipts and disbursements relating to the operations of sewer and water facilities owned by the Parish.

The Parish also reports the following non-major enterprise fund:

**Development Fund (507)** accounts for receipts and disbursements relating to the operations of Development, Permits, and Planning by the Parish.

Additionally, the Parish reports the following fund types:

<u>Special Revenue Funds</u> are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

<u>Debt Service Funds</u> are used to account for and report financial resources that are restricted or committed to expenditures for principal and interest.

<u>Capital Project Funds</u> are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

<u>Permanent Funds</u> are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

Enterprise Funds are used to report activities for which a fee is charged to external users for goods or services.

<u>Internal Service Funds</u> are used to account for building operations and insurance activities, provided by one department to other departments or governments on a cost-reimbursement basis.

During the course of operations, the Parish has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances.

The internal service funds provide services to the governmental funds. Accordingly, these funds are included in the governmental activities. Pursuant to GASB 34, the internal activities have been eliminated in order to avoid the grossing-up effect of a straight inclusion. Interfund services provided by governmental funds to enterprise funds are not eliminated in the process of consolidation.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

#### E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Parish considers revenues to be available if they are collected within ninety days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales and use taxes are recorded when the taxpayer liability has been incurred. Interest income on investments held at year-end is accrued. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met. All other revenue items are considered to be measurable and available only when received by the Parish. The proprietary funds are reported using the *economic resources measurement focus* and *the accrual basis of accounting*.

#### F. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The budgets for the capital project and permanent funds are appropriated on a project-length basis through the capital budget. At any time during the fiscal year, the President or Director may transfer part or all of any unencumbered appropriation within funds or departments. The budgetary level of control for the General Fund and special revenue fund for Public Works is at the department level. Appropriations can be transferred within each department, but not from one department to another without Council action by ordinance. The budgetary level of control for all other governmental funds is at the fund level, meaning appropriations can be transferred within the fund, but not to another fund without Council action by ordinance.

Every appropriation, except an appropriation for a capital expenditure, shall lapse at the close of the fiscal year to the extent that it has not been expended or encumbered. An appropriation for a capital expenditure shall continue in force until the purpose for which it was made has been accomplished or abandoned. The purpose of any such appropriations shall be deemed abandoned if three years pass without any disbursement from or encumbrance of the appropriation.

# G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balances

#### 1. Cash and Cash Equivalents

The Parish's cash and cash equivalents include amounts in petty cash, non-interest bearing demand deposits, and interest bearing demand deposits. The Parish maintains pooled cash accounts that are available for use by all funds, except those restricted by statutes or other legal reasons. Restricted assets represent cash held in separate bank accounts which are restricted according to applicable bond and debt indenture agreements or as required by Louisiana Revised Statutes for debt service funds.

#### 2. Investments

State law allows the Parish to invest in collateralized certificates of deposits, government backed securities, commercial paper, the State sponsored investment pool, and mutual funds consisting solely of government backed securities. Investments of the Parish consist primarily of collateralized certificates of deposits, U.S. Treasury obligations and obligations of the U.S. agencies. Investments are reported at cost or fair value, depending on the type of investment.

# 3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenses/expenditures when consumed rather than when purchased.

#### 4. Permanently Restricted Net Assets

The Parish has permanently restricted net assets consisting of sale proceeds and investment earnings from the Cane Bayou Mitigation Bank. These assets are required to be held in perpetuity. For more information see Note III.Q. Cane Bayou Mitigation Bank.

# ST. TAMMANY PARISH, LOUISIANA

# Notes to the Financial Statements 2019

# 5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their acquisition value at the date of donation.

The capitalization threshold for infrastructure, such as road improvements, is \$25,000 per asset. All donated infrastructure is recorded as a capital asset regardless of the value at the time of acquisition.

The Parish began the majority of the reconstruction of Parish roads after the voters of St. Tammany Parish passed a two percent (2%) sales tax used specifically for this purpose in 1986. The actual records of these capital projects were obtained for projects completed from 1988 to the present and were used to determine historical cost. Roads taken into inventory by donation from a developer of a new subdivision prior to 1988 were valued at estimated historical cost. The estimated historical cost was determined by using current construction costs, as determined by the St. Tammany Parish Department of Engineering, and the Consumer Price Index.

Bridges were valued using estimated historical cost. The Louisiana Department of Transportation and Development maintains a listing of Parish Bridges that includes the construction date and estimated replacement cost. Using this list, along with the Consumer Price Index, historical cost was estimated.

Estimated fair value is used to record the cost of land under roads at the time of donation. This estimate is determined by using the average assessed value of unimproved land in the Parish. The assessed value closely approximates 10% of the fair value, which was \$9,821/acre for 2019. The actual length and width of the road is known, and the width of the land generally includes an additional four feet each side for shoulder and ditch. Square footage of land, including shoulder and ditch, is used to determine value.

All capital assets, other than land and construction in progress, are depreciated using the straight-line method. The midyear convention is used for infrastructure. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. The following table states the Parish's capitalization thresholds and estimated useful lives of capital assets:

	Capitalization	Estimated
Description	Threshold	Useful Lives
Land & Building Improvements	\$ 25,000	20 years
Buildings	25,000	40 years
Water & Sewer Systems	25,000	25 years
Office Equipment, Other Equipment	5,000	7 years
Vehicles	5,000	5 years
Heavy Equipment	5,000	7 years
Infrastructure:		
Overlays	25,000	10 years
Roads	25,000	20 years
Bridges	25,000	30 years
Other	25,000	20-30 years

# 6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The Parish has four items that qualify for reporting in this category, which are the deferred charges on: bonds, pension, OPEB, and state revenue sharing. Deferred charges on bonds result from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred charges on pensions result from participating in defined benefit pension plans. For more information, see footnote III. F – Pension Plan. Deferred charges on OPEB result from the OPEB plan administered by the Parish. For more information, see footnote III.G – Post-employment Healthcare Benefits. Deferred charges on state revenue sharing result from the costs for pension and commission, which are to be deducted from state revenue sharing payments to be received after the ninety-day availability period.

In addition to liabilities, the statement of financial net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of financial position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The Parish has two types of items that qualify for reporting in this category, which are deferred charges on pensions and OPEB reported in the government-wide Statement of Net Position. Deferred charges on these items result from participating in defined benefit pension plans and other post-employment benefit plans. For more information, see footnote III. F – Pension Plan and III. G – Post-Employment Health Care Benefits.

The Parish has another type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: ad valorem/parcel fees and state revenue sharing. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

# 7. Net Position Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. The Parish's policy is to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### 8. Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. The Parish's policy is to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

# 9. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Parish itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Parish's highest level of decision-making authority. The Parish Council is the highest level of decision-making authority of the Parish that can, by adoption of an ordinance, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Fund:Policy:General Fund (000)4 months of operating expenditures prior to any cost recovery, plus two million<br/>for cash flow for grants and one million for contingenciesPublic Works (100)3 months of gross of revenue including amounts for debt and capital<br/>1 year of gross revenue including amounts for capitalDrainage (101)1 year of gross revenueEnvironmental Services (102)3 months of gross revenuePublic Health (111)1 year of gross revenueAnimal Services (112)1 year of gross revenue

The Parish has the following policies for maintaining a minimum fund balance:

Fund:	Policy:
Economic Development (122)	3 months of gross revenue
Hwy 21 Economic Development	3 months of gross revenue
District (123-2025)	
St. Tammany Parish Coroner	1 year of gross revenue
(126)	
Lighting Districts (190)	1 year of gross revenue
Debt Service Funds (all)	In accordance with bond ordinances

#### H. Revenues and Expenditures/Expenses

#### 1. Program Revenues

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes except for some specially assessed property taxes, which are classified as program revenues. Property taxes assessed in the Lighting Districts are classified as program revenues because the residents of these districts directly benefit from the installation and maintenance of lighting in their district.

# 2. Taxes

**Property Taxes** – Property taxes are levied on a calendar year basis. On May 2, 2019 the taxes were levied for the 2019 calendar year. They are due on December 31<sup>st</sup> of each year, and are considered delinquent on January 1<sup>st</sup>, which is the lien date. The Parish records 99% of property tax billed as collectible.

**Sales Taxes** – Sales taxes are due the month after sale and recognized in the month the liability is incurred. All sales taxes received by the Parish are dedicated for a specific purpose outlined below:

Pursuant to a tax proposition renewed by the voters on July 16, 2005, the Parish levies a two percent (2%) sales and use tax in Sales Tax District No. 3 (the District) through November 2031. This District includes all unincorporated areas of the Parish at the time the proposition was originally passed in 1986. Net proceeds are to be used for constructing, acquiring, extending, improving, maintaining and/or operating (i) roads, streets and bridges and (ii) drains and drainage facilities, including acquiring all necessary land, equipment and furnishings for any of said public works, improvements and facilities, and further including allocations to municipalities under intergovernmental agreements relating to annexations, revenue sharing areas, and growth management areas.

# 3. Compensated Absences

**Annual Leave** – Employees of the Parish earn annual vacation leave at varying rates according to years of service. Unused annual leave may be accumulated from year to year up to 240 hours. Annual leave is awarded annually at the beginning of the calendar year. Upon termination of services, employees are paid for unused annual vacation leave, except for leave awarded during that year, from an internal service fund.

**Sick Leave** – Sick leave is accrued at the rate of nine days per year. Unused sick leave may be accumulated from year to year up to 240 hours. Sick leave accrued prior to December 31, 2014 is compensable. An employee with three or more years of continuous service and whose employment is terminated in good standing may request and shall receive payment of unused compensable accumulated sick leave, the amount of which shall be payment for one work day for each three work days of unused compensable accumulated sick leave. The remaining 2/3 of compensable sick leave not paid for, provided the employee is vested with ten (10) or more years of service, will be deposited into the post-employment health plan to be used solely for the purpose of payment of post-employment medical premiums. All sick leave accrued beginning January 1, 2015 is non-compensable and shall be forfeited upon employment separation.

**Compensated Absences Liability** – The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. The liability for compensated absences includes salary-related benefits, where applicable.

