Michigan Avenue at Paint Creek Water Main Rehabilitation Charter Township of Ypsilanti

Starting Monday, March 29, 2021, Ypsilanti Community Utilities Authority (YCUA) will be making repairs to the water supply system along West Michigan Avenue at Paint Creek between Mansfield Street and Ellsworth Road. The repair will involve lining the section of pipe under the creek. The work will be completed by Fre-Pal Construction USA, LLC, a contractor for YCUA.

The repair work will require the westbound travel lane to be closed with westbound traffic shifted into the center turn lane. Eastbound traffic will not be affected.

Weather permitting, work is scheduled to be completed May 10, 2021. If you have any questions regarding this project please call YCUA Engineering Manager Scott Westover at 734-484-4600 extension 220.
