Phase II Storm Water Permit Notice of Intent (NOI)

Phase II Municipal Separate Storm Sewer Systems (MS4s)

The purpose of this set of questions is for a Tennessee city, county, utility district or military base to apply for NPDES permit to discharge storm water runoff from a Phase II municipal separate storm sewer system.

You must provide the following information to the Division of Water Pollution Control as application material. You may print this form blank and complete it on paper, or you can complete the form electronically. The document is a Microsoft Word 2000 document. Submit two paper copies, one of which must bear an original signature on page three. Or, submit a copy electronically to phase.two@state.tn.us, according the procedure given in the permit part 2.3.

I. Administrative Information

| Name of city, county, sto Town of Smyrna, Tennes | • | her public institu | ntion that operates a Phase II MS4 |
|------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|--------------------|------------------------------------|
| Responsible elected offic | Responsible elected official or officer Title | | |
| Honorable Bob Spivey | | | Mayor |
| Street address City, State Zip | Town of Smyrna City Hall 315 S. Lowry Street, Smyrna, TN 37167 | | |
| Program Contact Person/e-mail address/phone no. V.W. Chuck Boyett, P.E. Chuck.boyett@townofsmyrna.org (615) 459-2553 | | V.W. Chuck I | @townofsmyrna.org |
| Provide an organizational chart that shows the different departments involved in storm water management. | | Organiza | ntional Chart attached. |

II. Description of Storm Sewer System

A. Area served

If city, town, or utility district, give:

| zj city, to wit, or utility district, give. | |
|-----------------------------------------------------|---------------|
| Area of jurisdiction in square miles within current | 24± sq. miles |
| corporate boundaries | |
| Additional area of urban growth boundary | 51± sq. miles |

If county, give:

| Area of county in square miles | N/A |
|--------------------------------|-----|
| Area unincorporated | N/A |
| Unincorporated, urbanized | N/A |

B. Storm Drainage Infrastructure

| Give estimates for the following features of storm water drainage infrastructure owned or operated by the local government | | |
|----------------------------------------------------------------------------------------------------------------------------|-----------|--|
| Open ditches (miles, or feet) | 100 miles | |
| Storm sewers (miles, or feet) | 20 miles | |
| Culverts (estimate number) | 1,000 ea. | |

| Catch basins (estimate number | r) | 400 | | |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|

V. Your Proposed Storm Water Quality Management Program

This Notice of Intent requires you to provide a brief description of your existing and planned for a storm water management program. The following six sections correspond to the six minimum control measures for a Phase II storm water management program.

If another MS4 will be responsible for implementing any or all portions of any or all following six minimum measures, then attach either the interlocutory agreement or the proposed agreement and schedule for adoption. You must still complete this NOI by answering the relevant questions for the six following measures.

Notes:

- i. Boxes for your responses have been colored green (on our screen) and your answers therein will be green.
- ii. You may extend the tables in order to list more than four proposed BMPs, by going to the last row of the table and striking the "TAB" key until new rows are added.

1) Public Education and Outreach

a. The following is a set of questions on your current public education and outreach program.

These questions are intended to highlight minimum program requirements under the MS4 permit. Each element not currently performed must be implemented by the end of the first permit period. Thus, each question with a "No" answer must be addressed with a solution in the MS4's proposed program.

| | Questions related to public education and outreach | |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| | Does the municipality currently distribute educational materials on the topics of storm water quality, stream water quality, pollution impacts, pollution prevention, etc.? If yes, briefly describe the materials, including media used (e.g., written brochures, public service announcements, etc.); the topic(s) covered, intended target audience(s), and the distribution method. Comment: | ☐ Yes ☑ No |
| | Does the municipality currently conduct or participate in public outreach activities focusing on the topics of storm water quality, stream water quality, pollution impacts, pollution prevention, etc.? If yes, briefly describe the outreach activities, topic(s) covered, intended target audience(s), and the frequency of activities. Comment: | ☐ Yes ☑ No |
| New 11- 02 | Has the municipality communicated with restaurants and similar food service establishments a clear set of standards with respect to site cleanliness and storm water controls? The standards must take into account health department regulations that might apply to the restaurants and include information on grease traps and waste disposal. Comment: | ☐ Yes ☑ No |

b. List the best management practices (BMPs) that you will implement in the area of public education and outreach. These should be based on a set of priorities you have identified in the area of public education and outreach. In the top half of the row, give a short, descriptive name to the BMP. In the bottom half of the row, more fully describe the BMP. In the next question, you will be asked for more detail for accomplishing these BMPs.

| 1 | Best Management Practices for Public Education and Outreach | |
|---|-------------------------------------------------------------|--|
| A | Public Service Programming / CATV Channel 3 and radio | |
| İ | TV, Radio, Print Media Ads | |
| В | Web Site | |
| | Post information on existing web site. | |

| C | Telephone Hot Line / Dedicated Phone Number | |
|---|--------------------------------------------------------------------------------------------|--|
| | Complaints and information access and follow-up. | |
| D | Education in Schools / Rutherford County School System | |
| | Coordinate with county for educational programs in schools. | |
| E | Training for Compliance / Inspections | |
| | Cross train all codes inspectors (5) for storm water management, inspections and reporting | |

Potential BMPs. List additional BMPs you might incorporate into your program after annual review of program effectiveness.