# 4. Proprietary Funds Operating and Non-operating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary

fund's principal ongoing operations. The operating revenue for the Utility Operations enterprise fund consists primarily of sewer and water usage fees, connection fees, and garbage collection fees and the operating revenue for the Development Fund consists of development fees and permits. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### I. Pensions

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and changes in fiduciary net position of the defined benefit pension plan in which the Parish participates has been determined on the same basis as they are reported by the defined benefit pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

# A. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position

The governmental funds Balance Sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide Statement of Net Position. One element of that reconciliation explains that "capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds." The details of this \$383,544,898 are as follows:

Capital assets, not being depreciated	\$ 124,104,309
Capital assets being depreciated	527,353,117
Less: Accumulated depreciation	(267,912,528)
Net adjustment to increase fund balance – total governmental funds to arrive	
at net position – governmental activities	\$383,544,898

Another element of that reconciliation states that "other long-term assets are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds." The details of this \$993,080 difference are as follows:

Deferred inflows of resources - ad valorem/parcel fees and state revenue sharing	\$ 1,746,320
Deferred outflows of resources - state revenue sharing	(16,180)
Less amounts due to outside agencies:	
Library	(559,912)
STARC/Council on Aging	(177,148)
Net adjustment to increase fund balance – total governmental funds to arrive at net position –	
governmental activities	\$ 993,080

Another element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore, are not reported in the funds." The details of this \$90,316,370 difference are as follows:

Accrued interest payable	\$ 298,339
Impact fee credits due	9,152,288
Bonds payable and certificates of indebtedness	71,075,000
Premium on bonds (amortized as reduction of interest expense)	6,457,363
Prepaid insurance on bonds (amortized over life of debt)	(121,149)
OPEB liability	3,769,319
Pension liability	15,316,817
Deferred inflows of resources – pension	987,649
Deferred outflows of resources – pension	(13,576,149)
Deferred charges on refunding (amortized over life of debt)	(3,043,107)
Net adjustment to decrease fund balance – total governmental funds to arrive	
at net position – governmental activities	\$ 90,316,370

# ST. TAMMANY PARISH, LOUISIANA

Notes to the Financial Statements 2019

# **B.** Explanation of certain differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances, and the government-wide Statement of Activities

The governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between *net change in fund balances – total governmental funds* and *change in net position of governmental activities* as reported in the government-wide Statement of Activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period." The details of this \$4,836,063 difference are:

Capital outlay Depreciation expense	\$(36,920,022) 41,756,085
Net adjustment to decrease net changes in fund balances – total governmental funds	11,750,005
to arrive at changes in net position of governmental activities	\$ 4,836,063

The next element of the reconciliation states "Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds." This difference of \$664,850 includes the following:

Pension revenue	\$263,710
Forfeited impact fee credits	210,496
Ad valorem tax/parcel fees recognized current year	1,469,608
Ad valorem tax/parcel fees recognized prior year	(1,278,226)
State revenue sharing recognized current year	276,712
State revenue sharing recognized prior year	(277,450)
Net adjustment to increase net changes in fund balances – total governmental funds	
to arrive at changes in net position of governmental activities	\$ 664,850

Another element of that reconciliation states "The net effect of various miscellaneous transactions involving capital assets is to decrease net position." This difference of \$254,718 includes the donation of capital assets, which includes roadways and land, and the loss on roads undergoing complete re-construction and on vehicles before they have been fully depreciated. It also includes capital assets transferred to internal service funds or enterprise funds that were paid for by governmental funds. The assets paid out of capital project funds or special revenue funds that are associated with buildings were transferred to the internal service funds that are associated with buildings were transferred to the internal service funds, for utility operations related projects, and those assets were transferred to the Utility Operations fund that accounts for their operations. The details of this difference are as follows:

Donation of capital assets	\$ (2,746,317)
Capital contribution to other funds	1,003,566
Purchase of mitigation credits	243,600
Loss on roads and vehicles	1,753,869
Net adjustment to decrease net changes in fund balances – total governmental funds	
to arrive at changes in net position of governmental activities	\$ 254,718

Another element of that reconciliation states "The issuance of long-term debt (bonds, leases, etc.) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this \$31,492,704 difference are as follows:

Principal repayments:	
General obligation bonds	(\$ 965,000)
Sales tax bonds	(2,180,000)
Revenue bonds	(290,000)
Impact fee credits used	(62,573)
Issuance of debt:	
Impact fee credits	38,088
Issuance of bonds	34,952,189
Net adjustment to decrease net changes in fund balances – total governmental funds	
to arrive at changes in net position of governmental activities	\$31,492,704

Another element of that reconciliation states, "Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$3,239,644 difference are as follows:

Interest expense	\$ 298,339
Amortization of prepaid insurance	7,792
Amortization of deferred charges on refunding	180,602
Pension expense	3,579,376
OPEB funded by an Internal Service Fund	(500,000)
Amortization of premiums on bonds payable	(403,130)
State revenue sharing expenses Parish operating funds recognized in current year	16,180
State revenue sharing expenses Parish operating funds recognized in prior year	(16,426)
State revenue sharing expenses to outside agencies: Library, STARC, and Council on Aging current year	(6,854)
State revenue sharing expenses to outside agencies: Library, STARC, and Council on Aging prior year	6,958
Ad valorem and state revenue sharing due to outside agencies: Library, STARC, and Council on Aging recognized in current year	743,914
Ad valorem and state revenue sharing due to outside agencies: Library, STARC, and Council on Aging recognized in prior year	(667,107)
Net adjustment to decrease net changes in fund balances – total governmental funds	
to arrive at changes in net position of governmental activities	\$3,239,644

# III. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

#### A. Cash Deposits with Financial Institutions

At December 31, 2019, the Parish had cash and cash equivalents (book balances) totaling \$122,283,370 as follows:

	Primary Government
Non-Interest Bearing Demand Deposits	\$4,226,780
Interest Bearing Demand Deposits	118,056,090
Other	500
Total	\$122,283,370

Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The fair value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned. The Parish's deposit policy for custodial credit risk follows the requirements under state law. As of December 31, 2019, none of the primary government's bank balance of \$121,654,364 was exposed to custodial credit risk as \$121,404,364 was collateralized by securities held by the Federal Reserve Bank in the government's name, and the remainder was insured by FDIC.

#### **B.** Investments

As of December 31, 2019, the Parish had the following investments that are in an internal investment pool:

Investment	Maturity Date	Fair Value
Certificate of Deposit	01/12/20	\$175,000
Certificate of Deposit	01/31/20	10,000,000
Certificate of Deposit	02/26/20	10,000,000
Certificate of Deposit	03/12/20	10,000,000
Federal Farm Credit Bank	01/06/20	4,499,640
Federal Farm Credit Bank	03/02/20	2,333,599
Federal Farm Credit Bank	04/13/20	3,996,480
Federal Farm Credit Bank	05/18/20	3,994,760
Federal Farm Credit Bank	07/13/20	2,995,830
Federal Farm Credit Bank	08/24/20	3,989,920
Federal Farm Credit Bank	12/14/20	3,996,840
Federal Farm Credit Bank	08/05/21	2,250,450

continued <u>Investment</u>	Maturity Date	<u>Fair Value</u>
Federal Farm Credit Bank	11/16/21	4,000,000
Federal Farm Credit Bank	06/03/22	6,258,250
Federal Farm Credit Bank	09/09/22	2,100,567
Federal Farm Credit Bank	08/28/23	12,500,500
Federal Farm Credit Bank	11/05/24	4,486,500
Federal Farm Credit Bank	12/17/25	2,500,200
Federal Home Loan Bank	09/14/20	1,897,701
Federal Home Loan Bank	09/23/20	1,498,200
Federal Home Loan Bank	10/26/20	3,993,720
Federal Home Loan Bank	12/23/24	1,999,160
Federal Home Loan Mortgage Corporation	09/30/20	2,498,575
Federal Home Loan Mortgage Corporation	12/16/21	1,998,460

Federal National Mortgage Association	07/13/20	1,996,900
Federal National Mortgage Association	11/13/20	3,000,930
Federal National Mortgage Association	12/30/20	3,989,320
Federal National Mortgage Association	10/27/21	1,992,400
Federal National Mortgage Association	01/05/22	14,107,940
Federal National Mortgage Association	02/14/22	2,001,860
Federal National Mortgage Association	10/28/22	4,001,600
Treasury Note	11/15/20	17,014,620
Treasury Note	05/31/21	9,969,500
Treasury Note	06/30/21	3,972,040
Total Investments		\$190,030,387

The difference of \$201,836 between the investment balance on the Statement of Net Position and this listing is due to Sub-Drainage Dist. No. 1 of 3 participating in the Parish's investment pool.

The investments in the Federal Farm Credit Bank, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Treasury Notes, and Federal National Mortgage Association all have a credit rating of AA+ from Standard & Poor's or Aaa from Moody's Investors Service.

*Interest Rate Risk.* The Parish's policy limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates by structuring the portfolio to meet cash requirements.

*Credit Risk.* The Parish's policy for credit risk or investment choices follows the requirements under state law which limits investments to the following:

- 1. Direct United States Treasury obligations
- 2. Bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by federal agencies and provided such obligations are backed by the full faith and credit of the United States of America
- 3. Bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by U.S. government instrumentalities, which are federally sponsored
- 4. Direct security repurchase agreements or any federal book entry only securities
- 5. Time certificates of deposit of any bank domiciled or having a branch office in the state of Louisiana, savings accounts or shares of savings and loan associations and savings banks
- 6. Mutual or trust fund institutions which are registered with the SEC and which have underlying investments consisting solely of and limited to securities of the United States government or its agencies
- 7. Guaranteed investment contracts issued by a bank, financial institution, insurance company, or other entity having one of the two highest short-term rating categories of either Standard & Poor's Corporation or Moody's Investors Service
- 8. Investment grade commercial paper of domestic United States corporations
- 9. LAMP

*Concentration of Credit Risk.* The Parish's policy on the amount the Parish may invest in any one issuer is to diversify its holdings to manage the concentration of credit risk. The Parish's investments in Certificates of Deposit, Federal Farm Credit Bank, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, and Treasury Notes are 15.88%, 31.52%, 4.94, 8.70%, 22.67%, and 16.29%, respectively, of total investments.

