September 25, 2013

Dear Council Chairman and Members,

Today I present for your consideration and approval Parish Government's Operating and Capital Budgets for 2014. These are budgets that will continue to move us toward the achievement of the goals and initiatives outlined in the tenants of my administration: customer service, transparency, accountability, and cooperation.

The second year of my term has been focused on Public Health, Economic Development, Infrastructure and Drainage Projects, the enhancement of our Recreational Parks and Facilities, and many other special projects, a handful of which include: The Northshore Center for Innovation and Learning, the Cultural Arts District, Southeast Louisiana Hospital, and a Parish wide Mitigation Bank. While the majority of these are long term goals, we have made great progress thus far and will continue to do so in the coming years.

Over the past year, I made some tough decisions in several areas, including several Personnel Policies. Critical changes in our take-home vehicle policies have resulted in a savings of over \$232,000.00 from 2012 to 2013 alone. We will continue to research other fleet maintenance programs to further reduce these essential operating costs while ensuring we are most effectively spending the tax dollars Parish Government receives.

The proposed Operating Budget for 2014 is \$103 M, an increase of 1.75% from the 2013 Operating Budget. In last year's budget we were able to cut approximately \$2.5 Million of waste and excess from our operating costs. Because of the cuts we made in certain areas we are now able to look at departments in which we have experienced increased expenses. Those departments are Legal, Finance, and Purchasing which we must now adequately fund to effectively handle the added work load. The Legal Department has experienced a drastic increase in the number of public records requests from residents and various organizations in the past year. In order to address these requests within the necessary timeframe, additional personnel are being hired to produce these records. The oversight of the Coroner's Office has also added an additional burden to the staff of both our Finance and Legal Departments. Though we now have the task of ensuring the Coroner's Office is financially responsible, we must still tend to the day to day duties of running Parish Government. While we are hiring more positions for some departments, we are eliminating newly requested positions and increasing training of certain personnel in other departments. This enables our staff to stay competitive with changing technology and trends in our Parish. Finally, over the past year, my staff has thoroughly evaluated our Procurement process and based on this I have determined our efforts to increase productivity have not been successful. We are restructuring what is now the purchasing office to create a Procurement Department that will take over the contracting process. By removing the technical contracting responsibilities from the individual departments and placing those responsibilities with the subject

matter experts within the Procurement Department, we will reduce the amount of time it takes to issue a contract and increase efficiency so necessary work and repairs can be authorized more quickly than before.

The proposed Capital Budget for 2014 is \$15,225,000 which represents an increase of \$3.2M or 27.29% from the current year's budget. A portion of this increase is due to an anticipated increase of sales tax funds for 2014. We have dedicated approximately \$2M of these funds towards general road and drainage projects for next year. We are also taking this opportunity to provide facility upgrades at the Brewster and Fritchie maintenance barns. Additional improvements in the Public Works barns are for fuel card readers which will increase efficiency, transparency and accountability of the fuel required to operate the Public Works system. Another portion of these funds will go towards restriping and upgrading signage along the Tammany Trace. Lastly, we are upgrading some of the network/server equipment and storage capacity for Parish facilities.

As Council representatives, you recently met with my Engineering and Public Works staff to determine the various projects that are most needed in each of your districts. In addition to those, the following Capital Projects are also included in this proposed budget: phased construction of Mandeville Bypass Road, widening and reconstruction of Three Rivers Road and Dove Park Road, repairs to Lowe Davis Road and many others.

This is just a snapshot of the projects that will be underway across the Parish next year. In consultation with you, we continue to analyze the most pressing needs of our Parish. I appreciate the cooperative relationship we have shared over the past year and look forward to continuing our work together. Thank you for your consideration in approving this budget.

Sincerely,

Patricia P. Brister
Parish President
