## YCUA Participates in COVID-19 Testing Program

On Saturday, December 12th, Ypsilanti Community Utilities Authority (YCUA) assisted the Washtenaw County Health Department by facilitating COVID-19 testing at its Service Center building on Clark Road in Ypsilanti Township. To provide protection from the winter weather, YCUA designated two heated fleet vehicle bays for drive-through COVID-19 testing. From 10 a.m. to 3 p.m. that day, members of the public were able to drive into the bays on one side of the facility in order to receive testing in their cars and then exit on the opposite side of the building. YCUA staff was on hand to assist with queuing vehicles and support. The Washtenaw County Sheriff's Department managed traffic on Clark Road.

The effort was tremendously successful and 168 residents were able to receive testing by the health department's medical staff. YCUA looks forward partnering with the Washtenaw County Health Department, the Charter Township of Ypsilanti, and the City of Ypsilanti on similar projects in the future as we continue to work together in the fight against the COVID-19 pandemic.
