

TUSCARAWAS COUNTY ENGINEER – EXCESS WOOD DISPOSAL

Name _____

Property Address _____

Billing Address (if different) _____

Daytime telephone _____

E-mail address _____

Detailed description of exactly where on property to be dumped (mark with stake if possible) _____

Number of loads desired _____

This excess wood **WILL NOT** be cut to firewood lengths, but will be the largest random lengths that will fit in our trucks. The wood will be hauled in the County's tandem dump trucks, and will be dumped, not stacked. Because of the weight of the trucks, there may be damage to lawns and/or driveways, so keep this in mind when choosing your location. It must be a good site at which our truck can dump the load. The County **IS NOT** responsible for repair to lawns or driveways.

The owner will be **billed** by the County at the rate of **\$75** per tandem truck load delivered and dumped. For record keeping purposes, our field personnel are not permitted to receive your payment.

Due to our operations, we cannot guarantee when (or if) you will get firewood; we will haul to the nearest available location. Weather must be suitable for us to reach your specified location.

Please understand that the landowner from where we cut the tree(s) has the first opportunity to have the firewood. If your circumstances change such that you do not want wood, please contact us immediately.

I have read and understand the above conditions.