#### **Fair Value Measurement**

The Parish categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The following table sets forth by level within the fair value hierarchy the Parish's assets at fair value as of December 31, 2019:

		Fair Value Measurement Using:			
	December 31, 2019	Level 1	Level 2	Level	3
Certificate of Deposits	\$30,175,000	\$ -	\$30,175,000	\$	-
Federal Farm Credit Bank	59,903,536	-	59,903,536		-
Federal Home Loan Bank	9,388,781	1,999,160	7,389,621		-
Federal Home Loan Mortgage Corporation	16,523,200	1,998,460	14,524,740		-
Federal National Mortgage Association	43,083,710	16,100,340	26,983,370		-
U.S. Treasury Notes	30,956,160	30,956,160	-		-
Total	\$190,030,387	\$51,054,120	\$138,976,267	\$	-

The valuation process for Level 2 involves inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets where there isn't sufficient activity, and/or where price quotations vary substantially either over time or among market makers (some brokered markets, for example), or in which little information is released publicly. Level 2 inputs other than quoted prices that are observable for the asset may include observable and commonly quoted interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, default rates, inputs that are derived principally from or corroborated by observable market data, and similar information. A Level 2 designation requires that all inputs and/or adjustments are observable and documentable in the marketplace. When one or more inputs or adjustments are required to price an investment holding and such inputs are not sufficiently observable or documentable to meet standards for a Level 2 price, the investment is designated as Level 3.

#### C. Receivables

The primary government's receivables of \$56,973,319 (net of allowances of \$79,860 recorded in the General Fund, \$584 in Non-major Special Revenue Funds, \$7,192 in the Utility Operations Fund, and \$289,414 in the Development Fund) at December 31, 2019, are as follows:

				Inter-

Buildings	(4,609)	(285)	-	-	(4,894)
Vehicles	(522,526)	(142,402)	14,082	(442,577)	(1,093,423)
Machinery and Equipment	(621,168)	(82,927)	-	(148,806)	(852,901)
Office/Other Equipment	(32,944)	(44,873)	-	(131,712)	(209,529)
Infrastructure:					
Sewer equipment, lines and pumps	(18,588,212)	(2,233,023)	-	-	(20,821,235)
Water equipment, lines and wells	(6,548,946)	(789,144)	-	(7,580)	(7,345,670)
Total accumulated depreciation	(26,340,104)	(3,295,197)	14,082	(730,675)	(30,351,894)
Total capital assets being depreciated, net	36,398,603	(2,441,707)	-	290,647	34,247,543
Total Capital Assets Business-type Activities, net	\$39,086,683	(\$1,785,393)	-	\$110,310	\$37,411,600
Total Capital Assets - Primary Government, net	\$501,568,240	(\$7,734,236)	(\$1,753,869)	\$-	\$492,080,135

The difference between the amount of depreciation in governmental activities and the amount allocated to a function is due to the assets in internal service funds. These funds are eliminated to arrive at the government-wide financials, and all expenses are allocated to the various functions.

Depreciation expense of \$45,051,282 for the year ended December 31, 2019, was charged to the following functions:

Governmental Activities:	
General Government	\$528,872
Public Safety	1,127,477
Highways and Streets	38,743,905
Sanitation	8,076
Health and Welfare	70,631
Cultural and Recreation	572,451
Economic Development	20,108
Transportation	684,565
Total depreciation expense – governmental activities	\$41,756,085
Business-type Activities:	
Utility Operations	\$3,261,407
Development	33,790
Total depreciation expense – business-type activities	\$3,295,197

The decrease in the value of roads is due to advanced deterioration. This is due to increased traffic and various other reasons. Capital improvement projects were started to re-construct these roads, and the current value was written off as a loss on disposition of asset. Completed infrastructure projects and capital projects make up the reclassifications from construction in progress to their appropriate category.

#### E. Accounts, Salaries and Benefits, and Other Payables

The payables of \$23,548,616 at December 31, 2019 for the primary government are as follows:

	Salaries/Benefits	Accounts	Other	Total
Governmental activities:				
General Fund (000)	\$ 507,015	\$ 2,496,308	\$172,356	\$3,175,679
Public Works (100)	342,274	420,444	141,306	904,024
Hwy 21 Economic Development Dist. (123-2025)	-	-	6,002,522	6,002,522
St. Tammany Parish Library (128)	-	-	418,945	418,945
Capital Improvements-General (200-4640)	-	983,140	247,876	1,231,016
Non-major Special Revenue Funds	87,870	5,129,028	691,816	5,908,714
Non-major Debt Service Funds	-	2,335	-	2,335
Non-major Capital Project Funds	-	3,137,957	932,293	4,070,250
Internal Service Funds		297,652	734,935	1,032,587
Total governmental activities	\$937,159	\$12,466,864	\$9,342,049	\$22,746,072
Business-type activities:				
Utility Operations (502)	101,488	552,599	69,316	723,403
Development (507)	46,504	32,637	-	79,141
Total business-type activities	147,992	585,236	69,316	802,544
<b>Total Primary Government</b>	\$1,085,151	\$13,052,100	\$9,411,365	\$23,548,616

The difference of \$177,148 from what is listed above for governmental activities and the amount reported on the Statement of Net Position is due to the deferred inflow of resources in a non-major special revenue fund that is reported both as revenue and receivable, and expense and payable in the government-wide statements, but only as receivable and deferred inflow in the governmental fund statements.

# F. Pension Plan

**Plan Description** – Substantially all employees of the financial reporting entity are members of the following cost-sharing, multiple-employer defined benefit pension plan (the System):

Entity	Retirement System
St. Tammany Parish Government	Parochial Employees' Retirement System (Parochial Plan A) (PERS)
St. Tammany Parish Coroner	Parochial Employees' Retirement System (Parochial Plan A)
St. Tammany Parish Library	Parochial Employees' Retirement System (Parochial Plan A)
Mosquito Abatement District	Parochial Employees' Retirement System (Parochial Plan A)

**Employee Eligibility Requirements** – All employees working at least twenty-eight hours per week shall become members on the date of employment. As of January 1, 1997, elected officials, excepting coroners, justices of the peace, and parish presidents, may no longer join the retirement system.

The retirement system issues a publicly available, annual financial report that includes financial statements and required supplementary information. These reports may be obtained by writing or calling the following:

Parochial Employees' Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619 (225) 928-1361

**Funding Policy Statute** – Statute requires covered employees to contribute a percentage of their salaries to the pension plans. As provided by R.S. 11:103, the employer contributions are determined by an actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. Members are required by state statute to contribute 9.5% of their annual covered salary, and the employer is required to contribute at an actuarially determined rate. The rate for 2019 was 11.5% of annual covered payroll. Contributions to the retirement system also include one-fourth of 1% of taxes shown to be collectible by the tax rolls of each Parish. The following table details the employer's contributions to the retirement system under Plan A for the last three years, which equals the required contributions for each year.

2019	2018	2017
\$2,790,420	\$2,842,925	\$3,312,071

**Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions** – The following table reflects the Parish's reported net pension asset/liability, pension expense, proportion share of the net pension asset/ liability, and changes in proportion as of December 31, 2019.

Net Pension Liability Pension Expense	\$17,832,897 \$6,929,791
Proportion of Net Pension Liability	4.017903%
Change in Proportion Decrease	.286863%

The net pension assets/liabilities were measured as of December 31, 2018 and the total pension liability used to calculate the net pension asset/liability was determined by an actuarial valuation as of that date. The required projected employer contributions are used to determine the proportionate relationship of each employer to all employers of PERS. The Parish's proportion was determined on a basis that is consistent with the manner in which contributions to the pension plan are determined. The allocation percentage was used in calculating the Parish's proportionate share of pension amounts.

The allocation method used in determining the Parish's proportion was based on the Parish's contribution to the plan during the fiscal year ended December 31, 2018 as compared to the total of all employers' contributions received by the plan for the fiscal year ended December 31, 2018.

At December 31, 2019, the Parish reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources for its' participation in PERS:

# ST. TAMMANY PARISH, LOUISIANA

# Notes to the Financial Statements 2019

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Differences between Expected and Actual Experience	\$ -	\$(1,086,427)
Changes in Assumptions	4,458,809	-
Net Difference between Projected and Actual Earnings on Pension Plan Investments	8,536,666	-
Changes in Proportion and Differences between Employer and Non-Employer		
Contributions and Proportionate Share of Contributions:		
Change in Proportionate Share	20,396	(111,060)
Difference in Contributions	-	47,597
Employer Contributions Subsequent to the Measurement Date	2,790,420	-
Total	\$15,806,291	\$(1,149,890)

Deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date for PERS of \$2,790,420, will be recognized as a reduction of the net pension liability during the year ending December 31, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expenses (benefit) as follows:

Year Ending December 31:	
2020	\$4,078,903
2021	2,216,783
2022	1,796,856
2023	3,773,439
Total	\$11,865,981

Actuarial Methods and Assumptions – A summary of the actuarial methods and assumptions used in determining the total pension liability as of December 31, 2018 are as follows:

Valuation Date Actuarial Cost Method Investment Rate of Return Expected Remaining Service-lives Projected Salary Increases Cost of Living Adjustments	December 31, 2018 Entry Age Normal 6.50% (Net of investment expense, including inflation) 4 years 4.75% The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the
Mortality Inflation Rate	Board of Trustees. Pub-2010 Public Retirement Plans Mortality Table for Health Retirees multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and beneficiary mortality. For employees, the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale for disabled annuitants. 2.4%

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which bestestimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting

the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.00% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return in 7.43% for the year ended December 31, 2018.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2018 are summarized in the following table:

		Long-Term Expected
	Target Asset	Portfolio Real Rate
Asset Class	Allocation	of Return
Fixed income	35%	1.22%
Equity	52%	3.45%
Alternatives	11%	.65%
Real Assets	2%	.11%
Totals	100%	5.43%
Inflation		2.00%
Expected Arithmetic Nominal Return		7.43%

The mortality rate assumption used was set based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was assigned credibility weighting and combined with a standard table to produce current levels of mortality. As a result of this study, mortality for employees was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. In addition, mortality for annuitants and beneficiaries was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. For disabled annuitants, mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale.