| F | Grab Bag Items |
|---|-------------------------------------------------------------------|
| İ | Brochures, newspaper articles, pamphlets, newsletters, mail outs. |
| G | |
| i | |

c. Measurable Goals and Implementation Milestones

Attached at the back of this NOI is an addendum, BMP Measurable Goals and Implementation Milestones. You must complete the addendum, providing more details on Measurable Goals and Implementation Milestones for each BMP above.

d. Administrative Information

| Public Education and Outreach – Administrative Information | | |
|------------------------------------------------------------|---|--|
| Primary contact person on above BMPs | | |
| Chuck Boyett | | |
| Other department(s) that will be involved and their role | 3 | |
| Rutherford County School System | | |
| Access, scheduling and coordination of school | | |
| education program. | | |
| Equipment needs, if any | | |
| | | |
| | | |

| What specific groups will be targeted (e.g., service industries such as carpet cleaning, civic groups, schools, |
|-----------------------------------------------------------------------------------------------------------------|
| church groups) if applicable |
| Industries, restaurants, developers, Chamber or Commerce, county school system. |
| |
| |

Will you partner with another MS4 operator, or with another institution (e.g. Chamber of Commerce, environmental interest organizations, civic groups) in order to carry out the chosen BMPs? List these institutions and briefly describe their role.

Rutherford County School System, Rutherford County, LaVergne, City of Murfreesboro, Chamber of Commerce and Tennessee MSA Working Group.

| Will another governmental entity be responsible for implementing one or more of the chosen BMPs? If s identify the entity and which BMP(s) it will implement. Include a copy of the interlocutory agreement, contract, or proposed agreement with execution schedule. | | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|
| Entity BMP | | | |
| N/A | | | |
| | | | |
| | | | |
| | | | |

(Go to next page.)

2) Public Participation and Involvement

a. The following is a set of questions on your current public participation and involvement program.

These questions are intended to highlight minimum program requirements under the MS4 permit. Each element not currently performed must be implemented by the end of the first permit period. Thus, each question with a "No" answer must be addressed with a solution in the MS4's proposed program.

| Questions related to public participation and involvement | I |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| Does the current municipal storm water management program comply with local, State and Federal public notice requirements? If yes, describe how the public is notified. | ☑ Yes □ No |
| Comment: Storm water currently addressed with Planning Commission site plan approval – meetings are advertised. | |
| Does the municipality currently allow the public to participate or otherwise be involved in storm water management activities? | ☑ Yes □ No |
| Comment: Citizens are allowed to speak at Planning Commission and Council meetings. Complaints are received and followed up by Public Works and Codes Depts. | |

b. List the best management practices (BMPs) that you will implement in the area of Public Participation and Involvement. In the top half of the row, give a short, descriptive name to the BMP. In the bottom half of the row, more fully describe the BMP.

You may not desire to dictate the ways in which the public participates or is involved in the storm water quality management program; in this case, your proposed program should provide a forum and a structure by which to encourage or allow the public to participate. On the other hand, there may be specific ways you do want the public to be involved, based on your program needs. For instance, you may want stream watch groups to be organized. As such, your proposed program should describe how you will accomplish this, and the time schedule.

| 2 | Best Management Practices for Public Participation and Involvement | |
|---|--------------------------------------------------------------------|--|
| A | Storm Water Advisory Committee: To be appointed by Mayor | |
| | To develop municipal ordinance and administer program. | |
| В | Storm Water Administrative Board: Sub-committee | |
| | To oversee implementation and enforcement of ordinance. | |
| C | Public Meeting(s): | |
| | Annual public meeting for public hearing and comment. | |
| D | Citizens Action Groups: Churches, schools, civic groups | |
| | Annual clean-up days, Adopt-A-Stream program. | |

Potential BMPs. List additional BMPs you might incorporate into your program after annual review of program effectiveness.

| E | Grab Bag: Work with courts for community service | | |
|---|------------------------------------------------------------------------|--|--|
| | Work to clean up stream banks using weekend Community Service Program. | | |
| F | | | |
| | | | |

c. Measurable Goals and Implementation Milestones

Attached at the back of this NOI is an addendum, BMP Measurable Goals and Implementation Milestones. You must complete the addendum, providing more details on Measurable Goals and Implementation Milestones for each BMP above.

d. Administrative Information

| Public Participation and Involvement – Administrative Information | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|--|
| Contact person on implementing these BMPs | | |
| Chuck Boyett | | |
| What specific groups will be targeted and in what way groups) | (e.g., schools, colleges/universities, neighborhood | |
| Public meetings: all citizens, committee meetings, notice | es. | |
| Public advertisements: all citizens, radio, TV, mail outs. | | |
| Citizens groups: developers, land owners, churches, civid | c groups. | |
| Schools: coordinate with in-city schools. | | |
| Will you partner with another MS4 operator, or with another institution (e.g. Chamber of Commerce, environmental interest organizations, civic groups) in order to carry out the chosen BMPs? List these institutions and briefly describe their role. | | |
| Yes, schedule events to coincide with state and other local city and county groups. | | |
| | | |
| Will another governmental entity be responsible for imp | | |
| identify the entity and which BMP(s) it will implement. Include a copy of the interlocutory agreement, or contract, or proposed agreement with execution schedule. | | |
| Entity | BMP | |
| N/A | | |
| | | |

3) Illicit Discharge Detection and Elimination

The following are common sources of illicit discharges to an MS4:

Sanitary wastewater Car wash wastewaters Radiator flushing disposal Spills from roadway accidents Carpet cleaning wastewaters Effluent from septic tanks Improper oil disposal Laundry wastewaters/gray water Improper disposal of auto and household toxics

a. Following is a set of questions on your current illicit discharge detection and elimination program.

