(As of January 7, 2020)

CASE NO.: REV19-12-004

NAME OF STREET OR ROAD: Unopened portion of Pine Avenue

NAME OF SUBDIVISION: Beverly Hills Subdivision

WARD: 8 PARISH COUNCIL DISTRICT: 13

PROPERTY LOCATION: The property is located south of Magnolia Avenue and north of US Highway 190 East, between Square 12 & Square 13, in the Beverly Hills Subdivision, Slidell, Louisiana, Ward 8, District 13

SURROUNDING ZONING: HC-2 Highway Commercial

PETITIONER/REPRESENTATIVE: DL Investments, LLC

STAFF COMMENTARY:

Department of Planning & Development:

The applicant is proposing to revoke an unopened portion of Pine Avenue. DL Investments, LLC desires to assimilate this property into the adjacent properties. However, the Department of Public Works has confirmed that the Parish maintains a drainage ditch within the street right-of-way that the applicant proposes to revoke.

Recommendation:

The Louisiana Revised Statutes governing the revocation of immovable property state that roadways should only be revoked if they serve no useful public purpose. It is our understanding that the petitioner plans to contact the Department of Public Works to negotiate terms that would allow this revocation request to move forward. As of this writing, no discussions have occurred. Therefore, the Staff recommends that this item be postponed to the February 11, 2020 meeting.

THIS PAGE INTENTIONALLY LEFT BLANK

Staff has no objection to the preliminary subdivision submittal subject to the following items being addressed:

General Comments:

1. Provide professional seal, signature and date on all plan sheets.
2. Applicant was granted a Major Amendment to the PUD subject to the Zoning Commission staff report comments being addressed. Outstanding staff report comments are required to be addressed.

Preliminary Plat:

3. Provide clarification or delineation for Restrictive Covenant #4 as to which areas of this phase will require the 108.00' Finished Floor Elevation (FFE) versus the 116.00' FFE.

Paving & Drainage Plan:

4. The typical section shown is approximately 48' wide to provide room for the proposed utilities and ditches; however, the plan sheets only show the 20' roadway pavement section. Revise the plans and typical sections to eliminate the conflicts and provide the required space for utility installations.

Water & Sewer:

5. Provide a cross-section for Country Club Dr. showing the proposed locations for the new sewer force main and water line including dimensions for the proposed depth and offset from the road.
6. Provide written approval from H2O Systems for the proposed water and sewer plans.
7. Provide written verification from H2O Systems that the existing water and sewer systems this development is connecting to have sufficient capacity.
8. Servitudes need to be established for the sewer force main and water lines located outside the existing R.O.W. and updated on the plat and applicable plan sheets.

Informational Items:

A Letter of No Objection from St. Tammany Parish and L.D.H. approval regarding the water and sewer infrastructure is required for this development.

No funded Maintenance Obligation is required since this project will not connect to a Parish maintained roadway.

No Mandatory Developmental fee is required at Final Submittal in accordance with St. Tammany Code of Ordinances, Part II "Land Development Code," Chapter 125 "Subdivision Regulations," since a public hearing was held prior to January 1, 2005.

Revised drawings will not be accepted for review or placement in the packet prior to the January 14, 2020 Planning Commission Meeting to ensure that any additional comments at the meeting can be incorporated into the revised plans.

STAFF COMMENTARY:

Department of Planning and Development

The developer requested postponement for the November 12, 2019 Planning Commission meeting. This development was postponed at the December 10, 2019 Planning Commission meeting.

Periodic inspections have been made by this office during construction and a final inspection was made on January 2, 2020. The inspection disclosed that all of the asphalt roadways were constructed, and the roadside ditches and shoulders are constructed.

The following uncompleted items existed at the time of the final inspection and review of the provided plans. These items will need to be completed prior to the plats being signed:

General Information:

1. The ditch within the drainage servitude that drains Sunset Oak Blvd. to S.D.S.A. #1(North Pond) needs to be regraded to provide positive flow from Sunset Oak Blvd. to the detention pond.
2. Numerous cross culverts have been silted in and need to be cleaned.
3. The new connection for Oaklawn Trace at US Hwy 190 is showing signs of raveling and needs to be corrected.
4. Rip-Rap at numerous outfall pipe locations need to be re-installed (Typical).
5. The fire hydrant across from lot #6 needs to be raised to the proper grade (18" clearance).
6. Contech recommends that A-2000 pipe exposed to UV for a period longer than two years should be covered or coated. Numerous sections of drain pipe were not installed to these manufacturer's recommendations and will become brittle over time due to UV exposure.
7. The lift station valve is in conflict with the drainage servitude between lots 21 & 22. Relocate the lift station valve to outside of the drainage servitude.

Final Plat:

8. Show the 60' drainage servitude from pond #2 extending to the Trace right-of-way.

Paving & Drainage Plan:

9. Revise "Lindsey Dr." to "Brownstone Dr." to match the plat.

Water & Sewer Plan:

10. Provide As-Built information for the newly constructed water well infrastructure including tank, pump, piping, etc.
11. Provide As-Built information for the discharge pipe and required servitude for newly constructed wastewater treatment site.
12. Provide a Letter of Acceptance for the water system for this subdivision.
13. Provide a Clear Water Test for the new water lines within this development.
14. Provide permit documentation and revised LDH approvals with the latest owners/operators information for the water and sewer systems for this subdivision.

Informational Items:

The required recreational facilities for Oaklawn Trace shall be completed before the Final Plat for the next phase of Oaklawn Trace can be recorded.

Should the Planning Commission approve the request for final approval, a Warranty Obligation will be required for the infrastructure in the amount of 3,450 linear feet x \$12.00 per linear foot = \$41,400.00 for a period of one (1) year.

No Mandatory Developmental fees are required since a public hearing was held prior to January 1, 2005.

The Voluntary Developmental Agreement for this development is under review and will need to be finalized before the plats can be recorded.

Revised drawings will not be accepted for review or placement in the packet prior to the January 14, 2020 Planning Commission meeting to ensure that any additional comments at the meeting can be incorporated into the revised plans.