**Discount Rate** - The discount rate used to measure the total pension liability was 6.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contribution from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Parish's Proportionate Share of Net Pension Liability to Changes in Discount Rate** – The following presents the Parish's proportionate share of the net pension liability of PERS as of December 31, 2018 using the current discount rate of 6.5%, as well as what the Parish's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

1.0% Decrease	Current Discount Rate	1.0% Increase
\$37,872,286	\$17,832,897	\$1,081,704

**Payables to the Pension Plan** – At December 31, 2019, the Parish did not report payables for an outstanding amount of contributions due to PERS.

#### **Deferred Compensation Plan**

Certain employees of the Parish participate in the Louisiana Public Employees Deferred Compensation Plan (the Plan) adopted under the provisions of the Internal Revenue Service Code, Section 457. Complete disclosures relating to the Plan are included in the separately issued audit report for the Plan, which is available from the Louisiana Legislative Auditor, Post Office Box 94397, Baton Rouge, Louisiana 70804-9397.

## ST. TAMMANY PARISH, LOUISIANA

#### Notes to the Financial Statements 2019

#### G. Post-Employment Health Care Benefits

**Plan Description** – The Parish provides certain continuing health care benefits for its retired employees. The Parish's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the Parish. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Parish. No assets are accumulated in a trust the meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P52 *Post-employment Benefits Other than Pensions-Reporting for Benefits not Provided through Trusts that Meet Specified Criteria-Defined Benefit.* However, the Parish has accrued for \$6,947,212 in an internal service fund.

**Benefits Provided** – Medical benefits are provided through an insured medical plan and are made available to employees upon actual retirement. The employer pays only for the employee or retiree (not dependents). The employer pays 100% of the employee coverage before retirement and a percentage of the retiree coverage on a varying scale depending on the years of service at retirement (25% for 10-15 years; 50% for 15-20 years; and 75% for 20 years or more for those hired prior to January 1, 1998). For those hired after January 1, 1998, the Parish does not pay a portion of the health care costs. The retirement eligibility (D.R.O.P. entry) provisions are as follows: the earliest of 30 years of service; age 55 and 25 years of service; age 60 and 10 years of service; or, age 65 and 7 years of service.

Employees covered by benefit terms – At December 31, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	39
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	561
Total	600

**Total OPEB Liability** – The Parish's total OPEB liability of \$10,716,531 was measured as of December 31, 2019 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all period included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	4.0% including inflation
Discount rate	4.10% annually (Beginning of year to determine actuarially
	determined contribution)
	2.74% annually (as of end of year measurement date)
Healthcare cost trend rates	Flat 5.5% annually

The discount rate was based on the average of the Bond Buyers' 20 year general obligation municipal bond index as of December 31, 2019, the end of the applicable measurement period.

Mortality rates were based on the RP-2000 Table without projection with 50%/50% unisex blend.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of ongoing evaluations of the assumptions from January 1, 2009 to December 31, 2019.

#### **Changes in the Total OPEB Liability**

Balance at December 31, 2018	\$8,677,291
Changes for the year:	
Service cost	62,234
Interest	350,581
Differences between expected and actual experience	(119,943)
Changes in assumptions	1,999,419
Benefit payments and net transfers	(253,051)
Net changes	2,039,240
Balance at December 31, 2019	\$10,716,531

## ST. TAMMANY PARISH, LOUISIANA

## Notes to the Financial Statements 2019

**Sensitivity of the total OPEB liability to changes in the discount rate** – The following presents the total OPEB liability of the Parish, as well as what the Parish's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.74%, or 1 percentage point higher (3.74%) than the current discount rate:

	1.0% Decrease	Current Discount Rate	1.0% Increase
	(1.74%)	(2.74%)	(3.74%)
Total OPEB liability	\$ 12,674,911	\$ 10,716,531	\$ 9,173,161

**Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates** – The following presents the total OPEB liability of the Parish, as well as what the Parish's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (4.5%) or 1 percentage point higher (6.5%) than the current healthcare trend rates:

	1.0% Decrease (4.5%)	Current Trend (5.5%)	1.0% Increase (6.5%)
Total OPEB liability	\$ 9,669,333	\$ 10,716,531	\$ 13,080,378

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB** – For the year ended December 31, 2019, the Parish recognized OPEB expense of \$480,116. At December 31, 2019, the Parish reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Outflows of	Defer	red Inflows of
		Resources		Resources
Differences between expected and actual experience	\$	-	\$	(299,603)
Changes in assumptions		1,845,618		(815,665)
Total	\$	1,845,618	\$	(1,115,268)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years ending December 31:			
2020	(\$67,301)		
2021	(67,301)		
2022	(67,301)		
2023	(67,301)		
2024	(67,301)		
Thereafter	(393,845)		
Total	(\$730,350)		
-			

#### H. Construction and Other Significant Commitments

**Construction Commitments** – The Parish had active projects as of December 31, 2019. At year-end, the commitments with contractors are as follows:

Project Name	Expenditures to Date	Commitment
Governmental Activities:		
Abita River Regional Detention Pond	\$12,492	\$ -
Airport Corporate Hangar	111,130	-

The projects that have no remaining commitment are due to either contracts with retainage still payable for which final acceptance has not occurred yet or projects that only the design phase has been completed and construction has not yet started.

In October 2013, the Parish entered into an intergovernmental agreement with the St. Tammany Parish Sheriff's office for an interoperable radio communication system to provide Parish-wide operational and emergency communications between multiple first responder agencies. The Sheriff was to acquire, purchase, maintain, construct, install and/or otherwise obtain an interoperable 700 mhz digital access public safety and public service radio system, including towers, fixed radio equipment, buildings, and computer hardware/software necessary for operation and/or continued operation and provide the Parish with two hundred and fifty radios for the Parish's access and connection to the system. Payments to the Sheriff in 2019 totaled \$154,885. The Parish is committed to pay an annual fee to the Sheriff as shown in the following table:

Year Due	Amount
2020	\$203,943
2021	193,010
2022	193,706
2023	205,683
2024	206,367
2025	195,747
2026	185,267
2027	186,034
2028	186,593
2029	93,495
Total	\$1,849,845

#### I. Risk Management

The Parish is covered for its liability exposures by several policies of insurance with varying self-insured retentions (SIR). These policies provide the Parish with an excess layer of coverage in order to limit its potential exposure. The worker's compensation policy has a \$500,000 SIR per occurrence. The general, auto, and law enforcement liability policies each have a \$100,000 SIR. Public officials' errors and omissions, employment practices, and employee benefits administration liability each have a \$25,000 SIR.

During 2019, the Parish's maximum liability exposure within the self-insured retentions was \$500,000 aggregate for general, auto, public officials' errors and omissions, employment practices, employee benefits, and law enforcement liability. There is a \$1,000,000 limit per occurrence for any Parish-related liability for each of these lines of coverage. The general and employee benefits liability policies have a maximum aggregate of \$3,000,000 each. The public officials' errors and omissions, employment practices, and employee benefits liability policies have a maximum aggregate of \$3,000,000 each. The public officials' errors and omissions, employment practices, and employee benefits liability policies have a maximum aggregate of \$2,000,000 each. The law enforcement liability policy has a maximum aggregate of \$1,000,000. Settlements in each of the past three years did not exceed insurance coverage.

The Parish also has an umbrella excess liability policy which follows the general, auto, public officials' errors and omissions, employment practices, employee benefits, law enforcement, and employer's liability policies. The umbrella policy has a \$3,000,000 limit per occurrence and a maximum \$3,000,000 aggregate.

Risks of loss are accounted for and financed through internal service funds. The financial statements reflect an accrual for this exposure, net of claims paid, of \$2,000,000. The financial statements also reflect an accrual of \$2,000,000 for worker's compensation claims. Management believes this amount is adequate to cover all open claims and known incidents at December 31, 2019. The liabilities for claims under the Parish's self-insurance funds are based primarily on actual estimates of the amounts needed to pay prior and current year claims and to establish a reserve for incurred but not reported claims. Changes in the aggregate liabilities for claims were as follows:

	2019	2018
Unpaid claims, beginning of year	\$5,000,000	\$5,000,000
Incurred claims and changes in estimates	(154,215)	912,729
Claim payments	(845,785)	(912,729)
Unpaid claims, end of year	\$4,000,000	\$5,000,000

Of the \$4,000,000 in claims payable, \$900,000 is considered current and \$3,100,000 is considered long-term.

#### J. Long-term Liabilities

The Parish has issued debt for the following purposes:

- 1) *General Obligation Bonds* to acquire and construct facilities for the St. Tammany Parish Coroner's office and the St. Tammany Parish Library.
- 2) Sales Tax Bonds to maintain parish roads.
- 3) *Revenue Bonds* to acquire a sewer and water facility.
- 4) Impact Fee Credits to fund infrastructure projects.

The following is a summary of the long-term obligation transactions for the year ended December 31, 2019:

	Long-term Obligations at 12/31/18	Additions	Deductions	Long-term Obligations at 12/31/19	Due within One Year
<b>Governmental Activities</b>					
Bonds Payable					
General Obligation Bonds	\$7,180,000	\$ -	(\$965,000)	\$6,215,000	\$945,000

Health Plan Payable Retirees	8,677,291	2,412,234	(372,994)	10,716,531	-
<b>Total Governmental Activities</b>	67,968,286	58,576,263	(8,492,624)	118,051,925	7,035,609
Business-type Activities					
Utility Revenue Bonds	38,495,563	-	(915,000)	37,580,563	975,000
Discount on Bonds Payable	(895,143)	-	56,439	(838,704)	(56,295)
Pension (Asset) Liability	(395,143)	3,533,879	(622,656)	2,516,080	
Total Business-type Activities	37,205,277	3,533,879	(\$1,481,217)	39,257,939	918,705
Total Primary Government	\$105,173,563	\$62,110,142	(\$9,973,841)	\$157,309,864	\$7,954,314

The compensated absences liability is accounted for in two internal service funds. The Post-Employment Leave Benefit Internal Service Fund (679) is used to account for vacation and one-third of compensable sick leave paid to an eligible employee upon separation from employment. At the end of 2019, the liability in this fund was \$1,199,544, of which \$60,000 is considered current and \$1,139,544 is considered long-term.

The Post-Employment Health Insurance Internal Service Fund (678) is used to account for the two-thirds of compensable accumulated sick leave paid out for eligible employees upon separation of employment to the Post-employment Health Plan on the employees' behalf. The liability was \$134,382, of which \$20,000 is considered current and \$114,382 is considered long-term as of December 31, 2019.