These questions are intended to highlight minimum program requirements under the MS4 permit. Each element not currently performed must be implemented by the end of the first permit period. Thus, each question with a "No" answer must be addressed with a solution in the MS4's proposed program.

4) Construction Site Runoff Program

a. Following is a set of questions on your current erosion and sediment control program.

These questions are intended to highlight minimum program requirements under the MS4 permit. Each element not currently performed must be implemented by the end of the first permit period. Thus, each question with a "No" answer must be addressed with a solution in the MS4's proposed program.

| | Questions related to a construction site runoff ordinance | V |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| | Do you currently have an erosion and sediment control - or similar - ordinance or regulatory mechanism? If yes, include a copy and reference the page number(s). If No, proceed to the next set of questions below about construction site plans review. Comment: See Town of Smyrna existing ordinance, municipal codes and subdivision | ☑Yes □ No |
| | regulations in the enclosed appendices. | |
| | Does the ordinance or regulatory mechanism require that site operators implement erosion prevention, sediment control, and other construction waste controls for land disturbance activities? | ☑Yes □ No |
| | Comment: Proposed site plans are reviewed, approved and inspected by technical staff, planning commission and codes inspectors. | |
| | Does the ordinance/regulatory mechanism require (explicitly or implicitly) that controls be implemented for any land disturbances greater than or equal to one acre, or less than one acre if part of a large common plan of development or sale that would disturb one acre or more? If yes, note the page number and paragraph number where this is defined. | ☐ Yes ☑ No |
| | Comment: Will include in future Municipal Storm Water Ordinance. | |
| | Does the ordinance or regulatory mechanism contain or reference technical standards for erosion and sediment control? If yes, note the page number and paragraph number where this is defined. | ☐ Yes ☑ No |
| | Comment: Include in future storm water ordinance. | |
| New 11- 02 | Do those technical standards agree with or exceed the following standards, summarized here, in the TDEC construction activity general permit (Section IV.D.2.): requirement for an erosion and sediment control pollution prevention plan; pre-construction ground cover not to be disturbed more than 20 days prior to grading; sequencing and phasing of construction activities; erosion and sediment control designed to control the rainfall and runoff from a 2 year, 24 hour storm, 2 year, including sediment basins to serve disturbed areas of ten acres; temporary or permanent ground cover provided within 15 days after final grading? Comment: | ☐ Yes ☑ No |
| New 11- 02 | Do technical standards require that construction activities maintain riparian buffers during construction? Comment: | ☐ Yes ☑ No |
| | Does the ordinance or regulatory mechanism clearly define the criteria - primarily who must submit - for submitting erosion and sediment control information or plans? If yes, note page number and paragraph number. Comment: | ☐ Yes ☑ No |
| | Does the ordinance or regulatory mechanism require approval by the local government prior to commencement of land disturbance activities? If yes, note page number and paragraph number. Comment: Site grading plan must be approved and grading permit issued by Codes | ☑ Yes □ No |
| i | Department. | |

| | Does the ordinance or regulatory mechanism require re-submittal of erosion and sediment control information or plans if site plans or conditions change during land disturbance activities? If yes, note page number and paragraph number. Comment: | ☐ Yes ☑ No |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| | Does the ordinance or regulatory mechanism allow right-of-entry for government officials onto construction sites for inspections? If yes, note page number and paragraph number. Comment: | ☑ Yes □ No |
| | Does the ordinance or regulatory mechanism give the MS4 owner/operator the authority to STOP WORK in the event of non-compliance violations? If yes, note page number and paragraph number. Comment: | ☑ Yes □ No |
| | | |
| | Questions related to construction site plans review | Ø |
| | Does the municipality presently have in place a technical review process (i.e. engineering department, planning department, zoning board) that evaluates new development and redevelopment construction for construction site runoff? | ☑ Yes □ No |
| | Comment: City Engineer and Construction Inspector | |
| | Does the technical review process require an erosion prevention and sediment control plan with appropriate BMPs? | ☑ Yes □ No |
| | Comment: Reviewed and approved prior to issuance of grading permit or building permit. | |
| New 11- 02 | Does the review process include a requirement for pre-construction meeting between the municipality and site developer, for priority construction sites, including at a minimum those construction activities discharging directly into, or immediately upstream of, waters the state recognizes as impaired or high quality? | ☐ Yes ☑ No |
| | Comment: | |
| | If there is a review process, provide a brief narrative or a flow chart of the process, describing the process steps, responsible personnel (by department, title and contact person), and criteria used for evaluation of information or plans that are submitted. | ☐ Attached |
| | Narrative: 1) Submit to staff for review & comment. 2) Correct deficiencies. 3) Submit for 2 nd staff review. 4) Placed on Planning Commission agenda for approval. 5) Obtain grading (or building) permit. | |
| | | |
| | Responding to public input and complaints | |
| | Does the municipality presently have procedures in place for receipt and consideration of information and complaints submitted by the public? | ☑ Yes □ No |
| | Comment: Phone calls to Mayor's office, City Engineer or Codes Department. | |
| | If Yes, please provide a brief narrative of the receipt process and procedures, describing process steps, responsible departments, and personnel (by title). If available, provide information on complaint tracking, documentation, etc. | ☐ Attached |
| | Narrative: Calls are received by Engineering, Codes or Public Works Depts.; appropriate City official responds to complaint, attempts to resolve issue and follows up with complaint caller (if necessary) | |

