

Borrowing an Audiobook on Hoopla

- 1 First, go to **hoopladigital.com** on your computer - you will need to make an account and will need your library card to do so.

- 2 Go ahead and create your account. Once you do, you'll be able to log in. If you already have an account, it will not let you assign your library card to another account. Instead, you will have to get a new password.

- 3 After you log in, you'll see the Hoopla landing page. The thing that sets Hoopla apart from Libby is that Hoopla carries items that only the library owns, unlike the coop which we share with other branches. If you can't find it on Libby, try Hoopla and if you can't find only Hoopla - you can request it.

- 4 From this page, you can see how many borrowos you have for the month or use the search to find a book, movie, audiobook or any music. Unlike Libby where you're restricted by how many borrowos in total, the borrow amounts reset every month. Hoopla has two different hold types: Instant and Flex. Here are the differences between the two.

⚡ Instant Borrowos

Your Library provides you with 7 new Instant Borrowos at the start of each month.

Instant titles are always immediately available - with no holds or waiting.

⌚ Flex Borrowos

You can borrow up to 5 Flex titles at any one time.

You can always get another Flex borrow by returning a Flex title you have checked out.

If no copies of a Flex title your library owns are available, you can place a Hold to reserve your place in line.

7 Much like eBooks, there are two types of audiobooks: Instant and Flex. An Instant borrow has no waitlist while a Flex borrow might have a waitlist.

8 To find an audiobook you would like to listen to, you can search for it in the search bar - in this case, we're going to listen to an Instant audiobook. Click on the audiobook that you want and choose Borrow. You can listen to the book in your browser but can only download it on a mobile device. Go ahead and click Borrow Title and you will see that it's been borrowed to your hoopla. We can now listen to it!

- 9 The audiobook player will be at the bottom of your screen so you can continue searching without it getting in the way of what you're doing. If you're not using your browser, and just want to listen to the book while you do something else, you can hit the carrot to the left of the play button and it brings up the full audiobook player.

- 10 The player gives two options on how you would like to listen: by chapter (how much time is left) and by book (how much is left in your book). It also gives controls for how fast or slow you'd like to listen to your book, a sleep timer, chapters, bookmarks and a place to report any problems.

- 11 When you're done listening, you can either return it early or just let the loan expire, it returns itself! (Unfortunately, you don't gain back an Instant Borrow when you return your Instant audiobook - you can with Flex Borrows!)

Returns on Monday, May 09, 2022, 3:13 PM EDT

NOTE: Returning an Instant Borrow will not increase the number of Instant Borrows remaining for the month.

- 12 You can also listen to your audiobook on the app. Here's what it looks like for an audiobook (you can also choose the car view option) and the controls are very similar to the browser version.