OPEB is accounted for in both the Post-Employment Health Insurance Internal Service Fund (678) (\$6,947,212) and the government-wide statements (\$3,769,319).

In prior years, the General Fund and the Public Works Fund were the two governmental funds primarily used to liquidate the liability for compensated absences except for the instances noted above where the Post-Employment Leave Benefit fund and the Health Insurance fund are used.

In prior years, any fund that has salaries has been used to liquidate its' proportionate share of the net pension liability and net OPEB liability.

Individual debt issues are as follows:

		Bond	Original Issue Date	Original Borrowing	Interest Rate	Final Payment Due	Principal Outstanding	Source of Funds

		TOTAL PRIMARY GOVERNMENT	,				\$108,655,563	

The primary government has accumulated \$4,909,147 in the debt service funds for future debt requirements.

In accordance with R.S. 39:562, aggregate debt payable solely from ad valorem taxes for each specific purpose shall not exceed 10% of total assessed valuation of taxable property. At December 31, 2019, the statutory limit is \$266,204,062 and the Parish has \$6,215,000 of outstanding general obligation bonded debt. In addition, under R.S. 39:698.4, the Parish is legally restricted from incurring long-term bonded debt secured by sales and use taxes where principal and interest payment(s) falling due in any one year exceed 75% of the avails of the tax for the year. The Parish was within the 75% limitation on principal and interest payments in all years that sales tax bonds were issued and outstanding.

Annual debt service requirements to maturity for the issues are as follows:

		Year Ending December 31	Principal	Interest	Total
		2020	\$945,000	\$183,760	\$1,128,760

#### **Details of Sales Tax Bonds, Series 2019**

On May 22, 2019, the Parish issued sales tax bonds in the amount of \$30,000,000 for road, bridge, and drainage projects. These bonds were issued at a premium of \$4,952,189 and have an interest rate of 4.0% to 5.0% with a maturity of June 1, 2031.

#### **Defeased Debt Obligation**

In 2018, the Parish defeased the Utility bonds, Series 2010B, by placing the proceeds of the new bonds in an irrevocable trust account to provide for all future debt service payments on the old debt. At December 31, 2019, \$36,295,000 of defeased bonds remain outstanding. The assets held in the irrevocable trust are risk-free monetary assets that cannot be substituted with monetary assets that are not essentially risk-free.

#### K. Landfill Post-closure Care

The Parish is responsible for the post-closure care costs associated with a municipal solid waste landfill which was closed on December 20, 1991. According to the EPA, this responsibility will continue for thirty years from the date of closure. The probability of additional environmental clean-up or post-closure care costs is unlikely, and therefore, no liability has been recorded.

## L. Fund Balance

The fund balance for governmental funds as of December 31, 2019 was \$258,350,126. The following table indicates the purpose for each restriction or commitment:

purpose for each	General Fund (000)	Public Works (100)	Hwy. 21 Econ. Dev. Dist. (123-2025)	Capital Imp General (200-4640)	Non-major Special Revenue	Non-major Debt Service	Non-major Capital Projects	Non-major Permanent	Total

		Total	\$102,498	\$379,903	\$7,432	\$11,129,716	\$270,943	\$26,254	\$11,916,746

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other fund" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans).

The amount due from primary government to the Library is \$559,912 less on the governmental fund statements as compared to the government-wide statements. This is due to deferred inflows of resources being reported both as revenue and receivable, and expense and payable in the government-wide statements, but only as receivable and deferred inflow in the governmental fund statements.

All inter-fund receivables/payables are due to a temporary shortage of cash in the payable fund. These amounts are expected to be repaid in less than one year. The composition of inter-fund balances as of December 31, 2019, is as follows:

		Due to:			
			General Fund (000)	STP Library Capital (228)	Total
	Major Fund	St. Tammany Parish Library (128)	\$ -	\$1,350,000	\$1,350,000
	Non-major	Grants – Health & Welfare (144)	728,258	-	728,258
	Special Revenue	Grants – Infrastructure (145)	75,285	-	75,285
ä	Funds	Grants – Transportation (148)	349,818	-	349,818
From:		Grants – Other (149)	4,666	-	4,666
le F		Lighting District No. 10 (190-4630)	174	-	174
Due	Non-major Capital Project	Public Health Capital (211)	711,313	-	711,313
	Funds	Economic Development Capital (222)	53,110	-	53,110
		Total	\$1,922,624	\$1,350,000	\$3,272,624

#### N. Inter-fund Transfers

The following table indicates inter-fund transfers:

	To: General Fund (000)	Public Works (100)	Capital Improvements – General (200- 4640)	Non-major Debt Service Funds	Non-major Capital Project Funds	Non-major Enterprise Fund	Total
General Fund (000)	\$-	\$-	\$ -	\$ -	\$ -	\$600,000	\$600,000
Capital Improvements – General (200-4640)	-	-	-	-	41,264	-	41,264
Non-major Special Revenue Funds	178,267	-	-	-	-	-	178,267
Non-major Debt Service Funds	-	-	34,602,674	-	5,070,540	-	39,673,214
Non-major Capital Project Funds	-	-	3,646,232	-	2,916,769	-	6,563,001
Internal Service Funds	-	27,650	-	-	-	-	27,650
Utility Operations (1)		-	-	359,817	-		359,817
Total	\$178,267	\$27,650	\$38,248,906	\$359,817	\$8,028,573	\$600,000	\$47,443,213

(1) Business-type Activities

The transfers were made for the following reasons:

- 1. A transfer was made from the General Fund to a non-major enterprise fund for cash flow for the first year of operations.
- A transfer was made from the Capital Improvements General Fund to a non-major capital project fund for additional 2. funding for a drainage coastal protection plan.
- 3. A transfer was made from a non-major special revenue fund to the General Fund per Louisiana Revised Statute 15:571.11C stating that <sup>1</sup>/<sub>2</sub> of excess funds at year end are to be transferred.
- 4. A transfer was made from a non-major debt service fund to the Capital Improvements General Fund to transfer the proceeds of the new bond issue to the capital project fund where the funds will be spent.
- 5. Transfers were made from non-major debt service funds to non-major capital project funds to move the excess funds after the debt was paid off for use on capital projects.
- Transfers were made from non-major capital project funds to the Capital Improvements General fund to fund a 6. portion of the cost of capital projects.
- 7. Transfers were made from non-major capital project funds to non-major capital project funds to fund a portion of the cost of capital projects.
- Transfers were made from an internal service fund to the Public Works fund to cover the costs of claims. 8.
- 9. Utility Operations made a transfer to a non-major debt service fund to fund debt that is secured by excess revenues of the Parish, but paid by Utility Operations as long as excess funds are available for the debt.

#### **O.** Operating Leases

The Parish leases space to other entities under operating leases. Amounts for operating leases included in fee/rent revenue for fiscal year 2019 totaled \$1,138,711 of which \$1,123,926 was recorded in governmental-type activities and \$14,785 was recorded in business-type activities. Following is a schedule by year of future lease revenues as of December 31, 2019:

-		Business-type Activities:				
Fiscal Year	General Fund (000)	Public Works (100)	Non-major Special Revenue Funds	Internal Service Funds	Utility Operations (502)	Total
2020	\$12,000	\$180,345	\$17,500	\$789,862	\$8,785	\$1,008,492
2021	12,000	164,462	-	436,099	8,785	621,346
2022	12,000	51,214	-	410,262	2,928	476,404
2023	12,000	-	-	405,576	-	417,576
2024	12,000	-	-	335,087	-	347,087
2025	12,000	-	-	327,919	-	339,919
2026	12,000	-	-	327,919	-	339,919
2027	12,000	-	-	225,766	-	237,766
2028	12,000	-	-	77,258	-	89,258
2029	10,000	-	-	-	-	10,000
Total	\$118,000	\$396,021	\$17,500	\$3,335,748	\$20,498	\$3,887,767

The Parish leased space for one of its programs under operating leases. Payments for operating leases for fiscal year 2019 totaled \$37,800 for a termination payment of which was recorded in business-type activities.

#### P. Tax Abatements

The Parish is affected by the Louisiana Industrial Ad Valorem Tax Exemption Program (ITEP), which is an original state incentive program which offers an attractive tax incentive for manufacturers within the state. The program abates, up to ten years, local property taxes (ad valorem) on a manufacturer's new investment and annual capitalized additions related to the manufacturing site. This exemption is granted per contract with the Louisiana Department of Economic Development and will specify the buildings and/or personal property items covered under the exemption.

The Restoration Tax Abatement Program (RTA) is an incentive created for municipalities and local governments to encourage the expansion, restoration, improvement and development of existing structures in downtown development districts, economic development districts and historic districts. The RTA program provides an up to ten-year abatement of ad valorem property taxes on the renovations and improvements of existing commercial structures and owner-occupied residences. The abatement of ad valorem property taxes is on the increased value of the property from the restoration, improvement, development or expansion of an existing structure.

The Parish has forgone \$540,553 in fiscal year 2019 in ad valorem taxes due to these abatement programs.

#### Q. Cane Bayou Mitigation Bank

The St. Tammany Parish Cane Bayou Mitigation Bank (CBMB) was established in October 2019. The land for the CBMB was purchased in 2012 from the State of Louisiana and lies between Mandeville and Lacombe in the Bayou Castine and Bayou Cane watersheds. The CBMB will be developed in two sections, which will preserve the pine savannah wetlands in perpetuity while providing compensatory mitigation for future Parish projects. The Mitigation Banking Instrument (MBI) for Section 1 of CBMB has been formally approved by the cognizant federal and state agencies, and work to develop Section 1 has begun.

The CBMB will provide federally-required compensatory mitigation for the Parish's capital infrastructure projects which have unavoidable impacts to wetlands at the project sites. The CBMB is a single-client mitigation bank to be used solely by St. Tammany Parish Government. The price of mitigation credit acres for the CBMB is set in the MBI. The U.S. Army Corps of Engineers releases "mitigation credit acres" for Parish projects as the Parish reaches prescribed milestones in the construction and establishment of native wetlands on the property. Two CBMB Escrow Accounts have been established to fund the construction and establishment of Section 1 and to provide for the long-term maintenance and protection of those wetlands in perpetuity.