| | Questions related to enforcement and inspection procedures | \square |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| | Does the municipality presently have personnel and procedures in place for construction site runoff inspection? | ☑ Yes □ No |
| | Comment/Detail (inspection procedures, policies and responsible departments and personnel by title): Michael Blanks, Construction Inspector, Smyrna Codes Department Chuck Boyett, City Engineer | |
| New 11- 02 | Does the program provide for inspection of priority sites at least once per two weeks in wet weather and once per month otherwise? | ☐ Yes ☑ No |
| | Comment: | |
| | Does the municipality presently have procedures and personnel in place for enforcement of violations of construction site requirements? | ☑ Yes □ No |
| | Comment: May issue verbal warning, written letter or issue citation for codes violation. | |
| | Does the municipality use a STOP WORK order to enforce non-compliance with construction site policies and requirements? | ☑ Yes □ No |
| | Comment: Codes Dept. has stop work authority if no response to notice of violation. | |
| | How are enforcement actions documented? | |
| | Response: Phone calls are documented, letters are certified and citations issued with Police Dept. assistance. Municipal judge hears cases locally. | |
| i | 1 | |
| | Questions related to training and education | ☑ |
| | Does the municipality presently make construction site runoff control training/information available to the public, developers, engineers, and contractors? (Be aware that the state of Tennessee regularly conducts erosion prevention and sediment control classes across the state. Local governments are encouraged to refer developers and contractors to these classes.) | ☐ Yes ☑ No |
| | Comment: Intent is to cross-train all building codes inspectors and enforcement officers (7 total). | |
| New 11- 02 | Has municipal staff completed state-sponsored training, including the Tennessee Fundamentals of Erosion Prevention and Sediment Control; and the Erosion Prevention and Sediment Control Design Course? | ☑ Yes □ No |
| | Comment: Mr. Blanks and Mr. Boyett have completed, other building inspectors to receive training in years 2-5 of program. | |

In the following spaces, estimate dollars/year and man-hours/year for existing erosion prevention and sediment control activities. You may revise the categories if necessary to correlate with your own accounting figures.

| Existing activities – construction site runoff control program | Estimated dollars/year | Personnel and man-hours/year |
|----------------------------------------------------------------|------------------------|------------------------------|
| Construction site plans review | \$2,500/yr. | 96 |
| Responding to public input and complaints | \$5,000/yr. | 200 |
| Enforcement and inspection procedures | N/A | N/A |
| Training and education | \$1,500/yr. | 60 |

5) Post-Construction Runoff Control

a. Following is a set of questions on your current post-construction runoff control program.

These questions are intended to highlight minimum program requirements under the MS4 permit. Each element not currently performed must be implemented by the end of the first permit period. Thus, each question with a "No" answer must be addressed with a solution in the MS4's proposed program.

| Structural and non-structural strategies | Ø |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| The following is a general question related to this one of the six minimum measures. | |
| Does the municipality currently have in place mechanisms or strategies to reduce pollutants in post-construction runoff to the MS4 from new development or redevelopment projects that result in land disturbance of one acre or more? For example, land use planning requirements, zoning directives, site-based local control such as riparian buffer zone protection; storage or detention of storm water prior to release to streams; practices to cause storm water to percolate the soil rather than runof immediately; vegetative practices. | |
| Comment: Bonds requires for completion and maintenance of ground cover a landscaping. (See appendices) | and |
| If Yes, please provide a brief narrative of - and/or references to - the structural and no structural strategies, describing strategies implemented, best management practical allowed, technical guidance, responsible departments, and personnel (by title). | |
| Narrative: Land use zoning, planning and required to establish ground cover to relebond. Detention required for all new construction. | ase |
| | |
| Questions related to a post-construction site management ordinance | |
| Do you currently have an ordinance or regulatory mechanism that addresses post-construction runoff from new development and redevelopment projects? If yes, reference the page number in your ordinance. If No, proceed to the next section on poconstruction plans review. | ✓ Yes □ No |
| Comment: Municipal Ordinance and Subdivision Regulations in appendices / appropriate sections. | see |
| Does the ordinance or regulatory mechanism require controls to mitigate pollutants in storm water runoff? If yes, note page number and paragraph number. | ☐ Yes ☑ No |
| Comment: | |
| Does the ordinance or regulatory mechanism require (explicitly or implicitly) to controls be implemented for any new development or redevelopment projects greathan or equal to one acre, including projects less than one acre that are part of a lacommon plan of development or sale, that discharge into your small MS4? If yes, n page number and paragraph number. | ater 🗹 No rge |
| Comment: | |
| Does the ordinance or regulatory mechanism contain or reference technical standards f water quality controls? If yes, note page number and paragraph number. | for Yes |
| Comment: | |
| Does the ordinance or regulatory mechanism clearly define the criteria for submittal - who must submit - of post-construction water quality control design information or plans? If yes, note page number and paragraph number. | ☐ Yes ☑ No |

| Does the ordinance or regulatory mechanism require approval prior to construction of post-construction water quality controls? If yes, note page number and paragraph number. Comment: Does the ordinance or regulatory mechanism require re-submittal of post-construction water quality control design information or plans if site plans change after the initial design has been approved? If yes, please note page number and paragraph number. Comment: Does the ordinance or regulatory mechanism give the MS4 owner/operator the authority to penalize the owner of post-construction water quality controls for violations? If yes, note page number and paragraph number. Comment: Does the ordinance or regulatory mechanism allow the municipality right-of-entry on property where post-construction water quality controls are installed for inspections? If yes, please note page number and paragraph number. Comment: Does the ordinance or regulatory mechanism require that post-construction water quality controls have adequate and long-term operation and maintenance? If yes, please note page number and paragraph number. If no, how does the MS4 owner/operator maintain post-construction water quality controls. Comment: Does the ordinance or regulatory mechanism require establishment and maintenance of 11-11-11-11-11-11-11-11-11-11-11-11-11- | | Comment: | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|

6) Pollution Prevention and Good Housekeeping

a. The following is a set of questions on your current pollution prevention and good housekeeping program.

These questions are intended to highlight minimum program requirements under the MS4 permit. Each element not currently performed must be implemented by the end of the first permit period. Thus, each question with a "No" answer must be addressed with a solution in the MS4's proposed program.

| | Questions related to staff education and training | V |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| | Does the municipality's current operation and maintenance program provide annual training for staff on preventing and reducing storm water pollution from activities such as park and open space maintenance, fleet and building maintenance, new construction and land disturbances, and storm water system maintenance? If yes, briefly describe the training, including the educational materials used, the topic(s) covered, an estimate of the number of employees trained and the training method. | ☐ Yes ☑ No |
| | Comment: | |
| | Are training activities documented? If yes, please describe how | ☐ Yes ☐ No |
| | Comment: | |
| E | stimated dollars/year: Personnel and man- hours/year: | - |
| | Questions related to municipal operations pollution prevention | ✓ |
| | Does the municipality's operations and maintenance program have policies and procedures in place that address pollution prevention? Consider the following in your response: maintenance activities, maintenance schedules; long term inspection procedures for structural and non-structural storm water controls to reduce floatables and other pollutants; controls for reducing or eliminating the discharge of pollutants from streets, roads, highways; controls for reducing or eliminating pollutants from municipal parking lots, maintenance and storage yards, fleet or maintenance areas with outdoor storage areas, salt/sand storage areas, snow disposal areas, waste transfer stations; disposal of waste removed from storm sewers and the areas listed above; and assessment of impacts on water quality from new flood management projects. Comment: Limited to visual observations and correction. Need written procedures and routine inspections. | ☑ Yes □ No |
| | If Yes, provide a brief narrative or a flow chart of the review process, describing the process steps, responsible personnel (by department, title and contact person), and criteria used for evaluation of information or plans that are submitted. | ☐ Attached |
| E | stimated dollars/year: 5,000 Personnel and manhours/year: 200 | |
| | Questions related to municipal industrial activities | V |
| | Has the MS4 owner/operator obtained a <u>Tennessee Multi-Sector General Permit</u> or a no-exposure waiver for all qualifying municipal industrial activities? If yes, please give permit numbers or copy of the <u>No-Exposure Certification</u> form. Comment: List of current TMSP facilities in Smyrna is attached. See Exhibit B for location map. | ☐ Yes ☑ No |

List municipally-owned or operated facilities that have a notable potential for contaminating runoff: for example - vehicle maintenance garages; waste transfer operations; golf courses; salt or other materials storage; landfill. If more than one facility for a given type of operation, give the number of such facilities. Indicate if any of these are covered by an NPDES permit. Is there a documented pollution prevention plan in place for these facilities?

| Facility or type of facilities/operation | Num- ber | Is activity covered by NPDES permit? | Is a pollution prevention plan in effect? |
|--------------------------------------------------------------|-------------|--------------------------------------|-------------------------------------------|
| Wastewater Treatment Facility | 1 | Yes | No |
| Water Treatment Facility | 1 | Not required | No |
| City Maintenance Compound Parks, Streets, Gas, Water & Sewer | 1 | Not required | No |
| Golf Course | 1 | Not required | No |

b. List and briefly describe proposed management practices for municipal pollution prevention and good housekeeping.

In addition to considering industrial-type operations as in item a., you must also consider municipal infrastructure, and related maintenance activities, maintenance schedules and long-term inspection procedures for structural controls and the proper disposal of waste from storm sewers/ catch basins, etc. Also included in this program area is discharge of pollutants from roads and parking lots.

| 1 | Best Management Practices for Pollution Prevention and Good Housekeeping |
|---|----------------------------------------------------------------------------------------------|
| A | Storm Water Quality (SOP) Manual to be developed for all city owned facilities with |
| | SWP's/SPCC where required. |
| В | Rights-of-way and MS4 maintenance procedures will be review and updated to assure regulatory |
| | compliance. |
| C | Public drainage easement inspections and maintenance of culverts, catch basins, ditches and |
| | conveyances will be completed. |
| D | Employee education and awareness program to be included in employee training and safety |
| į | meetings. |

Potential BMPs. List additional BMPs you might incorporate into your program after annual review of program effectiveness.

Addendum to Small MS4 NPDES Permit Notice of Intent BMP Measurable Goals and Implementation Milestones

The purpose of this addendum is to record the measurable goals for each BMP, and the dates (month and year) by which interim actions are to be accomplished. Space is given for four BMPs for each of the six minimum measures. You may add tables for additional BMPs.

Measurable goals are BMP design objectives, or goals that will quantify the progress of implementing the actions or performance of a BMP. They are ways to measure activities or effects of a BMP. For each of the six minimum measures and for each BMP, define the measurable goal you will use to monitor effectiveness of this BMP. The BMPs you list here should match exactly those given in Part IV., 1 - 6) of the permit NOI. There is space already prepared here for four BMPs for each minimum measure. You can add additional tables. You can also extend tables by using Tab key in the last row of the table and beyond.

For each BMP, establish milestones for implementation. These tables are set up for once/year milestones. You may change the milestone dates to time frames less than one year. Also, certain BMPs - e.g., an ordinance - should be put in place within one year.