#### **R.** Major Discretely Presented Component Units

#### 1. St. Tammany Parish Coroner

#### Cash and Cash Equivalents

The St. Tammany Parish Coroner's (Coroner) deposits are categorized as follows at December 31, 2019:

	Carrying Amount	Bank Balance
Demand Deposits	\$811,553	\$927,833

These deposits are secured from custodial credit risk by \$250,000 of federal deposit insurance (GASB Category 1) and \$2,750,000 of pledged securities held by the custodial bank in the name of the Coroner (GASB Category 2).

#### **Capital Assets**

The St. Tammany Parish Coroner has a capitalization threshold of \$5,000 uses the straight-line depreciation method, and uses the following estimated useful lives:

Description	Estimated Useful Lives
Auto Equipment	7 years
Autopsy Equipment	15 years
Computer Equipment	3 years
Furniture and Fixtures	5 years
Lab Equipment	3 to 5 years
Office Equipment	3 to 5 years

Capital assets and depreciation activity for the year ended December 31, 2019 is as follows:

St. Tammany Parish Coroner	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets being depreciated:				
Leasehold Improvements	\$69,392	\$ -	\$ -	\$69,392
Auto Equipment	382,548	59,330	(26,896)	414,982

Total accumulated depreciation	(2,861,122)	(203,520)	26,896	(3,037,746)
Total capital assets, net	\$629,581	(\$63,699)	\$ -	\$565,882

#### 2. St. Tammany Parish Library

#### **Cash and Cash Equivalents**

The following is a summary of cash and cash equivalents (book balances) at December 31, 2019:

Demand Deposits

\$5,080,741

These deposits are stated at cost, which approximates market. As of December 31, 2019, \$5,229,490 of the Library's bank balance was exposed to custodial credit risk. However, these deposits were secured from risk by the pledge of securities owned by the fiscal agent bank.

#### Risk Management

The St. Tammany Parish Library participates in the self-insurance fund of the St. Tammany Parish Government, for coverage of property, contents, and general liability.

The St. Tammany Parish Library has established a self-insurance medical plan for its employees and their covered dependents. The plan administrator is responsible for the approval, processing, and payment of claims. The plan administrator is also responsible for actuarially determining the needed funding of the plan. The plan provides health benefits up to a \$1,000,000 lifetime maximum per covered person. All full-time employees who are regularly scheduled to work at least twenty-eight hours per week and their eligible dependents are eligible for the plan.

The plan is accounted for in the general fund of the Library. The cost of claims is recorded as an expense when the claims arise. Claims liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated and is recorded in the governmental activities in the statement of net position.

Claims liabilities include an amount for claims that have been incurred but not paid as of December 31, 2019. These liabilities are reported at their present value of \$68,936.

Changes in the balances of claims liabilities during the years ended December 31, 2019, 2018, and 2017 were as follows:

	2019	2018	2017
Unpaid claims, beginning of year	\$64,894	\$19,230	\$36,739
Incurred claims and changes in estimates	1,021,295	1,004,712	879,313
Claim payments	(1,017,253)	(959,048)	(896,822)
Unpaid claims, end of year	\$68,936	\$64,894	\$19,230

A stop-loss insurance contract executed with an insurance carrier covers aggregate claims in excess of \$1,057,401 and claims in excess of \$50,000 per single employee per year. The amount of settlements has not exceeded insurance coverage for each of the past fiscal three years.

#### **Capital Assets**

The St. Tammany Parish Library capitalizes equipment in excess of \$2,500, improvements in excess of \$25,000, and all books and other items except for periodicals and reference materials. The Library uses the straight-line depreciation method and the following estimated useful lives:

Description	Estimated Useful Lives
Building Improvements	20-30 years
Vehicles	5 years
Furniture and Equipment	5-10 years
Computers	5 years
Books	5 years

Capital assets and depreciation activity for the year ended December 31, 2019 is as follows:

<u>St. Tammany Parish Library</u>	Beginning Balance	Increases	Decreases	Ending Balance	
Capital assets, not being depreciated:					
Land	\$473,285	\$ -	\$ -	\$473,285

Total capital assets, net	\$3,038,912	(\$67,485)	(\$35,710)	\$2,935,717	

#### **Operating Leases**

The St. Tammany Parish Library leases the Causeway branch in Mandeville, the temporary Covington Branch, its reference center, its administration offices, and its technical services building. These leases have been classified as operating leases and as such, rental payments have been recorded as an operating expenditure. Total rent expense for the year ended December 31, 2019 was \$373,784. Future minimum lease payments are as follows:

Year Ending December 31,	Amount
2020	\$253,467
2021	243,717
2022	215,733
2023	116,485
Total Future Minimum Lease Payments	\$ 829,402

#### **Compensated Absences**

The Library's policy allows employees to accumulate unused vacation and sick leave on an unlimited basis. Employees earn annual vacation leave based on the number of years of service and a set 12.5 days sick leave annually. For one to fifteen years of service, employees earn 15 days of vacation annually. Employees with greater than fifteen years of service earn 20 days of vacation annually. At the end of each fiscal year, employees forfeit unused vacation that exceeds 600 hours. Upon termination of service, employees are entitled to be paid for up to 300 hours of unused vacation leave and one-third of accumulated sick leave. The remainder of the vacation and sick leave is forfeited upon termination, but will be paid only upon illness while in the employ of the Library. The non-current portion (amounts estimated to be used in subsequent fiscal years) for governmental funds is reported only as a general long-term obligation in the government-wide statement of net position, and represents a reconciling item between the fund and government-wide presentations.

#### 3. Mosquito Abatement District

#### **Inventories**

The Mosquito Abatement District (District) values inventory at cost. Inventories consist of primarily chemicals and larvidcide oil supplies. The cost is recorded as an expenditure at the time individual inventory items are purchased.

Inventories at year-end are equally offset by fund balance reserves. Inventory at December 31, 2019 was determined using the first-in, first-out method (FIFO).

#### **Cash and Cash Equivalents**

At December 31, 2019, the Mosquito Abatement District had cash and cash equivalents (book balances) as follows:

Cash in checking accounts	\$759,198
Cash in money market account	5,407,282
Other	75
Total	\$6,166,555

As of December 31, 2019, the Mosquito Abatement District had \$6,154,096 in cash deposits (collected bank balances). These deposits were secured from risk by \$250,000 of federal deposit insurance and \$11,200,000 of pledged securities held by the custodial bank in the name of the fiscal agent bank.

#### **Capital Assets**

The Mosquito Abatement District has a capitalization threshold of \$1,000, uses the straight-line depreciation method, and uses the following estimated useful lives:

	Estimated Useful
Description	Lives
Buildings and Improvements	40 years
Vehicles	5 years
Machinery and Equipment	5-10 years
Aircraft and Related Equipment	10-15 years
Office Furniture and Equipment	5 years

Capital assets and depreciation activity for the year ended December 31, 2019 is as follows:

Mosquito Abatement District	<b>Beginning Balance</b>	Increases	<b>Retirement/Reclasses</b>	Ending Balance
Capital assets being depreciated:				
Buildings and Improvements	\$5,832,393	\$ -	\$ -	\$5,832,393
Vehicles	706,685	60,035	(84,305)	682,415

Aircraft and Related Equipment	(1,529,613)	(247,074)	-	(1,776,687)
Office Furniture and Fixtures	(60,970)	(11,783)	11,035	(61,718)
Total accumulated depreciation	(4,121,917)	(532,059)	95,340	(4,558,636)
Total capital assets being depreciated, net	\$7,753,884	(\$234,059)	(\$418)	\$7,519,407

#### **Operating Leases**

The Mosquito Abatement District entered into a 100-year lease with the City of Slidell on January 22, 2007 for approximately 155,945 square feet of land at the Slidell Airport. The District's new facility and administrative building and new airplane hangar rest on this site at 62512 Airport Road in the City of Slidell. The lease provides for an annual rental of \$20,632.

#### **Compensated Absences**

Employees earn annual leave at varying rates according to their years of service. Upon termination from employment, employees are compensated, at their current rate of pay, for all unused or accrued annual leave.

Full time, permanent employees are granted ten days of "regular" sick leave on a biweekly accrual rate basis. Unused regular sick leave may be carried over to the following year with a maximum of 30 regular sick leave days being accrued. In addition, ten days of "extended" sick leave is granted to each employee on January 1<sup>st</sup> of each year, and is to be used only when the employee is either hospitalized or under a doctor's care for five days or more. Unused extended sick leave cannot be carried over to the following year. Upon termination from employment, employees are not paid for any unused sick leave earned during the year.

The following is a summary of the compensated absences liability for the year ended December 31, 2019:

Balance at 12/31/2018	Additions	Deducti	ons	Balance at 12/31/2019	Amount Due wi	ithin One Year
\$196,829	\$26,279	(\$	-)	\$223,108	\$	-

#### S. Non-Major Discretely Presented Component Unit

#### Sub-Drainage District No. 1 of Drainage District No. 3

The Parish is responsible for the accounting of Sub-Drainage District No. 1 of Drainage District No. 3 (the District) through an inter-governmental agreement. The District does not prepare or issue its own financial reports. Therefore, relevant financial information regarding this component unit is as follows:

#### **Capital Assets**

The District has a threshold of \$25,000 for capitalization and uses the straight-line depreciation method over a twenty-five year estimated useful life.

Capital assets and depreciation activity for the year ended December 31, 2019 is as follows:

Sub-Drainage District No. 1 of DD No. 3	<b>Beginning Balance</b>	Increases	Decreases	Ending Balance	
Capital assets, not being depreciated:					
Land	\$378,391	\$ -	\$ -	\$378,391	
Construction in progress	82,486	-	-	82,486	
Total capital assets, not being depreciated	460,877	-	-	460,877	
Capital assets being depreciated:					
Infrastructure	175,841	-	-	175,841	
Less accumulated depreciation for:					
Infrastructure	(67,293)	(5,375)	-	(72,668)	
Total capital assets being depreciated, net	108,548	(5,375)	-	103,173	
Total capital assets, net	\$569,425	(\$5,375)	\$-	\$564,050	

#### T. Contingencies

The Parish participates in a number of state and federally-assisted grant programs. The programs are subject to compliance audits under the single audit approach. Such audits could lead to requests for reimbursement by the grantor agency for expenditures disallowed under terms of the grants. Parish management believes that the amount of disallowances, if any, which may arise from future audits, will not be material.