Best Management Practices for Public Education and Outreach

| BMP 1A | Public Education and Outreach Programs | |
|----------------|------------------------------------------------------------------------------------|--|
| Measurable | Public service announcements, schools program 1 per year, per school. | |
| Goal(s) | | |
| Milestone Yr 1 | Partner with County School System for education in 10 public schools located in | |
| | Smyrna. | |
| Milestone Yr 2 | Develop posters, mail-outs, radio ads, and include in newsletter and newspapers. | |
| Milestone Yr 3 | Organize civic groups for Spring/Fall clean up programs. | |
| Milestone Yr 4 | Develop Adopt-A-Stream program for civic groups, homeowners associations. | |
| Milestone Yr 5 | Awards and recognition program to recognize significant efforts and contributions. | |

| BMP 1B | Web Site | |
|----------------|-------------------------------------------------------------------------------------------|--|
| Measurable | Create storm water info on Smyrna web page. One web page with links to Town | |
| Goal(s) | departments. | |
| Milestone Yr 1 | Work with Information Service Dept. to add storm water info to existing site. | |
| Milestone Yr 2 | Enhance web page with information as it develops in committee meeting, agenda, ordinance. | |
| Milestone Yr 3 | Create database reports accessible from web page. | |
| Milestone Yr 4 | Enhance as appropriate. | |
| Milestone Yr 5 | Enhance as appropriate. | |

| BMP 1C | Hot Line | |
|----------------|-----------------------------------------------------------------------------|--|
| Measurable | 24-hour dedicated phone line with tracking database. | |
| Goal(s) | | |
| Milestone Yr 1 | Work with Information Service Dept. to set up phone line & tracking system. | |
| Milestone Yr 2 | Create database system for response and corrective action. | |
| Milestone Yr 3 | Develop reporting system to generate annual report. | |
| Milestone Yr 4 | Continue and enhance as appropriate. | |
| Milestone Yr 5 | Continue and enhance as appropriate. | |

| BMP 1D | Public Meetings and Training | |
|----------------|----------------------------------------------------------------------------------|--|
| Measurable | Annual public meetings / educational seminar. One public meeting and one seminar | |
| Goal(s) | per year. | |
| Milestone Yr 1 | Prepare 1 st year report to TDEC and public hearing. | |
| Milestone Yr 2 | Set up 1 storm water seminar per year open to public. | |
| Milestone Yr 3 | CATV Storm Water Committee meetings. | |
| Milestone Yr 4 | Continue all of above. | |
| Milestone Yr 5 | Continue all of above. | |

Best Management Practices for Public Participation and Involvement

| BMP 2A | Storm Water Advisory Committee | |
|----------------|-------------------------------------------------------------------------------|--|
| Measurable | Establish committee | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Appoint committee / set regular meetings. | |
| Milestone Yr 2 | Committee to develop Municipal Storm Water Ordinance for City Council action. | |
| | 18 month deadline – December 2004. | |
| Milestone Yr 3 | Semi-annual meetings to review ordinance. | |
| Milestone Yr 4 | Continue ordinance review and revisions (if necessary). | |
| Milestone Yr 5 | Continue ordinance review and revisions (as required). | |

| BMP 2B | Storm Water Administrative Board | |
|----------------|-------------------------------------------------------------------|--|
| Measurable | Establish Administrative Board | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Appoint board members, set regular meetings. | |
| Milestone Yr 2 | Establish Municipal Storm Water Ordinance enforcement procedures. | |
| Milestone Yr 3 | Set hearings and appeals process for violations. | |
| Milestone Yr 4 | Regular meetings. | |
| Milestone Yr 5 | Regular meetings. | |

| BMP 2C | Public Meetings | |
|----------------|--------------------------------------------------------------------------|--|
| Measurable | Public meeting for TDEC annual report. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Conduct public meeting to review annual report and hear public comments. | |
| Milestone Yr 2 | Annual report meeting. | |
| Milestone Yr 3 | Annual report meeting. | |
| Milestone Yr 4 | Annual report meeting. | |
| Milestone Yr 5 | Annual report meeting. | |

| BMP 2D | Citizens Action Groups | |
|----------------|-----------------------------------------------------------|--|
| Measurable | Organize citizen groups, civic, schools, homeowners assn. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Stream clean-up day. | |
| | | |

| Milestone Yr 2 | Involve Community Service Work Program in stream clean-up program. | |
|----------------|------------------------------------------------------------------------------------|--|
| Milestone Yr 3 | Civic groups, churches, Boy Scouts, ROTC, industries to organize work day efforts. | |
| Milestone Yr 4 | Develop Adopt-A-Stream Program and monitor activities. | |
| Milestone Yr 5 | Recognition and awards programs for significant efforts of civic groups. | |