The Parish is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Parish's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the government.

#### U. New Standards

The GASB issued Statement No. 83, *Certain Asset Retirement Obligations*, in November 2016. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement will be effective for the Parish for the fiscal year ending December 31, 2020.

The GASB issued Statement No. 84, *Fiduciary Activities*, in January 2017. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. This Statement will be effective for the Parish for the fiscal year ending December 31, 2020.

The GASB issued Statement No. 87, *Leases*, in June 2017. This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. This Statement will be effective for the Parish for the fiscal year ending December 31, 2022.

The GASB issued Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements,* in April 2018. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. This Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt. This Statement will be effective for the Parish for the fiscal year ending December 31, 2020.

The GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, in April 2018. This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statement prepared using the economic resources measurement focus. This statement will be effective for the Parish for the fiscal year ending December 31, 2021.

The GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, in May 2020. This Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

Management of the Parish is currently assessing the impact of the new pronouncements on the financial statements.

#### V. Subsequent Events

Management of the Parish has evaluated subsequent events through the date which the financial statements were available to be issued, and determined that there were no subsequent events requiring disclosure, except as noted below.

On January 31, 2020, the Secretary of the United States Department of Health and Human Services declared a public health emergency as a result of the 2019 Novel Coronavirus. On March 11, 2020 the World Health Organization publicly characterized Covid-19 as a pandemic, and Louisiana Governor John Bel Edwards declared a public health emergency to exist in the State of Louisiana. Parish President Michael B. Cooper declared a state of emergency in St. Tammany Parish on March 13, 2020. As a result, restrictions on travel have been in place, and certain types of businesses and public places have been forced to close and it is uncertain how long restrictions will be in place. These actions to mitigate the coronavirus have had an adverse impact on the economy, and it is unknown how they will financially affect the Parish.

## ST. TAMMANY PARISH, LOUISIANA NON-MAJOR SPECIAL REVENUE FUNDS

Special Revenue Funds account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes.

**Drainage Maintenance Fund (101)** accounts for a portion of the property tax levied for the purpose of improving, maintaining and constructing, bulk heading and bridging drainage ways, drainage ditches, drainage channels, and drainage canals within the Parish and related non-capital expenditures.

**Environmental Services Fund (102)** accounts for the fees collected for the inspection of new, or review of existing water and sewerage infrastructure placed in the Parish.

**Justice Center Complex Fund (106)** accounts for a portion of the one-quarter cent sales tax levied for acquiring, constructing, improving, operating, and maintaining a St. Tammany Parish Justice Center Complex, including acquisition of land, equipment and furnishings therefore, with the proceeds of the tax being subject to funding into bonds for acquiring, constructing, and improving said justice center complex.

**<u>Public Health Fund (111)</u>** accounts for a portion of the property tax levied for the purpose of supporting the St. Tammany Parish Health Center and related public health activities, including the construction of new buildings and/or renovations of existing health units' buildings and related non-capital expenditures.

<u>Animal Services Fund (112)</u> accounts for animal licensing fees, service fees and the property tax levy for acquiring, constructing, improving, maintaining and operating an animal shelter for the Parish, including necessary equipment and facilities thereof.

**Economic Development Fund (122)** accounts for the part of the State hotel/motel tax dedicated for economic development in the Parish, as well as for the part of the State hotel/motel tax dedicated for improvements, operations and maintenance of Camp Salmen Nature Park, the East St. Tammany Fishing pier, and the Tammany Trace in addition to self-generated fees.

<u>Airport Rd. Economic Development Sales Tax District Fund (123-2010)</u> accounts for additional sales tax levy of three quarters of one percent in the District to be used for economic development projects.

<u>Hwy 1077 Economic Development Sales Tax District Fund (123-2015)</u> accounts for additional sales tax levy of three quarters of one percent in the District to be used for economic development projects.

<u>Hwy 1088 Economic Development Sales Tax District Fund (123-2020)</u> accounts for additional sales tax levy of three quarters of one percent in the District to be used for economic development projects.

<u>Hwy 434 Economic Development Sales Tax District Fund (123-2030)</u> accounts for additional sales tax levy of three quarters of one percent in the District to be used for economic development projects.

<u>Hwy 59 Economic Development Sales Tax District Fund (123-2035)</u> accounts for additional sales tax levy of three quarters of one percent in the District to be used for economic development projects.

**<u>Rooms to Go Economic Development Sales Tax District Fund (123-2040)</u>** accounts for additional sales tax levy of three quarters of one percent in the District to be used to reimburse the costs of projects limited to water, road, and drainage infrastructure in the District.

**St. Tammany Parish Coroner Fund (126)** accounts for the property tax levied to provide funding for the St. Tammany Parish Coroner's Office, including, constructing, acquiring, improving, operating and maintaining facilities and equipment thereof.

**St. Tammany Parish Jail Fund (127)** accounts for a portion of the one-quarter cent sales tax levied for providing and maintaining jail facilities for the Sheriff to incarcerate prisoners, including acquisition of land, equipment and furnishings therefore, with the proceeds of the tax being subject to funding into bonds for acquiring, constructing and improving said jail facilities.

# ST. TAMMANY PARISH, LOUISIANA NON-MAJOR SPECIAL REVENUE FUNDS

**STARC/ Council on Aging (129)** accounts for the property tax levied for programs of social welfare to be dedicated (1) 50% for acquiring, constructing, improving, maintaining and operating authorized activities, services, and programs and/or facilities of and for the St. Tammany Parish Council on Aging and (2) 50% for acquiring, constructing, improving, maintaining authorized activities, services, programs and/or facilities for individuals with mental retardation and/or disabled persons in the Parish.

<u>Criminal Court Fund (134)</u> accounts for the fines and court cost fees collected on moving violations and criminal cases that are used to support expenditures for the  $22^{nd}$  Judicial District Court System.

<u>22<sup>nd</sup> JDC Commissioner Fund (135)</u> accounts for the court cost fees collected on moving violations and criminal cases that are used to support the expenses related to the Special Commissioner for the  $22^{nd}$  Judicial District Court.

Jury Service Fund (136) accounts for court costs collected to provide for compensation to jurors in criminal cases.

**Law Enforcement Witness Fund (137)** accounts for the court cost fees collected on moving violations and criminal cases that are used to support the witness fees paid to off duty police officers summoned to appear in court.

<u>Grants – Coastal Fund (141)</u> accounts for receipts and disbursements of Federal and State grants related to coastal zone issues, such as grants for restoring marshes, enhancing coastal recreational activities, inspecting and permitting projects, and determining the future course of development and conservation of the coastal zone.

<u>Grants – CRT Fund (142)</u> accounts for receipts and disbursements of Federal and State grants for culture, recreation and tourism within the Parish.

<u>Grants – Economic Development Fund (143)</u> accounts for receipts and disbursements of Federal and State grants for economic development within the Parish.

<u>Grants – Health and Welfare Fund (144)</u> accounts for receipts and disbursements of Federal and State grants received to benefit citizens for the health and welfare of citizens within the Parish.

<u>Grants – Infrastructure Fund (145)</u> accounts for receipts and disbursements of Federal and State grants received to benefit infrastructure within the Parish.

<u>Grants – OHSEP Fund (146)</u> accounts for receipts and disbursements of Federal and State grants related to emergency preparedness issues.

<u>Grants – Residential Mitigation Fund (147)</u> accounts for receipts and disbursements of Federal grants to mitigate flood-damaged homes throughout the Parish.

<u>Grants – Transportation Fund (148)</u> account for receipts and disbursements of Federal and State grants for transportation.

<u>Grants – Other Fund (149)</u> accounts for receipts and disbursements of Federal and State grants not accounted for in another fund.

**Lighting District No. 1 Fund (190-4621)** accounts for the property tax levy for the purpose of contracting with any public utility company (or companies) to provide and maintain utility poles and electric lights on the Parish streets, roads and highways, alleys, and public places in the District and that the revenues derived therefrom shall be subject to debt service and administrative charges there against. This Lighting District is located in Council Districts No. 7 and 11.

Lighting District No. 4 Fund (190-4624) accounts for the property tax levy for contracting with any public utility company (or companies) to provide and maintain utility poles and electric lights on the Parish streets, roads and highways, alleys, and public places in the District and that the revenues derived therefrom shall be subject to debt

# ST. TAMMANY PARISH, LOUISIANA NON-MAJOR SPECIAL REVENUE FUNDS

service and administrative charges there against. This Lighting District is located in Council Districts No. 7, No. 9, No. 11, No. 12, No. 13, and No. 14.

**Lighting District No. 5 Fund (190-4625)** accounts for the property tax levy for providing and maintaining electric lights on streets, roads, highways, alleys, and public places in Lighting District No. 5. This Lighting District is located in Council District No. 13.

<u>Lighting District No. 6 Fund (190-4626)</u> accounts for the property tax levy providing and maintaining electric lights on streets, roads, highways, alleys, and public places in Lighting District No. 6. This Lighting District is located in Council Districts No. 5, No. 7, and No. 10.

**Lighting District No. 7 Fund (190-4627)** accounts for the property tax levy for contracting with any public utility company (or companies) to provide and maintain utility poles and electric lights on the Parish streets, roads and highways, alleys, and public places in the District and that the revenues derived therefrom shall be subjected to debt service and administrative charges there against. This Lighting District is located in Council Districts No. 12 and 13.

**Lighting District No. 9 Fund (190-4629)** accounts for the annual service charge levied for the purpose of paying utility charges for road lighting, and maintaining and operating road lighting facilities and equipment within the District. This Lighting District is located in Council Districts No. 8 and No. 9.

**Lighting District No. 10 Fund (190-4630)** accounts for the annual service charge levied for the purpose of paying utility charges for road lighting, and maintaining and operating road lighting facilities and equipment within the District. This Lighting District is located in Council District No. 8.

**Lighting District No. 11 Fund (190-4631)** accounts for the annual service charge levied for the purpose of paying utility charges for road lighting, and maintaining and operating road lighting facilities and equipment within the District. This Lighting District is located in Council District No. 13.