Best Management Practices for Illicit Discharge Detection and Elimination

| BMP 3A | Municipal Storm Water Ordinance (prohibit illicit discharges) | |
|----------------|-----------------------------------------------------------------------------|--|
| Measurable | Develop and adopt Municipal Storm Water Ordinance | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Advisory Committee to develop draft ordinance. | |
| Milestone Yr 2 | Planning Commission to review and recommend to Council. Council to adopt by | |
| | December 31, 2004. (Meet 18 month TDEC requirement.) | |
| Milestone Yr 3 | Revise existing ordinances (see appendices) to eliminate contradictions. | |
| Milestone Yr 4 | Evaluate Municipal Storm Water Ordinance and revise, if necessary. | |
| Milestone Yr 5 | Evaluate and revise Municipal Storm Water Ordinance, if necessary. | |

| ВМР ЗВ | Dry Weather Screening / Inspections | |
|----------------|-------------------------------------------------------------------------------------------|--|
| Measurable | Conduct weather screenings / inspections. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Set up screening procedures, inspection report forms, train personnel, tracking database. | |
| Milestone Yr 2 | Screen 20% of outfalls and coordinate with inventory mapping effort. | |
| Milestone Yr 3 | Screen 30% of outfalls and coordinate with inventory mapping effort. | |
| Milestone Yr 4 | Screen 25% of outfalls and coordinate with inventory mapping system. | |
| Milestone Yr 5 | Screen 25% of outfalls and set up reporting and inventory identification system | |

| ВМР 3С | Hot Line and Complaints Tracking System | |
|----------------|-----------------------------------------------------------------------------------|--|
| Measurable | Establish hot line and complaint tracking system. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Set up dedicated phone line 24/7 for receiving, recording and follow-up response. | |
| Milestone Yr 2 | Develop database for reporting and identifying recurring problem areas. | |
| Milestone Yr 3 | Track and respond to calls / update database. | |
| Milestone Yr 4 | Track and respond to calls / update database. | |
| Milestone Yr 5 | Track and respond to calls / update database. | |

| BMP 3D | Storm Water System Inventory and Map | |
|----------------|--------------------------------------------------------------------------------------|--|
| Measurable | Inventory and map storm water system. | |
| Goal(s) | 100% complete by December 2006. | |
| Milestone Yr 1 | Develop mapping plan, outfall identification system, data to be collected, inventory | |
| | forms and database. | |

| Milestone Yr 2 | Inventory and mapping 50% complete and database set up. | |
|----------------|---------------------------------------------------------------------------------|--|
| Milestone Yr 3 | Inventory and mapping 100% complete and data loaded to system map and database. | |
| Milestone Yr 4 | Update inventory map and database. | |
| Milestone Yr 5 | Update inventory map and database. | |

Best Management Practices for Construction Site Runoff Control Program

| BMP 4A | Municipal Storm Water Ordinance Construction Site Run-Off Control Program | |
|----------------|------------------------------------------------------------------------------------------------------------------------|--|
| Measurable | Ordinance developed and adopted by Town Council. | |
| Goal(s) | | |
| Milestone Yr 1 | Advisory Committee to develop draft ordinance. | |
| Milestone Yr 2 | Planning Commission to review ordinance and recommend to Council to adopt by December 31, 2004. (18 month requirement) | |
| Milestone Yr 3 | Review and revise existing ordinances and regulations (see appendices) to eliminate contradictions. | |
| Milestone Yr 4 | Evaluate Municipal Storm Water Ordinance and revise (if necessary). | |
| Milestone Yr 5 | Evaluate Municipal Storm Water Ordinance and revise (if necessary). | |

| BMP 4B | Review, approval and record keeping of construction site / land disturbance activities. | |
|----------------|-----------------------------------------------------------------------------------------|--|
| Measurable | Procedures developed and implemented. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Advisory Committee to develop draft procedures to be included in Municipal Storm | |
| | Water Ordinance. | |
| Milestone Yr 2 | Planning Commission to review ordinance and recommend to Council to adopt by | |
| | December 31, 2004. (18 month requirement) | |
| Milestone Yr 3 | Implement procedures and develop database for tracking, recording and reporting by | |
| | January 2006. (30 month requirement) | |
| Milestone Yr 4 | Review and revise if necessary. | |
| | | |
| Milestone Yr 5 | Review and revise if necessary. | |
| | | |

| BMP 4C | Manual for Erosion Prevention and Sediment Control | |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Measurable | Manual developed and published for developers and public. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Review existing publications, TDEC, TVA, COE, Soil Conservation and others for applicable BMPS. | |
| Milestone Yr 2 | Advisory Committee to develop manual consistent with Municipal Ordinance requirements. | |
| Milestone Yr 3 | Publish manual and make copies available to all engineers and site developers prior to permit issuance. By January 2006. (30 month requirement) | |
| Milestone Yr 4 | Review and revise if necessary. | |
| Milestone Yr 5 | Review and revise if necessary. | |

| BMP 4D | Construction Site Inspection Program | |
|----------------|--------------------------------------------------------------------------------|---|
| Measurable | Inspection program developed with N.O.V. and follow-up. | |
| Goal(s) | Yes / No | Ī |
| Milestone Yr 1 | Develop Construction Site Inspection Program with report forms, checklists and | |
| | record keeping. | |

| Milestone Yr 2 | Implement Construction Site Inspection Program with monthly inspections on high | |
|----------------|---------------------------------------------------------------------------------|--|
| | priority land disturbance activities. | |
| Milestone Yr 3 | Establish routine construction site inspection program for all sites. | |
| | Complete by January 2006. (30 month requirement) | |
| Milestone Yr 4 | Hire and train additional storm water management personnel (as necessary). | |
| Milestone Yr 5 | Review, revise and update program (if necessary). | |

| BMP 4E | Enforcement | |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------------|--|
| Measurable | Implementation of enforcement policies, procedures and penalties. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Advisory Committee to develop enforcement procedures and penalties with Municipal Ordinance. | |
| Milestone Yr 2 | Planning Commission to recommend Enforcement Program to Town Council for adoption by December 31, 2004. | |
| Milestone Yr 3 | Storm Water Administrative Board to conduct hearings on violations and implement Enforcement Program. In place by January 2006 / 30 months. | |
| Milestone Yr 4 | Review, revise and update Enforcement Program as required. | |
| Milestone Yr 5 | Review, revise and update Enforcement Program as required. | |