<u>Lighting District No. 14 Fund (190-4634)</u> accounts for the annual service charge levied for the purpose of paying utility charges for road lighting, and maintaining and operating road lighting facilities and equipment within the District. This Lighting District is located in Council District No. 8.

**Lighting District No. 15 Fund (190-4635)** accounts for the annual service charge levied for the purpose of paying utility charges for road lighting, and maintaining and operating road lighting facilities and equipment within Road Lighting District No. 15. This Lighting District is located in Council District No. 2.

**Lighting District No. 16 Fund (190-4636)** accounts for the annual service charge levied for paying utility charges for road lighting, and maintaining and operating road lighting facilities and equipment within Road Lighting District No. 16. This Lighting District is located in Council Districts No. 2 and No. 5.

# ST. TAMMANY PARISH, LOUISIANA NON-MAJOR PERMANENT FUNDS

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

<u>Cane Bayou Mitigation Bank (401)</u> accounts for mitigation credit sales and investment earnings for the mitigation bank.

# ST. TAMMANY PARISH, LOUISIANA NON-MAJOR INTERNAL SERVICE FUNDS

Internal Service Funds account for the financial and administrative services, general services and insurances that are provided by one department or agency to another department or agency on a cost reimbursement basis.

**Tyler Street Complex Fund (600)** accounts for repairs, maintenance and operations of the Tyler Street Complex in Covington.

<u>St. Tammany Parish Justice Center Complex Fund (606)</u> accounts for the repairs, maintenance and operations of the Justice Center Complex and outlying facilities.

<u>Wellness Center Building Fund (611)</u> accounts for the repairs, maintenance and operations of the Wellness Center Building.

Safe Haven Facility Fund (612) accounts for the repairs, maintenance and operations of the Safe Haven complex.

**Fairgrounds Building Fund (613)** accounts for the repairs, maintenance and operations of the Fairgrounds Annex building.

Koop Drive Administrative Complex Fund (650) accounts for the repairs, maintenance and operations of the Parish office complex on Koop Drive for the Parish government departments.

St. Tammany Parish Administrative and Justice Complex-East Fund (651) accounts for the repairs, maintenance and operations of the Parish office complex in eastern St. Tammany Parish.

**Emergency Operations Center Fund (664)** accounts for the repairs, maintenance and operations of the Office of Emergency Preparedness Building.

**<u>Risk Management Insurance Fund (676)</u>** accounts for the property, general and automobile liability premiums, claims administration, and payment of claims covered by self-insurance, as well as the reserve for estimated liabilities.

<u>Unemployment Compensation Fund (677)</u> accounts for the payment of unemployment compensation benefits.

**Post-Employment Health Insurance Fund (678)** accounts for the payments of premiums for the group benefit programs including health and dental insurance for current, retired, and terminated employees, as well as for the two-thirds of compensable accumulated sick leave payout to PEHP for eligible employees upon separation of employment, as well as funding of the OPEB liability.

<u>Post-Employment Leave Benefit Fund (679)</u> accounts for funding of the compensated leave liability, which is after the department pays for the first two weeks of vacation, to account for vacation and one-third of compensable sick leave paid to an eligible employee upon separation from employment.

<u>Workers' Compensation Insurance Fund (680)</u> accounts for the workers' compensation plan premiums, claims administration, and payment of claims covered by self-insurance, as well as the reserve for estimated liabilities.

#### ST. TAMMANY PARISH, LOUISIANA Combining Schedule of Cash Flows Internal Service Funds For the Year Ended December 31, 2019

#### Non-cash and Financing Activities

Change in Fair Value of Investments:			
Tyler Street Complex (600)		\$ 15,782	
STP Justice Center Complex (606)		4,455	
Wellness Center Building (611)		222	
Safe Haven Facility (612)		2,894	
Fairgrounds Building (613)		169	
Koop Drive Administrative Complex (650)		41,779	
St. Tammany Parish Administrative and Justice Complex - East (651)		24,923	
Emergency Operations Center (664)		22,763	
Risk Management Insurance (676)		35,994	
Unemployment Compensation (677)		5,430	
Post-Employment Health Insurance (678)		47,373	
Post-Employment Leave Benefit (679)		18,900	
Workers' Compensation Insurance (680)		28,297	
Capital Contributions from governmental funds:			
STP Justice Center Complex (606)	Justice Center D.A. Intake Improvement	13,140	
STP Justice Center Complex (606)	Public Defender Office Building Property	9,026	
STP Justice Center Complex (606)	Justice Center Parking Lot Drainage Servitude	 20,933	43,099
Safe Haven Facility (612)	Safe Haven Nami Handicap Day Center	490,919	
Safe Haven Facility (612)	Safe Have Boiler House HVAC Chiller	 170,873	661,792
Fairgrounds Building (613)	STP Fairgrounds Annex Bldg CAA Improvement	 33,288	33,288
Koop Drive Administrative Complex (650)	Koop Drive Complex Parking Lot Addition	13,622	
Koop Drive Administrative Complex (650)	Koop Drive Complex Parking Lot Addition Ph 3	62,084	
Koop Drive Administrative Complex (650)	Koop Drive Complex 3rd Floor Buildout	 33,838	109,544
Emergency Operations Center (664)	EOC Complex Property	 45,533	45,533
All of the transfers of capital assets were to account for the assets in the intern	nal service funds in which the assets operate.		
Deferred Outflows:			
Post-Employment Health Insurance (678)	Deferred outflows - OPEB	1,845,618	
Deferred Inflows:			
Post-Employment Health Insurance (678)	Deferred intflows - OPEB	1,115,268	

The St. Tammany Parish School Board entered into a CEA with the Parish to provide a buildout for one of the buildings at Safe Haven in exchange for a reduction of rent over the next several years. The cost of the buildout was \$834,146. The rent reduction was \$85,038.

#### **SCHEDULE 28**

#### ST. TAMMANY PARISH, LOUISIANA Reconciliation of the Schedule of Revenues, Expenditures, and Changes in Fund Balances of Component Units' Governmental Funds to the Schedule of Activities Sub-Drainage District No. 1 of Drainage District No. 3 For the Year Ended December 31, 2019

Amounts reported for governmental activities in the Schedule of Activities are different because:

Net Change in fund balances, total governmental funds	\$ (4,998)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of depreciation expense in the	
current period.	 (5,375)
Change in Net Position of Governmental Activities, Schedule 24	\$ (10,373)

# SINGLE AUDIT SECTION

LaPorte, APAC 5100 Village Walk | Suite 300 Covington, LA 70433 985.892.5850 | Fax 985.892.5956 LaPorte.com

#### Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

#### Independent Auditor's Report

# Members of the Parish Council St. Tammany Parish, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of St. Tammany Parish, Louisiana (the Parish), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise St. Tammany Parish, Louisiana's basic financial statements, and have issued our report thereon dated June 25, 2020. Our report includes a reference to other auditors who audited the financial statements of Fire Protection District No. 1; Fire Protection District No. 3; Fire Protection District No. 4; Fire Protection District No. 6; Fire Protection District No. 8; Fire Protection District No. 9; Fire Protection District No. 11; Fire Protection District No. 12; Fire Protection District No. 13; Recreation District No. 11; Recreation District No. 12; Mosquito Abatement District No. 2; and the St. Tammany Parish Coroner, as described in our report on the Parish's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Parish's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Parish's internal control. Accordingly, we do not express an opinion on the effectiveness of the Parish's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

#### LOUISIANA • TEXAS

An Independently Owned Member, RSM US Alliance RSM US Alliance member firms are separate and independent businesses and legal entities that are responsible for their own acts and omissions, and each is separate and independent from RSM US LLP. RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Members of RSM US Alliance have access to RSM International resources through RSM US LLP but are not member firms of RSM International. Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Parish's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Parish's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Parish's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

# Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance

#### Independent Auditor's Report

#### Members of the Parish Council St. Tammany Parish, Louisiana

# Report on Compliance for Each Major Federal Program

We have audited St. Tammany Parish, Louisiana's (the Parish) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Parish's major federal programs for the year ended December 31, 2019. The Parish's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

# Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, contracts, and the terms and conditions of its federal awards.

# Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Parish's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Parish's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Parish's compliance.

# **Opinion on Each Major Federal Program**

In our opinion, the Parish complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2019.

237

#### LOUISIANA • TEXAS

An Independently Owned Member, RSM US Alliance RSM US Alliance member firms are separate and independent businesses and legal entities that are responsible for their own acts and omissions, and each is separate and independent from RSM US 11P. RSM US 11P is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Members of RSM US Alliance have access to RSM International resources through RSM US LLP but are not member firms of RSM International.

#### **Report on Internal Control Over Compliance**

Management of the Parish is responsible for establishing and maintaining effective internal control over compliance with types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Parish's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Parish's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiencies, in internal control over compliance is a deficiencies, in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

#### ST. TAMMANY PARISH, LOUISIANA NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS – PRIMARY GOVERNMENT For the Year Ended December 31, 2019

### NOTE A

#### **BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of St. Tammany Parish Government (the Parish) under programs of the federal government for the year ended December 31, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Parish, it is not intended to and does not present the net position, changes in net position, or cash flows of the Parish.

#### **DESCRIPTION OF GRANTS**

The majority of Federal Assistance received by the Parish is in the form of flow-through grants that pass through a state agency prior to reaching the Parish. Among these are the Community Services Block Grant, Community Development Block Grant, Hazard Mitigation Grant, and the Weatherization Assistance for Low-Income Persons Grant. Other Federal Assistance is received directly by the Parish, such as the Federal Transit Formula Grant and the Supportive Housing Program.

#### NOTE B

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards has been prepared on the modified accrual basis of accounting. Grant revenues are recorded, for financial reporting purposes, when the Parish has met the cost reimbursement or funding requirements for the respective grants. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

St. Tammany Parish has elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### ACCRUED REIMBURSEMENT

Various reimbursement procedures are used for Federal Awards received by the Parish. Consequently, timing differences between expenditures and program reimbursements exist at the beginning and end of the year. Accrued revenue represents an excess of expenditures over cash reimbursements received. Unearned revenue represents an excess of cash reimbursements over expenditures.

#### NOTE C

#### SUB-RECIPIENTS

During 2019, the Parish made payments, to sub-recipients out of funds received under Community Development Block Grants as follows (accrual basis):