Best Management Practices for Post-Construction Runoff Control

| BMP 5A | Municipal Storm Water Ordinance – Post Construction Run-off Control | |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------|--|
| Measurable | Ordinance developed and adopted by Town Council. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Advisory Committee to develop draft ordinance. | |
| Milestone Yr 2 | Planning Commission to review ordinance and recommend to Council to adopt by December 31, 2004. | |
| Milestone Yr 3 | Review and revise existing ordinances and regulations to eliminate contradictions. (see appendices) Complete by January 2006 / 30 months. | |
| Milestone Yr 4 | Evaluate Municipal Storm Water Ordinance and revise (if necessary). | |
| Milestone Yr 5 | Evaluate Municipal Storm Water Ordinance and revise (if necessary). | |

| BMP 5B | Review, Approval and Record Keeping of Post Construction Land Disturbance Activities | |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------|--|
| Measurable | Procedures developed and implemented. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Advisory Committee to develop draft procedures for post construction inspections. | |
| Milestone Yr 2 | Planning Commission to review procedures and recommend to Town Council for adoption. | |
| Milestone Yr 3 | Implement post construction inspection procedures and develop database for tracking, recording and reporting. Complete by January 2006. | |
| Milestone Yr 4 | Review and revise (if necessary). | |
| Milestone Yr 5 | Review and revise (if necessary). | |

| BMP 5C | Manual for Post Construction BMPs-Erosion Prevention & Sediment Control | |
|----------------|-------------------------------------------------------------------------------------------------------------------------|--|
| Measurable | Manual developed and published for developers and public. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Review existing publications TDEC, TVA, COE, Soil Conservation and others for applicable BMPs. | |
| Milestone Yr 2 | Advisory Committee to develop manual consistent with municipal ordinance requirements. | |
| Milestone Yr 3 | Publish manual and make copies to all engineers and site developers prior to permit issuance. Complete by January 2006. | |
| Milestone Yr 4 | Review and revise (if necessary). | |
| Milestone Yr 5 | Review and revise (if necessary). | |

| BMP 5D | Structural and Non-Structural strategies for Post Construction Runoff Control | |
|----------------|----------------------------------------------------------------------------------|--|
| Measurable | Develop administrative & structural requirements for post construction runoff | |
| Goal(s) | control. Yes / No | |
| Milestone Yr 1 | Manual developed for administrative requirements and structural maintenance for | |
| | post construction BMPs. | |
| Milestone Yr 2 | Advisory Committee to develop administrative policies and structural maintenance | |
| | requirements. | |

| Milestone Yr 3 | Publish manual and make available to public, property owners, developers, | |
|----------------|-------------------------------------------------------------------------------------|--|
| | engineers. Complete by January 2006 / 30 months. | |
| Milestone Yr 4 | Implement post construction administrative and structural maintenance requirements | |
| İ | including, but not limit to streamside buffer maintenance, detention ponds, parking | |
| | lots, storage lots, etc | |
| Milestone Yr 5 | | |
| | | |

Best Management Practices for Municipal Pollution Prevention and Good Housekeeping

| BMP 6A | Storm Water Pollution Prevention Program – Standard (In-House) Operating Procedures | |
|----------------|-----------------------------------------------------------------------------------------------------------------|--|
| Measurable | Develop storm water SOP for city-owned facilities. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Set up in-house committee with representatives of all affected departments. | |
| Milestone Yr 2 | Develop and implement standard operating policies, procedures, reports and database. TMSP – SWPPP based format. | |
| Milestone Yr 3 | Review, revise and update, if necessary. | |
| Milestone Yr 4 | Review, revise and update, if necessary. | |
| Milestone Yr 5 | Review, revise and update, if necessary. | |

| BMP 6B | Rights-of-Ways and MS4 | |
|----------------|----------------------------------------------------------------------------------------------------------------------|--|
| Measurable | Develop routine program for roadways / right-of-ways maintenance and inspections. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Develop storm water pollution prevention program for routine maintenance of streets, ditches, culvers, catch basins. | |
| Milestone Yr 2 | Implement routine storm water pollution prevention program for Public Works | |
| | Department. | |
| Milestone Yr 3 | Review, revise and update, if necessary. | |
| Milestone Yr 4 | Review, revise and update, if necessary. | |
| Milestone Yr 5 | Review, revise and update, if necessary. | |

| BMP 6C | Storm Water Pollution Prevention Training for City Departments and Employees | |
|----------------|------------------------------------------------------------------------------------|--|
| Measurable | Identify departments and employees for training. | |
| Goal(s) | Yes / No | |
| Milestone Yr 1 | Develop training program using in-house committee. | |
| Milestone Yr 2 | Implement training program for all departments affected – Streets, Vehicle Maint., | |
| | Building Maint., WWTP, WTP, Parks, Golf. | |
| Milestone Yr 3 | Annual refresher training and updates. | |
| Milestone Yr 4 | Annual refresher training and updates. | |
| Milestone Yr 5 | Annual refresher training and updates. | |

| BMP 6D | |
|----------------|---|
| Measurable | |
| Goal(s) | |
| Milestone Yr 1 | |
| | : |

| Milestone Yr 2 | |
|----------------|--|
| Milestone Yr 3 | |
| Milestone Yr 4 | |
| Milestone Yr 5 | |
